FORM ADV PART 2

BROCHURE

This Brochure provides information about the qualifications and business practices of Hallett & Associates, P.S. If you have any questions about the contents of this Brochure, please contact us at 360.457.6000. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Hallett & Associates P.S. is also available on the SEC's website at www.adviserinfo.sec.gov. The searchable IARD/CRD number for Hallett & Associates P.S. is 115970.

Hallett & Associates, P.S. is a Registered Investment Advisor. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Item 2 Summary of Material Changes

Form ADV Part 2 requires registered investment advisers to amend their brochure when information becomes materially inaccurate. If there are any material changes to an adviser's disclosure brochure, the adviser is required to notify you and provide you with a description of the material changes.

Since our last annual updating amendment dated February 21, 2017 we have no material changes to report.

Item 4 Advisory Business

Description of Services and Fees

Hallett & Associates, P.S. (doing business as Hallett Advisors) is a registered investment advisor based in Port Angeles, Washington. We are organized as a corporation under the laws of the State of Washington. We have been providing investment advisory services since 2002. James Hallett and Matthew Miller are the owners of our firm. Currently, we offer the following investment advisory services, which are personalized to each individual client:

- **Financial Planning & Consulting Services**
- **Portfolio Management Services**
- **Selection of Other Advisors**
- **Pension Consulting Services**
- **Expert Witness Services**

The following paragraphs describe our services and fees. Please refer to the description of each investment advisory service listed below for information on how we tailor our advisory services to your individual needs. As used in this Brochure, the words "we", "our" and "us" refer to Hallett & Associates, P.S. and the words "you", "your" and "client" refer to you as either a client or prospective client of our firm. Also, you may see the term Associated Person throughout this Brochure. As used in this Brochure, our Associated Persons are our firm's officers, employees, and all individuals providing investment advice on behalf of our firm.

Financial Planning Services

We offer broad-based, modular, and consultative financial planning services. Financial planning will typically involve providing a variety of advisory services to clients regarding the management of their financial resources based upon an analysis of their individual needs. If you retain our firm for financial planning services, we will meet with you to gather information about your financial circumstances and objectives. Once we review and analyze the information you provide to our firm, we will deliver a written plan to you, designed to help you achieve your stated financial goals and objectives.

Financial plans are based on your financial situation at the time we present the plan to you, and on the financial information you provide to our firm. You must promptly notify our firm if your financial situation, goals, objectives, or needs change.

You are under no obligation to act on our financial planning recommendations. Should you choose to act on any of our recommendations, you are not obligated to implement the financial plan through any of our other investment advisory services. Moreover, you may act on our recommendations by placing securities transactions with any brokerage firm.

We charge an hourly fee of \$350 for financial planning services based on the estimate of hours necessary to complete the engaged services and/or written financial plan. The hourly fee is non-negotiable. The time required to perform the engaged services may vary depending on the complexity and scope of the engagement and your individual circumstances.

If you only require advice on a single aspect of your finances, we offer modular financial planning/general consulting services on an hourly basis. Our rate for such services is \$350 per hour and is non-negotiable. An estimate of the total time/cost will be determined at the start of the advisory relationship. The time/cost required to complete a modular plan will generally be lower than a broad based financial plan. For hourly consulting services where a plan is not presented to you, fees will typically be payable upon completion of the services rendered.

If we provide you with a written financial plan, we may require that you pay 50% of the fee in advance and the remaining portion upon the completion of the services rendered. We will not require prepayment of a fee more than six months in advance and in excess of \$1,200.

You may terminate the financial planning agreement by providing written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the agreement. If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

Portfolio Management Services

We offer discretionary and non-discretionary portfolio management services. Our investment advice is tailored to meet our clients' needs and investment objectives. If you retain our firm for portfolio management services, we will meet with you to determine your investment objectives, risk tolerance, and other relevant information (the "suitability information") at the beginning of our advisory relationship. We will use the suitability information we gather to develop a strategy that enables our firm to give you continuous and focused investment advice and/or to make investments on your behalf. As part of our portfolio management services, we may customize an investment portfolio for you in accordance with your risk tolerance and investing objectives. Once we construct an investment portfolio for you, we will monitor your portfolio's performance on an ongoing basis, and will rebalance the portfolio as required by changes in market conditions and in your financial circumstances.

If you participate in our discretionary portfolio management services, we require you to grant our firm discretionary authority to manage your account. Discretionary authorization will allow our firm to determine the specific securities, and the amount of securities, to be purchased or sold for your account without your approval prior to each transaction. Discretionary authority is typically granted by the investment advisory agreement you sign with our firm, a power of attorney, or trading authorization forms. You may limit our discretionary authority (for example, limiting the types of securities that can be purchased for your account) by providing our firm with your restrictions and guidelines in writing. If you enter into non-discretionary arrangements with our firm, we must obtain your approval prior to executing any transactions on behalf of your account.

Our fee for portfolio management services is based on a percentage of your assets we manage and is set forth in the following fee schedule:

Assets Under Management	Annual Fee
First \$250,000	2.00%
Next \$250,000	1.75%
Next \$500,000	1.50%
Over \$1,000,000	1.00%

We charge a set-up fee equal to 1% of the portfolio value if Portfolio Management Services are terminated within the first 12 months. The portfolio's market value is based upon the value assigned by the client's custodian as of the last market day of the relevant billing period. In absence of a custodial market value, the value will be agreed upon between the Firm and client and perhaps after consultation with an independent third party.

Our annual portfolio management fee is billed and payable quarterly in advance based on the value of your account on the last day of the previous quarter. In our sole discretion, we may negotiate other fee paying arrangements, such as payment in arrears.

If the portfolio management agreement is executed at any time other than the first day of a calendar quarter, our fees will apply on a pro rata basis, which means that the advisory fee is payable in proportion to the number of days in the quarter for which you are a client. Our advisory fee is negotiable, depending on individual client circumstances.

At our discretion, we may combine the account values of family members living in the same household to determine the applicable advisory fee. For example, we may combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts. Combining account values may increase the asset total, which may result in your paying a reduced advisory fee based on the available breakpoints in our fee schedule stated above.

We will deduct our fee directly from your account through the qualified custodian holding your funds and securities. We will deduct our advisory fee only when you have given our firm written authorization permitting the fees to be paid directly from your account. Further, the qualified custodian will deliver an account statement to you at least quarterly. These account statements will show all disbursements from your account. You should review all statements for accuracy.

You may terminate the portfolio management agreement upon written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the portfolio management agreement, which means you will incur advisory fees only in proportion to the number of days in the quarter for which you are a client. If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

We encourage you to reconcile our invoices with the statement(s) you receive from the qualified custodian. If you find any inconsistent information between our invoice and the statement(s) you receive from the qualified custodian please call our main office number located on the cover page of this Brochure.

Selection of Other Advisors

As part of our investment advisory services, we may recommend that you use the services of a third party money manager ("TPMM") to manage your entire, or a portion of your, investment portfolio. After gathering information about your financial situation and objectives, we may recommend that you engage a specific TPMM or investment program. Factors that we take into consideration when making our recommendation(s) include, but are not limited to, the following: the TPMM's performance, methods of analysis, fees, your financial needs, investment goals, risk tolerance, and investment objectives. We will periodically monitor the TPMM(s)' performance to ensure its management and investment style remains aligned with your investment goals and objectives.

We will share in the advisory fee you pay directly to the TPMM. The advisory fee you pay to the TPMM is established and payable in accordance with the disclosure Brochure provided by each TPMM to whom you are referred. These fees may or may not be negotiable. Our compensation may differ depending upon the individual agreement we have with each TPMM. As such, a conflict of interest may arise where our firm or our Associated Persons may have an incentive to recommend one TPMM over another TPMM with whom we have more favorable compensation arrangements or other advisory programs offered by TPMMs with whom we have less or no compensation arrangements.

You may be required to sign an agreement directly with the recommended TPMM(s). You may terminate your advisory relationship with the TPMM according to the terms of your agreement with the TPMM. You should review each TPMM's disclosure Brochure for specific information on how you may terminate your advisory relationship with the TPMM and how you may receive a refund, if applicable. You should contact the TPMM directly for questions regarding your advisory agreement with the TPMM.

Expert Witness Services

James Hallett, President of our firm, is also available to provide expert witness services on issues pertaining to divorce planning, ERISA Retirement Plans, and Investment Management. For consulting services related to expert witness testimony, we may charge an hourly rate of \$350 or \$2,500 per diem, in addition to travel and related expenses. We may require that 50% of the fee be paid in advance, with the remaining portion due upon completion of the expert testimony services rendered. An estimate of the total cost will be determined at the start of the advisory relationship. In limited circumstances, the cost/time could potentially exceed the initial estimate. In such cases, we will notify you and may request that you approve the additional fee. Mr. Hallett is not an attorney and does not engage in the delivery of legal advice or legal documents.

Expert witness services can be terminated upon receipt of written notice. Our refund policy for Financial Planning/Consultation Services will apply or Mr. Hallett will prepare an invoice for services and expenses, if applicable.

Pension Consulting Services

We offer pension consulting services to employee benefit plans and their fiduciaries based upon the needs of the plan and the services requested by the plan sponsor or named fiduciary. In general, these services may include an existing plan review and analysis, plan-level advice regarding fund selection and investment options, education services to plan participants, investment performance monitoring, and/or ongoing consulting. These pension consulting services will generally be non-discretionary and advisory in nature. The ultimate decision to act on behalf of the plan shall remain with the plan sponsor or other named fiduciary.

We may also assist with participant enrollment meetings and provide investment-related educational seminars to plan participants on such topics as:

- Diversification
- Asset allocation
- Risk tolerance
- Time horizon

Our educational seminars may include other investment-related topics specific to the particular plan.

We may also provide additional types of pension consulting services to plans on an individually negotiated basis. All services, whether discussed above or customized for the plan based upon requirements from the plan fiduciaries (which may include additional plan-level or participant-level services) shall be detailed in a written agreement and be consistent with the parameters set forth in the plan documents. Our advisory fees for these customized services will be negotiated with the plan sponsor or named fiduciary on a case-by-case basis.

Either party to the pension consulting agreement may terminate the agreement upon written notice to the other party. The pension consulting fees will be prorated for the quarter in which the termination notice is given and any unearned fees will be refunded to the client.

Advisory Services to Retirement Plans

As disclosed above, we offer various levels of advisory and consulting services to employee benefit plans ("Plan") and to the participants of such plans ("Participants"). The services are designed to assist plan sponsors in meeting their management and fiduciary obligations to Participants under the Employee Retirement Income Securities Act ("ERISA"). Pursuant to adopted regulations of the U.S. Department of Labor under ERISA Section 408(b)(2), we are required to provide the Plan's responsible plan fiduciary (the person who has the authority to engage us as an investment adviser to the Plan) with a written statement of the services we provide to the Plan, the compensation we receive for providing those services, and our status (which is described below).

The services we provide to your Plan, and the corresponding compensation are described above, and in the service agreement that you have previously signed with our firm. We may, with consent of the Plan, and in accordance with Plan documents, bill out-of pocket expenses (such as overnight mailings, messenger, translation fees, etc.) at cost. We do not reasonably expect to receive any other compensation, direct or indirect, for the services we provide to the Plan or Participants. Nonetheless, since Associated Persons of our firm are licensed insurance agents these individuals may receive indirect compensation in connection with the sale of insurance related products (refer to Items 5 and 14 for additional disclosures). If we receive any other compensation for such services, we will (i) offset the compensation against our stated fees, and (ii) we will promptly disclose the amount of such compensation, the services rendered for such compensation and the payer of such compensation to you.

In providing services to the Plan and Participants, our status is that of an investment adviser registered under the Investment Advisers Act of 1940, and we are not subject to any disqualifications under Section 411 of ERISA. In performing fiduciary services, we are acting as a non-discretionary fiduciary of the Plan as defined in Section 3(21), only. We do not act as a discretionary "investment manager" of the Plan as defined in Section 3(38) under ERISA.

Types of Investments

We primarily offer advice on equity securities, warrants, corporate debt securities, certificates of deposit, municipal securities, investment company securities, US Government securities, and interest in partnerships investing in real estate, oil and gas interests, and others.

Additionally, we may advise you on any type of investment that we deem appropriate based on your stated goals and objectives. We may also provide advice on any type of investment held in your portfolio at the inception of our advisory relationship.

You may request that we refrain from investing in particular securities or certain types of securities. You must provide these restrictions to our firm in writing.

Assets Under Management

As of January 2, 2018, we manage approximately \$123,758,020 in client assets on a discretionary basis. We do not manage any assets on a non-discretionary basis at this time.

Item 5 Fees and Compensation

Please refer to the "Advisory Business" section in this Brochure for information on our advisory fees, fee deduction arrangements, and refund policy according to each service we offer.

Additional Fees and Expenses

As part of our investment advisory services to you, we may invest, or recommend that you invest, in mutual funds and exchange traded funds. The fees that you pay to our firm for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or exchange traded funds (described in each fund's prospectus) to their shareholders. These fees will generally include a management fee and other fund expenses. You will also incur transaction charges and/or brokerage fees when purchasing or selling securities. These charges and fees are typically imposed by the broker-dealer or custodian through which your account transactions are executed. We do not share in any portion of the brokerage fees/transaction charges imposed by the broker-dealer or custodian. To fully understand the total cost you will incur, you should review all the fees charged by mutual funds, exchange traded funds, our firm, and others.

For information on our brokerage practices, please refer to the "Brokerage Practices" section of this Disclosure Brochure.

Compensation for the Sale of Insurance Products

Persons providing investment advice on behalf of our firm are licensed as independent insurance agents. These persons may earn commission-based compensation for selling insurance products, including insurance products they sell to you. Insurance commissions earned by these persons are separate and in addition to our advisory fees. This practice presents a conflict of interest because persons providing investment advice on behalf of our firm who are insurance agents have an incentive to recommend insurance products to you for the purpose of generating commissions rather than solely based on your needs. However, you are under no obligation, contractually or otherwise, to purchase insurance products through any person affiliated with our firm.

At our discretion, we may offset our advisory fees to the extent our Associated Persons earn commissions in their separate capacities as insurance agents.

Item 6 Performance-Based Fees and Side-By-Side Management

We do not accept performance-based fees or participate in side-by-side management. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees.

Performance-based fees are fees that are based on a share of capital gains or capital appreciation of a client's account. Our fees are calculated as described in the *Advisory Business* section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Item 7 Types of Clients

We offer investment advisory services to individuals, pension and profit sharing plans, trusts, estates, charitable organizations, corporations, and other business entities.

For portfolio management services, we charge a set-up fee equal to 1% of the portfolio value if services are terminated within the first 12 months. The portfolio's market value is based upon the value assigned by the client's custodian as of the last market day of the relevant billing period. In absence of a custodial market value, the value will be agreed upon between the Firm and client and perhaps after consultation with an independent third party.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Our Methods of Analysis and Investment Strategies

We may use one or more of the following methods of analysis or investment strategies when providing investment advice to you:

- **Fundamental Analysis** - involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value.
- **Technical Analysis** - involves studying past price patterns and trends in the financial markets to predict the direction of both the overall market and specific stocks.
- **Long Term Purchases** - securities purchased with the expectation that the value of those securities will grow over a relatively long period of time, generally greater than one year.
- **Short Term Purchases** - securities purchased with the expectation that they will be sold within a relatively short period of time, generally less than one year, to take advantage of the securities' short-term price fluctuations.
- **Short Sales** - a securities transaction in which an investor sells securities he or she borrowed in anticipation of a price decline. The investor is then required to return an equal number of shares at some point in the future. A short seller will profit if the stock goes down in price.
- **Margin Transactions** - a securities transaction in which an investor borrows money to purchase a security, in which case the security serves as collateral on the loan.
- **Option Writing** - a securities transaction that involves selling an option. An option is the right, but not the obligation, to buy or sell a particular security at a specified price before the expiration date of the option. When an investor sells an option, he or she must deliver to the buyer a specified number of shares if the buyer exercises the option. The seller pays the buyer a premium (the market price of the option at a particular time) in exchange for writing the option.

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

Taxation

Our strategies and investments may have unique and significant tax implications. However, unless we specifically agree otherwise, and in writing, tax efficiency is not our primary consideration in the management of your assets. Regardless of your account size or any other factors, we strongly recommend that you continuously consult with a tax professional prior to and throughout the investing of your assets.

Moreover, as a result of revised IRS regulations, custodians and broker-dealers will begin reporting the cost basis of equities acquired in client accounts on or after January 1, 2011. Custodians will default to the FIFO accounting method for calculating the cost basis of your investments. You are responsible for contacting your tax advisor to determine if this accounting method is the right choice for you. If your tax advisor believes another accounting method is more advantageous, please provide written notice to our firm immediately and we will alert your account custodian of your individually selected accounting method. Please note that decisions about cost basis accounting methods will need to be made before trades settle, as the cost basis method cannot be changed after settlement.

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.

Recommendation of Particular Types of Securities

As disclosed under the "Advisory Business" section in this Brochure, we recommend all types of securities and we do not necessarily recommend one particular type of security over another since each client has different needs and different tolerance for risk. Each type of security has its own unique set of risks associated with it and it would not be possible to list here all of the specific risks of every type of investment. Even within the same type of investment, risks can vary widely. However, in very general terms, the higher the anticipated return of an investment, the higher the risk of loss associated with it.

There are numerous ways of measuring the risk of equity securities (also known simply as "equities" or "stock"). In very broad terms, the value of a stock depends on the financial health of the company issuing it. However, stock prices can be affected by many other factors including, but not limited to: the class of stock (for example, preferred or common); the health of the market sector of the issuing company; and, the overall health of the economy. In general, larger, better established companies ("large cap") tend to be safer than smaller start-up companies ("small cap") but the mere size of an issuer is not, by itself, an indicator of the safety of the investment.

Corporate debt securities (or "bonds") are typically safer investments than equity securities, but their risk can also vary widely based on: the financial health of the issuer; the risk that the issuer might default; when the bond is set to mature; and, whether or not the bond can be "called" prior to maturity. When a bond is called, it may not be possible to replace it with a bond of equal character paying the same interest rate.

Municipal securities, while generally thought of as safe, can have significant risks associated with them including, but not limited to: the credit worthiness of the governmental entity that issues the bond; the stability of the revenue stream that's used to pay the dividends; when the bond is set to mature; and, whether or not the bond can be "called" prior to maturity. When a bond is called, it may not be possible to replace it with a bond of equal character paying the same dividend.

Certificates of deposit are generally the safest type of investment since they are insured by the federal government. However, because the returns are generally very low, it's possible for inflation to outpace the return. Likewise, US Government securities are backed by the full faith and credit of the United States government but it's also possible for the rate of inflation to exceed the returns.

A limited partnership is a financial affiliation that includes at least one general partner and a number of limited partners. The partnership invests in a venture, such as real estate development or oil exploration, for financial gain. The general partner does not usually invest any capital, but has management authority and unlimited liability. That is, the general partner runs the business and, in the event of bankruptcy, is responsible for all debts not paid or discharged. The limited partners have no management authority and confine their participation to their capital investment. That is, limited partners invest a certain amount of money and have nothing else to do with the business. However, their liability is limited to the amount of the investment. In the worst case scenario for a limited partner, he/she loses what he/she invested. Profits are divided between general and limited partners according to an arrangement formed at the creation of the partnership.

Mutual funds and exchange traded funds (ETFs) are professionally managed collective investment systems that pool money from many investors and invest in stocks, bonds, short-term money market instruments, other mutual funds, other securities or any combination thereof. The fund will have a manager that trades the fund's investments in accordance with the fund's investment objective. While mutual funds and ETFs generally provide diversification, risks can be significantly increased if the fund is concentrated in a particular sector of the market, primarily invests in small cap or speculative companies, uses leverage (i.e., borrows money) to a significant degree, or concentrates in a particular type of security (i.e., equities) rather than balancing the fund with different types of securities. ETFs differ from mutual funds since they can be bought and sold throughout the day like stock and their price can fluctuate throughout the day. The returns on mutual funds and ETFs can be reduced by the costs to manage the funds. Also, while some mutual funds are "no load" and charge no fee to buy into, or sell out of, the fund other types of mutual funds do charge such fees which can also reduce returns. Mutual funds can also be "closed end" or "open end". So-called "open end" mutual funds continue to allow in new investors indefinitely which can dilute other investors' interests.

Item 9 Disciplinary Information

Hallett & Associates, P.S. has been registered and providing investment advisory services since 2002. Neither our firm nor any of our associated persons has any reportable disciplinary information.

Item 10 Other Financial Industry Activities and Affiliations

We have not provided information on other financial industry activities and affiliations because we do not have any relationship or arrangement that is material to our advisory business or to our clients with any of the types of entities listed below.

1. broker-dealer, municipal securities dealer, or government securities dealer or broker
2. investment company or other pooled investment vehicle (including a mutual fund, closed-end investment company, unit investment trust, private investment company or "hedge fund," and offshore fund)
3. other investment advisor or financial planner
4. futures commission merchant, commodity pool operator, or commodity trading advisor
5. banking or thrift institution
6. accountant or accounting firm
7. lawyer or law firm
8. insurance company or agency
9. pension consultant
10. real estate broker or dealer
11. sponsor or syndicator of limited partnerships

Recommendation of Other Advisors

We may recommend that you use a third party advisor ("TPMM") based on your needs and suitability. We will receive compensation from the TPMM for recommending that you use their services. These compensation arrangements present a conflict of interest because we have a financial incentive to recommend the services of the third party advisor. You are not obligated, contractually or otherwise, to use the services of any TPMM we recommend.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Description of Our Code of Ethics

We strive to comply with applicable laws and regulations governing our practices. Therefore, our Code of Ethics includes guidelines for professional standards of conduct for our Associated Persons. Our goal is to protect your interests at all times and to demonstrate our commitment to our fiduciary duties of honesty, good faith, and fair dealing with you. All of our Associated Persons are expected to adhere strictly to these guidelines. Our Code of Ethics also requires that certain persons associated with our firm submit reports of their personal account holdings and transactions to a qualified representative of our firm who will review these reports on a periodic basis. Persons associated with our firm are also required to report any violations of our Code of Ethics. Additionally, we maintain and enforce written policies reasonably designed to prevent the misuse or dissemination of material, non-public information about you or your account holdings by persons associated with our firm.

Our Code of Ethics is available to clients and prospective clients upon request. You may obtain a copy of our Code of Ethics by calling our main number (360) 457-6000.

Personal Trading Practices

Our firm or persons associated with our firm may buy or sell the same securities that we recommend to you or securities in which you are already invested. A conflict of interest exists in such cases because we have the ability to trade ahead of you and potentially receive more favorable prices than you will receive. To mitigate this conflict of interest, it is our policy that neither our Associated Persons nor we shall have priority over your account in the purchase or sale of securities.

Item 12 Brokerage Practices

We maintain relationships with several broker-dealers; however, we will not make a specific brokerage recommendation to our clients. Where we provide independent asset management services, we will endeavor to assist clients in selecting those brokers or dealers that will provide the best services at the lowest commission rates possible. The reasonableness of commissions is based on several factors, including the broker's ability to provide professional services, competitive commission rates, volume discounts, execution price negotiations, the broker's reputation, experience and financial stability of the broker or dealer, and the quality of service rendered by the broker or dealer in other transactions.

Best execution is not measured solely by reference to commission rates. Paying a broker a higher commission rate than another broker might charge is permissible if the difference in cost is reasonably justified by the quality of the brokerage services offered. We do not obligate ourselves to seek the lowest transaction charges in all cases except to the extent that it contributes to the overall goal of obtaining the best results for your account. It is expected that our firm will receive some economic benefits, for example, research and access to investment consultants, from various full service and discount brokers in connection with utilizing their brokerage services.

Block Trades

We may combine multiple orders for shares of the same securities purchased for discretionary accounts; however, we do not combine orders for non-discretionary accounts. Accordingly, non-discretionary accounts may pay different costs than discretionary accounts pay. If you enter into non-discretionary arrangements with our firm, we may not be able to buy and sell the same quantities of securities for you and you may pay higher commissions, fees, and/or transaction costs than clients who enter into discretionary arrangements.

Item 13 Review of Accounts

Review of Accounts and Reports to Clients

Investment Management Services involve continuous and ongoing services and provides for the monitoring and internal review of portfolio assets. Underlying portfolio assets are reviewed at least quarterly, perhaps daily. Individual portfolios are generally reviewed at least quarterly; however, reviews could also occur at the time of new deposits or significant withdrawals, material changes in client conditions, at our discretion or according to your stated direction. Reviews entail the analysis of securities, sensitivity to overall markets, economic changes, investment results, asset allocation, etc., to ensure the investment strategy and expectations are structured to continue to meet your stated objectives. In the management of mutual fund investments, we will undertake a global review of economic changes and fund performance in and of each particular fund and how it relates to its peers and the general market and adherence to style. Reviews are performed by IARs under the direction of James D. Hallett, the President of our firm. We request that you meet with the IAR assigned to your account at least annually to review and/or update the investment strategies, goals, investment risk profile, and any changes to your financial position.

Financial Planning and Consultation Services are not ongoing in nature and thus terminate upon the delivery of services unless the Client Agreement provides for an annual review or other continuing services. Where services terminate upon delivery, reviews or updates are not included in the services. We may recommend annual reviews or other follow-up services, but it would be your responsibility to engage additional services from us under a new or amended engagement.

Item 14 Client Referrals and Other Compensation

We do not receive any compensation from any third party in connection with providing investment advice to you nor do we compensate any individual or firm for client referrals.

Please refer to the *Brokerage Practices* section above for disclosures on research and other benefits we may receive resulting from our relationship with the Custodian of your account.

Associated Persons who provide investment advice on behalf of our firm may also be licensed insurance agents. These individuals may receive commission based income on the sale of insurance related products. For information on the conflicts of interest this presents, and how we address these conflicts, please refer to the *Fees and Compensation* section above.

Item 15 Custody

We directly debit your account(s) for the payment of our advisory fees. This ability to deduct our advisory fees from your accounts causes our firm to exercise limited custody over your funds or securities. We do not have physical custody of any of your funds and/or securities. Your funds and securities will be held with a bank, broker-dealer, or other independent, qualified custodian. You will receive account statements from the independent, qualified custodian(s) holding your funds and securities at least quarterly. The account statements from your custodian(s) will indicate the amount of our advisory fees deducted from your account(s) each billing period. You should carefully review account statements for accuracy.

Item 16 Investment Discretion

Before we can buy or sell securities on your behalf, you must first sign our discretionary management agreement.

You may grant our firm discretion over the selection and amount of securities to be purchased or sold for your account(s) without obtaining your consent or approval prior to each transaction. You may specify investment objectives, guidelines, and/or impose certain conditions or investment parameters for your account(s). For example, you may specify that the investment in any particular stock or industry should not exceed specified percentages of the value of the portfolio and/or restrictions or prohibitions of transactions in the securities of a specific industry or security. Please refer to the "Advisory Business" section in this Brochure for more information on our discretionary management services.

If you enter into non-discretionary arrangements with our firm, we will obtain your approval prior to the execution of any transactions for your account(s).

Item 17 Voting Client Securities

Without exception, we will not vote proxies on behalf of your advisory accounts. At your request, we may offer you advice regarding corporate actions and the exercise of your proxy voting rights.

Item 18 Financial Information

We are not required to provide financial information to our clients because we do not:

- require the prepayment of more than \$1,200 in fees and six or more months in advance, or
- take custody of client funds or securities, or
- have a financial condition that is reasonably likely to impair our ability to meet our commitments to you.

Item 19 Requirements for State-Registered Advisers

Our firm is not a state-registered investment adviser.

Item 20 Additional Information

Your Privacy

We view protecting your private information as a top priority. Pursuant to applicable privacy requirements, we have instituted policies and procedures to ensure that we keep your personal information private and secure.

We do not disclose any nonpublic personal information about you to any nonaffiliated third parties, except as permitted by law. In the course of servicing your account, we may share some information with our service providers, such as transfer agents, custodians, broker-dealers, accountants, consultants, and attorneys.

We restrict internal access to nonpublic personal information about you to employees, who need that information in order to provide products or services to you. We maintain physical and procedural safeguards that comply with regulatory standards to guard your nonpublic personal information and to

ensure our integrity and confidentiality. We will never sell information about you or your accounts to anyone. We do not share your information unless it is required to process a transaction, at your request, or required by law.

You will receive a copy of our privacy notice prior to or at the time you sign an advisory agreement with our firm. Thereafter, we will deliver a copy of the current privacy policy notice to you on an annual basis. Please contact our main number, located on the cover page of this Brochure, if you have any questions regarding this policy.

Trade Errors

In the event a trading error occurs in your account, our policy is to restore your account to the position it should have been in had the trading error not occurred. Depending on the circumstances, corrective actions may include canceling the trade, adjusting an allocation, and/or reimbursing the account. If a trade error results in a profit, you will keep the profit.
