Item 4 – ADVISORY BUSINESS

Focus Financial Network, Inc. (hereinafter referred to as “FFN”) is an investment advisory firm offering a variety of advisory services customized to the individual needs of the client. The services are more fully described below.

FFN was established in 1993 for the purpose of filing for registration as an investment adviser. FFN is owned by several individuals. None of the individuals have a majority share in FFN. Further there is no one individual with a share of ownership of more than 20%.

FFN is an investment adviser that consists of many independent contractors who have affiliated with FFN as Advisory Representatives to offer the advisory services programs described within this brochure. The Advisory Representatives each have their own businesses and offices through which they conduct not only advisory business but provide other financial services. The Advisory Representatives have a direct interest in the fee charged to you since FFN will pay a portion of the advisory fee charged to you to your Advisory Representative.

Advisory Representatives may offer some or all of the advisory services and programs disclosed in this brochure. The advisory fee charged to you may not exceed the fee schedules disclosed below. Further, the education, experience and skills of the Advisory Representatives vary. The fees charged by the various Advisory Representatives are not directly related to their education, experience or skill. Therefore, you are advised, your Advisory Representative may charge you more or less for services as compared to another Advisory Representative for similar services that may have more training, education and experience in the financial services area.

FFN offers the following advisory services. As previously stated, each of the services is more fully described below.

- Asset Management Programs
- Financial Planning: retirement planning, education planning,
- Analysis, Recommendation and Monitoring of Third Party Managed Programs
- Asset Allocation Services for External Pension, Profit Sharing, 401(k) and 403(b) Plan Assets

FFN’s Advisory Representatives tailor the advisory services they offer to your individual needs. You may impose restrictions and/or limitations on the investing in certain securities or types of securities.

Your Advisory Representative will require you to complete certain account opening documents and/or data gathering questionnaire. Such documents assist FFN and your Advisory Representative with obtaining information about your financial background, situation and history.

Additionally, your Advisory Representatives will meet with you and conduct an interview and data gathering session to continue the due diligence process. This process will vary with each Advisory Representative. The number of meetings will vary based on several factors, including but not limited to, your Advisory Representative, your time commitment, complexity of your situation, services in which you will be participating and research or other professionals involved.

Focus Financial Network, Inc.

The information gathered by your Advisory Representative will assist your Advisory Representative in providing you with the requested services and customize the services to your financial situation. Depending on the services you have requested, your Advisory Representative will gather various financial information and history including, but not limited to:

- Retirement and financial goals
- Investment objectives
- Investment time horizon
- Financial needs and goals and risk tolerance
- Cash flow analysis
- Cost of living needs
- Education needs
- Savings tendencies
- Other applicable financial information required by FFN in order to provide the investment advisory services requested.

There is no significant difference between how FFN manages wrap fee accounts and non-wrap fee accounts. However, if a client determines to engage FFN on a wrap fee basis the client will pay a single fee for bundled services (i.e. investment advisory, brokerage, custody). The services included in a wrap fee agreement will depend upon each client's particular need. If the client determines to engage FFN on a non-wrap fee basis the client will select individual services on an unbundled basis, paying for each service separately (i.e. investment advisory, brokerage, custody). **Please Note:** When managing a client's account on a wrap fee basis, FFN shall receive as payment for its investment advisory services, the balance of the wrap fee after all other costs incorporated into the wrap fee have been deducted.

As of December 31, 2015 FFN has under management on a discretionary basis client assets of \$1,309,000,000 and on a non-discretionary basis \$531,000,000.

Asset Management Services

Upon your Advisory Representative completing an analysis of your situation, your Advisory Representative will determine an asset allocation customized to your financial goals, objectives and risk tolerance.

Your Advisory Representative will provide continuous and ongoing management of your managed accounts.

Depending on your Advisory Representative and your preference, management services can be provided on a discretionary or non-discretionary basis. If you elect to have your account managed on a discretionary basis, your Advisory Representative will be granted the authority to determine the securities to be purchased and sold in your account without your prior authorization. If you elect to have your account managed on a non-discretionary basis, your Advisory Representative must obtain your prior authorization before any purchase or sale of a security. The ability to select discretionary or

Focus Financial Network, Inc.

non-discretionary management is subject to negotiation between you and your Advisory Representative. Not all Advisory Representatives may provide the option.

Neither FFN nor your Advisory Representative will maintain custody of your funds or securities. However, FFN's management services will require you to authorize FFN to withdraw its quarterly advisory fee from your account.

Custodial services for your managed account will be offered through:

- Royal Alliance Associates, Inc. custodied at Pershing, LLC
- Charles Schwab & Co., Inc. ("Schwab")
- TD Ameritrade Institutional
- National Financial Services, LLC and Fidelity Brokerage Services, LLC (together referred to as "Fidelity") (limited to Qualified Corporate Retirement Plans)
- Directly with the variable company

If you select another brokerage firm for custodial and/or brokerage services you will not be able to receive asset management services from FFN. Instead, your Advisory Representative can provide you with asset allocation recommendations. However, it is your responsibility to implement.

If you select Schwab as your custodian for your account, your Advisory Representative may utilize an option through Schwab to automatically rebalancing your account when the account falls outside of certain parameters determined by your Advisory Representative. The rebalancing will occur without your prior approval. FFN does not deem the reallocation back to the original agreed upon allocation as utilizing discretionary authority since the account is simply being brought back in line with the original agreed upon allocation.

You are advised that transactions in your account, account reallocations and rebalancing may trigger a taxable event, with the exception of IRA accounts, 403(b) accounts and other qualified retirement accounts.

Retirement Plan Consulting Services

FFN offers the following retirement plan consulting services and other consulting services as agreed between FFN and the Plan. FFN's role is only to offer generalized, non-discretionary advice concerning the merits and risks of investments.

Platform Provider Search and Plan Set-up (non-fiduciary service)

FFN will meet with the company to assist in the search for the appropriate interested party providers and set up of the Plan. FFN will gather information about the company (statistics, goals, objectives, needs, etc.) and request proposals from appropriate interested party providers. FFN will review the proposals with the company to help in determining the appropriate platform for the plan. FFN will assist in the set up and communication of the plan to the participants.

Strategic Planning and Investment Policy Development or Review

FFN will meet with designated fiduciaries of the Plan to assist in the Plan in developing an investment policy statement (the "IPS"). Alternatively, if the Plan has an existing IPS, then FFN will review the existing IPS and assist the Plan in determining whether (i) the performance of the Plan's investments are consistent with the goals set forth in its IPS; and/or (ii) using information provided by the Plan, and based upon an analysis of the Plan's liquidity requirements, performance goals and risk tolerance levels, whether the IPS should be revised.

Plan Review

FFN will review the structure of the Plan (*e.g.*, product vendors, investment options) to gauge whether it is operating in accordance with the Plan's IPS (if any) and governing plan documents. FFN will present recommendations and/or suggestions in connection with its review. The Plan is ultimately responsible for deciding whether or not to accept these recommendations and to consult with its legal counsel regarding its compliance with provisions of applicable law.

Fee and Cost Review (non-fiduciary service)

FFN will conduct an expense analysis of the various fees charged to and costs borne by the Plan, including any fees paid from participant accounts, and report the results of such analysis to the plan fiduciary. Such analysis shall compare the fees to one or more generally accepted benchmarks. The analysis will be based on information received from the Plan and/or third party service providers that are currently servicing the Plan.

Third Party Service Providers – Liaison (non-fiduciary service)

Assist the Plan fiduciary(ies) in the coordination of services offered by Plan service providers, including as applicable: trustees, custodians, named fiduciaries (as defined by ERISA), actuary(ies), legal and/or accounting advisors, and other third party service providers, in a manner agreed from time to time between Advisor and a Plan fiduciary.

IRA Rollover Considerations

If you have an employer-sponsored retirement plan, you may have several choices as to what to do with your assets when you retire or separate from employment.

As part of our consulting and advisory services, we may provide you recommendations and advice concerning your employer retirement plan or other qualified retirement account. Our recommendations may include you consider withdrawing the assets from your employer's retirement plan or other qualified retirement account and roll the assets over to an individual retirement account ("IRA"). Further, we offer our management services be applied to those funds and securities rolled into an IRA or other account for which we will receive compensation. If you elect to roll the assets to an IRA that is subject to our management, we will charge you an asset based fee as described above under Item 5. This practice presents a conflict of interest because persons providing investment advice on our behalf have an incentive to recommend a rollover to you for the purpose of generating fee based compensation rather than solely based on your needs. You are under no obligation, contractually or otherwise, to complete the rollover. Furthermore, if you do complete the rollover, you are under no obligation to have the assets in an IRA managed by us.

It is important for you to understand many employers permit former employees to keep their retirement assets in their company plan. Also, current employees can sometimes move assets out of their company plan before they retire or change jobs. In determining whether to complete the rollover to an IRA, and to the extent the following options are available, you should, among other factors, consider impacts relating to costs and fees, available investments, services provided, simplicity and convenience, required minimum distributions, and early distribution penalties.

An employee will typically have four options:

1. Leave the funds in your existing employer plan.
2. Move the funds to a new employer plan.
3. Take a lump-sum distribution.
4. Roll the funds over to an IRA account.

You should carefully weigh the advantages and disadvantages of each option, including any applicable fees and all features of each option before making your decision. You should also consult your tax and/or legal advisor to determine any applicable tax consequences. Your financial advisor can provide you with information you need to consult with your tax and/or legal advisor and make the appropriate decisions to meet your specific needs, but it is ultimately your decision as to which option is best for you. The following are general factors that you should consider when making your decision.

1. **If you keep your assets in certain types of employer-sponsored plans [e.g., 401(a) or 401(k)], consider:**
 - Tax Deferral. Your money can continue to grow tax deferred within the plan.

Focus Financial Network, Inc.

- Additional Withdrawal Allowances. There is no federal tax penalty for withdrawals if you are age 59 ½ or separated from employment during or after the calendar year in which you reach age 55.
- Low Cost Investment Options/Investment Strategy. You may have access to lower priced mutual funds or special products that are not available in an IRA, such as company stock, fixed annuity contracts or stable value options. Your current plan may offer model portfolio options at no additional cost.
- No Asset Management Services. It is likely you will not be charged a management fee and will not receive ongoing asset management services or advice unless you elect to have such services. In the event your plan offers asset management or model portfolio management, there may be a fee associated with the service that is more or less than our asset management fee.
- Protection from Creditors. Assets in a retirement savings plan such as a 401(k) or 403(b) are generally protected from creditors and legal judgments, while assets in IRAs receive more limited protections from creditors.
- Deferral of Required Minimum Distributions (RMD's). Your employer-sponsored retirement plan may offer this feature if you are currently working for the sponsoring employer and are over age 70 ½.
- Availability of Company Stock as an Investment Option. If you hold company stock in your former employer's plan, you should consider the impact of net unrealized appreciation.
- Outstanding Loan Balances. If you leave your employment, you may be able to continue repaying any outstanding loan. Alternatively, you may be required to repay the loan in full or have it become taxable. (Consult with the Plan's Administrator to determine the consequences of any outstanding plan loan.)
- Subject to Plan Limitations. Accounts of inactive or retired participants may have limitations, such as restrictions on plan loans. The employer might change plans or plan provisions in the future. You can no longer make contributions to the plan.
- Plan Advice and Service. Your Plan may allow you to hire us as the manager and keep the assets titled in the plan and/or your current plan may offer financial advice or guidance at no additional costs.

2 If you rollover assets into another employer-sponsored plan, consider:

- Tax Deferral / Additional Withdrawal Allowances / Low Cost Investment Options / Protection from Creditors / RMD Deferrals. Like keeping your assets in your existing employer-sponsored plan, if you move your assets into new employer's retirement plan, you may likely receive similar benefits such as these, as noted above.
- Consolidation of Retirement Accounts. It may be easier to track your assets and manage your retirement plan accounts with all your money in one place.
- Plan Limitation on Accepting Rollover Assets. You must check with the receiving employer-sponsored plan to confirm that it is willing to accept rollovers.
- Possible Limitations on Access to Funds Rolled into Plan. Check with the receiving employer-sponsored plan to confirm that the plan does not impose any restrictions on your ability to access or withdraw funds rolled into the plan.

Focus Financial Network, Inc.

3. If you take a lump-sum distribution, consider:

- Withdrawals May be Subject to Withholding, Taxes, Penalties and Other Charges. If you are under the age 59½, the withdrawal will be subject to mandatory tax withholding as well as applicable tax penalties for early withdrawal. Note, there are limited exceptions to the penalty tax (*e.g.*, payments made to you after you separate from service if you are age 55 or over in the year in which you separate). Note also that the penalty tax does not apply to distributions from a governmental 457(b) plan. You may also be subject to surrender charges or penalties assessed under the terms of the applicable investment

4. If you rollover assets into an IRA from an employer-sponsored plan, consider:

- Tax Deferral. Your money can continue to grow tax deferred. No taxes or penalties are applicable for direct rollovers of pre-tax contributions to traditional IRAs or direct rollovers of Roth contributions to Roth IRAs.
- More Investment Options. IRAs generally allow for a broader range of investment options, which may include mutual funds, exchange-traded funds, stocks and bonds.
- Asset Management and Additional Services. You should understand the asset management programs and various services we offer and you might take advantage of and the potential cost of those services.
- Consolidation of Retirement Accounts. Combining all retirement plan accounts into a single IRA may make it easier to track your assets and manage required minimum distributions required under federal tax laws.
- Inability to Take Plan Loans/Limited Access to Monies Prior to age 59 ½. You will not have the ability to take penalty-free withdrawals as a plan loan. In addition, your access to IRA assets prior to age 59 ½ will be limited to certain specific circumstances, such as first-time homebuyers and higher education expenses.
- Potential Conflicts of Interest. Your financial advisor may have a financial incentive to recommend an IRA rollover because of the compensation that he/she may receive for our management services.
- Loss of Plan Options. You may lose certain options offered by your former plan, which may include, but are not limited to, guaranteed interest rates, death benefits and protection from creditors (under certain plan types).
- Potential Charges for Rollovers. Surrender charges could be imposed by the former provider if the account included an annuity.

It is important that you understand the differences between these types of accounts and to decide whether a rollover is best for you. Prior to proceeding, if you have questions contact your financial advisor or call our main number as listed on the cover page of this brochure.

Item 5 - FEES AND COMPENSATION

Asset Management Services

Fees are negotiable and are not based on a share of capital gains upon or capital appreciation of the funds or any portion of the funds.

Focus Financial Network, Inc.

Advisory fees will be charged in advance of each calendar quarter based upon the value of your portfolio on the last business day of the just completed calendar quarter. The initial fee and fees for accounts opened for a partial quarter will be determined and calculated as follows:

- The initial advisory fee will be based on the value of your account upon establishment of the account (i.e. when all expected funds and assets have been received into the account). Advisory fees for accounts opened on a day other than the first day of the calendar quarter or closed on a day other than the last business day of the calendar quarter will be prorated based on the number of days remaining in the quarter.
- *Accounts Custodied at Pershing* – Some securities purchased in accounts custodied at Pershing may have distribution fees associated with the products. Such fees are often referred to as 12b-1 fees. 12b-1 fees will be credited back to client accounts (qualified and non-qualified) if they are utilizing the RASA platform but will not be credited back if utilizing the Wealth Management Platform.

You may make additions to the account or withdrawals from the account.

- *Accounts Custodied at Pershing* – Advisory fees for additional assets deposited into the account or partial withdrawals from the account will be prorated and you will be issued a credit or charged the prorated fee on deposits.
- *Accounts Custodied at Schwab, Fidelity, and TD Ameritrade Institutional* – No advisory fee adjustments will be made for additional assets deposited into the account (i.e. no pro-rated fees charged) or for partial withdrawals from the account (i.e. no pro-rated fee credit).
- No fee adjustments will be made for account appreciation or depreciation.

The advisory fees payable upon initial implementation of the account and for all subsequent periods will be collected directly from your managed account. You will be provided with an account statement reflecting the deduction of the advisory fee directly from the account custodian. If your account does not contain sufficient funds to pay advisory fees, FFN has limited authority to sell or redeem securities in sufficient amounts to pay advisory fees. You may reimburse the account for advisory fees paid to FFN, except for ERISA and IRA accounts.

Fees are negotiable and are not based on a share of capital gains upon or capital appreciation of the funds or any portion of the funds. Advisory fees are in accordance with the following fee schedule. Your fee will be determined and customized depending on several factors including but not limited to the complexity of the client, number of meetings, size of the portfolio, type of management requested (active or static), travel, reporting requirements, planning services, type of managed portfolio (mutual funds, bonds, general securities, etc.), and the Advisory Representative.

Important Note:

Accounts Custodied at Pershing, Schwab, Fidelity and TD Ameritrade Institutional

Advisory Representatives have the option of charging an advisory fee based on:

1. A flat fee where the total value of the account will pay a fee based on the corresponding threshold, or,
2. A blended fee where each threshold of the account will be assessed a fee.

Focus Financial Network, Inc.

The option to charge a blended or flat percentage fee is each Advisory Representative's determination.

Example based on an account value of \$1,675,400

Flat Fee	Blended Fee
Fee not to exceed 1.50% charged on the total account value	First \$250,000 x 2.00% Next \$250,000 x 1.90% Next \$500,000 x 1.75% Remaining \$675,400 x 1.50%
Annual fee = \$25,131	Annual fee = \$28,631

Account Size	Maximum Annual Fee
\$0 to \$249,999	1.00% - 2.00%
\$250,000 to \$499,999	0.875% - 1.90%
\$500,000 to \$999,999	0.750% - 1.75%
\$1,000,000 to \$1,999,999	0.500% - 1.50%
\$2,000,000 +	0.250% - 1.25%

In addition to the advisory fees above, you will pay transaction fees for securities transactions executed in your account in accordance with the custodian's transaction fee schedule. Additionally, you may pay fees for custodial services, account maintenance fees, transaction fees, and other fees associated with maintaining the managed account. Such fees are not charged by FFN and are charged by the product, broker/dealer or account custodian. FFN does not share in any portion of such fees. Additionally, you will pay your proportionate share of the fund's management and administrative fees and sales charges as well as the mutual fund adviser's fee of any mutual fund they purchase. Such advisory fees are not shared with FFN and are compensation to the fund-manager.

Should you custody your assets at Pershing, the transaction charges are paid to Pershing and are partially retained by Pershing for its clearance and execution services. Furthermore, a portion of the transaction fee will be paid to Royal Alliance for its services as a broker/dealer. These transaction charges represent the only payment to Royal Alliance and Pershing for their services. Transaction charges assessed by Schwab are not shared with Royal Alliance.

Termination Provisions

You may terminate investment advisory services obtained from FFN, without penalty, upon written notice within five (5) business days after entering into the advisory agreement with FFN. You will be responsible for any fees and charges incurred from third parties as a result of maintaining the account such as transaction fees for any securities transactions executed and account maintenance or custodial fees. Thereafter, you may terminate investment advisory services upon FFN's receipt of your written notice to terminate. Should you terminate investment advisory services during a quarter, you will be issued pro-rata refund upon your written request for a refund of the advisory fee for the quarter up to the date of termination.

Clients should read the third party manager's disclosure brochure for additional disclosure about its managed program.

Additionally, you are advised similar advisory services may be available from other Investment Advisers for lower fees than FFN's fee schedules.

Item 6 - PERFORMANCE-BASED FEES AND SIDE BY SIDE MANAGEMENT

This section is not applicable to FFN since FFN does not charge performance based fees to clients.

Item 7 - TYPES OF CLIENTS

FFN's services are geared toward:

- Individuals both high net worth (i.e. clients with a net worth of \$2,000,000) and other than high net worth
- Pension and profits sharing plans and other qualified plans
- Trusts, estates, or charitable organizations
- Corporations and other business entities

Item 8 - METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

Advisory Representatives utilize various strategies and methods for investment research including:

- Economic analysis
- Trend analysis
- Fundamental analysis. Fundamental analysis generally involves assessing a company's or security's value based on factors such as sales, assets, markets, management, products and services, earnings, and financial structure.
- Technical market analysis and technical trend following. Technical analysis generally involves studying trends and movements in a security's price, trading volume, and other market-related factors in an attempt to discern patterns.

Mutual funds may be selected on the basis of any or all of the following criteria: performance history; the industry sector in which the fund invests; the track record of the fund's manager; the fund's investment objectives, management style and philosophy; and the fund's management fee structure. Each client's individual needs and circumstances will determine the initial portfolio weighting.

FFN Advisory Representatives primarily use open-ended mutual funds purchased at net asset value (NAV), no-load and load waived mutual funds, exchange traded funds (ETFs), and variable products. However, managed accounts are not exclusively limited to the aforementioned investments and may

Focus Financial Network, Inc.

include stocks and bonds. The selection of securities varies based on your Advisory Representative and what is deemed appropriate for your managed portfolio.

The risks with mutual funds include the costs and expenses within the fund that can impact performance, change of managers, and fund straying from its objective. Open ended mutual funds do not typically have a liquidity issue and the price does not fluctuate throughout the trading day. The risks with ETFs, stocks, bond or other exchange traded security is the affect of market fluctuation and the need to have a market to buy or sell the securities. Variable products have the risk of trading restrictions, changes to the options to subaccounts, internal costs and expenses and the illiquidity of the product.

The risks with utilizing third party managed programs include:

- Market and economic risk.
- The risk the third party manager is not managing to the objective or managing based on the stated strategy.
- The risk the securities managed by the third party manager will decline or fluctuate impacting the overall performance of the portfolio.
- The risk that the performance of the portfolio will be diminished by the fees of the third party manager and expenses associated with the securities.

Investing in securities involves risk of loss that you should be prepared to bear.

Advisory Representatives' strategy will be to seek long-term portfolio growth while providing you access to personal advisory services. Your Advisory Representative will not attempt to manage short-term market fluctuations with active trading (market timing, etc.). However, your Advisory Representative may reallocate the portfolio as necessitated by large-scale macro-economic changes in the securities markets.

FFN does not represent, warrantee or imply that the services or methods of analysis used by your Advisory Representative can or will predict future results, successfully identify market tops or bottoms, or insulate you from losses due to major market corrections or crashes. Past performance is no indication of future performance. No guarantees can be offered that your goals or objectives will be achieved. Further, no promises or assumptions can be made that the advisory services offered by your Advisory Representative will provide a better return than other investment strategies.

Item 9 - DISCIPLINARY INFORMATION

There is no reportable disciplinary information that is material to your evaluation of FFN or the integrity of its management.

Item 10 - OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

Advisory Representatives are dually registered as an advisory representative of FFN and as registered representatives with Royal Alliance Associates, Inc. ("Royal Alliance") for purposes of transacting

Focus Financial Network, Inc.

securities business on a commission basis. FFN is not affiliated with Royal Alliance for any purpose. Royal Alliance's principal business is as a full service general securities broker-dealer registered with the Securities Exchange Commission, FINRA, and various other regulatory bodies. Additionally, Royal Alliance is a registered investment adviser and provides access to Third Party Investment Advisory Services. In that regard, FFN's Advisory Representatives may be registered with Royal Alliance's Investment Adviser for the provision of Third Party Advisory Services and products.

Clients are under no obligation to purchase or sell securities through Advisory Representatives. However, if they choose to implement the plan, commissions will be earned in addition to any fees paid for advisory services. Commissions may be higher or lower at Royal Alliance than at other broker/dealers. Advisory Representatives have a conflict of interest in having clients purchase securities and/or insurance related products through Royal Alliance in that the higher their production with Royal Alliance the greater potential for obtaining a higher pay-out on commissions earned.

Although Royal Alliance maintains supervisory responsibilities over FFN's Advisory Representatives, Royal Alliance does not control FFN with respect to the conduct of its Investment Advisory activities or management of FFN. Notwithstanding, because the Advisory Representatives are dually registered agents of Royal Alliance and FFN, Royal Alliance has certain supervisory and administrative duties pursuant of the requirements of FINRA Conduct Rule 3040.

In that regard, Royal Alliance will require and furnish certain account opening documentation to be completed by you and your Advisory Representative. Once all such materials and forms have been completed in consultation with your Advisory Representative, the Advisory Representative is required to submit these materials and forms to Royal Alliance for its review and approval, in its capacity as the Broker/Dealer of record. Such review does not include the provision of investment advisory services to Clients. In certain instances, Royal Alliance will collect, as paying agent for FFN, the investment advisory fee due FFN from the account custodian. Royal Alliance will retain a portion as an administrative charge to FFN (not you) for functions Royal Alliance is required to carry out by the FINRA. Royal Alliance does not provide investment advisory services in connection with such programs.

FFN is a licensed insurance agency. Additionally, Advisory Representatives are associated with various insurance companies as licensed insurance agents. Advisory Representatives may recommend insurance products offered by an insurance company represented by FFN. If you purchase these products through Advisory Representatives of FFN, normal commissions will be received. Commissions from insurance products are separate and distinct from advisory fees. Thus, a conflict of interest exists between Advisory Representatives and you. While the insurance business is not a significant business, because of the conflict of interest in having a client purchase insurance products through their Advisory Representative, this disclosure is provided to clients.

FFN attempts to mitigate the conflicts of interest with the potential receipt of commissions if recommendations are implemented by providing you with these disclosures. Further, you are encouraged to consult other professionals and may implement recommendations through other financial professionals. Furthermore, as a registered representative with Royal Alliance, Advisory Representatives are subject to a supervisory structure at Royal Alliance for their securities business.

Focus Financial Network, Inc.

As discussed above, FFN has entered into arrangements with various third party managers to offer you management options. Should you select one or more of the programs offered by third party managers, FFN and your Advisory Representative will receive a portion of the compensation you pay for participation in the programs. You are advised the programs are generally more expensive than other asset management options. However, for the cost, you receive the services of an investment professional. Thus, you have a team of professionals providing you services. FFN and your Advisory Representative's receipt of compensation as a result of your participation in the program creates a conflict of interest. There may be other third party manager programs that are as suitable or more suitable for a lower cost. However, FFN and your Advisory Representative may not receive a portion of such compensation.

Item 11 - CODE OF ETHICS, PARTICIPATION OF INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING
--

FFN, its Advisory Representatives and its associated persons may buy or sell securities identical to those securities recommended to you. Therefore, FFN, its Advisory Representatives and/or its associated persons may have an interest or position in certain securities that are also recommended and bought or sold to you. FFN, its Advisory Representatives and its associated persons will not put their interests before your interest. FFN, its Advisory Representatives and its associated persons may not trade ahead of you or trade in such a way to obtain a better price for them than for you.

FFN is required to maintain a list of all securities holdings for its Advisory Representatives and associated persons and develop procedures to supervise the trading activities of Advisory Representatives and associated persons who have knowledge of your transactions and their related family accounts at least quarterly. Further, Advisory Representatives and other associated persons of FFN are prohibited from trading on non-public information or sharing such information.

You have the right to decline any investment recommendation. FFN, its Advisory Representatives and its associated persons are required to conduct their securities and investment advisory business in accordance with all applicable Federal and State securities regulations.

CODE OF ETHICS

FFN has a fiduciary duty to you to act in your best interest and place your interests first and foremost. FFN takes seriously its compliance and regulatory obligations and requires all staff to comply with such rules and regulations as well as FFN's policies and procedures. Further, FFN strives to handle your non-public information in such a way to protect information from falling into hands that have no business reason to know such information and provides clients with FFN's Privacy Policy. As such, FFN maintains a code of ethics for its Advisory Representatives, supervised persons and staff. The Code of Ethics contains provisions for standards of business conduct in order to comply with federal securities laws, personal securities reporting requirements, pre-approval procedures for certain transactions, code violations reporting requirements, and safeguarding of material non-public information about your transactions. Further, FFN's Code of Ethics establishes FFN's expectation for business conduct. A copy of our Code of Ethics will be provided to you upon request.

Item 12 - BROKERAGE PRACTICES

As previously stated, Advisory Representatives of FFN are registered representatives of Royal Alliance. As a result they are subject to FINRA Conduct Rule 3040 which may restrict your Advisory Representative from conducting securities transactions away from Royal Alliance unless Royal Alliance provides the Advisory Representative with written authorization. Certain Advisory Representatives have obtained approval to offer clients the ability to maintain accounts through Royal Alliance at its clearing firm; Schwab Institutional division of Charles Schwab & Co., Inc. ("Schwab"), a registered broker/dealer, member SIPC; or TD Ameritrade Institutional. Additionally, Advisory Representatives provide management and advisory services to corporate qualified accounts maintained at National Financial Services, LLC and Fidelity Brokerage Services, LLC (together referred to as "Fidelity"). FFN is independently owned and operated and not affiliated with Schwab, Fidelity or Royal Alliance.

TD Ameritrade Institutional is a division of TD Ameritrade Inc., member FINRA/SIPC/NFA ("TD Ameritrade"), an unaffiliated SEC-registered broker-dealer and FINRA member. TD Ameritrade offers to independent investment advisors services which include custody of securities, trade execution, clearance and settlement of transactions. Advisor receives some benefits from TD Ameritrade through its participation in the Program. (Please see the disclosure under Item 14. below.)

You are advised that not all investment advisers require clients to maintain accounts at a specific broker/dealer. You are further advised you may maintain accounts at another broker/dealer. However, the services provided by FFN will be limited to only advice and will not include implementation. If you select another brokerage firm for custodial and/or brokerage services, you will not be able to receive asset management services from FFN.

In initially selecting Royal Alliance and Schwab, FFN conducted due diligence. FFN's evaluation and criteria included ability to service clients, staying power as a company, industry reputation, ability to report to clients, trading platform, products and services available, technology resources, and educational resources.

Periodically, FFN will review alternative broker/dealers and custodians in the marketplace to ensure Royal Alliance and Schwab and its custodians are meeting FFN's duty to provide best execution for client accounts. The review will include a comparison to Royal Alliance and Schwab which involve evaluating criteria such as overall expertise, cost competitiveness and financial condition. The quality of execution by Royal Alliance and Schwab will be reviewed through trade journal evaluations. However, best execution does not simply mean the lowest transaction cost. Therefore, no single criteria will validate nor invalidate a custodian, but rather, all criteria taken together will be used in evaluating the currently utilized custodian.

Additionally, product sponsors such as variable and investment companies and limited partnerships which are recommended to clients may provide support to Advisory Representatives. Such support includes research, educational information, and monetary support for due diligence trips and client events.

Focus Financial Network, Inc.

You are advised there is an incentive for FFN and its Advisory Representatives to recommend a broker/dealer over another based on the products and services that will be received rather than your best interest.

FFN may aggregate (“bunch”) transactions in the same security on behalf of more than one client in an effort to strive for best execution and to possibly reduce the price per share and/or other costs to clients. However, aggregated or bunched orders will not reduce the transaction costs to participating clients. FFN conducts aggregated transactions in a manner designed to ensure that no participating client is favored over another client. Participating clients will obtain the average price per share for the security executed that day. To the extent the aggregated order is not filled in its entirety and when possible, securities purchased or sold in an aggregated transaction will be allocated on a random basis. Under certain circumstances, the amount of securities maybe increased or decreased to avoid holding odd-lot or a small number of shares for particular clients.

Schwab

Schwab provides FFN with access to its institutional trading and custody services, which are typically not available to Schwab retail investors. These services generally are available to independent investment advisers on an unsolicited basis, at no charge so long as a total of at least \$10 million of FFN’s clients’ assets is maintained in accounts at Schwab Institutional. Further there is no other contingent upon FFN committing to Schwab any specific amount of business (assets in custody or trading). Schwab’s services include brokerage, custody, research and access to mutual funds an other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

For FFN’s clients’ accounts maintained in its custody, Schwab generally does not charge separately for custody but is compensated by account holders through commissions or other transaction-related fees for securities trades that are executed through Schwab or that settle into Schwab accounts.

Schwab makes available to FFN other products and services that benefit FFN but may not benefit its clients’ accounts. Some of these other products and services assist FFN in managing and administering clients’ accounts. These include software and other technology that provide access to client account data, such as trade confirmation and account statements; facilitate trade execution and allocation of aggregated trade orders for multiple client accounts; provide research, pricing information and other market data; facilitate payment of FFN’s fees from its clients’ accounts; and assist with back-office functions, recordkeeping and client reporting. Many of these services generally may be used to service all or a substantial number of FFN’s accounts, including accounts not maintained at Schwab Institutional. Schwab Institutional also makes available to FFN other services intended to help FFN manage and further develop its business enterprise. These services may include consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance and marketing. In addition, Schwab may make available, arrange and/or pay for these types of services rendered to FFN by independent third parties. Schwab Institutional may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third party providing these services to FFN. While as a fiduciary, FFN endeavors to act in its clients’ best interests, and FFN’s recommendation that clients maintain their assets in accounts at Schwab may be based in part on the benefit to FFN of the availability of some of

Focus Financial Network, Inc.

the foregoing products and services and not solely on the nature, cost or quality of custody and brokerage services provided by Schwab which may create a potential conflict of interest.

From time-to-time FFN may make an error in submitting a trade order on your behalf. When this occurs, Advisor may place a correcting trade with the broker-dealer which has custody of your account. If an investment gain results from the correcting trade, the gain will remain in your account unless the same error involved other client account(s) that should have received the gain, it is not permissible for you to retain the gain, or we confer with you and you decide to forego the gain (e.g., due to tax reasons). If the gain does not remain in your account and Charles Schwab & Co. Inc. ("Schwab") is the custodian, Schwab will donate the amount of any gain \$100 and over to charity. If a loss occurs greater than \$100, Advisor will pay for the loss. Schwab will maintain the loss or gain (if such gain is not retained in your account) if it is under \$100 to minimize and offset its administrative time and expense. Generally, if related trade errors result in both gains and losses in your account, they may be netted.

Fidelity

FFN has entered into a relationship with National Financial Services, LLC and Fidelity Brokerage Services, LLC (together referred to as "Fidelity") to participate in the Fidelity Institutional Wealth Services ("FIWS") platform. Fidelity provides custody, execution, and clearance and settlement services for stocks, bonds, Fidelity mutual funds, non-Fidelity mutual funds, and other securities held at Fidelity for clients who select Fidelity as custodian of their accounts. You are under no obligation to utilize the services of Fidelity.

Royal Alliance

Royal Alliance has a wide range of approved securities products for which Royal Alliance performs due diligence prior to selection. FFN's advisory representatives are required to adhere to these products when implementing securities transactions through Royal Alliance. Commissions charged for these products may be higher or lower than commissions clients may be able to obtain if transactions were implemented through another broker/dealer. Royal Alliance also provides Advisory Representatives and FFN with back-office operational, technology, and other administrative support. Other services may include consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance and marketing. Such services are intended to help Advisory Representatives and FFN to manage and further develop their business enterprise.

Royal Alliance and its clearing broker/dealer, Pershing, LLC also make available to FFN other products and services that benefit FFN but may not directly benefit its clients' accounts. Some of these other products and services assist FFN with managing and administering client accounts. These include software and other technology that provide access to client account data (such as trade confirmation and account statements); facilitate trade execution; provide research, pricing information and other market data; facilitate payment of FFN's fees from its clients' accounts; and assist with back-office functions; recordkeeping and client reporting. Many of these services generally may be used to service all or a substantial number of FFN's accounts, including accounts not held through Royal Alliance.

Focus Financial Network, Inc.

Advisory Representatives as Registered Representatives may receive trail commissions (i.e. 12b-1 fees) for a period of time as a result of directing securities transactions through Royal Alliance. Load and no-load mutual funds may pay annual distribution charges, sometimes referred to as 12b-1 fees. 12b-1 fees come from fund assets, therefore, indirectly from client assets. 12b-1 fees may be initially paid to Royal Alliance and a portion passed to the Advisory Representative of record. The receipt of such fees could represent an incentive for your Advisory Representative to recommend funds with 12b-1 fees over funds that have no fees or lower fees. As a result, there is a potential conflict of interest.

Item 13 - REVIEW OF ACCOUNTS

Asset Management Services

Reviews of not less than at least annually or as agreed by client and your Advisory Representative will be provided for participation in asset management programs and services. You may request more frequent reviews and may set thresholds for triggering events that would cause a review to take place. Your Advisory Representative will monitor for changes or shifts in the economy, changes to the management and structure of a mutual fund or company in which your assets are invested, and market shifts and corrections.

You are advised that you must notify your Advisory Representative promptly of any changes to your financial goals, objectives or financial situation as such changes may require your Advisory Representative to review the portfolio allocation and make recommendations for changes.

You will be provided statements or reports at least quarterly direct from the account custodian. Additionally, clients you will receive confirmations of all transactions occurring within your account direct from the account custodian.

No other reports are provided by FFN. You may negotiate reporting with your Advisory Representative. Clients should compare the report with statements received direct from the account custodian. Should there be any discrepancy the account custodian's report will prevail.

Financial Planning Services

You will not receive regular reviews or reports unless you specifically request reviews. FFN recommends you have at least an annual review and update to any plan, analysis or recommendation. The time and frequency of the reviews are solely up to you. Additionally, you will be charged review fees based on the fee schedule disclosed under the program. Other than the initial plan or analysis, there will be no other reports issued.

Item 14 - CLIENT REFERRALS AND OTHER COMPENSATION

TD Ameritrade

As disclosed under Item 12. above, Advisor participates in TD Ameritrade's institutional customer program and Advisor may recommend TD Ameritrade to Clients for custody and brokerage services. There is no direct link between Advisor's participation in the program and the investment advice it gives to its Clients, although Advisor receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the

Focus Financial Network, Inc.

following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving Advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to Advisor by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by Advisor's related persons. Some of the products and services made available by TD Ameritrade through the program may benefit Advisor but may not benefit its Client accounts. These products or services may assist Advisor in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help Advisor manage and further develop its business enterprise. The benefits received by Advisor or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, Advisor endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by Advisor or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the Advisor's choice of TD Ameritrade for custody and brokerage services.

Certain Advisory Representatives of FFN receive incentives from Royal Alliance Associates, Inc. in the form of transition or retention loans. Included in the note is the potential for loan forgiveness provided the individual achieves production thresholds set by Royal Alliance Associates, Inc. and/or remains registered with Royal Alliance Associates, Inc. for a stated period of time. There is a conflict of interest for the individual to generate business through Royal Alliance Associates, Inc. in order to sell a product or the fee charged to you in order to achieve the established production thresholds and qualify for loan forgiveness. To mitigate this conflict of interest this disclosure has been provided to you. If you have any concerns about the appropriateness of the recommendations provided to you, please contact the Focus Financial's Chief Compliance Officer.

Product vendors recommended by FFN or your Advisory Representative may provide monetary and non-monetary assistance with client events, provide educational tools and resources. FFN and your Advisory Representative do not select products as a result of any monetary or non-monetary assistance. The selection of product is first and foremost. FFN's and your Advisory Representative's due diligence of a product does not take into consideration any assistance it may receive. Therefore, this is not considered a conflict of interest but a benefit for you, your Advisory Representative and FFN.

FFN may enter into arrangements with individuals ("Solicitors") whereby the Solicitor will refer clients who may be candidates for investment advisory services to FFN. In return, FFN will agree to compensate the Solicitor for the referral. Compensation to the Solicitor is dependent on the client entering into an advisory agreement with FFN for advisory services. Compensation to solicitor will be an agreed upon percentage of FFN's advisory fee. FFN's referral program is in compliance with the federal regulations as set out in 17 CFR Section 275.206(4)-3. The solicitation/referral fee is paid pursuant to a written agreement retained by both the investment adviser and the solicitor. The Solicitor will be required to provide the client with a copy of FFN's Form ADV Part 2A and a

Focus Financial Network, Inc.

Solicitor Disclosure brochure prior to or at the time of entering into any investment advisory contract with FFN. Solicitor is not permitted to offer clients any investment advice on behalf of FFN. Clients' advisory fee will not be increased as a result of compensation being shared with Solicitor.

Item 15 - CUSTODY

With the exception of deduction of FFN's advisory fees from your accounts for asset management services, FFN does not take custody of clients' funds or securities. As previously stated, you will receive account statements not less than quarterly reflecting the fee deducted from your account.
