This brochure provides information about the qualifications and business practices of CORDA Investment Management, LLC. If you have any questions about the contents of this brochure, please contact us at (713) 439-0665. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about CORDA Investment Management, LLC is also available on the SEC's website at www.adviserinfo.sec.gov. The searchable IARD/CRD number for CORDA Investment Management, LLC is 108046.

CORDA Investment Management, LLC is a Registered Investment Adviser. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Item 2 Summary of Material Changes

Form ADV Part 2 requires registered investment advisers to amend their brochure when information becomes materially inaccurate. If there are any material changes to an adviser's disclosure brochure, the adviser is required to notify you and provide you with a description of the material changes.

Since our last annual updating amendment, dated March 2, 2016 we have had no material changes to our Brochure.

Item 4 Advisory Business

Description of Services and Fees

CORDA Investment Management, LLC is a registered investment adviser based in Houston, Texas. We are organized as a limited liability company under the laws of the State of Texas. We have been providing investment advisory services since 1999. Bonner C. Barnes is the owner and John Schloegel is Chief Compliance Officer. Currently, we offer Portfolio Management Services and Pension Consulting. These services are custom made for each of our clients.

The following paragraphs describe our services and fees. Refer to the descriptions of the advisory services below for information on how we tailor our advisory services to your individual needs. As used in this brochure, the words "we", "our" and "us" refer to CORDA Investment Management, LLC and the words "you", "your" and "client" refer to you as either a client or prospective client of our firm. Also, you may see the term Associated Person throughout this brochure. As used in this brochure, our Associated Persons are our firm's officers, employees, and all individuals providing investment advice on behalf of our firm.

Portfolio Management Services

We offer discretionary portfolio management services to our clients and prospective clients. Our investment advice is tailored to meet our clients' needs and investment objectives. If you retain our firm for portfolio management services, we will meet with you to determine your investment objectives, risk tolerance, and other relevant information (the "suitability information") at the beginning of our advisory relationship. We will use the suitability information we gather from our initial meeting to develop a strategy that enables our firm to give you continuous and focused investment advice and/or to make investments on your behalf. As part of our portfolio management services, we will customize an investment portfolio for you in accordance with your risk tolerance and investing objectives. Once we construct an investment portfolio for you we will monitor your portfolio's performance on an ongoing basis, and will rebalance the portfolio as required by changes in market conditions and in your financial circumstances.

If you participate in our discretionary portfolio management services, we require you to grant our firm discretionary authority to manage your account. Discretionary authorization will allow our firm to determine the specific securities, and the amount of securities, to be purchased or sold for your account without your approval prior to each transaction. Discretionary authority is typically granted by the investment advisory agreement you sign with our firm or trading authorization forms. You may limit our discretionary authority (for example, limiting the types of securities that can be purchased or sold for your account) by providing our firm with your restrictions and guidelines in writing.

Financial Planning Services

We offer financial planning services which typically involve providing a variety of advisory services to clients regarding the management of their financial resources based upon an analysis of their individual needs. These services can range from broad-based financial planning to consultative or single subject planning. If you retain our firm for financial planning services, we will meet with you to gather information about your financial circumstances and objectives. Once we determine your current financial position and define and quantify your long-term goals and objectives (both financial and non-financial), we will develop shorter-term, targeted objectives. Once we review and analyze the information you provide to our firm we will prepare a Financial Plan designed to help you achieve your stated financial goals and objectives and deliver it to you. We may also use an unaffiliated third party adviser to prepare the Financial Plan after we meet with you to gather information about your financial circumstances and objectives.

Financial plans are based on your financial situation at the time we present the plan to you, and on the financial information you provide to us. You must promptly notify our firm if your financial situation, goals, objectives, or needs change.

You are under no obligation to act on our financial planning recommendations. Should you choose to act on any of our recommendations, you are not obligated to implement the financial plan through any of our other investment advisory services. Moreover, you may act on our recommendations by placing securities transactions with any brokerage firm.

Pension Consulting Services

We offer pension consulting services to employee benefit plans and their fiduciaries based upon the needs of the plan and the services requested by the plan sponsor or named fiduciary. In general, these services may include an existing plan review and analysis, plan-level advice regarding fund selection and investment options, education services to plan participants, investment performance monitoring, and/or ongoing consulting. These pension consulting services will generally be non-discretionary and advisory in nature. The ultimate decision to act on behalf of the plan shall remain with the plan sponsor or other named fiduciary.

- Diversification
- Asset allocation
- Risk tolerance
- Time horizon

We may also provide additional types of pension consulting services to plans on an individually negotiated basis. All services, whether discussed above or customized for the plan based upon requirements from the plan fiduciaries (which may include additional plan-level or participant-level services) shall be detailed in a written agreement and be consistent with the parameters set forth in the plan documents.

Either party to the pension consulting agreement may terminate the agreement upon 5-days' written notice to the other party. The pension consulting fees will be prorated for the quarter in which the termination notice is given and any unearned fees will be refunded to the client.

Types of Investments

We recommend all types of securities and we do not necessarily recommend one particular type of security over another since each client has different needs and different tolerance for risk. Additionally, we may advise you on any type of investment that we deem appropriate based on your stated goals and objectives. We may also provide advice on any type of investment held in your portfolio at the inception of our advisory relationship.

Assets Under Management

As of December 31, 2016, we provide continuous management services for \$817,878,000 in client assets on a discretionary basis, and \$47,000,000 in client assets on a non-discretionary basis.

Item 5 Fees and Compensation

Our fee for Portfolio Management Services is based on a percentage of your assets we manage and is set forth in the following fee schedule:

Assets Under Management	Annual Fee*
From \$500,000 to \$2,000,000	1.00%

From \$2,000,001 to \$5,000,000	0.75%
From \$5,000,001 and above	0.50%

*Existing clients as of October 10, 2012 are charged under our prior fee schedule. In our sole discretion we may waive or lower the minimum account size.

Our fee for Pension Consulting Services is 0.50% of the Plan assets with a \$1,000,000 account minimum.

Our annual fees are billed and payable quarterly in advance based on the value of your account on the last day of the previous quarter.

If the portfolio management agreement is executed at any time other than the first day of a calendar quarter, our fees will apply on a pro rata basis, which means that the advisory fee is payable in proportion to the number of days in the quarter for which you are a client. Our advisory fee is negotiable, depending on individual client circumstances.

At our discretion, we may combine the account values of family members living in the same household to determine the applicable advisory fee. For example, we may combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts. Combining account values may increase the asset total, which may result in your paying a reduced advisory fee based on the available breakpoints in our fee schedule stated above.

We will upload a copy of an invoice to our password protected website and/or send a paper invoice for the payment of our advisory fees and we will deduct our fee directly from your account through the qualified custodian holding your funds and securities. With regard to direct debiting, we will deduct our advisory fee only when you have given our firm written authorization permitting the fees to be paid directly from your account. Further, the qualified custodian will deliver an account statement to you at least quarterly. These account statements will show all disbursements from your account. Although we will receive a duplicate copy of your account statements, we encourage you to review all statements received from the qualified custodian for accuracy. We typically debit management fees 14 days after they have been posted to the website or sent via mail.

We encourage you to reconcile our invoices with the statement(s) you receive from the qualified custodian. If you find any inconsistent information between our invoice and the statement(s) you receive from the qualified custodian, please call our main office number located on the cover page of this brochure.

You may terminate the portfolio management agreement upon five days' written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the portfolio management agreement, which means you will incur advisory fees only in proportion to the number of days in the quarter for which you are a client.

Financial Planning Services

We charge a negotiable flat fee for Financial Planning services which ranges up to \$5,000. Our fee is typically due at the inception of service rendered, but may be payable in installments of 50% at the inception and 50% at completion of service. In our sole discretion, we may lower the fee or waive it entirely. You may terminate the financial planning agreement by providing written notice to our firm. If we have utilized an unaffiliated third party investment adviser to prepare the Financial Plan, we will share a portion of the fee you pay with that third party adviser. You will not pay any additional fee if we have used a third party adviser. We do not require the prepayment of fees in excess of \$1,200 and six months or more in advance.

Additional Fees and Expenses

As part of our investment advisory services provided to you, we may invest, or recommend that you invest, in mutual funds and exchange traded funds. The fees that you pay to our firm for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or exchange traded funds (described in each fund's prospectus) to their shareholders. These fees will generally include a management fee and other fund expenses. You will also incur transaction charges and/or brokerage fees when purchasing or selling securities. These charges and fees are typically imposed by the broker-dealer or custodian through whom your account transactions are executed. We do not share in any portion of the brokerage fees/transaction charges imposed by the broker-dealer or custodian. To fully understand the total cost you will incur, you should review all the fees charged by mutual funds, exchange traded funds, our firm, and others. For information on our brokerage practices, please refer to the *Brokerage Practices* section of this Brochure.

Item 6 Performance-Based Fees and Side-By-Side Management

We do not accept performance-based fees or participate in side-by-side management. Performance-based fees are fees that are based on a share of capital gains or capital appreciation of a client's account. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees. Our fees are calculated as described in the *Fees and Compensation* section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Item 7 Types of Clients

We offer investment advisory services to individuals, pension and profit sharing plans, trusts, estates, charitable organizations, corporations, and other business entities. In general, we charge a minimum annual fee of \$5,000 to open and maintain an advisory account. In our sole discretion, we may waive or lower this minimum fee in accordance with a lower minimum account size. We may combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts to meet the stated minimum as well as to meet a lower fee threshold.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

Methods of Analysis

We will use one or more of the following investment strategies when formulating investment advice:

Charting Analysis - involves the gathering and processing of price and volume pattern information for a particular security, sector, broad index or commodity. This price and volume pattern information is analyzed. The resulting pattern and correlation data is used to detect departures from expected performance and diversification and predict future price movements and trends.

- **Risk:** Our charting analysis may not accurately detect anomalies or predict future price movements. Current prices of securities may reflect all information known about the security and day-to-day changes in market prices of securities may follow random patterns and may not be predictable with any reliable degree of accuracy.

Technical Analysis - involves studying past price patterns, trends, and interrelationships in the financial markets to assess risk-adjusted performance and predict the direction of both the overall market and specific securities.

- **Risk:** The risk of market timing based on technical analysis is that our analysis may not accurately detect anomalies or predict future price movements. Current prices of securities may reflect all information known about the security and day-to-day changes in market prices of securities may follow random patterns and may not be predictable with any reliable degree of accuracy.

Fundamental Analysis - involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience and expertise of the company's management, and the outlook for the company and its industry. The resulting data is used to measure the true value of the company's stock compared to the current market value.

- **Risk:** The risk of fundamental analysis is that information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

We will use one or more of the following methods of analysis when providing investment advice to you:

Investment Strategies

Long-Term Purchases - securities purchased with the expectation that the value of those securities will grow over a relatively long period of time, generally greater than one year.

- **Risk:** Using a long-term purchase strategy generally assumes the financial markets will go up in the long-term which may not be the case. There is also the risk that the segment of the market that you are invested in or perhaps just your particular investment will go down over time even if the overall financial markets advance. Purchasing investments long-term may create an opportunity cost - "locking-up" assets that may be better utilized in the short-term in other investments.

Short-Term Purchases - securities purchased with the expectation that they will be sold within a relatively short period of time, generally less than one year, to take advantage of the securities' short-term price fluctuations.

- **Risk:** Using a short-term purchase strategy generally assumes that we can predict how financial markets will perform in the short-term which may be very difficult and will incur a disproportionately higher amount of transaction costs compared to long-term trading. There are many factors that can affect financial market performance in the short-term (such as short-term interest rate changes, cyclical earnings announcements, etc.) but may have a smaller impact over longer periods of times.

We provide an options strategy to clients holding a large and concentrated position in an equity holding. Our strategy allows for the unwinding of this position and the creation of a more diversified portfolio by purchasing or selling puts/calls and hedging the position as needed. The options strategy can be structured to enhance the income off the investment and/or reduce the downside exposure. In addition, we can also build a cash secured put portfolio to enhance a current income stream and to offer investors a way to purchase shares of equities at prices below the current value should we get put the security.

Tax Considerations

Our strategies and investments may have unique and significant tax implications. However, unless we specifically agree otherwise, and in writing, tax efficiency is not our primary consideration in the management of your assets. Regardless of your account size or any other factors, we strongly recommend that you consult with a tax professional regarding the investing of your assets.

Moreover, as a result of revised IRS regulations, custodians and broker-dealers will begin reporting the cost basis of equities acquired in client accounts on or after January 1, 2011. Your custodian will default to the FIFO (First-In First-Out) accounting method for calculating the cost basis of your investments. You are responsible for contacting your tax advisor to determine if this accounting method is the right choice for you. If your tax advisor believes another accounting method is more advantageous, please provide written notice to our firm immediately and we will alert your account custodian of your individually selected accounting method. Please note that decisions about cost basis accounting methods will need to be made before trades settle, as the cost basis method cannot be changed after settlement.

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.

Recommendation of Particular Types of Securities

As disclosed under the *Advisory Business* section in this brochure, we recommend all types of securities and we do not necessarily recommend one particular type of security over another since each client has different needs and different tolerance for risk. Each type of security has its own unique set of risks associated with it and it would not be possible to list here all of the specific risks of every type of investment. Even within the same type of investment, risks can vary widely. However, in very general terms, the higher the anticipated return of an investment, the higher the risk of loss associated with that investment.

Item 9 Disciplinary Information

We are required to disclose the facts of any legal or disciplinary events that are material to a client's evaluation of our advisory business or the integrity of our management. We do not have any required disclosures under this item.

Item 10 Other Financial Industry Activities and Affiliations

We have not provided information on other financial industry activities and affiliations because we do not have any relationship or arrangement that is material to our advisory business or to our clients with any of the types of entities listed below.

1. broker-dealer, municipal securities dealer, or government securities dealer or broker
2. investment company or other pooled investment vehicle (including a mutual fund, closed-end investment company, unit investment trust, private investment company or "hedge fund," and offshore fund)
3. other investment adviser or financial planner
4. futures commission merchant, commodity pool operator, or commodity trading advisor
5. banking or thrift institution

6. accountant or accounting firm
7. lawyer or law firm
8. insurance company or agency
9. pension consultant
10. real estate broker or dealer
11. sponsor or syndicator of limited partnerships

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

We strive to comply with applicable laws and regulations governing our practices. Therefore, our Code of Ethics includes guidelines for professional standards of conduct for our Associated Persons. Our goal is to protect your interests at all times and to demonstrate our commitment to our fiduciary duties of honesty, good faith, and fair dealing with you. All of our Associated Persons are expected to adhere strictly to these guidelines. Persons associated with our firm are required to report any violations of our Code of Ethics. Additionally, we maintain and enforce written policies reasonably designed to prevent the misuse or dissemination of material, non-public information about you or your account holdings by persons associated with our firm. Our Code of Ethics is available to you upon request. You may obtain a copy of our Code of Ethics by contacting John Schloegel at (713) 439-0665.

Participation or Interest in Client Transactions

Neither our firm nor any of our Associated Persons has any material financial interest in client transactions beyond the provision of investment advisory services as disclosed in this brochure.

Personal Trading Practices

Our firm or persons associated with our firm may buy or sell securities for you at the same time we or persons associated with our firm buy or sell such securities for our own account. We may also combine our orders to purchase securities with your orders to purchase securities ("block trading"). Please refer to the *Brokerage Practices* section in this Brochure for information on our block trading practices.

A conflict of interest exists in such cases because we have the ability to trade ahead of you and potentially receive more favorable prices than you will receive. To mitigate this conflict of interest, it is our policy that neither our Associated Persons nor we shall have priority over your account in the purchase or sale of securities.

Item 12 Brokerage Practices

We will generally recommend that securities be purchased through the facilities of TD Ameritrade Institutional, a division of TD Ameritrade, Inc. ("TD Ameritrade"), member FINRA/SIPC/NFA. We participate in the TD Ameritrade Institutional Customer Program for advisors ("Institutional Program") as well as other specific programs through TD Ameritrade (more fully discussed in *Item 14 Client Referrals and Other Compensation*). TD Ameritrade is an independent and unaffiliated SEC-registered broker-dealer and FINRA member. TD Ameritrade offers to independent investment advisers, services that include custody of securities, trade execution, clearance and settlement of transactions. We receive some benefits from TD Ameritrade through our participation in these programs. In addition to the benefits disclosed below, we may receive benefits such as assistance with conferences and educational meetings from product sponsors. Refer to *Item 14 Client Referrals and Other Compensation* for additional disclosures on this topic.

We may also recommend that securities be purchased through the facilities of Scottrade, Inc. ("Scottrade"). Scottrade is an independent and unaffiliated SEC-registered broker-dealer and member of FINRA/SIPC. Refer to *Item 14 Client Referrals and Other Compensation* for additional disclosures on this topic.

In selecting a broker dealer we will endeavor to select those brokers or dealers that will provide the best services at the lowest commission rates possible. The reasonableness of commissions is based on several factors, including the broker's ability to provide professional services, competitive commission rates, volume discounts, execution price negotiations, and other services. In recognition of the value of research services and additional brokerage products and services TD Ameritrade provides, you may pay higher commissions and/or trading costs than those that may be available elsewhere. Refer to *Item 14 Client Referrals and Other Compensation* for additional disclosures on this topic.

Directed Brokerage

Subject to our participation in programs sponsored by various broker dealers, we routinely recommend that you direct our firm to execute transactions through TD Ameritrade or Scottrade. As such, we may be unable to achieve the most favorable execution of your transactions and you may pay higher brokerage commissions than you might otherwise pay through another broker-dealer that offers the same types of services. Not all advisers require their clients to direct brokerage. Refer to *Item 14 Client Referrals and Other Compensation* for additional disclosures on this topic.

Block Trades

We may combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as "block trading"). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion regarding factual and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or persons associated with our firm may participate in block trading with your accounts; however, they will not be given preferential treatment.

Item 13 Review of Accounts

Bonner Barnes, managing member of CORDA, John Schloegel, Chief Compliance Officer and investment adviser representative, will monitor client accounts on an on going basis. These reviews are designed to ensure that the advisory services provided to you are consistent with your current investment needs and objectives. Additional reviews may be conducted based on various circumstances, including, but not limited to:

- contributions and withdrawals;
- year-end tax planning;
- market moving events;
- security specific events; and/or,
- changes in your risk/return objectives.

We will provide you with additional or regular written reports in conjunction with account reviews. Reports we provide to you will contain relevant account and/or market-related information such as an inventory of account holdings and account performance, etc. In addition, you will receive trade

confirmations and monthly or quarterly statements from your account custodian(s). You should compare our statements with the statements from your account custodian(s) to reconcile the information reflected on each statement.

Item 14 Client Referrals and Other Compensation

As disclosed under Item 12 above, CORDA participates in TD Ameritrade's and Scottrade's institutional customer program and CORDA may recommend either custodian to Clients for custody and brokerage services. There is no direct link between CORDA's participation in these programs and the investment advice it gives to its Clients, although CORDA receives economic benefits through its participation in each program that are typically not available to TD Ameritrade or Scottrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving CORDA participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to CORDA by third party vendors. TD Ameritrade and/or Scottrade may also have paid for business consulting and professional services received by CORDA's related persons. Some of the products and services made available by TD Ameritrade or Scottrade through the program may benefit CORDA but may not benefit its Client accounts. These products or services may assist CORDA in managing and administering Client accounts, including accounts not maintained at either custodian. Other services made available by TD Ameritrade and Scottrade are intended to help CORDA manage and further develop its business enterprise. The benefits received by CORDA or its personnel through participation in these programs do not depend on the amount of brokerage transactions directed to either party. As part of its fiduciary duties to clients, CORDA endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by CORDA or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the CORDA's choice of TD Ameritrade or Scottrade for custody and brokerage services.

CORDA may receive client referrals from TD Ameritrade through its participation in the TD Ameritrade Advisor Direct program ("AdvisorDirect") and from Scottrade via its participation in the Scottrade Advisor Access program ("Advisor Access"). In addition to meeting the minimum eligibility criteria for participation in these programs, CORDA may have been selected to participate in AdvisorDirect or Advisor Access based on the amount and profitability to TD Ameritrade and/or Scottrade of the assets in, and trades placed for, client accounts maintained with TD Ameritrade or Scottrade. TD Ameritrade and Scottrade are discount broker-dealers independent and unaffiliated with CORDA and there is no employee or agency relationship between CORDA and TD Ameritrade and/or Scottrade. These custodians have established AdvisorDirect/Advisor Access as a means of referring its brokerage customers and other investors seeking fee-based personal investment management services or financial planning services to independent investment advisers. TD Ameritrade does not supervise CORDA and has no responsibility for CORDA's management of client portfolios or CORDA's other advice or services. CORDA pays these custodians an on-going fee for each successful client referral. This fee is usually a percentage (not to exceed 25%) of the advisory fee that the client pays to CORDA ("Solicitation Fee"). CORDA will also pay TD Ameritrade or Scottrade the Solicitation Fee on any advisory fees received by the Firm from any of a referred client's family members, including a spouse, child or any other immediate family member who resides with the referred client and hired CORDA on the recommendation of such referred client. CORDA will not charge clients referred through AdvisorDirect or Advisor Access any fees or costs higher than its standard fee schedule offered to its

clients or otherwise pass Solicitation Fees paid to TD Ameritrade or Scottrade to its clients. For information regarding additional or other fees paid directly or indirectly to TD Ameritrade or Scottrade, please refer to the Disclosure and Acknowledgement Forms provided by each firm.

CORDA's participation in AdvisorDirect or Advisor Access raises potential conflicts of interest. TD Ameritrade or Scottrade will most likely refer clients through AdvisorDirect/Advisor Access to investment advisers that encourage their clients to custody their assets at TD Ameritrade or Scottrade and whose client accounts are profitable to TD Ameritrade or Scottrade. Consequently, in order to obtain client referrals from TD Ameritrade or Scottrade, CORDA may have an incentive to recommend to clients that the assets under management by CORDA be held in custody with TD Ameritrade or Scottrade and to place transactions for client accounts with TD Ameritrade or Scottrade. In addition, CORDA has agreed not to solicit clients referred to it through AdvisorDirect or Advisor Access to transfer their accounts from TD Ameritrade or Scottrade or to establish brokerage or custody accounts at other custodians, except when its fiduciary duties require doing so.

Our participation in either Program does not reduce or eliminate our fiduciary duty to obtain best execution when selecting brokers to execute securities transactions on behalf of clients. Additionally, any fees TD Ameritrade or Scottrade charges our firm for participating in the Programs will decrease the amount of money we make when offering investment advice to you. Therefore, while we have a fiduciary duty to provide services that are in your best interest, we may have an incentive to recommend advisory programs and services that may be less costly for us, but not as suitable to your needs. Our participation in the Programs does not diminish our fiduciary duty to recommend and provide advisory services to you that are not only suitable, but that are also in your best interest.

Item 15 Custody

We do not take custody of your funds or securities. Your funds and securities will be held with a bank, broker-dealer, or other independent, qualified custodian. We may have the authority to deduct our advisory fees from your account, but only if you previously consented to such deduction in writing. Otherwise, we will send you an invoice for the payment of our advisory fees. You will receive account statements from the independent, qualified custodian(s) holding your funds and securities at least quarterly. When we have the ability to directly debit our fee from your account, the account statements from your custodian(s) will indicate the amount of our advisory fees deducted from your account(s) each billing period. You should carefully review account statements for accuracy. We will also provide statements to you reflecting the amount of advisory fee deducted from your account.

You should compare our statements with the statements from your account custodian(s) to reconcile the information reflected on each statement. If you have a question regarding your account statement or if you did not receive a statement from your custodian, please contact John Schloegel at (713) 439-0665 immediately .

Item 16 Investment Discretion

You may grant our firm discretion over the selection and amount of securities to be purchased or sold for your account(s) without obtaining your consent or approval prior to each transaction. Before we can buy or sell securities on your behalf, you must first sign our Investment Agreement.

You may specify investment objectives, guidelines, and/or impose certain conditions or investment parameters for your account(s). For example, you may specify that the investment in any particular stock or industry should not exceed specified percentages of the value of the portfolio and/or

restrictions or prohibitions of transactions in the securities of a specific industry or security. Please refer to the *Advisory Business* section in this Brochure for more information on our discretionary management services.

Item 17 Voting Client Securities

We will not vote proxies on behalf of your advisory accounts. At your request, we may offer you advice regarding corporate actions and the exercise of your proxy voting rights. If you own shares of applicable securities, you are responsible for exercising your right to vote as a shareholder.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward any electronic solicitation to vote proxies.

Item 18 Financial Information

We are not required to provide a balance sheet or other financial information to our clients because we do not require the prepayment of fees in excess of \$1,200 and six months or more in advance; we do not take custody of client funds or securities; and, we do not have a financial condition that is reasonably likely to impair our ability to meet our commitments to you. Moreover, we have never been the subject of a bankruptcy petition.

Item 19 Requirements for State Registered Advisers

We are a federally registered investment adviser; therefore, we are not required to respond to this item.

Item 20 Additional Information

Your Privacy

We view protecting your private information as a top priority. Pursuant to applicable privacy requirements, we have instituted policies and procedures to ensure that we keep your personal information private and secure.

We do not disclose any nonpublic personal information about you to any nonaffiliated third parties, except as permitted by law. In the course of servicing your account, we may share some information with our service providers, such as transfer agents, custodians, broker-dealers, accountants, advisers, consultants, and attorneys.

We restrict internal access to nonpublic personal information about you to employees who need that information in order to provide products or services to you. We maintain physical and procedural safeguards that comply with regulatory standards to guard your nonpublic personal information and to ensure our integrity and confidentiality. We will not sell information about you or your accounts to anyone. We do not share your information unless it is required to process a transaction, at your request, or required by law.

You will receive a copy of our privacy notice prior to or at the time you sign an advisory agreement with our firm. Thereafter, we will deliver a copy of the current privacy policy notice to you on an annual basis. Please contact Bonner Barnes or John Schloegel at (713) 439-0665 if you have any questions regarding this policy.

Trade Errors

In the event a trading error occurs in your account, our policy is to restore your account to the position it should have been in had the trading error not occurred. Depending on the circumstances, corrective actions may include canceling the trade, adjusting an allocation, and/or reimbursing the account. In the event of a credit balance in any custodial error account on a monthly or quarterly basis, Corda reserves the right to disburse any proceeds to the charity or philanthropic organization of its choice.

Class Action Lawsuits

We do not determine if securities held by you are the subject of a class action lawsuit or whether you are eligible to participate in class action settlements or litigation nor do we initiate or participate in litigation to recover damages on your behalf for injuries as a result of actions, misconduct, or negligence by issuers of securities held by you.
