This brochure provides information about the qualifications and business practices of Secure Investment Management, LLC. If you have any questions about the contents of this brochure, please contact us at (888) 802-0427.

The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Secure Investment Management is a registered investment advisor. Registration of an investment advisor does not imply any level of skill or training.

Additional information about Secure Investment Management is also available on the SEC's website at www.adviserinfo.sec.gov or by state securities authorities.

The SEC's website also provides information about persons affiliated with Secure Investment Management who are registered, or are required to be registered, as investment advisor representatives of Secure Investment Management.

Item 2: Material Changes

This brochure, dated July 8, 2015, has been prepared by Secure Investment Management for our initial filing with the SEC. This section of the brochure will address only those “material changes” that have been incorporated since our last delivery or posting of this document on the SEC’s public disclosure website (IAPD) www.adviserinfo.sec.gov.

Since our March 27, 2015 Disclosure Brochure, the following changes have been made:

- **Item 5- Fees and Compensation**
 - This Section reflects a revised fee schedule and billing process
- **Item 8 - Methods of Analysis and Investment Strategies**
 - This Section has been updated to describe our current models and investment strategies.

Our brochure may be requested, at no cost, by contacting Ken Lepore, Chief Compliance Officer, at (888) 802-0427, or via e-mail at klepore@secureinvestmentmanagement.com.

Item 4 Advisory Business

A. Secure Investment Management, LLC (“SIM”) is a limited liability company formed in 2012 in the State of Arizona. Prior to reorganizing as SIM, Secure Investment Management operated under the name Joshua David Mellberg, LLC since its inception as a registered investment advisor in August, 2006. SIM is owned by Joshua Mellberg and Brent Matthew.

B. As discussed below, Secure Investment Management offers to its clients (individuals, high-net worth individual, pension and profit sharing plans, business entities, trusts and estates), investment advisory services, and related consulting services.

INVESTMENT ADVISORY SERVICES

The client may engage SIM to provide discretionary and/or non-discretionary investment advisory services on a non-wrap *fee* basis. (*See* discussion below). The client will select individual services on an unbundled basis, paying for each service separately (i.e. investment advisory, trade execution, custody).

The client can agree to have SIM provide discretionary and/or non-discretionary investment advisory services on a *fee* basis. Generally, SIM’s annual investment advisory fee is based upon a percentage (%) of the market value of the assets placed under SIM’s management.

Please Note: Non-Discretionary Service Limitations. Clients that determine to engage SIM on a non-discretionary investment advisory basis **must be willing to accept** that SIM cannot effect any account transactions without obtaining prior verbal consent to any such transaction(s) from the client. Thus, in the event of a market correction during which the client is unavailable, SIM will be unable to effect any account transactions (as it would for its discretionary clients) without first obtaining the client’s verbal consent.

As part of its investment advisory service, SIM may recommend certain managed model portfolios offered by Global Financial Private Capital, LLC (“Global Financial”) to new and existing clients and may allocate current client assets to a Global Financial model portfolio(s) managed by Global Financial. At all times, SIM will ensure that client assets are allocated in a manner that is consistent with their risk tolerance.

MISCELLANEOUS ADVISORY SERVICES DISCLOSURE

If requested by the client, SIM may recommend the services of other professionals for certain implementation purposes (i.e. attorneys, accountants, insurance, etc.), including certain of SIM’S investment adviser representatives in their separate registered/licensed capacities as discussed below. The client is under no obligation to engage the services of any such recommended professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation from SIM.

Please Note:

If the client engages any such recommended professional and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged professional.

It remains the client's responsibility to promptly notify SIM if there is ever any change in financial situation or investment objectives for the purpose of reviewing, evaluating, and/or revising previous recommendations and/or services.

As indicated in Item 5 below, SIM shall price its services based upon various objective and subjective factors. As a result, SIM's clients could pay diverse fees based upon the market value of their assets, the complexity of the engagement, geographic differences, and the level and scope of the overall consulting services to be rendered. The services to be provided by SIM to any particular client could be available from other advisers at lower fees. All clients and prospective clients should be guided accordingly.

Sub-Advisory Agreement with Investment Adviser Under its Investment Management Agreement, SIM has discretionary authority to hire and fire Sub-Advisor(s), which will manage the investments in your designated account on a discretionary basis in accordance with your stated investment objectives.

Sub-Account Management Services SIM may be engaged to manage your variable annuity or variable life contract by selecting, monitoring and exchanging, as appropriate, sub-accounts available from the insurance company issuing the variable annuity or variable life contract.

Please Note:

SIM's ability to select or modify your variable annuity or variable life contract shall be limited by the selections made available by the insurance company that issued your variable annuity or variable life contract.

You will be responsible for notifying your investment adviser representative of any updates regarding your financial situation, risk tolerance or investment objective and whether you wish to impose or modify existing investment restrictions; however, your investment adviser representative will contact you at least annually to discuss any changes or updates regarding your financial situation, risk tolerance or investment objectives.

Fees charged by Variable Annuity Sub-accounts are in addition to the management fees that may be charged by SIM.

In the event that your investment adviser representative sold you the variable annuity and/or variable life contract in his separate capacity as a registered representative of a broker-dealer, your investment adviser representative most likely received commission and/or trail compensation for this transaction. This sales compensation is separate from and in addition to any investment advisory fee charged by SIM. If your investment adviser representative received a commission for selling you a variable annuity or variable life contract, SIM will not charge a fee for management of your variable annuity or variable life contract until it has been at least two years from the date of such sale.

REITs: SIM may provide advice regarding real estate investment trusts (REITs) and real estate partnerships. Some of the REITS that are the subject of SIM's advisory services are not publicly traded. In other words, the lack of an active secondary market for the sale of such REITs can limit a client's ability to dispose of such investments in a timely manner and/or at an advantageous price. Consequently, a client should exercise caution to avoid over- concentration of their assets in these illiquid investments.

In order for a REIT to be purchased in a SIM advisory account, the REIT distributor needs to provide *advisory-class pricing* for their products through a custodian. Generally this means that the REIT distributor allows purchases at a price that "waives" the sales charge, or "load", thus allowing SIM to include the product in the comprehensive billing that is already established for the customer's account. REITs purchased on a commission basis from a SIM representative in their individual capacity as a broker dealer registered representative are not subject to an advisory fee.

It is likely the price of a REIT listed on your account statement provided by a custodian only reflects the original purchase price and does not reflect any price or value from a secondary market, a repurchase offered by the sponsor or the book value. It is possible that the actual value of the REIT on a secondary market or through a repurchase by a sponsor is significantly higher or lower than the original purchase price shown on the account statement provided by the custodian.

To the extent that an alternative investment such as a non traded REIT is included in your program, the alternative investment may be subject to an asset management fee by SIM, which will be based upon the current valuation set by the product sponsor, as reflected on the custodian's account statement. Due to the fact that certain alternative investments, such as non-traded REITs, are illiquid, the value is not easily or readily ascertainable or reported. As a result, the value shown on the account statement provided by the custodian is the most reliable method for determining the present value of the investment.

Please note: The value reflected on the account statement does not necessarily reflect the actual value of the alternative investment. Your alternative investment value may be higher or lower. Please refer to your investment advisory agreement with SIM for more details.

Independent Managers: SIM may allocate (and/or recommend that the client allocate) a portion of a client's investment assets among unaffiliated independent investment managers in accordance with the client's designated investment objective(s). In such situations, the Independent Manager[s] shall have day-to-day responsibility for the active discretionary management of the allocated assets. SIM shall continue to render investment advisory services to the client relative to the ongoing monitoring and review of account performance, asset allocation and client investment objectives. Factors which SIM shall consider in recommending Independent Manager[s] include the client's designated investment objective(s), management style, performance, reputation, financial strength and reporting.

Trade Errors: SIM has implemented procedures designed to prevent trade errors; however, trade errors in client accounts cannot always be avoided. Consistent with our fiduciary duty, it is the policy of SIM to correct trade errors in a manner that is fair to the client. In cases where the client causes the trade error, the client will be responsible for any loss resulting from the correction. Depending on the specific circumstances of the trade error, the client may not be able to receive any gains generated as a result of the error correction. In all situations where the client does not cause the trade error, the client will be made whole and any loss resulting from the trade error will be absorbed by SIM if the

error was caused by the firm. If the error is caused by the broker-dealer, the broker-dealer will be responsible for covering all trade error costs. The trade will be moved to an error account and will be dealt with at the discretion of the broker dealer.

Client Obligations: In performing its services SIM shall not be required to verify any information received from the client or from the client's other professionals, and is expressly authorized to rely thereon. Moreover, each client is advised that it remains his/her/its responsibility to promptly notify SIM if there is ever any change in his/her/its financial situation or investment objectives for the purpose of reviewing/evaluating/revising SIM's previous recommendations and/or services.

Disclosure Statement: A copy of SIM's written Brochure as set forth on Part 2A of Form ADV shall be provided to each client prior to, simultaneously with, the execution of the *Investment Advisory Agreement*.

- C. SIM shall provide investment advisory services specific to the needs of each client. Prior to providing investment advisory services, an investment adviser representative will ascertain each client's investment objective(s). Thereafter, SIM shall allocate and/or recommend that the client allocate investment assets consistent with the designated investment objective(s). The client may, at any time, impose reasonable restrictions, in writing, on SIM's services.
- D. As of December 31, 2014, Secure Investment Management had \$80,616,655 in assets under management on a discretionary basis and \$0 in assets under management on a nondiscretionary basis.

Item 5 Fees and Compensation

The client can engage SIM to provide discretionary and/or non-discretionary investment advisory services on an annual fee basis. The fee shall be based upon the level and scope of the overall investment advisory services to be rendered, which is based upon various **objective and subjective factors**. These factors include, but are not limited to, the amount of the assets placed under the Registrant's management, the level and scope of services to be rendered, and the complexity of the engagement. Lower fees for comparable services may be available from other sources.

Fee Billing and Structure

Equity and Balanced Accounts	Annual Rate
First \$1 million	1.25%
Next \$4 million	1.125%
Additional Amounts Over \$5 million	1.00%

SIM targets accounts with a minimum of \$500,000 in investable assets at an annual base rate of 1.25%, but may accept smaller accounts at SIM's discretion which will be billed at an annual base rate of 1.50%. Accounts that fall below \$475,000 in investable assets due to withdrawal only will be billed at the annual base rate of 1.50% unless the account balance is brought back up to \$500,000 by end of current quarter.

SIM will aggregate for billing at the Equity & Balanced Accounts Fee Schedule listed above for household accounts established by a client where the initial funding for all the accounts is equal to or

greater than \$500,000. The funding must occur within 90 days of the start of the relationship and each individual account within the relationship must be equal to or greater than \$25,000. Accounts are required to be in SIM Managed Models in order to qualify for pricing, and representatives to be compensated.

Clients with a minimum \$25,000 of investable assets that also participate in the Wealth-Accumulator program, will be assigned an Investment Counselor & Relationship Manager, and will be billed at an annual base rate of 1.50%. An additional annual fee of 0.25% will be applied annually to the base rate for clients who participate in SIM's Interactive Wealth-Accumulator program.

Clients with a minimum \$500,000 of investable assets that also participate in the Private Client Services Group, will be assigned an Investment Counselor & Relationship Manager, and will be billed at an annual base rate of 1.25%. An additional annual fee of 0.25% in the first year and 0.10% for all subsequent years will be applied annually to the base rate for clients who participate in SIM's Interactive Private Client Services program.

All fees disclosed are based upon client assets being allocated to SIM Managed Models.

Definition; household

(1) A natural person, and:

(i) Any minor child of the natural person;

(ii) Any relative, spouse, or relative of the spouse of the natural person who has the same principal residence;

(iii) All accounts of which the natural person and/or the persons referred to in this paragraph (a)(1) are the only primary beneficiaries; and

(iv) All trusts of which the natural person and/or the persons referred to in this paragraph (a)(1) are the only primary beneficiaries.

Fee Billing

Investment management account fees are based on a percentage of total assets managed for long positions. Fees are generally calculated and charged quarterly. Fees are based on the market value using closing prices at quarter end, at one-quarter of the annual rates listed above. The quarter ending value includes accrued interest and/or dividends. Fees for the investment management services provided by SIM, which may begin before assets are received into the client's account, are typically calculated and charged beginning on the date the Investment Advisory Agreement ("IAA") is signed by the client. The initial services include, without limitation, conducting a comprehensive Investment Policy Questionnaire to determine suitability evaluation with the client, analyzing the client's assets, goals, objectives, restrictions and other circumstances, making investment recommendations, and providing updated research to the client regarding SIM's views on the market. The fee will be calculated and deducted from the client's account each calendar quarter following the billing date as stated in the client's IAA. The client may instead pay fees from another account or via invoice by completing and submitting written instructions to SIM.

Fee Structure

WEALTH-ACCUMULATOR

\$25,000 to \$249,999 INDEFINITELY @ 1.50% plus Interactive Wealth-Accumulator program fee 0.25% = 1.75%

PRIVATE CLIENT SERVICES GROUP

\$250,000 to \$499,999 YEAR 1 @ 1.50% plus Interactive PCS program fee 0.25% = 1.75%

\$250,000 to \$499,999 YEAR 2 @ 1.50% plus Interactive PCS program fee 0.10% = 1.60%

*Note; if the balance drops below \$250,000 in any quarter due to a withdrawal, the fee is prorated and adjusted according to the (Wealth-Accumulator) Fee Schedule for that quarter and future quarters until the balance is brought back up to \$250,000

\$500,000 to \$1mm YEAR 1 @ 1.25% plus Interactive PCS program fee 0.25% = 1.50%

\$500,000 to \$1mm YEAR 2 @ 1.25% plus Interactive PCS program fee 0.10% = 1.35%

*Note; if the balance drops below \$475,000 in any quarter due to a withdrawal, the fee is prorated and adjusted according to the Equity & Balanced Accounts Fee Schedule for that quarter and future quarters until the balance is brought back up to \$500,000

\$1mm to \$5mm YEAR 1 @ 1.125% plus Interactive PCS program fee of 0.25% = 1.375%

\$1mm to \$5mm YEAR 2 @ 1.125% plus Interactive PCS program fee of 0.10% = 1.225%

*Note; if the balance drops below \$1mm in any quarter due to a withdrawal, the fee is prorated and adjusted according to the Equity & Balanced Accounts Fee Schedule for that quarter and future quarters until the balance is brought back up to \$1mm

\$5mm and above YEAR 1 @ 1% plus Interactive PCS program fee 0.25% = 1.25%

\$5mm and above YEAR 2 @ 1% plus Interactive PCS program fee 0.10% = 1.10%

*Note; if the balance drops below \$5mm in any quarter due to a withdrawal, the fee is prorated and adjusted according to the Equity & Balanced Accounts Fee Schedule for that quarter and future quarters until the balance is brought back up to \$5mm

SUB-ACCOUNT MANAGEMENT SERVICES

SIM may be engaged to manage your variable annuity or variable life contract by selecting, monitoring and exchanging, as appropriate, sub-accounts inside of a variable life insurance or annuity contract.

Please Note: SIM's ability to select or modify your variable annuity or variable life contract shall be limited by the selections made available by the insurance company that issued your contract.

Under this program, you will incur an annual investment advisory fee, which is based upon a percentage of the market value of your variable annuity and/or variable life contract under SIM's management. Your investment adviser representative has the authority to negotiate the annual fee, and consequently, the annual fee charged by your investment adviser representative may be different than the annual fee negotiated by another investment adviser representative of SIM. The exact annual fee charged by SIM will be agreed to by you and your investment adviser representative prior to commencing services and stated in the client agreement.

The following is the maximum fee schedule that your investment adviser representative may charge you for this service:

Maximum Fee Schedule

Fee for value of VA & VL under Management – Maximum Fee – 2.70%

The annual fee is paid in arrears in quarterly installments, which are calculated and due based upon the total value of your variable annuities and variable life contracts under management as of March 31, June 30, September 30 and December 31. The quarterly fee payments for the first and last billing periods are pro-rated to reflect the actual days that your variable annuities and variable life contracts were subject to management by SIM.

You will have the option to pay directly the quarterly investment advisory fee to SIM upon receiving an invoice or to have the investment advisory fee automatically deducted from your variable annuity and/or variable life contract by your insurance company and paid to SIM.

Please Note: Any fee deducted directly from a variable insurance contract may reduce, eliminate or negatively modify certain riders and benefits available in the contract.

In the event that your investment adviser representative sold you the variable annuity and/or variable life contract in their separate capacity as a registered representative of a broker-dealer, your investment adviser representative most likely received commission and/or trail compensation for this transaction. This sales compensation is separate from and in addition to any investment advisory fee charged by SIM. If your investment adviser representative received a commission for selling you a variable annuity or variable life contract, SIM will not charge a fee for management of your variable annuity or variable life contract until a reasonable amount of time has passed, relative to the amount of commissions paid, but in no case will it be charged until it has been in force for at least two years.

- B. Clients may elect to have SIM's advisory fees deducted from their custodial account. Both SIM's *Investment Advisory Agreement* and the custodial/clearing agreement may authorize the custodian to debit the account for the amount of SIM's investment advisory fee and to directly remit that management fee to SIM in compliance with regulatory procedures. In the limited event that SIM bills the client directly, payment is due upon receipt of SIM's invoice.
- C. As discussed below, unless the client directs otherwise or an individual client's circumstances require, SIM shall recommend that Fidelity Investments, LLC ("*Fidelity*") serve as the broker-dealer/custodian for client investment management assets. Broker-dealers such as *Fidelity* charge brokerage commissions and/or transaction fees for effecting certain securities transactions (i.e. transaction fees are charged for certain no-load mutual funds; commissions are charged for individual equity and fixed income securities transactions).

However, in addition to SIM's investment management fee, all clients will also incur, relative to all mutual fund and exchange traded fund purchases, charges imposed at the fund level (e.g. management fees and other fund expenses). When beneficial to the client, individual fixed-income and/or equity transactions may be effected through broker-dealers with whom SIM and/or the client have entered into arrangements for prime brokerage clearing services, including effecting certain client transactions through other SEC registered and FINRA member broker-dealers (in which event, the client generally will incur both the transaction fee charged by the executing broker-dealer and a "tradeaway" fee charged by *Fidelity*).

For those clients who have engaged SIM to provide Sub-Account Management Services, the insurance companies issuing your variable annuities and variable life contracts will charge management expenses in addition to the investment advisory fee charged by SIM. In addition, your variable annuity and/or variable life contract may be subject to exchange fees and surrender charges. SIM does not share in these fees charged by your insurance company. Please refer to the prospectus of your variable annuity and/or variable life contract for more details about the insurance company's management expenses and any exchange or surrender fees.

- D. SIM's annual investment advisory fee shall be prorated and paid monthly, in advance, based upon the market value of the assets on the last business day of the previous month. For the initial billing period, the fee is pro-rated for the remainder of the month (if services commenced in the middle of a calendar month), this pro-rated fee is billed on the first business day of the month following the commencement of services. SIM generally requires an aggregate account minimum of \$25,000 for investment advisory services. However, SIM, in our sole discretion, may waive our account minimum or charge a lesser advisory fee based upon certain criteria (i.e., anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, negotiations with client, etc.)

The *Investment Advisory Agreement* between SIM and the client will continue in effect until terminated by either party by written notice in accordance with the terms of the *Investment Advisory Agreement*. Upon termination, SIM shall refund the pro-rated portion of the advanced advisory fee paid based upon the number of days remaining in the billing month.

- E. **Securities Commission Transactions.** In the event that the client desires, the client can engage IAR's of SIM, in their individual capacity, as registered representatives of Global Financial Investment Services, ("GFIS"), an SEC registered and FINRA member broker-dealer, to purchase investment-related products on a non-discretionary *commission* basis. In the event the client chooses to purchase or sell investment products through GFIS, they will be charged brokerage commissions to effect securities transactions, a portion of which shall be paid to its registered representatives, as applicable. The brokerage commissions charged by GFIS may be higher or lower than those charged by other broker-dealers. In addition, GFIS and their representatives may also receive additional ongoing 12b-1 trailing commission compensation directly from a mutual fund company during the period that the client maintains the mutual fund investment.

1. **Conflict of Interest:** The recommendation that a client purchase a commission product from GFIS presents a *conflict of interest*, as the receipt of commissions may provide an incentive to recommend investment products based on commissions to be

received, rather than on a particular client's needs. No client is under any obligation to purchase any commission products from GFIS.

Please Note: Clients may purchase investment products recommended by SIM through other non-affiliated broker dealers or agents.

2. SIM does not receive any revenue from advisory clients as a result of commissions or other compensation for the sale of investment products by SIM representatives in their individual capacity as registered representatives of a broker dealer.

3. When SIM's representatives, in their individual capacity of a broker dealer registered representative, sell an investment product on a commission basis, SIM does not charge an advisory fee in addition to the commissions paid by the client for such product. When providing services on an advisory fee basis, SIM's representatives do not also receive commission compensation for such advisory services (except for any ongoing 12b-1 trailing commission compensation that may be received as previously discussed). **However**, a client may engage SIM to provide investment management services on an advisory fee basis and, separate from such advisory services; purchase an investment product from SIM's representatives, in their individual capacity as a broker dealer registered representative, on a separate commission basis.

Item 6 Performance-Based Fees and Side-by-Side Management

Neither Secure Investment Management nor any supervised person of SIM accepts performance-based fees.

Item 7 Types of Clients

SIM's clients shall generally include individuals, high-net worth individuals, pension and profit sharing plans, business entities, trusts and estates.

The minimum account size varies between \$25,000 and \$50,000 depending upon the separate account model.

For sub-account management services, SIM generally requires a variable annuity and/or variable life contract with a minimum account value of \$25,000.

Secure Investment Management, in our sole discretion, may waive our account minimum for asset management or sub-account management services or charge a lesser advisory fee based upon certain criteria (i.e., anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, negotiations with client, etc.).

Separate Accounts - SIM provides portfolio management services to Separate Accounts. SIM's management of the client's separate account will be consistent with the particular investment strategy or strategies the client selected for that account. Clients may impose certain limitations or restrictions on SIM's discretionary authority. However, SIM reserves the right not to enter into a contract with a prospective client, or to terminate an agreement with an existing client, if the proposed limitation or restriction is likely in SIM's opinion to impair its ability to provide services to a client or is otherwise believed by SIM to be administratively or practically infeasible. The menu of investment strategies which SIM may make available to Separate Account clients is shown below.

Additional detail about each strategy may be obtained at no charge by contacting SIM at 520-269-4003.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss.

Secure Investment Management integrates unaffiliated Institutional Investment Managers that have multiple investment styles and disciplines into a single strategy to offer our clients a diversified portfolio with a goal of regulating risk. Each Model Portfolio is managed to respond to changing market conditions using both active & passive investment management. Investing in securities involves risk of loss that clients should be prepared to bear.

Dynamic Conservative Income (DCI) - a multi-manager strategy that offers exposure to a globally diversified mix of equities, fixed income, and alternative investments through exchange-traded funds (ETFs) while targeting a yield of greater than 3%. DCI's primary objective is to provide conservative investors with a predictable income stream with a secondary objective of capital preservation. The strategy seeks attractive opportunities around the world that have historically exhibited steady income and lower volatility than the broad markets. If the fixed income markets become too volatile, DCI may invest in shorter-duration securities to reduce risk and potentially protect principal. DCI also attempts to lower the risk of the portfolio by investing in a broad mix of securities and countries.

DCI has an income objective that emphasizes current income through a large allocation to fixed income securities, complemented by a secondary consideration for little capital appreciation and inflation protection. Due to its fixed income nature, general stability of principal value may be obtained but is not guaranteed.

Dynamic Moderate Growth (DMG) - a multi-manager strategy that offers exposure to equities, fixed income, and alternative investments through exchange-traded funds (ETFs). The goal is to systematically identify asset classes where the balance of risk and return has a higher probability of capital appreciation while maintaining lower volatility than the broad market over time. DMG is designed for investors with a moderate tolerance for risk who wish to participate with a limited capacity in broad market returns.

DMG has a balanced objective that is designed to offer the potential for both capital appreciation and current income through roughly 40% to 70% equities allocation, and 30% to 60% fixed income allocation.

Dynamic Aggressive Growth (DAG) - A method of evaluating a security by attempting to measure the intrinsic growth potential of a security relative to the growth expectations already contained in the current price. The end goal of performing fundamental growth analysis is to produce a value that an investor can compare with the security's current price in hopes of figuring out what sort of position to take with that security. If, in our opinion, the security is undervalued compared to our expectation of growth, and in the absence of other negative information, we may consider the security for selection. In our opinion, this evaluation method, when used in conjunction with additional research, may provide an element of protection against significant loss of value.

DAG has a growth objective that emphasizes maximizing total return and protecting against inflation. The portfolio consists of primarily equity investments, but may provide exposure to fixed income in an effort to buffer short-term fluctuations in performance.

Risk of Loss

Clients must understand that past performance is not indicative of future results. Therefore, current and prospective clients (including you) should never assume that future performance of any specific investment or investment strategy will be profitable. Investing in securities (including stocks, mutual funds, and bonds) involves risk of loss. Further, depending on the different types of investments there may be varying degrees of risk. Clients and prospective clients should be prepared to bear investment loss including loss of original principal.

Our portfolios are designed for investors who are able to hold the investment for one or more years. Investors should be able to accept price volatility during this period, the level of which should match the stated risk tolerance of the respective investor.

Our portfolios are designed to meet stated investment objectives based on your Investment Policy Questionnaire (IPQ). The portfolios are not designed to match equity market returns during strong rallies. Although the portfolios seek low volatility and principal protection, asset allocation decisions may not achieve these goals in all cases. There is no guarantee a portfolio will meet a target return or investment objective. Investments in bonds involve interest rate and credit risk. Bond values change according to changes in interest rates, inflation, and credit climate and issuer credit quality. Interest rate rises will reduce the value of a bond. Although longer term bonds may pay more income, their value is more susceptible to interest rate variation than shorter term, lower yield bonds. Stock markets and individual stocks may be subject to large price fluctuations.

Diversification cannot protect an investor from these fluctuations. The use of indexed funds is not fully guaranteed to track an intended market and may carry additional 'product' risks.

Because of the inherent risk of loss associated with investing, our firm is unable to represent, guarantee, or even imply that our services and methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate you from losses due to market corrections or declines. There are certain additional risks associated when investing in securities through our investment management program.

Market Risk – Either the stock market as a whole, or the value of an individual company, goes down resulting in a decrease in the value of client investments. This is also referred to as systemic risk.

Equity (stock) market risk – Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. If you held common stock, or common stock equivalents, of any given issuer, you would generally be exposed to greater risk than if you held preferred stocks and debt obligations of the issuer.

Company Risk. When investing in stock positions, there is always a certain level of company or industry specific risk that is inherent in each investment. This is also referred to as unsystematic risk and can be reduced through appropriate diversification. There is the risk that the company will perform poorly or have its value reduced based on factors specific to the company or its industry. For example, if a company's employees go on strike or the company receives unfavorable media attention for its actions, the value of the company may be reduced.

Fixed Income Risk. When investing in bonds, there is the risk that issuer will default on the bond and be unable to make payments. Further, individuals who depend on set amounts of periodically paid income face the risk that inflation will erode their spending power. Fixed-income investors receive set, regular payments that face the same inflation risk.

ETF and Mutual Fund Risk – When investing in a an ETF or mutual fund, it will bear additional expenses based on its pro rata share of the ETFs or mutual fund’s operating expenses, including the potential duplication of management fees. The risk of owning an ETF or mutual fund generally reflects the risks of owning the underlying securities the ETF or mutual fund holds. You will also incur brokerage costs when purchasing ETFs. The Sub-Advisor may, at its discretion, invest in leveraged ETFs which provide two times the exposure to a stated index or asset class. These ETFs may be held for periods longer than one week.

Item 9 Disciplinary Information

SIM has not been the subject of any disciplinary actions.

Item 10 Other Financial Industry Activities and Affiliations

Registered Representatives of SIM: As disclosed above in Item 5.E, certain of SIM’s representatives are registered representatives of G.F. Investment Services, LLC (“GFIS”), a FINRA member broker-dealer. Clients may choose to engage certain of SIM’s representatives, in their individual capacities as registered representatives of GFIS, to effect securities brokerage transactions on a commission basis.

Licensed Insurance Agents: SIM does not engage in the sale of insurance products to advisory clients. Certain of SIM’s supervised persons, in their individual capacities, are also licensed insurance agents, with various insurance companies, including affiliated firm’s J.D. Mellberg Financial, LLC and Retirement Income, LLC. As a result, such supervised persons may recommend, on a fully-disclosed commission basis, the purchase of certain Insurance products. A conflict of interest exists to the extent that SIM recommends the purchase of insurance products where SIM’s supervised persons receive insurance commissions or other additional compensation. As referenced in Item 4.B above, clients can engage certain of SIM’s representatives to purchase insurance products on a commission basis. Any activity by your investment adviser representative as an insurance agent is separate from and outside of his or her role on behalf SIM. You should understand the following:

- SIM does **not** serve as an insurance agency for your investment adviser representative to offer fixed insurance, fixed annuities or fixed indexed annuities;
- SIM does **not** conduct due diligence of the fixed insurance, fixed annuities or fixed indexed annuities offered by your investment adviser representative in his or her separate capacity as an insurance agent; and
- SIM does **not** review, approve nor supervise your investment adviser representative’s recommendations as an insurance agent to hold, purchase or sell/surrender fixed insurance, fixed annuities or fixed indexed annuities.

Dually Licensed Investment Adviser Representative: Currently, there are no investment adviser representatives of SIM that are dually registered as investment adviser representatives of their own independently registered investment adviser firms. In the future, it could be possible that certain investment adviser representatives of SIM may also be dually registered as investment adviser representatives of their own independently registered investment adviser firms. Under such circumstances, SIM may receive referrals from the dually registered investment adviser representative to provide asset management services. The referring investment adviser representative may continue to provide financial planning services under his or her own independently registered investment adviser firm. Clients are not obligated to use the services of SIM or the referring investment adviser representative's independently registered investment adviser firm. However, if the client chooses to do so, the client should be aware that SIM does not review or supervise the financial planning services provided by the adviser representative in this separate capacity through their independently registered investment adviser firm; the independently registered investment adviser firm providing the financial planning services is solely responsible for these services and the advisory fees charged. SIM will be responsible to only supervise our asset management services. This dual registration of an investment adviser representative with SIM and the independently registered investment adviser firm creates a conflict of interest.

Conflict of Interest: The recommendation by SIM's representatives that a client purchase a securities or insurance commission product presents a ***conflict of interest***, as the receipt of commissions may provide an incentive to recommend investment products based on commissions to be received, rather than on a particular client's need. Additionally in their individual capacities as insurance licensed agents SIM's representatives may receive compensation in addition to commissions from certain insurance wholesalers. No client is under any obligation to purchase any commission products from SIM's representatives. All material conflicts of interest have been disclosed herein.

Outside Money Managers: When SIM refers you to an outside money manager, SIM will provide proper disclosure of the arrangement to you. Disclosure will be made at the time of solicitation and will include a description of SIM's arrangement with the outside money manager and a description of the compensation arrangement. SIM will also provide to you a copy of the outside money manager's disclosure brochure. Money managers selected by SIM, are thoroughly reviewed to make sure they are properly licensed and registered as an investment advisor prior to acceptance.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

SIM maintains an investment policy relative to personal securities transactions. This investment policy is part of SIM's overall Code of Ethics, which serves to establish a standard of business conduct for all of SIM's representatives that is based upon fundamental principles of openness, integrity, honesty and trust, a copy of which is available upon request.

In accordance with Section 204A of the Investment Advisers Act of 1940, SIM also maintains and enforces written policies reasonably designed to prevent the misuse of material non-public information by SIM or any person associated with SIM.

Neither SIM nor any related person of SIM recommends, buys, or sells for client accounts, securities in which SIM or any related person of SIM has a material financial interest.

SIM and/or representatives of SIM *may* buy or sell securities that are also recommended to clients. This practice may create a situation where SIM and/or representatives of SIM are in a position to

materially benefit from the sale or purchase of those securities. Therefore, this situation creates a potential conflict of interest. Practices such as “scalping” (i.e., a practice whereby the owner of shares of a security recommends that security for investment and then immediately sells it at a profit upon the rise in the market price which follows the recommendation) could take place if SIM did not have adequate policies in place to detect such activities. In addition, this requirement can help detect insider trading, “front-running” (i.e., personal trades executed prior to those of SIM’s clients) and other potentially abusive practices.

SIM has a personal securities transaction policy in place to monitor the personal securities transactions and securities holdings of each of SIM’s “Access Persons.” SIM’s securities transaction policy requires that an Access Person of SIM must provide the Chief Compliance Officer or his/her designee with a written report of their current securities holdings within ten (10) days after becoming an Access Person. Access Persons are also required to provide a list of their outside brokerage accounts and set up each outside brokerage account to provide duplicate statements directly to SIM’s Chief Compliance Officer. SIM’s internal compliance reviews each confirmation of trade statement as well as each monthly report received from the Access Person’s outside brokerage account(s).

Additionally, each Access Person provides the Chief Compliance Officer or his/her designee with a written attestation confirming/identifying each one of the Access Person’s current outside brokerage accounts. SIM and/or representatives of SIM *may* buy or sell securities, at or around the same time as those securities are recommended to clients. This practice creates a situation where SIM and/or representatives of SIM are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a potential conflict of interest. As indicated above in Item 11.C, SIM has a personal securities transaction policy in place to monitor the personal securities transaction and securities holdings of each of SIM’s Access Persons.

Item 12 Brokerage Practices

In the event that the client requests that SIM recommend a broker-dealer/custodian for execution and/or custodial services (exclusive of those clients that may direct SIM to use a specific broker-dealer/custodian), SIM recommends that investment management accounts be maintained at *Fidelity*. Prior to engaging SIM to provide investment management services, the client will be required to enter into a formal *Investment Advisory Agreement* with SIM setting forth the terms and conditions under which SIM shall manage the client’s assets, and a separate custodial/clearing agreement with each designated broker-dealer/custodian.

Factors that SIM considers in recommending *Fidelity* (or any other broker-dealer/custodian to clients) include historical relationship with SIM, financial strength, reputation, execution capabilities, pricing, research, and service. Although the commissions and/or transaction fees paid by SIM’s clients shall comply with SIM’s duty to obtain best execution, a client may pay a commission that is higher than another qualified broker-dealer might charge to effect the same transaction where SIM determines, in good faith, that the commission/transaction fee is reasonable in relation to the value of the brokerage and research services received. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer’s services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, although SIM will seek competitive rates, it may not necessarily obtain the lowest possible commission rates for client account transactions. The brokerage commissions or transaction fees charged by the designated broker-dealer/custodian are exclusive of, and in addition to, SIM’s investment management fee.

SIM's best execution responsibility is qualified if securities that it purchases for client accounts are mutual funds that trade at net asset value as determined at the daily market close.

Research and Additional Benefits: Although not a material consideration when determining whether to recommend that a client utilize the services of a particular custodian, SIM may receive from *Fidelity* (or another broker-dealer/custodian) without cost (and/or at a discount) support services and/or products, certain of which assist SIM to better monitor and service client accounts maintained at such institutions. Included within the support services that may be obtained by SIM may be investment-related research, pricing information and market data, software and other technology that provide access to client account data, compliance and/or practice management-related publications, discounted or gratis consulting services, discounted and/or gratis attendance at conferences, meetings, and other educational and/or social events, marketing support, computer hardware and/or software and/or other products used SIM in furtherance of its investment advisory business operations. The receipt of benefits may give SIM an incentive to recommend or select *Fidelity* (or another broker-dealer/custodian) based on SIM's interest in receiving the research or other products or services, rather than on the clients' interest in receiving most favorable execution.

As indicated above, certain of the support services and/or products that *may* be received may assist SIM in managing and administering client accounts. Others do not directly provide such assistance, but rather assist SIM to manage and further develop its business enterprise.

SIM's clients do not pay more for investment transactions effected and/or assets maintained at *Fidelity* as a result of this arrangement. This may, however, cause clients to pay commissions higher than those charged by other broker-dealers who do not offer such benefits. There is no corresponding commitment made by SIM to *Fidelity* or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement.

To the extent that services of value are received by SIM, SIM may avoid expenses which it might otherwise incur. The receipt of research in connection with brokerage transactions executed on behalf of its clients benefits SIM by allowing SIM, at no cost to it, to supplement its own research and analysis activities.

Research obtained may be utilized by SIM for the benefit of clients not related to the broker-dealer providing the research.

SIM does not receive referrals from broker-dealers.

Directed Brokerage: The client may direct SIM to use a particular broker-dealer (subject to SIM's right to decline and/or terminate the engagement) to execute some or all transactions for the client's account. In such event, the client will negotiate terms and arrangements for the account with that broker-dealer, and SIM will not seek better execution services or prices from other broker-dealers or be able to "batch" the client's transactions for execution through other broker-dealers with orders for other accounts managed by SIM. As a result, client may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case. In the event that the client directs SIM to effect securities transactions for the client's accounts through a specific broker-dealer, the client correspondingly acknowledges that such direction may cause the accounts to incur higher commissions or transaction costs than the accounts would otherwise incur had the client determined to effect account transactions through alternative clearing arrangements that may be available through SIM.

In the event that the transactions for a client's accounts are effected through a broker-dealer that refers investment management clients to SIM, there exists the potential for conflict of interest if the accounts incur higher commission or transaction costs than the accounts would otherwise have incurred had the client determined to effect account transactions through alternative clearing arrangements that may have been available through SIM.

SIM will aggregate orders in a manner that it considers to be the most equitable to all accounts. The allocation ratio used for those trades excludes the capital, from the denominator, of the accounts not participating in the trades.

Item 13 Review of Accounts

For those clients to whom SIM provides investment supervisory services, account reviews are conducted on an ongoing basis by the client's investment advisor representative or qualified designee. All investment supervisory clients are advised that it remains their responsibility to advise their investment adviser representative and SIM of any changes in their investment objectives and/or financial situation. SIM encourages you to request a review with your investment adviser representative to discuss such things as account performance, changes in the client's investment objectives, goals, and financial situation, tax planning, estate planning, retirement planning and any other questions the client may have concerning their investment portfolio. If you only receive financial planning services from SIM, you may be charged a separate fee for meetings with your investment adviser representative. You should read carefully the agreement with SIM to determine the amount of such separate fees, if any on an annual basis.

SIM *may* conduct account reviews on an other-than-periodic basis upon the occurrence of a triggering event, such as a change in client investment objectives and/or financial situation, market corrections and client request.

Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. SIM may also provide a written periodic report summarizing account activity and performance.

Item 14 Client Referrals and Other Compensation

As referenced in Item 12 above, SIM may receive an indirect economic benefit from *Fidelity*. SIM, without cost (and/or at a discount), may receive support services and/or products from *Fidelity*.

SIM's clients do not pay more for investment transactions effected and/or assets maintained at *Fidelity* as a result of this arrangement. There is no corresponding commitment made by SIM to *Fidelity* or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement.

If a client is introduced to SIM by either an unaffiliated or an affiliated solicitor, SIM may pay that solicitor a referral fee in accordance with the requirements of Rule 206(4)-3 of the Investment Advisers Act of 1940, and any corresponding state securities law requirements. Any such referral fee shall be paid solely from SIM's investment management fee, and shall not result in any additional charge to the client. If the client is introduced to SIM by an unaffiliated solicitor, the solicitor, at the time of the solicitation, shall disclose the nature of his/her/its solicitor relationship, and shall provide

each prospective client with a copy of SIM's written Brochure with a copy of the written disclosure statement from the solicitor to the client disclosing the terms of the solicitation arrangement between SIM and the solicitor, including the compensation to be received by the solicitor from SIM.

Outside Money Managers: SIM and our supervised persons may refer clients to outside money managers for advisory services not provided by SIM. SIM and these outside money managers are not affiliated.

Item 15 Custody

SIM shall have the ability to have its advisory fee for each client debited by the custodian on a monthly basis. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the custodian and/or program sponsor for the client accounts. SIM urges you to carefully review such statements and compare such official custodial records to the account statements that SIM provides you.

Please Note: The account custodian does not verify the accuracy of SIM's advisory fee calculation.

Item 16 Investment Discretion

The client can determine to engage SIM to provide investment advisory services on a discretionary or non-discretionary basis. Prior to SIM assuming discretionary authority over a client's account, the client shall be required to execute an *Investment Advisory Agreement*, naming SIM as the client's attorney and agent in fact, granting SIM full authority to buy, sell, or otherwise effect investment transactions involving the assets in the client's name found in the discretionary account.

Clients who engage SIM on a discretionary basis may, at any time, impose restrictions, **in writing**, on SIM's discretionary authority. (i.e. limit the types/amounts of particular securities purchased for their account, exclude the ability to purchase securities with an inverse relationship to the market, limit or proscribe SIM's use of margin, etc.).

Item 17 Voting Client Securities

SIM does not vote client proxies. However, certain client accounts may be sub-advised by an investment adviser firm. Unless a client, who's account is being sub-advised, directs otherwise in writing, the sub-advisor shall be responsible for voting that client's proxies (**However**, the client shall maintain exclusive responsibility for all legal proceedings or other type events pertaining to the account assets, including, but not limited to, class action lawsuits.).

Item 18 Financial Information

SIM does not solicit fees of more than \$500.00, per client, six months or more in advance
