Item 4 - Advisory Business

Firm Description

This Disclosure document is being offered to you in connection with the investment advisory services provided by iCapital, LLC ("iCapital") to provide you with information about the services we provide and the manner in which those services are made available to you, the client.

iCapital, LLC ("iCapital") was founded in 1999 and became federally registered with the Securities and Exchange Commission in August of 2002. iCapital's corporate home office is located in Boston, MA with a satellite office in Portsmouth, NH. iCapital is a CEFEX Registered Firm (2010, CEFEX File No.: CFX10121 <http://www.cefex.org/registrationDetails>) for participant directed retirement plans - ERISA 3(38) and 3(21) Elite Choice™ Services and Elite Wealth Management discretionary and non-discretionary asset management services.

iCapital provides personalized confidential investment management to qualified retirement plans, pension and profit sharing plans, individuals, trusts, charitable organizations, corporations and small businesses.

Principal Owners

iCapital is a privately owned firm. Katie A. Umile is an 80% stockholder and all other stockholders own less than 20%.

***Elite Choice™* Qualified Retirement Plan Investment Advisory Services**

Our Qualified Retirement Plan Investment Advisory Services assist employer plan sponsors in establishing, monitoring and reviewing their company's participant-directed retirement plan. Pursuant to Section 402(c)(3) of ERISA, the client appoints us as the Plan's "investment manager" with respect to the Plan's portfolio of investment options. We acknowledge that we are registered as an investment adviser under the Investment Advisers Act of 1940 ("Advisers Act") and act as a "fiduciary" within the meaning of Section 3(21) of ERISA with respect to the Plan.

As a result of this appointment, we are granted full trading authority over the Plan and have the sole responsibility for the selection and monitoring of all investment options offered under the Plan in accordance with the investment policy statement and its underlying investment objectives and strategies for the Plan. Plan participants have the ability to exercise control over the assets in their account, and we have no authority or discretion to direct the investment of assets of any participant's account under the Plan.

Included in our service is the evaluation and preparation of the Plan's Investment Policy Statement. Each quarter we monitor the performance of the funds set forth in the Plan's Investment Policy Statement and provide the client a quarterly Fiduciary

Monitoring Report. This report analyzes each fund held by the Plan. The report shows historical performance, asset allocation, and the performance of each fund, including its performance in comparison to its appropriate benchmark. The report also contains information regarding each Fund's managers, capitalization, investment style, expenses, portfolio composition and other qualitative factors relevant to the Fund's performance and adherence to the Plan's Investment Policy Statement. If, as a result of review and analysis, we believe an investment option should be removed from the Plan, the investment option will be removed, and may be replaced by our firm in accordance with the procedures set forth in the Plan's Investment Policy Statement.

In addition, our firm creates five risk-based portfolios from the Plan's investment options that are made available for participant investment. Additionally we monitor the performance of the Risk-Based Portfolios (ranging from Conservative to Aggressive) and if needed, make changes to the funds if the core fund line-up changes.

Our firm provides financial education and advice to participants of the Plans. We conduct educational workshops on varying retirement topics and provide open enrollment support through one-on-one enrollment meetings for new hires and newly-hired eligible participants. Our process is to deliver solutions through on-line account access and financial planning calculators as well as provide participants independent and objective professional financial advice.

All retirement planning services are in compliance with any applicable State law(s) regulating the services we provide. This section applies to an account that is a pension or other employee benefit plan (a "Plan") governed by the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). If your account is part of a pension or other employee benefit plan (a "Plan") governed by the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and we accept appointment to provide our services to Plan accounts, we acknowledge that we are a fiduciary within the meaning of Section 3(21) and Section 3(38) of ERISA. You represent that (i) Our appointment and services are consistent with the Plan documents, (ii) You have furnished us true and complete copies of all documents establishing and governing the Plan and evidencing your authority to retain our firm. You further represent that you will promptly furnish us with any amendments to the Plan, and you agree that, if any amendment affects our rights or obligations, such amendment will be binding on us only with our prior written consent. If your account contains only a part of the assets of the Plan, we will have no responsibilities for the diversification of all the Plan's investments, and we have no duty, responsibility or liability for the assets that are not in the account.

Elite Choice™ Qualified Retirement Plan Consulting Services

In addition to services detailed above, iCapital may provide its clients with a broad range of comprehensive Consulting Services. These services generally include consulting in one or more of the following areas: Retirement Plan Fiduciary Services, Fiduciary Assessments, Plan Design and Vendor Search Management, Retirement Plan Fiduciary Compliance; and Retirement Plan Benchmarking Services.

Depending upon the combination of consulting services provided in the above areas, iCapital will typically provide its clients with one or more of the following reports:

- Investment Policy Statement;
- Fiduciary Monitoring Report;
- Investment Performance Report; and
- Findings Report pursuant to a Fiduciary Assessment.

In performing its consulting services, iCapital will not be required to verify any information received from the client or from the client's other professionals (e.g., attorney, accountant, etc.) and is expressly authorized to rely on such information as received. iCapital may recommend its own services or those of other professionals for implementation purposes. Clients are advised that a conflict of interest exists if iCapital recommends its own services for implementation. The client is under no obligation to act upon any of the recommendations made by iCapital or to engage the services of any such recommended professional, including iCapital itself. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation from iCapital. Moreover, each client is advised that it remains his/her/its responsibility to promptly notify iCapital if there is ever any change in his/her/its financial situation or investment objectives for the purpose of reviewing, evaluating, or revising iCapital's previous recommendations and/or services.

Elite Investment Management Services

For clients that are not a qualified retirement plan under ERISA, advice is provided through consultation with the client and may include:

- Determination of financial objectives;
- Risk assessment;
- Structure of portfolio asset allocation;
- Investment management;

- Investment and goal based financial planning strategies

Portfolio composition will be determined based on your needs, financial goals, risk tolerances and portfolio restrictions, if any. We will work with you to obtain necessary information regarding your financial condition, investment objectives, liquidity requirements, risk tolerance, time horizons, and any restrictions on investing. This enables us to determine the portfolio best suited for your investment objective and needs. Once your investment portfolio has been designed and investments have been allocated, we will provide ongoing quarterly portfolio review and management services.

We will rebalance the portfolio, as it deems appropriate, to meet your financial objectives. We will trade these portfolios and rebalance them on a discretionary basis.

Our advisory services are tailored to meet your individual needs. You will have the ability to leave standing instructions with us to refrain from investing in particular industries or invest in limited amounts of securities.

In all cases, you have a direct and beneficial interest in your securities, rather than an undivided interest in a pool of securities. We do not and will not have custody of your funds or securities.

You are advised and are expected to understand that our past performance is not a guarantee of future results and that certain market and economic risks exist that may adversely affect an account's performance that could result in capital losses in your account. Risks are discussed in Item 8.

Other professionals (e.g., lawyers, accountants, insurance agents, etc.) are engaged directly by the client on an as-needed basis. Conflicts of interest will be disclosed to the client in the unlikely event they should occur.

The initial meeting, which may be by telephone, is free of charge and is considered an exploratory interview to determine the extent to which iCapital's services may be beneficial to the client.

Tailored Relationships

The goals and objectives for each client are documented in a Client Profile that is maintained in our central filing system and the firm's automated portfolio management software. Investment policy statements may be created that reflect the stated goals and objectives. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without client consent.

Consulting Services

We provide financial and investment consulting services. The terms and conditions of the engagement and describing the nature and scope of the services to be provided and the portion of the fee that is due from the client prior to iCapital commencing its services is set forth in the agreement.

On an occasional basis, iCapital furnishes advice to clients on matters not involving securities, such as financial planning matters and taxation issues, there is no separate fee or agreement for these services.

Asset Management

Assets are invested primarily in no-load mutual funds or load funds whose sales charges have been waived, exchanged traded funds, and individual stocks and bonds. These investments are purchased or sold through broker-dealers. Mutual fund companies charge each fund shareholder an investment management fee that is disclosed in the fund prospectus. Broker-dealers may charge a transaction fee for the purchase of some funds and will charge a fee for the purchase and sale of individual stocks and bonds. iCapital, does not receive any compensation, in any form, from fund companies or broker-dealers.

Investments may also include: commercial paper, certificates of deposit, municipal securities, and U. S. government securities.

Initial public offerings (IPOs) are not available through iCapital.

Wrap Accounts

We do not participate in wrap accounts.

Assets

As of December 31, 2015, iCapital manages approximately \$398,521,324 in assets for approximately 427 clients. Approximately \$390,845,340 is managed on a discretionary basis, and \$7,675,984 is managed on a non-discretionary basis.

Item 5 - Fees and Compensation

Elite Choice™ Qualified Retirement Plan Investment Advisory Services

The fee for qualified retirement plan investment advisory services is either based on the percentage of assets or a flat annual fee. Annual fees typically range from 0.20% to 1.00% or a negotiated flat dollar amount based on the scope of services. Fees are billed directly to the client or can be automatically deducted from the plan assets.

You are provided with a quarterly statement reflecting deduction of the advisory fee by the custodian detailing the amount of the advisory fee. This fee is payable quarterly in advance. The Compensation will be prorated for the first and last quarter for which this Agreement is in effect. Please refer what is listed on your specific Agreement.

Our fee includes compensation for the advisory and consulting services only and are negotiable. We do not charge for transaction fees. However, the custodian may charge custodial fees, transaction fees, redemption fees or commissions. These fees are independent of our fees and should be disclosed by the custodian.

Elite Choice™ Qualified Retirement Plan Consulting Services

iCapital will typically charge a fixed fee for these consulting services. iCapital's consulting fees are negotiable and generally range from \$3,750 to \$47,500 per service depending upon the combination, complexity level, and scope of the consulting services provided. Fees in the areas of Retirement Plan Fiduciary Services, and Retirement Plan Participant Services are typically annual retainer fees and fees in the Retirement Plan Compliance Review, Benchmarking Services, Plan Design, Vendor Search Management and Assessments area are typically single engagements with one-time fees.

iCapital generally bills for its consulting services quarterly in advance except for consulting services in the area of Retirement Plan Compliance Review, Benchmarking Services, Plan Design and Vendor Searches for which iCapital requires payment of one-half of the consulting fee upon entering into the written agreement with the remainder paid by invoice after delivery of completion of the engagement. iCapital's written agreement for its retainer-based consulting services may be terminated by the client by providing 60 days written notice prior the agreement's annual anniversary date.

Elite Investment Management Services

Our fees are based on an annual percentage of assets under management. This annual fee shall be pro-rated and paid quarterly, in advance, meaning we charge you at the beginning of each three-month billing period, based upon the fair market value of the Assets on the last day of the previous quarter. All Accounts are subject to a minimum annual investment management fee of \$500 and may be subject to an annual maintenance fee of \$100 to offset administrative expenses. The initial fee is based upon the date the account is accepted for management by execution of the investment advisory contract or when the assets are transferred through the last day of the current calendar quarter. Thereafter, the fee is based on the market value of your account on the last day of the previous calendar quarter and will cover the period from the first day of the calendar quarter through the last day of the calendar quarter. The market value will be determined as reported by the Custodian. Fees

are assessed on all assets under management, including securities, cash and money market balances.

Fees may vary based on the size of the account, complexity of the portfolio, extent of activity in your account or other reasons we agree upon. Fees will generally follow the schedule of assets under management outlined below.

Assets Under Management	Annual Advisory Fee
0-\$300,000	1.25%
\$300,001-\$600,000	1.15%
\$600,001-\$1,000,000	1.00%
\$1,000,001-\$3,000,000	0.95%
\$3,000,001 and above	0.85%

These fees are *non-negotiable*, although iCapital reserves the right to charge fees that are less than those set out above and or to waive account minimums. The specific fee is disclosed in the Investment Management Agreement.

You authorize us to debit your account quarterly for our fee. The independent qualified custodian holding your funds and securities will debit your account directly for our advisory fees. You will provide written authorization permitting the fees to be paid directly from your account held by the qualified custodian. We will not have access to your funds for payment of fees without your consent in writing. Further, the qualified custodian agrees to deliver an account statement at least quarterly directly to you, indicating all the amounts disbursed from your account including the amount of advisory fees. You are encouraged to review your account statements for accuracy. We will have access to a duplicate copy of the statement that is delivered to you.

In our discretion, we may allow accounts of members of the same household to be aggregated for purposes of determining the advisory fee. We may allow such aggregation, for example, where we service accounts on behalf of your minor children, individual and joint accounts for a spouse, and other types of related accounts. This consolidation practice is designed to allow you the benefit of an increased asset total, which could potentially cause your account to be, assessed a reduced advisory fee based on the breakpoints available in our fee schedule.

Other Fees

Custodians may charge transaction fees on purchases or sales of certain mutual funds and exchange-traded funds and individual stocks and bonds. These

transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security. iCapital does not receive any portion of these fees.

Expense Ratios

Mutual funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% for their services. These fees are in *addition* to the fees paid by you to iCapital. iCapital does not receive any portion of these fees.

Performance figures quoted by mutual fund companies in various publications are after their fees have been deducted.

Termination of Agreement

You shall have five (5) business days from the date of execution of the Agreement to terminate our services without penalty. The Agreement will continue in effect from the date set forth above and may be terminated with 30 days prior written notice to terminate by either party to the other, which written notice must be manually signed by the terminating party. Termination of the Agreement will not affect (a) the validity of any action previously taken by us under the Agreement; (b) liabilities or obligations of the parties from transactions initiated before termination of this Agreement; or (c) your obligation to pay us fees that have already been earned under the Agreement. Upon the termination of the Agreement, we will not have any continuing obligation to take any action or provide any services hereunder. If you terminate our services, the balance (if any) of our unearned fees shall be refunded to you.

Item 6 - Performance-Based Fees

Sharing of Capital Gains

Our fees are not based on a share of the capital gains or capital appreciation of managed securities.

iCapital does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for us to recommend an investment that may carry a higher degree of risk to the client.

Item 7 - Types of Clients

Description

iCapital generally provides investment advice and management to qualified retirement plans, pension and profit sharing plans, individuals, trusts, charitable organizations and small businesses. Client relationships vary in scope and length of service.

Account Minimums

The minimum account size for investment management is \$25,000 and comes with a minimum annual fee of \$500. In fact, any account of less than \$40,000 will be charged an annual fee of \$500. iCapital has the discretion to waive the account minimum. Clients with assets below \$40,000 will pay a higher percentage rate on their annual fees than the fees paid by clients with greater assets under management.

Item 8 - Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include charting, fundamental analysis, technical analysis, and cyclical analysis.

The main sources of information include financial newspapers and magazines, inspections of corporate activities, research materials prepared by others, corporate rating services, timing services, annual reports, prospectuses, filings with the Securities and Exchange Commission, and company press releases.

Other sources of information that iCapital may use include Morningstar Principia mutual fund information, fi360 Toolkit, Thomson Wealth Advisor, Morningstar Principia stock information and the World Wide Web.

Investment Strategies

iCapital subscribes to strategic asset allocation utilizing Modern Portfolio Theory. We are committed to the notion that out of a universe of risky assets, an efficient frontier of optimal portfolios can be constructed and that each portfolio on the efficient frontier offers the maximum possible expected return for a given level of portfolio risk.

We utilize generally available historical data to combine asset classes in the appropriate percentages to create diversified portfolios with varying degrees of risk and expected return. Having determined the asset classes and their appropriate percentages for such portfolios, the next step is mutual fund selection.

We utilize quantitative analysis to initially screen for quality mutual funds in the asset classes we are utilizing to build portfolios. We then review these funds qualitatively. We believe this qualitative aspect of the fund selection adds the most value, as it allows us to look behind the numbers and gain insight into the people and procedures associated with a particular mutual fund.

The same quantitative and qualitative analysis is utilized to select individual stocks and bonds for client portfolios.

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these objectives at any time. Clients may execute an Investment Policy Statement that documents their objectives and their desired investment strategy.

Risk of Loss

All investment programs have certain risks that are borne by the investor. Investments in securities are not guaranteed and investors may lose money on his/her/its investments. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric

company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.

- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

Item 9 - Disciplinary Information

Legal and Disciplinary

The firm and its employees have not been involved in any legal events or disciplinary actions related to past or present investment clients of iCapital.

Item 10 - Other Financial Industry Activities and Affiliations

Financial Industry Activities and Affiliations

iCapital engages in no other financial industry activities and has no other arrangements material to its advisory clients.

- **Insurance Agent – Molly Goodwin, Independent Investment Adviser Representative**

Molly Goodwin is a licensed insurance broker in the Commonwealth of Massachusetts for Life, Accident and Health. Ms. Goodwin maintains an insurance practice, separate and distinct from iCapital's consulting and investment advisory activities. iCapital may, from time to time, recommend certain of its clients to Ms. Goodwin for insurance services. Ms. Goodwin will render these services independently of iCapital. iCapital will not receive any portion of fees charged (referral or otherwise) by Ms. Goodwin for the services rendered.

iCapital has no material conflict of interest with clients based on these activities.

Item 11 - Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Code of Ethics

The employees of iCapital have committed to a Code of Ethics that is available for review by clients and prospective clients upon request. The firm will provide a copy of the Code of Ethics to any client or prospective client upon request.

Participation or Interest in Client Transactions

iCapital and its employees may buy or sell securities that are also held by clients. Employees may not trade their own securities ahead of client trades. Employees are required to comply with the provisions of the iCapital Policies and Procedures Manual. Neither iCapital nor its employees participate in any way in client transactions.

Personal Trading

The Chief Compliance Officer of iCapital is Katie A. Umile. She reviews all employee and associate trades each quarter. Her trades are reviewed by Tanya McMahon, Director, Marketing Operations. These personal trading reviews ensure that the personal trading of employees does not affect the markets, and that clients of the firm receive preferential treatment. Since most employee trades are small mutual fund, exchange-traded fund or individual stock trades, the trades do not affect the securities markets.

You may request a complete copy of our Code by contacting us at the address, telephone or email on the cover page of this Part 2; Attn.: Chief Compliance Officer.

Item 12 - Brokerage Practices

Selecting Brokerage Firms

iCapital recommends broker-dealers and custodians based on the proven integrity and financial responsibility of the firm and the best execution of orders at reasonable commission rates. Clients retain the right to choose a custodian or may use the services of National Financial Services LLC and Fidelity Brokerage Services LLC (collectively, and together with all affiliates, "Fidelity")

iCapital has an arrangement with Fidelity through which Fidelity provides iCapital with "institutional platform services." The institutional platform services include, among others, brokerage, custody, and other related services. Fidelity's institutional platform services that assist iCapital in managing and administering clients' accounts include software and other technology that (i) provide access to client account data (such as trade confirmations and account statements); (ii) facilitate

trade execution and allocate aggregated trade orders for multiple client accounts; (iii) provide research, pricing and other market data; (iv) facilitate payment of fees from its clients' accounts; and (v) assist with back-office functions, recordkeeping and client reporting.

Fidelity also offers other services intended to help iCapital manage and further develop its advisory practice. Such services include, but are not limited to, performance reporting, financial planning, contact management systems, third party research, publications, access to educational conferences, roundtables and webinars, practice management resources, access to consultants and other third party service providers who provide a wide array of business related services and technology with whom iCapital may contract directly.

Fidelity generally does not charge its advisor clients separately for custody services but is compensated by account holders through commissions and other transaction-related or asset-based fees for securities trades that are executed through Fidelity or that settle into Fidelity accounts (i.e., transactions fees are charged for certain no-load mutual funds, commissions are charged for individual equity and debt securities transactions). Fidelity provides access to many no-load mutual funds without transaction charges and other no-load funds at nominal transaction charges.

As a result of receiving such services for no additional cost, we may have an incentive to continue to use or expand the use of Fidelity's services. We examined this potential conflict of interest when we chose to enter into the arrangement with Fidelity and have determined that the arrangement is in the best interests of iCapital's clients and satisfies our client obligations, including our duty to seek best execution. A client may pay a commission that is higher than another qualified broker-dealer might charge to effect the same transaction where we determine in good faith that the commission is reasonable in relation to the value of the brokerage and research services received. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, while iCapital will seek competitive rates, to the benefit of all clients, we may not necessarily obtain the lowest possible commission rates for specific client account transactions. Although the investment research products and services that may be obtained by us will generally be used to service all of our clients, a brokerage commission paid by a specific client may be used to pay for research that is not used in managing that specific client's account.

iCapital is independently operated and owned and is not affiliated with Fidelity.

Best Execution

iCapital reviews the execution of trades at each broker-dealer and custodian each quarter. The review is documented by iCapital. Trading fees charged by the broker-dealers and custodians are also reviewed on a quarterly basis. iCapital does not receive any portion of the trading fees.

Soft Dollars

iCapital receives from Fidelity Investments, without cost, computer software and related systems support, which allow us to better monitor client accounts maintained at Fidelity. iCapital receives this software and support without cost because we provide investment management services to clients that, when taken together, maintain a certain level of assets at Fidelity.

Fidelity is providing iCapital with certain brokerage and research products and services that qualify as "brokerage or research services" under Section 28(e) of the Securities Exchange Act of 1934.

iCapital has no other such relationships.

Order Aggregation

Transactions for each client generally will be affected independently, unless iCapital decides to purchase or sell the same securities for several clients at approximately the same time. In that case, we may combine such orders to obtain best execution, to negotiate more favorable commission rates, or to equitably allocate differences in prices and commissions or other transaction costs that might have been obtained had such orders been placed independently. Under this procedure, transactions will generally be averaged as to price and allocated among our clients pro rata.

Item 13 - Review of Accounts

Periodic Reviews

Account reviews are performed quarterly by iCapital. More frequent reviews are performed utilizing client portfolio management software through various reports when market conditions dictate.

Annual reviews are offered to clients to review prior recommendations and their effectiveness. More frequent reviews occur but are not necessarily communicated to the client unless immediate changes are recommended.

Review Triggers

Other conditions that may trigger a review are changes in the tax laws, new investment information, alarming market conditions and changes in a client's own situation.

Regular Reports

Elite Choice™ Qualified retirement plan Investment Advisory Services

Clients generally receive the following reports:

- Monthly statements from the Plan Custodian;
- Quarterly Fiduciary Monitoring Report;
- Quarterly Investment Performance Report; and

Elite Investment Management

Clients generally receive the following reports:

- Monthly account statements from Fidelity; and
- Quarterly performance reports from iCapital.

Item 14 - Client Referrals and Other Compensation

Incoming Referrals

iCapital has been fortunate to receive many client referrals over the years. The referrals came from current clients, attorneys, accountants, employees, personal friends of employees and other similar sources. The firm does not compensate referring parties for these referrals.

Referrals Out

iCapital does not accept referral fees or any form of remuneration from other professionals when a prospect or client is referred to them.

Item 15 - Custody

Account Statements

All assets are held at qualified custodians, which mean the custodians provide account statements directly to clients at their address of record at least quarterly.

Performance Reports

Clients are urged to compare the account statements received directly from their custodians to the performance report statements provided by iCapital, LLC.

Item 16 - Investment Discretion

Discretionary Authority for Trading

iCapital accepts discretionary authority to manage securities accounts on behalf of clients. We have the authority to determine, without obtaining specific client consent, the securities to be bought or sold, and the amount of the securities to be bought or sold. However, iCapital consults with the client prior to each trade to obtain concurrence if a blanket trading authorization has not been given.

The client approves the custodian to be used and the commission rates paid to the custodian. iCapital does not receive any portion of the transaction fees or commissions paid by the client to the custodian on certain trades.

Discretionary trading authority facilitates placing trades in your accounts on your behalf so that we may promptly implement the investment policy that you have approved in writing.

Limited Power of Attorney

A limited power of attorney is a trading authorization for this purpose. You grant us a limited power of attorney by signing our Investment Advisory Services Agreement so that we may execute the trades that you have approved.

Item 17 - Voting Client Securities

Proxy Votes

iCapital accepts authority to vote proxies with respect to securities owned by clients.

We have adopted proxy voting policies and procedures with respect to securities owned by our clients for which we have been specifically delegated voting authority and discretion, in accordance with its fiduciary duties and Securities and Exchange Commission Rule 206(4)-6 under the Investment Advisers Act of 1940, which are reasonably designed to ensure that proxies are voted in the best interest of clients.

The guiding principle by which we review voting on all matters submitted to security holders is the maximization of the ultimate economic value of your holdings. We do not permit voting decisions to be influenced in any matter that is contrary to, or dilutive of, this guiding principle. It is the policy to avoid situations where there is any material conflict of interest or perceived conflict of interest affecting the voting decisions. Any perceived conflict of interest is reviewed by the Chief Compliance Officer and the proxy voting committee.

It is the general policy that we vote on all matters presented to security holders in any Proxy, and these policies and procedures have been designed with that in mind.

However, we reserve the right to abstain on any particular vote or otherwise withhold its vote on any matter if in the judgment of iCapital, the costs associated with voting such Proxy outweigh the benefits you, or if the circumstances make such an abstention or withholding otherwise advisable and in the best interests of you, in our judgment.

Clients delegate to iCapital the discretionary power to vote the securities held in their account pursuant to written agreement. iCapital does not generally accept any subsequent directions on matters presented to shareholders for a vote, regardless of whether such subsequent directions are from the client itself or a third party. We view the delegation of discretionary voting authority as an “all-or-nothing” choice for our clients.

Upon request, we will provide separately to each client (i) a copy of iCapital’s proxy voting policies and procedures and (ii) details as to how the firm has voted securities in your account.

Item 18 - Financial Information

Financial Condition

iCapital does not have any financial impairment that will preclude the firm from meeting contractual commitments to clients.

A balance sheet is not required to be provided because iCapital does not serve as a custodian for client funds or securities, and does not require prepayment of fees of more than \$1,200 per client, and six months or more in advance.

Business Continuity Plan

General

iCapital has a Business Continuity Plan in place that provides detailed steps to mitigate and recover from the loss of office space, communications, services or key people.

Disasters

The Business Continuity Plan covers natural disasters such as severe snow storms, hurricanes, tornados, and flooding. The Plan covers man-made disasters such as loss of electrical power, loss of water pressure, flooding, fire, bomb threat, nuclear emergency, chemical event, biological event, communications line outage, Internet outage, railway accident and aircraft accident. Electronic files are backed up daily and archived offsite.

Alternate Offices

Alternate offices are identified to support ongoing operations in the event the main office is unavailable. It is our intention to contact all clients within five days of a disaster that dictates moving our office to an alternate location.

Loss of Key Personnel

iCapital has secured insurance to cover the loss of key personnel. The proceeds of this life insurance will allow us to maintain our business until a suitable replacement has been located.

Information Security Program

Information Security

iCapital maintains an information security program to reduce the risk that your personal and confidential information may be breached.

Massachusetts Written Information Security Program

iCapital has developed and implemented a comprehensive written information security program ("the Plan") to create effective administrative, technical and physical safeguards for the protection of personal information and the electronic storage or transmittal of personal information of residents of the Commonwealth of Massachusetts, and to comply with obligations under 201 CMR 17.00 and M.G.L. 93H. The Plan sets forth the procedures for evaluating iCapital's electronic and physical methods of accessing, collecting, storing, using, transmitting, and protecting personal information of residents of the Commonwealth of Massachusetts.

Privacy Notice

iCapital is committed to maintaining the confidentiality, integrity and security of the personal information that is entrusted to us.

The categories of nonpublic information that we collect from you may include information about your personal finances, information about your health to the extent that it is needed, information about transactions between you and third parties, and information from consumer reporting agencies, e.g., credit reports. We use this information to help you meet your personal financial goals.

With your permission, we disclose limited information to attorneys, accountants, and mortgage lenders with whom you have established a relationship. You may opt out from our sharing information with these nonaffiliated third parties by notifying us at any time by telephone, mail, fax, email, or in person. With your permission, we share a limited amount of information about you with your brokerage firm in order to execute securities transactions on your behalf.

We maintain a secure office to ensure that your information is not placed at unreasonable risk. We employ a firewall barrier, secure data encryption techniques and authentication procedures in our computer environment.

We do not provide your personal information to mailing list vendors or solicitors. We require strict confidentiality in our agreements with unaffiliated third parties that require access to your personal information, including financial service companies, consultants, and auditors. Federal and state securities regulators may review our company records and your personal records as permitted by law.

Personally identifiable information about you will be maintained while you are a client, and for the required period thereafter that records are required to be maintained by federal and state securities laws. After that time, information may be destroyed.

We will notify you in advance if our privacy policy is expected to change. We are required by law to deliver this Privacy Notice to you annually, in writing.
