Item 4 Advisory Business

Brick and Kyle Associates is a SEC-registered investment adviser with its principal place of business located in Pennsylvania. Brick and Kyle Associates began conducting business in 1998.

Listed below are the firm's principal shareholders (i.e., those individuals and/or entities controlling 25% or more of this company).

- Edgar Wilson Brick, Chairman

Brick and Kyle Associates offers the following advisory services to our clients:

INDIVIDUAL PORTFOLIO MANAGEMENT

Our firm provides asset management services of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on the client's particular circumstances are established, we develop the client's personal investment profile. We create and manage a portfolio based on that profile. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs.

Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

Once the client's portfolio has been established, the account is reviewed at least quarterly by an account manager. The frequency of review is dependent upon events which we view as having significant impact on the entire portfolio. Such events would generally include a disappointing earnings report by a portfolio company or a major national or international economic development. Presently, no manager is assigned more than 125 accounts.

Monthly asset statements denoting market values and book values and a complete listing of all securities held in the portfolio are provided by the clients' custodian. Confirmation statements denoting each individual transaction are provided by the clients' custodian.

Our investment recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company and will generally include advice regarding the following securities:

- Exchange-listed securities
- Securities traded over-the-counter
- Foreign issuers
- Corporate debt securities (other than commercial paper)

- Certificates of deposit
- Mutual fund shares
- United States governmental securities
- Options contracts on securities

Because some types of investments involve certain additional degrees of risk, they will only be purchased when consistent with the client's stated investment objectives, tolerance for risk, liquidity and suitability.

FINANCIAL PLANNING

We provide financial planning services. Financial planning is a comprehensive evaluation of a client's current and future financial state by using currently known variables to predict future cash flows, asset values and withdrawal plans. Through the financial planning process, all questions, information and analysis are considered as they impact and are impacted by the entire financial and life situation of the client. Clients purchasing this service receive a written report which provides the client with a detailed financial plan designed to assist the client achieve his or her financial goals and objectives.

In general, the financial plan can address any or all of the following areas:

- **PERSONAL:** We review family records, budgeting, personal liability, estate information and financial goals.
- **TAX & CASH FLOW:** We analyze the client's income tax and spending and planning for past, current and future years; then illustrate the impact of various investments on the client's current income tax and future tax liability.
- **INVESTMENTS:** We analyze investment alternatives and their effect on the client's portfolio.
- **INSURANCE:** We review existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home and automobile.
- **RETIREMENT:** We analyze current strategies and investment plans to help the client achieve his or her retirement goals.
- **DEATH & DISABILITY:** We review the client's cash needs at death, income needs of surviving dependents, estate planning and disability income.

- ESTATE: We assist the client in assessing and developing long-term strategies.

We gather required information through in-depth personal interviews. Information gathered includes the client's current financial status, tax status, future goals, returns objectives and attitudes towards risk. We carefully review documents supplied by the client, including a questionnaire completed by the client, and prepare a written report. Should the client choose to implement the recommendations contained in the plan, we suggest the client work closely with his/her attorney, accountant, insurance agent, and/or stockbroker. Implementation of financial plan recommendations is entirely at the client's discretion.

We also provide general non-securities advice on topics that may include tax and budgetary planning, estate planning and business planning.

- Exchange-listed securities
- Securities traded over-the-counter
- Foreign issuers
- Corporate debt securities (other than commercial paper)
- Certificates of deposit
- Mutual fund shares
- United States governmental securities
- Options contracts on securities

Typically the financial plan is presented to the client within six months of the contract date, provided that all information needed to prepare the financial plan has been promptly provided.

Financial Planning recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company. All recommendations are of a generic nature.

SEMINARS

Brick & Kyle conducts pre-retirement and "Planning Your Financial Future" seminars for corporations' employees. Seminar topics include tax treatments of lump sum distributions from qualified profit sharing, pension and savings plans as well as insurance needs, estate planning, college funding and general investment strategies. An average of four seminars are performed per year.

Brick & Kyle conducts individual counseling sessions for corporations' employees and for other individuals. Based on the individuals' financial data, a 30-year financial projection is created to assess the individuals' financial strengths and weaknesses in their retirement years. On average one and a half (1 1/2) hours per individual is spent developing the financial projection. An average of 5 to 10 counselings are performed by our investment executives on a monthly basis.

AMOUNT OF MANAGED ASSETS

As of 1/14/2015, we were actively managing \$202,000,000 of clients' assets on a discretionary basis.

Item 5 Fees and Compensation

PORTFOLIO MANAGEMENT SERVICES FEES

Our annual fees for Portfolio Management Services are 1.00% annually of assets under management. Brick and Kyle retains the discretion to negotiate fees on a client by client basis.

Our fees are billed quarterly and are payable in advance. Each quarterly billing is 25 percent (25%) of the appropriate annual fee applied to the end of quarter market value, including cash and equivalents. Fees will be debited from the account in accordance with the client authorization in the Client Services Agreement.

A minimum of \$250,000 of assets under management is required for this service. This account size may be negotiable under certain circumstances. Brick and Kyle Associates may group certain related client accounts for the purposes of achieving the minimum account size and determining the annualized fee.

The specific annual fee schedule is identified in the contract between the adviser and each client.

Discounts, not generally available to our advisory clients, may be offered to family members and friends of associated persons of our firm.

FINANCIAL PLANNING FEES

Brick and Kyle Associates' Financial Planning fee is determined based on the nature of the services being provided and the complexity of each client's circumstances. All fees are agreed upon prior to entering into a contract with any client.

GENERAL INFORMATION

Termination of the Advisory Relationship: A client agreement may be canceled at any time, by either party, for any reason upon receipt of written notice. As disclosed above, certain fees are paid in advance of services provided. Upon termination of any account, any prepaid, unearned fees will be promptly refunded. In calculating a client's reimbursement of fees, we will pro rate the reimbursement according to the number of days remaining in the billing period.

Mutual Fund Fees: All fees paid to Brick and Kyle Associates for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds and/or ETFs to their shareholders. These fees and expenses are described in each fund's prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. If the fund also imposes sales charges, a client may pay an initial or deferred sales charge. A client could invest in a mutual fund directly, without our services. In that case, the client would not receive the services provided by our firm which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to each client's financial condition and objectives. Accordingly, the client should review both the fees charged by the funds and our fees to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

All mutual funds and Exchange Traded Funds (ETFs) have management fees that are charged within the fund. They generally range from .25% to .9% on ETFs, and from 1.00% to 1.25% on mutual funds, which include the 12b-1. Brick & Kyle's advisory calculation will include the value of all mutual funds and ETFs.

Additional Fees and Expenses: In addition to our advisory fees, clients are also responsible for the fees and expenses charged by custodians and/or imposed by broker dealers. Please refer to the "Brokerage Practices" section (Item 12) of this Form ADV for additional information.

Advisory Fees in General: Clients should note that similar advisory services may (or may not) be available from other registered (or unregistered) investment advisers for similar, lower, or higher fees.

Limited Prepayment of Fees: Under no circumstances do we require or solicit payment of fees in excess of \$1200 more than six months in advance of services rendered.

Item 6 Performance-Based Fees and Side-By-Side Management

Brick and Kyle Associates does not charge performance-based fees.

Item 7 Types of Clients

Brick and Kyle Associates provides advisory services to the following types of clients:

- Individuals (other than high net worth individuals)
- High net worth individuals
- Pension and Profit sharing plans.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

METHODS OF ANALYSIS

We use the following methods of analysis in formulating our investment advice and/or managing client assets:

Charting. In this type of technical analysis, we review charts of market and security activity in an attempt to identify when the market is moving up or down and to predict how long the trend may last and when that trend might reverse.

Fundamental Analysis. We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is undervalued (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell).

Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market

regardless of the economic and financial factors considered in evaluating the stock.

Technical Analysis. We analyze past market movements and apply that analysis to the present in an attempt to recognize recurring patterns of investor behavior and potentially predict future price movement.

Technical analysis does not consider the underlying financial condition of a company. This presents a risk in that a poorly-managed or financially unsound company may underperform regardless of market movement.

Cyclical Analysis. In this type of technical analysis, we measure the movements of a particular stock against the overall market in an attempt to predict the price movement of the security.

Asset Allocation. Rather than focusing primarily on securities selection, we attempt to identify an appropriate ratio of securities, fixed income, and cash suitable to the client's investment goals and risk tolerance.

A risk of asset allocation is that the client may not participate in sharp increases in a particular security, industry or market sector. Another risk is that the ratio of securities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the client's goals.

Risks for all forms of analysis. Our securities analysis methods rely on the assumption that the companies whose securities we purchase and sell, the rating agencies that review these securities, and other publicly-available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

INVESTMENT STRATEGIES

We use the following strategy(ies) in managing client accounts, provided that such strategy(ies) are appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations:

Long-term purchases. We purchase securities with the idea of holding them in the client's account for a year or longer. Typically we employ this strategy when:

- we believe the securities to be currently undervalued, and/or
- we want exposure to a particular asset class over time, regardless of the current projection for this class.

A risk in a long-term purchase strategy is that by holding the security for this length of time, we may not take advantage of short-term gains that could be profitable to a client. Moreover, if our predictions are incorrect, a security may decline sharply in value before we make the decision to sell.

Short-term purchases. When utilizing this strategy, we purchase securities with the idea of selling them within a relatively short time (typically a year or less). We do this in an attempt to take advantage of conditions that we believe will soon result in a price swing in the securities we purchase.

Option writing. We may use options as an investment strategy. An option is a contract that gives the buyer the right, but not the obligation, to buy or sell an asset (such as a share of stock) at a specific price on or before a certain date. An option, just like a stock or bond, is a security. An option is also a derivative, because it derives its value from an underlying asset.

The two types of options are calls and puts:

- A call gives us the right to buy an asset at a certain price within a specific period of time. We will buy a call if we have determined that the stock will increase substantially before the option expires.
- A put gives us the holder the right to sell an asset at a certain price within a specific period of time. We will buy a put if we have determined that the price of the stock will fall before the option expires.

We use "covered calls", in which we sell an option on security you own. In this strategy, you receive a fee for making the option available, and the person purchasing the option has the right to buy the security from you at an agreed-upon price.

We may also purchase "protective puts", in which the client pays a premium for the ability to sell the underlying security at a specific price if the security loses market value.

Short sale margin transactions are not recommended to individual clients unless they expressly request such accounts or programs.

Item 9 Disciplinary Information

We are required to disclose any legal or disciplinary events that are material to a client's or prospective client's evaluation of our advisory business or the integrity of our management.

Our firm and our management personnel have no reportable disciplinary events to disclose.

Item 10 Other Financial Industry Activities and Affiliations

Some management personnel of Brick and Kyle Associates are separately licensed as registered representatives of Coastal Equities, Inc., an unaffiliated broker-dealer. These individuals, in their separate capacity, can effect securities transactions for which they will receive separate, yet customary compensation.

Brick and Kyle Associates endeavors at all times to put the interest of its clients first as part of our fiduciary duty as a registered investment adviser. We take the following steps to address any potential conflicts:

- we disclose to clients that they are not obligated to purchase recommended investments from our employees;
- we collect, maintain and document accurate, complete and relevant client background information, including the client's financial goals, objectives and risk tolerance;
- our firm's management conducts regular reviews of each client account to verify that all recommendations made to a client are suitable to the client's needs and circumstances;
- we require that our employees seek prior approval of any outside employment activity so that we may ensure that any conflicts of interests in such activities are properly addressed;
- we periodically monitor these outside employment activities to verify that any conflicts of interest continue to be properly addressed by our firm; and
- we educate our employees regarding the responsibilities of a fiduciary, including the need for having a reasonable and independent basis for the investment advice provided to clients.

Brokerage and Best Execution Summary:

All Investment Advisory trades will be placed through Charles Schwab and Co. as custodian unless otherwise directed. Brick & Kyle has no soft dollar arrangements. Soft dollar arrangements include research, products, and client referrals. These arrangements could cause a conflict of interest, thus Brick & Kyle chooses not to engage in any such practice.

Brick & Kyle has a fiduciary duty to monitor brokerage services through Charles Schwab. To accomplish this, Brick & Kyle meets every quarter to evaluate trading through Charles Schwab. Several other procedures have been adopted to assure best execution. These include cross-checking every trade, keeping a random blotter of executed time stamped trades with a corresponding day chart of the security, and logging Charles Schwab's responsiveness to issues such as trade errors and other problems.

Brick & Kyle has negotiated with Charles Schwab and was able to establish a \$7.95 flat fee/commission per trade ticket.

Commissions may be higher or lower than those charged by other broker-dealers/clearing firms.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Our firm has adopted a Code of Ethics which sets forth high ethical standards of business conduct that we require of our employees, including compliance with applicable federal securities laws.

Brick and Kyle Associates and our personnel owe a duty of loyalty, fairness and good faith towards our clients, and have an obligation to adhere not only to the specific provisions of the Code of Ethics but to the general principles that guide the Code.

Our Code of Ethics includes policies and procedures for the review of quarterly securities transactions reports as well as initial and annual securities holdings reports that must be submitted by the firm's access persons. Among other things, our Code of Ethics also requires the prior approval of any acquisition of securities in a limited offering (e.g., private placement) or an initial public offering. Our code also provides for oversight, enforcement and recordkeeping provisions.

Brick and Kyle Associates' Code of Ethics further includes the firm's policy prohibiting the use of material non-public information. While we do not believe that we have any particular access to non-public information, all employees are reminded that such information may not be used in a personal or professional capacity.

A copy of our Code of Ethics is available to our advisory clients and prospective clients. You may request a copy by calling us at 215-493-4933.

Our Code of Ethics is designed to assure that the personal securities transactions, activities and interests of our employees will not interfere with (I) making decisions in the best interest of advisory clients and (II) implementing such decisions while, at the same time, allowing employees to invest for their own accounts.

Our firm and/or individuals associated with our firm may buy or sell for their personal accounts securities identical to or different from those recommended to our clients. In addition, any related person(s) may have an interest or position in a certain security(ies) which may also be recommended to a client.

It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account, thereby preventing such employee(s) from benefiting from transactions placed on behalf of advisory accounts.

We will aggregate our employee trades with client transactions whenever possible. In these instances, participating clients will receive an average share price. In the instances where there is a partial fill of a particular batched order, we will allocate all purchases pro-rata, with each account paying the average price. Our employee accounts will be included in the pro-rata allocation.

As these situations represent actual or potential conflicts of interest to our clients, we have established the following policies and procedures for implementing our firm's Code of Ethics, to ensure our firm complies with its regulatory obligations and provides our clients and potential clients with full and fair disclosure of such conflicts of interest:

1. No principal or employee of our firm may put his or her own interest above the interest of an advisory client.
2. No principal or employee of our firm may buy or sell securities for their personal portfolio(s) where their decision is a result of information received as a result of his or her employment unless the information is also available to the investing public.
3. It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account. This prevents such employees from benefiting from transactions placed on behalf of advisory accounts.
4. Our firm requires prior approval for any IPO or private placement investments by related persons of the firm.
5. We maintain a list of all reportable securities holdings for our firm and anyone associated with this advisory practice that has access to advisory recommendations ("access person"). These holdings are reviewed on a regular basis by our firm's Chief Compliance Officer or his/her designee.
6. We have established procedures for the maintenance of all required books and records.
7. Brick & Kyle does not have any limitations regarding the type of securities to be bought or sold or the amount of securities to be bought or sold. If a client wishes to place restrictions in his/her account as to the type or number of securities to be bought or sold, that request must be written and included with the signed investment advisory agreement upon establishment of the account.
8. All of our principals and employees must act in accordance with all applicable Federal and

State regulations governing registered investment advisory practices.

9. We require delivery and acknowledgement of the Code of Ethics by each supervised person of our firm.
10. We have established policies requiring the reporting of Code of Ethics violations to our senior management.
11. Any individual who violates any of the above restrictions may be subject to termination.

As disclosed in the preceding section of this Brochure (Item 10), related persons of our firm may be separately registered as securities representatives of a broker-dealer. Please refer to Item 10 for a detailed explanation of these relationships and important conflict of interest disclosures.

Item 12 Brokerage Practices

Brick and Kyle Associates will block trades where possible and when advantageous to clients. This blocking of trades permits the trading of aggregate blocks of securities composed of assets from multiple client accounts.

Block trading may allow us to execute equity trades in a timelier, more equitable manner, at an average share price. Brick and Kyle Associates' block trading policy and procedures are as follows:

- 1) Transactions for any client account may not be aggregated for execution if the practice is prohibited by or inconsistent with the client's advisory agreement with Brick and Kyle Associates, or our firm's order allocation policy.
- 2) The trading desk in concert with the portfolio manager must determine that the purchase or sale of the particular security involved is appropriate for the client and consistent with the client's investment objectives and with any investment guidelines or restrictions applicable to the client's account.
- 3) The portfolio manager must reasonably believe that the order aggregation will benefit, and will enable Brick and Kyle Associates to seek best execution for each client participating in the aggregated order. This requires a good faith judgment at the time the order is placed for the execution. It does not mean that the determination made in advance of the transaction must always prove to have been correct in the light of a "20-20 hindsight" perspective. Best execution includes the duty to seek the best quality of execution, as well as the best net price.
- 4) Prior to entry of an aggregated order, an order allocation must be completed which identifies each client account participating in the order and the proposed allocation of the order, upon completion, to those clients.

- 5) If the order cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated pro rata among the participating client accounts in accordance with the initial written statement of allocation. However, adjustments to this pro rata allocation may be made to participating client accounts in accordance with the initial written statement of allocation. Furthermore, adjustments to this pro rata allocation may be made to avoid having odd amounts of shares held in any client account.
- 6) Generally, each client that participates in the aggregated order must do so at the average price for all separate transactions made to fill the order.
- 7) If the order will be allocated in a manner other than that stated in the initial statement of allocation, a written explanation of the change must be provided to and approved by the Chief Compliance Officer no later than the morning following the execution of the aggregate trade.
- 8) Brick and Kyle Associate's client account records separately reflect, for each account in which the aggregated transaction occurred, the securities which are held by, and bought and sold for, that account.
- 9) Funds and securities for aggregated orders are clearly identified on Brick and Kyle Associate's records and to the broker-dealers or other intermediaries handling the transactions, by the appropriate account numbers for each participating client.
- 10) No client or account will be favored over another.
- 11) Bunched trades will not have an effect on commission rates, as there will be a \$7.95 ticket charge per trade regardless.

Notes: Employees participating in the block trade will never get a higher price, when selling, or a lower price, when buying, than the client. All trades are cross-checked the following day to ensure proper execution. If a client did receive a different price than another client, the problem is corrected to give each client the average price.

Item 13 Review of Accounts

PORTFOLIO MANAGEMENT SERVICES

REVIEWS: While the underlying securities within Individual Portfolio Management Services accounts are continually monitored, these accounts are reviewed quarterly. Accounts are reviewed in the context of each client's stated investment objectives and guidelines. More frequent reviews may be triggered by material changes in variables such as the client's individual circumstances, or the market, political or economic environment.

These accounts are reviewed by: Edgar Brick (Chairman), Betty Brick (Vice President), Andrew Brick (President), Jerry Walther (Senior Vice President), Jonathan Kallen (CCO, Portfolio Manager) and James Lewers (Portfolio Manager).

REPORTS: Clients will receive, at least quarterly, a statement of holdings and activity from Charles Schwab. Clients will also receive a trade confirmation for every buy or sell.

FINANCIAL PLANNING SERVICES

REVIEWS: While reviews may occur at different stages depending on the nature and terms of the specific engagement, typically no formal reviews will be conducted for Financial Planning clients unless otherwise contracted.

REPORTS: Financial Planning clients will receive a completed financial plan. Additional reports will not typically be provided unless otherwise contracted.

Item 14 Client Referrals and Other Compensation

It is Brick and Kyle Associates' policy not to engage solicitors or to pay related or non-related persons for referring potential clients to our firm.

It is Brick and Kyle Associates' policy not to accept or allow our related persons to accept any form of compensation, including cash, sales awards or other prizes, from a non-client in conjunction with the advisory services we provide to our clients.

Item 15 Custody

Our firm does not have actual or constructive custody of client accounts.

Item 16 Investment Discretion

Clients hire us to provide discretionary asset management services, in which case we place trades in a client's account without contacting the client prior to each trade to obtain the client's permission.

Our discretionary authority includes the ability to do the following without contacting the client:

- determine the security to buy or sell; and/or
- determine the amount of the security to buy or sell

Clients give us discretionary authority when they sign a discretionary agreement with our firm, and may limit this authority by giving us written instructions. Clients may also change/amend such limitations by once again providing us with written instructions.

Item 17 Voting Client Securities

As a matter of firm policy, we do not vote proxies on behalf of clients. Therefore, although our firm may provide investment advisory services relative to client investment assets, clients maintain exclusive responsibility for directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted. Clients are responsible for instructing each custodian of the assets, to forward to the client copies of all proxies and shareholder communications relating to the client's investment assets.

We may provide clients with consulting assistance regarding proxy issues if they contact us with questions at our principal place of business.

Item 18 Financial Information

Under no circumstances do we require or solicit payment of fees in excess of \$1200 per client more than six months in advance of services rendered. Therefore, we are not required to include a financial statement.

As an advisory firm that maintains discretionary authority for client accounts, we are also required to disclose any financial condition that is reasonable likely to impair our ability to meet our contractual obligations. Brick and Kyle Associates has no additional financial circumstances to report.

Brick and Kyle Associates has not been the subject of a bankruptcy petition at any time during the past ten years.
