Additional information regarding Redhawk’s advisory services to wealth management and retirement plan Clients are described below.

Wealth Advisor Model Portfolios

Redhawk provides portfolio management services to wealth advisor Clients using various sub-advisor proprietary model portfolios. Each model portfolio is designed to meet a particular investment goal. Redhawk has agreements with third-party money managers and these programs allow Clients to obtain portfolio management services that typically require higher minimum account sizes. The sub-advisors selected under these programs have full

discretion to determine the securities they buy and sell within the account. Redhawk currently has agreements with and utilizes the sub-advisory services of the following Registered Investment Advisors for wealth advisor Clients:

- 3D Asset Management, Inc.
- F-Squared Investments, Inc.
- First Trust Portfolios, L.P.
- Sage Advisory Services, Ltd.
- Two Rivers Capital Consulting, LLC
- Victoria Capital Management, Inc.

As part of the financial planning process, financial advisors conduct personal discussions with the Client and completes a risk tolerance questionnaire to determine the Client's goals and objectives. Redhawk then determines an appropriate model portfolio or blend of model portfolios that is suitable for the Client's circumstances. Under this arrangement, the Client retains individual ownership of all securities.

Redhawk's investment recommendations are not limited to any specific product or service offered by a broker dealer, registered investment advisors, or insurance company and will generally include advice regarding the following securities:

- Exchange-listed securities
- Securities traded over-the-counter
- Warrants
- Corporate debt securities (other than commercial paper)
- Commercial paper
- Certificates of deposit
- Municipal securities
- Mutual fund shares
- ETFs
- Unit Investment Trusts ("UITs")
- Collective Investment Trust ("CITs")
- United States governmental securities
- Options contracts on securities

Because some types of investments involve certain additional degrees of risk, they will only be implemented/recommended when consistent with the Client's stated investment objectives, tolerance for risk, liquidity and suitability. To ensure that the initial determination of an appropriate portfolio remains suitable and that the account continues to be managed in a manner consistent with the Client's financial circumstances, Redhawk will cause that financial advisors:

1. Contact each participating Client, at least annually, to determine whether there have been any changes in the Client's financial situation or investment objectives, and whether the Client wishes to impose investment restrictions or modify existing restrictions.
2. Are available to consult with the Client.
3. Maintain Client suitability information in each Client's file.

Retirement Plan Model Portfolios

Redhawk makes available model portfolios managed by sub-advisors to retirement plan Clients using sub-advisor asset allocation portfolios and collective investment trust funds. Each portfolio is designed to meet a particular investment goal. Redhawk has agreements with third party money managers and these programs allow retirement plan Clients to obtain professional portfolio management services. The sub-advisors selected under these programs

will have full discretion to determine the securities they buy and sell within the account. Redhawk currently has agreements with and utilizes the sub-advisory services of the following Registered Investment Advisors for its retirement plan Clients:

- 3D Asset Management, Inc.
- F-Squared Retirement Solutions, LLC
- First Trust Portfolios, L.P.

ERISA Section 3(38) Investment Management Services

For employer-sponsored retirement plans with participant-directed investments, Redhawk generally provides its advisory services as an investment manager as defined under Section 3(38) of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Redhawk selects and monitors the plan’s menu of investment options in its capacity as a discretionary investment manager in accordance with the terms of a separate Retirement Plan Investment Management Agreement between Redhawk and the plan sponsor. Redhawk’s goal in identifying the Plan’s investment options is to provide a range of options that will enable plan participants to invest according to varying risk tolerances, savings time horizons or other financial goals. The plan’s investment options may consist of ETFs, CITs, mutual funds, or other similar investment funds that are selected and monitored by Redhawk. The investment funds from which Redhawk will choose from to determine a plan’s investment options will be those that are available on the plan recordkeeper’s investment platform.

Redhawk will assist the plan sponsor in preparing an Investment Policy Statement (“IPS”) for the plan. The purpose of the IPS is to provide guidelines for making investment-related decisions in a prudent manner. It outlines the underlying philosophies and processes for the selection, evaluation, monitoring, and, if necessary, termination of the investment options offered by the plan. Redhawk will perform on-going monitoring of the investment options within the plan. The ongoing monitoring of investments is a regular and disciplined process. Monitoring confirms that the criteria remain satisfied and that an investment option continues to be appropriate. The process of monitoring investment performance relative to specified guidelines will be consistently applied.

If selected by the plan sponsor, Redhawk will provide a range of asset allocation portfolios managed by sub-advisors (“model portfolios”) to be utilized as investment options for the plan’s participants. When a participant selects a model portfolio as the investment for his or her account, Redhawk will invest the assets of such account into the selected model portfolios.

Redhawk will make available to participants, either through the provider’s recordkeeping platform, a stand-alone form, or a third party web-site, a risk tolerance questionnaire. The questionnaire’s sole purpose is to provide participants with general assistance in order to identify their risk tolerance and investment objectives and, based on this information, help determine which model portfolio is most aligned with their risk tolerance/investment objectives.

GENERAL INFORMATION

Termination of the Advisory Relationship: Clients may terminate investment advisory services obtained from Redhawk, without penalty, upon written notice within five (5) business days after entering into the advisory agreement with Redhawk. The Client is responsible for any fees and charges incurred by the Client from third parties as a result of maintaining the account such as transaction fees for any securities transactions executed and account maintenance or custodial fees. Thereafter, a Client agreement may be canceled at any time, by either party, for any reason upon receipt of thirty (30) days written notice. As disclosed above, certain fees are paid in advance of services provided. Upon termination of any account, any prepaid, unearned fees will be promptly refunded. In calculating a Client's reimbursement of fees, Redhawk will pro rate the reimbursement according to the number of days remaining in the billing period.

Mutual Fund Fees: All fees paid to Redhawk for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds and/or ETFs to their shareholders. These fees and expenses are described in each fund's prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. If the fund also imposes sales charges, a Client may pay an initial or deferred sales charge. A Client could invest in a mutual fund directly, without Redhawk's services. In that case, the Client would not receive the services provided by Redhawk which are designed, among other things, to assist the Client in determining which mutual fund or funds are most appropriate to each Client's financial condition and objectives. Accordingly, the Client should review both the fees charged by the funds and Redhawk's fees to fully understand the total amount of fees to be paid by the Client and to thereby evaluate the advisory services being provided.

Wrap Fee Programs and Separately Managed Account Fees: Clients participating in separately managed account programs may be charged various program fees in addition to the fee charged by Redhawk. Such fees may include the advisory fees of the financial advisors, which may be charged as part of a wrap fee arrangement. In a wrap fee arrangement, Clients pay a single fee for advisory, brokerage and custodial services.

Client's portfolio transactions may be executed without commission charge in a wrap fee arrangement. In evaluating such an arrangement, the Client should also consider that, depending upon the level of the wrap fee charged by the broker-dealer, the amount of portfolio activity in the Client's account, and other factors, the wrap fee may or may not exceed the aggregate cost of such services if they were to be provided separately. We will review with Clients any separate program fees that may be charged to Clients.

Additional Fees and Expenses: Clients are also responsible for the fees and expenses charged by custodians and imposed by broker-dealers, including, but not limited to, any transaction charges imposed by a broker-dealer with which an independent investment manager effects transactions for the Client's account(s). Please refer to the "Brokerage Practices" section (Item 12) of this Form ADV for additional information.

Grandfathering of Minimum Account Requirements: Pre-existing advisory Clients are subject to Redhawk's minimum account requirements and advisory fees in effect at the time the Client entered into the advisory relationship. Therefore, Redhawk's minimum account requirements will differ among Clients.

Advisory Fees in General: Clients should note that similar advisory services may be available from other investment advisors for similar or lower fees.

Limited Prepayment of Fees: Under no circumstances does Redhawk require or solicit payment of fees in excess of \$1,200 more than six months in advance of services rendered.

Limited Negotiability of Advisory Fees: Although Redhawk has established the aforementioned fee schedule(s), Redhawk retains the right to negotiate alternative fees on a Client-by-Client basis. Client facts, circumstances and needs are considered in determining the fee schedule. These include the complexity of the Client, assets to be placed under management, anticipated future additional assets; related accounts; portfolio style, account composition, reports, among other factors. The specific annual fee schedule is identified in an agreement between the financial advisor and each Client. We may group certain related Client accounts for the purposes of achieving the minimum account size requirements and determining the annualized fee. Discounts may be offered to family members and friends of associated persons of Redhawk.

Item 8 - Methods of Analysis, Investment Strategies and Risk of Loss

METHODS OF ANALYSIS

Redhawk uses the following methods of analysis in formulating investment advice and/or managing Client assets:

Redhawk has a formal Investment Committee (“RIC”) that meets on a monthly basis and operates under a formalized set of policies and procedures outlined under the Redhawk Investment Provider Selection and Monitoring Methodology document. RIC is responsible for the selection, monitoring, and termination/replacement of investment providers and sub-advisors. Redhawk will offer sub-advisors that have varied investment philosophies and strategies that cover tactical managers, strategic allocation managers, and alternative investments encompassing a broad range of investment solutions.

Frequency: RIC is aware that the ongoing review and analysis of the investment provider and sub-advisor is just as important as the initial selection. Investment performance will be monitored on a monthly basis, and it is at Redhawk’s discretion to take corrective action by either terminating or replacing an investment if deemed appropriate at any time. RIC intends to evaluate investment performance from a long-term perspective.

Selection Criteria: RIC will use the information submitted by the investment company as required under the Redhawk Investment Provider Due Diligence Request for Information (RFI) document. RIC will review the information and make a decision using various criteria.

Monitoring: The ongoing monitoring of investment providers and sub-advisors is a regular and disciplined process. Monitoring confirms that the criteria remain satisfied and that an investment continues to be appropriate. The process of monitoring investment performance relative to specified guidelines will be consistently applied. Frequent change of investment providers and sub-advisors is neither expected nor desired. Monitoring will utilize some of the same selection criteria used in the selection analysis. Each unique investment strategy will have its own unique monitoring criteria. Unusual, notable, or extraordinary events will be communicated to the financial advisor and Client on a timely basis. Examples of such events include investment manager or team departure, violation of investment guidelines, material litigation against the firm, or material changes in firm ownership structure and announcements thereof.

RIC has established performance objectives for each investment. Investment manager performance will be evaluated in terms of an appropriate market index (e.g., the S&P 500 Index for the large-cap domestic equity manager) or the relevant peer group (e.g., the large-cap growth mutual fund universe for a large-cap growth mutual fund). RIC will exercise discretion and reasonable judgment in the monitoring process. In fulfilling RIC’s ongoing duty, certain indicators have been selected to assist in determining whether a particular investment remains a suitable investment for the plan.

Replacement/Termination: RIC will give consideration to either replacing or terminating a sub-advisor or investment if one or several of the following conditions occur:

- The sub-advisor or investment significantly underperforms without a justifiable rationale.
- The sub-advisor or investment fails to achieve performance and risk objectives.
- The sub-advisor or investment fails to maintain a consistent investment style.
- The sub-advisor or investment fails to satisfy a minimum score of 8 (for the 12 criteria) for the past four successive months.
- There is material changes in the sub-advisor’s organization, investment philosophy, and/or personnel.
- Any legal, Securities and Exchange Commission (SEC), and/or other regulatory agency proceedings affecting the sub-advisor’s organization.

- The investment is no longer offered by the investment provider.

In addition, other factors may include sub-advisor/manager turnover or a material change to investment processes. RIC may also remove any sub-advisor or investment at any time and for whatever reason it deems appropriate, including a determination that the sub-advisor or investment is no longer suitable for clients.

Options: RIC may remove a sub-advisor or investment using one of the following approaches:

- Remove and replace (map assets) to an alternative sub-advisor or investment.
- Freeze the assets with the sub-advisor or in the investment being removed and do not allow any new assets to be invested in the investment.
- Remove the sub-advisor or investment and do not provide a replacement sub-advisor or investment.
- Limit the amount of new assets that can be placed in the investment.
- Continue monitoring the investment.

INVESTMENT STRATEGIES

Redhawk has agreements in place with sub-advisors that have different investment philosophies in order to offer a full array of model portfolios to Clients. The sub-advisor strategies need to be appropriate to the needs of the Client and consistent with the Client's investment objectives, risk tolerance, and time horizons, among other considerations. The sub-advisors cover the following investment strategies:

Tactical Asset Allocation Management: An active management portfolio strategy that rebalances the percentage of assets held in various categories in order to take advantage of market pricing anomalies or strong market sectors. This strategy allows portfolio managers to create extra value by taking advantage of certain situations in the marketplace. It is an active strategy since sub-advisors return to the portfolio's original strategic asset mix when desired short-term profits are achieved. The sub-advisor may use fundamental, technical, and/or macroeconomic analysis in determining when and how to change the investments in the portfolio.

Strategic Asset Allocation Management: A passive portfolio strategy that involves periodically rebalancing the portfolio in order to maintain a long-term goal for asset allocation. At the inception of the portfolio, a "base policy mix" is established based on expected returns. Because the value of assets can change given market conditions, the portfolio constantly needs to be re-adjusted to meet the policy. Asset allocation is an investment strategy that attempts to balance risk versus reward by adjusting the percentage of each asset in an investment portfolio according to the investor's risk tolerance, goals and investment time frame.

Alternative Investments: An investment that is not one of the three traditional asset types (stocks, bonds and cash). Alternative investments include hedge funds, managed futures, real estate, commodities and derivatives contracts. Alternative investments typically have a low correlation with those of standard asset classes.

RISKS

The strategies and investments may have unique and significant tax implications. Redhawk strongly recommends that Clients continuously consult with a tax professional prior to and throughout the investing of Client assets. Investing in securities involves risk of loss that Clients should be prepared to bear. Although portfolios are selected in a manner consistent with Client's risk tolerances and there can be no guarantee that the portfolio will be successful. Clients should be prepared to bear the risk of loss.

All investments involve the risk of loss, including (among other things) loss of principal, a reduction in earnings (including interest, dividends, and other distributions), and the loss of future earnings. These risks include market risk, interest rate risk, issuer risk, and general economic risk. Regardless of the methods of analysis or strategies suggested for Clients particular investment goals, Clients should carefully consider these risks, as they all bear risks.
