**FORM ADV PART 2A
BROCHURE**

This brochure provides information about the qualifications and business practices of Vision Capital & Management. If you have any questions about the contents of this brochure, contact us at (740) 894-9639. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Vision Capital & Management is also available on the SEC's website at www.adviserinfo.sec.gov. The searchable IARD/CRD number for Vision Capital & Management is 118363.

Vision Capital & Management is a registered investment adviser. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Item 2 Summary of Material Changes

Form ADV Part 2 requires registered investment advisers to amend their brochure when information becomes materially inaccurate. If there are any material changes to an adviser's disclosure brochure, the adviser is required to notify you and provide you with a description of the material changes.

Since our last annual updating amendment dated March 23, 2016, we have no material changes to report.

Item 4 Advisory Business

Description of Services and Fees

Vision Capital & Management (hereinafter "Vision Capital") is a registered investment adviser based in Davidson, NC. We are organized as a corporation under the laws of the State of North Carolina. We have been providing investment advisory services since 1998. Eric L. Vogen is the principal owner. Currently, we offer Portfolio Management and Advisory Consulting Services, which are personalized to each individual client:

The following paragraphs describe our services and fees. Please refer to the description of each investment advisory service listed below for information on how we tailor our advisory services to your individual needs. As used in this brochure, the words "we", "our" and "us" refer to Vision Capital and the words "you", "your" and "client" refer to you as either a client or prospective client of our firm. Also, you may see the term Associated Person throughout this brochure. As used in this brochure, our Associated Persons are our firm's officers, employees, and all individuals providing investment advice on behalf of our firm.

Portfolio Management Services

We offer discretionary and non-discretionary portfolio management services. Our investment advice is tailored to meet our clients' needs and investment objectives. If you retain our firm for portfolio management services, we will meet with you to determine your investment objectives, risk tolerance, and other relevant information (the "suitability information") at the beginning of our advisory relationship. We will use the suitability information we gather to develop a strategy that enables our firm to give you continuous and focused investment advice and/or to make investments on your behalf. As part of our portfolio management services, we may customize an investment portfolio for you in accordance with your risk tolerance and investing objectives. We may also invest your assets using a predefined strategy, or we may invest your assets according to one or more model portfolios developed by our firm. Once we construct an investment portfolio for you, or select a model portfolio, we will monitor your portfolio's performance on an ongoing basis, and will rebalance the portfolio as required by changes in market conditions and in your financial circumstances.

If you participate in our discretionary portfolio management services, we require you to grant our firm discretionary authority to manage your account. Discretionary authorization will allow our firm to determine the specific securities, and the amount of securities, to be purchased or sold for your account without your approval prior to each transaction. Discretionary authority is typically granted by the investment advisory agreement you sign with our firm, a limited power of attorney, or trading authorization forms. You may limit our discretionary authority (for example, limiting the types of securities that can be purchased for your account) by providing our firm with your restrictions and guidelines in writing. If you enter into non-discretionary arrangements with our firm, we must obtain your approval prior to executing any transactions on behalf of your account.

Our fee for portfolio management services is based on a percentage of your assets we manage and is set forth in the following fee schedule:

Assets Under Management	Annual Fee**
Less than \$1,000,000	1.25%*
\$1,000,001 to \$10,000,000	1.00%
\$10,000,001 +	0.75%

**In certain cases, some client assets will be managed by our firm without a fee.

Our annual portfolio management fee is billed and payable quarterly in advance based on the value of your account on the last day of the previous quarter.

If the portfolio management agreement is executed at any time other than the first day of a calendar quarter, our fees will apply on a pro rata basis, which means that the advisory fee is payable in proportion to the number of days in the quarter for which you are a client. Our advisory fee is negotiable, depending on individual client circumstances.

At our discretion, we may combine the account values of family members living in the same household to determine the applicable advisory fee. For example, we may combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts. Combining account values may increase the asset total, which may result in your paying a reduced advisory fee based on the available breakpoints in our fee schedule stated above.

We will send you an invoice for the payment of our advisory fee, or we will deduct our fee directly from your account through the qualified custodian holding your funds and securities. We will deduct our advisory fee only when you have given our firm written authorization permitting the fees to be paid directly from your account. Further, the qualified custodian will deliver an account statement to you at least quarterly. These account statements will show all disbursements from your account. You should review all statements for accuracy.

You may terminate the portfolio management agreement upon 30-days' written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the portfolio management agreement, which means you will incur advisory fees only in proportion to the number of days in the quarter for which you are a client. If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

We encourage you to reconcile our invoices with the statement(s) you receive from the qualified custodian. If you find any inconsistent information between our invoice and the statement(s) you receive from the qualified custodian please call our main office number located on the cover page of this brochure.

Model Portfolio Services

We offer various model portfolios to third party investment advisers and other institutions ("Third Party Advisers") for the Third Party Advisers to offer to their respective clients. Generally, we do not work directly with the Third Party Advisers' retail clients and each Third Party Adviser is responsible for ensuring their clients' suitability prior to their clients investing assets based on the model portfolios offered by us.

Our annual fee for providing our model portfolios generally ranges up to 0.15% per annum of the amount invested in our model portfolios. Generally, the Third Party Adviser will deduct our fee from its clients accounts and will forward the fee to us. However, the fee and fee paying arrangements are negotiable and will depend on the relationship with the Third Party Adviser. Each Third Party Adviser is required to provide us with periodic written reports, along with the payment of the fees that reflects the amount of assets invested in accordance with the allocation of each model portfolio.

We will enter into a written agreement with each Third Party Adviser, which outlines the services to be provided by us as agreed upon by both parties. The terms of such agreements may vary on a case by case basis.

Advisory Consulting Services

We offer consulting services which primarily involves advising clients on specific financial-related topics. The topics we address may include, but are not limited to, investment planning, charitable planning, retirement planning, insurance assessment, estate design, risk assessment, or asset allocation strategies. We charge a negotiated fee for advisory consulting services which is dependent on the scope and complexity of services to be rendered.

Consulting Services

We may also provide consulting services to other investment advisers. The fees and specific services provided will be negotiated on a case by case basis. The fees for this service are separate and apart from the advisory fees charged by our firm.

Types of Investments

We primarily offer advice on stocks, bonds, variable annuities, exchange traded funds and/or mutual funds. We do not include the variable annuity account values in the total value used for our advisory billing/fee computation.

Additionally, we may advise you on any type of investment that we deem appropriate based on your stated goals and objectives. We may also provide advice on any type of investment held in your portfolio at the inception of our advisory relationship.

You may request that we refrain from investing in particular securities or certain types of securities. You must provide these restrictions to our firm in writing.

Assets Under Management

As of January 9, 2017, we manage \$103,439,979 in client assets on a discretionary basis. In addition, we provide Model Portfolio Services to \$82,120,391 of assets which are not included in our regulatory assets under management as reported on Form ADV Part 1.

Item 5 Fees and Compensation

Refer to the *Advisory Business* section in this brochure for information on our advisory fees, fee deduction arrangements, and refund policy according to each service we offer.

Additional Fees and Expenses

As part of our investment advisory services to you, we may invest, or recommend that you invest, in mutual funds and exchange traded funds. The fees that you pay to our firm for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or exchange traded funds (described in each fund's prospectus) to their shareholders. These fees will generally include a management fee and other fund expenses. You will also incur transaction charges and/or brokerage fees when purchasing or selling securities. These charges and fees are typically imposed by the broker-dealer or custodian through whom your account transactions are executed. We do not share in any portion of the brokerage fees/transaction charges imposed by the broker-dealer or custodian. To fully understand the total cost you will incur, you should review all the fees charged by mutual funds, exchange traded funds, our firm, and others. For information on our brokerage practices, please refer to the "Brokerage Practices" section of this brochure.

Compensation for the Sale of Securities or Other Investment Products

Some persons providing investment advice on behalf of our firm are registered representatives with FSC Securities Corporation, a securities broker-dealer and investment adviser, and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation. In their

capacity as registered representatives, these persons may receive commission-based compensation in connection with the purchase and sale of securities, more specifically variable annuities. Compensation earned by these persons in their capacities as registered representatives is separate and in addition to our advisory fees. This practice presents a conflict of interest because persons providing investment advice on behalf of our firm who are registered representatives have an incentive to effect securities transactions for the purpose of generating commissions rather than solely based on your needs. However, you are under no obligation, contractually or otherwise, to purchase securities products through any person affiliated with our firm.

We may recommend that you purchase variable annuities to be included in your investment portfolio(s). Persons providing investment advice on behalf of our firm may earn commissions on the sale of the variable annuities in his or her capacity as a registered representative of FSC Securities Corporation. If these persons earn commission on the sale of variable annuities recommended to you, we do not include the annuity accounts in the total value used for our advisory billing/fee computation. You are under no obligation, contractually or otherwise, to purchase variable annuities through any person affiliated with our firm.

Persons providing investment advice on behalf of our firm are licensed as independent insurance agents. These persons will earn commission-based compensation for selling insurance products, including insurance products they sell to you. Insurance commissions earned by these persons are separate and in addition to our advisory fees. This practice presents a conflict of interest because persons providing investment advice on behalf of our firm who are insurance agents have an incentive to recommend insurance products to you for the purpose of generating commissions rather than solely based on your needs. However, you are under no obligation, contractually or otherwise, to purchase insurance products through any person affiliated with our firm.

Item 6 Performance-Based Fees and Side-By-Side Management

We do not accept performance-based fees or participate in side-by-side management. Performance-based fees are fees that are based on a share of capital gains or capital appreciation of a client's account. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees. Our fees are calculated as described in the *Advisory Business* section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Item 7 Types of Clients

We offer investment advisory services to individuals, trusts, estates, charitable organizations, pension and profit sharing plans, corporations, and other business entities.

In general, we require a minimum of \$2,000,000 to open and maintain an advisory account. At our discretion, we may waive this minimum account size. For example, we may waive the minimum if you appear to have significant potential for increasing your assets under our management. We may also combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts to meet the stated minimum.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Our Methods of Analysis and Investment Strategies

We may use one or more of the following methods of analysis or investment strategies when providing investment advice to you:

- **Diversification** - reducing risk by investing in a variety of assets. If the expectations of the returns on all assets in the portfolio are identical, the expected return on a diversified portfolio will be identical to that on an undiversified portfolio. However, some assets will do better than others; but since the knowledge of which assets will perform better or worse is not known in advance, this fact cannot be exploited in advance. Diversification is a strategy that is employed to manage risk by spreading investments across many assets and asset classes.
- **Asset Allocation** - a large part of investment management consists of finding an asset allocation that is appropriate for a given investor in terms of their appetite for and ability to shoulder risk. Asset Allocation is a plan to invest in assets or asset classes which may best meet the needs and objectives of the investor. For instance, investors seeking high returns and willing to expose their investments to an elevated amount of risk may allocate to equity (ownership) investments. Investors seeking stability and income may allocate to debt investments.
- **Long Term Purchases** - securities purchased with the expectation that the value of those securities will grow over a relatively long period of time, generally greater than one year.
- **Short Term Purchases** - securities purchased with the expectation that they will be sold within a relatively short period of time, generally less than one year, to take advantage of the securities' short-term price fluctuations.

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

Risks of methods of analysis:

Diversification and Asset Allocation Analysis cannot guarantee that the intrinsic value of a security or asset class is correct or predict how long the intrinsic value will be reflected in the marketplace. Investment analysis cannot guarantee a profit or protect against risk or loss in periods of declining markets.

We may use short-term trading (in general, selling securities within 30 days of purchasing the same securities) as an investment strategy when managing your account(s). Short-term trading is not a fundamental part of our overall investment strategy, but we may use this strategy occasionally when we determine that it is suitable given your stated investment objectives and tolerance for risk.

Tax Considerations

Our strategies and investments may have unique and significant tax implications. However, unless we specifically agree otherwise, and in writing, tax efficiency is not our primary consideration in the management of your assets. Regardless of your account size or any other factors, we strongly recommend that you continuously consult with a tax professional prior to and throughout the investing of your assets.

Moreover, as a result of revised IRS regulations, custodians and broker-dealers will begin reporting the cost basis of equities acquired in client accounts on or after January 1, 2011. Your custodian will default to the FIFO accounting method for calculating the cost basis of your investments. You are responsible for contacting your tax advisor to determine if this accounting method is the right choice for you. If your tax advisor believes another accounting method is more advantageous, please provide

written notice to our firm immediately and we will alert your account custodian of your individually selected accounting method. Please note that decisions about cost basis accounting methods will need to be made before trades settle, as the cost basis method cannot be changed after settlement.

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.

Recommendation of Particular Types of Securities

As disclosed under the *Advisory Business* section in this Brochure, we recommend many types of securities. However, we primarily recommend exchange traded funds and mutual funds. We recommend other types of investments as appropriate for you since each client has different needs and different tolerance for risk. Each type of security has its own unique set of risks associated with it and it would not be possible to list here all of the specific risks of every type of investment. Even within the same type of investment, risks can vary widely. However, in very general terms, the higher the anticipated return of an investment, the higher the risk of loss associated with it.

Investing in mutual funds involves risk, including the potential loss of principal invested. Risks vary depending upon the strategy used by the fund as well as the sectors in which the fund invests. When redeemed, shares may be worth more or less than the original amount invested. Investors should carefully consider the investment objectives, risks, charges and expenses of mutual funds. This and other important information is contained in the prospectuses, which can be obtained by contacting your financial professional and should be read carefully before investing.

ETF products, like all investments, are subject to market risk, which may result in the loss of principal. International ETF products involve additional risks, including currency fluctuations and the potential for adverse developments in specific countries or regions. ETF products that invest in emerging markets are generally more risky than those that invest in developed countries. For more information on ETF products, or to request a prospectus for a specific product, please contact us at (704) 894-9639. Investment objectives, risks, charges, expenses, and other important information about an ETF are contained in these documents; read and consider them carefully before investing. Please note that a preliminary prospectus is subject to change.

Item 9 Disciplinary Information

Vision Capital has been registered and providing investment advisory services since 1998. Neither our firm nor any of our Associated Persons has any reportable disciplinary information.

Item 10 Other Financial Industry Activities and Affiliations

Registrations with Broker-Dealer

Some persons providing investment advice on behalf of our firm are registered representatives with FSC Securities Corporation, a securities broker-dealer and investment adviser, and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Description of Our Code of Ethics

We strive to comply with applicable laws and regulations governing our practices. Therefore, our Code of Ethics includes guidelines for professional standards of conduct for our Associated Persons. Our goal is to protect your interests at all times and to demonstrate our commitment to our fiduciary duties of honesty, good faith, and fair dealing with you. All of our Associated Persons are expected to adhere strictly to these guidelines. Our Code of Ethics also requires that certain persons associated with our firm submit reports of their personal account holdings and transactions to a qualified representative of our firm who will review these reports on a periodic basis. Persons associated with our firm are also required to report any violations of our Code of Ethics. Additionally, we maintain and enforce written policies reasonably designed to prevent the misuse or dissemination of material, non-public information about you or your account holdings by persons associated with our firm.

Our Code of Ethics is available to you upon request. You may obtain a copy of our Code of Ethics by contacting us at the phone number listed on the cover of this brochure.

Participation or Interest in Client Transactions

Neither our firm nor any of our Associated Persons has any material financial interest in client transactions beyond the provision of investment advisory services as disclosed in this brochure.

Personal Trading Practices

Our firm or persons associated with our firm may buy or sell securities for you at the same time we or persons associated with our firm buy or sell such securities for our own account. We may also combine our orders to purchase securities with your orders to purchase securities ("block trading"). Refer to the *Brokerage Practices* section in this brochure for information on our block trading practices.

A conflict of interest exists in such cases because we have the ability to trade ahead of you and potentially receive more favorable prices than you will receive. To mitigate this conflict of interest, it is our policy that neither our Associated Persons nor we shall have priority over your account in the purchase or sale of securities.

Item 12 Brokerage Practices

We recommend the brokerage and custodial services of Charles Schwab & Co., Inc., a securities broker-dealer and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation. We believe that Charles Schwab & Co., Inc. provides quality execution services for you at competitive prices. Price is not the sole factor we consider in evaluating best execution. We also consider the quality of the brokerage services provided by Charles Schwab & Co., Inc., including the value of research provided, the firm's reputation, execution capabilities, commission rates, and responsiveness to our clients and our firm. In recognition of the value of research services and additional brokerage products and services Charles Schwab & Co., Inc. provides, you may pay higher commissions and/or trading costs than those that may be available elsewhere.

Research and Other Soft Dollar Benefits

Vision Capital will recommend that clients establish brokerage accounts with the Schwab Institutional division of Charles Schwab & Co., Inc. (Schwab) to maintain custody of clients' assets and to effect trades for their accounts. Vision Capital does not have a soft dollar agreement with Schwab. However, Schwab provides benefits as a result of Vision Capital's relationship with Schwab Institutional. These benefits are listed in the following paragraphs.

Schwab Institutional provides Vision Capital with access to its institutional trading and operational services, which are typically not available to Schwab retail investors. The services generally are available to independent investment advisers at no charge to them so long as a total of at least \$10 million of Vision Capital's clients' account assets are maintained at Schwab Institutional. Schwab Institutional services include research, brokerage, custody, access to mutual funds and other investments that are otherwise available only to institutional investors or would require a significantly higher minimum initial investment.

Schwab Institutional also makes available to Vision Capital other products and services that benefit Vision Capital, but may not benefit its client's accounts. Some of these products and services assist Vision Capital in managing and administering clients' accounts. These include software and other technology that provide access to client account data, such as trade confirmations and account statements, facilitate trade execution, and allocation of aggregated trade orders, from multiple client accounts, and assist with back-office support, recordkeeping, and client reporting. Many of these services generally may be used to service all or a substantial number of Vision Capital's accounts, including accounts not maintained at Schwab Institutional. Schwab Institutional may also provide Vision Capital with other services intended to help Vision Capital manage and further develop its business enterprise. These services may include consulting, publications and presentations on practice management, information technology, business succession, regulatory compliance, and marketing. In addition, Schwab may make available, arrange and/or pay for these types of services to Vision Capital by independent third parties. Schwab Institutional may discount or waive fees it would otherwise charge for some of these services or pay all or part of the fees of a third party providing these services to Vision Capital. The availability to Vision Capital of the foregoing products and services is not contingent upon Vision Capital committing to Schwab Institutional any specified amount of business (assets in custody or trading).

Brokerage for Client Referrals

We do not receive client referrals from broker-dealers in exchange for cash or other compensation, such as brokerage services or research.

Directed Brokerage

We routinely recommend that you direct our firm to execute transactions through Schwab. As such, we may be unable to achieve the most favorable execution of your transactions and you may pay higher brokerage commissions than you might otherwise pay through another broker-dealer that offers the same types of services. Not all advisers require their clients to direct brokerage.

Persons providing investment advice on behalf of our firm who are registered representatives of FSC Securities Corporation ("FSC") will recommend FSC to you for brokerage services. These individuals are subject to applicable rules that restrict them from conducting securities transactions away from FSC unless FSC provides the representative with written authorization to do so. Therefore, these individuals are generally limited to conducting securities transactions through FSC. It may be the case that FSC charges higher transactions costs and/or custodial fees than another broker charges for the same types of services. If transactions are executed through FSC, these individuals (in their separate capacities as registered representatives of FSC) may earn commission-based compensation as result of placing the recommended securities transactions through FSC. This practice presents a conflict of interest because these registered representatives have an incentive to effect securities transactions for the purpose of generating commissions rather than solely based on your needs. You may utilize the broker-dealer of your choice and have no obligation to purchase or sell securities through such broker as we recommend. However, if you do not use FSC, we may not be able to accept your account. Refer to the *Fees and Compensation* section in this brochure for more information on the compensation received by registered representatives who are affiliated with our firm.

Block Trades

We combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as "block trading"). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion regarding factual and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or persons associated with our firm may participate in block trading with your accounts; however, they will not be given preferential treatment.

Item 13 Review of Accounts

Eric L. Vogen, President, will monitor your accounts on an ongoing basis and will conduct account reviews at least quarterly to ensure the advisory services provided to you and that the portfolio mix is consistent with your current investment needs and objectives. Additional reviews may be conducted based on various circumstances, including, but not limited to:

- contributions and withdrawals,
- year-end tax planning,
- market moving events,
- security specific events, and/or,
- changes in your risk/return objectives.

We will provide you with additional or regular written reports in conjunction with account reviews. Reports we provide to you will contain relevant account and/or market-related information such as an inventory of account holdings and account performance, etc. You will receive trade confirmations and monthly or quarterly statements from your account custodian(s).

Item 14 Client Referrals and Other Compensation

Refer to the *Brokerage Practices* section above for disclosures on research and other benefits we may receive resulting from our relationship with Charles Schwab & Co., Inc.

As disclosed under the *Fees and Compensation* section in this brochure, persons providing investment advice on behalf of our firm are licensed insurance agents, and are registered representatives with FSC, a securities broker-dealer, and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation. For information on the conflicts of interest this presents, and how we address these conflicts, refer to the *Fees and Compensation* section.

From time to time, we may receive expense reimbursement for travel and/or marketing expenses from distributors of investment and/or insurance products. Travel expense reimbursements are typically a result of attendance at due diligence and/or investment training events hosted by product sponsors. Marketing expense reimbursements are typically the result of informal expense sharing arrangements in which product sponsors may underwrite costs incurred for marketing such as advertising, publishing, and seminar expenses. Although receipt of these travel and marketing expense reimbursements are not dependent upon specific sales quotas, the product sponsor reimbursements are typically made by those sponsors for whom sales have been made or it is anticipated sales will be made.

Item 15 Custody

We directly debit your account(s) for the payment of our advisory fees. This ability to deduct our advisory fees from your accounts causes our firm to exercise limited custody over your funds or securities. We do not have physical custody of any of your funds and/or securities. Your funds and securities will be held with a bank, broker-dealer, or other independent, qualified custodian. You will receive account statements from the independent, qualified custodian(s) holding your funds and securities at least quarterly. The account statements from your custodian(s) will indicate the amount of our advisory fees deducted from your account(s) each billing period. You should carefully review account statements for accuracy. We will also provide statements to you reflecting the amount of advisory fee deducted from your account.

You should compare our statements with the statements from your account custodian(s) to reconcile the information reflected on each statement. If you have a question regarding your account statement or if you did not receive a statement from your custodian, contact us at the phone number listed on the cover of this brochure.

Item 16 Investment Discretion

Before we can buy or sell securities on your behalf, you must first sign our discretionary management agreement, a limited power of attorney, and/or trading authorization forms.

You may grant our firm discretion over the selection and amount of securities to be purchased or sold for your account(s) without obtaining your consent or approval prior to each transaction. You may specify investment objectives, guidelines, and/or impose certain conditions or investment parameters for your account(s). Refer to the *Advisory Business* section in this brochure for more information on our discretionary management services.

If you enter into non-discretionary arrangements with our firm, we will obtain your approval prior to the execution of any transactions for your account(s).

Item 17 Voting Client Securities

Proxy Voting

We will not vote proxies on behalf of your advisory accounts. At your request, we may offer you advice regarding corporate actions and the exercise of your proxy voting rights. If you own shares of common stock or mutual funds, you are responsible for exercising your right to vote as a shareholder.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward any electronic solicitation to vote proxies.

Item 18 Financial Information

We are not required to provide financial information to our clients because we do not:

- require the prepayment of more than \$1,200 in fees and six or more months in advance, or
- take custody of client funds or securities, or
- have a financial condition that is reasonably likely to impair our ability to meet our commitments to you.

Item 19 Requirements for State Registered Advisers

Vision Capital is SEC registered.

Item 20 Additional Information

Your Privacy

We view protecting your private information as a top priority. Pursuant to applicable privacy requirements, we have instituted policies and procedures to ensure that we keep your personal information private and secure.

We do not disclose any nonpublic personal information about you to any nonaffiliated third parties, except as permitted by law. In the course of servicing your account, we may share some information with our service providers, such as transfer agents, custodians, broker-dealers, accountants, consultants, and attorneys.

We restrict internal access to nonpublic personal information about you to employees, who need that information in order to provide products or services to you. We maintain physical and procedural safeguards that comply with regulatory standards to guard your nonpublic personal information and to ensure our integrity and confidentiality. We will not sell information about you or your accounts to anyone. We do not share your information unless it is required to process a transaction, at your request, or required by law.

You will receive a copy of our privacy notice prior to or at the time you sign an advisory agreement with our firm. Thereafter, we will deliver a copy of the current privacy policy notice to you on an annual basis. Contact us at the phone number listed on the cover of this brochure, if you have any questions regarding this policy.

Trade Errors

In the event a trading error occurs in your account, our policy is to restore your account to the position it should have been in, had the trading error not occurred. Depending on the circumstances, corrective actions may include canceling the trade and/or adjusting an allocation.

If a profit results from the correcting trade and Schwab is the custodian, the gain will remain in your account unless the same error involved other client account(s) that should have received the gain, you are not permitted to keep the gain, or you do not want the profit (e.g., due to tax reasons). If the profit does not remain in your account, and your account is custodied at Schwab: Schwab will donate the amount of any profit \$100 and over to charity. If a loss occurs greater than \$100, we will pay for the loss. Schwab will keep the loss or profit (if you do not keep the profit) if it is under \$100 to minimize and offset its administrative time and expense. Generally, if related trade errors result in profit and losses in your account, they may be netted.
