Amundi Pioneer Asset Management, Inc.	Date: July 10, 2017
Address: 60 State Street, Boston MA 02109	Phone: (800) 225-6292
Web Site Address: http://www.amundipioneer.com	

This Brochure provides information about the qualifications and business practices of Amundi Pioneer Asset Management, Inc. (“Amundi Pioneer” or the “adviser”). If you have any questions about the contents of this Brochure, please contact us at 800-225-6292 and/or e-mail ask.pioneer@pioneerinvestments.com. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission (“SEC”) or by any state securities authority.

Additional information about Amundi Pioneer also is available on the SEC’s website at www.adviserinfo.sec.gov.

Material Changes

The following material changes have been made to this Brochure since its last annual amendment dated March 30, 2017.

- The Advisory Business section has been revised to reflect that on July 3, 2017, Amundi acquired Pioneer Investments, a group of asset management companies located throughout the world previously owned by Pioneer Global Asset Management S.p.A., a wholly owned subsidiary of UniCredit S.p.A. As part of the transaction, Pioneer Investment Management, Inc. became an indirect wholly owned subsidiary of Amundi and Amundi's wholly owned subsidiary, Amundi USA, Inc. In connection with the transaction, Pioneer Investment Management, Inc. was renamed Amundi Pioneer Asset Management, Inc.

Advisory Business

Amundi Pioneer provides investment advisory services encompassing a wide range of investment strategies, as discussed herein. Amundi Pioneer provides investment management services to various entities, including open and closed-end investment companies (“Domestic Funds”) that are registered under the U.S. Investment Company Act of 1940, as amended (the “Investment Company Act”), and other similarly managed accounts such as private funds, foreign registered investment companies (“Off-Shore Funds”), and a controlled foreign corporation (“CFC”) wholly owned by a registered investment company (“RIC”). Amundi Pioneer also provides investment sub-advisory services to RICs. Amundi Pioneer is registered with the Commodity Futures Trading Commission (“CFTC”) as a Commodity Pool Operator (“CPO”) and a commodity trading advisor (“CTA”). Amundi Pioneer’s U.S. history dates back to 1928 with the creation of the Pioneer Fund, one of the first mutual funds.

Amundi Pioneer is a wholly owned subsidiary of Amundi Pioneer Asset Management USA, Inc. (“APAMUSA”), which in turn, is a wholly owned subsidiary of Amundi USA, Inc. (“Amundi USA”). Amundi USA is a wholly owned subsidiary of Amundi. Amundi is controlled by Credit Agricole S.A., a French credit institution. Credit Agricole S.A. currently holds 70% of Amundi’s share capital. The remaining shares of Amundi are held by institutional and retail investors. Amundi Pioneer provides investment services only to Domestic Funds, Off-Shore Funds, and a CFC. Amundi Pioneer does not tailor its services to individual needs of clients.

As of 3/31/2017, Amundi Pioneer managed approximately \$ 69,983,000,000 on a discretionary basis in assets for approximately 75 clients. As of 3/31/2017, Amundi Pioneer did not manage any assets on a non-discretionary basis.

Fees and Compensation

The fees for providing investment management services to all clients, including Domestic Funds and other similarly managed accounts such as private funds and Off-Shore Funds, are negotiated on an individual basis and vary significantly among clients. Fees generally are expressed as a percentage of assets under management of the client, and clients are billed monthly or quarterly and in arrears. Fees paid by certain clients also may include performance fees permitted by Section 205(b) of the Investment Advisers Act of 1940, as amended (the “Investment Advisers Act”) and SEC Rules adopted thereunder.

With respect to the Domestic Funds, each management contract generally has an initial term of two years and continues thereafter only if approved by the Fund’s Board of Trustees (the “Board”), including a majority of the Board’s independent trustees, annually and may be terminated without penalty by either the Fund, by a vote of the Fund’s Board or by a vote of a majority of its outstanding voting securities, or by Amundi Pioneer upon 60 days’ prior written notice to the Fund. The contracts also terminate if “assigned,” as that term is defined in the Investment Company Act. The fees are described below and in the investment company

FIRM BROCHURE

registration statements and amendments filed with the SEC. Management fees are calculated as a percentage of assets under management.

Domestic Funds	Management Fee (expressed as a percentage of assets under management)
Pioneer AMT-Free Municipal Fund	0.50% up to \$250 Million; 0.45% on the next \$500 Million, and 0.40% on the excess over \$750 Million

Amundi Pioneer Asset Management S.A. (“APAMSA”), an affiliate of Amundi Pioneer, has engaged Amundi Pioneer to provide investment management services to a number of publicly-offered European funds, including certain Luxembourg domiciled UCITS (Undertakings for Collective Investment in Transferable Securities). For the delegated asset management services, Amundi Pioneer receives a portion of the total fees received by PAMSA. The rates at which Amundi Pioneer receives fees for its services are established from time to time pursuant to intercompany fee arrangements that consider the competitive range of fees for similar services.

With respect to clients that are Off-Shore Funds, each management contract usually provides that either party has the right to terminate the advisory relationship not less than 90 days’ with prior written notice. In the event of account termination, Amundi Pioneer is entitled to receive all fees accrued up to the date of termination.

With respect to private funds, each management agreement provides that either party has the right to terminate the agreement, without penalty, upon the giving of 30 calendar days’ notice to the other party.

With respect to the Domestic Funds, Amundi Pioneer provides for office space, equipment and personnel for managing the Funds’ affairs and investments and pays all or a part of the salaries and fees of all officers of each Fund and of all Trustees who are “interested persons,” as that term is defined in the Investment Company Act, of Amundi Pioneer. Amundi Pioneer may waive all or a portion of its management fee otherwise payable to it and/or undertake to pay or reimburse a Fund for all or a portion of its expenses not otherwise required to be borne or reimbursed by Amundi Pioneer. Amundi Pioneer has entered into expense limitation agreements with certain of the Domestic Funds whereby Amundi Pioneer has committed for certain periods of time to limit or maintain the expenses of such Domestic Funds.

FIRM BROCHURE

With respect to the Off-Shore Funds, Amundi Pioneer provides for office space, equipment and personnel for managing the Funds' investments. Amundi Pioneer may agree to waive a portion of the fees it receives from PAMSA for the delegated asset management services.

Clients of Domestic Funds and Off-Shore Funds generally will incur and pay: (1) charges and expenses for accounting, pricing and appraisal services of any portfolio accounting and / or recordkeeping agent appointed by the client with respect to the portfolio; (2) the charges and expenses of any custodian appointed by the client with respect to the portfolio; (3) all brokerage commissions, dealer spreads, transfer fees and taxes; (4) reasonable legal expenses related to any investment of the portfolio; and (5) all other reasonable expenses properly chargeable to the client. Clients also will incur transaction costs on their account. Any expenses allocated to an account relating to securities may be shared pro rata with any other of Amundi Pioneer's accounts with the same expenses. The expenses and costs described above are not reflected in the fee schedules listed above, which only reflect management fees.

Clients of private funds generally will not incur and pay: (1) charges and expenses for accounting, pricing and appraisal services of any portfolio accounting and/or recordkeeping agent appointed by the client with respect to the portfolio; (2) the charges and expenses of any custodian appointed by client with respect to the portfolio; (3) all brokerage commissions, dealer spreads, transfer fees and taxes; (4) charges and expenses (including reasonable legal fees) associated with the purchase of securities incurred in good faith in connection with the valuation, negotiation and purchase of securities for the portfolio and the ongoing exercise of the client's rights under the securities held in the portfolio; and (5) all other expenses properly chargeable to the client. Clients also will incur transaction costs on their account. Any expenses allocated to an account relating to securities may be shared pro rata with any other of Amundi Pioneer's accounts with the same expenses.

Accounts initiated or terminated during a calendar quarter will be charged a pro-rated fee. Upon termination of any account, any earned, unpaid fees will be due and payable.

Amundi Pioneer may sub-contract with investment management firms having a particular expertise ("sub- advisers") to manage a portion of or all the assets in an account under its management. In such event, the fees payable to sub-advisers would generally be paid by Amundi Pioneer and are based on a percentage of assets under the sub-advisers management.

The Brokerage Practices section of this Brochure further describes the factors that Amundi Pioneer considers in selecting or recommending broker-dealers for client transactions and determining the reasonableness of their compensation.

Performance-Based Fees and Side-by-Side Management

Certain clients pay Amundi Pioneer performance-based fees. Amundi Pioneer in general, and certain portfolio managers of Amundi Pioneer, manage accounts that are charged a performance-based fee and accounts that are charged only an asset-based fee. Managing both types of

FIRM BROCHURE

accounts at the same time may create an incentive to favor performance-based fee accounts. In addition, as a result of such performance fees, Amundi Pioneer may have an incentive to make riskier investment decisions on behalf of clients for which it may earn performance-based fees because such decisions could yield higher returns.

Amundi Pioneer recognizes that conflicts may arise under these circumstances, and has adopted an investment allocation policy for Amundi Pioneer that addresses the potential conflict of interest for a portfolio manager to favor performance-based fee accounts. This policy provides that no allocation shall be made to an account based on performance, the amount or structure of Amundi Pioneer's fee for managing the account, the direct or indirect interests of Amundi Pioneer or its employees in the account, or whether the account is public, private, proprietary or third party. In determining which securities to buy or sell for a client and in what amount, Amundi Pioneer may consider a variety of factors, including the client's investment objectives and strategies, the client's diversification and liquidity requirements, the size of the client's account, tax implications, the marketability of the securities, the characteristics of the client's account and other relevant factors, such as the size of an available purchase or sale opportunity, the extent to which an available opportunity would represent a meaningful portion of the client's account, and the availability of comparable opportunities. Other factors considered include the amount of securities of the issuer then outstanding, the value of those securities and the market for them. Amundi Pioneer may make purchase and sale decisions with respect to a particular client account that may be the same as, or differ from, the recommendations made, or the timing or nature of the action taken, with respect to other accounts.

Frequently, the same investment decision is made for more than one account and Amundi Pioneer's portfolio managers may place orders to buy or sell the same security for a number of accounts. Amundi Pioneer may aggregate orders to purchase or sell the same security for multiple accounts. Whenever Amundi Pioneer aggregates orders, all accounts that participate in the transaction will participate on a pro rata or other objective basis, as described below. Amundi Pioneer will not aggregate investment transactions for accounts unless the transaction is consistent with its duties to the accounts, the terms of the applicable investment management agreement and each account's investment objectives, restrictions and policies.

Equity Trade Allocation: With the exception of transactions in limited investment opportunities such as Initial Public Offerings ("IPOs"), new issues or secondary offerings, executions of aggregated equity trades generally are allocated pro rata to the participating accounts based on order size (i.e., each client will be allocated that percentage of the executed order that its requested order size bears to the total size of the order). Allocated amounts may be rounded to reflect market practices for lot sizes. All accounts in a single aggregated trade receive the average price obtained and pay a pro rata portion of all transactions costs.

If new orders for the same security with the same terms are submitted at any time to an existing order where partial executions have already occurred with respect to the original order, the prior executions will be allocated pro rata among the original participating accounts at the average price obtained for such executions up to the time new orders are received. New orders will be added to the balance of the original unexecuted order, and each original participating account

FIRM BROCHURE

will receive a pro rata allocation based on the percentage that the balance of the original order plus the new orders relates to the balance of the original order. New orders will receive a pro rata allocation based on the percentage that each new order relates to the balance of the original order plus the new orders. All allocations to original participating and new accounts will be at the average price obtained for executions subsequent to the new orders being added to the original order.

If a trade is only partially completed on a given day, that day's fill will be allocated on a pro rata basis among each participating account at the close of business that day at the average execution price.

Fixed Income Trade Allocation: Amundi Pioneer allocates fixed-income trades prior to the end of the day the trade is executed ("trade date"). In determining the level of allocation to a particular account, portfolio managers and analysts review client guidelines and consider a variety of factors at the time of allocation.

Once a fixed income trade has been executed and participating accounts are identified as described above, all accounts receive the same purchase price and transaction costs, if any, are shared pro rata among participating accounts.

Limited Public Offerings, New Issues and Limited Opportunity Allocations: Client accounts acquiring securities in IPOs, new issue or limited investment opportunity will receive a pro rata allocation of such transaction based on the total net assets of all participating accounts, provided that variances of $\pm 15\%$ are permitted and that allocations to an account may not exceed the portfolio manager's indication of interest. The net assets of a closed-end fund shall not include the leverage derived from the issuance of preferred shares.

Allocations for IPOs, new issues or limited investment opportunities are determined immediately after confirmation of an allocation for shares/interests in the offering from the broker-dealer. Once an allocation is confirmed, if it is less than Amundi Pioneer requested, Amundi Pioneer may adjust its allocation on a pro rata basis to the original allocation as provided in Amundi Pioneer's trade allocation procedures. Allocations of IPOs, new issues and limited investment opportunities are reviewed by the Trade Management Committee. The allocation and reporting procedures relating to IPOs, new issues and limited investment opportunities shall not apply to situations where an offering does not present a limited or unique opportunity based on the issue size or availability of substantially similar securities, such as in the case of government securities, certificates of deposit (CDs) and high quality, short-term investments.

Amundi Pioneer maintains separate trading groups for Amundi Pioneer's managed funds and accounts ("Amundi Pioneer Trading Group") and any third-party model programs ("Model Portfolios Group"). The two groups operate independently of one another.

Model changes to similarly managed strategies will be communicated to both the Amundi Pioneer Trading Group and the Model Portfolios Group simultaneously.

FIRM BROCHURE

In cases where Amundi Pioneer is participating in more than one model program for the same strategy, the Model Portfolios Group will disseminate the respective strategy's model changes to the applicable Firms using an equitable rotation methodology.

Amundi Pioneer will not allocate trades for the purpose of benefitting Amundi Pioneer or any of its officers or its employees; or for the accounts of business associates, friends or relatives while excluding other accounts from the allocation of any securities.

Under no circumstances will Amundi Pioneer delay allocation so that it can allocate the more favorable prices received during the day to one account and the less favorable prices to another account.

In general, to the extent particular trading activity relates both to Amundi Pioneer accounts and those of its advisory affiliate, Amundi Pioneer Institutional Asset Management, Inc. ("Amundi Pioneer Institutional"), allocation methodologies will be administered jointly.

Post-execution allocations must comply with the same general guidelines set forth above for pre-execution allocations and must be consistent with treating all accounts fairly and equitably. All deviations from modifications to allocations for this reason must be documented.

Types of Clients

Amundi Pioneer provides investment advisory services encompassing a wide range of investment strategies, as discussed herein. Amundi Pioneer provides investment management services to various entities, including Domestic Funds that are registered under the Investment Company Act, and other similarly managed accounts such as private funds and Off-Shore Funds, and a CFC wholly owned by a RIC. Amundi Pioneer also serves as a sub-adviser to RICs. Each Domestic Fund prospectus contains information related to opening and maintaining an account and other account policies.

Methods of Analysis, Investment Strategies and Risk of Loss

Amundi Pioneer selects investments from a wide range of asset classes and employs a variety of styles in managing client assets. With respect to equity securities, Amundi Pioneer employs both fundamental research and quantitative research to its portfolio management. From both the fundamental research and quantitative research groups, information flows to the portfolio managers, who are responsible for active portfolio management. The investment management teams evaluate the research teams' recommendations against Amundi Pioneer's buy or sell disciplines, and act accordingly.

With respect to fixed income securities, Amundi Pioneer's investment professionals consistently apply well established means of identifying potentially rewarding securities, bolstered by access to information from their associates around the globe and aided by technology. Whether applying top-down analysis that leads to selection of government bonds, or the bottom-up

FIRM BROCHURE

approach that ends with corporate bonds being selected, the investment management teams' goal is portfolio construction that matches product objectives and supports investors' goals.

Amundi Pioneer has entered into a research services agreement with its affiliates, Amundi Pioneer Institutional and Amundi Smith Breeden LLC ("Amundi Smith Breeden"), to provide and share research services to each other at no cost.

The significant investment strategies that Amundi Pioneer uses in managing assets in the Domestic Funds and other similarly managed accounts such as private funds and Off-Shore Funds, are described below. Any percentage limitations on investment strategies are those of the applicable Domestic Fund. Other similarly managed accounts may have different percentage limitations. In each of its strategies, Amundi Pioneer utilizes macroeconomic research regarding economic forecasts and analysis, as well as industry data relating to profits and trends. Demographic, technological and social trends are also analyzed in the overall analysis of certain securities. The material risks involved with these strategies or methods of analysis are described at the end of this section.

Equity Strategies

<ul style="list-style-type: none"> • The significant investment strategies for <i>Pioneer Fund</i> and certain other similarly managed and sub-advised accounts with investment objectives of reasonable income and capital growth are: <p>The fund invests in a broad group of carefully selected securities that Amundi Pioneer believes are reasonably priced, rather than in securities whose prices reflect a premium resulting from their current market popularity. The fund invests predominantly in equity securities. For purposes of the fund's investment policies, equity securities include common stocks and other equity instruments, such as exchange-traded funds (ETFs) that invest primarily in equity securities, equity interests in real estate investment trusts (REITs), depositary receipts, warrants, rights and preferred stocks.</p> <p>The fund primarily invests in securities of U.S. issuers. The fund may invest up to 15% of its total assets in securities of non-U.S. issuers. The fund will not invest more than 5% of its total assets in the securities of emerging markets issuers.</p> <p>The fund may invest up to 15% of its net assets in REITs.</p> <p>The fund may invest in initial public offerings of equity securities. The fund may also invest in investment grade and below investment grade debt securities (known as "junk bonds").</p>	<p>Principal Risks:</p> <ul style="list-style-type: none"> - Market risk - Value style risk - Portfolio selection risk - Risks of investments in real estate related securities - Risks of warrants and rights - Preferred stocks risk - Risks of initial public offerings - Risks of investment in other funds - Debt securities risk - Risks of non-U.S. investments - Market segment risk - Derivatives risk - Leveraging risk - Valuation risk
--	--

FIRM BROCHURE

<p>The fund may, but is not required to, use derivatives. The fund may use derivatives, such as stock index futures and options, for a variety of purposes, including: in an attempt to hedge against adverse changes in the market price of securities, interest rates or currency exchange rates; as a substitute for purchasing or selling securities; to attempt to increase the fund's return as a non-hedging strategy that may be considered speculative; to manage portfolio characteristics; and as a cash flow management technique. The fund may choose not to make use of derivatives for a variety of reasons, and any use may be limited by applicable law and regulations. The fund may also hold cash or other short-term investments.</p> <p>Amundi Pioneer uses a value approach to select the fund's investments to buy and sell. Amundi Pioneer seeks securities selling at reasonable prices or substantial discounts to their underlying values and then holds these securities until the market values reflect their intrinsic values. Amundi Pioneer evaluates a security's potential value, including the attractiveness of its market valuation, based on the company's assets and prospects for earnings growth. In making that assessment, Amundi Pioneer employs fundamental research and an evaluation of the issuer based on its financial statements and operations. In selecting securities, Amundi Pioneer considers a security's potential to provide a reasonable amount of income. Amundi Pioneer focuses on the quality and price of individual issuers.</p>	<ul style="list-style-type: none"> - Liquidity risk - Cash management risk - Expense risk - Redemption risk
<ul style="list-style-type: none"> • The significant investment strategies for <i><u>Pioneer Core Equity Fund</u></i> and certain other similarly managed and sub-advised accounts with investment objectives of long-term capital growth are: <p>Normally, the fund invests at least 80% of its net assets (plus the amount of borrowings, if any, from investment purposes) in equity securities, primarily of U.S. issuers. For purposes of the fund's investment policies, equity securities include common stocks and other equity instruments, such as exchange-traded funds (ETFs) that invest primarily in equity securities, equity interests in real estate investment trusts (REITs), preferred stocks, depositary receipts, rights and warrants. The fund may invest in initial public offerings of equity securities.</p> <p>The fund may invest up to 20% of its total assets in securities of non-U.S. issuers, including up to 5% of its total assets in the securities of emerging markets issuers.</p>	<p>Principal Risks:</p> <ul style="list-style-type: none"> - Market risk - Mid-size companies risk - Value style risk - Portfolio selection risk - Risks of investments in real estate related securities - Risks of warrants and rights - Preferred stocks risk - Risks of initial public offerings - Risks of investment

FIRM BROCHURE

<p>The fund may invest in debt securities. Generally, the fund acquires investment grade debt securities, but the fund may invest up to 5% of its net assets in below investment grade debt securities (known as “junk bonds”), including below investment grade convertible debt securities.</p> <p>The fund may, but is not required to, use derivatives. The fund may use derivatives, such as futures and options, for a variety of purposes, including in an attempt to hedge against adverse changes in the market price of securities, interest rates or currency exchange rates; as a substitute for purchasing or selling securities; to increase the fund’s return as a non-hedging strategy that may be considered speculative; to manage portfolio characteristics; and as a cash flow management technique. The fund may choose not to make use of derivatives for a variety of reasons, and any use may be limited by applicable law and regulations. The fund may also hold cash and other short-term investments.</p> <p>Amundi Pioneer uses a valuation-conscious approach to select the fund’s investments based upon the recommendations of Amundi Pioneer’s research team. Amundi Pioneer selects securities that are highly ranked by the research team and selling at reasonable prices or substantial discounts to their underlying values. From the universe of highly ranked securities, the research team constructs a portfolio that is reflective of overall sector weightings in the fund’s benchmark index. A security will not be included in the portfolio simply because it is highly ranked by the research team. A security may be sold if its ranking by the research team is reduced or the security price reaches a reasonable valuation.</p> <p>Amundi Pioneer’s research team evaluates a security’s potential value based on the company’s assets and prospects for earning growth. In making that assessment, Amundi Pioneer employs fundamental research and an evaluation of the issuer based on its financial statements and operations. The research team focuses on the quality and price of individual issuers. The fund’s portfolio includes securities from a broad range of market sectors that have received favorable rankings from the research team.</p>	<p>in other funds</p> <ul style="list-style-type: none"> - Debt securities risk - Risks of non-U.S. investments - Market segment risk - Derivatives risk - Leveraging risk - Valuation risk - Liquidity risk - Cash management risk - Expense risk - Redemption risk

FIRM BROCHURE

<p>Normally, the fund invests at least 80% of its net assets (plus the amount of borrowings, if any, for investment purposes) in equity securities of large companies, that is, companies similar in size to issuers included in the Russell 1000 Growth Index. The Russell 1000 Growth Index (the “index”) is a large capitalization index that measures the performance of those companies in the Russell 1000 Index with higher price-to-book ratios and higher forecasted growth values. On October 31, 2016, securities in the index had a market capitalization range from approximately \$487 million to approximately \$622 billion. On October 31, 2016, the index had a median market capitalization of approximately \$9.0 billion. The size of the companies in the index changes constantly as a result of market conditions and the composition of the index. The fund's investments will not be confined to securities issued by companies included in the index.</p> <p>For purposes of the fund’s investment policies, equity securities include common stocks and other equity instruments, such as exchange-traded funds (ETFs) that invest primarily in equity securities, depositary receipts, warrants, rights, equity interests in real estate investment trusts (REITs) and preferred stocks.</p> <p>The fund primarily invests in securities of U.S. issuers. The fund may invest in securities of issuers in any industry or market sector. The fund may invest in fewer than 40 securities. The fund may invest in initial public offerings of equity securities. The fund may invest up to 20% of its total assets in securities of non-U.S. issuers. The fund will not invest more than 10% of its total assets in the securities of emerging markets issuers.</p> <p>The fund may also invest in investment grade and below investment grade debt securities (known as “junk bonds”), including below investment grade convertible debt securities and securities of issuers that are in default.</p> <p>The fund may, but is not required to, use derivatives. The fund may use derivatives, such as stock index futures and options, for a variety of purposes, including: in an attempt to hedge against adverse changes in the market price of securities, interest rates or currency exchange rates; as a substitute for purchasing or selling securities; to attempt to increase the fund's return as a non-hedging strategy that may be considered speculative; to manage portfolio characteristics; and as a cash flow management technique. The fund may choose not to make use of derivatives for a variety of reasons, and any use may be limited by applicable law and regulations. The fund may also hold cash or other short-term investments.</p>	<ul style="list-style-type: none"> - Issuer focus risk - Risks of investments in real estate related securities - Risks of warrants and rights - Preferred stocks risk - Risks of initial public offerings - Risks of investment in other funds - Debt securities risk - Risks of non-U.S. investments - Market segment risk - Derivatives risk - Leveraging risk - Valuation risk - Liquidity risk - Cash management risk - Expense risk - Redemption risk

FIRM BROCHURE

<p>Amundi Pioneer uses a “growth” style of management and seeks to invest in securities of issuers with above average potential for earnings and revenue growth. To select growth stocks, Amundi Pioneer employs quantitative analysis, fundamental research, and an evaluation of the issuer based on its financial statements and operations, utilizing a bottom-up analytic style. Among other things, Amundi Pioneer focuses on an issuer’s deployment of capital and return on capital. Amundi Pioneer relies on the knowledge, experience and judgment of its staff and the staff of its affiliates who have access to a wide variety of research. Amundi Pioneer focuses on the quality and price of individual issuers, not on economic sector or market-timing strategies.</p> <p>Amundi Pioneer generally sells a portfolio security when it believes that the issuer no longer offers the potential for above average earnings and revenue growth or when Amundi Pioneer no longer views the issuer’s deployment of capital or return on capital as favorable. Amundi Pioneer makes that determination based upon the same criteria it uses to select portfolio securities.</p>

<p>judgment of Amundi Pioneer. The fund's investments may have fixed or variable principal payments and all types of interest rate payment and reset terms, including fixed rate, adjustable rate, floating rate, zero coupon, contingent, deferred, payment in kind and auction rate features. The fund's investments may include instruments that allow for balloon payments or negative amortization payments.</p> <p>The fund may invest in equity securities as a consequence of holding debt of the same issuer or when Amundi Pioneer believes the securities offer the potential for capital gains or other portfolio management purposes, although equity securities may not pay dividends or contribute to achieving the fund's investment objective of a high level of current income.</p> <p>Amundi Pioneer considers both broad economic and issuer specific factors in selecting a portfolio designed to achieve the fund's investment objectives. In assessing the appropriate maturity, rating, sector and country weightings of the fund's portfolio, Amundi Pioneer considers a variety of factors that are expected to influence economic activity and interest rates. These factors include fundamental economic indicators, such as the rates of economic growth and inflation, Federal Reserve and other global monetary policies and the relative value of the U.S. dollar compared to other currencies. Once Amundi Pioneer determines the preferable portfolio characteristics, Amundi Pioneer selects individual securities based upon the terms of the securities (such as yields compared to U.S. Treasuries or comparable issuers), liquidity and rating, country, sector and issuer diversification. Amundi Pioneer also employs fundamental quantitative and qualitative research to assess an issuer's credit quality, taking into account financial condition and profitability, future capital needs, potential for change in rating, industry outlook, the competitive environment and management capabilities. In selecting among market segments and instruments, Amundi Pioneer considers the relative value of particular investments. Amundi Pioneer may sell a portfolio security when it believes the security no longer will contribute to meeting the fund's investment objectives. Amundi Pioneer makes that determination based on the same criteria it uses to select portfolio securities. In making these portfolio decisions, Amundi Pioneer relies on the knowledge, experience and judgment of its staff and the staff of its affiliates who have access to a wide variety of research.</p> <p>In addition to seeking to manage portfolio risk through conventional means, including through in-depth credit analysis and diversification, the adviser employs derivative strategies designed to limit the effects of severe market events. <ul style="list-style-type: none"> • The significant investment strategies for <i>Pioneer Multi-Asset Ultrashort Income Fund</i> and certain other similarly managed and sub-advised accounts with investment objectives of a high level of current income to the extent consistent with a relatively high level of stability of principal are: <p>Normally, the fund invests at least 80% of its net assets (plus the amount of borrowings, if any, for investment purposes) in floating rate instruments of U.S. and non-U.S. issuers, including: senior secured loans (“senior loans”) and second lien or other subordinated or unsecured loans; debt issued by banks and other corporate, governmental and non-governmental entities; corporate bonds; mortgage-backed and asset-backed securities; event-linked bonds (also known as “catastrophe bonds”); and preferred stock. The fund may invest in floating rate instruments of issuers in any industry or market sector. The fund also considers as floating rate instruments, and the fund may invest without limit in, adjustable rate securities, fixed rate securities with durations of less than or equal to one year, funds that invest primarily in floating rate instruments, and fixed rate securities with respect to which the fund has entered into derivative instruments to effectively convert the fixed rate interest payments into floating rate interest payments. The fund considers these investments as economic equivalents of floating rate instruments. The fund also may invest in other derivative instruments that provide exposure to floating rate instruments or have similar economic characteristics for purposes of satisfying the 80% requirement.</p> <p>The fund does not have a targeted maturity range for its portfolio. The fund may invest in securities with a broad range of maturities. The maturity of a fixed income security is a measure of the time remaining until final payment on the security is due.</p> <p>Under normal circumstances, the fund’s average portfolio duration will be less than two years. Duration seeks to measure the price sensitivity of a fixed income security to changes in interest rates. If the fund’s average portfolio duration exceeds two years, the fund will take action to bring it within its expected range within a reasonable period of time. Unlike maturity, duration takes into account interest payments that occur throughout the course of holding the bond. The longer a portfolio’s duration, the more sensitive it will be to changes in interest rates. For example, if the fund has a two year duration, then all other things being equal, the fund will decrease in value by two percent if interest rates rise one percent. The assumptions that are made about a security’s features and options when calculating duration may prove to</p>	<p>Principal Risks:</p> <ul style="list-style-type: none"> - Market risk - Duration risk - Interest rate risk - Credit risk - Prepayment or call risk - Extension risk - Liquidity risk - Portfolio selection risk - Risks of investing in floating rate loans - Collateral risk - Risk of disadvantaged access to confidential information - Risks of subordinated securities - U.S. Treasury obligations risk - U.S. government agency obligations risk - Mortgage-related and asset-backed securities risk - Risks of investing in collateralized debt obligations - Risks of instruments that allow for balloon payments or negative amortization payments - High yield or “junk” bond risk - Risks of investing

<p>Amundi Pioneer, considers both broad economic factors and issuer specific factors in selecting investments to buy and sell. In assessing the appropriate maturity and rating weighting of the fund's portfolio, Amundi Pioneer considers a variety of factors that are expected to influence economic activity and interest rates. Amundi Pioneer selects individual securities based upon such factors as a security's yield, liquidity and rating, an assessment of credit quality and issuer diversification.</p>	
<ul style="list-style-type: none"> • The significant investment strategies for <i>Pioneer Solutions - Conservative Fund</i> and certain other similarly managed and sub-advised accounts with investment objectives of long-term capital growth and current income are: <p>The fund is a “fund of funds.” The fund seeks to achieve its investment objectives by primarily investing in other funds (“underlying funds”). The fund may also invest directly in securities and use derivatives.</p> <p>The fund allocates its assets among underlying funds with exposure to the broad asset classes of equity, fixed income and short-term (money market) investments. The fund also may invest in underlying funds with exposure to non-traditional - so-called “alternative” - asset classes such as real estate investment trusts (REITs) or commodities, or that use alternative strategies, such as market neutral strategies (strategies that seek to achieve positive returns while attempting to limit general market exposure) or relative value strategies (strategies that seek to identify securities that are undervalued relative to each other or historical norms).</p> <p>The fund does not have target ranges for the allocation of assets among asset classes or individual underlying funds. Accordingly, the fund's exposure to different asset classes and allocations among underlying funds will change from time to time in response to broad economic and market factors, as well as strategic and tactical considerations. There is no maximum or minimum exposure that the fund must have to any asset class. The equity securities to which the fund may have exposure may be of any market capitalization. The fixed income securities to which the fund may have exposure may be of any maturity and of any credit quality, including high yield or “junk” bonds.</p> <p>Amundi Pioneer selects investments it believes will perform well over time while maintaining a level of volatility (the variability of returns from one period to the next) corresponding to its risk/return profile,</p>	<p>Principal Risks:</p> <ul style="list-style-type: none"> - Market risk - Risks of investment in other funds - Portfolio selection risk - Market segment risk - Equity securities risk - Debt securities risk - Risks of non-U.S. investments - Risks of investments in real estate related securities - Commodity investments risk - Derivatives risk - Credit default swap risk - Leveraging risk - Short position risk - Liquidity risk - Valuation risk - Portfolio turnover risk - Cash management risk - Expense risk - Redemption risk

FIRM BROCHURE

targeting an annualized volatility level for the fund of approximately 3% - 7.5%. Due to market conditions and other factors, the actual or realized volatility of the fund for any particular period of time may be materially higher or lower than the target level. Volatility may result from rapid and dramatic price swings. Higher volatility generally indicates higher risk.

The fund invests mainly in funds managed by Amundi Pioneer or one of its affiliates. The fund may also invest in securities of unaffiliated mutual funds or exchange-traded funds (ETFs) when the desired economic exposure to a particular asset category or investment strategy is not available through a Pioneer fund.

Amundi Pioneer allocates the fund's investments in the underlying funds based on an evaluation of three components: strategic asset allocation (generally, the weighting of allocations among broad asset classes to capture market returns), tactical asset allocation (generally, the weighting of allocations to various sub-categories within broad asset classes to add value relative to the general strategic allocations) and fund selection. Amundi Pioneer's analysis in selecting underlying funds includes an assessment of a fund's historical relative and absolute performance, volatility and other risk characteristics, and correlation with other funds and benchmarks. Amundi Pioneer also analyzes the fund's investment strategies, investment process and portfolio management team.

As part of its overall strategy, the fund may use derivatives, including futures, options, forward foreign currency exchange contracts and swaps. The fund may use derivatives in an effort to limit the effects of volatility or severe market events on the fund, to seek incremental return, and for a variety of other hedging and non-hedging purposes. The fund also may use derivatives strategies designed to isolate sources of return associated with specific investment opportunities that are not correlated to the general market environment. Investment opportunities may relate, for example, to the relative value or credit quality of individual instruments, issuers, industries or sectors, capital or investment structures relating to issuers or sectors, the structure (yield curve) or direction of prevailing interest rates, the movement of global currency exchange rates, and the expected price convergence of different instruments. These strategies often entail two or more simultaneous derivatives positions (one long and one short) structured in an effort to reduce some risks while isolating a potential source of return. The fund may invest in derivative instruments to the full extent permitted by applicable legal and regulatory requirements.

<ul style="list-style-type: none"> • The significant investment strategies for <i>Pioneer Diversified High Income Trust</i> (a closed-end fund) and certain other similarly managed accounts with investment objectives of a high level of current income, with a potential for capital appreciation as a secondary objective. The fund invests in a unique blend of higher yielding asset classes, including global high yield bonds, leveraged bank loans and event-linked bonds (cat bonds). <p>Under normal market conditions, the fund invests at least 80% of its managed assets (net assets plus borrowings or other leverage for investment purposes) in diversified portfolio of below investment grade (high yield) debt securities, loans and preferred stocks. The fund allocates its investments principally among three sectors of the fixed income securities markets: (i) below investment grade debt securities and preferred stocks of U.S. and non-U.S. issuers, including governmental and corporate issuers in emerging markets (“global high yield debt securities”), (ii) floating rate loans and (iii) “event-linked” bonds, which sometimes are referred to as “insurance-linked” or “catastrophe” bonds.</p> <p>Amundi Pioneer believes that this actively managed, diversified portfolio of asset classes – global high yield debt securities, floating rate loans and event-linked bonds – may provide investors with a range of potential benefits across various market cycles and under various market conditions. These benefits include, among others, the potential to provide investors with a relatively high level of current income without undue risk as a result of the low correlation among these asset classes, reduced volatility due to limited exposure to interest rate and duration risk, as well as a favorable risk return profile. Specifically, the floating rate feature of both floating rate loans and event-linked bonds serves to reduce sensitivity to changes in prevailing interest rates. In addition, the introduction of event-linked bonds to the diversified portfolio enhances these benefits by reducing volatility, while providing the potential for above average returns. Moreover, the fund’s investments in event-linked bonds offer investors access to a unique asset class that otherwise may be unavailable to them.</p> <p>The fund does not have a policy of maintaining a specific average credit quality or a targeted maturity range for its portfolio. The fund may invest any portion of its assets in securities and other instruments of non-U.S. issuers, including emerging market issuers, and may engage in certain strategic transactions.</p>	<p>Principal Risks:</p> <ul style="list-style-type: none"> - Market risk - High yield or “junk” bond risk - Risks of non-U.S. investments - Currency risk - Sovereign debt risk - Interest rate risk - Credit risk - Prepayment or call risk - Extension risk - Liquidity risk - Portfolio selection risk - Mortgage-related and asset-backed securities risk - Risks of instruments that allow for balloon payments or negative amortization payments - Risks of investing in floating rate loans - Collateral risk - Risk of disadvantaged access to confidential information - Risks of investing in insurance-linked securities - Risks of subordinated securities - Risks of zero coupon bonds, payment in kind,

FIRM BROCHURE

<p>Amundi Pioneer is responsible for managing the fund’s overall investment program, including allocating the fund’s investments among the different asset classes and managing the fund’s investments in global high income debt securities and floating rate loans. Amundi Pioneer considers both broad economic and issuer specific factors in selecting a portfolio designed to achieve the fund’s investment objectives. Amundi Pioneer selects individual securities based upon the terms of the securities (such as yields compared to U.S. Treasuries or comparable issues), liquidity and rating, sector and issuer diversification. Amundi Pioneer also employs due diligence and fundamental quantitative and qualitative research to assess an issuer’s credit quality, taking into account financial condition and profitability, future capital needs, potential for change in rating, industry outlook, the competitive environment and management ability. Amundi Pioneer may sell a portfolio security when it believes the security no longer will contribute to meeting the fund’s investment objectives. Amundi Pioneer makes that determination based on the same criteria it uses to select portfolio securities. In making these portfolio decisions, Amundi Pioneer relies on the knowledge, experience and judgment of its staff and the staff of its affiliates who have access to a wide variety of research.</p> <p>The fund may use financial leverage on an ongoing basis for investment purposes by borrowing from banks through a revolving credit facility. Leverage creates special risks not associated with unleveraged funds having a similar investment objectives and policies. These include the possibility of higher volatility of both the net asset value of the fund and the value of assets serving as asset coverage for the borrowing.</p>	<p>deferred and contingent securities</p> <ul style="list-style-type: none"> - Equity securities risk - Risks of convertible securities - Preferred stocks risk - Risks of warrants and rights - Risks of investment in other funds - Derivatives risk - Credit default swap risk - Risks of investing in inverse floating rate obligations - Forward foreign currency transactions risk - Leveraging risk - Repurchase agreement risk - Market segment risk - Valuation risk - Cash management risk - Expense risk - Redemption risk
<ul style="list-style-type: none"> • The significant investment strategies for <i>Pioneer Floating Rate Trust</i> (a closed-end fund) and certain other similarly managed accounts with investment objectives of a high level of current income by investing primarily in senior secured floating-rate loans. It also seeks capital preservation as a secondary objective to the extent consistent with its primary goal. <p>Under normal market conditions, the fund seeks to achieve its</p>	<p>Principal Risks:</p> <ul style="list-style-type: none"> - Market risk - High yield or “junk” bond risk - Interest rate risk - Credit risk - Prepayment or call risk

<p>investment objectives by investing at least 80% of its assets (net assets plus borrowings for investment purposes) in floating rate loans. The fund may invest in floating and variable rate instruments, including senior floating rate loans (“Senior Loans”), second lien loans, and in high yield corporate bonds. All or any portion of the fund’s investments in floating rate loans may be below investment grade (“junk”) obligations. Senior Loans are made to corporations, partnerships and other business entities that operate in various industries and geographical regions, including non-U.S. borrowers. Senior Loans pay interest at rates that are redetermined periodically on the basis of a floating base lending rate plus a premium. The fund may invest in Senior Loans and other securities of any credit quality, including Senior Loans and other investments that are rated below investment grade, or are unrated but are determined by Amundi Pioneer to be of equivalent credit quality, commonly referred to as “junk bonds” (which include below investment grade “junk” obligations). The fund may invest all or any portion of its assets in securities of issuers that are in default or that are in bankruptcy. The fund does not have a policy of maintaining a specific average credit quality of its portfolio or a minimum portion of its portfolio that must be rated investment grade. The fund may invest up to 35% of its assets (net assets plus borrowings for investment purposes) in floating rate loans and other securities of non-U.S. issuers, including emerging market issuers.</p> <p>Non-investment grade securities, commonly referred to as junk bonds, are obligations that are rated below investment grade by the national rating agencies that cover the obligations (i.e., Ba and below by Moody’s Investors Service, Inc. (“Moody’s”) or BB and below by Standard & Poor’s Ratings Group (“S&P”)), or if unrated, are determined by Amundi Pioneer to be of comparable quality. Investment in securities of below investment grade quality involves substantial risk of loss. “Junk bonds” are considered predominantly speculative with respect to the issuer’s ability to pay interest and repay principal and are susceptible to default or decline in market value due to adverse economic and business developments.</p> <p>Amundi Pioneer’s investment philosophy is based on the belief that fundamental research and a disciplined asset acquisition/disposition process will produce superior long-term results. Amundi Pioneer’s investment process combines an economic and industry overlay with a disciplined securities selection process. Amundi Pioneer’s economic and industry overlay utilizes a variety of macro and economic variables to identify broad market sectors that Amundi Pioneer believes have positive fundamentals. Within these broad sectors, Amundi Pioneer targets specific industries that appear to have, in Amundi Pioneer’s</p>	<ul style="list-style-type: none"> - Extension risk - Liquidity risk - Portfolio selection risk - Risks of investing in floating rate loans - Collateral risk - Risk of disadvantaged access to confidential information - Risks of subordinated securities - U.S. government agency obligations risk - Mortgage-related and asset-backed securities risk - Risks of investing in collateralized debt obligations - Risks of instruments that allow for balloon payments or negative amortization payments - Risks of investing in insurance-linked securities - Risks of zero coupon bonds, payment in kind, deferred and contingent securities - Risks of non-U.S. investments - Currency risk - Risks of

Material Risks

The following is a description of the material risks of Amundi Pioneer's significant investment strategies.

Material risks of equity and fixed income investments:

- **Market risk.** The market prices of securities held may go up or down, sometimes rapidly or unpredictably, due to general market conditions, such as real or perceived adverse economic, political, or regulatory conditions, inflation, changes in interest or currency rates or adverse investor sentiment.
- **Portfolio selection risk.** Amundi Pioneer's judgment about a particular security or issuer, about the economy or a particular sector, region or market segment, or about an investment strategy, or Amundi Pioneer's allocation of

FIRM BROCHURE

fund assets to the various asset classes, may prove to be incorrect.

- **Market segment risk.** To the extent a client account may, from time to time, make investments in a market segment, the account will be subject to a greater degree of risks particular to that segment, and may experience greater market fluctuation than an account without the same focus.
- **Risks of non-U.S. investments.** Investing in non-U.S. issuers may involve unique risks compared to investing in securities of U.S. issuers. These risks are more pronounced for issuers in emerging markets or to the extent that the clients account invests significantly in one region or country. These risks may include different financial reporting practices and regulatory standards, less liquid trading markets, currency risks, changes in economic, political, regulatory and social conditions, sustained economic downturns, tax burdens, and investment and repatriation restrictions. Non-U.S. issuers may be located in parts of the world that have historically been prone to natural disasters.
- **Derivatives risk.** Using derivatives exposes a client account to additional risks, may increase the volatility of the net asset value and may not provide the result intended. Derivatives may have a leveraging effect on the client's portfolio. Amundi Pioneer may have to sell assets at inopportune times to satisfy the client account's obligations. Derivatives may be difficult to sell, unwind or value, and the counterparty may default on its obligations to the client.
- **Leveraging risk.** The value of a client's investment portfolio may be more volatile and other risks tend to be compounded if the client account borrows or uses derivatives or other investments that have embedded leverage. Leverage generally magnifies the effect of any increase or decrease in the value of the client account's underlying assets or creates investment risk with respect to a larger pool of assets than the client account would otherwise have. Engaging in such transactions may cause the client account to liquidate positions when it may not be advantageous to do so to satisfy its obligations or meet segregation requirements.
- **Liquidity risk.** Some securities and derivatives held by the fund may be impossible or difficult to purchase, sell or unwind, particularly during times of market turmoil. An instrument's liquidity may be affected by reduced trading volume, a relative lack of market makers or legal restrictions, and illiquid securities and derivatives also may be difficult to value.
- **Credit default swap risk.** Credit default swap contracts, a type of derivative instrument, involve special risks and may result in losses to the client's investment portfolio. Credit default swaps may in some cases be illiquid, and they increase credit risk since the client account has exposure to both the

FIRM BROCHURE

issuer of the referenced obligation and the counterparty to the credit default swap. Swaps may be difficult to unwind or terminate. The absence of a central exchange or market for swap transactions led, in some instances, to difficulties in trading and valuation, especially in the event of market disruptions. Recent legislation will require most swaps to be executed through a centralized exchange or regulated facility and be cleared through a regulated clearinghouse. The swap market could be disrupted or limited as a result of this legislation, which could adversely affect the fund. Moreover, the establishment of a centralized exchange or market for swap transactions may not result in swaps being easier to trade or value.

- **Currency risk.** Because the fund may invest in non-U.S. currencies, securities denominated in non-U.S. currencies, and other currency-related investments, the fund is subject to currency risk, meaning that the fund could experience losses based on changes in the exchange rate between non-U.S. currencies and the U.S. dollar.
- **Risk of investment in other funds.** Investing in other investment companies subjects the fund to the risks of investing in the underlying securities or assets held by those funds. When investing in another fund, the fund will bear a pro rata portion of the underlying fund's expenses, in addition to its own expenses.
- **Master limited partnership risk.** Investments in securities of master limited partnerships can be less liquid than, and involve other risks that differ from, investments in common stock. Holders of the units of master limited partnerships have limited ability to influence management and limited rights to vote on matters affecting the partnership. Conflicts of interest may exist between common unit holders, the general partner of a master limited partnership and other unit holders. Master limited partnerships may be subject to less regulation (and less protection for investors) under state laws than corporations. There also are tax risks associated with investments in master limited partnerships.
- **Portfolio turnover risk.** If a fund does a lot of trading, it may incur additional operating expenses, which would reduce performance. A higher level of portfolio turnover may also cause shareholders to incur a higher level of taxable income or capital gains.
- **Expense risk.** Your actual costs of investing in the fund may be higher than the expenses shown in "Annual fund operating expenses" for a variety of reasons. For example, expense ratios may be higher than those shown if overall net assets decrease. Net assets are more likely to decrease and fund expense ratios are more likely to increase when markets are volatile.

FIRM BROCHURE

- **Commodity investments risk.** Exposure to the commodities markets may subject the fund to greater volatility than investments in other securities. The value of commodity-linked derivatives may be affected by changes in overall market movements, commodity index volatility, changes in interest rates, or factors affecting a particular industry or commodity, such as drought, floods, weather, livestock disease, embargoes, tariffs and international economic, political and regulatory developments. The prices of energy, industrial metals, precious metals, agriculture and livestock sector commodities may fluctuate widely due to factors such as changes in value, supply and demand and governmental regulatory policies. Commodity-related investments may be more volatile and less liquid than the underlying commodities, instruments or measures, are subject to the credit risks associated with the issuer, and their values may decline substantially if the issuer's creditworthiness deteriorates. As a result, returns of commodity-linked investments may deviate significantly from the return of the underlying commodity, instruments or measures. The fund intends to gain exposure to commodities by investing in the Subsidiary, a foreign entity that will be treated as a corporation for U.S. federal income tax purposes. The fund's ability to invest in commodity-related investments, and the means through which any such investments may be made, will be limited by tax considerations.
- **Risks of convertible securities.** The market values of convertible securities tend to decline as interest rates increase and, conversely, to increase as interest rates decline. A downturn in equity markets may cause the price of convertible securities to decrease relative to other fixed income securities.
- **Preferred stocks risk.** Preferred stocks may pay fixed or adjustable rates of return. Preferred stocks are subject to issuer-specific and market risks applicable generally to equity securities. In addition, a company's preferred stocks generally pay dividends only after the company makes required payments to holders of its bonds and other debt. Thus, the value of preferred stocks will usually react more strongly than bonds and other debt to actual or perceived changes in the company's financial condition or prospects. The market value of preferred stocks generally decreases when interest rates rise. Preferred stocks of smaller companies may be more vulnerable to adverse developments than preferred stocks of larger companies.
- **Income producing securities risk.** Income producing securities may fall out of favor with investors and underperform the overall equity market.
- **Anti-takeover provisions (closed-end funds).** The fund's Agreement and Declaration of Trust and by-laws include provisions that could limit the ability of other entities or persons to acquire control of the fund or convert the fund

to open-end status.

- **Tax Risk (Pioneer ILS Interval Fund).** In order to qualify for the favorable tax treatment generally available to regulated investment companies, at least 90% of the fund's gross income each taxable year must consist of qualifying income, the fund must meet certain asset diversification tests at the end of each fiscal quarter, and the fund must meet certain distribution requirements for each taxable year.

The tax treatment of certain insurance-linked securities ("ILS") is not entirely clear. Certain of the fund's investments (including, potentially, certain ILS) may generate income that is not qualifying income. The fund might generate more non-qualifying income than anticipated, might not be able to generate qualifying income in a particular taxable year at levels sufficient to meet the qualifying income test, or might not be able to determine the percentage of qualifying income it has derived for a taxable year until after year-end. The fund may determine not to make an investment that it otherwise would have made, or may dispose of an investment it otherwise would have retained (potentially resulting in the recognition of taxable gain or loss, and potentially under disadvantageous circumstances), in an effort to meet the qualifying income test.

- **Risks of investing in structured insurance investments (Pioneer ILS Interval Fund).** The fund may invest in special purpose vehicles ("SPVs") or similar instruments structured to comprise a portion of a reinsurer's catastrophe-oriented business, known as quota share instruments (sometimes referred to as reinsurance sidecars), or to provide reinsurance relating to specific risks to insurance or reinsurance companies through a collateralized instrument, known as collateralized reinsurance. Quota shares instruments and other structured reinsurance investments generally will be considered illiquid securities by the fund. Structured reinsurance investments are typically more customizable but less liquid investments than event-linked bonds. Like event-linked bonds, an investor in structured reinsurance investments participates in the premiums and losses associated with underlying reinsurance contracts. Structured reinsurance investments are subject to the same risks as event-linked bonds. In addition, because quota share instruments represent an interest in a basket of underlying reinsurance contracts, the fund has limited transparency into the individual underlying contracts and therefore must rely upon the risk assessment and sound underwriting practices of the issuer. Structured reinsurance investments may be difficult to value.
- **ILS market and reinvestment risk (Pioneer ILS Interval Fund).** The size of the ILS market may change over time, which may limit the availability of ILS for investment by the fund. The original issuance of ILS in general, including ILS with desired instrument or risk characteristics, may fluctuate

depending on the capital and capacity needs of reinsurers as well as the demand for ILS by institutional investors. The availability of ILS in the secondary market also may be limited by supply and demand dynamics and prevailing economic conditions. To the extent ILS held by the fund mature, or the fund must sell securities in connection with share repurchases, the fund may be required to hold more cash or short-term instruments than it normally would until attractive ILS becomes available. Holding excess cash and/or reinvestment in securities that are lower yielding or less desirable than securities sold may negatively affect performance.

- **Mortgage dollar roll transactions risk (Pioneer ILS Interval Fund).** The benefits to the fund from mortgage dollar roll transactions depend upon the Adviser's ability to forecast mortgage prepayment patterns on different mortgage pools. The fund may lose money if, during the period between the time it agrees to the forward purchase of the mortgage securities and the settlement date, these securities decline in value due to market conditions or prepayments on the underlying mortgages.
- **Concentration risk (Pioneer ILS Interval Fund).** A fund that invests a significant percentage of its assets in a single industry may be particularly susceptible to adverse economic, regulatory or other events affecting that industry and may be more risky than a fund that does not concentrate in an industry.
- **Repurchase offers risk (Pioneer ILS Interval Fund).** The risk that the fund's repurchases of shares may hurt investment performance by forcing the fund to maintain a higher percentage of its assets in liquid investments or to liquidate certain investments when it is not desirable to do so. Repurchases may be oversubscribed, preventing shareholders from selling some or all of their shares back to the fund.
- **Cash management risk.** The value of the investments held by the fund for cash management or temporary defensive purposes may be affected by market risks, changing interest rates and by changes in credit ratings of the investments. To the extent that the fund has any uninvested cash, the fund would be subject to credit risk with respect to the depository institution holding the cash. If the fund holds cash uninvested, the fund will not earn income on the cash and the fund's yield will go down. During such periods, it may be more difficult for the fund to achieve its investment objective.
- **Risks of warrants and rights.** If the price of the underlying stock does not rise above the exercise price before the warrant expires, the warrant generally expires without any value and the fund loses any amount it paid for the warrant. The failure to exercise subscription rights to purchase common shares would result in the dilution of the fund's interest in the issuing

company.

- **Short position risk.** Taking short positions involves leverage of the fund's assets and presents various risks. If the price of the instrument or market on which the fund has taken a short position increases, then the fund will incur a loss. Because of leverage, taking short positions involves the risk that losses may be exaggerated, potentially more than the actual cost of the investment. Unlike purchasing a financial instrument like a stock, where potential losses are limited to the purchase price and there is no upside limit on potential gain, short sales involve no cap on maximum losses. Also, there is the risk that a counterparty may fail to perform the terms of the arrangement, causing a loss to the fund.
- **Forward foreign currency transactions risk.** The fund may not fully benefit from or may lose money on forward foreign currency transactions if changes in currency rates do not occur as anticipated or do not correspond accurately to changes in the value of the fund's holdings, or if the counterparty defaults. Such transactions may also prevent the fund from realizing profits on favorable movements in exchange rates. Risk of counterparty default is greater for counterparties located in emerging markets.
- **Valuation risk.** The sales price the fund could receive for any particular portfolio investment may differ from the fund's last valuation of the investment, particularly for illiquid securities and securities that trade in thin or volatile markets or that are valued using a fair value methodology. Investors who purchase or redeem fund shares on days when the fund is holding fair-valued securities may receive fewer or more shares or lower or higher redemption proceeds than they would have received if the fund had not fair-valued the securities or had used a different valuation methodology.
- **Redemption risk.** The fund may experience periods of heavy redemptions that could cause the fund to liquidate its assets at inopportune times or at a loss or depressed value particularly during periods of declining or illiquid markets. Redemption risk is greater to the extent that the fund has investors with large shareholdings, short investment horizons, or unpredictable cash flow needs. The redemption by one or more large shareholders of their holdings in the fund could cause the remaining shareholders in the fund to lose money. In addition, the fund may suspend redemptions when permitted by applicable regulations.

Material risks of equity investments

- **Equity securities risk.** Equity securities represent an ownership interest in an issuer, rank junior in a company's capital structure to debt securities

FIRM BROCHURE

and consequently may entail greater risk of loss than debt securities. Equity securities are subject to the risk that stock prices may rise and fall in periodic cycles and may perform poorly relative to other investments. This risk may be greater in the short term.

- **Growth style risk.** The client account's investments do not have the growth potential originally expected. Growth stocks may fall out of favor with investors and underperform the overall equity market.
- **Value style risk.** The prices of securities Amundi Pioneer believes to be undervalued may not appreciate as expected or may go down. Value stocks may fall out of favor with investors and underperform the overall equity market.
- **Small and mid-size companies risk.** Compared to large companies, small and mid-size companies, and the market for their equity securities, may be more sensitive to changes in earnings results and investor expectations. They have more limited product lines and capital resources, experience sharper swings in market values, may be harder to sell at the appropriate times and prices, and offer greater potential for market fluctuation.
- **Risks of investments in REITs.** Investing in real estate investment trusts ("REITs") involves unique risks. They are significantly affected by the market for real estate and are dependent upon management skills and cash flow. REITs may have lower trading volumes and may be subject to more abrupt or erratic price movements than the overall securities markets. In addition to its own expenses, the fund will indirectly bear its proportionate share of any management and other expenses paid by REITs in which it invests. Many real estate companies, including REITs, utilize leverage.
- **Debt securities risk.** Factors that could contribute to a decline in the market value of debt securities in the fund include rising interest rates, if the issuer or other obligor of a security held by the fund fails to pay principal and/or interest, otherwise defaults or has its credit rating downgraded or is perceived to be less creditworthy or the credit quality or value of any underlying assets declines. Junk bonds have a higher risk of default or are already in default and are considered speculative.
- **Risks of investing in the Subsidiary (Pioneer Flexible Opportunities Fund).** The Subsidiary is not registered under the 1940 Act and is not subject to all of the investor protections of the 1940 Act. Thus, the fund, as an investor in the Subsidiary, will not have all of the regulatory protections offered to investors in registered investment companies. In addition, changes in the laws of the United States and/or the Cayman Islands, under which the fund and the Subsidiary, respectively, are organized, could affect the ability of

FIRM BROCHURE

the fund and/or the Subsidiary to operate as described in this prospectus and could negatively affect the fund and its shareholders.

- **Equity issuer focus risk (Pioneer Disciplined Growth Fund).** The fund may invest in fewer than 40 securities. A higher percentage of the fund's assets may be invested in the securities of any one or a few issuers, than other funds. As a result, the fund's performance may be more volatile than the performance of funds holding more securities, and the fund's losses may be magnified by adverse events affecting a particular issuer.
- **Geographic focus risk (Pioneer Emerging Markets Fund).** To the extent that the fund invests from time to time more than 25% of its assets in issuers organized or located in a particular geographic region, including but not limited to issuers organized or with exposure to China and other Asian countries, the fund may be particularly affected by adverse securities markets, exchange rates and social, political, regulatory or economic events which may occur in those regions. Markets in China and other Asian countries are relatively new and undeveloped. Investments in Chinese and other Asian issuers could be adversely affected by changes in government policies, or trade or political disputes with major trading partners, including the U.S.
- **Large capitalization companies risk.** Large capitalization companies may fall out of favor with investors and underperform the overall equity market.
- **Risks of initial public offerings.** Companies involved in initial public offerings (IPOs) generally have limited operating histories, and prospects for future profitability are uncertain. The market for IPO issuers has been volatile, and share prices of newly public companies have fluctuated significantly over short periods of time. The purchase of IPO shares may involve high transaction costs.

Material risks of fixed income investments

- **Interest rate risk.** Interest rates may go up; causing the value of an account's investments to decline, (this risk may be greater for securities with longer maturities).
- **Credit risk.** If an issuer or guarantor of a security held or a counterparty to a financial contract with the client account defaults on its obligation to pay principal and/or interest, has its credit rating downgraded or is perceived to be less creditworthy, or the credit quality or value of any underlying assets declines, the value of your investment will decline.
- **Collateral risk.** The value of collateral, if any, securing a floating rate loan can decline, and may be insufficient to meet the issuer's obligations or may be

difficult to liquidate. In addition, the fund's access to collateral may be limited by bankruptcy or other insolvency laws. Uncollateralized loans involve a greater risk of loss.

- **Prepayment or call risk.** Many issuers have a right to prepay their securities. If interest rates fall, an issuer may exercise this right. If this happens, the client account will be forced to reinvest prepayment proceeds at a time when yields on securities available in the market are lower than the yield on the prepaid security. The client account also may lose any premium it paid on the security.
- **Extension risk.** During periods of rising interest rates, the average life of certain types of securities may be extended because of slower than expected principal payments.
- **Mortgage-related and asset-backed securities risk.** The value of mortgage-related and asset-backed securities will be influenced by factors affecting the housing market and the assets underlying such securities. As a result, during periods of declining asset value, difficult or frozen credit markets, swings in interest rates, or deteriorating economic conditions, mortgage-related and asset-backed securities may decline in value, face valuation difficulties, become more volatile and/or become illiquid.
- **High yield or "junk" bond risk.** Debt securities that are below investment grade, "junk bonds," are speculative, have a higher risk of default or are already in default, tend to be less liquid and are more difficult to value than higher grade securities. Junk bonds tend to be volatile and more susceptible to adverse events and negative sentiments.
- **Risks of investing in floating rate loans.** Floating rate loans and similar investments maybe illiquid or less liquid than other investments and difficult to value. The value of collateral, if any, securing a floating rate loan can decline or may be insufficient to meet the issuer's obligations or may be difficult to liquidate. Market quotations for these securities may be volatile and / or subject to large spreads between bid and ask prices. No active trading market may exist for many floating rate loans, and many loans are subject to restrictions on resale. Loans may take longer than seven days to settle, potentially leading to the sale proceeds of loans not being available to meet redemptions for a substantial period of time after the sale of the loans.
- **Risks of inverse floating rate obligations.** The interest rate on inverse floating obligations will generally decrease as short-term interest rates increase, and increase as short-term rates decrease. Due to their leveraged structure, the sensitivity of the market value of an inverse floating rate obligation to changes in interest rates is generally greater than a comparable

long-term bond issued by the same issuer and with similar credit quality, redemption and maturity provisions. Inverse floating rate obligations may be volatile and involve leverage risk.

- **Risks of investing in event-linked bonds.** The return of principal and the payment of interest on “event-linked” bonds are contingent on the non-occurrence of a pre-defined “trigger” event, such as a hurricane or an earthquake of a specific magnitude. In addition to the specified trigger events, event-linked bonds may expose the fund to other risks, including but not limited to issuer (credit) default, adverse regulatory or jurisdictional interpretations and adverse tax consequences.
- **Risks of subordinated securities.** A holder of securities that are subordinated or “junior” to more senior securities of an issuer is entitled to payment after holders of more senior securities of the issuer. Subordinated securities are more likely to suffer a credit loss than non-subordinated securities of the same issuer, any loss incurred by the subordinated securities is likely to be proportionately greater, and any recovery of interest or principal may take more time. As a result, even a perceived decline in creditworthiness of the issuer is likely to have a greater impact on subordinated securities.
- **Inflation-linked securities risk.** The principal or interest of inflation-linked securities such as TIPS is adjusted periodically to a specified rate of inflation. The inflation index used may not accurately measure the real rate of inflation. Inflation-linked securities may lose value in the event that the actual rate of inflation is different than the rate of the inflation index.
- **Risks of zero coupon bonds and payment in kind securities.** Zero coupon bonds and payment in kind securities may be more speculative and may fluctuate more in value than securities which pay income periodically and in cash. In addition, applicable tax rules require the fund to accrue and pay out its imputed income from such securities annually as income dividends. Such distributions may be taxable to shareholders.
- **U.S government agency obligations risk.** Amundi Pioneer may invest in obligations issued by agencies and instrumentalities of the U.S. government. Government-sponsored entities such as FNMA, FHLMC and the FHLBs, although chartered or sponsored by Congress, are not funded by congressional appropriations and the debt and mortgage-backed securities issued by them are neither guaranteed nor issued by the U.S. government. The maximum potential liability of the issuers of some U.S. government obligations may greatly exceed their current resources, including any legal right to support from the U.S. government. Such debt and mortgage-backed securities are subject to the risk of default on the payment of interest and/or principal,

similar to debt of private issuers. Although the U.S. government has provided financial support to FNMA and FHLMC in the past, there can be no assurance that it will support these or other government-sponsored entities in the future.

- **Risks of instruments that allow for balloon payments or negative amortization payments.** Certain debt instruments allow for balloon payments or negative amortization payments. Such instruments permit the borrower to avoid paying currently a portion of the interest accruing on the instrument. While these features make the debt instrument more affordable to the borrower in the near term, they increase the risk that the borrower will be unable to make the resulting higher payment or payments that become due at the maturity of the loan.
- **Risks of investing in collateralized debt obligations.** Investment in a collateralized debt obligation (CDO) is subject to the credit, subordination, interest rate, valuation, prepayment, extension and other risks of the obligations underlying the CDO and the tranche of the CDO in which the fund invests. CDOs are subject to liquidity risk. Synthetic CDOs are also subject to the risks of investing in derivatives, such as credit default swaps, and leverage risk.
- **Duration risk.** Duration seeks to measure the price sensitivity of a fixed income security to changes in interest rates. The longer a portfolio's duration, the more sensitive it will be to changes in interest rates. The fund's average portfolio maturity may be greater than the fund's average portfolio duration, and, accordingly, the fund may be more sensitive to changes in yield or interest rates. A portfolio with negative duration may increase in value when interest rates rise, and generally incurs a loss when interest rates and yields fall. The assumptions that are made about a security's features and options when calculating duration may prove to be incorrect. Duration is calculated by Amundi Pioneer, is not an exact measurement and may not reliably predict the fund's or a particular security's price sensitivity to changes in yield or interest rates. Amundi Pioneer may not be successful in its efforts to limit sensitivity to interest rate changes.
- **Exchange-traded note risk.** Exchange-traded notes (ETNs) are debt securities that may be traded on stock exchanges and generally are linked to the performance of an underlying index. An ETN's value generally depends on the performance of the underlying index and the credit rating of the issuer. ETNs may be held to maturity, but there are no periodic interest payments and principal is not protected. The market price of an ETN may be more volatile than the price of the underlying securities. The cost of owning an ETN may exceed the cost of investing directly in the underlying securities.

FIRM BROCHURE

- **Municipal securities risk.** Municipal issuers may be adversely affected by rising health care costs, increasing unfunded pension liabilities, and by the phasing out of federal programs providing financial support. Unfavorable conditions and developments relating to projects financed with municipal securities can result in lower revenues to issuers of municipal securities. Issuers often depend on revenues from these projects to make principal and interest payments. The value of municipal securities can also be adversely affected by changes in the financial condition of one or more individual municipal issuers or insurers of municipal issuers, regulatory and political developments, tax law changes or other legislative actions, and by uncertainties and public perceptions concerning these and other factors. In recent periods, an increasing number of municipal issuers in the United States have defaulted on obligations and commenced insolvency proceedings. Financial difficulties of municipal issuers may continue or get worse.
- **Non-diversification risk.** Being non-diversified may magnify the fund and underlying fund's losses from adverse events affecting a particular issuer.
- **Sovereign debt risk.** A governmental entity may delay, refuse or be unable to pay interest or principal on its sovereign debt due to cash flow problems, insufficient foreign currency reserves, political considerations, the relative size of the governmental entity's debt position in relation to the economy or the failure to put in place economic reforms. There may be no legal or bankruptcy process for collecting sovereign debt. Emerging markets countries tend to have economic, political and legal systems that are less fully developed and are less stable than those of more advanced countries.
- **Repurchase agreement risk.** In the event that the other party to a repurchase agreement defaults on its obligations, the fund may encounter delay and incur costs before being able to sell the security. Such a delay may involve loss of interest or a decline in price of the security. In addition, if the fund is characterized by a court as an unsecured creditor, it would be at risk of losing some or all of the principal and interest involved in the transaction.
- **U.S. Treasury obligations risk.** The market value of direct obligations of the U.S. Treasury may vary due to changes in interest rates. In addition, changes to the financial condition or credit rating of the U.S. government may cause the value of the fund's investments in obligations issued by the U.S. Treasury to decline.
- **Risks of investing in insurance-linked securities.** The return of principal and the payment of interest on "event-linked" bonds and other insurance-linked securities are contingent on the non-occurrence of a pre-defined "trigger" event, such as a hurricane or an earthquake of a specific magnitude or other event that leads to physical or economic loss. If a trigger event, as

defined within the terms of an event-linked bond, involves losses or other metrics exceeding a specific magnitude in the geographic region and time period specified, the fund may lose a portion or all of its accrued interest and/or principal invested in the event-linked bond. In addition to the specified trigger events, event-linked bonds may expose the fund to other risks, including but not limited to issuer (credit) default, adverse regulatory or jurisdictional interpretations and adverse tax consequences. Certain insurance-linked securities may have limited liquidity, or may be illiquid. The fund has limited transparency into the individual contracts underlying certain insurance-linked securities, which may make the risk assessment of such securities more difficult. Certain insurance-linked securities may be difficult to value.

- **Taxable investment risk.** Although distributions of interest income from the fund's tax-exempt securities are generally exempt from regular federal income tax, distributions from other sources, including capital gain distributions, and any gains on the sale of your shares are not. In addition, the interest on the fund's municipal securities could become subject to regular federal income tax or the AMT due to noncompliant conduct by issuers, unfavorable legislation or litigation, or adverse interpretations by regulatory authorities. You should consult a tax adviser about whether the AMT applies to you and about state and local taxes on your fund distributions.
- **Risks of investing in "when-issued," delayed delivery, to be announced and forward commitment transactions.** The market value of these transactions may increase or decrease as a result of changes in interest rates. These transactions involve risk of loss if the value of the underlying security changes unfavorably before the settlement date or if the assets set aside to pay for these securities decline in value prior to the settlement date. Therefore, these transactions may have a leveraging effect on the fund, making the value of an investment in the fund more volatile and increasing the fund's overall investment exposure. There is also a risk that the security will not be issued or that the other party to the transaction will default on its obligation to purchase or sell the security, which may result in the fund missing the opportunity to obtain a favorable price or yield elsewhere.
- **Structured securities risk.** Structured securities may behave in ways not anticipated by the fund, or they may not receive the tax, accounting or regulatory treatment anticipated by the fund.
- **Synthetic municipal securities risk.** The tax-exempt character of the interest paid on tender option bonds, bond receipts and similar synthetic municipal securities, a type of derivative instrument, is based on the tax-exempt income stream from the collateral. In addition to the risks of investing in municipal securities and in derivatives generally, investments in synthetic municipal

FIRM BROCHURE

securities are subject to the risk that income derived from such securities is deemed to be taxable.

- **Money market fund risks.** You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time. You should be aware that money market funds have, in the past, "broken the buck," which means that investors did not receive \$1.00 per share for their investment in those funds, and this could happen again. If a money market fund breaks the buck or if money market funds are perceived to be likely to do so, there could be significant redemptions from money market funds, driving market prices of securities down and making it more difficult for the fund to maintain a \$1.00 per share net asset value. In the past, the adviser and its affiliates have reimbursed or otherwise reduced the fund's expenses and the adviser has waived a portion of its management fee in an effort to maintain a net asset value of \$1.00 per share, for the purpose of avoiding a negative yield or increasing the fund's yield. The adviser and its affiliates may, but are not required to, continue to waive and/or reimburse fees in the future. Any such expense reimbursements, reductions or waivers are voluntary and temporary and may be terminated by the adviser at any time without notice. The adviser may not recapture fees and expenses previously waived and/or reimbursed.
- **Yield risk.** The amount of income received by the fund will go up or down depending on day-to-day variations in short-term interest rates, and when interest rates are very low the fund's expenses could absorb all or a significant portion of the fund's income. If interest rates increase, the fund's yield may not increase proportionately. For example, the fund's adviser may discontinue any temporary voluntary fee waivers. In addition, the implementation of the new requirements recently adopted for money market funds could have a negative effect on the fund's yield.
- **Redemption risk.** The fund may experience periods of heavy redemptions that could cause the fund to liquidate its assets at inopportune times or at a loss or depressed value, particularly during periods of declining or illiquid markets, and that could affect the fund's ability to maintain a \$1.00 share price. Redemption risk is greater to the extent that the fund has investors with large shareholdings, short investment horizons, or unpredictable cash flow needs. The redemption by one or more large shareholders of their holdings in the fund could cause the remaining shareholders in the fund to lose money. In addition, the fund may suspend redemptions when permitted by applicable

FIRM BROCHURE

regulations.

- **Risk of disadvantaged access to confidential information.** The adviser's decision not to receive material, non-public information about an issuer of a loan either held by, or considered for investment by, the fund, under normal circumstances could place it at a disadvantage, relative to other loan investors, in assessing a loan or the loan's issuer, and adversely affect the fund's investment performance.

Please refer to each Domestic Fund's Prospectus and Statement of Additional Information for additional information on a fund's strategies and risks.

Disciplinary Information

Neither Amundi Pioneer nor any of its management persons has been subject to any legal or disciplinary events that are material to a client's or prospective client's evaluation of Amundi Pioneer's advisory business or the integrity of Amundi Pioneer's management.

Other Financial Industry Activities and Affiliations

Amundi Pioneer has a number of relationships with related persons that are material to its advisory business or its clients.

Amundi Pioneer is affiliated with Amundi Pioneer Institutional, which, like Amundi Pioneer, is an indirect wholly owned subsidiary of Amundi USA Inc.. Amundi Pioneer Institutional is a registered investment adviser primarily engaged in providing investment management services to unregistered pooled investment vehicles and separate accounts. Amundi Pioneer Institutional is registered with the CFTC as a CPO and a CTA.

Amundi Pioneer is affiliated with Amundi Smith Breeden, which is a wholly owned subsidiary of Amundi USA, Inc. Amundi Smith Breeden is a registered investment adviser primarily engaged in providing investment management services to unregistered pooled investment vehicles. Amundi Smith Breeden is registered with the CFTC as a CPO and a CTA. Employees of Amundi Smith Breeden who provide portfolio management, trade management and related services may also work for Amundi Pioneer.

FIRM BROCHURE

Amundi Pioneer may appoint sub-advisers for Domestic Funds, and other similarly managed accounts such as private funds and Off-Shore Funds and pay such sub-advisers a portion of the fee received.

Amundi Pioneer may, from time to time, change or recommend a change in a sub-adviser for a fund. Amundi Pioneer will benefit to the extent that it recommends replacing a sub-adviser with another sub-adviser with a lower sub-advisory fee, or if Amundi Pioneer recommends appointing an affiliated sub-adviser.

Amundi Pioneer provides various support services to Amundi Pioneer Institutional, including trade management and related services. Employees of Amundi Pioneer Institutional who provide portfolio management, trade management and related services may also work for Amundi Pioneer. Amundi Pioneer Institutional and Amundi Pioneer use various similar policies and procedures, including trading related policies and procedures. The orders to buy and/or sell securities or other financial instruments for Amundi Pioneer Institutional's and Amundi Pioneer's clients are handled through a central trading desk or by individuals working for both Amundi Pioneer and Amundi Pioneer Institutional.

Amundi Pioneer manages registered investment companies (the Pioneer family of funds) and other client accounts with investment strategies similar to those client accounts managed by Amundi Pioneer Institutional. Securities frequently meet the investment objectives of one or more investment strategies of Amundi Pioneer Institutional clients and Amundi Pioneer managed funds and other clients of Amundi Pioneer. In such cases, the decision to recommend a purchase to one client or fund rather than another is based on a number of factors. In determining which securities to buy or sell for a client and in what amount, Amundi Pioneer may consider a variety of factors, including the client's investment objectives and strategies, the client's diversification and liquidity requirements, the size of the client's account, tax implications, the marketability of the securities, the characteristics of the client's account and other relevant factors, such as the size of an available purchase or sale opportunity, the extent to which an available opportunity would represent a meaningful portion of the client's account, and the availability of comparable opportunities. Other factors considered include the amount of securities of the issuer then outstanding, the value of those securities and the market for them. Amundi Pioneer may make purchase and sale decisions with respect to a particular client account that may be the same as, or differ from, the recommendations made, or the timing or nature of the action taken, with respect to other accounts.

It is possible that at times identical securities will be held by more than one fund and/or account managed by Amundi Pioneer and its affiliate Amundi Pioneer Institutional. However, positions in the same issue may vary and the length of time that any fund or account may choose to hold its investment in the same issue may likewise vary. To the extent that multiple clients and/or funds or other clients of Amundi Pioneer seek to acquire the same security at about the same time, a fund or client account may not be able to acquire as large a position in such security as is desired or it may have to pay a higher price for the security. Similarly, a fund or client account may not be able to obtain as large an execution of an order to sell or as high a price for any particular portfolio security if Amundi Pioneer and/or Amundi Pioneer Institutional decides to sell the same portfolio security at the same time on behalf of other funds or accounts. On the

FIRM BROCHURE

other hand, if the same securities are bought or sold at the same time by more than one fund or client account, the resulting participation in volume transactions could produce better executions for the fund or account. In the event more than one fund or account purchases or sells the same security on a given date, the purchases and sales will normally be made as nearly as practicable on a pro rata basis in proportion to the amounts desired to be purchased or sold by such funds or accounts. Although the other funds and accounts managed by Amundi Pioneer may have the same or similar investment objectives and policies as another fund or account managed by Amundi Pioneer, their portfolios do not generally consist of exactly the same investments and their performance results are likely to differ.

The “Performance-Based Fees and Side-by-Side Management” section of this Brochure provides information on how investment opportunities and trades are allocated in an effort to avoid such conflicts of interest.

Amundi Pioneer may recommend investments in securities that also may be owned by its affiliates, officers or employees (either directly or through pooled investment vehicles in which such persons have invested) or clients of related investment advisers of Amundi Pioneer.

Amundi Pioneer has adopted a Conflicts of Interest Policy that is designed to establish a framework for identifying circumstances and relationships that might constitute a conflict of interest and to address these conflicts in a manner that is fair and equitable to Amundi Pioneer’s clients and to Amundi Pioneer and does not disadvantage a client. This policy requires the full disclosure of actual or potential conflicts of interests with clients. If a potential conflict cannot be resolved or eliminated, internal controls will be designed to oversee the conduct or business practice. The conduct or business practice may be discontinued.

APAMUSA, Amundi Pioneer Distributor, Inc. (“Amundi Pioneer Distributor”), Amundi Pioneer Institutional and Amundi Pioneer are indirect wholly owned subsidiaries of Amundi. Amundi has other subsidiaries that are engaged in the investment management business that are not registered as investment advisers under the Investment Advisers Act.

Amundi Pioneer Distributor, a wholly owned subsidiary of Amundi Pioneer, is a broker-dealer registered with the SEC and is a member of the Financial Industry Regulatory Authority. Amundi Pioneer Distributor primarily is engaged in the marketing and sale of mutual funds and receives compensation from the Funds for such services. Amundi Pioneer Distributor is the principal underwriter of the Domestic Funds.

Pursuant to an agreement (the “Participating Affiliate Agreement”) between Amundi Pioneer and its affiliate, Amundi Pioneer Investment Management Limited (“Amundi Pioneer Dublin”), Amundi Pioneer Dublin provides certain administrative, investment management and trading services to Amundi Pioneer, including the services of Amundi Pioneer Dublin’s research, portfolio management, compliance and trading staff. Amundi Pioneer Dublin is engaged in an investment advisory business outside the United States.

FIRM BROCHURE

In managing client accounts, Amundi Pioneer may utilize the trade execution services of its affiliates, Amundi Pioneer Dublin and Amundi Pioneer Investments Kapitalanlagegesellschaft mbH (“Amundi Pioneer Munich”) for order execution and corresponding operational support. Amundi Pioneer may seek to execute trades through an affiliate when Amundi Pioneer believes that it would be in the best interests of a client and consistent with Amundi Pioneer’s obligation to seek best execution. Each affiliate provides order execution services to Amundi Pioneer pursuant to a participating affiliate arrangement. In connection with the provision of services to Amundi Pioneer, each affiliate has appointed the SEC as its agent for service of process within the jurisdiction of the United States. Amundi Pioneer and each affiliate is operating under the applicable participating affiliate arrangement in reliance upon the Royal Bank of Canada No-Action Letter, dated June 3, 1998. Among the potential benefits relating to the use of affiliates for order execution services are the possibility of improved price discovery through local market expertise and improved quality and timing of execution and liquidity opportunities. Amundi Pioneer will not seek to execute trades through Amundi Pioneer Dublin or Amundi Pioneer Munich if explicitly restricted by a client’s investment management agreement with Amundi Pioneer or if otherwise restricted by a client.

Amundi has other subsidiaries that are engaged in the banking and insurance businesses in numerous countries. Amundi’s portfolio management activity is organized at a local level. In addition to the portfolio management activity of Amundi Pioneer in Boston, Amundi conducts portfolio management operations in numerous countries. Amundi and its subsidiaries may own investment securities, and from time to time, Amundi Pioneer will make an investment decision on behalf of its clients to purchase or sell a security in which Amundi or one of its other subsidiaries has positions or interests subject to applicable law. Amundi Pioneer’s portfolio managers operate separately and independently of any portfolio managers that make decisions to purchase and sell securities on behalf of Amundi. It is Amundi Pioneer’s policy not to purchase or sell securities on behalf of clients based on any position or interest that Amundi or other subsidiaries may have in such securities.

Amundi has joint venture investments in other entities, any of which may be considered affiliated companies or related persons of Amundi Pioneer (“Amundi Affiliates”). Certain of these Amundi Affiliates are involved in international venture capital and others provide investment advice and/or make investments in securities for their own or client accounts. Subject to applicable law, Amundi Pioneer may purchase or sell for, or recommend for purchase or sale by, a client account securities that such Amundi Affiliates may own, directly or indirectly. Additionally, affiliated advisers may recommend to their clients, or invest on behalf of their clients in securities that are the subject of recommendations to, or discretionary trading on behalf of, Amundi Pioneer’s U.S.-based clients. While each of these entities may act independently from Amundi Pioneer with respect to making investment decisions for client accounts or, if applicable, for a proprietary account, investment information and data is exchanged between or among Amundi Pioneer and some or all of such Amundi Affiliates.

In contrast to the portfolio management activities described above, Amundi has research activities globally. Research is communicated via email to global investment staff, including investment personnel of Amundi Pioneer. All documents are emailed and housed in a proprietary document management system for real-time communication of research to all

FIRM BROCHURE

members of investment management on a global basis. Research is communicated throughout the organization, giving portfolio managers the opportunity to react accordingly.

Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Amundi Pioneer has adopted a Code of Ethics pursuant to Rule 204A-1 under the Investment Advisers Act. Among other things, Amundi Pioneer's Code of Ethics requires supervised persons of Amundi Pioneer to comply with federal securities laws, and to adhere to certain standards of business conduct that reflect Amundi Pioneer's fiduciary obligations to its clients. In addition, supervised persons of Amundi Pioneer who participate in or have access to investment decisions on behalf of Amundi Pioneer's clients must report his or her personal securities transactions and holdings to Amundi Pioneer, pre-clear certain transactions with Amundi Pioneer's Compliance Department, and refrain from engaging in certain investment activities. Certain investment personnel of Amundi Smith Breeden are required to comply with Amundi Pioneer's Code of Ethics. To the extent Amundi Pioneer retains a sub-adviser with respect to any account under its management, Amundi Pioneer requires that such sub-adviser adopt a code of ethics that complies with the requirements of Rule 204A-1 under the Investment Advisers Act.

One of the key objectives of the Amundi Pioneer Code of Ethics is to prevent personal trades by Amundi Pioneer officers and employees based on information about securities transactions made for advisory clients. Each officer or employee with access to advisory client information must obtain pre-clearance for all reportable securities transactions in his or her personal accounts, ("Access Person").

Each Amundi Pioneer employee must observe the following fiduciary principles with respect to his or her personal investment activities:

- At all times, each Amundi Pioneer employee must place the interests of advisory clients first;
- Personal securities transactions of employees must be conducted in a manner designed to avoid actual or potential conflicts of interest with the interests of any advisory client or any abuse of the employee's position of trust and responsibility; and
- Each Amundi Pioneer employee must avoid actions or activities that would allow him or her to inappropriately profit or benefit from his or her position at Amundi Pioneer, or that otherwise brings into question the employee's independence or judgment.

A copy of the Code of Ethics will be provided to any client or prospective client upon request.

Brokerage Practices

Subject to any directed brokerage arrangements, it is the policy of Amundi Pioneer to select brokers or counterparties to execute client transactions in a manner that is consistent with the fiduciary obligations of Amundi Pioneer to the client for whom the transaction is being executed, and to employ a trading process that attempts to maximize the value of a client's portfolio within the client's stated investment objectives and constraints. The policy embodies the obligation of an adviser to seek what is commonly referred to as "best execution." Best execution means that the total costs or proceeds to a client are the most favorable under the circumstances. Best execution does not mean that Amundi Pioneer must obtain the lowest possible commission cost (or markup or markdown), but rather means that Amundi Pioneer should seek to obtain the best overall qualitative execution for the client.

Amundi Pioneer will place orders pursuant to its investment determinations for each client either directly with the issuer or with any broker or dealer, foreign currency dealer, futures commission merchant or others selected by it. Amundi Pioneer will seek the best overall execution available in the selection of brokers or dealers or counterparties and the placing of orders for each client. In assessing the best execution available for any transaction, Amundi Pioneer may consider factors it deems relevant, including the size and type of the transaction, the nature and character of the markets for the security to be purchased or sold, the execution capabilities and financial condition of the broker or dealer or counterparty, and the reasonableness of the commission or dealer spread, if any (whether for a specific transaction or on a continuing basis).

In connection with the selection of such brokers or dealers and the placing of such orders, subject to applicable law, brokers or dealers may be selected who also provide brokerage and research services (as those terms are defined in Section 28(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")) ("soft dollar benefits") to the client and/or the other accounts over which Amundi Pioneer or its affiliates exercise investment discretion. Consistent with Section 28(e), if Amundi Pioneer determines in good faith that the amount of commissions charged by a broker-dealer is reasonable in relation to the value of the brokerage and research services provided by the broker-dealer, a client may pay commissions (or markups or markdowns) to the broker-dealer in an amount greater than the amount another firm may charge. These services may include advice concerning the value of securities; the advisability of investing in, purchasing or selling securities; the availability of securities or the purchasers or sellers of securities; providing stock quotation services, credit rating service information and comparative fund statistics; furnishing analyses, electronic information services, manuals and reports concerning issuers, industries, securities, economic factors and trends, portfolio strategy, and performance of accounts and particular investment decisions; and effecting securities transactions and performing functions incidental thereto (such as clearance and settlement). Amundi Pioneer benefits when it uses client brokerage commissions (or markups or markdowns) to obtain research or other services that it would otherwise have to produce or purchase.

FIRM BROCHURE

Amundi Pioneer maintains a listing of broker-dealers who provide such services on a regular basis. However, because many transactions on behalf of a client and other investment companies or accounts managed by Amundi Pioneer are placed with broker-dealers (including broker-dealers on the listing) without regard to the furnishing of such services, it is not possible to estimate the proportion of such transactions directed to such broker-dealers solely because such services were provided. Amundi Pioneer believes that no exact dollar value can be calculated for such services.

The research received from broker-dealers may be useful to Amundi Pioneer in rendering investment management services to the client whose account generated the soft dollar benefit, as well as other investment companies or other accounts managed by Amundi Pioneer, although not all such research may be useful to a client. Conversely, such information provided by brokers or dealers who have executed transaction orders on behalf of such other accounts may be useful to Amundi Pioneer in carrying out its obligations to a client. The receipt of such research enables Amundi Pioneer to avoid the additional expenses that might otherwise be incurred if it were to attempt to develop comparable information through its own staff. Amundi Pioneer will seek to allocate soft dollar benefits to client accounts proportionately to the soft dollar credits the accounts generate.

Promotional or sales efforts provided or conducted by broker-dealers are not considered in the selection of broker-dealers.

Certain brokerage and research services also may assist Amundi Pioneer beyond the investment decision-making process. In such instances, Amundi Pioneer will determine the portion of such brokerage and research not used in the investment decision-making process and will pay for such portion out of its own funds. Amundi Pioneer maintains a list of broker-dealers that regularly provide these services. However, because many transactions on behalf of accounts managed by Amundi Pioneer are placed with broker-dealers (including broker-dealers on the list) without regard to the furnishing of additional services, it is not possible to estimate the proportion of transactions directed to broker-dealers solely because they provide other services.

Certain accounts may have directed brokerage arrangements or other limitations that restrict Amundi Pioneer's ability to aggregate orders for such accounts with orders for other accounts and provide best execution. In those cases, Amundi Pioneer will make an effort to obtain prices comparable to those obtained for unrestricted accounts; however, trades for restricted accounts will generally occur after trades for unrestricted accounts. Trades will be prioritized among restricted accounts in a fair and equitable manner. In directed brokerage arrangements, Amundi Pioneer may not be in a position to negotiate freely commission rates or spreads, obtain volume discounts on aggregated orders or select broker/dealer on the basis of best price and execution, and, as a result, the directed brokerage transactions may result in higher commissions, greater spreads or less favorable execution on some transactions than would be the case if Amundi Pioneer were free to choose the broker/dealer. Amundi Pioneer does not engage in activities such as directing brokerage to a broker-dealer who either has made a referral or has been designated by a solicitor.

FIRM BROCHURE

Amundi Pioneer will aggregate orders to purchase or sell the same security for multiple accounts if permitted by a client. Whenever Amundi Pioneer aggregates orders, all accounts that participate in the transaction will participate on a pro rata or other objective basis. Please see “Side by Side Management” and “Other Financial Industry Activities and Affiliations” for information on conflicts of interest.

Cross trading generally refers to the practice by which Amundi Pioneer causes an account to buy or sell securities from or to another account. Amundi Pioneer will only engage in a cross trade where it has determined that such trade is in the best interests of each account and is otherwise consistent with Amundi Pioneer’s fiduciary duty to each account. Amundi Pioneer may trade securities between accounts for a variety of reasons, including, to manage cash flows; to maintain appropriate compositions and weightings; where securities owned by one account subsequently become less appropriate for that account and more appropriate for a different account; or other instances where portfolio management requirements indicate that accounts will be buying and selling the same securities and the purchase and sale decision is made independently for each account.

However, cross trades can be affected in a manner that may be perceived to favor one account over another. For instance, an investment adviser may be viewed as crossing securities that are expected to increase in value from accounts paying lower fees to accounts paying higher fees (e.g., performance-based fees) or to investment companies of which the investment performance is important to the marketing of shares of such investment companies. Conversely, an investment adviser may be perceived as crossing securities that are expected to decrease in value from accounts paying higher performance-based fees to accounts paying lower performance-based fees.

In effecting cross trades, Amundi Pioneer is subject to the rules and regulations applicable to its activities as a registered investment adviser and the rules and regulations applicable to its accounts, such as the Investment Advisers Act of 1940, Investment Company Act, The Employee Retirement Income Security Act of 1974 (“ERISA”) and the rules and regulations of certain foreign regulatory authorities, such as the Bank of Italy. The portions of this policy required by Rule 17a-7 under the Investment Company Act, constitutes the procedure required under Rule 17a-7 for the Domestic Funds managed by Amundi Pioneer.

Amundi Pioneer may enter into transactions for clients with affiliated funds or other clients (known as “crossing securities” or “cross trades”), subject to applicable law. Amundi Pioneer believes that the potential benefit to client accounts that may result from crossing securities outweighs the potential risks. Cross trades are effected pursuant to procedures established by Amundi Pioneer. Amundi Pioneer will cross securities between client accounts where possible if it is in the best interests of the account.

All cross trades are properly categorized as such on Amundi Pioneer’s trade management system. Each cross trade is reported on a quarterly basis to the global compliance department and upon request to a respective client.

FIRM BROCHURE

In managing client accounts, Amundi Pioneer may utilize the trade execution services of a non-U.S. affiliate (see “Other Financial Industry Activities and Affiliations”).

Review of Accounts

The investment management functions of Amundi Pioneer are organized into three main areas: portfolio management, research (which includes fundamental research, quantitative research and investment risk) and trading.

Management of the Amundi Pioneer portfolios is grouped into teams according to common elements of market, style and objective (e.g., international equity, domestic equity (comprised of small company investment, large and mid-cap value and growth investments, and core investments) and fixed income). Each team consists of investment professionals who meet regularly to discuss holdings, prospective investments and portfolio composition. Day-to-day management of a portfolio is the responsibility of a designated portfolio manager or team of portfolio managers.

Accounts also are reviewed by Amundi Pioneer’s Investment Committee, which meets monthly to:

- Review and evaluate investment performance;
- Review and approve the development, modification and use of investment strategies, techniques and instruments;
- Review and evaluate the feasibility of all product-related proposals, including investment capability and allocation of resources; and
- Review and address investment-related compliance matters.

In addition, Amundi Pioneer’s Compliance Department provides an ongoing review of the investment activities with respect to each client account in an effort to ensure that the assets of such account are managed in conformity with investment guidelines applicable to the account.

The Compliance Department monitors investment compliance using an automated compliance tool, BlackRock Solutions (“BRS”). In general, equity orders are tested for compliance before execution of a transaction. For the majority of transactions BRS is used to test fixed income trades for compliance with investment guidelines on a pre-trade basis. There are instances, however, where due to the purchased security, or the trade being transacted via a phone call, compliance is monitored immediately after execution of a transaction on a pre-allocation basis. We also conduct nightly fixed income compliance checks on all accounts (“batch monitoring”).

Certain fixed income trades are reviewed for immediate post-execution compliance on trade date. Trades are required to be entered into the order management system, which will run the compliance checks within two hours of execution. As most securities are purchased in blocks (including allotments for other commonly managed accounts), any purchase that will cause the portfolio with a limit to be out of compliance is not allowed to proceed further in the trade flow.

FIRM BROCHURE

Investment limitations that cannot be tested by the automated compliance system normally are monitored manually.

As noted above, individuals employed by Amundi Pioneer Dublin may provide administrative and portfolio management services to certain of Amundi Pioneer's clients using a similar research and portfolio management structure as that employed by Amundi Pioneer.

Members of the portfolio management teams for each of the Domestic Funds regularly report to the Boards of Trustees of the Domestic Funds regarding the Funds' performance. In addition, each of the Domestic Funds provides shareholders with a semi-annual written report containing performance and financial information, as required by applicable law. The Domestic Funds also file with the SEC an annual report regarding the Funds' proxy voting records and a quarterly report regarding the Funds' portfolio holdings.

Audited financial statements of private funds will generally be prepared and delivered to shareholders within 120 days or as soon thereafter as is reasonably practicable following the close of each fiscal year. Each shareholder is provided with unaudited performance information and account statements at least monthly. Unless otherwise restricted by law, all reports, financial statements, and other information may be delivered to shareholders electronically.

Client Referrals and Other Compensation
--

Amundi Pioneer does not utilize or pay for external marketers in connection with solicitation with respect to the Off-Shore Funds.

Affiliates of Amundi Pioneer ("Amundi Pioneer Affiliates") make revenue sharing payments as incentives to certain financial intermediaries to promote and sell shares of the Domestic Funds. The benefits Amundi Pioneer Affiliates receive when they make these payments include, among other things, entry into or increased visibility in the financial intermediary's sales system, participation by the intermediary in the distributor's marketing efforts (such as helping facilitate or providing financial assistance for conferences, seminars or other programs at which Amundi Pioneer personnel may make presentations on the funds to the intermediary's sales force), placement on the financial intermediary's preferred fund list, and access (in some cases, on a preferential basis over other competitors) to individual members of the financial intermediary's sales force or management. Revenue sharing payments are sometimes referred to as "shelf space" payments because the payments compensate the financial intermediary for including the Domestic Funds in its fund sales system (on its "shelf space"). Amundi Pioneer Affiliates compensate financial intermediaries differently depending typically on the level and/or type of considerations provided by the financial intermediary. The revenue sharing payments Amundi Pioneer Affiliates make may be calculated on sales of shares of the Domestic Funds ("Sales-Based Payments"); although there is no policy limiting the amount of Sales-Based Payments any one financial intermediary may receive, the total amount of such payments normally does not exceed 0.25% per annum of those assets. Such payments also may be calculated on the average

FIRM BROCHURE

daily net assets of the applicable Domestic Funds attributable to that particular financial intermediary (“Asset-Based Payments”); although there is no policy limiting the amount of Asset-Based Payments any one financial intermediary may receive, the total amount of such payments normally does not exceed 0.16% per annum of those assets. Sales- Based Payments primarily create incentives to make new sales of shares of the Domestic Funds and Asset-Based Payments primarily create incentives to retain previously sold shares of the Domestic Funds in investor accounts. Amundi Pioneer Affiliates may pay a financial intermediary either or both Sales-Based Payments and Asset-Based Payments.

Amundi Pioneer Affiliates also may make payments to certain financial intermediaries that sell Domestic Fund shares for certain administrative services, including record keeping and sub-accounting for shareholder accounts, to the extent that the funds do not pay for these costs directly. Amundi Pioneer Affiliates also may make payments to certain financial intermediaries that sell the Domestic Fund shares in connection with client account maintenance support, statement preparation and transaction processing. The types of payments that Amundi Pioneer Affiliates may make under this category include, among others, payment of ticket charges per purchase or exchange order placed by a financial intermediary, payment of networking fees in connection with certain mutual fund trading systems, or one-time payments for ancillary services such as setting up funds on a financial intermediary’s mutual fund trading system.

From time to time, Amundi Pioneer Affiliates, at their expense, may provide additional compensation to financial intermediaries that sell or arrange for the sale of shares of the Domestic Funds. Such compensation provided by Amundi Pioneer Affiliates may include financial assistance to financial intermediaries that enable Amundi Pioneer Affiliates to participate in and/or present at conferences or seminars, sales or training programs for invited registered representatives and other employees, client entertainment, client and investor events, and other financial intermediary-sponsored events, and travel expenses, including lodging incurred by registered representatives and other employees in connection with client prospecting, retention and due diligence trips. Other compensation may be offered to the extent not prohibited by federal or state laws or any self-regulatory agency, such as FINRA. Amundi Pioneer Affiliates make payments for entertainment events they deem appropriate, subject to Amundi Pioneer Affiliates’ guidelines and applicable law. These payments may vary depending upon the nature of the event or the relationship.

As of January 1, 2017, Amundi Pioneer anticipates that the following broker-dealers or their affiliates will receive additional payments as described in the Domestic Funds’ prospectuses and statements of additional information:

Amundi Pioneer has entered into a solicitation agreement with its affiliates, Amundi Pioneer Institutional and Amundi Smith Breeden, to direct clients to Amundi Pioneer for advisory management services subject to the requirements of Rule 206(4)-3 under the Investment Advisers Act. Under that arrangement, Amundi Pioneer pays the solicitor affiliate for such services based on fee rates established from time to time pursuant to intercompany fee arrangements that consider the competitive range of fees for similar services. The clients of Amundi Pioneer are not charged for any fees paid to such firms.

Custody

Amundi Pioneer does not maintain custody over client assets. Amundi Pioneer does not have the ability to deduct fees from any account, including those of Domestic Funds, private funds, Offshore Funds or other client accounts.

Investment Discretion

As an investment adviser primarily to open and closed-end mutual funds, Amundi Pioneer has discretionary authority to purchase securities on behalf of such Domestic Funds. Amundi Pioneer's investment decisions with respect to the Domestic Funds are limited by Investment Company Act rules as well as other rules and restrictions that are set forth in each Fund's prospectus and statement of additional information. In order for Amundi Pioneer to remain the investment adviser of each Domestic Fund, the Trustees of the Fund must determine annually whether to renew the investment advisory agreement for the Fund.

With respect to accounts other than Domestic Funds, Amundi Pioneer usually receives discretionary authority from the client at the outset of an advisory relationship to select the identity and amount of securities to be bought or sold. In all cases, however, such discretion is to be exercised in a manner consistent with the stated investment objectives for the particular account and the investment advisory agreement for such client. Amundi Pioneer requires an executed management agreement before assuming discretionary investment authority.

Investment guidelines and restrictions must be provided to Amundi Pioneer in writing.

Voting Client Securities

Amundi Pioneer has adopted policies and procedures concerning the voting of proxies on behalf of client accounts.

When delegating proxy-voting authority for a client, Amundi Pioneer will vote proxies presented in a timely manner in a manner consistent with the best interest of its clients. Amundi Pioneer's sole concern in voting proxies is the economic effect of the proposal on the value of portfolio holdings. Amundi Pioneer's proxy voting policies and procedures are designed to complement Amundi Pioneer's policies and procedures regarding its general responsibility to monitor the performance and/or corporate events of companies that are issuers of securities held in accounts managed by Amundi Pioneer. Amundi Pioneer's proxy voting policies summarize Amundi Pioneer's position on a number of issues solicited by companies held by Amundi Pioneer's clients. The policies are guidelines that provide a general indication on how Amundi Pioneer would vote but do not include all potential voting scenarios.

The overriding goal is that all proxies for US and non-US companies that are received promptly will be voted in accordance with Amundi Pioneer's policies or specific client instructions. All shares of an issuer held by accounts managed by Amundi Pioneer will be voted alike, unless a client has given Amundi Pioneer specific voting instructions on an issue or Amundi Pioneer determines that the circumstances justify a different approach.

FIRM BROCHURE

Amundi Pioneer has engaged an independent proxy voting service to assist in the voting of securities. The proxy voting service works with the custodians to ensure all proxy materials are received by the custodians and processed in a timely manner. To the extent applicable, the proxy voting service votes all proxies in accordance with Amundi Pioneer's proxy voting guidelines. The proxy voting procedures describe circumstances in which the proxy voting service will refer proxy questions to Amundi Pioneer.

Amundi Pioneer addresses potential material conflicts of interest by having a predetermined proxy voting policy. A Proxy Voting Oversight Group along with a Proxy Coordinator is responsible for monitoring potential conflicts of interest in connection with the voting of proxies on behalf of Amundi Pioneer clients.

Any associate involved in the proxy voting process with knowledge of any apparent or actual conflict of interest must disclose such conflict to the Proxy Coordinator and the Chief Compliance Officer of Amundi Pioneer and Funds. The Proxy Voting Oversight Group will review each item referred to Amundi Pioneer by the proxy voting service to determine whether an actual or potential conflict of interest with Amundi Pioneer exists in connection with the proposal(s) to be voted upon. The review will be conducted by comparing the apparent parties affected by the proxy proposal being voted upon against the Proxy Coordinator's and Compliance Department's internal list of interested persons and, for any matches found, evaluating the anticipated magnitude and possible probability of any conflict of interest being present. For each referral item, the determination regarding the presence or absence of any actual or potential conflict of interest will be documented in a Conflicts of Interest Report prepared by the Proxy Coordinator.

Clients may review Amundi Pioneer's proxy voting policies and procedures online at <http://www.pioneerinvestments.com>. Clients also may request a copy of applicable voting records by contacting Amundi Pioneer. Information regarding how a Domestic Fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 also is publicly available to shareowners without charge at <http://www.pioneerinvestments.com> and on the SEC's website at <http://www.sec.gov>.

Financial Information

Amundi Pioneer does not have a financial condition that is reasonably likely to impair its ability to meet contractual commitments to clients. Amundi Pioneer has not been the subject of a bankruptcy proceeding.

Business Continuity

Amundi Pioneer has implemented a Business Continuity policy that describes the firm's program to respond to a significant business disruption or other failure in its ability to continue to conduct business or meet its obligations to its clients. As a subsidiary of APAMUSA, Amundi Pioneer is

FIRM BROCHURE

included in APAMUSA's Business Continuity Plan ("BCP Plan"). The BCP Plan, which is maintained by Amundi Pioneer's Risk Management Department, is updated upon any material change to APAMUSA's operations, structure, business, or location and distributed to the Management Committee of Amundi Pioneer at least annually.

The BCP Plan is based on an assessment of the following: identification of significant business disruptions; description of Amundi Pioneer's mission-critical operations; and description or assessment of Amundi Pioneer's operational risk, such as loss of communication systems, loss of access to, or total loss of, paper, books and records, loss of access to electronic records, loss of access to the building, or loss of personnel. The Business Continuity policy summarizes key elements of the BCP Plan.

The firm contracts with SunGard to provide a redundant data center and dedicated work area recovery site in Marlborough, MA, that includes recovery of all operations and critical systems, including trading and accounting systems, key network files, and email systems. This facility is augmented with remote access to all mission critical systems capabilities for the firm's staff. The firm conducts business-wide operational tests of the facility, including with fixed income and equity trading, operations and compliance staff, supported by technology and general service teams twice annually.

Privacy

Amundi Pioneer has adopted policies and procedures relating to the collection of confidential client information in accordance with Regulation S-P. A copy of the privacy notice is available on request and will be offered to clients annually as required by Regulation S-P.
