March 30, 2016

This Brochure provides information about the qualifications and business practices of Advised Assets Group, LLC (“AAG”). Specifically, this Brochure provides information on the advisory services provided by AAG and sub-advised by Morningstar Investment Management, LLC (“Morningstar Investment Management”). If you have any questions about the contents of this Brochure, please contact us at (844) 737-3817. The information in this Brochure has not been approved or verified by the Securities and Exchange Commission (“SEC”) or by any state securities authority.

AAG is a registered investment adviser. Registration of AAG does not imply any level of skill or training. The oral and written communications of AAG provide you with information about which you determine to hire or retain AAG.

Additional information about AAG is available on the SEC website at www.adviserinfo.sec.gov.

Item 2 – Material Changes

AAG provides this disclosure document on Part 2A of Form ADV (“Brochure”) to its existing, new, and prospective investment management clients. On an annual basis, we will provide you with a summary of any material changes to this Brochure and subsequent Brochures within 120 days of the close of each fiscal year, or no later than April 30th. AAG will update item 2 – Material Changes to discuss specific material changes made to the Brochure since its previous update, and will provide clients with a summary of such changes. We will also reference the date of our last annual update of our Brochure. We will further provide you with a new Brochure as necessary based on changes or new information, at any time, without charge. You may request a copy of this Brochure – free of charge – at the telephone number listed on the cover page of this Brochure.

This section of the Brochure highlights and discusses any changes that were made since AAG’s last annual update dated March 31, 2015. This year’s Brochure was updated to address any out-of-date information; additionally we made other changes throughout the document in order to provide information clearly and concisely. There were no material changes to this Brochure from its last filing.

Additional information about AAG is also available via the SEC’s web site www.adviserinfo.sec.gov. The SEC’s web site also provides information about any person affiliated with AAG who is registered, or are required to be registered, as an investment adviser representative with AAG.

Item 4 – Advisory Business

Description of Advisory Firm

Advised Assets Group, LLC (“AAG”) is, and has been a federally registered investment adviser since 2000 and submits notice filings with state securities divisions in all 50 states, the District of Columbia, Guam, US Virgin Islands and Puerto Rico. AAG offers investment management and advisory services primarily to plan sponsors of employer-sponsored retirement plans such as 401(a), 401(k), 403(b) and 457 plans, including government entities and their participants (“participants” or “individuals”) for which AAG has an agreement with the administrative services provider (“recordkeeper”). AAG additionally makes available a suite of services to all account holders of the Empower Retirement IRA (“IRA account holder”, “account holder” or “individual”). More information - including an applicable Brochure - for all of the services offered by AAG can be obtained by contacting AAG at the number provided on the cover page of this Brochure or by visiting AAG’s website at: www.advisedassetsgroup.com. AAG’s principal place of business is located in Greenwood Village, CO.

Types of Services

AAG provides a full range of direct account holder-level and participant-level investment services (the “Services”) and indirectly through private-label arrangements with institutional partners. The Services include Online Investment Guidance, Online Investment Advice and the Managed Account service as well as Spend-Down Advice, Financial Planning Service (currently unavailable for IRA account holders) and Retirement Income Projection Tools and Services. AAG provides its Services through a proprietary, computer-based software program, developed and maintained by Morningstar Investment Management LLC (“Morningstar Investment Management”). Services provided by Morningstar Investment Management were formerly provided by Ibbotson Associates, Inc. which merged with Morningstar Investment Management LLC effective January 1, 2016. Enrollment in any of AAG’s Services does not guarantee future results and is not a guarantee that Plan participants or account holders will achieve their individual retirement goals.

Morningstar Investment Management LLC

Morningstar Investment Management is a federally registered investment adviser wholly-owned by Morningstar, Inc. and is not affiliated with AAG or any company that is affiliated with AAG. Morningstar Investment Management is located in Chicago, IL and a copy of their Form ADV Part 2A and Part 2B brochures may be obtained at www.adviserinfo.sec.gov. Morningstar Investment Management serves as an independent financial expert (“IFE”), in accordance with the Department of Labor *SunAmerica* Advisory Opinion 2001-09A, dated December 14, 2001 (the “SunAmerica Opinion”). The plan, Plan Sponsor or plan fiduciary must select and maintain at all times investment options that cover broad asset categories. The investment options selected for the plan or IRA generally consists of a broad range of asset classes (for example, mutual funds in the fixed income/cash alternatives, bond, large cap, small cap, small/mid cap and international asset classes called “Core Investment Options” some of which may be proprietary funds of AAG’s affiliated investment company, Great-West Funds, Inc. or funds advised by AAG’s affiliated investment adviser Putnam Investment Management, LLC. More information is provided in Item 10 – Other Financial Industry Affiliations. Item 8 of this Brochure discusses the general risks of investing; such risks associated with the Core Investment Options can vary significantly with each particular investment category and the relative risks of categories may change. Accordingly, AAG may make changes from time to time with regard to the availability of certain Core Investment Options. The fees, risks, plan sponsor/plan provider/participant/account holder responsibilities and limitations for each of these services are discussed in greater detail in this Brochure. Fees and expenses are also fully explained in the respective prospectus and Statement of Additional Information materials which accompany each Investment Option, as applicable.

Certain of AAG’s Services (as discussed in greater detail below) rely on Morningstar Investment Management’s proprietary methodology which is based on a review of available quantitative data to analyze and screen the investment options within a plan. Morningstar Investment Management also applies qualitative analysis by investment professionals, such as evaluations of investment managers, portfolios and individual investments. The primary sources of information used by Morningstar Investment Management are the extensive databases and methodologies of Morningstar Investment Management and/or its affiliates, and interviews with investment managers. Other sources include financial publications, annual reports, prospectuses, press releases, and filings with the SEC. Morningstar Investment Management combines this information with other factors—including actuarial data, stock market exposure, probability analysis, and mean-variance optimization—into a proprietary software program to analyze a complex set of market data and variables. The result is an advanced model that can provide investment recommendations and a projection of different outcomes. Using this model, Morningstar Investment Management develops an investment strategy tailored to your investment goals.

1. Online Investment Guidance Service

AAG's Online Investment Guidance service developed by Morningstar Investment Management provides participants with access to sophisticated but easy-to-use online account planning, advisory and analytical tools that assist the participant/account holder in selecting their own asset classes and building a diversified portfolio. Using the Online Investment Guidance service, participants/account holders are provided with general asset allocation information based on the Core Investment Options that are available within the participant's plan or are available in the Empower Retirement IRA. In addition, with the Online Investment Guidance service a participant/account holder can receive an objective savings rate recommendation that may assist the participant in achieving his/her retirement goals. The Online Investment Guidance service does not provide fund-specific recommendations. The asset allocation recommendations, education and other investment-related services provided under the Online Investment Guidance service do not constitute investment advice under the Investment Advisers Act of 1940.

2. Online Investment Advice Service

AAG's Online Investment Advice service is also based on the software program developed by Morningstar Investment Management and provides the participant/account holder with retirement goal forecasting advice and fund-specific asset allocation recommendations tailored to the specific participant's/account holder's financial situation and retirement goals. The Online Investment Advice service is geared for individuals who wish to manage their own retirement account with the assistance of the Online Investment Guidance service tools and investment advice.

The Online Investment Advice service provides the participant/account holder with a retirement goal forecast through the use of various assumptions and hypothetical financial and economic scenarios based on a variety of different factors such as historic returns, market volatility, cross-correlations, calculated risk premiums, interest rate fluctuations, inflation and market conditions and other factors; all of which have limitations, however. The individual can interact with the Online Investment Advice service to see how changes in the individual's decisions about their savings, expected retirement age, level of investment risk and retirement income goal may affect the system's forecast. Participants/account holders who enroll in the Online Investment Advice service are responsible for determining the portfolio allocation that is best suited for their needs and which meets their investment strategy.

The investment recommendations provided by the Online Investment Advice service are limited to the available Core Investment Options within the participant's specific retirement plan or in the Empower Retirement IRA. The Online Investment Advice service does not make any recommendations concerning investing in any individual stocks or other asset classes, including employer stock that may be an investment option under the participant's retirement plan. Participants/account holders are informed when accessing the Online Investment Advice service that the advice should not be considered an approval or endorsement of the available investment options.

Participant/IRA account holder Responsibilities

Participant/account holders are responsible for making their investment decisions and may implement the Online Investment Advice service recommendations either manually or online. Participants/account holders are also solely responsible for reviewing and updating the information they input in the Online Investment Advice service with respect to the completeness, accuracy and timeliness of the information. Participants/account holders should review their retirement accounts periodically to monitor changes in the market and the value of their investments. Neither AAG nor Morningstar Investment Management has an obligation to update any information for a specific participant/account holder or to proactively contact the individual to obtain updated information. A failure by an individual to review and update their account information through the Online Investment Advice service may materially affect the content and value of the Service.

Limitations on the Online Investment Guidance and the Online Investment Advice Services

The recommendations provided through the Online Investment Advice service and the information provided through the Online Investment Guidance service are estimates only based on the responses or other information provided by or about the participant/account holder. Neither AAG nor Morningstar Investment Management make any guarantees or warranties, express or implied, as to the accuracy, timeliness, or completeness of such information. The Online Investment Advice and Online Investment Guidance services are also subject to the general market and financial conditions existing at the time of such usage.

The retirement goal forecast and investment recommendations provided by the Online Investment Advice and the information provided through the Online Investment Guidance services are not a guarantee of future results and are not a

guarantee that a participant/account holder will achieve their retirement goals. The Online Investment Advice and the Online Investment Guidance services should only be used by participants/account holders as a tool in their retirement planning and not as a substitute for their own informed judgment. Neither AAG nor Morningstar Investment Management has an obligation to update any information for a specific individual or to proactively contact the individual to obtain updated information. A failure by an individual to review and update account information through the Online Investment Advice and Online Investment Guidance services may materially affect the content and value of services received from AAG.

3. Managed Account Service

AAG offers a discretionary managed account service ("Managed Account"), a professional and flexible asset management program based on data resulting from the methodologies and proprietary software program developed and employed by Morningstar Investment Management. In the Managed Account service, AAG has discretionary authority over the allocation of available Core Investment Options, without prior participant/account holder approval of each transaction. All ongoing investment transfers and investment direction changes are automatically implemented for individuals enrolled in the Managed Account service.

The Managed Account service designs a specific asset allocation portfolio for the participant/account holder that reflects the individual's retirement goals, life stages, risk tolerance and overall financial situation, taking into consideration other assets and investments not included within the plan or IRA (based on information provided by the individual specific to their account).

On a periodic (approximately quarterly) basis, individual accounts in the Managed Account service are automatically re-forecasted, which may include rebalancing and reallocating the individual's asset allocation portfolio in order to maintain alignment with the allocation percentages determined by Morningstar Investment Management through the use of various assumptions and hypothetical financial and economic scenarios based on a variety of different factors such as historic returns, market volatility, cross-correlations, calculated risk premiums, interest rate fluctuations, inflation, market conditions, and the personal financial circumstances of the participant/account holder. Participants/account holders receive an account update and forecast statement annually and can update their personal information at any time by calling AAG at their plan's toll-free customer service number, or by visiting the appropriate website. Participant/account holder account assets in the Core Investment Options are automatically monitored and periodically updated on an annual basis unless AAG is instructed not to do so by the participant/account holder.

Some plan providers may offer a guaranteed lifetime benefit withdrawal option to plan participants who are approaching retirement or are in retirement. If the plan provider offers this service and if the participant meets the retirement criteria established by the plan provider or plan sponsor, the investment strategy may include a suggested amount that can be withdrawn while striving to maintain income throughout retirement. It may also include information about allocating a portion of the managed account balance for the purchase of an annuity or other guaranteed income product.

Limitations on the Managed Accounts Service

When participant/account holders enroll in the Managed Account service, the individual must transfer and allocate their entire retirement account balance to the Managed Account. For participants, there is an exception of employer stock and employer directed monies. Partial management of a participant/account holder's account whereby the individual is invested in other investment options, such as individual stocks, other asset classes outside of the Core Investment Options, or self-directed brokerage accounts while also participating in the Managed Account service is not an available alternative. Participant/account holder balances in any of these investment options or vehicles must be liquidated, subject to plan and/or investment provider restrictions, or the participant/account holder cannot be enrolled in the Managed Account service. For participants, certain outside non-advisable assets may be permitted while also participating in the Managed Account service; however, the participant's entire account balance that is advisable must be allocated to the Managed Account service.

Once enrolled in the Managed Account service, participant/account holders delegate certain account management functions to AAG including functionality for fund-to-fund transfers, change fund allocations, the dollar cost averaging tool and/or the rebalancer tool. However, individuals in the Managed Account service retain full inquiry access to their account and may still request approval for loans or take a distribution withdrawal, if permissible. Participants/account holders may un-enroll at any time from the Managed Account service and, once they do so, they resume full responsibility for the investment management of their account. An individual may un-enroll online or by contacting an AAG representative.

4. Spend-Down Advice

Participant/account holders that are enrolled in any of AAG's Services discussed above are also provided with an additional feature of Spend-Down Advice based on Morningstar Investment Management's methodology, which provides the individual with retirement planning tools. The Spend-Down Advice illustrates how long the desired income may last in retirement and determines how much spendable income the participant/account holder may be able to sustain throughout their retirement years. The Spend-Down Advice provides both the amount and sources of income that can be spent throughout their retirement years. The services provided under Spend-Down Advice provide projections of spendable income and do not constitute investment advice under the Investment Advisers Act of 1940.

5. Financial Planning Service

For certain plan clients, AAG will provide individualized financial planning services to the plan participant. This service is currently unavailable for IRA account holders. Financial planning services may be added to existing services in the future. The participant is required to complete a comprehensive financial assessment. Based on the information provided by the participant and/or the Plan Sponsor, AAG with the assistance of third party financial planning software will provide the participant with a customized, comprehensive financial needs assessment. AAG's financial planning service is limited to providing the participant with a needs assessment; AAG will not market or provide advice on any product or service identified in the needs assessment other than AAG's Services. The information provided to the participant under this service is through a contractual arrangement with an unaffiliated third party vendor(s). In certain circumstances the vendor's financial planning tools may recommend the purchase of life insurance products; such recommendations are not specific to any insurance underwriter and do not constitute an offer to solicit or sale insurance products offered by AAG's affiliated insurance companies, including without limitation Great-West Life & Annuity Insurance Company ("Great-West") and Great-West Life & Annuity Insurance Company of New York (GWL&ANY").

6. Retirement Income Projection Tools and Services

AAG may offer online tools and services for participant/account holders to translate projected or actual retirement savings into estimated monthly retirement income. This interactive retirement planning service consists of various retirement income projection tools. These tools are informational in nature and do not reflect actual investment results and are not guarantees of future results; these tools do not constitute investment advice under the Investment Advisers Act of 1940.

Enrollment in AAG's Services

For Retirement Plan Participants:

Plan providers and plan sponsors select the Service(s), i.e., Online Investment Guidance, Online Investment Advice and/or the Managed Account service that are made available to plan participants and also the manner by which participants can authorize the Service(s). Participants must agree to the terms of a user agreement ("Terms of Service"), which terms may be amended by AAG from time to time, to use any of the Services. As part of a participant's enrollment in the Managed Account service, the participant receives a Managed Account Welcome Kit shortly after enrollment. The participant additionally receives an Annual Kit, each year. Each kit provides the participant an update on their account and information on reaching their retirement goals.

In certain instances, Plan Sponsors may authorize AAG to enroll participants automatically in the Managed Account service based on information provided to AAG by the Plan Sponsors. In such instances, current participants in the Plan receive the Terms of Service and are given a defined period of time in which to cancel or "opt-out" of the Managed Account service without incurring an advisory fee (the "Free Look Period"). Participants' automatic enrollment in the Service by the Plan Sponsors is based upon minimum personal financial information provided by the Plan Sponsor, including date of birth, salary, gender and state of residence. Participants are able to review this information either online or by contacting an AAG representative; participants are solely responsible for reviewing the personal financial information they or their Plan Sponsor provide and for notifying AAG of any changes or updates to such information. Participants who are subsequently eligible for their employer-sponsored retirement plan or that otherwise elect to "opt-in" after the Free Look Period concludes may not be eligible for a waiver of advisory fees otherwise available in the Free Look Period.

For Empower Retirement IRA Account Holders:

The services are available to all account holders of the Empower Retirement IRA. Account holders must agree to the terms of a user agreement ("Terms of Service") prior to using any of the online services, which terms may be amended by AAG from time to time.

The advice and recommendations provided through the Services discussed in this Brochure are based on the responses or other information provided by or about the participant/account holder by the Plan Sponsor and/or the participant/account holder. Neither AAG nor Morningstar Investment Management make any guarantees or warranties, express or implied, as to the accuracy, timeliness, or completeness of such information. The Services are also subject to the general market and financial conditions existing at the time of such usage. The retirement goal forecast and investment advice recommendations are not a guarantee of future results and are not a guarantee that a particular person will achieve their retirement goals.

Termination of Services

Participants/account holders may cancel their participation in the Online Investment Advice service or the Managed Account service at any time. Participants/account holders utilizing the Online Investment Advice service must complete their cancellation online. Participants/account holders utilizing the Managed Account service may either cancel online or by calling AAG at the toll-free customer service number.

After cancellation of the:

1. Online Investment Advice services, the individual will no longer have access to the online investment recommendations. Because AAG does not effect changes to the participant's/account holder's asset allocation and account balances, the individual's balances will not be affected **unless and until** the individual affirmatively changes their asset allocation and balance after the cancellation of the Online Investment Advice service.
2. Managed Account service, the participant/account holder will have the ability to make allocation and investment option changes to their account, usually by the next business day markets are open following cancellation of the Managed Account service. Accordingly, the participant's asset allocation will remain the same as established in the Managed Account service **unless and until** the participant affirmatively changes his/her asset allocation after cancellation of the Managed Account service.

Participant/Account Holder Information

The use and storage of any information, including, without limitation, an individual's personal and non-public information, account number, password, identification, portfolio information, account balances and any other information available on an individual's personal computer, is provided at the individual's sole risk and responsibility. The individual is responsible for providing and maintaining the communications equipment (including personal computers and modems) and telephone or options services required for accessing and using electronic or automated services, and for all communications service fees and charges incurred by the individual in accessing these services. AAG shall not bear any responsibility for either errors or failures caused by the malfunction of any computer or communication systems or any computer viruses or related problems that may be associated with the use of the Services.

Assets Under Management

With respect to the services described in this Brochure, as of December 31, 2015:

- | | |
|--|--------------------------|
| - Discretionary investment management among all services
(including the Managed Account service described herein) in the amount of: | \$24,036,627,679. |
| - Non-discretionary investment advisory services among all services
(including the Online Investment Advice service described herein) in the amount of: | \$1,134,917,148. |
| - Total discretionary and non-discretionary investment management
and advisory services in the amount of: | \$25,171,544,827. |

Item 5 – Fees and Compensation

For employer-sponsored retirement plans, fees are subject to negotiation by the Plan sponsor which may include Plan-level pricing credits depending on the various option(s) selected by the Plan for its participants. In some instances, if agreed to by the Plan, the Plan sponsors or recordkeeper may pay AAG's fees on behalf of Plan participants. AAG reserves the right to offer discounted fees or other promotional pricing or to waive fees for any particular period of time subject to proper notification and disclosure.

1. Online Investment Guidance Service Fees

This service is an online tool that provides personalized asset allocation information without recommending any one specific fund. There is generally no fee for participants using the Online Investment Guidance service, however, participants may be assessed a fee for the Online Investment Guidance service depending on AAG's agreement with the Plan sponsor. IRA account holders do not pay a fee for use of the Online Investment Guidance service.

2. Online Investment Advice Service Fees

Participants who use the Online Investment Advice service may be charged a flat fee. Alternatively, this fee may be paid by the Plan sponsor. The fee for the Online Investment Advice service is generally \$25.00 per year, or \$6.25 per quarter, as specified in the participant's Terms of Service and/or the plan sponsor's Investment Advisory and Management Service Agreement. Fees may be debited on a quarterly or monthly basis from participants' accounts based on the terms of service agreed upon by the Plan sponsor. If the participant's Plan sponsor or plan terminates the Great-West service agreement with the plan's recordkeeping service provider, the fees are debited through the date of such termination. Use of the Online Investment Advice service by a participant at any time during the applicable billing period will result in the participant's account being debited based on the entire fee or the Plan sponsor incurring the entire fee on behalf of the participant. Unless a participant affirmatively terminates the Online Investment Advice service, or the Plan sponsor terminates its service agreement with Great-West, the fee will be assessed each year following the participant's initial use. The \$25.00 annual service fee pricing is unaffected by participants' frequency of use.

Empower Retirement IRA account holders who use the Online Investment Advice service are charged an annual flat fee of \$25.00, debited quarterly at \$6.25 per quarter. Fees are debited from IRA account holders' accounts on a quarterly or monthly basis based on the terms of service agreed upon by the account holder. If the IRA account holder terminates his/her Empower Retirement IRA, the fees are debited at the end of the billing cycle when the termination occurred. Use of the Online Investment Advice service by an account holder at any time during a quarter will result in the account holder's account being debited the quarterly fee.

3. Managed Account Service Fees

For Employer-Sponsored Retirement Plan Participants:

Participants may be charged a fee for the Managed Account service based on the Terms of Service with the participant and/or the Plan Sponsor's Investment Advisory and Management Service Agreement. AAG may offer Plans tiered pricing schedules based on the option(s) selected by the Plan and/or the methodology the Plan determines to use for offering or enrolling its participants in the Managed Account service. Such options include, but are not limited to, pricing schedules based on the Plan sponsor's selection of an "opt-out" versus "opt-in" enrollment methodology and whether certain Core Investment Options selected by the Plan sponsor include affiliated funds such as Great-West Funds, Inc. Pricing schedules – as applicable – for each of the options are made available to the Plan sponsors for which they may use to select the option for their employer-sponsored retirement plan.

Pursuant to the Terms of Service and/or the Plan Sponsor's Investment Advisory and Management Service Agreement, the fee for the Managed Account service is based upon a percentage of assets managed. The fee, as applicable, for the Managed Account service varies and is fully disclosed to participants prior to or at the time of enrollment in the enrollment disclosure materials provided to participants. In addition, the fee is disclosed to participants in the Terms of Service at the time the participant enrolls in the Managed Account service. The maximum annualized fee that may be charged to a participant is 0.90% of the participant's account balance.

The advisory fee is debited from the participant's account within each applicable billing period, which is generally quarterly. If a participant cancels participation in the Managed Account service at any time within a given billing period, pursuant to the participant's Terms of Service and/or the Plan sponsor's Investment Advisory and Management Service Agreement, the participant's fee is based upon a percentage of assets managed and will be debited from the participant's account according to AAG procedures. If the participant's Plan sponsor or Plan terminates its service agreement with the plan's recordkeeping service provider, the participant's advisory fee is debited as of such date of termination.

For Empower Retirement IRA Account Holders:

IRA account holders are charged a quarterly fee for the Managed Account service based upon a percentage of assets managed:

Principal Account Balance	Quarterly Fee	Annualized Quarterly Fee
< \$100,000	0.1375%	0.55%
Next \$150,000	0.1125%	0.45%
Next \$150,000	0.0875%	0.35%
> \$400,000	0.0625%	0.25%

AAG reserves the right to offer current and new or prospective IRA account holders discounted fees or other promotional pricing or to waive fees for any particular period of time subject to proper notification and disclosure.

The advisory fee is debited from the account holder within each applicable billing cycle. If an account holder cancels their participation in the Managed Account service or Empower Retirement IRA at any time within a given fee cycle, the fee is based upon a percentage of assets managed and will be debited from the account according to AAG procedures.

4. Financial Planning Service Fees

Fees charged for financial planning services are negotiated on a plan-by- plan basis. In some instances the participant is assessed a fee for the financial planning services and in other instances, a Plan sponsor may pay the fee on behalf of participants who use this service. This service is currently unavailable to IRA account holders. Financial planning services may be added to existing services in the future.

5. Retirement Income Projection Tools and Services

AAG does not charge a fee to Plan sponsors, participants or IRA account holders for the retirement income projection tools and services.

6. Other Fees and Expenses

In addition to any previously negotiated and disclosed recordkeeper fees, commission payments and other administrative servicing fees and expenses for each plan, AAG may pay cash compensation or referral fees to broker-dealer firms that are not affiliated with AAG for soliciting and referring plan sponsors and their participants to enroll in AAG's Managed Account service. Such compensation for referrals and solicitation activities may result in a higher fee of the total assets under management for a plan to be charged to participants based on the total assets in the Managed Account service, in addition to the advisory fee for the Managed Account service.

AAG's fees do not include the fees and expenses charged by the Core Investment Options, including redemption fees. Redemption fees vary in amount and application by each applicable Core Investment Option. It is possible that transactions initiated by AAG in the Managed Account service may result in the imposition of a redemption fee on one or more investment

options available in a plan. Additionally, any action undertaken by an individual who implements recommendations from the Online Investment Advice or uses information provided through the Online Investment Guidance service may result in redemptions or other transaction fees. Any fees are deducted from the individual's account balance. All securities transactions which occur as a result of the services provided by AAG as described in this Brochure are executed by GWFS for which GWFS may receive compensation in the form of 12b-1 fees or other compensation from mutual fund companies or from the other investments available under the plan or available through the Empower IRA.

Item 6 – Performance-Based Fees and Side –by Side Management

AAG does not charge any performance-based or side-by side management fees.

Item 7 –Types of Clients

AAG offers investment advisory and management services to plan sponsors of employer-sponsored retirement plans; such as 401(a), 401(k), 403(b) and 457 plans, including government entities and their participants through arrangements with the plan's recordkeeper and to account holders of the Empower Retirement IRA (formerly, the Great-West Lifetime Advantage IRA®).

Item 8 – Methods of Analysis and Investment Strategies

The Services described in this Brochure are based on the proprietary asset allocation and retirement income projection methodologies developed by Morningstar Investment Management. The development of investment advice by Morningstar Investment Management involves the investment methodologies across the products and services described herein. Morningstar Investment Management or its affiliates focus on specific investment areas such as capital market assumptions and methodologies used for asset allocation, manager selection, portfolio construction, and advice.

Analysis Methods

In providing advisory services, Morningstar Investment Management reviews available quantitative data to analyze and screen the investment options within a plan. They may also apply qualitative analysis by investment professionals, such as evaluations of investment managers, portfolios and individual investments. The primary sources of information used are the extensive databases and methodologies of Morningstar Investment Management or its affiliates, and interviews with investment managers. Other sources include financial publications, annual reports, prospectuses, press releases, and filings with the SEC. Morningstar Investment Management combines this information with other factors—including actuarial data, stock market exposure, probability analysis, and mean-variance optimization—into a proprietary software program to analyze a complex set of market data and variables. The result is an advanced model that can provide investment recommendations and a projection of different outcomes. Using this model, Morningstar Investment Management develops an investment strategy tailored to your investment goals, as described below.

Investment Strategy

If you are accumulating for retirement savings, the investment strategy is generally based on information such as managed account balance, expected retirement age, contribution rate and other preferences provided by the individual. If the individual has already retired, and if the plan provider offers a guaranteed lifetime withdrawal benefit program, the strategy is based on information such as the current account balance, additional cash flows and life expectancy. This retirement strategy may include some or all of the following:

Retirement Income Goal (accumulation phase): Morningstar Investment Management defines the retirement income goal as the projected amount of money that will be needed by the individual throughout retirement. This calculation is based on current income, adjusted to reflect the estimated dollar value at retirement age. Typically, Morningstar Investment Management uses an amount equal to 100% of take-home pay (although some plan providers may request a different rate, e.g., 80% of gross pay), and then project the value of that amount at retirement age to determine a retirement income goal. The individual has the option to change this projected retirement income amount.

Income Outlook (accumulation phase): Morningstar Investment Management defines the income outlook as a projection of the annual income that the individual may receive during retirement. This is based on an annualized view of the investment wealth accumulated, combined with social security benefits and any pension or other income provided to AAG.

Total Retirement Income (in-retirement phase): If your plan provider or Plan Sponsor offers the in-retirement services, Morningstar Investment Management defines total retirement income as the projected amount of money, typically at some level of probability that one can expect to receive on an annual basis in order to maintain income throughout retirement.

IMPORTANT: When Morningstar Investment Management determines the income projections described above, these projections are based on hypothetical performance data and do not represent actual or guaranteed results. Your projections may vary over time with each additional use of the service.

Risk Strategy

Morningstar Investment Management determines a risk strategy based on several factors, such as current age and time until retirement, gender, salary, total current wealth, deferral rate, and retirement goals. If the individual has retired or is approaching retirement, and if they have the opportunity to purchase an annuity, the risk strategy also considers longevity and liquidity needs. The risk level corresponds to an asset mix, or the combination of stocks, bonds and cash alternatives, that will serve as the basis for the recommendations of specific funds appropriate for the individual.

Estimated Tax

Morningstar Investment Management estimates federal, state income, and capital gains taxes based on marginal tax rate calculations (the marginal tax rate is the rate one pays on the taxable income that falls into the highest bracket one reaches). These calculations are used when Morningstar Investment Management conducts income simulations. Tax data is updated annually based on United States Internal Revenue Code (IRC) and similar state tax data. Morningstar Investment Management uses income data for the individual, as well as their spouse/partner, to estimate federal and state tax exposure. The tax exposure is appropriately reduced for pre-tax deferrals, tax-deferred capital gains, and yield and distribution of Roth proceeds. Based on the information that the individual provides, Morningstar Investment Management provides an estimate of the tax exposure, but may not include all tax considerations. Please consult a tax adviser for a complete understanding of your tax situation.

General Risks of Investing

Investment Risks

It is important to note that all investments involve risk and will not always be profitable. Neither AAG nor Morningstar Investment Management or their affiliates guarantees that the recommendations will result in achieving the retirement income goal. Neither AAG nor Morningstar Investment Management or their affiliates can guarantee that negative returns can or will be avoided in any of the recommendations. An investment's future performance may differ substantially from its historical performance and as a result, may incur a loss. Past performance is no guarantee of future results. Additionally, the plan provider, Plan Sponsor or AAG may make changes from time to time with regard to the Core Investment Options available within a plan.

Market Risk

Risks associated with the Core Investment Options can vary significantly with each particular investment category and the relative risks of such investment categories may change. Stock and bond markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market or economic developments in the U.S. and in other countries. Past performance and historical returns used to select particular investment(s) are no guarantee of future performance. Current performance may be lower or higher due to market volatility.

Methodology Risk

The Services and the retirement income projection tools are based on the proprietary asset allocation and monthly retirement income projection methodologies developed by Morningstar Investment Management. Risks associated with Morningstar Investment Management's methodologies vary based on the assumptions used by Morningstar Investment Management to

project inflation over time, significant and adverse economic conditions, the availability and amount of Social Security and other retiree benefits, and other factors.

Asset Allocation Risk

Market returns and performance depends on determining the strategic asset class allocations, the mix of underlying Core Investment Options, as well as the performance of those underlying Core Investment Options. The Core Investment Options' performance may be lower than the performance of the asset class that they were selected to represent. Stocks and bonds can decline due to adverse issuer, market, regulatory, or economic developments. International markets may be less liquid and can be more volatile than U.S. markets. These risk factors, including those associated with currency exchange rates, also apply to investments in international markets, all of which may make international markets more volatile and less liquid than investments in domestic markets. Some of the Core Investment Options can invest in either high-yield securities or small/emerging growth companies. Investments in these types of securities generally are subject to greater volatility than either higher-grade securities or more-established companies, respectively. These risks may increase share price volatility.

Item 9 – Disciplinary Information

Registered investment advisers are required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of AAG or the integrity of AAG's management. AAG has no legal or disciplinary event to report relative to this Item.

Item 10 - Other Financial Industry Activities and Affiliations

AAG is not a registered broker-dealer. However, due to the organizational structure of AAG's parent company, Great-West, certain AAG personnel having oversight functions related to other subsidiaries are registered representatives. AAG and its management persons are not, and do not have pending, an application to register as a futures commission merchant, commodity pool operator, a commodity trading advisor, or an associated person of the foregoing entities.

Other Financial Industry Affiliations

AAG has arrangements that are material to its advisory business or its clients/participants/account holders with the related entities shown below. As discussed in Item 5 of this Brochure ("Other Fees and Expenses"), these related entities may receive certain fees that are unrelated to AAG's fees for its Services.

Insurance Companies

Great-West Life & Annuity Insurance Company is an insurance company domiciled in the State of Colorado ("Great-West"). AAG is a wholly-owned direct subsidiary of Great-West. Great-West, pursuant to a various agreements, may provide investment products, recordkeeping and other administrative services through its affiliates, FASCore, LLC ("FASCore"), Great-West Financial Retirement Plan Services, LLC ("Great-West RPS"). *Great-West Life & Annuity Insurance Company of New York* is an insurance company domiciled in the State of New York ("GWL&ANY"). AAG is an affiliate of GWL&ANY through common ownership in which Great-West is the sole owner of both AAG and GWL&ANY. GWL&ANY, pursuant to a various agreements, may provide investment products and administrative services through its affiliates, FASCore and Great-West RPS, to retirement plans for which AAG may also provide its services.

Broker-Dealer

GWFS Equities, Inc. ("GWFS"), an affiliate of AAG, is a registered limited broker/dealer and wholly-owned subsidiary of Great-West through which trades are executed. GWFS may provide wholesaling, direct sales, enrollment and/or communication services to retirement plans and their participants for which AAG may also provide its services. All transactions which occur as a result of participation in the Managed Accounts service are executed by GWFS for which GWFS may receive compensation in the form of 12b-1 fees or other compensation from the mutual fund companies or from the other investments that may be available as Core Investment Options.

Trust Company

Great-West Trust Company, LLC ("GWTC") is a trust company and affiliate of AAG. GWTC is a wholly-owned subsidiary of Great-West. GWTC is chartered under the laws of the State of Colorado. GWTC may provide discretionary or directed trustee and/or custodial services for AAG's clients. GWTC also serves as the trustee for certain collective investment trusts which may be available as Core Investment Options and is the custodian of all Empower Retirement IRA accounts.

Investment Company

Great-West Funds, Inc. is an investment company registered under the Investment Company Act of 1940 and affiliated with AAG. Great-West Funds may provide investment products to retirement plans for which AAG may also provide its services. Great-West Funds is managed by Great-West Capital Management, LLC as discussed below. Shares of Great-West Funds may be available for purchase by retirement plans advised by AAG or to account holders of the Empower Retirement IRA.

Investment Advisers

Great-West Capital Management, LLC ("GWCM"), an affiliate of AAG, is an investment adviser for Great-West Funds and is registered under the Investment Advisers Act of 1940. It is a wholly-owned subsidiary of Great-West. AAG provides managed account, guidance, and advice services to participants in certain defined contribution plans and to account holders of the Empower Retirement IRA which may have as investment options certain portfolios of Great-West Funds managed by GWCM. Pursuant to an administrative services agreement between AAG and GWCM, AAG personnel assist GWCM with respect to preparing certain reports that are presented by GWCM to GWCM's Managers as well as the Board of Directors for Great-West Funds.

Putnam Investment Management, LLC is a registered investment adviser ("*PIM*"). AAG is under common control with PIM and is an affiliate of PIM. Shares of Putnam mutual funds managed by PIM may be available for purchase by retirement plans or by account holders of the Empower Retirement IRA who invest in the Portfolios of the Great-West Funds or underlying funds managed by PIM. PIM also serves as the sub-adviser to the Great-West Putnam High Yield Bond Fund and the Great-West Putnam Equity Income Fund; both Funds under investment management with GWCM.

Irish Life Investment Management, Limited – a Dublin, Ireland based, SEC registered investment adviser. ILIM is part of the Great-West Lifeco, Inc. ("*GWL*") group of companies; GWL has operations in Canada, the United States, Europe and Asia through ownership of various companies including Great-West and PIM. The Adviser is a wholly-owned subsidiary of Great-West which in turn is an indirect, wholly owned subsidiary of GWL which controls ILIM. Subject to shareholder approval, ILIM will assume management of the index-series of GW Funds effective May 1, 2016:

Great-West S&P 500® Index Fund;
Great-West S&P Mid Cap 400® Index Fund;
Great-West S&P SmallCap 600® Index Fund;
Great-West International Index Fund;
Great-West Stock Index Fund, and;
Great-West Real Estate Index Fund.

The affiliated companies of AAG, GWCM, GWFS, Great-West, GWL&ANY, Great-West Funds, FAScore, Great-West RPS, and GWTC operate under the multiple brands of "Great-West Financial®", "Empower Retirement" and "Empower Institutional" depending upon the products, services and retirement markets involved. These brands do not materially affect the internal structure of AAG or AAG's corporate ownership.

Potential Conflicts of Interest

The Core Investment Options available in the Managed Account service are generally established by the institutional partner for which AAG provides its Services or by the Plan sponsor/client through which our Services are delivered. In some cases, the Core Investment Options may include or be comprised solely of affiliated investment options of the institutional client or of AAG. Participation in the Managed Account services in the Empower Retirement IRA may result in an allocation to one or more investment options managed by an affiliate of AAG. AAG does not receive compensation from its parent company or any of its affiliates as a result of these allocations. To mitigate the potential conflict of interest presented by the situation involving affiliated investment options of AAG, all Core Investment Options are subject to the same quantitative and qualitative investment selection methodology as with any other investment option based on several factors, including performance, risk, and expenses.

For employer-sponsored retirement plans, registered representatives of GWFS Equities may offer various products or another type of plan-directed investment option managed by an affiliate of AAG ("*Directed Options*") or insurance products of Great-West or GWL&ANY ("*Insurance Products*"), at the request of the plan sponsor to AAG's advisory clients. Directed Options are selected solely by the plan or plan sponsor and treated as directed assets of the plan. In addition, AAG does not receive compensation from its parent company or any of its affiliate in connection with the solicitation or offering of Insurance Products or Directed Options to AAG's advisory clients.

Morningstar Investment Management may receive certain fees from GWCM based on the aggregate assets invested in certain Portfolios of Great-West Funds. For the Great-West Funds offered within the Managed Account service Morningstar Investment Management has agreed to waive these fees such that it may continue to rely on the SunAmerica Opinion in providing services on behalf of the Managed Account service.

Other Business Activities

Certain senior managers and officers of AAG may also serve as executive officers of AAG's parent company, Great-West and other affiliates of AAG.

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

AAG's Code of Ethics

AAG has adopted a written Code of Ethics in compliance with Rule 204A-1 of the Investment Advisers Act of 1940 ("Advisers Act"). The Code sets forth standards of business conduct expected of advisory personnel and require AAG's advisory personnel, referred to as "Access Persons", among other things, to report their personal securities holdings and transactions in accordance with the Advisers Act. AAG's Access Persons are required to comply with AAG's Code of Ethics. A copy of the Code will be provided to current or prospective clients, upon request.

AAG's Code of Ethics includes but is not limited to such topics as:

- Fiduciary responsibility to clients;
- Compliance with federal securities laws;
- Protection and safeguarding of confidential information;
- Giving and receiving gift, gratuities and entertainment;
- Reporting and monitoring personal securities transactions;
- Avoiding and disclosing conflicts of interest, and;
- Reporting violations of the Code.

Personal Trading

In addition, AAG's Code of Ethics requires pre-clearance of certain securities transactions. Officers, managers and employees of AAG may trade for their own personal accounts in securities which are recommended to and/or purchased for AAG's advisory clients. Nonetheless, because the Code of Ethics in some circumstances would permit employees to invest in the same securities as clients, there is a possibility that employees might benefit from market activity by a client in a security held by an employee. However, employee trading is continually monitored in accordance with the Code of Ethics and federal securities laws. AAG's Code of Ethics is intended to ensure that the personal securities transactions and outside business activities of AAG's employees of AAG will not interfere with (i) making decisions in the best interest of its advisory clients and (ii) mitigate or avoid any potential conflicts of interest.

Principal Trading

AAG has adopted a policy and practice not to engage in any principal transactions. AAG holds no investments for its own accounts which could be bought from, or sold to, an advisory client. In the event of any change in AAG's policy, any such change must be approved by management and any principal transactions would only be permitted after meeting the review and approval requirements described under the anti-fraud section of the Advisers Act.

Participation or Interest in Client Transactions

Affiliate GWFS Effects Securities Transactions for Advisory Clients

Registered representatives of GWFS may provide wholesaling, direct sales, enrollment and/or communication services to retirement plans and their participants or account holders for which AAG may also provide its services. For this service, GWFS may receive fees either from the plan or from the investment provider (fund families). Participants/account holders in the Online Investment Advice or the Managed Account services may have allocations in the Core Investment Options that result in GWFS receiving compensation from the Core Investment Options. Allocations in the Core Investment Options are solely determined and based on Morningstar Investment Management's software not determinations made by AAG. The compensation paid by AAG to Morningstar Investment Management for Morningstar Investment Management's proprietary software advice program does not vary based on the allocations made or recommended by Morningstar Investment

Management. Because Morningstar Investment Management is unaffiliated with AAG and GWFS, AAG does not believe there is a conflict of interest. All securities transactions which occur as a result of the services provided by AAG as described in this Brochure are executed by GWFS for which it may receive compensation in the form of 12b-1 fees or other compensation from mutual fund companies or from the other investments that may be available as Core Investment Options. However, in all instances, AAG's affiliation with GWFS is disclosed.

Affiliate Great-West or GWL&ANY Proprietary Investments

Investment options into which participant assets may be allocated, pursuant to the Online Investment Advice or the Managed Account services may be through a fixed and variable deferred annuity issued by Great-West or GWL&ANY. Because Morningstar Investment Management is unaffiliated with AAG, Great-West, GWL&ANY and their affiliates, AAG does not believe there is a conflict of interest. However, in all instances, AAG's affiliation with Great-West and/or Great-West's affiliates, as applicable, will be disclosed.

Item 12 – Brokerage Practices

Brokerage Selection; Best Execution

For securities transactions which occur as a result of participation in the Managed Account program, AAG will have complete discretion and authority to make all investment decisions with respect to the investment options that can be bought or sold, the broker or dealer to effect the transaction and the commission rates to be paid. Any limitations on the discretionary authority shall be defined in the written authority provided to AAG. Generally, in accordance with AAG's agreement with the plan sponsor, AAG has no obligation when selecting a broker or dealer to execute a particular transaction, to seek competitive bids or the lowest commission cost for the Plan Sponsor, provided AAG uses reasonable efforts to obtain the best execution for such transactions. Most clients for whom AAG provides discretionary services leaves the selection of broker-dealers to effect trading or processing of transactions to the discretion of AAG.

All transactions which occur as a result of AAG's Managed Account service are effected through GWFS, an affiliate of AAG and a limited broker/dealer. GWFS may provide enrollment and communication services to retirement plans for which AAG may also provide its services. AAG's Services and Investment Management Services cover only no-load or load waived mutual funds or no-load and load-waived investment options. As a result, all transactions are at net asset value.

Soft Dollar Practices

AAG, as a matter of policy, does not utilize research, or other products or services from broker-dealers, or other third parties, in connection with client securities transactions on a soft-dollar commission basis.

Directed Brokerage

AAG, as a matter of policy and practice, does not accept advisory client's instructions for directing a client's brokerage transactions to a particular broker-dealer.

Trade Aggregation

Under the Managed Account service, the investment options and the amount of investment options to be bought or sold are determined by Morningstar Investment Management's proprietary software and methodology. The asset allocation components of Morningstar Investment Management's software and methodology limit the amount of investment options that can be bought or sold.

Item 13 – Review of Accounts

Account Reviews

Neither AAG nor Morningstar Investment Management review the personal financial information of participants/account holders as provided by the participant/account holder or the Plan Sponsor and do not assume responsibility for any incomplete or erroneous information. Such information, which includes date of birth, salary, gender and/or state of residence, must be reviewed periodically by the participant and/or the Plan Sponsor or the account holder who in turn are responsible for notifying AAG of any changes, errors or omissions to such information.

AAG conducts the following review of its clients' accounts:

Online Investment Guidance Service

AAG does not conduct any review or other oversight for participants/account holders enrolled in this service. Participants receive access to AAG's various online tools, including account planning and analytical tools, and the individual's responsible for selecting their own asset classes and building a diversified portfolio based on their own self-direction using this service.

Online Investment Advice Service

AAG does not conduct review of its participant's/account holder's accounts in respect to investment oversight, monitoring, or rebalancing. Participants/account holders receive from AAG investment recommendations based on the investment options as provided in their specific retirement plan or in the Empower Retirement IRA. Participants/account holders are responsible for self-directing their investments and determining whether the recommendations are suitable for their particular investment needs.

Managed Account Service

Under the Managed Account service, participant/account holder assets in the Core Investment Options are systematically monitored, rebalanced and reallocated on a periodic (approximately quarterly) basis by AAG, based on Morningstar Investment Management's software program. On an annual basis, based on the individual's birth date, those enrolled in the Managed Account service will receive an Annual Kit containing an account update and forecast statement. Morningstar Investment Management updates their capital market assumptions underlying their methodology used to construct the asset classes, on at least an annual basis and then makes changes to the portfolio allocations, as necessary based on updated assumptions. The portfolios are also monitored on a regular basis on current portfolio allocations and adjustments are made as necessary.

Financial Planning Service

This service is currently unavailable in the Empower Retirement IRA. Financial planning services may be added to existing services in the future. AAG does not verify or review the information provided by the participant and/or the Plan Sponsor which is used to provide the participant with the financial needs assessment. The participant and/or Plan Sponsor is responsible for providing accurate and comprehensive information and the participant is responsible for reviewing their personal financial circumstances and updating their information with any material changes.

Spend-Down Advice and Retirement Income Projection Tools

AAG does not conduct any review or other oversight for participants or Plan sponsors who utilize these tools or services. They receive access to AAG's various online tools, including account planning and analytical tools, and the participant/account holder is responsible for selecting their own asset classes and building a diversified portfolio based on their own self-direction using this service.

Personnel of AAG, at least annually, review the methodologies used by Morningstar Investment Management to power the Online Investment Guidance, Online Investment Advice and Managed Account services to ensure that they are consistent with investment advisory best practices, current technology, applicable law and the terms of the agreement between AAG and Morningstar Investment Management.

Reporting to Clients

Participants/account holders enrolled in the Managed Account service receive a Managed Account Welcome Kit shortly after enrollment, an account update at least annually, and a forecast statement annually. Participants/account holders enrolled in the Online Investment Advice Service can review their accounts and generate their own reports at any time. Individuals are encouraged to update their personal information or make changes to investment options online or via the appropriate toll-free customer service number at any time should a significant change occur in their personal circumstances. In addition, all individuals receiving Services are sent quarterly account statement generated by the plan's recordkeeper.

AAG communicates regularly, either orally or in writing, with plans and/or plan sponsors to report participant utilization of the services. AAG also provides for plan sponsors periodic reports and performance information such as the written FPR, which includes information about a client's investment options, fund list, portfolio holdings and asset allocation strategy, among other things, as applicable. The nature and frequency of AAG's communications with plan sponsors depends on the terms of the agreement between AAG and the plan or plan sponsor. AAG also communicates with plan sponsors upon their request.

Item 14 – Client Referrals and Other Compensation

AAG does not pay cash or other compensation to outside solicitors for referrals to the Empower Retirement IRA.

AAG may pay cash compensation or referral fees to broker-dealer firms that are not affiliated with AAG for soliciting and referring plan sponsors and their participants to enroll in AAG's Services. Such compensation for referrals may result in a higher fee, in addition to the advisory fee, being charged to participants based on the total assets in the Managed Account Service. Any compensation paid by AAG for solicitation activities is pursuant to a written agreement and is paid in compliance with Rule 206(4)-3 of the Advisers Act.

Some affiliated employees will have an opportunity to earn bonus compensation, in addition to their salary, for communication, education and /or assisting participants to enroll in AAG's Services. Such bonus compensation to affiliated persons/entities of AAG does not increase the fees paid by the plan and/or their participants.

Item 15 - Custody

AAG does not maintain actual custody of its clients' cash, bank accounts, or securities. Pursuant to Rule 206(4)-2 of the Advisers Act as amended, AAG is deemed to have constructive custody with respect to client funds and securities because certain affiliated parties, including GWL&A, GWL&ANY and GWTC, are the custodian with respect to certain group annuity contracts or retirement plan accounts. In addition to annual audits, these accounts are subject to surprise verifications by an independent public accountant each year, as required by Rule 206(4)-2. AAG's advisory clients receive periodic (at least quarterly) account statements from their custodian.

Item 16 – Investment Discretion

AAG provides investment discretion for those Plan participants/account holders who enroll and participate in AAG's Managed Account service; AAG does not offer or engage in discretionary investment services for either the Online Investment Guidance or Online Investment Advice services. For more information on these programs, please refer to Item 4 – Advisory Business in this Brochure.

AAG's Managed Account service is a professional, flexible asset management program based on data resulting from the methodologies and proprietary software program developed and employed by its IFE, Morningstar Investment Management. To provide the Managed Account service to Plan participants and IRA account holders, AAG retains discretionary authority over the allocation of available Core Investment Options without requiring prior approval of each transaction. All ongoing investment transfers and investment direction changes are automatically implemented for Plan participants enrolled in the Managed Account service.

Upon enrollment in the Managed Account service, accounts are automatically re-forecasted, which may include rebalancing and reallocating the account asset allocation portfolio in order to maintain alignment with the allocation percentages determined by Morningstar Investment Management based on the market performance and the personal financial circumstances of the individual as noted above. Once enrolled in the Managed Account service, participants/account holders delegate certain account management functions to AAG including functionality for fund-to-fund transfers, fund change allocations, the dollar cost averaging tool and/or the rebalancer tool. However, individuals in the Managed Account service retain full inquiry access to their account and may still request approval for loans or take a distribution withdrawal, if allowed by the Plan or regulation. Participants/account holders may un-enroll at any time from the Managed Account service and, once they do so, they resume full responsibility for their account. Accordingly, the individual's asset allocation will remain the same as established in the Managed Account service **unless and until** the participant affirmatively changes his/her asset allocation after cancellation of the Managed Account service.

For more information on AAG's discretionary review of clients' accounts, please refer to Item 13 – Review of Accounts.

Item 17 – Voting Client Securities

AAG, as a registered investment adviser, and as a matter of practice, does not accept authority to vote client securities in connection with any of the services described in this Brochure.

Item 18 – Financial Information

As previously discussed, under certain circumstances AAG has discretionary authority over certain client funds and securities. Accordingly, AAG is required to disclose information about AAG's financial condition that is reasonably likely to impair AAG's ability to meet contractual commitments to its clients. AAG has no financial commitment that impairs its ability to meet

contractual commitments to its clients, nor has AAG been the subject of a bankruptcy proceeding. Further, AAG does not require or solicit prepayment of fees in excess of \$1,200 per client more than six months in advance.

Not an Offer to Purchase or Sell Securities. This information contained in this Brochure, including for example information regarding the Great-West Funds, is for disclosure and other informational purposes only and is not an offer to sell or a solicitation of an offer to buy any securities, and may not be relied upon in connection with the purchase or sale of any security.

Form ADV Part 2B — Brochure Supplement

ADVISED ASSETS GROUP, LLC

8515 East Orchard Road
Greenwood Village, CO 80111

Telephone: 303-737-3817

Explanation of Professional Designations

<p>An AIF designation includes prerequisites and experience as follows: minimum of two (2) years of relevant experience; a bachelor's degree (or higher); and a professional credential; minimum of five (5) years of relevant experience; a bachelor's degree (or higher) or a professional credential; minimum of eight (8) years of relevant experience. Additionally, a candidate must successfully pass the examination and continuing education requirements.</p>	<p>The CFP designation is provided to those who demonstrate competency in all areas of finance related to financial planning. Candidates must pass a certification exam administered by the Certified Financial Planner Board of Standards Inc. that focuses on financial planning topics such as retirement, estate, and investment planning. Candidates must also have qualifying work experience (three years full-time or equivalent part-time experience in the financial planning field).</p>
<p>A CPA designation requires a Bachelor's degree from an accredited institution with at least 27 hours in accounting, of which 21 hours must be cost accounting, tax, intermediate accounting, accounting theory and advanced accounting. At least 3 hours must be in auditing, and at least 21 hours in other business administration such as business law, management, marketing, statistics, business communication, economics and finance. Candidates must also satisfy certain state licensing examination requirements and maintain ongoing continuing education requirements.</p>	<p>The ChFC is issued by the American College. The prerequisites and experience required for this designation include: 3 years of full-time business experience (of which an undergraduate or graduate degree qualifies as one year of business experience). Additionally, candidates must complete certain educational requirements including 6 core and 2 elective courses and complete a final proctored exam for each course. The continuing education requirements are 30 CE credits every 2 years.</p>
<p>The CMA Certification is a graduate-level investment credential. Candidate must meet one of the following requirements: (i) Undergraduate degree and 4 years of professional experience involving investment decision-making, or (ii) 4 years qualified full-time work experience. The certification requires 250 hours of self study for each of the 3 levels and the candidate must pass satisfactorily 3 course exams.</p>	<p>The CLU is issued by the American College. Prerequisites and experience required for this designation include: 3 years of full-time business experience (of which an undergraduate or graduate degree qualifies as one year of business experience). Candidates must also complete certain educational requirements including 5 core and 3 elective courses and complete a final proctored exam for each course. Continuing education requirements are 30 CE credits every 2 years.</p>
