Item 4 Advisory Business

A. General Description of Advisory Firm

City National Rochdale's principal places of its investment advisory business are located in New York, NY and Beverly Hills, CA with additional offices located in San Francisco, CA, Lake Mary, FL, Houston, TX, Chicago, IL, Potomac, MD and Richmond, VA.

City National Rochdale, LLC is a subsidiary of City National Bank ("CNB"). City National Rochdale, LLC and City National Bank are wholly-owned subsidiaries of RBC USA Holdco Corporation, which is a wholly-owned indirect subsidiary of Royal Bank of Canada.

B. Description of Advisory Services

City National Rochdale has been retained by City National Bank (CNB) and City National Securities (CNS) as the sub-advisor for money management services and City National Rochdale provides money management services to clients with portfolios starting with a minimum investment of \$250,000 primarily on a discretionary basis. The client's advisor works with clients to determine their portfolio needs and limitations and then works with City National Rochdale to design an asset allocation and investment objective plan to meet their goals. Thereafter, City National Rochdale portfolio managers implement each plan, working directly with the client and their advisor, on a one-on-one basis. A typical client relationship will have a CNB or CNS advisor to assist the client through the implementation process and work with City National Rochdale for the on-going portfolio management of the client's assets. City National Rochdale intelligently personalizes and allows for customization of client portfolios. This includes working with a client's already existing portfolio to build out an appropriate City National Rochdale portfolio (i.e., utilizing existing securities where appropriate), managing across multiple accounts (IRA's, trust, personal, joint, etc.), allowing clients to place restrictions on securities (industry, sector, etc.), or types of securities (options, derivatives, etc.) or investment strategies (large cap, international, alternative, etc.), and managing a client's portfolio to meet specific distribution needs and tax goals. City National Rochdale may not be able to accommodate some restrictions for client investments in pooled investment vehicles. Except for the portion of an account that is invested in pooled vehicles, each client's account is managed separate from other clients of City National Rochdale (i.e., not commingled, securities are purchased in their personal accounts).

Clients may choose from a variety of programs, depending on their investment objectives, financial position and level of assets to be placed with City National Rochdale. In working with clients to implement individualized investment programs, City National Rochdale may recommend the use of various investment funds managed by City National Rochdale, its affiliates or third party managers to capture potential returns from specified assets classes.

City National Rochdale Funds:

City National Rochdale provides investment advisory services to the City National Rochdale Funds, a Delaware statutory trust (the "Trust") registered under the Investment Company Act of 1940, as amended, as an open-end investment management company currently offering a series of 11 investment funds, (the "City National Rochdale Funds"). As of December 1, 2017, City National Rochdale sold its business associated with the City National Rochdale Emerging Markets Fund to Fiera Capital, Inc. ("Fiera"), subject to shareholder approval. City National Rochdale provides a continuous investment program

including general investment and economic advice regarding investment strategies, manages the City National Rochdale Funds' investment portfolios and provides other services necessary to the operation of the Trust.

City National Rochdale provides the City National Rochdale Funds with investment management services in accordance with the investment objectives as set forth in the City National Rochdale Funds' prospectuses and Statement of Additional Information (SAI). Subject to the oversight of the Trust's Board of Trustees, City National Rochdale has complete discretion as to the purchase and sale of investments for the City National Rochdale Funds it directly manages, consistent with each such City National Rochdale Fund's investment objective, policies and restrictions.

City National Rochdale is responsible for the evaluation and monitoring of the sub-advisers of the High Yield Bond Fund and Fixed Income Opportunities Fund (collectively, the "Sub-advised Funds"). City National Rochdale evaluates sub-advisers based on a variety of factors, including investment style, performance record and the characteristics of each sub-adviser's typical investments. The assets of the Fixed Income Opportunities Fund are divided into various sleeves and City National Rochdale is responsible for allocating the assets among the sub-advisers in accordance with their specific investment styles. Subject to the oversight of City National Rochdale and the Trust's Board of Trustees, the sub-advisers have complete discretion as to the purchase and sale of investments for these City National Rochdale Funds consistent with each City National Rochdale Fund's investment objective, policies and restrictions.

After City National Rochdale determines the most suitable investment program for the Program's clients, an investment program that allocates a portion of a client's assets among the City National Rochdale Funds may be recommended. City National Rochdale may also recommend other affiliated or non-affiliated funds or separate account managers.

Other Registered Investment Vehicles:

City National Rochdale also makes available to its clients who satisfy the suitability requirements interests in other registered investment vehicles which are managed by City National Rochdale. These include City National Rochdale High Yield Alternative Strategies Master Fund, City National Rochdale High Yield Alternative Strategies Fund and City National Rochdale High Yield Alternative Strategies Fund TEI (collectively "RHYAS"), City National Rochdale Select Strategies Fund ("CNRLX") and City National Rochdale Structured Claims Fixed Income Fund ("RSCFIF") (collectively, the "Other Registered Funds"). City National Rochdale may organize and offer other registered investment funds in the future.

City National Rochdale also makes available to its clients who satisfy certain suitability requirements interests in other investment vehicles managed by City National Rochdale that are not registered under the Investment Company Act. As of the date of this Brochure, these include Special Opportunities Fund and Diversified Opportunities Fund (collectively the "Offshore Funds"). Note that the Diversified Opportunities Fund is currently in liquidation and is no longer offered as an investment option to clients. The Offshore Funds are domiciled in the British Virgin Islands.

The City National Rochdale Funds, Other Registered Funds and Offshore Funds are collectively referred to as the "Funds." City National Rochdale may organize other investment funds in the future. City National Rochdale receives fees for services to the Funds. All Funds are each subject to an annual audit by an independent auditor and audited financial statements are sent to investors annually.

Third Party Alternative Funds:

City National Rochdale also makes available to its clients who satisfy certain suitability and eligibility requirements, interests in other non-affiliated privately managed alternative funds that are not registered under the Investment Company Act. These funds invest in a variety of alternative investments such as European bank loans, healthcare royalty rights, rail car leasing and reinsurance bonds. **Clients who meet the suitability and eligibility requirements to invest in these funds will indirectly pay the management fees of the non-affiliated investment vehicle in addition to the City National Rochdale investment management fees.**

Money Management Program. Intelligently personalized and customized portfolio implementation and management for clients that meet City National Rochdale's minimum net worth requirements (\$1M portfolio value and above across all accounts managed). The minimum for CNS clients offered the Money Management Program is \$250,000. Clients pay a commission for security trades in a separately managed account.

Investment Advisory Services. City National Rochdale provides investment management services to CNB and City National Securities (CNS) clients pursuant to a sub-advisory agreement. City National Rochdale receives a fee for its services.

Other City National Rochdale Activities. The investment advisory programs described above are available to Accounts maintained offshore, although differing fee schedules may apply (see "Fees and Compensation" in this Brochure).

Class Actions

From time to time City National Rochdale receives notices with respect to securities held or previously held in client portfolios that are subject to legal proceedings, including class actions or bankruptcies. Usually client custodians also receive these notices and therefore generally we do not forward these notices to our clients or their custodians. Also, we do not take legal action on behalf of or provide legal advice to our clients.

City National Rochdale serves as a sub-adviser to CNB clients under the terms of a sub-advisory agreement between CNB, CNS and City National Rochdale. See "Fees and Compensation" in this Brochure.

C. Client Assets Under Management

As of October 31, 2017, City National Rochdale had approximately \$35.6 billion in discretionary client assets under management. As of October 31, 2017, City National Rochdale had approximately \$84.5 million in non-discretionary client assets.

Item 5 Fees and Compensation

A. Advisory Fees and Compensation

FEE SCHEDULES

Following are the standard fees CNB/CNS clients will pay for money management services. Note that these fee schedules are the standard fee schedules used by CNB and CNS clients who use the investment management services of CNB's wholly-owned subsidiary, City National Rochdale.

Mutual Funds Expenses:

Clients invested in mutual funds through this Program will bear a proportionate share of the fees and expenses of any mutual fund in which their assets are invested. The mutual fund fees and expenses are in addition to the Program fees. These fees and expenses may include investment management, administrative, distribution, transfer agent, custodial, legal, audit, and other customary fees and expenses charged by mutual funds. The client is encouraged to read the prospectuses of the mutual funds in which the Account assets are invested for an explanation of these fees and expenses.

CNS and its affiliates may have a variety of banking, financial, or service relationships with mutual funds in which Accounts are invested. These relationships include acting as investment advisor or shareholder servicing agent. CNS may receive compensation from such funds in addition to the Program fee. Program Accounts will not be invested in mutual funds which pay CNS, the Sub-Advisor, or their affiliates a front end, back end, or contingent sales charge. Fund level advisory fees received by City National Rochdale are rebated to the account monthly for the CNB and CNS Advisory Program and quarterly for the CNS Asset Allocation Program in accordance with the Account's fee schedule. Additionally, 12b-1 fees (if applicable) will be rebated to the Account on a quarterly basis.

Affiliated Mutual Funds Management Fee Rebate:

Account level investment management fees received by CNB and CNS may be charged at a lower rate or the fund level advisory fees received by City National Rochdale or its affiliates may be rebated to the account on a monthly or quarterly basis in accordance with the Account's fee schedule. . Additionally, 12b-1 fees (included as a portion of the Shareholder and Other Service fees above) if applicable will be rebated to the Account on a monthly or quarterly basis in accordance with the Account's fee schedule.

Qualified Retirement Plans and IRAs:

Shareholder Servicing Fees: The shareholder servicing fees are 0.25% of assets for clients who are invested in the Servicing Class and Class N shares of the City National Rochdale Funds.

Transaction Fees:

Set-Up/Renewal of a Note.....	\$ 50.00
Incoming or Outgoing Payment on Note.....	7.50
Set-Up/Close Out of Unique Asset.....	200.00
Disbursements (includes 1099R).....	7.50
Insurance Policies (Holding Fee).....	7.50/year

B. Payment of Fees:

Each client pays an asset-based fee in accordance with the fee schedules shown above calculated on the daily average asset value, and is charged monthly in arrears. In computing the asset value of an Account, a security listed on a national securities exchange will be valued, as of the valuation date, at the closing price on the principal exchange on which it is traded. Any other security in an Account will be valued in a manner determined by the Bank or its agents in good faith to reflect fair market value. The Bank may rely on valuations furnished by vendors and/or their independent pricing services. Clients authorize the Bank as custodian to deduct the asset-based fees from their custody Account.

The client should consider that, depending upon a number of factors, including the level of the fee charged and the amount of activity in the client's Account, the investments may cost the client more or less than purchasing the investment services separately. However, the client may not obtain investment advisory services from City National Rochdale other than through CNB or CNS. The fees may be more or less than fees charged by sponsors of similar programs.

Clients may be able to purchase individual securities and shares of the mutual funds directly without retaining CNR for investment management services (but subject to any applicable sales charges). The specific shares of mutual funds offered may not be available to the general public; however, other shares of the same mutual funds may be available with different fee structures. In the case of those mutual funds that are offered generally to the public, the prevailing sales charge or other fees (as described in the mutual fund's prospectus) may be more or less than the expenses of classes of shares utilized.

Fees are negotiable in certain circumstances and may differ from client to client based upon a number of factors, including the amount of the assets, the client-related services to be provided to the Account, the overall relationship with CNB and CNS and its affiliates and other relevant criteria. Fees also may differ as a result of the application of prior fee schedules depending upon a Client's inception date. Accounts that begin or terminate within a month are billed on a pro rata basis.

C. Other Fees

City National Rochdale's investment management fees are exclusive of brokerage commissions, transaction fees, and other related costs which will be incurred by the client. Clients will incur other charges imposed by brokers, and other third parties such as fees charged by managers, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees for securities transactions. Mutual funds, other pooled funds and ETFs also charge management fees which are disclosed in a fund's prospectus or subscription documents. Such charges, fees and commissions are exclusive of and in addition to City National Rochdale's fee. City National Rochdale shall receive a fee for managing their Funds and City National Rochdale may receive some portion of the commissions, fees, and costs mentioned above. In many cases, the client could invest in the same mutual fund or ETF without paying a fee to City National Rochdale, however, the client would then not benefit from the advice, review and monitoring we provide.

City National Rochdale receives investment management fees from the Funds out of which City National Rochdale pays sub-advisers who provide day-to-day investment management services to those Funds utilizing a third party sub-adviser. The fees that City National Rochdale receives are disclosed in each Fund's prospectus or offering documents.

City National Rochdale recommends to clients that they purchase shares of the City National Rochdale Funds and Royal Bank of Canada Funds ("RBC Funds"). If City National Rochdale invests a client into the City National Rochdale Funds, City National Rochdale will retain advisory fees paid by the City National Rochdale Funds to City National Rochdale for managing those mutual fund assets. City National Rochdale will credit back to the client ***all or a portion*** of the City National Rochdale Fund or RBC Fund management fee to the client. The fund advisory fee credit is determined on a fund by fund basis.. With respect to ERISA/IRA accounts, any share class of a City National Rochdale Fund that imposes Rule 12b-1 fees will be credited back to the ERISA/IRA account. However, City National Rochdale and its affiliates *do* receive shareholder service fees on City National Rochdale Funds and Royal Bank of Canada Funds that are held in ERISA qualified accounts.

For City National Rochdale Funds which use sub-advisors, clients will receive fee credits equivalent to the fees retained by City National Rochdale or its affiliated advisors, but will not receive credits for the fees received by City National Rochdale or affiliated advisors and paid to sub-advisors.

City National Rochdale may also recommend to clients that they purchase shares of products other than the City National Rochdale Funds, for which City National Rochdale may collect a fee at the client account level. Such products include but are not limited to Other Registered Funds, Offshore Funds and Other Registered Fund. City National Rochdale does not collect fees at both the fund and the account level from ERISA accounts.

Item 6 Performance-Based Fees and Side-By-Side Management

Some of the Funds are subject to the payment of performance fees once certain minimum performance benchmarks are met; all such arrangements are described in the offering documents associated with such investment funds. These arrangements benefit the Adviser, but do not result in the receipt by any City National Rochdale employee of performance or incentive compensation. The strategies and securities purchased in the Funds are not purchased for individual accounts, except as part of their investment in the Funds. City National Rochdale does not manage accounts that are subject to concurrent (or side-by-side) performance -based fees.

Item 7 Types of Clients

City National Rochdale provides portfolio management services to registered investment companies and institutions, as described more fully in Item 4, “Advisory Business.”

City National Rochdale generally requires a minimum of \$250,000 of assets under management for a separately managed sub-advisory relationship with CNB, but may waive this minimum in its sole and absolute discretion. If the account size falls below the minimum requirement due to market fluctuations, a client will not be required to invest additional funds with City National Rochdale to meet the minimum account size.

City National Rochdale may request clients to provide proof of authority, directed trading letters, qualified client or qualified purchaser status, accredited investor certifications, and/or other information to allow City National Rochdale to manage client assets.

Item 8

Methods of Analysis, Investment Strategies and Risk of Loss

A. Methods of Analysis and Investment Strategies

City National Rochdale utilizes a variety of methods and strategies to make investment decisions and recommendations. These methods entail an evaluation of investment opportunities using fundamental, technical, quantitative, and qualitative analyses to determine the intrinsic value of securities and other types of instruments.

Investment products are not bank deposits or obligations of or guaranteed by City National Bank or any subsidiary or affiliate and are not insured by the FDIC, they involve risk, including the possible loss of principal.

City National Rochdale employs the following investment strategies. These strategies may be constructed as a separately managed account using individual securities or by using proprietary, affiliated or non-proprietary pooled investment funds.

Galaxy. The Adviser uses a proprietary modeling system to design asset allocation models specific to each client's risk return requirements. Asset allocation decisions are unique to each client. At the beginning of each client relationship, the Adviser assesses the objectives of each client based (broadly) on their assets, liabilities and income goals. In this process the Adviser utilizes a Monte Carlo analysis which is a modeling technique used to approximate the probability of certain outcomes by running multiple trial runs, called simulations, using random variables on several different allocation profiles.

The projected return on investment for the portfolio is based on a combination of broad historic index returns, risks and correlations and current outlook. While this methodology is not perfect, a Monte Carlo simulation allows the Adviser to view probabilities of success with thousands of simulations. Under long timeframes, the Adviser believes this tool is a good source in helping select an individual clients' allocation. Past performance is no guarantee of future results.

Equity. The Adviser's equity strategy focuses on a broad range of equity investment strategies, including US Large Cap Core Equities, Mid Cap, High Dividend and Income and Emerging Markets. Client accounts can be structured to achieve the desired blend of exposure to geographies, either domestic or international and investment style, growth or income.

US Large Cap Core Equities- The adviser pursues capital appreciation strategies by taking long positions in quality companies with above average growth potential in highly ranked industries and secular themes with long term capital appreciation potential.

U.S. Large Cap Select Core Equities – A concentration of US Large Cap Core Equities which seeks to provide aggressive capital appreciation, with current income as a secondary objective, through investments in the equity securities of companies with large and middle capitalizations.

High Dividend and Income. The Adviser pursues high dividend and income strategies by taking long positions in companies with high dividend growth potential. The strategy focuses on higher-than-average dividend paying stocks from companies with stable, recession-resistant cash flows and strong dividend histories.

Emerging Markets. City National Rochdale pursues investment strategies by taking long positions in quality companies located in emerging Asian and Indian markets. The Advisor seeks to invest in quality companies with a focus on locally listed large, medium, and small cap companies that are broadly inaccessible to U.S. investors. On-the-ground research is conducted to provide direct insight and domain expertise.

Liquidity Management - Liquidity management portfolios are intended for clients who wish to avoid market risks while still seeking returns higher than those available in 90-day Treasury Bills and similar money market instruments. Liquidity Management portfolios are designed to maintain a high degree of liquidity for a specific period of time.

Tax-Free Intermediate Fixed Income - Seeks to provide a high level of current income and capital preservation through investment in tax-exempt municipal fixed income securities.

Tax-Free Intermediate-Long - Seeks to capture potential inefficiencies in the intermediate part of the municipal bond yield curve (typically the 5-20 year portion of the municipal bond yield curve).

Taxable Intermediate Fixed Income – Seeks to provide a high level of current income and capital appreciation through investment in corporate bonds and notes, as well as debt securities issued by the federal government and its agencies.

Tax-Free Liquidity Management - Seeks to provide a competitive return with a limited array of fixed income securities focusing primarily on short-term instruments that exhibit low degrees of principal volatility through investments in short-term municipal bonds and notes, as well as commercial paper whose earnings are federally and/or state tax exempt.

Taxable Liquidity Management – Seeks to provide a competitive return with a limited array of fixed income securities focusing primarily on short-term instruments that exhibit low degrees of principal volatility through investments in government securities, corporate notes and bonds, as well as other short-term obligations such as commercial paper and certificates of deposit.

Tax-Free Short Intermediate Fixed Income – Seeks to provide a return comprising a combination of both price and income attributes. Through a wide spectrum of investments in municipal bonds and notes, whose earnings are federally and/or state tax exempt.

Taxable Short Intermediate Fixed Income – Seeks to provide a return comprising a combination of both price and income attributes. This strategy covers a wide maturity spectrum, through investments in corporate bonds and notes, as well as debt securities issued by the federal government and its agencies.

Municipal High Income. Pursues an investment strategy that seeks to provide a high level of current income that is not subject to federal income tax. Seeks investments in medium- and lower-quality bonds, which are bonds that are rated BBB+ or lower by Standard & Poor's Ratings Services ("Standard & Poor's"), are comparably rated by another nationally recognized statistical rating organization ("NRSRO") or, if unrated, are determined by City National Rochdale to be of comparable quality. Typical investments include non-investment grade debt securities (commonly called junk bonds), which are rated BB+ or lower by Standard & Poor's, comparably rated by another NRSRO or, if unrated, determined by City National Rochdale to be of comparable quality.

Opportunistic Fixed Income. City National Rochdale pursues investment strategies by investing in fixed income securities of any credit rating. The Adviser may seek to invest its client assets across a spectrum of income yielding securities and primarily focuses on investments in high yield bonds (commonly known as "junk" bonds) issued by corporate and municipal issuers, in fixed and floating rate loans made

to U.S. and foreign borrowers, and in domestic and foreign corporate bonds including asset backed securities and bank loans. The Adviser also invests in life insurance policies. The Adviser's foreign investments include investments in companies that are operating principally in emerging market or frontier market countries.

Stock Options. City National Rochdale may use individual stock options to manage concentrated stock positions in a client portfolio. City National Rochdale may utilize a covered call option strategy as a means to manage concentrated stock positions and to potentially generate premium income for the client. Long put options may also be used to limit the potential decline of an individual stock held in a client portfolio.

These methods, strategies and investments involve risk of loss to clients and clients must be prepared to bear the loss of their entire contribution/investment.

Hedging. The Adviser utilizes a variety of financial instruments such as derivatives and options for risk management purposes.

Proprietary Quantitative Research

In addition to fundamental analysis performed on individual securities, City National Rochdale has created and utilizes several proprietary, quantitatively oriented research systems in order to make its investment determinations. These tools use screening techniques based on financial and economic data to help determine which industries/securities are the most attractive for purchase/retention and/or sale at any given point in time. These techniques are used in conjunction with the fundamental research performed within City National Rochdale.

Sub-Adviser Selection

City National Rochdale recommends suitable investment options, including other third party mutual funds which can help to meet the long-term investment objectives and needs of each client based upon the mutual fund's track record and suitability. City National Rochdale closely monitors the performance of each sub-adviser providing services to the third party mutual funds it recommends to its clients as well as the investment sub-advisers to the City National Rochdale Funds.

Sources of Information

To help develop its strategies and recommendations, City National Rochdale uses proprietary quantitatively oriented research systems. These systems contain pertinent financial information on individual securities as well as broad domestic and international macroeconomic data. In addition, City National Rochdale uses commercially available services, financial publications and information services dealing with investment research, securities law, and taxation. City National Rochdale may also use private placement memoranda and other private placement due diligence materials. Such information may be obtained in print or via electronic media. Company prepared materials (particularly prospectuses) and research releases prepared by others are also utilized.

Despite City National Rochdale's best efforts and sources of information, these do not guarantee that performance returns will be positive. All investing involves risk and may result in a loss that clients should be prepared to bear.

B. Material Risks (Including Significant or Unusual Risks) Relating to Investment Strategies

Following is a brief description of the investment risks of the investment strategies, employed by City National Rochdale in the management of the City National Rochdale Funds. For a more detailed

explanation of these risks, please refer to the prospectuses for the Funds available at www.citynationalrochdalefunds.com.

The City National Rochdale **Government Money Market Fund** is a money market fund that seeks to preserve principal and maintain a high degree of liquidity while providing current income. Also, the Government Money Fund seeks to maintain a \$1.00 per share net asset value (“NAV”). The Government Money Fund invests at least 99.5% of its total assets in cash, U.S. Treasury securities and other government securities guaranteed or issued by an agency or instrumentality of the U.S. Government, and/or repurchase agreements that are fully collateralized by cash or government securities. In addition, the Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in U.S. Government securities and/or repurchase agreements that are fully collateralized by government securities. In particular, the Fund invests in U.S. Treasury obligations, obligations issued or guaranteed as to principal and interest by agencies or instrumentalities of the U.S. Government and repurchase agreements involving these obligations. Obligations issued or guaranteed by the U.S. Government or its agencies or instrumentalities in which the Government Money Fund invests consist principally of securities issued or guaranteed by Fannie Mae (formerly known as the Federal National Mortgage Association), the Federal Home Loan Bank (“FHLB”), Freddie Mac (formerly known as the Federal Home Loan Mortgage Corporation) and the Government National Mortgage Association (“Ginnie Mae”). The securities held by the Fund must, in the opinion of City National Rochdale, LLC (the “Adviser”), the Fund’s investment adviser, present minimal credit risk. The Fund invests in compliance with the requirements of Rule 2a-7 under the Investment Company Act of 1940 relating to the credit quality, maturity, liquidity and diversification of investments for money market funds.

An investment in the Government Money Market Fund may expose an investor to the following risks, which are described in greater detail in the prospectuses:

1. **Credit Quality** – Some issuers or other obligors may be unable to make the required payments on securities held by the Fund. Debt securities also go up or down in value based on the perceived creditworthiness of issuers or other obligors rated by one or more nationally recognized statistical rating organizations.
2. **Government-Sponsored Entities** – Such investments may not be guaranteed or insured by the U.S. Government and may only be supported by the credit of the issuing agency.
3. **Redemptions** – The Fund may experience heavy redemptions, particularly during periods of declining or illiquid markets that could cause the Fund to liquidate its assets at inopportune times or at a loss or depressed value and that could affect the Fund’s ability to maintain a stable \$1.00 share price.
4. **The Effect of Interest Rates** – When interest rates are very low, the Fund’s expenses could absorb all or a significant portion of the Fund’s income, and if the Fund’s expenses exceed the Fund’s income, the Fund may be unable to maintain its \$1.00 share price without a subsidy by City National Rochdale or its affiliates.
5. **Repurchase Agreements** - Repurchase agreements are agreements under which securities are acquired from a securities dealer or bank subject to resale at an agreed upon price which includes principal and interest. Under all repurchase agreements entered into by the Fund, the Fund’s custodian or its agent must take possession of the underlying collateral. However, if the seller

defaults, the Fund could realize a loss on the sale of the underlying security to the extent the proceeds of the sale are less than the resale price.

6. **No Guarantees** – You could lose money by investing in the Government Money Market Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not a deposit of City National Bank or Royal Bank of Canada and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. City National Rochdale and its affiliates have no legal obligation to provide financial support to the Fund, and you should not expect that City National Rochdale or its affiliates will provide financial support to the Fund at any time.

Investments in the City National Rochdale **Bond Funds** may expose an investor to the following risks, which are described in greater detail in the prospectuses:

- **Interest Rate** – Rising interest rates can cause a decline in price in the value of held securities. In general, longer-dated securities are subject to greater price changes for a given change in interest rates. As the Federal Reserve “tapers” or reduces Quantitative Easing, and when the Federal Reserve raises the federal funds rate, interest rates across the U.S. financial system may rise. These policy changes may expose long dated and related markets to heightened volatility and may reduce liquidity for certain fixed income investments, which could cause the value of a client’s fixed income investments to decline.
- **Government-Sponsored Entities** – Such investments may not be guaranteed or insured by the U.S. Government and may only be supported by the credit of the issuing agency
- **State and Municipal Investment Risks**—Events affecting states and municipalities may adversely affect the strategy’s investments and its performance. These events may include severe financial difficulties and continued budget deficits, economic or political policy changes, tax base erosion, state constitutional limits on tax increases, and changes in the credit ratings assigned to state and municipal issuers of debt instruments. The yields and market values of municipal securities may be more affected by changes in tax rates and policies than similar income-bearing taxable securities. Certain investors’ incomes may be subject to the Federal Alternative Minimum Tax (AMT) and taxable gains are also possible.
- **Issuers** – The Funds may be adversely affected if the issuers of the securities that the Fund holds do not make their principal or interest payments on time.
- **Prepayments on Pass-Through Securities** – Generally, prepayments of the principal of the loans underlying pass-through securities increase during a period of falling interest rates and decrease during a period of rising interest rates. In periods of declining interest rates, as a result of prepayments the Fund may be required to reinvest its assets in securities with lower interest rates. In period of rising interest rates, slowing prepayments may lengthen the maturity of pass-through securities in the Fund and increase its price sensitivity.
- **Rating Agencies** – Debt securities also go up or down in value based on the perceived creditworthiness of issuers or other obligors rated by one or more nationally recognized statistical rating organizations. If a rating agency revises downward or withdraws its rating of a security in which the Fund invests, that security may become less liquid or may lose value.
- **Foreign Securities** – Foreign investments tend to be more volatile than domestic securities, and are subject to risks that are not typically associated with domestic securities.

- **High Yield (“Junk” Bonds)** – High yield bonds involve greater risks of default, downgrade, or price declines and are more volatile than investment grade securities. Investments in below-investment-grade debt securities which are usually called “high-yield” or “junk bonds,” are typically in weaker financial health and such securities can be harder to value and sell and their prices can be more volatile than more highly rated securities. While these securities generally have higher rates of interest, they also involve greater risk of default than do securities of a higher-quality rating.
- **Emerging Markets Risk** - The risk of foreign investments often increases in countries with emerging markets. For example, these countries may have more unstable governments than developed countries, and their economies may be based on only a few industries. Because their securities markets may be very small and less liquid than developed countries, share prices may be volatile and difficult to determine. Emerging markets can have greater custodial and operational risks, and less developed legal and accounting systems than developed markets.
- **Frontier Market Risk** - Frontier market countries are a sub-set of emerging market countries the capital markets of which are less developed, generally less liquid and have lower market capitalization than those of the more developed, “traditional” emerging markets but which still demonstrate a relative market openness to and accessibility for foreign investors. Frontier market countries generally have smaller economies and even less developed capital markets with relatively newer and less tested regulatory and legal systems than traditional emerging markets, and, as a result, the risks discussed above with respect to emerging markets are magnified in frontier market countries. Securities issued by borrowers in frontier market countries are often subject to extreme price volatility and illiquidity and effects stemming from government ownership or control of parts of private sector and of certain companies; trade barriers, exchange controls, managed adjustments in relative currency values and other protectionist measures imposed or negotiated by the countries with which frontier market countries trade; and relatively new and unsettled securities laws.
- **Bank Loans** – The Adviser may invest in U.S. and non-U.S. bank loans. Bank loans are not traded on an exchange and purchasers and sellers of bank loans generally rely on market makers, typically the administrative agent under a bank loan, to effect private sales transactions. As a result bank loans may have relatively less liquidity than other types of fixed income assets, and the Fund may be more likely to incur losses on the sale of bank loans than on other, more liquid, investments.
- **Financial Services Firms** – The Adviser may invest in obligations of financial services firms, including those of banks. Changes in economic conditions and government regulations can significantly affect these issuers.
- **Life Insurance Policies** - The Adviser may invest in beneficial interests in individual life insurance policies (“Policies”). The Policy owner transfers his or her Policy at a discount to its face value (the amount that is payable upon the death of the insured) in return for an immediate cash settlement. The ultimate purchaser of the Policy (in this case, the City National Rochdale Fixed Income Opportunities Fund and the City National Rochdale Alternative Total Return Fund) are responsible for premiums payable on the Policy and is entitled to receive the full face value from the insurance company upon the death of the insured. If a Fund is unable to make premium payments on a Policy, the Policy will lapse and the Fund will lose its ownership interest in the Policy. There is currently no established secondary market for Policies, and the Policies are not considered liquid investments. If a Fund must sell Policies to meet redemption requests or other cash needs, the Fund may be

forced to sell at a loss. The longer the insured lives, the lower the Fund's rate of return on the related Policy will be. The underwriter's estimate of the insured's life expectancy may be incorrect. An insurance company may be unable or refuse to pay benefits on a Policy. In addition, the heirs of an insured may challenge the life insurance settlement. Although the Fund intends to only purchase Policies for which the applicable contestability period has expired, it is possible that a Policy may be subject to contest by the insurance company. A Policy is a liability of the issuing life insurance company, and if the life insurance company goes out of business, sufficient funds may not be available to pay that liability.

The City National Rochdale **Equity Funds** seek to provide capital appreciation with current income as a secondary consideration in a manner consistent with the quality standards described in the prospectus. The Equity Funds provide investment options ranging from equity securities of large U.S. corporations, U.S. dollar denominated American Depositary Receipts of large foreign corporations, and emerging markets equity.

Investments in the City National Rochdale Equity Funds may expose an investor to the following risks, which are described in greater detail in the prospectuses:

1. **Foreign Investments (American Depositary Receipts)** – Foreign investments tend to be more volatile than domestic securities, and are subject to risks that are not typically associated with their domestic counterparts. Certain Funds invest in U.S. dollar denominated American Depositary Receipts of foreign companies ("ADRs") which are sponsored by the foreign issuers. ADRs are subject to the risks of changes in currency or exchange rates (which affect the value of the issuer even though ADRs are denominated in U.S. dollars) and the risks of investing in foreign securities.

2. **Medium Capitalization (Mid-Cap) Companies** – Investments in mid-cap companies may involve greater risks than investments in larger, more established companies, such as limited product lines, markets and financial or managerial resources. In addition, the securities of mid-cap companies may have greater price volatility and less liquidity than the securities of larger capitalized companies.

3. **Large Capitalization (Large-Cap) Companies** – Investments in large-cap companies may grow more slowly than the overall market. Large-cap stocks tend to go through cycles of doing better—or worse—than other segments of the stock market or the stock market in general.

4. **Focus** – Consistent with its diversification requirements, a Fund may hold a relatively small number of securities. Losses incurred in such securities could have a material adverse effect on the Fund's overall financial condition and cause it to underperform its relevant benchmarks.

5. **Small Capitalization (Small-Cap) Companies** – Investments in small-cap companies may involve greater risks than investments in larger, more established companies, such as limited product lines, markets and financial or managerial resources. The securities of smaller capitalized companies may have greater price volatility and less liquidity than the securities of larger capitalized companies. The Fund may hold a significant percentage of a company's outstanding shares and may have to sell them at a discount from quoted prices.

6. **Emerging Markets Risk** - The risk of foreign investments often increases in countries with emerging markets. For example, these countries may have more unstable governments than developed countries, and their economies may be based on only a few industries. Because their securities markets may be very small and less liquid than developed countries, share prices may be volatile and difficult to determine. In addition, foreign investors are subject to special

restrictions in many such countries. Emerging markets can have greater custodial and operational risks, and less developed legal and accounting systems than developed markets.

Other Material Risks

Issuer-Specific Changes. Changes in the financial condition of an issuer or counterparty, changes in specific economic or political conditions that affect a particular type of security or issuer, and changes in general economic or political conditions can increase the risk of default by an issuer or counterparty, which can affect a security's or instrument's value. The value of securities of smaller, less well-known issuers can be more volatile than that of larger issuers. Smaller issuers can have more limited product lines, markets, or financial resources.

Liquidity Management. Because the liquidity management strategy will subject investors to principal risk, the strategy should not be viewed as a substitute for a money market fund. The strategy's income will decline because of falling interest rates. Income risk is generally high for this strategy, so investors should expect monthly income to fluctuate.

Relative Value Risk. In the event that the perceived mis-pricings underlying the City National Rochdale's relative value trading positions were to fail to converge toward, or were to diverge further from, relationships expected by City National Rochdale, client accounts may incur a loss.

Leverage. Performance may be more volatile if a client's account employs leverage. In particular, the City National Rochdale High Yield Alternative Strategies Fund's underlying managers use leverage through its investments in certain financial instruments and other speculative investment practices. Leverage magnifies both losses and gains.

Hedging. There can be no assurances that a particular hedge is appropriate, or that certain risk is measured properly. Further, while City National Rochdale may enter into hedging transactions to seek to reduce risk, such transactions may result in poorer overall performance and increased (rather than reduced) risk for City National Rochdale's investment portfolios than if City National Rochdale did not engage in any such hedging transactions.

Liquidity. City National Rochdale may invest client portfolios in securities that have limited liquidity features, may not trade in the secondary markets, or be restricted from sale. Such investments may be difficult to sell should a client have immediate liquidity needs. There can be no assurances that City National Rochdale would be able to sell (or redeem) illiquid assets held in a client's portfolio to realize full value in the event clients have a liquidity need. Certain illiquid investments may be impaired and result in substantial losses in client portfolios.

Option Strategies. City National Rochdale may use covered call option strategies to manage concentrated stock positions in client portfolios. There is a risk that if the underlying stock price appreciates above the strike price of the option contract, the option may be "exercised" and a portion or all of the client's underlying stock shares may be sold at a price lower than the current market value of those shares, either prior to or at the option contract's expiration date.

C. Risks Associated with Types of Securities that are Primarily Recommended

Equity Securities. The value of equity securities fluctuates in response to issuer, political, market, and economic developments. Fluctuations can be dramatic over the short as well as long term, and different parts of the market and different types of equity securities can react differently to these developments. For example, large cap stocks can react differently from small cap stocks, and growth stocks can react

differently from value stocks. Issuer, political, or economic developments can affect a single issuer, issuers within an industry or economic sector or geographic region, or the market as a whole. Changes in the financial condition of a single issuer can impact the market as a whole. Terrorism and related geopolitical risks have led, and may in the future lead, to increased short-term market volatility and may have adverse long-term effects on world economies and markets generally.

Emerging Markets. Many of the risks with respect to foreign investments are more pronounced for investments in developing or emerging market countries, such as many of the countries of Asia, Latin America, Eastern Europe, Africa, and the Middle East. Emerging markets can have greater custodial and operational risks; less developed legal, regulatory, and accounting systems; and greater political, social, and economic instability than developed markets.

Fixed-Income and Debt Securities. Investment in fixed-income and debt securities such as bonds, notes and asset-backed securities subject a client's portfolios to the risk that the value of these securities overall will decline because of rising interest rates. Similarly, portfolios that hold such securities are subject to the risk that the portfolio's income will decline because of falling interest rates. Investments in these types of securities will also be subject to the credit risk created when a debt issuer fails to pay interest and principal in a timely manner, or that negative perceptions of the issuer's ability to make such payments will cause the price of that debt to decline. Lastly, investments in lower-rated debt securities will subject the investments to the risk that the securities may fluctuate more in price and be less liquid than higher-rated securities because issuers of such lower-rated debt securities are not as strong financially, are more likely to encounter financial difficulties and be more vulnerable to adverse changes in the economy.

Exchange Trade Funds ("ETF"). An ETF is a registered investment company that seeks to track the performance of a particular market index. Investing in an ETF generally offers instant exposure to an index or a broad range of markets, sectors, geographic regions or industries. When investing in ETFs, shareholders bear their proportionate share of the ETF's expenses. An investment in an ETF exposes a client to the risks of the underlying securities in which the ETF invests. Also, although ETFs seek to provide investment results that correspond generally to the price and yield performance of a particular market index, the price movement of an ETF may not track the underlying index.

Market and Management Risk. Markets may experience volatility and go down in value, possibly sharply and unpredictably. All decisions by City National Rochdale require judgment and are based on imperfect information. Additionally, the investment techniques, risk analysis and investment strategies used by City National Rochdale in making investment decisions may not produce the desired results.

Options Contracts. In connection with the use of stock options contracts, there may be an imperfect correlation between the change in market value of a security and the prices of the options contracts in the client's account.

Offshore. Applicable risks to offshore investments include market risk, unexpected volatility of stock prices, inflation risk, credit risk, and government policy risk. Holding monies offshore in custody adds a risk factor in dealing with and being subject to a foreign jurisdiction. These rules and regulations may provide more or less protection than what is afforded an investor whose investment assets in the United States.

City National Rochdale offers clients access to third party alternative investment funds that invest in European bank loans, healthcare royalties rights, rail car leasing, and reinsurance based investments. Such investments have investor suitability and eligibility requirements. City National Rochdale clients

who are invested in these funds have limited liquidity to redeem their interests in such alternative investments.

Alternative Investments and Hedge Funds. Hedge funds and alternative investments are speculative and may entail substantial risks. Investing in alternative and hedge funds may not be suitable for all clients. Clients must meet specific eligibility and suitability requirements to be invested in such funds. Alternative and hedge funds are highly illiquid, have limited transparency to the funds' investments, engage in leveraging which magnifies both losses and gains, are not required to provide valuation information to investors, and may involve complex tax structures and delays in distributing important tax information. ***Alternative investment funds have varying, and lengthy lockup provisions. These investments are highly speculative, illiquid, may involve leverage and involve substantial risk, including the risk of loss of the entire investment.***

European Bank Loans. The Adviser may invest in a non-affiliated pooled investment vehicle that focuses its investments in European direct lending and European leveraged loans. These investments do not typically trade on an organized exchange making them relatively illiquid and difficult to value and there may be difficulty liquidating a position at a favorable price. These investments are highly speculative and involve substantial risk, including the risk of loss of the entire investment.

Healthcare Royalties. The Adviser may invest client assets in a non-affiliated private pooled investment vehicle that concentrates its investments in healthcare royalties. Royalty investments involve the risk of loss in the case of default or insolvency of the party obligated to pay the royalty, particularly since most royalty obligations provide for recourse only to specific assets. Healthcare products are subject to extensive and rigorous regulation by U.S., state, and federal authorities and by comparable foreign regulatory authorities. A failure to achieve clinical success and/or gain regulatory approval from the FDA or similar organizations will materially and adversely affect the value of the investments. Clients may lose some or all of their investments. Investments in this private fund are subject to lengthy lock-up periods. ***These investments are highly speculative, illiquid, may involve leverage and involve substantial risk, including the risk of loss of the entire investment.***

Reinsurance Bonds. City National Rochdale may invest client assets in a non-affiliated SEC registered interval fund that concentrates its investments in reinsurance-related securities. The performance of reinsurance-related securities and the reinsurance industry itself are tied to the occurrence of various triggering events, including weather, natural disasters (hurricanes, earthquakes, etc.), non-natural large catastrophes and other specified events causing physical and/or economic loss. These investments are highly speculative, illiquid, may involve leverage and involve substantial risk, including the risk of loss of the entire investment.

Rail Car Leasing – City National Rochdale may invest client assets in a non-affiliated private pooled investment vehicle that will focus on direct investments primarily in the acquisition of rail cars and assets that are directly or indirectly related to rail cars (e.g., storage facilities). The investment manager of the private pooled vehicle and/or certain of its affiliates will engage in asset valuation, credit analysis, structured finance and other complex structuring issues. These investments are highly speculative, illiquid, involve leverage and substantial risk, including the risk of loss of the entire investment.

Principal Investment Strategy of the Consulting and Asset Allocation Services

The investment strategy for each consulting and asset allocation client is determined based on the needs of the client. City National Rochdale will determine an appropriate risk-return model based on the current assets, cash flow needs, time horizon and other variables. This model is then presented to the client for approval or modification.

Principal Risks

The client's performance depends on the portfolio managers' skill in determining appropriate investments. As a result, the client may underperform the equity or fixed income markets, benchmark indices or similar funds.

Sub-Adviser Allocation - The client's performance is affected by City National Rochdale's recommendations concerning how much of the portfolio to allocate to each asset category, fund and/or ETF.

Cybersecurity Risk - In addition to the risks described above that primarily relate to the value of investments, there are various operational, systems, information security and related risks involved in investing, including but not limited to "cybersecurity" risk. Cybersecurity attacks include electronic and non-electronic attacks that include but are not limited to gaining unauthorized access to digital systems to obtain client and financial information, compromising the integrity of systems and client data (e.g., misappropriation of assets or sensitive information), or causing operational disruption through taking systems off-line (e.g., denial of service attacks). As the use of technology has become more prevalent, City National Rochdale and the client accounts City National Rochdale manages have become potentially more susceptible to operational risks through cybersecurity attacks. These attacks in turn could cause City National Rochdale and its client accounts (including the Funds) City National Rochdale manages to incur regulatory penalties, reputational damage, additional compliance costs associated with corrective measures, and/or financial loss. Similar adverse consequences could result from cybersecurity incidents affecting issuers of securities in which we invest, counterparties with which we engage in transactions, third-party service providers (e.g., a client account's custodian), governmental and other regulatory authorities, exchange and other financial market operators, banks, brokers, dealers and other financial institutions and other parties. While cybersecurity risk management systems and business continuity plans have been developed and are designed to reduce the risks associated with these attacks, there are inherent limitations in any cybersecurity risk management system or business continuity plan, including the possibility that certain risks have not been identified. Accordingly, there is no guarantee that such efforts will succeed, especially since City National Rochdale does not directly control the cybersecurity systems of issuers or third-party service providers.

Item 9 Disciplinary Information

Neither City National Rochdale nor any of its employees have been involved in any legal or disciplinary events in the past 10 years that would be material to a client's evaluation of the company or its personnel.

Item 10 Other Financial Industry Activities and Affiliations

City National Bank and Royal Bank of Canada

Other Business Activities

City National Rochdale, LLC is a subsidiary of City National Bank. City National Rochdale, LLC and City National Bank are wholly-owned subsidiaries of RBC USA Holdco Corporation, which is a wholly-owned indirect subsidiary of Royal Bank of Canada. RBC Capital Markets (RBC CM) refer clients to City National Rochdale for investment management services.

RBC CM, Royal Bank of Canada Global Asset Management-US and City National Bank are wholly-owned subsidiaries of RBC USA Holdco Corporation, which is a wholly-owned indirect subsidiary of Royal Bank of Canada.

Certain senior executives, including the Chief Executive Officer and the Chief Investment Officer, of City National Rochdale are dual officers of City National Rochdale and CNB. They serve equivalent functions at both City National Rochdale and the Wealth Management division of CNB.

Other Financial Industry Activities or Affiliations

CNB and its affiliates make available opportunities for cooperative purchasing of certain administrative programs and products. CNB also provides City National Rochdale with advice and assistance on general business issues unrelated to the investment advisory services provided by City National Rochdale.

Except as described in this Item 10, City National Rochdale operates independently from each of RBC's investment advisory affiliates, does not conduct joint operations with any of these affiliated investment advisers and does not provide investment advice that is formulated, in whole or in part, by such affiliated investment advisers.

City National Rochdale, CNB and CNS share certain portfolio and client data in an effort to better serve their clients and provide a broader range of portfolio management services. CNB may use City National Rochdale's portfolio managers to sub-advise portions of their client portfolios or may provide model portfolios for certain strategies to use to manage a portion of CNB's client portfolios.

City National Rochdale may occasionally recommend other services of CNB which include banking, custody, and trust services that certain clients may require. These services may be obtained from other providers at a lower cost. In addition, CNB may recommend that clients invest in City National Rochdale's affiliated investment companies or pooled investment vehicles.

Other Related Investment Advisors

Certain employees of City National Rochdale serve as officers, directors, analysts and/or portfolio managers of Symphonic Financial Advisors LLC ("Symphonic"), an SEC registered investment advisor. Symphonic is a wholly-owned indirect subsidiary of RBC. Certain Symphonic clients are sub-advised by City National Rochdale.

Symphonic employees may refer potential clients to City National Rochdale or recommend that clients invest in City National Rochdale's affiliated investment companies or pooled investment vehicles. As a result, those Symphonic employees may receive a portion of the fees paid to City National Rochdale, similar to the fees paid to Referring Partners. Additional information on referral arrangements with Symphonic and other affiliates is in Item 14 – Client Referrals and Other Compensation.

City National Rochdale recommends that clients invest in mutual funds or private investment funds which are managed by City National Rochdale, Royal Bank of Canada or third party investment advisers. Both City National Rochdale and the third party investment advisers will receive advisory fees on those assets.

Unrelated Non-Affiliated Investment Advisers

City National Rochdale may contract with one or more affiliated or unaffiliated investment advisers to provide sub-advisory investment services to the City National Rochdale Funds. City National Rochdale has contracted with the following sub-advisers for day-to-day investment advisory services to certain City National Rochdale Funds:

City National Rochdale Sub-Adviser	Fund
Guggenheim Investment Management, Inc.	CNR High Yield Bond Fund
Alcentra Limited	Portion of CNR Fixed Income Opportunities Fund
Alcentra NY	Portion of CNR Fixed Income Opportunities Fund
Ashmore Investment Management Ltd.	Portion of CNR Fixed Income Opportunities Fund
AllFinancial Partners II, LLC	Portion of CNR Fixed Income Opportunities Fund
Federated Investment Management Company	Portion of CNR Fixed Income Opportunities Fund
GML Capital LLP	Portion of CNR Fixed Income Opportunities Fund
Seix Investment Advisors LLC	Portion of CNR Fixed Income Opportunities Fund
Fiera Capital, Inc.	CNR Emerging Markets Fund

Please see the Offering Memorandum or fund prospectus for more complete information regarding the Fund's investment objectives, risks, fees and other expenses.

City National Rochdale offers to its clients, subject to suitability and eligibility requirements, other third party managed private, nonregistered funds that invest in alternative investments. These funds are managed by non-affiliated investment advisers:

Third Party Investment Adviser	Third Party Private Fund
Alcentra Limited	Alcentra European Credit Opportunities Fund
ITE Management L.P.	ITE Rail Fund L.P.
Oberland Capital Management LLC	Oberland Healthcare Access Fund, LP
Stone Ridge Asset Management LLC	Stone Ridge Reinsurance Risk Premium Interval Fund *

* Note that Stone Ridge Reinsurance Risk Premium Interval Fund is an SEC registered investment company operating as an interval fund.

City National Rochdale clients who are invested in third party private funds will pay fund management fees (and performance fees where applicable) on third party private funds in addition to City National Rochdale's investment advisory fees.

Broker-Dealers

Certain employees of City National Rochdale serve as officers, directors, and/or registered representatives of RIM Securities, LLC (“RIM”), City National Securities, Inc. (“CNS”) and Symphonic Securities LLC (“Symphonic Securities”). RIM, CNS and Symphonic Securities are registered broker dealers with the Financial Industry Regulatory Authority (“FINRA”) and affiliates of City National Rochdale. Each of these entities is also wholly-owned by CNB and RBC. CNB accounts that are advised by City National Rochdale will be held in custody by CNB.

When clients choose to use affiliated broker dealers for custody and/or brokerage, City National Rochdale’s related entities will earn fees for the custody and brokerage services in addition to City National Rochdale’s investment advisory fees. RIM Securities may act as an introducing broker for client accounts and RIM Securities generally charges a commission rate of \$29 per trade. Commission and fee schedules are available upon request.

Insurance Agency

Certain employees of City National Rochdale serve as officers, directors and/or agents of Symphonic Insurance Agency LLC. They provide management oversight of this affiliated firm.

Investment Companies and Pooled Investment Vehicles

City National Rochdale may recommend that clients invest in the Funds, as discussed in greater detail in Item 4 – Advisory Business. City National Rochdale collects a fee from each of the Funds and there is an inherent conflict of interest in recommending these Funds because doing so may give City National Rochdale an incentive due to the compensation received by City National Rochdale. City National Rochdale believes that investments in the Funds are in the best interests of the clients and gives consideration to client needs such as diversification and access to managers that would otherwise not be accessible.

For the City National Rochdale Funds, City National Rochdale generally mitigates this conflict of interest by crediting back to clients all or a portion of the advisory fees on their holdings of the City National Rochdale Funds. See Item 5 – Fees and Compensation for additional disclosure of the City National Rochdale Funds fee credits.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

City National Rochdale has adopted a Code of Ethics (the “Code”) expressing the firm's commitment to ethical conduct. City National Rochdale's Code of Ethics describes the firm's fiduciary duties and responsibilities to clients and sets forth the practice of supervising personal securities transactions of employees. Individuals associated with City National Rochdale may buy or sell securities for their personal accounts identical to or different from those recommended to clients. It is the express policy of City National Rochdale that no person employed by City National Rochdale shall place his or her own financial interest over that of an advisory client or make personal investment decisions based on the investment decisions of advisory clients.

To supervise compliance with the Code, City National Rochdale requires that employees with access to advisory recommendations or other inside information (“Access Persons”) provide quarterly securities holdings reports and quarterly transactions reports to the Compliance Department. City National Rochdale also requires all Access Persons to obtain approval from the Compliance Department prior to effecting transactions in their own accounts or accounts in which they have a beneficial interest. All individuals employed by or affiliated with City National Rochdale must sign, no less than annually, an attestation confirming their receipt and comprehension of the Code. City National Rochdale's Code further includes the firm's policy prohibiting the use of material non-public information.

City National Rochdale requires that all individuals must act in accordance with all applicable federal and state regulations governing registered investment advisors. Certain employees are also subject to the ethics rules for broker dealers, professional designation practices and other ethics rulemaking bodies. Any individual not in observance of the Code may be subject to discipline.

City National Rochdale will provide a complete copy of its Code of Ethics to any client upon request.

B. Client Transactions in Securities where Adviser has a Material Financial Interest

City National Rochdale has discretionary authority over its clients' investment accounts and initiates the transactions in such accounts. RIM Securities may act as an introducing broker for client accounts and RIM Securities charges a commission rate of \$29 per trade for executing transactions.

City National Rochdale may facilitate the purchase and sale of a security between two or more clients. This is known as an “internal cross” transaction and is only performed under client authorization. Prior to engaging in an internal cross transaction, City National Rochdale will ensure that the transaction is in the best interest of all client parties involved by ensuring the price is fair and properly disclosing all known potential conflicts. Neither City National Rochdale nor its affiliates will receive compensation for effecting internal cross transactions.

City National Rochdale does not enter into transactions where client securities are purchased from or sold to brokerage customers of RIM Securities in what is known as an “agency cross” transaction.

C. Investing in Securities Recommended to Clients

City National Rochdale or a related person may, from time to time, have a portion of, or an interest in, a security that is purchased or sold on behalf of an advisory client. City National Rochdale has adopted policies to avoid conflicts of interest when personnel of City National Rochdale or a related person of City National Rochdale owns, buys, or sells securities also owned by, or bought or sold for a client.

City National Rochdale may recommend, buy or sell securities of issuers on behalf of its clients in which City National Rochdale's Access Persons may also purchase, hold or sell securities. In order to monitor compliance with its personal trading policy, City National Rochdale has adopted a personal trading policy for all of its employees. City National Rochdale requires all Access Persons to obtain approval from the Compliance Department prior to effecting transactions in their own accounts or accounts in which they have a beneficial interest. For purposes of the policy, an employee's "personal account" generally includes any account (a) in the name of the Access Person, his/her spouse, his/her children under the age of 21 whether or not residing in the same household or other dependents residing in the same household, b) for which the employee is a trustee or executor, or c) which the employee controls and in which the employee or a member of his/her household has a direct or indirect beneficial interest.

Item 12 Brokerage Practices

A. Factors Considered in Selecting or Recommending Broker-Dealers for Client Transactions

General

City National Rochdale will seek to execute transactions in the best interest of its clients, taking into account such factors as, but not limited to, the broker's financial stability, execution capability, and quality of investment research.

Brokerage services include the ability to most effectively execute orders consistent with the portfolio's investment strategy. In exercising investment discretion for its clients, City National Rochdale will determine 1) which securities are to be bought and sold, 2) the amount of the securities to be bought and sold, and 3) the broker or dealer who will execute the transaction.

Fixed income securities are generally purchased from the issuer or a primary market maker acting as principal on a net basis without a stated commission. Fixed income securities may also be purchased in the secondary market or from underwriters at prices that include underwriting fees.

Brokerage Selection

For equity securities, City National Rochdale's trading desk has discretion as to whom the Adviser will place equity trades. Trading operations maintains a list of brokers with whom equity transactions are executed. For equity trades below 1,000 shares, City National Rochdale will automatically route these trades to Bank of New York for auto execution. For relationships where City National Rochdale is acting as a sub-adviser, City National Rochdale has no discretion as to whom the custodian will place equity trades for execution. In these instances, equity trades are routed to the custodian's broker for execution. The custodian's broker maintains its own commission schedule and is responsible for seeking best execution. City National Rochdale has no ability to negotiate commissions for trades conducted through these relationships.

For fixed income securities trades, City National Rochdale may achieve economies of scale through aggregating trading positions and thus benefit from price/volume discounts, or may negotiate on smaller issues to provide the best value to the portfolio. City National Rochdale utilizes a multi-level bid/offer process that evaluates daily offerings from a variety of brokers. Yields/prices on issues of like-quality and maturity are closely scrutinized to determine executing brokers for fixed income trades.

Research and Other Brokerage Services

City National Rochdale will generally seek "best execution" in light of circumstances involved in transactions. Transactions are not always executed at the lowest available commission. City National Rochdale may select a broker-dealer that furnishes investment research services or products, or brokerage services relating to the execution of securities transactions, resulting in clients paying a higher commission to such broker-dealer than that which another broker-dealer might have charged for effecting the same transaction, in recognition of the value of research or brokerage services provided. In addition to execution quality, City National Rochdale may consider the value of various research services or products, beyond execution, that a broker-dealer provides to City National Rochdale or its client. Selecting a broker-dealer in recognition of such other services or products is known as paying for those services or products with "soft dollars." In some cases, research is provided directly by an executing broker-dealer and in other cases, research may be provided by third party research providers, provided that the executing broker shall be solely obligated for compensation to such provider.

Research services furnished by direct research providers or third party research providers generally may be used by City National Rochdale for its clients, as well as by CNB for any or all of its clients. City National Rochdale and CNB and their clients share research services and products paid for in this manner.

In addition, research services generally may be used in connection with accounts other than those whose commissions were used to pay for such research services.

Research services include fundamental equity analytics, fundamental economic analyses, asset allocation analytics, and stock selection modeling. With respect to fixed income securities, research services include real-time alerts/analytics on ratings actions, and reviews of issuer credit and liquidity factors, among other things. Research services also include various trading and quotation services and advice from broker-dealers as to the value of securities, availability of securities, availability of buyers, and availability of sellers.

The research services City National Rochdale receives may influence its judgment in allocating brokerage business between firms that provide research services and firms that do not. City National Rochdale may pay a brokerage commission in excess of what another broker-dealer might charge for effecting the same transaction. In such a case, City National Rochdale will determine in good faith that such a commission is reasonable in relation to the value of brokerage, research and other services and soft dollar relationships provided by such broker-dealer, viewed in terms of either the specific transaction or City National Rochdale's overall responsibilities to its clients.

Investment Allocations

As dual employees of City National Rochdale and CNB, City National Rochdale's investment personnel may recommend to, buy or sell securities of issuers on behalf of City National Rochdale's clients and CNB accounts. Investment decisions for City National Rochdale, CNB and CNS accounts are reached independently. However, City National Rochdale personnel acting in their CNB capacity may engage in transactions for a CNB or CNS account at the same time and in the same security as a transaction for City National Rochdale clients.

With respect to fixed income securities, when investment personnel make investment decisions at the same time and in the same securities as investment decisions made for CNB and CNS clients, City National Rochdale's fixed income portfolio managers may execute trades as part of concurrent authorizations to purchase or sell the same security for numerous accounts. Although such concurrent authorizations potentially could be either advantageous or disadvantageous to any one or more particular accounts, they will be effected only when City National Rochdale portfolio managers believe that to do so will be in the best interests of the affected accounts. When such concurrent authorizations occur, the executions are generally allocated, including any cost or proceeds, among City National Rochdale's clients and CNB and CNS clients, on a pro rata basis using separate accounts for each. In all other cases, transactions may be allocated using one of the following methodologies: first in - first placed, percentage allocation and rotation. Other subjective allocation methodologies that the portfolio manager deems to be in the client's best interest are permissible provided that they are employed with general consistency and operate fairly.

1. Research and Other Soft Dollar Benefits

City National Rochdale receives research or other products or services other than execution from a broker-dealer and/or a third party in connection with client securities transactions. This is known as a "soft dollar" relationship. City National Rochdale will limit the use of soft dollars to services that

constitute research and execution within the meaning of Section 28(e) of the Securities Exchange Act of 1934, as amended (“Section 28(e)”).

The Chief Compliance Officer will periodically review and evaluate City National Rochdale’s soft dollar practices to determine in good faith whether, with respect to any research or other products or services received from a broker-dealer, the commissions used to obtain those products and services were reasonable in relation to the value of the brokerage, research or other products or services provided by the broker-dealer.

The use of client commissions (or markups or markdowns) to obtain research and brokerage products and services provides a benefit to City National Rochdale that the City National Rochdale does not pay for. This may create an incentive for City National Rochdale to select or recommend a broker-dealer based on its interest in receiving those products and services.

City National Rochdale may cause clients to pay commissions (or markups or markdowns) higher than those charged by other broker-dealers in return for soft dollar benefits (known as paying-up), resulting in higher transaction costs for clients. Research and brokerage services obtained by the use of commissions arising from a client’s portfolio transactions may be used by City National Rochdale in its other investment activities, including for the benefit of other client accounts which are directed to use other broker-dealers. These clients may receive the benefits of such services without paying for them. City National Rochdale does not seek to allocate soft dollar benefits to client accounts proportionately to the soft dollar credits the accounts generate.

Currently, research related services that City National Rochdale receives through soft dollars include:

- Fundamental company, security and industry analysis;
- Quantitative research;
- Economic data and forecasts;
- On-line research services;
- Portfolio risk analytical tools;
- Analysis of financial and market conditions;
- Quotation services;
- Valuation tools; and
- Statistical services.

2. Brokerage for Client Referrals

In selecting or recommending broker-dealers, City National Rochdale may utilize brokers that refer clients to City National Rochdale. Generally, brokers who refer such clients will retain custody of the client account and the client will direct City National Rochdale to utilize that broker for all transactions. See Directed Brokerage disclosure, below, for additional information.

B. Order Aggregation

City National Rochdale often purchases or sells the same security for many clients contemporaneously and using the same executing broker. It is City National Rochdale’s practice, where possible, to aggregate client orders for the purchase or sale of the same security submitted contemporaneously (or near the same time) for execution using the same executing broker. Such aggregation may enable City National Rochdale to obtain for clients a more favorable price based upon the volume of a particular transaction. In cases where trading or investment restrictions are placed on a client’s account, City National Rochdale may be precluded from aggregating that client’s transaction with others.

If the order at a particular broker is filled at several different prices through multiple trades, generally all participating accounts will receive the average price. If an aggregated order is only partially filled, City National Rochdale's procedures are designed to provide allocations that are fair and equitable to clients. Generally, trades will be allocated randomly in an effort to minimize transaction costs for clients. City National Rochdale may also use other allocation methods, including pro rata, if the Adviser feels it would be in the best interests of the clients. Trades for the GAAP program are aggregated by ticker symbol, and then by share size (largest to smallest). City National Rochdale or its related persons may participate in aggregate orders, but will not receive any preferential treatment in the price or allocation of the trade.

It is the policy of City National Rochdale to review, report, and correct trade errors that occur in connection with client account transactions as soon as possible, so that clients are not disadvantaged as a result of an error. City National Rochdale will reimburse clients for any direct loss resulting from the correction of a guideline breach or trade error where such is the result of an action taken by City National Rochdale.

Allocation of IPO's: City National Rochdale may from time to time purchase shares in IPO's for client accounts. City National Rochdale's policy and practice is to allocate IPO shares fairly and equitably among our advisory clients who are able to participate in the IPO so as not to advantage any firm personnel or related account and so as not to favor or disfavor any client or group of clients over any other. Directed brokerage arrangements may limit a client's ability to participate in IPO's.

If a client has non-managed assets in a City National Rochdale managed account and the client instructs City National Rochdale to trade a non-managed asset on behalf of the client, City National Rochdale may not be able to obtain best execution. A client directed trade is unlikely to be aggregated with other firm orders; therefore, City National Rochdale may not be able to obtain the best price for the client.

Item 13 Review of Accounts

A. Frequency and Nature of Review

City National Rochdale Funds

The City National Rochdale Funds are monitored on an on-going basis. City National Rochdale's fund administrator performs daily compliance checks for the City National Rochdale Funds. The City National Rochdale Funds' Chief Compliance Officer is immediately notified of any portfolio limitation violation. Compliance and the Funds' administrator review the portfolio limitation tests against limitations specific to the City National Rochdale Funds' investment strategy as well as restrictions and limitations set forth in the City National Rochdale Funds' prospectus and Statement of Additional Information. Compliance reports are reviewed by the City National Rochdale Funds' Chief Compliance Officer, and any exceptions are reported to the City National Rochdale Funds' Board of Trustees. On a quarterly basis, the Funds' board reviews the performance of the Funds.

Sub-Advised Funds

City National Rochdale monitors the performance of each sub-adviser that it has recommended to its clients, including, but not limited to, periodic account reviews, conference calls with the sub-advisors, on-site visits and ad-hoc inquiries.

Client Separate Account Reviews

Each client separate account is reviewed by the portfolio manager or his designee on an ongoing and regular basis to determine whether securities positions should be maintained in view of current market conditions. Matters reviewed include specific securities held, asset allocation, adherence to investment guidelines and the performance of each client account.

B. Factors Prompting an Immediate Review of Accounts

Significant market events affecting the prices of one or more securities in client accounts, changes in the investment objectives or guidelines of a particular client, or specific arrangements with particular clients may trigger reviews of client accounts on an immediate basis.

C. Content and Frequency of Regular Account Reports

Each client who maintains a separate account with City National Rochdale will receive quarterly reports from City National Rochdale and the custodian where the clients' assets are held. The reports will include a summary of assets, realized and unrealized capital gains and losses, and anticipated and actual income generated by the portfolio. Such reports may be delivered electronically to the client in accordance with the client's agreement with City National Rochdale.

Item 14 Client Referrals and Other Compensation

A. Economic Benefits Received from Non-Clients for Providing Services to Clients

In exchange for commissions generated by discretionary trading activity, City National Rochdale receives research services from a variety of brokerage firms. City National Rochdale may also direct brokerage to firms who refer clients to the firm.

B. Compensation to Non-Supervised Persons for Client Referrals

City National Rochdale may enter into other solicitation agreements between or among City National Rochdale and non-affiliated investment advisers.

Item 15 Custody

City National Rochdale does not have custody of the assets of the City National Rochdale Funds. The assets of the City National Rochdale Funds are held in custody at US Bank N.A.

City National Rochdale does not take possession of client funds or securities held in separately managed accounts; nevertheless City National Rochdale has custody of client assets through the direct debiting of management fees from client custodial accounts (where clients consent to direct debiting of management fees) or sponsorship of private funds (i.e., a limited partnership, limited liability company or some other type of pooled investment vehicle)..

SEC rules require investment advisers that are deemed to have custody of client funds and securities to maintain those funds and securities with a “qualified custodian” in an account either under the client’s name or under the investment adviser’s name as agent or trustee for its clients. A “qualified custodian” is a regulated financial institution that customarily provides custodial services, including banks, savings associations, broker-dealers, and in some cases, futures commission merchants.

City National Rochdale provides investment management services only and does not provide the physical safe keeping of client assets as provided by a qualified custodian. City National Rochdale has established procedures to avoid being deemed to have custody other than in limited circumstances mentioned above. City National Rochdale affiliated broker-dealer (RIM Securities) may serve as an introducing broker for client accounts. Neither City National Rochdale nor RIM Securities takes possession of any client funds or securities.

CNB and CNS clients receive statements at least quarterly from CNB as the qualified custodian that holds and maintains their investment assets. City National Rochdale urges its clients to carefully review such statements.

In addition, City National Rochdale is deemed to have custody over assets where CNB is the qualified custodian and City National Rochdale is the sub-adviser. City National Rochdale will engage a PCAOB-registered and inspected accounting firm to conduct an annual surprise examination of those assets.

The private funds sponsored by City National Rochdale are subject to an annual audit of the private fund by a PCAOB registered independent accounting firm. Audited financial statements for City National Rochdale’s private funds are distributed to all investors within 120 days of the end of the private fund’s fiscal year (or 180 days in the case of a “fund of funds”).

Item 16 Investment Discretion

City National Rochdale receives discretionary authority from the Client at the outset of an advisory relationship to select the identity and amount of securities to be bought or sold. In all cases, however, such discretion is to be exercised in a manner consistent with the stated investment objectives for the particular client account. Pursuant to the terms of the standard Investment Advisory Agreement, City National Rochdale is not required to obtain specific client consent regarding securities or amounts to be bought or sold. However, City National Rochdale manages client accounts in accordance with the clients' stated investment objectives and the Investment Policy Statement (IPS). City National Rochdale assumes all investment duties with respect to assets held in the investment management account and has all investment powers including sole investment authority, except that City National Rochdale is not authorized to withdraw any money or securities from the account without specific authority from the client. If assets are to be withdrawn in any name other than that of the account, the client must provide written instructions and authority.

When selecting securities and determining amounts, City National Rochdale observes the investment policies, limitations and restrictions of the clients it advises. Investment guidelines and restrictions must be provided to City National Rochdale in writing. For the City National Rochdale Funds, City National Rochdale's authority to trade securities may also be limited by certain laws and regulations.

For client accounts where City National Rochdale has not been granted discretion or where discretion is limited due to client restrictions, those restrictions may affect City National Rochdale's ability to perform the stated investment strategy and therefore, investment performance may deviate from other accounts managed in accordance with the same strategy.

Item 17 Voting Client Securities

City National Rochdale has adopted proxy voting policies and procedures (the "Policies"). The Policies require City National Rochdale to vote proxies received in a manner consistent with the best interests of its clients.

Unless otherwise directed by the client, City National Rochdale will vote all proxies, with the exception of City National Corporation stock (NYSE: CYN)

The Policies also require City National Rochdale to vote proxies in a prudent and diligent manner intended to enhance the economic value of client assets. City National Rochdale has hired a neutral, third party, proxy advisory firm (the "Proxy Advisory Firm") to vote proxies on its behalf with respect to equity securities for which City National Rochdale serves as investment adviser. In most instances, City National Rochdale casts clients' votes in accordance with the Proxy Advisory Firm's recommendation. However, in the event City National Rochdale believes that the recommended vote is not in the clients' best interest we may vote against such recommendation. In those instances, City National Rochdale will keep an internal memorandum detailing the reasons for voting decision. City National Rochdale has adopted the Proxy Advisory Firm's voting guidelines and has instructed it to vote proxies on City National Rochdale's behalf in accordance with these guidelines and to vote: (i) any issue or proposal designated in the guidelines to be voted on a "case by case basis" and (ii) any issue or proposal not listed in the guidelines according to its recommendation.

However, the Policies permit City National Rochdale to withdraw any proxy item(s) from the vendor and to vote the proxy item(s) on its own if City National Rochdale determines that no material conflict of interest exists. For these purposes, a conflict of interest is deemed to occur when City National Rochdale or an affiliated person has a financial interest in a matter presented by proxy to be voted on behalf of the fund, other than the obligation City National Rochdale incurs as investment adviser to the City National Rochdale Funds, which may compromise City National Rochdale's independence of judgment and action in voting the proxy. When a proxy proposal raises a material conflict of interest between City National Rochdale's interests and those of the City National Rochdale Funds or City National Rochdale's clients, City National Rochdale will seek to resolve the conflict in accordance with its adopted procedures.

City National Rochdale will generally vote proxies for shares of the Funds that are held in client accounts. On regular business matters, City National Rochdale will vote with management on those issues. For any special votes, City National Rochdale may consult with outside counsel and make a determination to a) vote with management, as usual, b) vote with management and give notice in advance and an opportunity to opt out of City National Rochdale's voting to shareholders, or c) abstain from voting discretion and send proxy statements directly to all fund shareholders.

Clients may obtain a copy of the City National Rochdale's proxy voting policies and procedures and information about how the City National Rochdale voted a client's proxies by contacting Julianne Fries (Chief Compliance Officer) by email at Julianne.Fries@cnb.com or by telephone at (212) 702-3500.

Item 18 Financial Information

Registered investment advisers are required in this Item to provide you with certain financial information or disclosures about City National Rochdale's financial condition. City National Rochdale has no financial commitment that impairs its ability to meet contractual and fiduciary commitments to clients.
