Item 4 Advisory Business

Access Financial Group, Inc. is a registered investment adviser based in Bethany, Oklahoma. Our firm was organized in 1993 as a Sub Chapter S Corporation under the laws of the State of Oklahoma. John Gillespie is our President and CCO and he is an indirect owner. He has been involved in the financial services industry since 1982. We have been providing investment advisory services since 1999.

You may see the term Associated Person throughout this Brochure. As used in this Brochure, our Associated Persons are our firm's officers, employees, and all individuals providing investment advice on behalf of our firm. Additionally, the words "we", "our" and "us" refer to Access Financial Group, Inc. and the words "you", "your" and "client" refer to you as either a client or prospective client of our firm.

Advisory Service and Fees

Currently, we offer the following investment advisory services, which are personalized to each individual client:

- **Asset Management Services**
- **Selection and Performance Appraisal of Other Advisers**
- **Asset Allocation and Review Services for Retirement Plan Participants**
- **Pension Consulting Services**
- **Financial Planning Services**
- **Variable Annuity Sub-Account Advisory Services**

The following paragraphs describe our services and fees. Please refer to the description of each investment advisory service listed below for information on how we tailor our advisory services to your individual needs.

Asset Management Services

We offer discretionary and non-discretionary asset management services to our clients and prospective clients. Our investment advice is tailored to meet our clients' needs and investment objectives. If you retain our firm for asset management services, we will meet with you to determine your investment objectives, risk tolerance, and other relevant information (the "suitability information") at the beginning of our advisory relationship. We will use the suitability information we gather from our initial meeting to develop a strategy that enables our firm to give you continuous and focused investment advice and/or to make investments on your behalf. As part of our portfolio management services, we may customize an investment portfolio for you in accordance with your risk tolerance and investing objectives. We may also invest your assets using a predefined strategy, or we may invest your assets according to one or more model portfolios developed by our firm or persons associated with our firm. Once we construct an investment portfolio for you, or select a model portfolio, we will monitor your portfolio's performance on an ongoing basis, and will rebalance the portfolio as required by changes in market conditions and in your financial circumstances.

If you participate in our discretionary portfolio management services, we require you to grant our firm discretionary authority to manage your account. Discretionary authorization will allow our firm to determine the specific securities, and the amount of securities, to be purchased or sold for your account without your approval prior to each transaction. Discretionary authority is typically granted by the investment advisory agreement you sign with our firm, a power of attorney, or trading authorization forms. You may limit our discretionary authority (for example, limiting the types of securities that can be purchased for your account) by providing our firm with your restrictions and guidelines in writing. If you enter into non-discretionary arrangements with our firm, we must obtain your approval prior to executing any transactions on behalf of your account.

Our fee for portfolio management services is based on a percentage of your assets we manage and is set forth in the following fee schedule:

Market Value of Assets	Annual Advisory Fee*
On the first \$250,000	2.25%
On the next \$250,000	2.00%
On the next \$500,000	1.75%
On the next \$1,000,000	1.50%
Over \$2,000,000	1.00%

*Note: Fee does not include transaction fees, or other fees/expenses charged by brokers, custodians, or mutual funds.

Our annual portfolio management fee is billed and payable quarterly in advance based on the value of your account on the last day of the previous quarter.

If the portfolio management agreement is executed at any time other than the first day of a calendar quarter, our fees will apply on a pro rata basis, which means that the advisory fee is payable in proportion to the number of days in the quarter for which you are a client. Our advisory fee is negotiable, depending on individual client circumstances.

At our discretion, we may combine the account values of family members living in the same household to determine the applicable advisory fee. For example, we may combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts. Combining account values may increase the asset total, which may result in your paying a reduced advisory fee based on the available breakpoints in our fee schedule stated above.

We will send you an invoice for the payment of our advisory fee, or we will deduct our fee directly from your account through the qualified custodian holding your funds and securities. We will deduct our advisory fee only when you have given our firm written authorization permitting the fees to be paid directly from your account. Further, the qualified custodian will deliver an account statement to you at least quarterly. These account statements will show all disbursements from your account. You should review all statements for accuracy. We will also receive a duplicate copy of your account statements.

You may terminate the management agreement upon 30 days' written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the portfolio management agreement, which means you will incur advisory fees only in proportion to the number of days in the quarter for which you are a client. If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

Selection and Performance Appraisal of Other Advisers

We may recommend that you use the services of a third party investment adviser ("TPA") to manage your entire, or a portion of your, investment portfolio. After gathering information about your financial situation and objectives, we will recommend that you engage a specific TPA or investment program. Factors that we take into consideration when making our recommendation(s) include, but are not limited to, the following: the TPA's performance, methods of analysis, fees, your financial needs, investment goals, risk tolerance, and investment objectives. We will periodically monitor the TPA(s)' performance to ensure its management and investment style remains aligned with your investment goals and objectives.

We do not charge you a separate fee for the selection of other advisers. We will share in the advisory fee you pay directly to the TPA. The advisory fee you pay to the TPA is established and payable in accordance with the ADV disclosure brochure provided by each TPA to whom you are referred. These fees may or may not be negotiable. Our compensation may differ depending upon the individual agreement we have with each TPA. As such, we may have an incentive to recommend one TPA over another TPA with whom we have less favorable compensation arrangements or other advisory programs offered by TPAs with which we have no compensation arrangements.

You will be required to sign an agreement directly with the recommended TPA(s). You may terminate your advisory relationship with the TPA according to the terms of your agreement with the TPA. You should review each TPA's disclosure brochure for specific information on how you may terminate your advisory relationship with the TPA and how you may receive a refund, if applicable. You should contact the TPA directly for questions regarding your advisory agreement with the TPA.

Ongoing Performance Monitoring And Appraisal Of Selected Third Party Advisers

We will periodically review reports provided to you. We will contact you periodically, as agreed upon, to review your financial situation and objectives, communicate information to the TPA managing the account as warranted, and to assist you in understanding and evaluating the services provided by the TPA. You will be expected to notify us of any changes in their financial situation, investment objectives, or account restrictions. You may also directly contact the TPA managing the account or sponsoring the program.

Asset Allocation and Review Services for Retirement Plan Participants

We provide non-discretionary investment recommendation and consulting services to our clients with regards to retirement plan assets. Such services may include a risk tolerance assessment, asset allocation recommendations, management and/or monitoring of a participant's investments in a 401(k), 403(b), 457, or other type of retirement plan held outside of Purshe Kaplan Sterling Investments ("PKS"), the broker dealer with which many of us are also registered representatives. We may assist you in identifying categories of mutual funds, government securities, and money managers which are suitable based on your profile including investment objectives and risk tolerance. We will not affect any transactions in conjunction with the advice and/or recommendations given. You will be responsible for implementing any trade orders. We may receive duplicate account statements from your broker and monitor your account on a periodic basis to ensure the account remains aligned with your stated financial objectives. You are free at all times to accept or reject any investment recommendation from us. We will provide this service exclusively to our clients with assets held away from PKS.

The annual fee for this service is billed quarterly in advance based on the market value of the assets on the last day of the billing period. We will invoice you directly for the advisory fees associated with these types of accounts. Fees will be assessed pro rata in the event the advisory agreement is executed at any time other than the first day of a billing period. On an annualized basis, our negotiable fee for asset allocation and review services is based on the following schedule:

Market Value of Assets	Annual Advisory Fee*
On the first \$250,000	2.25%
On the next \$250,000	2.00%
On the next \$500,000	1.75%
On the next \$1,000,000	1.50%
Over \$2,000,000	1.00%

*Note: Fee does not include transaction fees, or other fees/expenses charged by brokers, custodians, or mutual funds.

Either our firm or you may terminate the advisory services agreement by providing written notice to the other party. You may incur a charge for services rendered prior to such termination. In the event the advisory agreement is terminated during a calendar quarter, we will refund a pro rata portion of the fees.

Pension Consulting Services

We offer pension consulting services to employee benefit plans and their fiduciaries based upon the needs of the plan and the services requested by the plan sponsor or named fiduciary. In general, these services may include an existing plan review and analysis, plan-level advice regarding fund selection and investment options, education services to plan participants, investment performance monitoring, and/or ongoing consulting. These pension consulting services will generally be non-discretionary and advisory in nature. The ultimate decision to act on behalf of the plan shall remain with the plan sponsor or other named fiduciary.

Retirement and pension consulting services will consist of general or specific advice, and may include any one or all of the following:

1. **Strategic Planning and Investment Policy Development/Review.** Meet with the Company and/or the Named Fiduciary or their fiduciary delegate to assist them in developing an investment policy statement (hereafter the "IPS"). Alternatively, if the Plan has an existing investment policy statement, we will review the existing IPS and assist the Company, Named Fiduciary and/or their fiduciary delegate to determine whether the Plan is performing consistent with the IPS and/or whether the IPS needs to be revised, based on an analysis of the Plan's liquidity requirements, performance goals and risk tolerance levels of the Plan using information provided by the Company.
2. **Plan Review.** Conduct a review of the Plan design and advise the Named Fiduciary whether the Plan is operating in accordance with Plan documents and applicable provisions of ERISA; and review Named Fiduciary's compliance with fiduciary responsibilities, including compliance with requirements for self-directed plans (if applicable) under ERISA Section 404(c);
3. **Plan Fee and Cost Review.** Conduct an annual review fees and costs charged to Plan by other service providers to assist Named Fiduciary to determine reasonableness of fees and costs paid by Plan;
4. **Third Party Service Provider Liaison.** Act as liaison for the Plan and the Named Fiduciary when dealing with the trustee, custodian, plan actuary and other third party service providers to Plan;
5. **Assessment of Investments.** Conduct a periodic review of fund expenses, investment performance, and style drift for mutual funds offered by the Plan to participants, comparing them with other funds in the same asset category using Morningstar data from Principia and MPI Stylus; provide suggestions to the Named Fiduciary from time to time as deemed warranted by the IAR for alternative mutual fund options for the Plan to make available to its participants (which decision shall remain the sole and exclusive decision of the Named Fiduciary and/or their fiduciary delegate);
6. **Participant Education and Communication.** Coordinate and/or conduct investment education and enrollment meetings for plan participants as determined by the Company.

We will determine, in advance, the scope of services to be performed and the fees for all requested services with you. Prior to engaging our firm to provide pension consulting services, you will be required to enter into a written agreement with us setting forth the terms and conditions of the engagement, describing the scope of the services to be provided, and the relevant fees and fee paying arrangements. In performing the contracted services, we shall not be required to verify the accuracy or consistency of any information received from you.

The fee for the services may be charged either at a pre-determined hourly rate, a fixed fee or a fee based upon a percentage of the Plan assets. The exact fee will be negotiated in advance of services rendered and shall be clearly set forth in the executed agreement for services between us.

All client accounts are regulated under the Employee Retirement Income Securities Act ("ERISA"). The named Sponsor must make the ultimate decision as to retaining us for pension consulting services. However, the Sponsor is free to seek independent advice about the appropriateness of any recommendations made by us.

Although allowable under certain circumstances, we will not act as broker of record or directly receive any commissions or mutual fund 12b-1 fees from investments of the plan assets. Our firm does not provide legal, tax, or actuarial advice and we will not be responsible for ensuring that the IPS and asset allocation choices comply with any legal, actuarial or other requirements that apply to the Plan. We may also provide additional types of pension consulting services to plans on an individually negotiated basis. All services, whether discussed above or customized for the plan based upon requirements from the plan fiduciaries (which may include additional plan-level or participant-level services) shall be detailed in a written agreement and be consistent with the parameters set forth in the plan documents..

You may terminate the agreement by providing 30 days' written notice to our firm. The pension consulting fees will be prorated for the quarter in which the termination notice is given and any unearned fees will be refunded to you.

Financial Planning Services

We offer broad-based, modular, and consultative financial planning services to our clients and prospective clients. Financial planning will typically involve providing a variety of advisory services to clients regarding the management of their financial resources based upon an analysis of their individual needs. If you retain our firm for financial planning services, we will meet with you to gather information about your financial circumstances and objectives. We may also use financial planning software to determine your current financial position and to define and quantify your long-term goals and objectives. Once we specify those long-term objectives (both financial and non-financial), we will develop shorter-term, targeted objectives. Once we review and analyze the information you provide to our firm and the data derived from our financial planning software, we will deliver a written plan to you, designed to help you achieve your stated financial goals and objectives.

Financial plans are based on your financial situation at the time we present the plan to you, and on the financial information you provide to our firm. You must promptly notify our firm if your financial situation, goals, objectives, or needs change. You should be aware that certain assumptions may be made with respect to interest and inflation rates and the use of past trends and performance of the market and economy. Past performance is in no way an indication of future performance. We cannot offer any guarantees or promises that your financial goals and objectives will be met. As your financial situation, goals, objectives, or needs change, you must notify us promptly. We may take into consideration tax consequences of various recommended investment products. However, we do not provide tax or accounting services and you should always consult an accountant or tax attorney for advice regarding the tax implications of certain investment strategies.

In general, financial planning and consulting services may include any one or all of the following:

1. **Personal Planning** - This includes a review of family records, budgeting, personal liability, estate information, and financial goals. We may offer advice on how to reduce risk, coordinate and organize records as well as estate information. We will also help you to identify and prioritize financial goals.

2. **Estate Planning** - This includes the strategic coordination of asset preservation, investment accumulation, portfolio allocation, and eventual wealth distribution.
3. **Insurance Planning** - This includes risk management associated with advisory recommendations based on the combination of insurance types that best meet your specific needs, e.g. life, health, disability, and long term care insurance. This will generally include analysis of cash needs at death, income needs of surviving dependents, and disability income analysis.
4. **Retirement Planning** - This involves advice with respect to alternatives and techniques for accumulating wealth for retirement income or advice relative to appropriate distribution of assets following retirement. Tax consequences and their implications are identified and evaluated.
5. **Investment Planning** - This involves advice with respect to investment alternatives and their effect on your portfolio. Evaluations are made of existing investments in terms of their economic and tax characteristics as well as their suitability for meeting your objectives. Tax consequences and their implications are identified and evaluated.

You are under no obligation to act on our financial planning recommendations. Should you choose to act on any of our recommendations, you are not obligated to implement the financial plan through any of our other investment advisory services. Moreover, you may act on our recommendations by placing securities transactions with any brokerage firm.

For financial planning services, we charge either a fixed fee or a fee based on our hourly rate, depending upon the type of engagement. Fees will be assessed according to the fee schedules set forth below:

Fixed Fees: Financial Planning Fees could range from \$1,500 for a simple financial plan examining a client's current state of affairs and addressing a process to accumulate sufficient resources for retirement to \$10,000 which would address advanced estate planning and comprehensive estate settlement processes that could entail recommendations for distribution of estate assets in the generational transfer to rightful heirs. In limited circumstances, the total cost could potentially exceed \$10,000. In such cases we will notify you and we may request that you pay an additional fee. The fee is negotiable depending upon the complexity and scope of the plan, your financial situation, and your objectives.

Hourly Fees: We charge a non-negotiable hourly fee of \$210 for specific services not involving a broad based financial plan. An estimate of the total time/cost will be determined at the start of the advisory relationship. In limited circumstances, the cost/time could potentially exceed the initial estimate. In such cases, we will notify you and request that you approve the additional fee.

When the scope of the financial planning services has been agreed upon, a determination will be made as to the applicable fee. The final fee shall be directly dependent upon facts and circumstances of your financial situation and the complexity of the financial plan or service requested. An estimate of the total cost will be determined at the start of the advisory relationship. A deposit of 50% of the total estimated fee will be due in advance. The remainder will be due upon completion of the services rendered. We will not require prepayment of a fee more than six months in advance and in excess of \$500.

At our discretion, we may waive or offset a portion of the financial planning fee should you choose to implement the plan through our asset management services.

You may terminate the financial planning agreement by providing written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the agreement. If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees. You may incur a pro rata charge for bona fide financial planning services rendered prior to such termination, and any unpaid fees will be due and payable at that time.

Variable Annuity Sub-Account Advisory Services

Our firm provides variable Annuity Sub-Account services on certain Variable Annuities herein referred to as *Program VA's*. We will obtain the necessary financial data from you to assist in determining suitability for investment in the Program VA's. The information provided by you will include a brief description of the investment objectives, guidelines and financial objectives for the Program VA(s). We will be available to you on an on-going basis to monitor any changes in your financial circumstances or investment objectives.

You will retain our firm to manage the Program VA(s) through the following mechanism:

Discretionary Trading Authority

By initialing the Schedule A to the Advisory Services Agreement, you appoint us to manage your Program VA(s) sub-accounts on a discretionary basis in accordance with the investment objectives selected by you, and subject to your meeting the minimum account size. We will manage the Program VA(s) sub-accounts on a discretionary basis in accordance with the investment objectives selected by you. We may reallocate program VA(s) sub-accounts without your prior consent.

Due to the unique nature of Variable Annuities, they must be maintained directly with the Variable Annuity sponsor. Our firm does not create or forward Client Account Statements or Confirmations for Program VA(s). This responsibility remains exclusively with the Variable Annuity sponsor. All sub-account reallocations will be directed to and executed at the Variable Annuity sponsor.

The minimum account size is \$50,000, but exceptions may be made at the sole discretion of our firm depending on your circumstances. In the event that you withdraw or partially liquidate assets and this causes the values of Program VA(s) to fall below this required minimum, you understand that the agreement for this service may be subject to termination. You understand that your account is designed as a long-term investment vehicle and those asset withdrawals or partial liquidations may impair the achievement of your investment objectives.

Program VA Compensation

As a participant in the Program VA, you shall pay an account fee for Program VAs in the account which is negotiable and based on the fee schedule disclosed under the "*Portfolio Management Services*" above. Program VAs are not assessed transaction fees since the reallocation of transactions are placed directly with the Variable Annuity sponsor.

In the event that one of the members of our firm, in their capacity as a registered representative of PKS, received a selling commission with respect to any Program VA within two years of the date of signing an agreement for this service, the Advisory Fee for the service shall be offset. In order to determine the transactions subject to this fee exclusion, we will complete the agreement together with you and attach supporting documentation evidencing the actual date of purchase of Program VA(s) within the past two years.

You may have multiple accounts as part of the Program VA. However, you must elect to have account fees debited from one previously selected Brokerage Account or directly billed from the VA sponsor. Fees will be prorated only to the respective account where such fees were debited. Program fees not debited from an account are not subject to a pro rata refund.

In addition, you may incur certain charges imposed by third parties other than the fees we charge, in connection with Program VA(s), including but not limited to internal Variable Annuity sponsor fees, as well as 12b-1 or other distribution Fees (trail commissions) on certain underlying sub-accounts. In addition, there may be certain deferred sales charges on previously purchased variable annuities as well as IRA and Qualified Retirement Plan fees.

Types of Investments

We primarily offer advice on Equity Securities, Fixed Income Securities, Mutual Funds, and Exchange Traded Funds (ETFs). Refer to the *Methods of Analysis, Investment Strategies and Risk of Loss* below for additional disclosures on this topic.

Additionally, we may advise you on any type of investment that we deem appropriate based on your stated goals and objectives. We may also provide advice on any type of investment held in your portfolio at the inception of our advisory relationship.

You may request that we refrain from investing in particular securities or certain types of securities. You must provide these restrictions to our firm in writing.

Assets Under Management

As of December 31, 2015, we provide continuous management services for \$70,000,000 in client assets on a discretionary basis, and \$1,100,000 in client assets on a non-discretionary basis.

Item 5 Fees and Compensation

Please refer to the "Advisory Business" section in this Brochure for information on our advisory fees, fee deduction arrangements, and refund policy according to each service we offer.

Additional Fees and Expenses

As part of our investment advisory services to you, we may invest, or recommend that you invest, in mutual funds and exchange traded funds. The fees that you pay to our firm for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or exchange traded funds (described in each fund's prospectus) to their shareholders. These fees will generally include a management fee and other fund expenses. You will also incur transaction charges and/or brokerage fees when purchasing or selling securities. These charges and fees are typically imposed by the broker-dealer or custodian through whom your account transactions are executed. We do not share in any portion of the brokerage fees/transaction charges imposed by the broker-dealer or custodian. To fully understand the total cost you will incur, you should review all the fees charged by mutual funds, exchange traded funds, our firm, and others. For information on our brokerage practices, refer to the *Brokerage Practices* section of this brochure.

Compensation for the Sale of Securities or Other Investment Products

Persons providing investment advice on behalf of our firm are registered representatives with Purshe Kaplan Sterling Investments ("PKS"), a securities broker-dealer, and a member of the Financial Industry Regulatory Authority ("FINRA") and the Securities Investor Protection Corporation ("SIPC"). In their capacity as registered representatives, these persons will receive commission-based compensation in connection with the purchase and sale of securities, including 12b-1 fees for the sale of investment company products. In their capacity as registered representatives, these persons may receive commission-based compensation in connection with the purchase and sale of securities, including 12b-1 fees for the sale of investment company products.

We may recommend that you purchase variable annuities to be included in your investment portfolio(s). As such, certain associated persons may earn commissions on the sale of the variable annuities. If these persons earn commission on the sale of variable annuities recommended to you, we will not include the annuity accounts in the total value used for our advisory billing/fee computation for two (2) years after the annuity contract is sold. After the two-year period, the value of the annuity sub accounts will be added to the value of your total assets for billing purposes. Annuities will be purchased for your account only after you receive a prospectus disclosing the terms of the annuity.

Additionally, persons providing investment advice on behalf of our firm are licensed as independent insurance agents. These persons will earn commission-based compensation for selling insurance products, including insurance products they sell to you.

All sales-based compensation earned by these persons is separate and distinct from our advisory fees. As such, insurance and securities licensed individuals may have a financial incentive to recommend investment and/or insurance products. However, you are under no obligation, contractually or otherwise, to purchase such products through any person affiliated with our firm.

At our discretion, we may offset our advisory fees to the extent our Associated Persons earn commissions in their separate capacities as registered representatives and/or insurance agents.

Any material conflicts of interest between you and our firm, or our employees are disclosed in this Disclosure Brochure. If at any time, additional material conflicts of interest develop, we will provide you with written notification of the material conflicts of interest or an updated Disclosure Brochure.

Item 6 Performance-Based Fees and Side-By-Side Management

We do not accept performance-based fees or participate in side-by-side management. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees. Performance-based fees are fees that are based on a share of capital gains or capital appreciation of a client's account. Our fees are calculated as described in the *Advisory Business* section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Item 7 Types of Clients

We offer investment advisory services to individuals, pension and profit sharing plans, trusts, estates, charitable organizations, corporations, and other business entities.

In general, we require a minimum of \$50,000 to open and maintain an advisory account. At our discretion, we may waive or lower this minimum account size. We may also combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts to meet the stated minimum.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Our Methods of Analysis and Investment Strategies

We may use one or more of the following methods of analysis or investment strategies when providing investment advice to you:

Charting Analysis - involves the gathering and processing of price and volume pattern information for a particular security, sector, broad index or commodity. This price and volume pattern information is analyzed. The resulting pattern and correlation data is used to detect departures from expected performance and diversification and predict future price movements and trends.

Risk: Our charting analysis may not accurately detect anomalies or predict future price movements. Current prices of securities may reflect all information known about the security and day-to-day changes in market prices of securities may follow random patterns and may not be predictable with any reliable degree of accuracy.

Technical Analysis - involves studying past price patterns, trends and interrelationships in the financial markets to assess risk-adjusted performance and predict the direction of both the overall market and specific securities.

Risk: The risk of market timing based on technical analysis is that our analysis may not accurately detect anomalies or predict future price movements. Current prices of securities may reflect all information known about the security and day-to-day changes in market prices of securities may follow random patterns and may not be predictable with any reliable degree of accuracy.

Fundamental Analysis - involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience and expertise of the company's management, and the outlook for the company and its industry. The resulting data is used to measure the true value of the company's stock compared to the current market value.

Risk: The risk of fundamental analysis is that information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

Cyclical Analysis - a type of technical analysis that involves evaluating recurring price patterns and trends. Economic/business cycles may not be predictable and may have many fluctuations between long-term expansions and contractions.

Risk: The lengths of economic cycles may be difficult to predict with accuracy and therefore the risk of cyclical analysis is the difficulty in predicting economic trends and consequently the changing value of securities that would be affected by these changing trends.

Long-Term Purchases - securities purchased with the expectation that the value of those securities will grow over a relatively long period of time, generally greater than one year.

Risk: Using a long-term purchase strategy generally assumes the financial markets will go up in the long-term which may not be the case. There is also the risk that the segment of the market that you are invested in or perhaps just your particular investment will go down over time even if the overall financial markets advance. Purchasing investments long-term may create an opportunity cost - "locking-up" assets that may be better utilized in the short-term in other investments.

Short-Term Purchases - securities purchased with the expectation that they will be sold within a relatively short period of time, generally less than one year, to take advantage of the securities' short-term price fluctuations.

Risk: Using a short-term purchase strategy generally assumes that we can predict how financial markets will perform in the short-term which may be very difficult and will incur a disproportionately higher amount of transaction costs compared to long-term trading. There are many factors that can affect financial market performance in the short-term (such as short-term interest rate changes, cyclical earnings announcements, etc.) but may have a smaller impact over longer periods of times.

Short Sales - Unlike a straightforward investment in stocks where you buy shares with the expectation that their price will increase so you can sell at a profit, in a "short sale" you borrow stocks from your brokerage firm and sell them immediately, hoping to buy them later at a lower price. Thus, a short seller hopes that the price of a stock will go down in the near future. A short seller thus uses declines in the market to his advantage. The short seller makes money when the stock prices fall and loses when prices go up. The SEC has strict regulations in place regarding short selling.

Risk: Short selling is very risky. A short seller will profit if the stock goes down in price, but if the price of the shares increase, the potential losses are unlimited. There is no ceiling on how much a short seller can lose in a trade. The share price may keep going up and the short seller will have to pay whatever the prevailing stock price is to buy back the shares. However, gains have a ceiling level because the stock price cannot fall below zero. A short seller has to undertake to pay the earnings on the borrowed securities as long as the short seller chooses to keep the short position open. If the company declares huge dividends or issues bonus shares, the short seller will have to pay that amount to the lender. Any such occurrence can skew the entire short investment and make it unprofitable. The broker can use the funds in the short seller's margin account to buy back the loaned shares or issue a "call away" to get the short seller to return the borrowed securities. If the broker makes this call when the stock price is much higher than the price at the time of the short sale, then the investor can end up taking huge losses.

Margin Transactions - a securities transaction in which an investor borrows money to purchase a security, in which case the security serves as collateral on the loan.

Risk: If the value of the shares drops sufficiently, the investor will be required to either deposit more cash into the account or sell a portion of the stock in order to maintain the margin requirements of the account. This is known as a "margin call." An investor's overall risk includes the amount of money invested plus the amount that was loaned to them.

Option Writing - a securities transaction that involves selling an option. An option is a contract that gives the buyer the right, but not the obligation, to buy or sell a particular security at a specified price on or before the expiration date of the option. When an investor sells an option, he or she must deliver to the buyer a specified number of shares if the buyer exercises the option. The option writer/seller receives a premium (the market price of the option at a particular time) in exchange for writing the option.

Risk: Options are complex investments and can be very risky, especially if the investor does not own the underlying stock. In certain situations, an investor's risk can be unlimited.

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial information, liquidity needs and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio. **It is important that you notify us immediately with respect to any material changes to your financial circumstances, including for example, a change in your current or expected income level, tax circumstances, or employment status.**

Tax Considerations

Our strategies and investments may have unique and significant tax implications. However, unless we specifically agree otherwise, and in writing, tax efficiency is not our primary consideration in the management of your assets. Regardless of your account size or any other factors, we strongly recommend that you consult with a tax professional regarding the investing of your assets.

Moreover, custodians and broker-dealers must report the cost basis of equities acquired in client accounts on or after January 1, 2011. Your custodian will default to the First-In First-Out ("FIFO") accounting method for calculating the cost basis of your investments. You are responsible for contacting your tax advisor to determine if this accounting method is the right choice for you. If your tax advisor believes another accounting method is more advantageous, provide written notice to our firm immediately and we will alert your account custodian of your individually selected accounting method. Decisions about cost basis accounting methods will need to be made before trades settle, as the cost basis method cannot be changed after settlement.

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.

Recommendation of Particular Types of Securities

We primarily recommend Equity Securities, Fixed Income, Mutual Funds and Exchange Traded Funds (ETFs). However, we may advise on other types of investments as appropriate for you since each client has different needs and different tolerance for risk. Each type of security has its own unique set of risks associated with it and it would not be possible to list here all of the specific risks of every type of investment. Even within the same type of investment, risks can vary widely. However, in very general terms, the higher the anticipated return of an investment, the higher the risk of loss associated with the investment.

Mutual Funds and Exchange Traded Funds: Mutual funds and exchange traded funds ("ETF") are professionally managed collective investment systems that pool money from many investors and invest in stocks, bonds, short-term money market instruments, other mutual funds, other securities, or any combination thereof. The fund will have a manager that trades the fund's investments in accordance with the fund's investment objective. While mutual funds and ETFs generally provide diversification, risks can be significantly increased if the fund is concentrated in a particular sector of the market, primarily invests in small cap or speculative companies, uses leverage (i.e., borrows money) to a significant degree, or concentrates in a particular type of security (i.e., equities) rather than balancing the fund with different types of securities. ETFs differ from mutual funds since they can be bought and sold throughout the day like stock and their price can fluctuate throughout the day. The returns on mutual funds and ETFs can be reduced by the costs to manage the funds. Also, while some mutual funds are "no load" and charge no fee to buy into, or sell out of, the fund, other types of mutual funds do charge such fees which can also reduce returns. Mutual funds can also be "closed end" or "open end". So-called "open end" mutual funds continue to allow in new investors indefinitely whereas "closed end" funds have a fixed number of shares to sell which can limit their availability to new investors.

Stocks: There are numerous ways of measuring the risk of equity securities (also known simply as "equities" or "stock"). In very broad terms, the value of a stock depends on the financial health of the company issuing it. However, stock prices can be affected by many other factors including, but not

limited to the class of stock (for example, preferred or common); the health of the market sector of the issuing company; and, the overall health of the economy. In general, larger, better established companies ("large cap") tend to be safer than smaller start-up companies ("small cap") are but the mere size of an issuer is not, by itself, an indicator of the safety of the investment.

Bonds: Corporate debt securities (or "bonds") are typically safer investments than equity securities, but their risk can also vary widely based on: the financial health of the issuer; the risk that the issuer might default; when the bond is set to mature; and, whether or not the bond can be "called" prior to maturity. When a bond is called, it may not be possible to replace it with a bond of equal character paying the same rate of return.

Item 9 Disciplinary Information

Access Financial Group, Inc. has been registered and providing investment advisory services since 1999. Neither our firm nor any management persons have any reportable legal or disciplinary events.

Item 10 Other Financial Industry Activities and Affiliations

Registrations with Broker-Dealer

Persons providing investment advice on behalf of our firm are registered representatives and with PKS, a securities broker-dealer, and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation.

Estate Planning

We are affiliated with Estate Planning Designs, LLC., through common control and ownership. Estate Planning Designs, LLC, is a company specializing in estate planning designs. If you are in need of in-depth estate planning, our firm will recommend that you use the services of Estate Planning Designs, LLC. We may receive compensation for referrals of our clients to Estate Planning Designs, LLC. The fees paid to us for advisory services are separate and distinct from the fees paid to Estate Planning Designs, LLC.

Insurance

We are affiliated with Info Access, Inc., a licensed insurance agency through common control and ownership. Persons providing investment advice on behalf of our firm are licensed as insurance agents with Info Access, Inc., and/or other insurance agencies. These persons will earn commission-based compensation for selling insurance products, including insurance products they sell to you. Insurance commissions earned by these persons are separate from our advisory fees.

While we believe that compensation charged by our affiliates are competitive, such compensation may be higher than fees charged by other firms providing the same or similar services. You are under no obligation to use our affiliates' services and may obtain comparable services and/or lower fees through other firms.

Recommendation of Other Advisers

We may recommend that you use a third party adviser ("TPA") based on your needs and suitability. We will receive compensation from the TPA for recommending that you use their services. As such we may have a financial incentive to recommend the services one third party adviser over another. You are not obligated, contractually or otherwise, to use the services of any TPA we recommend.

Please refer to the "Fees and Compensation" section of this brochure for more information on the additional compensation any conflicts associated with our other business and financial activities.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Description of Our Code of Ethics

We strive to comply with applicable laws and regulations governing our practices. Therefore, our Code of Ethics includes guidelines for professional standards of conduct for our Associated Persons. Our goal is to protect your interests at all times and to demonstrate our commitment to our fiduciary duties of honesty, good faith, and fair dealing with you. All of our Associated Persons are expected to adhere strictly to these guidelines.

Our Code of Ethics also requires that certain persons associated with our firm submit reports of their personal account holdings and transactions to a qualified representative of our firm who will review these reports on a periodic basis. Persons associated with our firm are also required to report any violations of our Code of Ethics. Additionally, we maintain and enforce written policies reasonably designed to prevent the misuse or dissemination of material, non-public information about you or your account holdings by persons associated with our firm.

Our Code of Ethics is available to you upon request. You may obtain a copy of our Code of Ethics by contacting at John Gillespie at 405-491-0235.

Personal Trading Practices

Our firm or persons associated with our firm may buy or sell securities for you at the same time we or persons associated with our firm buy or sell such securities for our own account. We may also combine our orders to purchase securities with your orders to purchase securities ("block trading"). Please refer to the "Brokerage Practices" section in this Brochure for information on our block trading practices.

A conflict of interest exists in such cases because we have the ability to trade ahead of you and potentially receive more favorable prices than you will receive. To mitigate this conflict of interest, it is our policy that neither our Associated Persons nor we shall have priority over your account in the purchase or sale of securities.

Item 12 Brokerage Practices

We recommend the brokerage and custodial services of Schwab Institutional division of Charles Schwab & Co., Inc., ("Schwab") and Interactive Brokers, LLC ("Interactive"). securities broker-dealers and members of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation. We believe that Schwab and Interactive provide quality execution services for you at competitive prices. Price is not the sole factor we consider in evaluating best execution. We also consider the quality of the brokerage services provided by Schwab and Interactive, including the value of research provided, the firm's reputation, execution capabilities, commission rates, and responsiveness to our clients and our firm. In recognition of the value of research services and additional brokerage products and services Schwab and Interactive provides, you may pay higher commissions and/or trading costs than those that may be available elsewhere.

Schwab provides us with access to its institutional trading and operations services which are typically not available to Schwab retail investors. Schwab's services may include research, brokerage, custody, access to mutual funds and other investments that are otherwise available only to institutional investors or would require significantly higher minimum initial investments. Schwab also makes available to us other products and services that benefit our firm but may not benefit your account. These include software and other technology that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution, provide research, pricing information

and other market data, facilitate payment of our fees from client accounts, and assist with back-office support, recordkeeping and client reporting. The availability to us of the foregoing products and services is not contingent upon our committing to Schwab any specific amount of business (assets in custody or trading).

We believe that Schwab and Interactive provide the best services at reasonable and competitive commission rates. The reasonableness of commissions is based on several factors, include the broker's ability to provided professional services, competitive commission rates, volume discounts, execution price negotiations, the broker's integrity and reputation, experience and financial stability of the broker-dealer, and the quality of service rendered by the broker-dealer in other transactions.

Best execution is not measured solely by reference to commission rates. Paying a broker a higher commission rates than another broker might charge is permissible if the difference in cost is reasonably justified by the quality of the brokerage services offered.

As disclosed above in Item 5 , associated persons who are Registered Representatives of PKS may suggest that you place certain transactions through PKS. Generally, we will recommend using PKS when purchasing direct investment products, such as mutual funds or other variable products.

Brokerage for Client Referrals

We do not receive client referrals from broker-dealers in exchange for cash or other compensation, such as brokerage services or research.

Directed Brokerage

In limited circumstances, and at our discretion, some clients may instruct our firm to use one or more particular brokers for the transactions in their accounts. If you choose to direct our firm to use a particular broker, you should understand that this might prevent our firm from aggregating trades with other client accounts or from effectively negotiating brokerage commissions on your behalf. This practice may also prevent our firm from obtaining favorable net price and execution. Thus, when directing brokerage business, you should consider whether the commission expenses, execution, clearance, and settlement capabilities that you will obtain through your broker are adequately favorable in comparison to those that we would otherwise obtain for you.

Block Trades

We combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as "block trading"). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion regarding factual and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or persons associated with our firm may participate in block trading with your accounts; however, they will not be given preferential treatment.

Item 13 Review of Accounts

Asset Management Reviews

We will monitor your account holdings on an ongoing basis and will conduct account reviews at least quarterly and upon your request to ensure that the advisory services provided to you and the portfolio mix are consistent with your stated investment needs and objectives. Additional reviews may be conducted based on various circumstances, including, but not limited to:

- contributions and withdrawals;
- year-end tax planning;
- market moving events;
- security specific events; and/or,
- changes in your risk/return objectives.

The investment adviser representative ("IAR") of our firm that is assigned to the account is the primary reviewer and is the primary decision maker for all accounts assigned to him/her. Our firm's Chief Compliance Officer, John Gillespie, will supervise these investment adviser representatives in the management and review of accounts. We recommend a client meeting and formal account review at least annually.

We will not provide you with additional or regular written reports in conjunction with account reviews. You will receive trade confirmations and monthly or quarterly statements from your account custodian(s).

Financial Planning Reviews

We will review financial plans as needed, depending on the arrangements made with you at the inception of your advisory relationship to ensure that the planning advice and/or asset allocation recommendations made to you is consistent with your current investment needs and objectives. Generally, we will contact you at least annually to determine whether any updates may be needed based on changes in your circumstances. Changed circumstances may include, but are not limited to marriage, divorce, birth, death, inheritance, lawsuit, retirement, job loss, and/or disability, among others. Where warranted, we will provide you with updates to the financial plan in conjunction with the review. We recommend meeting with you at least annually to review and update your plan if needed. Additional reviews will be conducted upon your request. Such additional reviews and updates can be subject to our then current hourly rate. We will not provide regular written reports for financial planning and consulting services.

Retirement and Pension Consulting Reviews

We will conduct periodic reviews of fund expenses, investment performance, and style drift for mutual funds offered by the Plan to participants, comparing them with other funds in the same asset category using Morningstar data from Principia; provide suggestion to the named Sponsor from time to time as deemed warranted for alternative mutual fund options for the Plan to make available to its participants (which decision will remain the sole and exclusive decision of the named Sponsor and/or their Fiduciary delegate).

Item 14 Client Referrals and Other Compensation

As disclosed under the "Fees and Compensation" section in this Brochure, persons providing investment advice on behalf of our firm are licensed insurance agents, and are registered representatives with PKS, a securities broker-dealer, and a member FINRA / SIPC. For information on the conflicts of interest this presents, and how we address these conflicts, please refer to the "Fees and Compensation" section.

We may directly compensate non-employee (outside) consultants, individuals, and/or entities (Solicitors) for client referrals. In order to receive a cash referral fee from our firm, Solicitors must comply with the requirements of the jurisdictions in which they operate. If you were referred to our firm by a Solicitor, you should have received a copy of this Disclosure Brochure along with the Solicitor's disclosure statement at the time of the referral. If you become a client, the Solicitor that referred you to our firm will receive a percentage of the advisory fee you pay our firm for as long as you are a client

with our firm, or until such time as our agreement with the Solicitor expires. You will not pay additional fees because of this referral arrangement. Referral fees paid to a Solicitor are contingent upon your entering into an advisory agreement with our firm. Therefore, a Solicitor has a financial incentive to recommend our firm to you for advisory services.

Item 15 Custody

Provided we receive your written authorization, we will instruct your custodian to directly debit your account(s) for the payment of our advisory fees. This ability to deduct our advisory fees from your accounts causes our firm to exercise limited custody over your funds or securities. We do not have physical custody of any of your funds and/or securities. Your funds and securities will be held with a bank, broker-dealer, or other independent, qualified custodian. You will receive account statements from the independent, qualified custodian(s) holding your funds and securities at least quarterly. The account statements from your custodian(s) will indicate the amount of our advisory fees deducted from your account(s) each billing period. You should carefully review account statements for accuracy.

Item 16 Investment Discretion

You may grant our firm discretion over the selection and amount of securities to be purchased or sold for your account(s) without obtaining your consent or approval prior to each transaction. You may specify investment objectives, guidelines, and/or impose certain conditions or investment parameters for your account(s). For example, you may specify that the investment in any particular stock or industry should not exceed specified percentages of the value of the portfolio and/or restrictions or prohibitions of transactions in the securities of a specific industry or security. Please refer to the "Advisory Business" section in this Brochure for more information on our discretionary management services. If you enter into non-discretionary arrangements with our firm, we will obtain your approval prior to the execution of any transactions for your account(s).

Item 17 Voting Client Securities

We will not vote proxies on behalf of your advisory accounts. At your request, we may offer you advice regarding corporate actions and the exercise of your proxy voting rights. If you own shares of common stock or mutual funds, you are responsible for exercising your right to vote as a shareholder.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward any electronic solicitation to vote proxies.

Item 18 Financial Information

Our firm does not have any financial condition or impairment that would prevent us from meeting our contractual commitments to you. We do not take physical custody of client funds or securities, or serve as trustee or signatory for client accounts, and, we do not require the prepayment of more than \$500 in fees six or more months in advance. Therefore, we are not required to include a financial statement with this brochure.

We have not filed a bankruptcy petition at any time in the past ten years.

Item 19 Requirements for State Registered Investment Advisers

Refer to the Part(s) 2B for background information about our principal executive officers, management personnel and those giving advice on behalf of our firm.

Our firm is not actively engaged in any business other than giving investment advice that is not already disclosed above.

Neither our firm, nor any persons associated with our firm are compensated for advisory services with performance-based fees. Refer to the *Performance-Based Fees and Side-By-Side Management* section above for additional information on this topic.

Neither our firm, nor any of our management persons have any reportable arbitration claims, civil, self-regulatory organization proceedings, or administrative proceedings.

Neither our firm, nor any of our management persons have a material relationship or arrangement with any issuer of securities.

Insurance Coverage

As of the date of this Disclosure Brochure, our firm does not carry professional liability insurance coverage for its investment advisory services. In the event we do obtain such insurance coverage, this Disclosure Brochure will be amended and provided to you, and proof of such coverage (copy of insurance agreement) will be made available to you within 30 days of your request.

Item 20 Additional Information

Your Privacy

We view protecting your private information as a top priority. Pursuant to applicable privacy requirements, we have instituted policies and procedures to ensure that we keep your personal information private and secure.

We do not disclose any nonpublic personal information about you to any nonaffiliated third parties, except as permitted by law. In the course of servicing your account, we may share some information with our service providers, such as transfer agents, custodians, broker-dealers, accountants, consultants, and attorneys.

We restrict internal access to nonpublic personal information about you to employees who need that information in order to provide products or services to you. We maintain physical and procedural safeguards that comply with regulatory standards to guard your nonpublic personal information and to ensure our integrity and confidentiality. We will not sell information about you or your accounts to anyone. We do not share your information unless it is required to process a transaction, at your request, or required by law.

You will receive a copy of our privacy notice prior to or at the time you sign an advisory agreement with our firm. Thereafter, we will deliver a copy of the current privacy policy notice to you on an annual basis. Please contact John Gillespie at 405-491-0235 if you have any questions regarding this policy.

Trade Errors

In the event a trading error occurs in your account, our policy is to restore your account to the position it should have been in had the trading error not occurred. Depending on the circumstances, corrective actions may include canceling the trade, adjusting an allocation, and/or reimbursing the account. If a trade error results in a profit, the trade error will be corrected in the trade error account of the executing broker-dealer and you will not keep the profit.

Class Action Lawsuits

We do not determine if securities held by you are the subject of a class action lawsuit or whether you are eligible to participate in class action settlements or litigation nor do we initiate or participate in litigation to recover damages on your behalf for injuries as a result of actions, misconduct, or negligence by issuers of securities held by you.

Item 2 Educational Background and Business Experience

John G. Gillespie

Year of Birth: 1955

Formal Post High School Education:

- Trevecca Nazarene University, B.S., 1977

Business Background for the Previous Five Years:

- Access Financial Group, Inc. ("AFG"), President/CEO/CCO, 10/1993 to Current
- Access Capital Management, LLC, Chief Executive Officer/Manager/CCO, 11/2009 to 06/2015
- Purshe Kaplan Sterling Investments, Registered Representative, 07/2009 to Current
- Info Access, Inc., President, 10/1993 to Current
- Access Equity Group, LLC, Member, 08/2005 to 05/2015
- Estate Planning Designs, LLC, Member, 12/2000 to Current
- Route 66 Trust, Manager, 11/1996 to Current
- Access Charitable Consultants, Proprietor, 10/1993 to Current

Item 3 Disciplinary Information

Form ADV Part 2B requires disclosure of certain criminal or civil actions, administrative proceedings, and self-regulatory organization proceedings, as well as certain other proceedings related to suspension or revocation of a professional attainment, designation, or license. Mr. John Gillespie has no required disclosures under this item.

Item 4 Other Business Activities

Registrations with Broker-Dealer

John Gillespie is a Registered Representative with Purshe Kaplan Sterling Investments . Purshe Kaplan Sterling Investments is a diversified financial services company engaged in the sale of specialized investment products. In this capacity, Mr. Gillespie may recommend securities or insurance products offered by Purshe Kaplan Sterling Investments as part of your investment portfolio. If you purchase these products through Mr. Gillespie, he will receive the customary commissions in his separate capacity as a Registered Representative of Purshe Kaplan Sterling Investments.

Additionally, Mr. Gillespie could be eligible to receive incentive awards such as Purshe Kaplan Sterling Investments may offer. He may also receive 12b-1 fees from mutual funds that pay such fees. The receipt of additional compensation may give Mr. Gillespie an incentive to recommend investment products based on the compensation received, rather than on your investment needs.

Estate Planning

John G. Gillespie is managing member of Estate Planning Designs, LLC, a company specializing in estate planning designs. Mr. Gillespie will recommend that you use the services of Estate Planning Designs, LLC, if you are in need of in-depth estate planning. He may receive compensation for referrals of his clients to Estate Planning Designs, LLC. The fees paid to him for advisory services are separate and distinct from the fees paid to Estate Planning Designs, LLC.

Insurance

John G. Gillespie is President and Owner of Info Access, Inc., a licensed insurance agency. He may also be licensed as an insurance agent with other insurance companies. He will earn commission-based compensation for selling insurance products, including insurance products he sells to you. Insurance commissions earned by him are separate from our advisory fees.

Office Building Management

John G. Gillespie is Managing Member of Route 66 Trust, a commercial office space.

Books

John G. Gillespie is the Owner of Gillespie Books. Mr. Gillespie is an author of various books and offers them through Gillespie Books.

Item 5 Additional Compensation

Refer to the *Other Business Activities* section above for disclosures on Mr. Gillespie's receipt of additional compensation as a result of his other business activities.

Also, refer to the *Fees and Compensation, Client Referrals and Other Compensation, and Other Financial Industry Activities and Affiliations* section(s) of Access Financial Group, Inc.'s firm brochure for additional disclosures on this topic.

Item 6 Supervision

As the CEO/President/CCO of Access Financial Group, Inc., John Gillespie supervises the advisory activities of our firm. John Gillespie can be reached at 405-491-0235.

Item 7 Requirements for State Registered Advisers

John Gillespie does not have any reportable arbitration claims, has not been found liable in a reportable civil, self-regulatory organization or administrative proceeding, and has not been the subject of a bankruptcy petition.

Additional information about Angela O'Keefe is available on the SEC's website at www.adviserinfo.sec.gov.

Item 2 Educational Background and Business Experience

Angela O'Keefe

Year of Birth: 1972

Formal Education After High School:

- No formal education after high school

Business Background:

- Access Financial Group, Inc., Investment Adviser Representative, 10/2014 - Present
- Purshe Kaplan Sterling Investments, Inc., Registered Representative, 2/2015 - Present
- Estate Planning Designs, LLC, Contracted Consultant, 7/2015 - Present
- Info Access, Inc., Insurance Agent, 02/2015 to Current
- T. S. Phillips Investments, Investment Adviser Representative, 9/2012 - 10/2014
- Securities America, Registered Representative, 05/2012 - 09/2012
- Eide Bailly Advisors, Inc., Investment Adviser Representative, 5/2012 - 9/2012
- Mike Cunningham Investments, Representative, 9/2006 - 3/2012
- VSR Financial Services, Inc., Registered Representative, 9/2006 - 3/2012
- Cunningham-Kaestner Investments, LLC, Registered Representative, 09/2006 - 10/2011
- Securities America, Registered Representative, 11/2004 to 10/2006
- SFS, Inc., Associated Person, 12/2003 - 09/2006

Item 3 Disciplinary Information

Form ADV Part 2B requires disclosure of certain criminal or civil actions, administrative proceedings, and self-regulatory organization proceedings, as well as certain other proceedings related to suspension or revocation of a professional attainment, designation, or license. Ms. Angela O'Keefe has no required disclosures under this item.

Item 4 Other Business Activities

Registrations with Broker-Dealer

Angela O'Keefe is a Registered Representative with Purshe Kaplan Sterling Investments . Purshe Kaplan Sterling Investments is a diversified financial services company engaged in the sale of specialized investment products. In this capacity, Ms. O'Keefe may recommend securities or insurance products offered by Purshe Kaplan Sterling Investments as part of your investment portfolio. If you purchase these products through Ms. O'Keefe, she will receive the customary commissions in her separate capacity as a Registered Representative of Purshe Kaplan Sterling Investments .

Additionally, Ms. O'Keefe could be eligible to receive incentive awards such as Purshe Kaplan Sterling Investments may offer. She may also receive 12b-1 fees from mutual funds that pay such fees. The receipt of additional compensation may give Ms. O'Keefe an incentive to recommend investment products based on the compensation received, rather than on your investment needs.

Estate Planning

Angela O'Keefe is contracted consultant of Estate Planning Designs, LLC, a company specializing in estate planning designs. Ms. O'Keefe will recommend that you use the services of Estate Planning Designs, LLC if you are in need of in-depth estate planning. She may receive compensation for referrals of her clients to Estate Planning Designs, LLC. The fees paid to her for advisory services are separate and distinct from the fees paid to Estate Planning Designs.

Insurance

Angela O'Keefe is an insurance agent with Info Access, Inc., a licensed insurance agency. She may also be licensed as an insurance agent with other insurance companies. Shee will earn commission-based compensation for selling insurance products, including insurance products she sells to you. Insurance commissions earned by her are separate from our advisory fees.

Item 5 Additional Compensation

Refer to the *Other Business Activities* section above for disclosures on Ms. O'Keefe's receipt of additional compensation as a result of her other business activities.

Also, refer to the *Fees and Compensation, Client Referrals and Other Compensation, and Other Financial Industry Activities and Affiliations* section(s) of Access Financial Group, Inc.'s firm brochure for additional disclosures on this topic.

Item 6 Supervision

In the supervision of our associated persons, advice provided is limited based on the restrictions set by Access Financial Group, Inc., and by internal decisions as to the types of investments that may be included in client portfolios. We conduct periodic reviews of client holdings and documented suitability information to provide reasonable assurance that the advice provided remains aligned with each client's stated investment objectives and with our internal guidelines.

My supervisor is: John Gillespie, CEO/President/CCO

Supervisor phone number: 405-491-0235

Item 7 Requirements for State Registered Advisers

Angela O'Keefe does not have any reportable arbitration claims, has not been found liable in a reportable civil, self-regulatory organization or administrative proceeding, and has not been the subject of a bankruptcy petition.
