This Brochure provides information about the qualifications and business practices of Tyner Capital Management Investment Counsel, Inc. If you have any questions about the contents of this Brochure, please contact us at telephone number 423-886-2625 or email address [tcm@tynercapital.com](mailto:tcm@tynercapital.com). The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Tyner Capital Management Investment Counsel, Inc. is an investment advisory firm registered with the appropriate regulatory authority. Registration does not imply a certain level of skill or training. Additional information about Tyner Capital Management Investment Counsel, Inc. also is available on the SEC's website at [www.AdviserInfo.sec.gov](http://www.AdviserInfo.sec.gov).

**Item 2 – Material Changes**

This Brochure is prepared in the revised format required beginning in 2011. Registered Investment Advisers are required to use this format to inform clients of the nature of advisory services provided, types of clients served, fees charged, potential conflicts of interest and other information. The new Brochure requirements include providing a Summary of Material Changes (the "Summary") reflecting any material changes to our policies, practices, or conflicts of interest made since our last required "annual update" filing. In the event of any material changes, such Summary is provided to all clients within 120 days of our fiscal year-end. Our last annual update was filed on February 25, 2014. Of course the complete Brochure is available to clients at any time upon request.

## Item 4 – Advisory Business

### General Information

Tyner Capital Management Investment Counsel, Inc. (“Tyner Capital Management”) was formed in 1993, and provides portfolio management services to its clients.

Paul Tyner is the sole principal owner of Tyner Capital Management. Please see **Brochure Supplement**, Exhibit A, for more information on Mr. Tyner.

As of December 31, 2014, Tyner Capital Management managed \$141,910,323 on a discretionary basis, and \$1,117,689 of assets on a non-discretionary basis.

### **SERVICES PROVIDED**

The firm specializes in the management of equity portfolios through fundamental research and a disciplined investment process. Our primary objective is the long-term real growth of our clients’ capital. This is accomplished through investments in companies with relatively favorable attributes which offer appreciation potential from:

Value - Through the purchase of shares at prices favorable to a company’s real financial worth; and

Growth –Through a high return on shareholders’ capital, earnings momentum, and cash flow.

At the outset of each client relationship, Tyner Capital Management spends time with the client, asking questions, discussing the client’s investment experience and financial circumstances, and reviewing options for the client. Based on its reviews, Tyner Capital Management generally develops with each client:

- a financial outline for the client based on the client’s financial circumstances and goals, and the client’s risk tolerance level (the “Financial Profile”); and
- the client’s investment objectives and guidelines (the “Investment Plan”).

The Financial Profile is a reflection of the client’s current financial picture and a look to the future goals of the client. The Investment Plan outlines the types of investments Tyner Capital Management will make or recommend on behalf of the client to meet those goals. The Profile and the Plan are discussed regularly with each client, but are not necessarily written documents.

### Portfolio Management

As described above, at the beginning of a client relationship, Tyner Capital Management meets with the client, gathers information, and performs research and analysis as necessary to develop the client’s Investment Plan. The Investment Plan will be updated from time to time when requested by the client, or when determined to be necessary or advisable by Tyner Capital Management based on updates to the client’s financial or other circumstances.

To implement the client's Investment Plan, Tyner Capital Management will manage the client's investment portfolio on a discretionary or a non-discretionary basis. As a discretionary investment adviser, Tyner Capital Management will have the authority to supervise and direct the portfolio without prior consultation with the client. Under a non-discretionary arrangement, clients must be contacted prior to the execution of any trade in the account(s) under management. This may result in a delay in executing recommended trades, which could adversely affect the performance of the portfolio. This delay also normally means the affected account(s) will not be able to participate in block trades, a practice designed to enhance the execution quality, timing and/or cost for all accounts included in the block. In a non-discretionary arrangement, the client retains the responsibility for the final decision on all actions taken with respect to the portfolio.

Notwithstanding the foregoing, clients may impose certain written restrictions on Tyner Capital Management in the management of their investment portfolios, such as prohibiting the inclusion of certain types of investments in an investment portfolio or prohibiting the sale of certain investments held in the account at the commencement of the relationship. Each client should note, however, that restrictions imposed by a client may adversely affect the composition and performance of the client's investment portfolio. Each client should also note that his or her investment portfolio is treated individually by giving consideration to each purchase or sale for the client's account. For these and other reasons, performance of client investment portfolios within the same investment objectives, goals and/or risk tolerance may differ and clients should not expect that the composition or performance of their investment portfolios would necessarily be consistent with similar clients of Tyner Capital Management.

## **Item 5 – Fees and Compensation**

Fees are not negotiated.

The specific manner in which fees are charged Tyner Capital Management is established in the client's written agreement with Tyner Capital Management. Fees are billed on a quarterly basis in arrears. Clients are billed directly for fees or have authorized Tyner Capital Management to directly debit fees from client accounts. Accounts initiated or terminated during a calendar quarter will be charged a prorated fee. Upon termination of any account, any earned, unpaid fees will be due and payable.

The annual fee structure is as follows:

1. Equity and Balanced Accounts:
  - 1.00% of the first \$500,000 of assets
  - 0.75% of the next \$500,000 of assets
  - 0.50% of the balance;
2. Fixed Income Management (100% bond portfolio)
  - 0.50% of the first \$500,000
  - 0.40% of the next \$500,000
  - 0.30% of the balance.

The minimum annual fee is \$2,500.

Tyner Capital Management's fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which shall be incurred by the client. Please see **Item 12 - Brokerage Practices** for additional information. Clients may incur certain charges imposed by custodians, brokers, third party investment and other third parties such as fees charged by managers, custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual funds and exchange traded funds also charge internal management fees, which are disclosed in a fund's prospectus.

Such charges, fees and commissions are exclusive of and in addition to Tyner Capital Management's fee, and Tyner Capital Management shall not receive any portion of these commissions, fees, and costs.

## **Item 6 – Performance-Based Fees and Side-By-Side Management**

Tyner Capital Management does not have any performance-based fee arrangements. "Side by Side Management" refers to a situation in which the same firm manages accounts that are billed based on a percentage of assets under management and at the same time manages other accounts for which fees are assessed on a performance fee basis. Because Tyner Capital Management has no performance-based fee accounts, it has no side-by-side management.

## **Item 7 – Types of Clients**

Tyner Capital Management provides portfolio management services to approximately twenty major clients composed of:

- Pension/profit sharing plans/IRAs
- 401(k) plans
- Trusts
- Educational Funds
- High net worth individuals.

## **Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss**

### Methods of Analysis

Investing in securities involves risk of loss that clients should be prepared to bear. Fundamental research drives the investment valuation methodology. Beginning with a 1,700 stock universe, each stock and industry is valued based on six major attributes as well as other attributes resulting in over twenty factors. Each attribute is measured, calculated, and compared on a weekly basis. Securities are decile-ranked on a composite weighted basis relative to one another. The top two deciled securities become the buy candidate list for further review. Specific securities are chosen based on individual analysis of that company. The bottom two deciled securities become the sell candidate list for further review.

### Investment Strategies

Tyner Capital Management generally takes a long-term approach to investing.

### Risk of Loss

While Tyner Capital Management seeks to diversify clients' investment portfolios across various asset classes consistent with their Investment Plans in an effort to reduce risk of loss, all investment portfolios are subject to risks. Accordingly, there can be no assurance that client investment portfolios will be able to fully meet their investment objectives and goals, or that investments will not lose money.

Below is a description of several of the principal risks that client investment portfolios face.

*Management Risks.* While Tyner Capital Management manages client investment portfolios based on Tyner Capital Management's experience, research and proprietary methods, the value of client investment portfolios will change daily based on the performance of the underlying securities in which they are invested. Accordingly, client investment portfolios are subject to the risk that Tyner Capital Management allocates assets to asset classes that are adversely affected by unanticipated market movements, and the risk that Tyner Capital Management's specific investment choices could underperform their relevant indexes.

*Risks of Investments in Mutual Funds, ETFs and Other Investment Pools.* As described above, Tyner Capital Management may invest client portfolios in mutual funds, ETFs and other investment pools ("pooled investment funds"). Investments in pooled investment funds are generally less risky than investing in individual securities because of their diversified portfolios; however, these investments are still subject to risks associated with the markets in which they invest. In addition, pooled investment funds' success will be related to the skills of their particular managers and their performance in managing their funds. Pooled investment funds are also subject to risks due to regulatory restrictions applicable to registered investment companies under the Investment Company Act of 1940.

*Risks Related to Alternative Investment Vehicles.* The value of client portfolios will be based in part on the value of alternative investment vehicles in which they are invested, the success of each of which will depend heavily upon the efforts of their respective Managers. When the investment objectives and strategies of a Manager are out of favor in the market or a Manager makes unsuccessful investment decisions, the alternative investment vehicles managed by the Manager may lose money. A client account may lose a substantial percentage of its value if the investment objectives and strategies of many or most of the alternative investment vehicles in which it is invested are out of favor at the same time, or many or most of the Managers make unsuccessful investment decisions at the same time.

*Equity Market Risks.* Tyner Capital Management will generally invest portions of client assets directly into equity investments, primarily stocks, or into pooled investment funds that invest in the stock market. As noted above, while pooled investments have diversified portfolios that may make them less risky than investments in individual securities, funds that invest in stocks and other equity securities are nevertheless subject to the risks of the stock market. These risks include, without limitation, the risks that stock values will decline due to daily fluctuations in the markets, and that stock values will decline over longer periods (e.g., bear markets) due to general market declines in the stock prices for all companies, regardless of any individual security's prospects.

*Fixed Income Risks.* Tyner Capital Management may invest portions of client assets directly into fixed income instruments, such as bonds and notes, or may invest in pooled investment funds that invest in bonds and notes. While investing in fixed income instruments, either directly or through

pooled investment funds, is generally less volatile than investing in stock (equity) markets, fixed income investments nevertheless are subject to risks. These risks include, without limitation, interest rate risks (risks that changes in interest rates will devalue the investments), credit risks (risks of default by borrowers), or maturity risk (risks that bonds or notes will change value from the time of issuance to maturity).

*Foreign Securities Risks.* Tyner Capital Management may invest portions of client assets into pooled investment funds that invest internationally. While foreign investments are important to the diversification of client investment portfolios, they carry risks that may be different from U.S. investments. For example, foreign investments may not be subject to uniform audit, financial reporting or disclosure standards, practices or requirements comparable to those found in the U.S. Foreign investments are also subject to foreign withholding taxes and the risk of adverse changes in investment or exchange control regulations. Finally, foreign investments may involve currency risk, which is the risk that the value of the foreign security will decrease due to changes in the relative value of the U.S. dollar and the security's underlying foreign currency.

## **Item 9 – Disciplinary Information**

Registered investment advisers are required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of Tyner Capital Management Investment Counsel Inc. or the integrity of its management. Tyner Capital Management Investment Counsel Inc. has no information applicable to this Item. There has never been any disciplinary action filed against Tyner Capital Management Investment Counsel.

## **Item 10 – Other Financial Industry Activities and Affiliations**

Paul H. Tyner has no other financial industry activities or affiliations. He is not a general partner in an investment-related limited partnership, manager of an investment-related limited liability company, nor does he advise any other “private fund” as defined under SEC rule 203(b)(3)-1. He does purchase and/or sell for himself securities that he recommends to advisory clients. Mr. Tyner does have discretionary authority to determine the amounts and types of securities bought or sold in client accounts. In addition, he has discretionary authority to select the broker or dealer used for purchase or sale for clients' accounts. Mr. Tyner does recommend brokers or dealers to clients. He does receive research or services, other than execution from a broker- dealer in connection with client securities transactions (Please see **Item 12 - Brokerage Practices** for a more detailed explanation). He does not compensate any person for client referrals.

## **Item 11 – Code of Ethics**

Tyner Capital Management has adopted a Code of Ethics for all supervised persons of the firm describing its high standard of business conduct, and fiduciary duty to its clients. The Code of Ethics includes provisions relating to the confidentiality of client information, a prohibition on insider trading, a prohibition of rumor mongering, restrictions on the acceptance of significant gifts and the reporting of certain gifts and business entertainment items, and personal securities trading procedures, among other things. All supervised persons at Tyner Capital Management must acknowledge the terms of the Code of Ethics annually, or as amended.

Tyner Capital Management anticipates that, in appropriate circumstances, consistent with clients'

investment objectives, it will cause accounts over which Tyner Capital Management has management authority to effect, and will recommend to investment advisory clients or prospective clients, the purchase or sale of securities in which Tyner Capital Management, its affiliates and/or clients, directly or indirectly, have a position of interest. Tyner Capital Management's employees and persons associated with Tyner Capital Management are required to follow Tyner Capital Management's Code of Ethics. Subject to satisfying this policy and applicable laws, officers, directors and employees of Tyner Capital Management and its affiliates may trade for their own accounts in securities which are recommended to and/or purchased for Tyner Capital Management's clients. The Code of Ethics is designed to assure that the personal securities transactions, activities and interests of the employees of Tyner Capital Management will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts. Under the Code certain classes of securities have been designated as exempt transactions, based upon a determination that these would materially not interfere with the best interest of Tyner Capital Management's clients. In addition, the Code requires pre-clearance of many transactions, and restricts trading in close proximity to client trading activity. Employee trading is continually monitored under the Code of Ethics, and to reasonably prevent conflicts of interest between Tyner Capital Management and its clients.

Certain affiliated accounts may trade in the same securities with client accounts on an aggregated basis when consistent with Tyner Capital Management's obligation of best execution. In such circumstances, the affiliated and client accounts will share commission costs equally and receive securities at a total average price. Tyner Capital Management will retain records of the trade order (specifying each participating account) and its allocation, which will be completed prior to the entry of the aggregated order. Completed orders will be allocated as specified in the initial trade order. Partially filled orders will be allocated on a pro rata basis. Any exceptions will be explained on the Order.

Tyner Capital Management's clients or prospective clients may request a copy of the firm's Code of Ethics by contacting Paul Tyner.

It is Tyner Capital Management's policy that the firm will not affect any principal or agency cross securities transactions for client accounts. Tyner Capital Management will also not cross trades between client accounts. Principal transactions are generally defined as transactions where an adviser, acting as principal for its own account or the account of an affiliated broker-dealer, buys from or sells any security to any advisory client. A principal transaction may also be deemed to have occurred if a security is crossed between an affiliated hedge fund and another client account. An agency cross transaction is defined as a transaction where a person acts as an investment adviser in relation to a transaction in which the investment adviser, or any person controlled by or under common control with the investment adviser, acts as broker for both the advisory client and for another person on the other side of the transaction. Agency cross transactions may arise where an adviser is dually registered as a broker-dealer or has an affiliated broker-dealer.

## **Item 12 – Brokerage Practices**

When given discretion to select the brokerage firm that will execute orders in client accounts, Tyner Capital Management seeks "best execution" for client trades, which is a combination of a number of factors, including, without limitation, quality of execution, services provided and commission rates.

Therefore, Tyner Capital Management may use or recommend the use of brokers who do not charge the lowest available commission in the recognition of research and securities transaction services, or quality of execution. Research services received with transactions may include proprietary or third party research (or any combination), and may be used in servicing any or all of Tyner Capital Management's clients. Therefore, research services received may not be used for the account for which the particular transaction was effected.

Tyner Capital Management may recommend that clients establish brokerage accounts with Charles Schwab & Co., Inc. ("Schwab"), a FINRA registered broker-dealer, member SIPC as the qualified custodian, to maintain custody of clients' assets. Tyner Capital Management may also effect trades for client accounts at Schwab, or may in some instances, consistent with Tyner Capital Management's duty of best execution and specific agreement with each client, elect to execute trades elsewhere. Although Tyner Capital Management may recommend that clients establish accounts at Schwab, it is ultimately the client's decision to custody assets with Schwab. Tyner Capital Management is independently owned and operated and is not affiliated with Schwab.

Schwab Advisor Services provides Tyner Capital Management with access to its institutional trading, custody, reporting and related services, which are typically not available to Schwab retail investors. Schwab also makes available various support services. Some of those services help Tyner Capital Management manage or administer our clients' accounts while others help Tyner Capital Management manage and grow our business. These services generally are available to independent investment advisors on an unsolicited basis, at no charge to them. These services are not soft dollar arrangements, but are part of the institutional platform offered by Schwab. Schwab's brokerage services include the execution of securities transactions, custody, research, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

For Tyner Capital Management client accounts maintained in its custody, Schwab generally does not charge separately for custody services but is compensated by account holders through commissions and other transaction-related or asset-based fees for securities trades that are executed through Schwab or that settle into Schwab accounts. Schwab Advisor Services also makes available to Tyner Capital Management other products and services that benefit Tyner Capital Management but may not directly benefit its clients' accounts. Many of these products and services may be used to service all or some substantial number of Tyner Capital Management accounts, including accounts not maintained at Schwab.

Schwab's products and services that assist Tyner Capital Management in managing and administering clients' accounts include software and other technology that (i) provide access to client account data (such as trade confirmations and account statements); (ii) facilitate trade execution and allocate aggregated trade orders for multiple client accounts; (iii) provide pricing and other market data; (iv) facilitate payment of Tyner Capital Management's fees from its clients' accounts; and (v) assist with back-office functions, recordkeeping and client reporting.

Schwab Advisor Services also offers other services intended to help Tyner Capital Management manage and further develop its business enterprise. These services may include: (i) technology, compliance, legal and business consulting; (ii) publications and conferences on practice management and business succession; and (iii) access to employee benefits providers, human capital consultants and insurance providers. Schwab may make available, arrange and/or pay third-party vendors for the types of services rendered to Tyner Capital Management. Schwab

Advisor Services may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to Tyner Capital Management. Schwab Advisor Services may also provide other benefits such as educational events or occasional business entertainment of Tyner Capital Management personnel. In evaluating whether to recommend that clients custody their assets at Schwab, Tyner Capital Management may take into account the availability of some of the foregoing products and services and other arrangements as part of the total mix of factors it considers and not solely on the nature, cost or quality of custody and brokerage services provided by Schwab, which may create a potential conflict of interest.

#### Directed Brokerage

Tyner Capital Management does not generally allow directed brokerage accounts.

#### Aggregated Trade Policy

Tyner Capital Management typically directs trading in individual client accounts as and when trades are appropriate based on the client's Investment Plan, without regard to activity in other client accounts. However, from time to time, Tyner Capital Management may aggregate trades together for multiple client accounts, most often when these accounts are being directed to sell the same securities. If such an aggregated trade is not completely filled, Tyner Capital Management will allocate shares received (in an aggregated purchase) or sold (in an aggregated sale) across participating accounts on a pro rata or other fair basis; provided, however, that any participating accounts that are owned by Tyner Capital Management or its officers, directors, or employees will be excluded first.

### **Item 13 – Review of Accounts**

Tyner Capital Management prepares an economic and market review letter along with a portfolio appraisal, including cost and market value of securities held and approximate annual income generated by the portfolio on a quarterly basis. Additionally, a quarterly and year-to-date accounting of the beginning balance with reconciling items to the ending balance are provided along with quarterly and annual portfolio performance rates of returns compared to appropriate benchmarks. Meetings are held at least annually with clients depending on client preferences. Tax reporting is prepared annually. Questions, concerns, and additional reporting requests are handled as requested by clients.

### **Item 14 – Client Referrals and Other Compensation**

As noted above, Tyner Capital Management may receive an economic benefit from Schwab in the form of support products and services it makes available to Tyner Capital Management and other independent investment advisors that have their clients maintain accounts at Schwab. These products and services, how they benefit our firm, and the related conflicts of interest are described in **Item 12 - Brokerage Practices**. The availability of Schwab's products and services to Tyner Capital Management is based solely on our participation in the programs and not in the provision of any particular investment advice. Neither Schwab nor any other party is paid to refer clients to Tyner Capital Management.

## Item 15 – Custody

Clients receive monthly statements from Schwab, the custodian. Additionally, clients receive notification, either by regular mail or electronically, of all portfolio trades when they occur. Tyner Capital Management urges clients to carefully review such statements and compare such official custodial records to the account statements that we may provide to them. Our statements may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

## Item 16 – Investment Discretion

As described in **Item 4 - Advisory Business**, Tyner Capital Management will accept clients on either a discretionary or non-discretionary basis. For *discretionary accounts*, a Limited Power of Attorney (“LPOA”) is executed by the client, giving Tyner Capital Management the authority to carry out various activities in the account, generally including the following: trade execution; the ability to request checks on behalf of the client; and, the withdrawal of advisory fees directly from the account. Tyner Capital Management then directs investment of the client’s portfolio using its discretionary authority. The client may limit the terms of the LPOA to the extent consistent with the client’s investment advisory agreement with Tyner Capital Management and the requirements of the client’s custodian.

For *non-discretionary* accounts, the client also generally executes an LPOA, which allows Tyner Capital Management to carry out trade recommendations and approved actions in the portfolio. However, in accordance with the investment advisory agreement between Tyner Capital Management and the client, Tyner Capital Management does not implement trading recommendations or other actions in the account unless and until the client has approved the recommendation or action. As with discretionary accounts, clients may limit the terms of the LPOA, subject to Tyner Capital Management’s agreement with the client and the requirements of the client’s custodian.

## Item 17 – Voting Client Securities

Clients may obtain a copy of Tyner Capital Management’s complete proxy voting policies and procedures upon request. Tyner Capital Management retains Broadridge Investor Communications Solutions, Inc. and uses its ProxyEdge product to manage the proxy voting process. Clients may also obtain information from Tyner Capital Management about how Tyner Capital Management voted any proxies on behalf of their accounts.

Should clients chose, they may vote the proxies themselves or direct Tyner Capital Management on how shares are to be voted on their behalf.

## Item 18 – Financial Information

Registered investment advisers are required in this Item to provide you with certain financial information or disclosures about Tyner Capital Management’s financial condition. Tyner Capital Management has no financial commitment that impairs its ability to meet contractual and fiduciary commitments to clients, and has never been the subject of a bankruptcy proceeding. Further, Tyner Capital Management invoices its clients in arrears on a quarterly basis, not in advance.

---

***Item 2 - Educational Background and Business Experience***

Paul H. Tyner (year of birth 1950), Owner and Principal Portfolio Manager of Tyner Capital Management Investment Counsel, Inc., founded the firm in 1993. Mr. Tyner has been in investments and financial analysis for 35 years. He had investment responsibility for RJR Nabisco's \$4 billion pension/ savings plans. Mr. Tyner was Vice President in the Pension Trust Department of C&S National Bank in Atlanta. Prior to establishing Tyner Capital Management, he spent two years with Provident Life and Accident Insurance Company as Vice President of Portfolio Management and Equities with responsibilities for the \$14 billion general insurance account and a \$100 million equity portfolio.

Mr. Tyner is a CFA charterholder\*, a Certified Public Accountant\*\* (CPA), and a Certified Management Accountant\*\*\* (CMA). He has an MBA from Wake Forest University, a BS in Business

Finance from the University of North Carolina- Chapel Hill, and a BS in Accounting with honors from Guilford College.

\* The Chartered Financial Analyst® (“CFA”) designation is a professional designation given by the CFA Institute that measures the competence and integrity of financial analysts. The CFA Program is a graduate-level self-study program that combines a broad-based curriculum of investment principles with professional conduct requirements. Candidates are required to pass three levels of examinations covering areas such as accounting, economics, ethics, money management and security analysis. Before a candidate is eligible to become a CFA charterholder, he/she must meet minimum experience requirements in the area of investment/financial practice. To enroll in the program, a candidate must hold a bachelor’s degree.

\*\* A CPA is a Certified Public Accountant. All CPA candidates must pass the Uniform CPA Examination to qualify for a CPA certificate and license to practice public accounting. While the exam is the same regardless of where it is taken, every state/jurisdiction has its own set of education and experience requirements that individuals must meet. However, most states require at least a bachelor’s degree and a concentration in accounting, and at least one year of public accounting experience under the supervision of or verification by a CPA. Once the designation is attained, the CPA is required to meet continuing education requirements.

\*\*\* The Certified Management Accountant (CMA) designation provides a foundation in accounting, management and strategy. Individuals who hold the CMA designation have completed a course of study encompassing planning, budgeting and forecasting, performance management, cost management, internal controls, financial statement analysis, corporate finance, decision analysis and risk management, and investment decision, with an emphasis on professional ethics. Individuals must pass a two-part exam and have two continuous years of professional experience in management accounting or financial management. To maintain an active status as a certified CMA, individuals must complete 30 hours of CPE credits, including 2 hours of ethics, and pay an annual IMA (Institute of Management Accountants) Membership.

### ***Item 3 - Disciplinary Information***

Advisers are required to disclose any material facts regarding certain legal or disciplinary events that would be material to your evaluation of an adviser; however Mr. Tyner has no such disciplinary information to report.

### ***Item 4 - Other Business Activities***

Mr. Tyner is not engaged in any other business activities.

### ***Item 5 - Additional Compensation***

Mr. Tyner has no other income or compensation to disclose.

### ***Item 6 - Supervision***

As the sole owner of Tyner Capital Management, Mr. Tyner supervises all duties and activities of the firm, and is responsible for all advice provided to clients. His contact information is on the cover page of this disclosure document.
