PINNACLE WEALTH MANAGEMENT, LLC provides personalized confidential financial planning and investment management to primarily family members. Advice is provided through consultation with the family (client) and may include: determination of financial objectives, identification of financial problems, cash flow management, tax planning, insurance review, investment management, education funding, retirement planning, and estate planning.

PINNACLE WEALTH MANAGEMENT, LLC is strictly a fee-only financial planning and investment management firm. The firm does not sell annuities, insurance, stocks, bonds, mutual funds, limited partnerships, or other commissioned products. The firm is not affiliated with entities that sell financial products or securities. No commissions in any form are accepted. No finder's fees are accepted.

Investment advice is an integral part of financial planning. In addition, PINNACLE WEALTH MANAGEMENT, LLC advises clients regarding cash flow, college planning, retirement planning, tax planning and estate planning.

Investment advice is provided, with the client making the final decision on investment selection. PINNACLE WEALTH MANAGEMENT, LLC does not act as a custodian of client assets. The client always maintains asset control. PINNACLE WEALTH MANAGEMENT, LLC places trades for clients under a limited power of attorney.

A written evaluation of each client's initial situation is provided to the client, often in the form of a net worth statement and a investment policy statement. Annual reviews are also communicated to provide reminders of the specific courses of action that need to be taken. More frequent reviews occur but are not necessarily communicated to the client unless immediate changes are recommended.

Other professionals (e.g., lawyers, accountants, insurance agents, etc.) are engaged directly by the client on an as-needed basis. Conflicts of interest will be disclosed to the client in the unlikely event they should occur.

Tailored Relationships

The goals and objectives for each client are documented. Investment policy statements are created that reflect the stated goals and objectives. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without client consent.

Types of Agreements

The following agreements define the typical client relationships.

Financial Planning Agreement

A financial plan is designed to help the client with all aspects of financial planning without ongoing investment management after the financial plan is completed.

The financial plan may include, but is not limited to: a net worth statement; a cash flow statement; a review of investment accounts, including reviewing asset allocation and providing repositioning recommendations; strategic tax planning; a review of retirement accounts and plans including recommendations; one or more retirement scenarios; estate planning review and recommendations; and education planning with funding recommendations.

Detailed investment advice and specific recommendations are provided as part of a financial plan. Implementation of the recommendations is at the discretion of the client.

The fee for a financial plan is predicated upon the facts known at the start of the engagement. The minimum fee is \$ 2,000 and is *Negotiable*. Since

financial planning is a discovery process, situations occur wherein the client is unaware of certain financial exposures or predicaments.

In the event that the client's situation is substantially different than disclosed at the initial meeting, a revised fee will be provided for mutual agreement. The client must approve the change of scope in advance of the additional work being performed when a fee increase is necessary.

After delivery of a financial plan, future face-to-face meetings may be scheduled as necessary for up to one month. Follow-on implementation work is billed separately at the rate of \$ 200 per hour.

Advisory Service Agreement

Most clients choose to have PINNACLE WEALTH MANAGEMENT, LLC manage their assets in order to obtain ongoing in-depth advice and life planning. All aspects of the client's financial affairs are reviewed, including those of their children. Realistic and measurable goals are set and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented on an ongoing basis.

The scope of work and fee for an Advisory Service Agreement is provided to the client in writing prior to the start of the relationship. An Advisory Service Agreement includes: cash flow management; investment management (including performance reporting); education planning; retirement planning; and estate planning as well as the implementation of recommendations within each area.

The annual Advisory Service Agreement fee is based on a percentage of the investable assets according to the following schedule:

1.00% on the first \$1,000,000

0.50% on assets above \$1,000,000

Current client relationships may exist where the fees are higher or lower than the fee schedule above.

Although the Advisory Service Agreement is an ongoing agreement and constant adjustments are required, the length of service to the client is at the client's discretion. The client or the investment manager may terminate an Agreement by written notice to the other party. At termination, fees will be billed on a pro rata basis for the portion of the month completed. The portfolio value at the completion of the prior full billing month is used as the basis for the fee computation, adjusted for the number of days during the billing month prior to termination.

Hourly Planning Engagements

PINNACLE WEALTH MANAGEMENT, LLC provides hourly planning services for clients who need advice on a limited scope of work. The hourly rate for limited scope engagements is \$ 200.

Asset Management

Assets are invested primarily in no-load or low-load mutual funds and exchange-traded funds, usually through discount brokers or fund companies. Fund companies charge each fund shareholder an investment management fee that is disclosed in the fund prospectus. Discount brokerages may charge a transaction fee for the purchase of some funds.

Stocks and bonds may be purchased or sold through a brokerage account when appropriate. The brokerage firm charges a fee for stock and bond trades. PINNACLE WEALTH MANAGEMENT, LLC does not receive any compensation, in any form, from fund companies.

Investments may also include: equities (stocks), warrants, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities (variable life insurance, variable annuities, and mutual funds shares), U. S. government securities, options contracts, futures contracts, and interests in partnerships.

Initial public offerings (IPOs) are not available through PINNACLE WEALTH MANAGEMENT, LLC.

Termination of Agreement

A Client may terminate any of the aforementioned agreements at any time by notifying PINNACLE WEALTH MANAGEMENT, LLC in writing and paying the rate for the time spent on the investment advisory engagement prior to notification of termination

PINNACLE WEALTH MANAGEMENT, LLC may terminate any of the aforementioned agreements at any time by notifying the client in writing.

Fees and Compensation

Description

PINNACLE WEALTH MANAGEMENT, LLC bases its fees on a percentage of assets under management, and hourly charges.

Financial plans are priced according to the degree of complexity associated with the client's situation.

Fees are *Negotiable*

Fee Billing

Investment management fees are billed monthly, in arrears, meaning that we invoice you *after* the billing period has *ended*. Payment in full is expected upon invoice presentation. Fees are usually deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their investment account.

Fees for financial plans are billed upon delivery of the financial plan.

Other Fees

Custodians may charge transaction fees on purchases or sales of certain mutual funds and exchange-traded funds. These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

PINNACLE WEALTH MANAGEMENT, LLC, in consultation with clients, may charge a lesser and/or greater investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with clients, complexity, etc.).

Expense Ratios

Mutual funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% for their services. These fees are in addition to the fees paid by you to PINNACLE WEALTH MANAGEMENT, LLC.

Past Due Accounts and Termination of Agreement

PINNACLE WEALTH MANAGEMENT, LLC reserves the right to stop work on any account that is more than 30 days overdue. In addition, PINNACLE WEALTH MANAGEMENT, LLC reserves the right to terminate any financial planning engagement where a client has willfully concealed or has refused to provide pertinent information about financial situations when necessary and appropriate, in PINNACLE WEALTH MANAGEMENT, LLC's judgment, to providing proper financial advice.

Performance-Based Fees

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

PINNACLE WEALTH MANAGEMENT, LLC does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

Types of Clients

Description

PINNACLE WEALTH MANAGEMENT, LLC generally provides investment advice to family members.

Client relationships vary in scope and length of service.

Account Minimums

There is no minimum account size required to open or maintain an account at PINNACLE WEALTH MANAGEMENT, LLC.

Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Modern Portfolio Theory, as recognized by the 1990 Nobel Prize, is the philosophical foundation for how portfolios are constructed. The underlying concepts of Modern Portfolio Theory include:

- 1) Investors are risk adverse
- 2) Markets are very efficient and it is very difficult to consistently anticipate the future direction of the market or of any individual security. It is, therefore, unlikely that any portfolio will succeed in consistently “beating the market” over time.
- 3) The design of the portfolio as a whole is more important than the selection of any particular security within the portfolio. The appropriate allocation of capital among asset classes (stocks, bonds, cash, etc.) will have far more influence on long term portfolio results than the selection of individual securities.
- 4) Global Diversification helps reduce investment volatility. The proportional mix of asset classes determines the long-term risk and return characteristics of the portfolio as a whole.

Other important considerations

- 1) Equities offer the potential for higher long-term investment returns than cash or fixed income investments. Equities are also more volatile in their performance. Investors seeking higher rates of return must increase the proportion of equities in their portfolio, while at the same time accepting greater variation of results (including occasional declines in value).

Investment Strategies

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these

objectives at any time. Each client executes an Investment Policy Statement that documents their objectives and their desired investment strategy and asset allocation.

Risk of Loss

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of

financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.
