FORM ADV PART 2 BROCHURE

This brochure provides information about the qualifications and business practices of Kummer Financial Strategies, Inc. If you have any questions about the contents of this brochure, please contact us 303.470.1209. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Kummer Financial Strategies, Inc. is also available on the SEC's website at www.adviserinfo.sec.gov. The searchable IARD/CRD number for Kummer Financial Strategies, Inc. is 112603.

Kummer Financial Strategies, Inc. is a registered investment adviser. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Item 2 Summary of Material Changes

Form ADV Part 2 requires registered investment advisers to amend their brochure when information becomes materially inaccurate. If there are any material changes to an adviser's disclosure brochure, the adviser is required to notify you and provide you with a description of the material changes.

Since our last annual updating amendment dated February 16, 2016, we have the following material changes to report.

In Item 4, we disclosed the following:

Our fees for portfolio management services as follows:

Assets Under Management	Annual Fee Range
Up to \$99,999.99	1.20% - 1.30%
\$100,000.00-\$249,999.99	1.15% - 1.25%
\$250,000.00-\$499,999.99	1.00% - 1.20%
\$500,000.00-\$749,999.99	0.95% - 1.15%
\$750,000.00-\$999,999.99	0.95% - 1.10%
\$1,000,000.00-\$1,999,999.99	0.90% - 1.00%
\$2,000,000.00-\$4,999,999.99	0.85% - 1.00%
\$5,000,000.00+	0.75%

In special circumstances where a client account does not meet minimum managed assets requirements for our fee based investment platform, we may provide portfolio management services utilizing Institutional Intelligent PortfoliosTM, an automated, online investment management platform for use by independent investment advisors and sponsored by Schwab Wealth Investment Advisory, Inc. (Please see detailed disclosures under Items 4, 7 and 12 relevant to Institutional Intelligent PortfoliosTM.) Our fees for portfolio management services utilizing Institutional Intelligent PortfoliosTM are as follows:

Assets Under Management	Annual Fee
\$0 - \$299,999.99	0.50%
\$300,000.00 - \$499,999.99	0.35%
\$500,000.00 - \$749,999.99	0.30%
\$750,000.00 - \$999,999.99	0.25%
\$1,000,000.00 - \$1,999,999.99	0.20%
\$2,000,000.00 - \$4,999,999.99	0.20%
\$5,000,000.00+	0.15%

As of March 2016, we no longer provided portfolio management services through the Kummer Financial Strategies Wrap Program.

In special circumstances, we may also manage client assets invested in an equity portfolio in addition to those invested in asset allocation portfolios (which consist primarily of mutual funds and ETFs).

In Item 5, we disclosed that we may provide advice on IRA rollovers and described considerations and certain conflicts of interest relevant thereto.

In Item 19, we disclosed that if a trade error results in a profit and Fidelity is the custodian, all monthly net gains (after offsetting any trade error losses) from trade error profits will be donated to charity and neither the client, the custodian or our firm will keep the profit. (Comment - I modified the language here; the purpose of the disclosure is to notify the client explicitly that they are not keeping the profit).

Item 4 Advisory Business

Description of Services and Fees

We are a registered investment adviser based in Highlands Ranch, Colorado. We are organized as a corporation under the laws of the State of Colorado and we have been providing investment advisory services since 1995. Patricia Brown Kummer is our owner. Currently, we offer the following investment advisory services, which are personalized to each individual client:

- Portfolio Management Services
- Financial Planning Services

The following paragraphs describe our services and fees. Please refer to the description of each investment advisory service listed below for information on how we tailor our advisory services to your individual needs. As used in this brochure, the words "we", "our" and "us" refer to Kummer Financial Strategies, Inc. and the words "you", "your" and "client" refer to you as either a client or prospective client of our firm. Also, you may see the term Associated Person or Investment Adviser Representative throughout this Brochure. As used in this Brochure, our Associated Persons or Investment Adviser Representatives are our firm's officers, employees, and all individuals providing investment advice on behalf of our firm.

Portfolio Management Services

We offer discretionary portfolio management services. Our investment advice is tailored to meet your needs and investment objectives. If you retain our firm for these services, we will meet with you to determine your investment objectives, risk tolerance, and other relevant information (the "suitability information") at the beginning of our advisory relationship. We will use the suitability information we gather to develop a strategy that enables our firm to give you continuous and focused investment advice and to make investments on your behalf. As part of these services, we may customize an investment portfolio for you in accordance with your risk tolerance and investing objectives. We may also invest your assets according to one or more model portfolios developed by our firm. Once we construct an investment portfolio for you, or select a model portfolio, we will monitor your portfolio's performance on an ongoing basis, and will rebalance the portfolio as required by changes in market conditions and in your financial circumstances. This process also applies to any automated platforms that Kummer Financial may utilize, including Schwab Institutional Intelligent PortfoliosTM.

If you participate in our discretionary portfolio management services, we require you to grant our firm discretionary authority to manage your account. Discretionary authorization will allow us to determine the specific securities, and the amount of securities, to be purchased or sold for your account without your prior approval. Discretionary authority is typically granted by the portfolio management agreement you sign with our firm or trading authorization forms. You may limit our discretionary authority (for example, limiting the types of securities that can be purchased for your account) by providing our firm with your restrictions and guidelines in writing.

Our fee for portfolio management services is based on a percentage of your assets we manage by account size and is set forth in the fee schedule below:

Assets Under Management	Annual Fee Range
Up to \$99,999.99	1.20% - 1.30%
\$100,000.00-\$249,999.99	1.15% - 1.25%
\$250,000.00-\$499,999.99	1.00% - 1.20%
\$500,000.00-\$749,999.99	0.95% - 1.15%

\$750,000.00-\$999,999.99	0.95% - 1.10%
\$1,000,000.00-\$1,999,999.99	0.90% - 1.00%
\$2,000,000.00-\$4,999,999.99	0.85% - 1.00%
\$5,000,000.00+	0.75%

Our annual portfolio management fee is billed and payable quarterly in advance based on the value of your account on the last day of the previous quarter.

If the portfolio management agreement is executed at any time other than the first day of a calendar quarter, our fees will apply on a pro rata basis, which means that the advisory fee is payable in proportion to the number of days in the quarter for which you are a client. Our advisory fee is negotiable, depending on your individual circumstances, including amount of financial planning, distribution and reallocation services required.

For investors who do not meet minimum account requirements for our proprietary managed portfolio platform, we also provide portfolio management services through Institutional Intelligent Portfolios™, an automated, online investment management platform for use by independent investment advisors and sponsored by Schwab Wealth Investment Advisory, Inc. (the "Automated Portfolio Platform" and "SWIA," respectively). The Automated Portfolio Platform provides automatic investment and rebalancing of assets for smaller balance accounts from a selection of models utilizing ETFs only, with all operational and client support maintained directly by Charles Schwab. Investment models and research are created and maintained by Kummer Financial Strategies. In comparison, our independent proprietary managed portfolio platform utilizes a full range of investment management with ETFs and mutual funds, as well as investment research to rebalance asset allocation and manage risk within client portfolios. Financial planning updates, advice and other account services are available through Kummer Financial Strategies at their hourly advisory rate as described below under the section titled Financial Planning Services.

In the Automated Portfolio Platform, we offer clients a predetermined range of investment strategies we have constructed and manage, each consisting of a portfolio of ETFs only and a cash allocation. The client may instruct us to exclude up to three ETFs from their portfolio. The client's portfolio is held in a brokerage account opened by the client at SWIA's affiliate, Charles Schwab & Co., Inc. ("CS&Co"). We are independent of and not owned by, affiliated with, or sponsored or supervised by SWIA, CS&Co or their affiliates (together, "Schwab"). The Automated Portfolio Platform is described in detail in the Schwab Wealth Investment Advisory, Inc. Institutional Intelligent Portfolios™ Disclosure Brochure which is delivered to clients by SWIA during the online enrollment process.

Our firm, and not Schwab, is the client's investment advisor, however the primary point of contact with respect to the Automated Portfolio Platform should be with Charles Schwab support for account administration and money movement. SWIA's role is limited to delivering the Program Disclosure Brochure to clients and administering the Program so that it operates as described in the Program Disclosure Brochure.

We have contracted with SWIA to provide us with the technology platform and related trading and account management services for the Program, which includes an automated investment engine through which we manage the client's portfolio on an ongoing basis through automatic rebalancing and tax-loss harvesting (if the client is eligible and elects). This platform enables us to make the Program

available to clients online and includes a system that automates certain key parts of our investment process. The enrollment into the Automated Portfolio Platform includes the same suitability review as all discretionary accounts, as described above.

Our fee for portfolio management services utilizing the Automated Portfolio Platform is based on a percentage of your assets we manage and is set forth in the fee schedule below:

Assets Under Management	Annual Fee
\$0 - \$299,999.99	0.50%
\$300,000.00 - \$499,999.99	0.35%
\$500,000.00 - \$749,999.99	0.30%
\$750,000.00 - \$999,999.99	0.25%
\$1,000,000.00 - \$1,999,999.99	0.20%
\$2,000,000.00 - \$4,999,999.99	0.20%
\$5,000,000.00+	0.15%

Clients do not pay brokerage commissions or any other fees to CS&Co as part of the Automated Portfolio Platform. Schwab does receive other revenues in connection with the Automated Portfolio Platform, as described in the Program Disclosure Brochure. We pay SWIA an annual fee of 0.10% (10 basis points) on the value of our clients' assets in the Program.

We will deduct our fee directly from your account through the qualified custodian holding your funds and securities. We will deduct our advisory fee only when you have given us written authorization permitting our fees to be paid directly from your account. Further, the qualified custodian will deliver an account statement to you at least quarterly. These account statements will show all disbursements from your account. You should review all statements for accuracy.

You may terminate the portfolio management agreement upon 30-days' written notice to our firm. In the event you terminate your account in accordance with provision of the agreement by giving us 30-days' written notice, we will give you the option of liquidating your account or maintaining the assets. In the event you maintain the assets, we will be entitled to retain the full quarter's advisory fee in consideration of any research, portfolio design, or institutional pricing which our firm was able to obtain for such assets. In the event you elect to liquidate your assets, you will be entitled to a pro rata refund of any pre-paid quarterly fee based upon the number of days remaining in the quarter after termination and after final transaction costs are subtracted. In the event you terminate your account without providing our firm with the opportunity to address these options with you and your account is transferred without liquidating assets, we will be entitled to retain the full quarter's advisory fee.

Financial Planning Services

Financial planning will typically involve providing a variety of advisory services to you regarding the management of your financial resources based upon an analysis of your individual needs. Financial planning services normally would include present and anticipated assets and liabilities, including insurance, savings and investments, and may include retirement planning, tax and estate planning, pension planning and cash management.

If you retain our firm for these services, we will meet with you to gather information about your financial circumstances and objectives. Once we review and analyze the information you provide, we may deliver a written plan to you, designed to help you achieve your stated financial goals and objectives.

Financial plans are based on your financial situation at the time we present the plan to you, and on the financial information you provide to our firm. You must promptly notify our firm if your financial situation, goals, objectives, or needs change.

You are under no obligation to act on our financial planning recommendations. Should you choose to act on any of our recommendations, you are not obligated to implement the financial plan through any of our other investment advisory services. Moreover, you may act on our recommendations by placing securities transactions with any brokerage firm.

We charge an hourly fee of \$200 for financial planning services, which is negotiable depending on the scope and complexity of the plan, your situation, and your financial objectives. An estimate of the total time/cost will be determined at the inception of the relationship. In limited circumstances, the cost/time could potentially exceed the initial estimate. In such cases, we will notify you and request that you approve the additional fee.

If you choose to proceed, a deposit of \$200 will be required and the total fee will be due and payable upon completion of the services rendered. We will not require prepayment of a fee more than six months in advance and in excess of \$1,200.

You may terminate the financial planning agreement by providing written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the agreement. If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

Types of Investments

We primarily offer advice on mutual funds and Exchange Traded Funds ("ETFs"). When suitable we generally recommend no load or institutional mutual funds. In special circumstances, we may also manage client assets invested in an equity portfolio in addition to those invested in asset allocation portfolios (which consist primarily of mutual funds and ETFs).

You may request that we refrain from investing in particular securities or certain types of securities. You must provide these restrictions to our firm in writing.

Assets Under Management

As of December 31, 2016, we manage \$236,523,863 in client assets on a discretionary basis.

Item 5 Fees and Compensation

Please refer to the "Advisory Business" section in this Brochure for information on our advisory fees, fee deduction arrangements, and refund policy according to each service we offer.

Additional Fees and Expenses

As part of our investment advisory services to you, we may invest, or recommend that you invest, in mutual funds and exchange traded funds. The fees that you pay to our firm for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or exchange traded funds (described in each fund's prospectus) to their shareholders. These fees will generally include a management fee and other fund expenses. You will also incur transaction charges and/or brokerage fees when purchasing or selling securities. These charges and fees are typically imposed by the broker-dealer or custodian through which your account transactions are executed. We do not share in any portion of the brokerage fees/transaction charges imposed by the custodian. To fully understand the total cost you will incur, you should review all the fees charged by mutual funds, exchange traded funds, our firm, and others. For information on our brokerage practices, please refer to the "Brokerage Practices" section of this Disclosure Brochure.

Compensation for the Sale of Securities or Other Investment Products

Persons providing investment advice on behalf of our firm are registered representatives with Mutual Securities, Inc., a registered broker-dealer, and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation. For commission based accounts at Mutual Securities, in their capacity as registered representatives these persons may receive commission-based compensation in connection with the purchase and sale of securities, including 12b-1 fees for the sale of investment company products. Compensation earned by these persons in their capacities as registered representatives is separate and in addition to our advisory fees. This practice presents a conflict of interest because persons providing investment advice on behalf of our firm who are registered representatives may have an incentive to effect securities transactions for the purpose of generating commissions rather than solely based on your needs. However, you are under no obligation, contractually or otherwise, to purchase securities products through any person affiliated with our firm.

Persons providing investment advice on behalf of our firm may be licensed as independent insurance agents. These persons will earn commission-based compensation for selling insurance products. Insurance commissions earned by these persons are separate and in addition to our advisory fees. This practice presents a conflict of interest because persons providing investment advice on behalf of our firm who are insurance agents have an incentive to recommend insurance products to you for the purpose of generating commissions rather than solely based on your needs. However, you are under no obligation, contractually or otherwise, to purchase insurance products through any person affiliated with our firm.

IRA Rollover Considerations

As part of our investment advisory services to you, we may recommend that you withdraw the assets from your employer's retirement plan and roll the assets over to an individual retirement account ("IRA") that we will manage on your behalf. If you elect to roll the assets to an IRA that is subject to our management, we will charge you an asset based fee as set forth in the agreement you executed with our firm. This may present a conflict of interest, as our recommendation may generate fee based compensation to the firm, however, as a fiduciary, we are required to maintain the client's best interests when reviewing the option to rollover an account. You are under no obligation, contractually or otherwise, to complete the rollover. Moreover, if you do complete the rollover, you are under no obligation to have the assets in an IRA managed by our firm.

Many employers permit former employees to keep their retirement assets in their company plan. Also, current employees can sometimes move assets out of their company plan before they retire or change jobs. In determining whether to complete the rollover to an IRA, and to the extent the following options are available, you should consider the costs and benefits of the following:

An employee will typically have four options:

1. Leaving the funds in your employer's (former employer's) plan.
2. Moving the funds to a new employer's retirement plan.
3. Cashing out and taking a taxable distribution from the plan.
4. Rolling the funds into an IRA rollover account.

Each of these options has advantages and disadvantages and before making a change we encourage you to speak with your CPA and/or tax attorney.

If you are considering rolling over your retirement funds to an IRA for us to manage, here are a few points to consider before you do so:

1. Determine whether the investment options in your employer's retirement plan address your needs or whether you might want to consider other types of investments.
2. Determine the types of services and on-going financial planning needs you may have and how important it is to integrate your investment strategy with your financial plan. Your current plan may have lower fees but may not offer these services.
3. The level of financial advice you may want to receive from your advisor compared to the plan.
4. Your 401k may offer more liability protection than a rollover IRA; each state may vary.
5. IRA assets can be accessed any time; however, distributions are subject to ordinary income tax and may also be subject to a 10% early distribution penalty unless they qualify for an exception such as disability, higher education expenses or the purchase of a home.
6. If you own company stock in your plan, you may be able to liquidate those shares at a lower capital gains tax rate.
7. Consider how you will take distributions from your plan. Most employer plans are designed for salary deferral, not for custom distributions you may need in retirement.

It is important that you understand the differences between these types of accounts and to decide whether a rollover is best for you. Prior to proceeding, if you have questions call our main number as listed on the cover page of this brochure.

Item 6 Performance-Based Fees and Side-By-Side Management

We do not accept performance-based fees or participate in side-by-side management. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees. Performance-based fees are fees that are based on a share of capital gains or capital appreciation of a client's account. Our fees are calculated as described in the *Advisory Business* section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Item 7 Types of Clients

We offer investment advisory services to individuals, pension and profit sharing plans, trusts, estates, charitable organizations, corporations, and other business entities.

In general, we require a minimum of \$100,000 to open and maintain an advisory account. At our discretion, we may waive this minimum account size. For example, we may waive the minimum if you appear to have significant potential for increasing your assets under our management. We may also combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts to meet the stated minimum. A client with between \$5000 to \$99,000 in an

account may be referred to the Schwab Institutional Intelligent PortfoliosTM where the automated platform provides access to our models and research, and Kummer Financial is retained as the advisor.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Our Methods of Analysis and Investment Strategies

We may use one or more of the following methods of analysis or investment strategies when providing investment advice to you:

- **Fundamental Analysis** - involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value. The risk of fundamental analysis is that information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.
- **Long Term Purchases** - securities purchased with the expectation that the value of those securities will grow over a relatively long period of time, generally greater than one year.
- **Short Term Purchases** - securities purchased with the expectation that they will be sold within a relatively short period of time, generally less than one year, to take advantage of the securities' short-term price fluctuations. We generally utilize short term purchases only in connection with re-balancing client accounts or for cash management needs.
- **Modern Portfolio Theory (MPT)** - Modern Portfolio Theory is a theory of investing which attempts to maximize portfolio expected return for a given amount of portfolio risk, or equivalently minimize risk for a given level of expected return, by carefully choosing the proportions of various assets. MPT is a mathematical formulation of the concept of diversification in investing, with the aim of selecting a collection of investment assets that has collectively lower risk than any individual asset. The risk, return, and correlation measures used by MPT are mathematical statements about the future. In practice investors must substitute predictions based on historical measurements of asset return and volatility for these values in the equations. Very often such expected values fail to take account of new circumstances which did not exist when the historical data were generated.

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

Our strategies and investments may have unique and significant tax implications. However, unless we specifically agree otherwise, and in writing, tax efficiency is not our primary consideration in the management of your assets. Regardless of your account size or any other factors, we strongly recommend that you continuously consult with a tax professional prior to and throughout the investing of your assets.

Moreover, as a result of revised IRS regulations, custodians and broker-dealers will begin reporting the cost basis of equities acquired in client accounts on or after January 1, 2011. Your custodian will, by default, use the FIFO ("First In First Out") accounting method for calculating the cost basis of equity and ETF investments and will use average cost basis for mutual funds. You are responsible for contacting your tax advisor to determine if this accounting method is the right choice for you. If your tax advisor believes another accounting method is more advantageous, please provide written notice to

our firm immediately and we will alert your account custodian of your individually selected accounting method. Please note that decisions about cost basis accounting methods will need to be made before trades settle, as the cost basis method cannot be changed after settlement.

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.

Recommendation of Particular Types of Securities

As disclosed under the "Advisory Business" section in this Brochure, we primarily recommend mutual funds and exchange traded funds ("ETFs"), however we may recommend other types of investments as appropriate for you since each client has different needs and different tolerance for risk. Each type of security has its own unique set of risks associated with it and it would not be possible to list here all of the specific risks of every type of investment. Even within the same type of investment, risks can vary widely. However, in very general terms, the higher the anticipated return of an investment, the higher the risk of loss associated with it.

Mutual funds and exchange traded funds are professionally managed collective investment systems that pool money from many investors and invest in stocks, bonds, short-term money market instruments, other mutual funds, other securities or any combination thereof. The fund will have a manager that trades the fund's investments in accordance with the fund's investment objective. While mutual funds and ETFs generally provide diversification, risks can be significantly increased if the fund is concentrated in a particular sector of the market, primarily invests in small cap or speculative companies, uses leverage (i.e., borrows money) to a significant degree, or concentrates in a particular type of security (i.e., equities) rather than balancing the fund with different types of securities. Exchange traded funds differ from mutual funds since they can be bought and sold throughout the day like stock and their price can fluctuate throughout the day. During time of extreme market volatility ETF pricing may lag vs the actual underlying asset values. This lag usually resolves itself in a short period of time (usually less than one day) however there is no guarantee this relationship will always occur. The returns on mutual funds and ETFs can be reduced by the costs to manage the funds. Also, while some mutual funds are "no load" and charge no fee to buy into, or sell out of, the fund, other types of mutual funds do charge such fees which can also reduce returns. Mutual funds can also be "closed end" or "open end". So-called "open end" mutual funds continue to allow in new investors indefinitely which can dilute other investors' interests.

Item 9 Disciplinary Information

Kummer Financial Strategies, Inc. has been registered and providing investment advisory services since 1995. Neither our firm nor any of our associated persons has any reportable disciplinary information.

Item 10 Other Financial Industry Activities and Affiliations

Registrations with Broker-Dealer

Persons providing investment advice on behalf of our firm are registered representatives with Mutual Securities, Inc., a securities broker-dealer, and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Description of Our Code of Ethics

We strive to comply with applicable laws and regulations governing our practices. Therefore, our Code of Ethics includes guidelines for professional standards of conduct for our Associated Persons. Our goal is to protect your interests at all times and to demonstrate our commitment to our fiduciary duties of honesty, good faith, and fair dealing with you. All of our Associated Persons are expected to adhere strictly to these guidelines. Our Code of Ethics also requires that certain persons associated with our firm submit reports of their personal account holdings and transactions to a qualified representative of our firm who will review these reports on a periodic basis. Persons associated with our firm are also required to report any violations of our Code of Ethics. Additionally, we maintain and enforce written policies reasonably designed to prevent the misuse or dissemination of material, non-public information about you or your account holdings by persons associated with our firm.

Our Code of Ethics is available to you upon request and is posted on our website. You may obtain a copy of our Code of Ethics by contacting Patricia Kummer at (303) 470-1209.

Participation or Interest in Client Transactions

Neither our firm nor any of our Associated Persons has any material financial interest in client transactions beyond the provision of investment advisory services as disclosed in this Brochure.

Personal Trading Practices

Our firm or persons associated with our firm may buy or sell the same securities for you at the same time we or persons associated with our firm buy or sell such securities for our own accounts. We may also combine our orders to purchase securities with your orders to purchase securities ("block trading"). Please refer to the "Brokerage Practices" section in this Brochure for information on our block trading practices.

A conflict of interest exists in such cases because we have the ability to trade ahead of you and potentially receive more favorable prices than you will receive. To mitigate this conflict of interest, it is our policy that we shall not have priority over your account in the purchase or sale of securities.

Item 12 Brokerage Practices

We recommend the brokerage and custodial services of Fidelity Brokerage Services LLC ("Fidelity"), Schwab Institutional division of Charles Schwab & Co., Inc. (referred to as CS&Co or Schwab in this Item 12), as well as Mutual Securities, Inc. ("MSI"). The firms are securities broker-dealers and members of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation.

Persons providing investment advice on behalf of our firm are registered representatives of Mutual Securities, Inc. ("MSI"). These individuals are subject to FINRA Conduct Rule 3040 that may restrict them from conducting securities transactions away from MSI unless MSI provides the representative with written authorization to do so. Therefore, these individuals are generally limited to conducting securities transactions through MSI or through custodians approved by MSI. Currently, MSI has provided advisory representatives of our firm with written authorization to place securities transactions with Fidelity and Schwab.

We have an arrangement with Fidelity and Charles Schwab (including the Schwab Institutional Intelligent Portfolios™ Program) whereby these custodians provide us with institutional platform services. The platform services include, among others, computer software, research, brokerage, block trading capability, custodial, administrative support, record keeping and related services that are intended to support us in conducting business and in serving clients but that may benefit our firm. In addition, these custodians may provide for discounts of other purchased software that permits us to better advise clients on their investments.

The Institutional Intelligent Portfolios™ Program ("Automated Portfolio Platform") includes the brokerage services of CS&Co, a broker-dealer registered with the Securities and Exchange Commission and a member of FINRA and SIPC. All clients are required to use CS&Co as custodian/broker to enroll in the Automated Portfolio Platform. Kummer Financial does not directly open the account for the client, as the client can access the account opening directly through Schwab online services.

We believe that Fidelity, Schwab and MSI provide quality execution services for you at competitive prices. Price is not the sole factor we consider in evaluating best execution. We also consider the quality of the brokerage services provided by Fidelity, Schwab and MSI, including the value of any research provided, the firm's reputation, execution capabilities, commission rates, and responsiveness to our clients and our firm. In recognition of the value of any research services and additional brokerage products and services that Fidelity, Schwab or MSI may provide, you may pay higher commissions and/or trading costs than those that may be available elsewhere.

Brokerage for Client Referrals

We do not receive client referrals from broker-dealers in exchange for cash or other compensation, such as brokerage services or research.

Block Trades

Generally, we combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as "block trading"). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion regarding factual and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or persons associated with our firm may participate in block trading with your accounts; however, they will not be given preferential treatment.

Item 13 Review of Accounts

Patricia Kummer monitors portfolio management accounts on a continuous basis and conducts an internal review of accounts on at least a quarterly basis. Additional reviews may be conducted based on various circumstances, including, but not limited to:

- contributions and withdrawals,
- year-end tax planning,
- market moving events,
- security specific events, and/or,
- changes in your risk/return objectives.

Financial plans may be updated on an annual basis upon your request and which may be subject to our regular hourly rate.

We will provide you with a quarterly report containing at least current investment holdings, transactions summaries, and market values. In addition, you will receive statements from the account custodian on at least a quarterly basis.

Item 14 Client Referrals and Other Compensation

We do not receive any compensation from any third party in connection with providing investment advice to you nor do we compensate any individual or firm for client referrals.

Please refer to the Brokerage Practices section above for disclosures on research and other benefits we may receive resulting from our relationship with Fidelity, Charles Schwab, and Mutual Securities, Inc.

As disclosed under the "Fees and Compensation" section in this Brochure, persons providing investment advice on behalf of our firm may be licensed insurance agents, and are registered representatives with Mutual Securities, Inc. a registered broker-dealer, and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation. For information on the conflicts of interest this presents, and how we address these conflicts, please refer to the "Fees and Compensation" section.

Item 15 Custody

We directly debit your account(s) for the payment of our advisory fees. This ability to deduct our advisory fees from your accounts causes our firm to exercise limited custody over your funds or securities. We do not have physical custody of any of your funds and/or securities. Your funds and securities will be held with a bank, broker-dealer, or other independent, qualified custodian. You will receive account statements from the independent, qualified custodian(s) holding your funds and securities at least quarterly. The account statements from your custodian(s) will indicate the amount of our advisory fees deducted from your account(s) each billing period. You should carefully review account statements for accuracy. Statements which accompany the reports we provide to you also reflect the amount of advisory fee deducted from your account.

You should compare our reports with the statements from your account custodian(s) to reconcile the information reflected on each statement. If you have a question regarding your account statement or if you did not receive a statement from your custodian, please contact Patricia Kummer, President, at (303) 470-1209.

Item 16 Investment Discretion

Before we can buy or sell securities on your behalf, you must first sign our discretionary management agreement, a power of attorney, and/or trading authorization forms.

You may grant our firm discretion over the selection and amount of securities to be purchased or sold for your account(s) without obtaining your consent or approval prior to each transaction. You may specify investment objectives, guidelines, and/or impose certain conditions or investment parameters for your account(s). For example, you may specify that the investment in any particular stock or industry should not exceed specified percentages of the value of the portfolio and/or restrictions or prohibitions of transactions in the securities of a specific industry or security. Please refer to the "Advisory Business" section in this Brochure for more information on our discretionary management services.

Item 17 Voting Client Securities

Proxy Voting

We will not vote proxies on behalf of your advisory accounts. If you own shares of common stock or mutual funds, you are responsible for exercising your right to vote as a shareholder.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward any electronic solicitation to vote proxies.

Item 18 Financial Information

We are not required to provide financial information to our clients because we do not:

- require the prepayment of more than \$1,200 in fees and six or more months in advance, or
- take custody of client funds or securities, or
- have a financial condition that is reasonably likely to impair our ability to meet our commitments to you.

Item 19 Requirements for State Registered Investment Advisers

We are an SEC registered investment adviser therefore this section is not applicable.

Item 20 Additional Information

Your Privacy

We view protecting your private information as a top priority. Pursuant to applicable privacy requirements, we have instituted policies and procedures to ensure that we keep your personal information private and secure.

We do not disclose any nonpublic personal information about you to any nonaffiliated third parties, except as permitted by law. In the course of servicing your account, we may share some information with our service providers, such as transfer agents, custodians, broker-dealers, accountants, consultants, and attorneys.

We restrict internal access to nonpublic personal information about you to employees, who need that information in order to provide products or services to you. We maintain physical and procedural safeguards that comply with regulatory standards to guard your nonpublic personal information and to ensure our integrity and confidentiality. We will never sell information about you or your accounts to anyone. We do not share your information unless it is required to process a transaction, at your request, or required by law.

You will receive a copy of our privacy notice prior to or at the time you sign an advisory agreement with our firm. Thereafter, we will deliver a copy of the current privacy policy notice to you on an annual basis. Please contact Patricia Kummer, President, at (303) 470-1209, if you have any questions regarding this policy.

Class Action Lawsuits

We do not determine if securities held by you are the subject of a class action lawsuit or whether you are eligible to participate in class action settlements or litigation nor do we initiate or participate in litigation to recover damages on your behalf for injuries as a result of actions, misconduct, or negligence by issuers of securities held by you.

Trade Errors

In the event a trading error occurs in your account, our policy is to restore your account to the position it should have been in had the trading error not occurred. Depending on the circumstances, corrective actions may include canceling the trade, adjusting an allocation, and/or reimbursing the account.

If a trade error results in a profit and Fidelity is the custodian, all monthly net gains (after offsetting any trade error losses) from trade error profits will be donated to charity and neither the client, the custodian or our firm will keep the profit.

If a trade error results in a profit, and Schwab is the custodian, the client will keep the profit unless the same error involved other client account(s) that should have received the gain. It is then not permissible for you to retain the gain. We may also confer with you regarding the gain and you may decide to forego the gain (e.g., due to tax reasons).

If the profit does not remain in your account and Schwab is the custodian, Schwab donates gains of \$100 or more to charity. If a loss occurs greater than \$100, our firm will pay for the loss. Schwab may retain gains of \$100 or less, if they are not kept in your account, to offset administrative expenses. Generally, if related trade errors result in both gains and losses in your account, they may be netted.
