

CORIENT CAPITAL PARTNERS, LLC

a Registered Investment Adviser

500 Newport Center Drive, Suite 700
Newport Beach, CA 92660

(949) 945-2750

www.corient.com

This brochure provides information about the qualifications and business practices of Corient Capital Partners, LLC (hereinafter “Corient Capital Partners” or the “Firm”). If you have any questions about the contents of this brochure, please contact the Firm at the telephone number listed above. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission (SEC) or by any state securities authority. Additional information about the Firm is available on the SEC’s website at www.adviserinfo.sec.gov. The Firm is a registered investment adviser. Registration does not imply any level of skill or training.

Item 2. Material Changes

In this Item, Corient Capital Partners is required to discuss any material changes that have been made to the brochure since the last annual amendment. Each section of this brochure has materially changed since Darren Henderson, Christopher Copps, Michael Phelps, Jonathan Tenney, Gregory Walters, Alexander Stimpson, and Gordon Hassenplug became the owners of the Firm.

Item 4. Advisory Business

Corient Capital Partners offers a variety of advisory services, which include financial planning, consulting, and investment management services. Prior to Corient Capital Partners rendering any of the foregoing advisory services, clients are required to enter into one or more written agreements with Corient Capital Partners setting forth the relevant terms and conditions of the advisory relationship (the “Advisory Agreement”).

Corient Capital Partners has been owned by Christopher Copps, Darren Henderson, Michael Phelps, Jonathan Tenney, Gregory Walters, Alexander Stimpson, and Gordon Hassenplug since September 25, 2015. As of the date of this filing, Corient Capital Partners had approximately \$2,000,000,000 of assets under management; \$1,500,000,000 of which was managed on a discretionary basis and \$500,000,000 of which was managed on a non-discretionary basis.

While this brochure generally describes the business of Corient Capital Partners, certain sections also discuss the activities of its Supervised Persons, which refer to the Firm’s officers, partners, directors (or other persons occupying a similar status or performing similar functions), employees or any other person who provides investment advice on Corient Capital Partners’s behalf and is subject to the Firm’s supervision or control.

Financial Planning and Consulting Services

Corient Capital Partners offers clients a broad range of financial planning and consulting services. The services include all aspects of a client’s financial life, including the following:

- | | |
|-----------------------------|--------------------------------|
| • Business Planning | • Risk Management |
| • Cash Flow Forecasting | • Charitable Giving |
| • Trust and Estate Planning | • Distribution Planning |
| • Financial Reporting | • Tax Planning |
| • Investment Consulting | • Single Stock Risk Management |
| • Insurance Planning | • Investment Banking |
| • Retirement Planning | • Commercial Banking |

While each of these services is available on a stand-alone basis, certain of them may also be rendered in conjunction with investment portfolio management as part of a comprehensive wealth management engagement (described in more detail below).

In performing these services, Corient Capital Partners is not required to verify any information received from the client or from the client’s other professionals (e.g., attorneys, accountants, etc.) and is expressly

authorized to rely on such information. Corient Capital Partners may recommend clients engage the Firm for additional related services, its Supervised Persons in their individual capacities as insurance agents or registered representatives of a broker-dealer and/or other professionals to implement its recommendations. Clients are advised that a conflict of interest exists if clients engage Corient Capital Partners or its affiliates to provide additional services for compensation. Clients retain absolute discretion over all decisions regarding implementation and are under no obligation to act upon any of the recommendations made by Corient Capital Partners under a financial planning or consulting engagement. Clients are advised that it remains their responsibility to promptly notify the Firm of any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising Corient Capital Partners's recommendations and/or services.

Investment and Wealth Management Services

Corient Capital Partners provides clients with wealth management services which includes a broad range of comprehensive financial planning and consulting services as well as discretionary and/or non-discretionary management of investment portfolios.

Corient Capital Partners is vehicle-agnostic and primarily allocates client assets among various mutual funds, exchange-traded funds ("ETFs"), individual debt and equity securities, options, private securities (including pooled debt, equity and private equity funds) and independent investment managers ("Independent Managers") in accordance with their stated investment objectives.

Where appropriate, the Firm may also provide advice about any type of legacy position or other investment held in client portfolios. Clients may engage Corient Capital Partners to manage and/or advise on certain investment products that are not maintained at their primary custodian, such as variable life insurance and annuity contracts and assets held in employer sponsored retirement plans and qualified tuition plans (i.e., 529 plans). In these situations, Corient Capital Partners directs or recommends the allocation of client assets among the various investment options available with the product. These assets are generally maintained at the underwriting insurance company or the custodian designated by the product's provider.

Corient Capital Partners tailors its advisory services to meet the needs of its individual clients and seeks to ensure, on a continuous basis, that client portfolios are managed in a manner consistent with those needs and objectives. Corient Capital Partners consults with clients on an initial and ongoing basis to assess their specific risk tolerance, time horizon, liquidity constraints and other related factors relevant to the management of their portfolios. Clients are advised to promptly notify Corient Capital Partners if there are changes in their financial situation or if they wish to place any limitations on the management of their portfolios. Clients may impose reasonable restrictions or mandates on the management of their accounts if Corient Capital Partners determines, in its sole discretion, the conditions would not materially impact the performance of a management strategy or prove overly burdensome to the Firm's management efforts.

Use of Independent Managers

As mentioned above, Corient Capital Partners may select certain Independent Managers to actively manage a portion of its clients' assets. The specific terms and conditions under which a client engages an Independent Manager may be set forth in a separate written agreement with the designated Independent Manager. In addition to this brochure, clients may also receive the written disclosure documents of the respective Independent Managers engaged to manage their assets.

Corient Capital Partners evaluates a variety of information about Independent Managers, which may include the Independent Managers' public disclosure documents, materials supplied by the Independent Managers themselves and other third-party analyses it believes are reputable. To the extent possible, the Firm seeks to assess the Independent Managers' investment strategies, past performance and risk results in relation to its clients' individual portfolio allocations and risk exposure. Corient Capital Partners also takes into consideration each Independent Manager's management style, returns, reputation, financial strength, reporting, pricing and research capabilities, among other factors.

Corient Capital Partners continues to provide services relative to the discretionary or non-discretionary selection of the Independent Managers. On an ongoing basis, the Firm monitors the performance of those accounts being managed by Independent Managers. Corient Capital Partners seeks to ensure the Independent Managers' strategies and target allocations remain aligned with its clients' investment objectives and overall best interests.

Item 5. Fees and Compensation

Corient Capital Partners offers services for fees based upon assets under management. Alternatively, in certain limited circumstances, the Firm may provide services on a fixed fee basis. Additionally, certain of the Firm's Supervised Persons, in their individual capacities, may offer securities brokerage services and/or insurance products under a separate commission-based arrangement.

Wealth Management Fees

Corient Capital Partners offers wealth management services for an annual fee based on the amount of assets under the Firm's management. This management fee generally varies in accordance with the following blended fee schedule:

<u>PORTFOLIO VALUE</u>	<u>BASE FEE</u>
First \$2,500,000	1.50%
Next \$2,500,000	1.10%
Next \$5,000,000	0.90%
Next \$15,000,000	0.75%
Next \$25,000,000	0.60%
Next \$50,000,000	0.50%
Above \$100,000,000	0.45%

The annual fee is prorated and charged quarterly (i.e., the annual fee rate will be divided by 4 when determining the fee each quarter), in advance, based upon the average month-end market value of the assets being managed by Corient Capital Partners during the previous billing period. If assets in excess of \$50,000 are deposited into or withdrawn from an account after the inception of a billing period, the fee payable with respect to such assets is adjusted to reflect the interim change in portfolio value. For the initial period of an engagement, the fee is calculated on a *pro rata* basis. Fees begin to be calculated when the *Agreement* is signed and assets are deposited into the account we will be managing (either with the *Financial Institution* we recommend or other *Financial Institutions* chosen by the client). In the event the advisory agreement is terminated, the fee for the final billing period is prorated through the effective date of the termination and the outstanding or unearned portion of the fee is charged or refunded to the client, as appropriate.

Additionally, for asset management services the Firm provides with respect to certain client holdings (e.g., held-away assets, accommodation accounts, alternative investments, etc.), Corient Capital Partners may negotiate a fee rate that differs from the range set forth above.

Fee Discretion

Corient Capital Partners may, in its sole discretion, negotiate to charge a lesser fee based upon certain criteria, such as anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, pre-existing/legacy client relationship, account retention and pro bono activities.

Additional Fees and Expenses

In addition to the advisory fees paid to Corient Capital Partners, clients may also incur certain charges imposed by other third parties, such as broker-dealers, custodians, trust companies, banks and other financial institutions (collectively “Financial Institutions”). These additional charges may include securities brokerage commissions, transaction fees, custodial fees, fees attributable to alternative assets, fees charged by the Independent Managers, margin costs, charges imposed directly by a mutual fund or ETF in a client’s account, as disclosed in the fund’s prospectus (*e.g.*, fund management fees and other fund expenses), deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. The Firm’s brokerage practices are described at length in Item 12, below.

Direct Fee Debit

Clients generally provide Corient Capital Partners and/or certain Independent Managers with the authority to directly debit their accounts for payment of the investment advisory fees. The Financial Institutions that act as the qualified custodian for client accounts, from which the Firm retains the authority to directly deduct fees, have agreed to send statements to clients not less than quarterly detailing all account transactions, including any amounts paid to Corient Capital Partners.

Account Additions and Withdrawals

Clients may make additions to and withdrawals from their account at any time, subject to Corient Capital Partners’s right to terminate an account. Additions may be in cash or securities provided that the Firm reserves the right to liquidate any transferred securities or declines to accept particular securities into a client’s account. Clients may withdraw account assets on notice to Corient Capital Partners, subject to the usual and customary securities settlement procedures. However, the Firm generally designs its portfolios as long-term investments and the withdrawal of assets may impair the achievement of a client’s investment objectives. Corient Capital Partners may consult with its clients about the options and implications of transferring securities. Clients are advised that when transferred securities are liquidated, they may be subject to transaction fees, short-term redemption fees, fees assessed at the mutual fund level (*e.g.*, contingent deferred sales charges) and/or tax ramifications.

Commissions and Sales Charges for Recommendations of Securities

Clients can engage certain persons associated with Corient Capital Partners (but not the Firm directly) to render securities brokerage services under a separate commission-based arrangement. Clients are under no obligation to engage such persons and may choose brokers or agents not affiliated with Corient Capital Partners.

Under this arrangement, the Firm's Supervised Persons, in their individual capacities as registered representatives of Purshe Kaplan Sterling Investments, Inc. ("PKS"), may provide securities brokerage services and implement securities transactions under a separate commission based arrangement. Supervised Persons may be entitled to a portion of the brokerage commissions paid to PKS, as well as a share of any ongoing distribution or service (trail) fees from the sale of mutual funds. Corient Capital Partners may also recommend no-load or load-waived funds, where no sales charges are assessed. Prior to effecting any transactions, clients are required to enter into a separate account agreement with PKS.

The Firm's Supervised Persons may receive commissions for transactions that are executed through their PKS registered representative relationship, but held with the client's primary custodian (often called "trade away" transactions). This can be done for clients that have entered into agreements for prime brokerage clearing services with their custodian. In such circumstance, the assets purchased or sold with a commission relationship will be in accounts separate, or otherwise tracked separately, from those assets over which the Firm provides management services and charges management fees.

A conflict of interest exists to the extent that Corient Capital Partners recommends the purchase or sale of securities where its Supervised Persons receive commissions or other additional compensation as a result of the Firm's recommendation. The Firm has procedures in place to ensure that any recommendations made by such Supervised Persons are in the best interest of clients. For certain accounts covered by the Employee Retirement Income Security Act of 1974 ("ERISA") and such others that Corient Capital Partners, in its sole discretion, deems appropriate, Corient Capital Partners may provide its investment advisory services on a fee-offset basis. In this scenario, Corient Capital Partners may offset its fees by an amount equal to the aggregate commissions and 12b-1 fees earned by the Firm's Supervised Persons in their individual capacities as registered representatives of PKS.

Item 6. Performance-Based Fees and Side-by-Side Management

Corient Capital Partners does not provide any services for a performance-based fee (i.e., a fee based on a share of capital gains or capital appreciation of a client's assets).

Item 7. Types of Clients

Corient Capital Partners offers services to individuals, trusts, estates, charitable organizations, corporations and business entities. Most of the clients could be characterized as ultra high net worth individuals and families or institutions.

Minimum Account Value and Minimum Fee

As a condition for starting and maintaining an investment management relationship, Corient Capital Partners generally imposes a minimum portfolio value of \$5,000,000 and a minimum annual fee of \$25,000. Corient Capital Partners may, in its sole discretion, accept clients with smaller portfolios or lesser fees based upon certain criteria, including anticipated future earning capacity, anticipated future additional assets, related accounts, account composition, pre-existing client, account retention, and pro bono activities. Corient Capital Partners only accepts clients with less than the minimum portfolio size if the Firm determines the smaller portfolio size will not cause a substantial increase of investment risk beyond the client's identified risk tolerance. Corient Capital Partners may aggregate the portfolios of family members to meet the minimum portfolio size and fee.

Item 8. Methods of Analysis, Investment Strategies and Risk of Loss**Methods of Analysis and Investment Strategies**

Corient Capital Partners utilizes a combination of fundamental, technical, and behavioral finance methods of analysis while employing an asset allocation strategy based on a derivative of Modern Portfolio Theory ("MPT").

Fundamental analysis involves an evaluation of the fundamental financial condition and competitive position of a particular fund or issuer. For Corient Capital Partners, this process typically involves an analysis of an issuer's management team, investment strategies, style drift, past performance, reputation and financial strength in relation to the asset class concentrations and risk exposures of the Firm's model asset allocations. A substantial risk in relying upon fundamental analysis is that while the overall health and position of a company may be good, evolving market conditions may negatively impact the security.

Technical analysis involves the examination of past market data rather than specific issuer information in determining the recommendations made to clients. Technical analysis may involve the use of mathematical based indicators and charts, such as moving averages and price correlations, to identify market patterns and trends which may be based on investor sentiment rather than the fundamentals of the company. A substantial risk in relying upon technical analysis is that spotting historical trends may not help to predict such trends in the future. Even if the trend will eventually reoccur, there is no guarantee that Corient Capital Partners will be able to accurately predict such a reoccurrence.

Behavioral finance analysis involves an examination of conventional economics as well as behavioral and cognitive psychological factors. Behavioral finance methodology seeks to combine a qualitative and quantitative approach to provide explanations for why individuals may, at times, make irrational financial

decisions. Where conventional financial theories have failed to explain certain patterns, the behavioral finance methodology investigates the underlying reasons and biases that cause some people to behave against their best interests. The risks relating to behavior finance analysis are that it relies on spotting trends in human behavior that may not predict future trends.

Modern Portfolio Theory (“MPT”) is a mathematical based investment discipline that seeks to quantify expected portfolio returns in relation to corresponding portfolio risk. The basic premise of MPT is that the risk of a particular holding is to be assessed by comparing its price variations against those of the market portfolio. However, MPT disregards certain investment considerations and is based on a series of assumptions that may not necessarily reflect actual market conditions. As such, the factors for which MPT does not account (*e.g.*, tax implications, regulatory constraints and brokerage costs) may negate the upside or add to the actual risk of a particular allocation. Nevertheless, Corient Capital Partners’s investment process is structured in such a way to integrate those assumptions and real life considerations for which MPT analytics do not account.

Corient Capital Partners uses a top down, macro approach to setting asset allocations, once the client goals and objectives have established. After the Firm determines the appropriate allocation, it will implement the portfolio using a core and tactical approach. Core positions are typically longer-term in nature, held longer than 18 months. A tactical position is a position added to the portfolio as a result of an opportunity we see in the marketplace for an outsized return. These positions are generally shorter-term in nature than Corient Capital Partners’s core positions.

Risk of Loss

Market Risks

Investing involves risk, including the potential loss of principal, and all investors should be guided accordingly. The profitability of a significant portion of Corient Capital Partners’s recommendations and/or investment decisions may depend to a great extent upon correctly assessing the future course of price movements of stocks, bonds and other asset classes. There can be no assurance that Corient Capital Partners will be able to predict those price movements accurately or capitalize on any such assumptions.

Mutual Funds and ETFs

An investment in a mutual fund or ETF involves risk, including the loss of principal. Mutual fund and ETF shareholders are necessarily subject to the risks stemming from the individual issuers of the fund’s underlying portfolio securities. Such shareholders are also liable for taxes on any fund-level capital gains, as mutual funds and ETFs are required by law to distribute capital gains in the event they sell securities for a profit that cannot be offset by a corresponding loss.

Shares of mutual funds are generally distributed and redeemed on an ongoing basis by the fund itself or a broker acting on its behalf. The trading price at which a share is transacted is equal to a fund's stated daily per share net asset value ("NAV"), plus any shareholders fees (*e.g.*, sales loads, purchase fees, redemption fees). The per share NAV of a mutual fund is calculated at the end of each business day, although the actual NAV fluctuates with intraday changes to the market value of the fund's holdings. The trading prices of a mutual fund's shares may differ significantly from the NAV during periods of market volatility, which may, among other factors, lead to the mutual fund's shares trading at a premium or discount to actual NAV.

Shares of ETFs are listed on securities exchanges and transacted at negotiated prices in the secondary market. Generally, ETF shares trade at or near their most recent NAV, which is generally calculated at least once daily for indexed based ETFs and potentially more frequently for actively managed ETFs. However, certain inefficiencies may cause the shares to trade at a premium or discount to their pro rata NAV. There is also no guarantee that an active secondary market for such shares will develop or continue to exist. Generally, an ETF only redeems shares when aggregated as creation units (usually 20,000 shares or more). Therefore, if a liquid secondary market ceases to exist for shares of a particular ETF, a shareholder may have no way to dispose of such shares.

Use of Independent Managers

As stated above, Corient Capital Partners may select certain Independent Managers to manage a portion of its clients' assets. In these situations, Corient Capital Partners continues to conduct ongoing due diligence of such managers, but such recommendations rely to a great extent on the Independent Managers' ability to successfully implement their investment strategies. In addition, Corient Capital Partners generally may not have the ability to supervise the Independent Managers on a day-to-day basis.

Use of Private Collective Investment Vehicles

Corient Capital Partners recommends that certain clients invest in privately placed collective investment vehicles (*e.g.*, hedge funds, private equity funds, etc.). The managers of these vehicles have broad discretion in selecting the investments. There are few limitations on the types of securities or other financial instruments which may be traded and no requirement to diversify. Hedge funds may trade on margin or otherwise leverage positions, thereby potentially increasing the risk to the vehicle. In addition, because the vehicles are not registered as investment companies, there is an absence of regulation. There are numerous other risks in investing in these securities. Clients should consult each fund's private placement memorandum and/or other documents explaining such risks prior to investing.

Options

Options allow investors to buy or sell a security at a contracted "strike" price at or within a specific period of time. Clients may pay or collect a premium for buying or selling an option. Investors transact in options to either hedge (*i.e.*, limit) losses in an attempt to reduce risk or to speculate on the performance of the

underlying securities. Options transactions contain a number of inherent risks, including the partial or total loss of principal in the event that the value of the underlying security or index does not increase/decrease to the level of the respective strike price. Holders of options contracts are also subject to default by the option writer which may be unwilling or unable to perform its contractual obligations.

Real Estate Investment Trusts (REITs)

Corient Capital Partners may recommend an investment in, or allocate assets among, various real estate investment trusts (“REITs”), the shares of which exist in the form of either publicly traded or privately placed securities. REITs are collective investment vehicles with portfolios comprised primarily of real estate and mortgage related holdings. Many REITs hold heavy concentrations of investments tied to commercial and/or residential developments, which inherently subject REIT investors to the risks associated with a downturn in the real estate market. Investments linked to certain regions that experience greater volatility in the local real estate market may give rise to large fluctuations in the value of the vehicle’s shares. Mortgage related holdings may give rise to additional concerns pertaining to interest rates, inflation, liquidity and

Item 9. Disciplinary Information

Corient Capital Partners has not been involved in any legal or disciplinary events that are material to a client’s evaluation of its advisory business or the integrity of its management.

Item 10. Other Financial Industry Activities and Affiliations

This item requires investment advisers to disclose certain financial industry activities and affiliations. The Firm does not have any other financial industry activities or affiliations that need to be disclosed.

Registered Representatives of a Broker/Dealer

Certain of the Firm’s Supervised Persons are registered representatives of PKS and may provide clients with securities brokerage services under a separate commission-based arrangement. This arrangement is described at length in Item 5.

Licensed Insurance Agents

A number of the Firm's Supervised Persons are licensed insurance agents and may offer certain insurance products on a fully-disclosed commissionable basis. A conflict of interest exists to the extent that Corient Capital Partners recommends the purchase of insurance products where its Supervised Persons may be entitled to insurance commissions or other additional compensation. The Firm has procedures in place whereby it seeks to ensure that all recommendations are made in its clients' best interest regardless of any such affiliations.

Licensed Insurance Agency

Corient Capital Partners is a duly licensed insurance agency. Additionally, a number of the Firm's Supervised Persons are licensed insurance agents and may offer certain insurance products on a fully-disclosed commissionable basis. A conflict of interest exists to the extent that Corient Capital Partners recommends the purchase of insurance products where its Supervised Persons may be entitled to insurance commissions or other additional compensation. The Firm has procedures in place whereby it seeks to ensure that all recommendations are made in its clients' best interest regardless of any such affiliations.

Relationship with Dynasty Financial Partners, LLC

Corient Capital Partners maintains a business relationship with Dynasty Financial Partners, LLC ("Dynasty"), which provides the Firm with operational and back office support including access to a network of service providers. Through the Dynasty network of service providers, Corient Capital Partners has access to trading technology, transition support, reporting, custody, brokerage, investments, compliance and other related services. The Firm may also engage and/or recommend Dynasty's subsidiary, Dynasty Wealth Management LLC, a registered investment adviser, to clients for certain outsourced investment services, such as separate account management, asset allocation strategies and externally managed investment programs. While Corient Capital Partners believes this open architecture structure for both operational and investment services best serves the interests of its advisory clients, this relationship may potentially present certain conflicts of interest due to the fact that Dynasty retains a portion of the platform or other third party fees paid by the Firm or clients for the services referenced above. In light of the foregoing, Corient Capital Partners seeks at all times to ensure that any material conflicts are addressed on a fully-disclosed basis and handled in a manner that is aligned with its clients' best interests. Corient Capital Partners does not receive any portion of the fees paid directly to Dynasty, its affiliates or the service providers made available through Dynasty's platform. In addition, the Firm reviews all such relationships, including the service providers engaged through Dynasty, on an ongoing basis in an effort to ensure clients are receiving competitive rates in relation to the quality and scope of the services provided.

Item 11. Code of Ethics

Corient Capital Partners has adopted a code of ethics in compliance with applicable securities laws (“Code of Ethics”) that sets forth the standards of conduct expected of its Supervised Persons. Corient Capital Partners’s Code of Ethics contains written policies reasonably designed to prevent certain unlawful practices such as the use of material non-public information by the Firm or any of its Supervised Persons and the trading by the same of securities ahead of clients in order to take advantage of pending orders.

The Code of Ethics also requires certain of Corient Capital Partners’s personnel to report their personal securities holdings and transactions and obtain pre-approval of certain investments (*e.g.*, initial public offerings, limited offerings). However, the Firm’s Supervised Persons are permitted to buy or sell securities that it also recommends to clients if done in a fair and equitable manner that is consistent with the Firm’s policies and procedures. This Code of Ethics has been established recognizing that some securities trade in sufficiently broad markets to permit transactions by certain personnel to be completed without any appreciable impact on the markets of such securities. Therefore, under limited circumstances, exceptions may be made to the policies stated below.

When the Firm is engaging in or considering a transaction in any security on behalf of a client, no Supervised Person will access to this information may knowingly effect for themselves or for their immediate family (*i.e.*, spouse, minor children and adults living in the same household) a transaction in that security unless:

- the transaction has been completed;
- the transaction for the Supervised Person is completed as part of a batch trade with clients; or
- a decision has been made not to engage in the transaction for the client.

These requirements are not applicable to: (i) direct obligations of the Government of the United States; (ii) money market instruments, bankers’ acceptances, bank certificates of deposit, commercial paper, repurchase agreements and other high quality short-term debt instruments, including repurchase agreements; (iii) shares issued by mutual funds or money market funds; and (iv) shares issued by unit investment trusts that are invested exclusively in one or more mutual funds.

Clients and prospective clients may contact Corient Capital Partners to request a copy of its Code of Ethics.

Item 12. Brokerage Practices

Recommendation of Broker/Dealers for Client Transactions

Corient Capital Partners generally recommends that clients utilize the custody, brokerage and clearing services of Fidelity Institutional Wealth Services (“Fidelity”) for investment management accounts.

Factors which Corient Capital Partners considers in recommending Fidelity or any other broker-dealer to clients include their respective financial strength, reputation, execution, pricing, research and service. Fidelity may enable the Firm to obtain many mutual funds without transaction charges and other securities at nominal transaction charges. The commissions and/or transaction fees charged by Fidelity may be higher or lower than those charged by other Financial Institutions.

The commissions paid by Corient Capital Partners’s clients to Fidelity comply with the Firm’s duty to obtain “best execution.” Clients may pay commissions that are higher than another qualified Financial Institution might charge to effect the same transaction where Corient Capital Partners determines that the commissions are reasonable in relation to the value of the brokerage and research services received. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a Financial Institution’s services, including among others, the value of research provided, execution capability, commission rates and responsiveness. Corient Capital Partners seeks competitive rates but may not necessarily obtain the lowest possible commission rates for client transactions.

Transactions may be cleared through other broker-dealers with whom the Firm and its custodians have entered into agreements for prime brokerage clearing services. Should an account make use of prime brokerage, the Client may be required to sign an additional agreement, and additional fees are likely to be charged.

Consistent with obtaining best execution, brokerage transactions may be directed to certain broker/dealers in return for investment research products and/or services which assist Corient Capital Partners in its investment decision-making process. Such research generally will be used to service all of the Firm’s clients, but brokerage commissions paid by one client may be used to pay for research that is not used in managing that client’s portfolio. The receipt of investment research products and/or services as well as the allocation of the benefit of such investment research products and/or services poses a conflict of interest because Corient Capital Partners does not have to produce or pay for the products or services.

Corient Capital Partners periodically and systematically reviews its policies and procedures regarding its recommendation of Financial Institutions in light of its duty to obtain best execution.

Software and Support Provided by Financial Institutions

Corient Capital Partners may receive without cost from Fidelity computer software and related systems support, which allow Corient Capital Partners to better monitor client accounts maintained at Fidelity. Corient Capital Partners may receive the software and related support without cost because the Firm renders investment management services to clients that maintain assets at Fidelity. The software and support is not provided in connection with securities transactions of clients (i.e., not “soft dollars”), but is tied specifically to the amount of client assets at Fidelity. The software and related systems support may benefit Corient Capital Partners, but not its clients directly. In fulfilling its duties to its clients, Corient Capital Partners endeavors at all times to put the interests of its clients first. Clients should be aware, however, that Corient Capital Partners’s receipt of economic benefits from a broker/dealer creates a conflict of interest since these benefits may influence the Firm’s choice of broker/dealer over another that does not furnish similar software, systems support or services.

Specifically, Corient Capital Partners may receive the following benefits from Fidelity:

- Credits to be used toward qualifying third-party service providers used in connection with the initial set up of the Firm’s research, technology and software platforms;
- Receipt of duplicate client confirmations and bundled duplicate statements;
- Access to a trading desk that exclusively services its institutional traders;
- Access to block trading which provides the ability to aggregate securities transactions and then allocate the appropriate shares to client accounts; and
- Access to an electronic communication network for client order entry and account information.

Brokerage for Client Referrals

Corient Capital Partners does not consider, in selecting or recommending broker/dealers, whether the Firm receives client referrals from the Financial Institutions or other third party.

Directed Brokerage

The client may direct Corient Capital Partners in writing to use a particular Financial Institution to execute some or all transactions for the client. In that case, the client will negotiate terms and arrangements for the account with that Financial Institution and the Firm will not seek better execution services or prices from other Financial Institutions or be able to “batch” client transactions for execution through other Financial Institutions with orders for other accounts managed by Corient Capital Partners (as described above). As a result, the client may pay higher commissions or other transaction costs, greater spreads or may receive

less favorable net prices, on transactions for the account than would otherwise be the case. Subject to its duty of best execution, Corient Capital Partners may decline a client's request to direct brokerage if, in the Firm's sole discretion, such directed brokerage arrangements would result in additional operational difficulties.

Trade Aggregation

Transactions for each client generally will be effected independently, unless Corient Capital Partners decides to purchase or sell the same securities for several clients at approximately the same time. Corient Capital Partners may (but is not obligated to) combine or "batch" such orders to obtain best execution, to negotiate more favorable commission rates or to allocate equitably among the Firm's clients differences in prices and commissions or other transaction costs that might not have been obtained had such orders been placed independently. Under this procedure, transactions will generally be averaged as to price and allocated among Corient Capital Partners's clients pro rata to the purchase and sale orders placed for each client on any given day. To the extent that the Firm determines to aggregate client orders for the purchase or sale of securities, including securities in which Corient Capital Partners's Supervised Persons may invest, the Firm generally does so in accordance with applicable rules promulgated under the Advisers Act and no-action guidance provided by the staff of the U.S. Securities and Exchange Commission. Corient Capital Partners does not receive any additional compensation or remuneration as a result of the aggregation.

In the event that the Firm determines that a prorated allocation is not appropriate under the particular circumstances, the allocation will be made based upon other relevant factors, which may include: (i) when only a small percentage of the order is executed, shares may be allocated to the account with the smallest order or the smallest position or to an account that is out of line with respect to security or sector weightings relative to other portfolios, with similar mandates; (ii) allocations may be given to one account when one account has limitations in its investment guidelines which prohibit it from purchasing other securities which are expected to produce similar investment results and can be purchased by other accounts; (iii) if an account reaches an investment guideline limit and cannot participate in an allocation, shares may be reallocated to other accounts (this may be due to unforeseen changes in an account's assets after an order is placed); (iv) with respect to sale allocations, allocations may be given to accounts low in cash; (v) in cases when a pro rata allocation of a potential execution would result in a de minimis allocation in one or more accounts, the Firm may exclude the account(s) from the allocation; the transactions may be executed on a pro rata basis among the remaining accounts; or (vi) in cases where a small proportion of an order is executed in all accounts, shares may be allocated to one or more accounts on a random basis.

Item 13. Review of Accounts

Account Reviews

Corient Capital Partners monitors client portfolios on a continuous and ongoing basis while regular account reviews are conducted on at least a quarterly basis. Such reviews are conducted by the Firm's Principal. All investment advisory clients are encouraged to discuss their needs, goals and objectives with Corient Capital Partners and to keep the Firm informed of any changes thereto. The Firm contacts ongoing investment advisory clients at least annually to review its previous services and/or recommendations and quarterly to discuss the impact resulting from any changes in the client's financial situation and/or investment objectives.

Account Statements and Reports

Clients are provided with transaction confirmation notices and regular summary account statements directly from the Financial Institutions where their assets are custodied. From time-to-time or as otherwise requested, clients may also receive written or electronic reports from Corient Capital Partners and/or an outside service provider, which contain certain account and/or market-related information, such as an inventory of account holdings or account performance. Clients should compare the account statements they receive from their custodian with any documents or reports they receive from Corient Capital Partners or an outside service provider.

Item 14. Client Referrals and Other Compensation

The Firm does not currently provide compensation to any third-party solicitors for client referrals

Item 15. Custody

The Advisory Agreement and/or the separate agreement with any Financial Institution generally authorize Corient Capital Partners and/or the Independent Managers to debit client accounts for payment of the Firm's fees and to directly remit that those funds to the Firm in accordance with applicable custody rules. The Financial Institutions that act as the qualified custodian for client accounts, from which the Firm retains the authority to directly deduct fees, have agreed to send statements to clients not less than quarterly detailing all account transactions, including any amounts paid to Corient Capital Partners

In addition, as discussed in Item 13, Corient Capital Partners may also send periodic supplemental reports to clients. Clients should carefully review the statements sent directly by the Financial Institutions and compare them to those received from Corient Capital Partners.

Surprise Independent Examination

Corient Capital Partners may have power of attorney over certain client accounts. In addition, Supervised Persons of the Firm may act as trustee for certain client trusts. Therefore, the Firm is deemed to have custody over clients' cash, bank accounts or securities (for reasons other than those discussed above), the Firm is required to engage an independent accounting Firm to perform a surprise annual examination of those assets and accounts over which it maintains custody. Any related opinions issued by an independent accounting Firm are filed with the SEC and are publicly available on the SEC's Investment Adviser Public Disclosure website. Corient Capital Partners does not have direct access to client funds as they are maintained with an independent qualified custodian.

Item 16. Investment Discretion

Corient Capital Partners may be given the authority to exercise discretion on behalf of clients. Corient Capital Partners is considered to exercise investment discretion over a client's account if it can effect and/or direct transactions in client accounts without first seeking their consent. Corient Capital Partners is given this authority through a power-of-attorney included in the agreement between Corient Capital Partners and the client. Clients may request a limitation on this authority (such as certain securities not to be bought or sold). Corient Capital Partners takes discretion over the following activities:

- The securities to be purchased or sold;
- The amount of securities to be purchased or sold;
- When transactions are made;
- The broker-dealer that executes trades (in the case of a prime brokerage and trade away relationships); and
- The Independent Managers to be hired or fired.

Item 17. Voting Client Securities

Corient Capital Partners generally does not accept the authority to vote a client's securities (i.e., proxies) on their behalf. Clients receive proxies directly from the Financial Institutions where their assets are custodied and may contact the Firm at the contact information on the cover of this brochure with questions about any such issuer solicitations.

Item 18. Financial Information

Corient Capital Partners is not required to disclose any financial information due to the following:

- The Firm does not require or solicit the prepayment of more than \$1,200 in fees six months or more in advance of services rendered;
- The Firm does not have a financial condition that is reasonably likely to impair its ability to meet contractual commitments to clients; and
- The Firm has not been the subject of a bankruptcy petition at any time during the past ten years.
