

McADAM LLC

a Registered Investment Adviser

1880 John F Kennedy Boulevard, 16th Floor
Philadelphia, PA 19103

(888) 614-5323

www.McAdamFA.com

This brochure provides information about the qualifications and business practices of McAdam LLC (hereinafter “McAdam” or the “Firm”). If you have any questions about the contents of this brochure, please contact the Firm at this telephone number listed above. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission (SEC) or by any state securities authority. Additional information about the Firm is available on the SEC’s website at www.adviserinfo.sec.gov. The Firm is a registered investment adviser. Registration does not imply any level of skill or training.

Item 2. Material Changes

In this Item, McAdam is required to discuss any material changes that have been made to the brochure since the last annual amendment. While certain information has been updated, the Firm has not made any material changes to the content of the brochure.

Item 4. Advisory Business

McAdam offers a variety of advisory services, which include financial planning, consulting, and investment management services. Prior to McAdam rendering any of the foregoing advisory services, clients are required to enter into one or more written agreements with McAdam setting forth the relevant terms and conditions of the advisory relationship (the “Advisory Agreement”).

McAdam was formed in 2014 and is wholly owned by Michael McAdam. As of December 31, 2017, McAdam had \$333,790,254 of assets under management, all of which was managed on a discretionary basis.

While this brochure generally describes the business of McAdam, certain sections also discuss the activities of its Supervised Persons, which refer to the Firm’s officers, partners, directors (or other persons occupying a similar status or performing similar functions), employees or any other person who provides investment advice on McAdam’s behalf and is subject to the Firm’s supervision or control.

Financial Planning and Consulting Services

McAdam offers clients a broad range of financial planning and consulting services, which may include any or all of the following functions:

- Business Planning
- Cash Flow Forecasting
- Trust and Estate Planning
- Financial Reporting
- Investment Consulting
- Insurance Planning
- Retirement Planning
- Risk Management
- Charitable Giving
- Distribution Planning
- Tax Planning
- Manager Due Diligence

In performing these services, McAdam is not required to verify any information received from the client or from the client's other professionals (e.g., attorneys, accountants, etc.) and is expressly authorized to rely on such information. McAdam may recommend clients engage the Firm for additional related services, its Supervised Persons in their individual capacities (which may include registration as insurance agents or registered representatives of a broker-dealer) and/or other professionals to implement its recommendations. Clients are advised that a conflict of interest exists if clients engage McAdam or its affiliates to provide additional services for compensation. Clients retain absolute discretion over all decisions regarding implementation and are under no obligation to act upon any of the recommendations made by McAdam under a financial planning or consulting engagement. Clients are advised that it remains their responsibility to promptly notify the Firm of any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising McAdam's recommendations and/or services.

Investment Management Services

McAdam manages client investment portfolios on a discretionary basis.

McAdam primarily allocates client assets among various mutual funds, exchange-traded funds ("ETFs"), individual debt and equity securities, and independent investment managers ("Independent Managers") in accordance with their stated investment objectives. In addition, McAdam may also recommend that certain eligible clients invest in privately placed securities, which may include debt, equity and/or interests in pooled investment vehicles (e.g., hedge funds).

Where appropriate, the Firm may also provide advice about any type of legacy position or other investment held in client portfolios. Clients may engage McAdam to manage and/or advise on certain investment products that are not maintained at their primary custodian, such as variable life insurance and annuity contracts and assets held in employer sponsored retirement plans and qualified tuition plans (i.e., 529 plans). In these situations, McAdam directs or recommends the allocation of client assets among the various investment options available with the product. These assets are generally maintained at the underwriting insurance company or the custodian designated by the product's provider.

McAdam tailors its advisory services to meet the needs of its individual clients and seeks to ensure, on a continuous basis, that client portfolios are managed in a manner consistent with those needs and objectives. McAdam consults with clients on an initial and ongoing basis to assess their specific risk tolerance, time horizon, liquidity constraints and other related factors relevant to the management of their portfolios. Clients are advised to promptly notify McAdam if there are changes in their financial situation or if they wish to place any limitations on the management of their portfolios. Clients may impose reasonable restrictions or mandates on the management of their accounts if McAdam determines, in its sole discretion, the conditions would not materially impact the performance of a management strategy or prove overly burdensome to the Firm's management efforts.

Sponsor and Manager of Wrap Program

McAdam may also provide services on a wrap fee basis (“Wrap Program”) as a wrap program sponsor. Under McAdam’s wrap program, the client generally receives investment advisory services, the execution of securities brokerage transactions, custody and reporting services for a single specified fee. When managing a client’s account on a wrap fee basis, McAdam shall receive as payment for its investment advisory services, the balance of the wrap fee after all other costs incorporated into the wrap fee have been deducted. Participation in a wrap program may cost the client more or less than purchasing such services separately. The terms and conditions of a wrap program engagement are more fully discussed in McAdam’s Wrap Fee Program Brochure. Conflict of Interest. Because wrap program transaction fees and/or commissions are being paid by Registrant to the account custodian/broker-dealer, Registrant could have an economic incentive to maximize its compensation by seeking to minimize the number of trades in the client's account. *See separate Wrap Fee Program Brochure.* McAdam’s Chief Compliance Officer, Edward O’Brien, remains available to address any questions that a client or prospective client may have regarding a wrap fee arrangement and the corresponding conflict of interest a wrap fee arrangement may create.

Financial Planning and Non-Investment Consulting/Implementation Services. To the extent requested by a client, McAdam shall provide, for a separate fee, consulting services regarding non-investment related matters, such as estate planning, tax planning, insurance, etc., per the terms and conditions of a written agreement with the client. McAdam does not serve as an attorney or accountant, and no portion of McAdam’s services should be construed as same. To the extent requested by a client, McAdam may recommend the services of other professionals for certain non-investment implementation purposes (i.e. attorneys, accountants, insurance, etc.), including representatives of McAdam in their separate individual capacities as representatives of Purshe Kaplan Sterling Investments (“PKS”), an SEC registered and FINRA member broker-dealer, and as licensed insurance agents. The client is under no obligation to engage the services of any such recommended professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation from McAdam and/or its representatives. Please Note: If the client engages any unaffiliated recommended professional, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged professional. Please Also Note-Conflict of Interest: The recommendation by McAdam representatives that a client purchase a securities or insurance commission product from firm representatives in their individual capacities as representatives of PKS and/or as insurance agents, presents a conflict of interest, as the receipt of commissions may provide an incentive to recommend investment products based on commissions to be received, rather than on a particular client’s need. No client is under any obligation to purchase any securities or insurance commission products from McAdam representatives. Clients are reminded that they may purchase securities and insurance products recommended by McAdam through other, non-affiliated broker-dealers and/or insurance agencies. McAdam’s Chief Compliance Officer, Edward O’Brien, remains available to address any questions that a client or prospective client may have regarding the above conflict of interest.

Please Note: Fee Differentials-Conflict of Interest. McAdam’s representatives determine the amount of advisory fee to be paid by the client within the parameters of the fee schedule set forth at Item 5 below,

which could present a conflict of interest. No client will be charged more than the reflected maximum annual percentage fee. As a result, similarly situated clients could pay diverse advisory. McAdam's advisory services could also be available from other advisers at a lesser annual percentage advisory fee. Each client should take this potential fee differential into consideration when determining whether or not to engage McAdam's services. McAdam's Chief Compliance Officer, Edward O'Brien, remains available to address any questions that a client or prospective client may have regarding the above potential for fee differentials and corresponding conflict of interest.

Retirement Plan Rollovers – No Obligation / Potential for Conflict of Interest: A client or prospective client leaving an employer typically has four options regarding an existing retirement plan (and may engage in a combination of these options): (i) leave the money in the former employer's plan, if permitted, (ii) roll over the assets to the new employer's plan, if one is available and rollovers are permitted, (iii) roll over to an Individual Retirement Account ("IRA"), or (iv) cash out the account value (which could, depending upon the client's age, result in adverse tax consequences). If McAdam recommends that a client roll over their retirement plan assets into an account to be managed by McAdam, such a recommendation creates a conflict of interest if McAdam will earn an advisory fee on the rolled over assets. To the extent that McAdam recommends that clients roll over assets from their retirement plan to an IRA managed by McAdam, then McAdam represents that it and its investment adviser representatives are fiduciaries under the Employment Retirement Income Security Act of 1974, or the Internal Revenue Code, or both. No client is under any obligation to roll over retirement plan assets to an account managed by McAdam. McAdam's Chief Compliance Officer, Edward O'Brien, remains available to address any questions that a client or prospective client may have regarding the conflict of interest presented by such rollover recommendation.

ERISA / IRC Fiduciary Acknowledgment. If the client is: (i) a retirement plan ("Plan") organized under ERISA; (ii) a participant or beneficiary of a Plan subject to Title I of ERISA or described in section 4975(e)(1)(A) of the Internal Revenue Code, with authority to direct the investment of assets in his or her Plan account or to take a distribution; (iii) the beneficial owner of an IRA acting on behalf of the IRA; or (iv) a Retail Fiduciary with respect to a plan subject to Title I of ERISA or described in section 4975(e)(1)(A) of the Internal Revenue Code: then McAdam represents that it and its representatives are fiduciaries under ERISA or the Internal Revenue Code, or both, with respect to any investment advice provided by McAdam or its representatives or with respect to any investment recommendations regarding an ERISA Plan or participant or beneficiary account.

Unaffiliated Private Investment Funds. McAdam's representatives, in their separate individual registered capacities as representatives of PKS, may also provide investment advice regarding unaffiliated private investment funds. McAdam representative, on a non-discretionary basis, may recommend that certain qualified clients consider an investment in unaffiliated private investment funds on a commission compensation basis. The representative's role relative to the private investment funds shall, in conjunction with PKS, be limited to its initial and ongoing due diligence and investment monitoring services. If a client determines to become a private fund investor, the amount of assets invested in the fund(s) shall generally not be included as part of "assets under management" for purposes of McAdam calculating its investment advisory fee. McAdam's clients are under absolutely no obligation to consider or make an investment in a private investment fund(s).

Please Note: Private investment funds generally involve various risk factors, including, but not limited to, potential for complete loss of principal, liquidity constraints and lack of transparency, a complete discussion of which is set forth in each fund's offering documents, which will be provided to each client for review and consideration. Unlike liquid investments that a client may maintain, private investment funds do not provide daily liquidity or pricing. Each prospective client investor will be required to complete a Subscription Agreement, pursuant to which the client shall establish that he/she is qualified for investment in the fund, and acknowledges and accepts the various risk factors that are associated with such an investment.

Valuation. In the event that McAdam references private investment funds owned by the client on any supplemental account reports prepared by McAdam, the value(s) for all private investment funds owned by the client shall reflect the most recent valuation provided by the fund sponsor. However, if subsequent to purchase, the fund has not provided an updated valuation, the valuation shall reflect the initial purchase price. If subsequent to purchase, the fund provides an updated valuation, then the statement will reflect that updated value. The updated value will continue to be reflected on the report until the fund provides a further updated value. **Please Also Note:** As result of the valuation process, if the valuation reflects initial purchase price or an updated value subsequent to purchase price, the current value(s) of an investor's fund holding(s) could be significantly more or less than the value reflected on the report. Unless otherwise indicated, the client's advisory fee shall be based upon the value reflected on the report

Use of Mutual and Exchange Traded Funds: Most mutual funds and exchange traded funds are available directly to the public. Thus, a prospective client can obtain many of the funds that may be utilized by McAdam independent of engaging McAdam as an investment advisor. However, if a prospective client determines to do so, he/she will not receive McAdam's initial and ongoing investment advisory services. **Please Note:** In addition to McAdam's investment advisory fee described below, and transaction and/or custodial fees discussed below, clients will also incur, relative to all mutual fund and exchange traded fund purchases, charges imposed at the fund level (e.g. management fees and other fund expenses).

Portfolio Activity. McAdam has a fiduciary duty to provide services consistent with the client's best interest. As part of its investment advisory services, McAdam will review client portfolios on an ongoing basis to determine if any changes are necessary based upon various factors, including, but not limited to, investment performance, fund manager tenure, style drift, account additions/withdrawals, and/or a change in the client's investment objective. Based upon these factors, there may be extended periods of time when McAdam determines that changes to a client's portfolio are neither necessary nor prudent. Of course, as indicated below, there can be no assurance that investment decisions made by McAdam will be profitable or equal any specific performance level(s).

Independent Managers. McAdam may allocate a portion of a client's investment assets among unaffiliated independent investment managers in accordance with the client's designated investment objective(s). In such situations, the Independent Manager(s) shall have day-to-day responsibility for the

active discretionary management of the allocated assets. McAdam shall continue to render investment supervisory services to the client relative to the ongoing monitoring and review of account performance, asset allocation and client investment objectives. Factors which McAdam shall consider in recommending Independent Manager(s) include the client's designated investment objective(s), management style, performance, reputation, financial strength, reporting, pricing, and research. Please Note: The investment management fee charged by the Independent Manager(s) is separate from, and in addition to, McAdam's advisory fee as set forth in the fee schedule at Item 5 below.

ByAllAccounts and eMoney Advisor Platform. McAdam, in conjunction with the services provided by ByAllAccounts, Inc. and/or eMoney, may also provide periodic comprehensive reporting services which can incorporate all of the client's investment assets, including those investment assets that are not part of the assets managed by McAdam (the "Excluded Assets"). The client and/or their other advisors that maintain trading authority, and not McAdam, shall be exclusively responsible for the investment performance of the Excluded Assets. Unless otherwise specifically agreed to, in writing, McAdam's service relative to the Excluded Assets is limited to reporting only. The sole exception to the above shall be if McAdam is specifically engaged to monitor and/or allocate the assets within the client's 401(k) account maintained away at the custodian directed by the client's employer. As such, except with respect to the client's 401(k) account (if applicable), McAdam does not maintain any trading authority for the Excluded Assets. Rather, the client and/or the client's designated other investment professional(s) maintain supervision, monitoring and trading authority for the Excluded Assets. If McAdam were asked to make a recommendation as to any Excluded Assets, the client is under absolutely no obligation to accept the recommendation, and McAdam shall not be responsible for any implementation error (timing, trading, etc.) relative to the Excluded Assets. In the event the client desires that McAdam provide investment management services for the Excluded Assets, the client may engage McAdam to do so pursuant to the terms and conditions of the Investment Advisory Agreement between McAdam and the client. Additionally, the eMoney platform also provides access to other types of information, including financial planning concepts, which should not, in any manner whatsoever, be construed as services, advice, or recommendations provided by McAdam. Finally, McAdam shall not be held responsible for any adverse results a client may experience if the client engages in financial planning or other functions available on the eMoney platform without McAdam's assistance or oversight.

Client Obligations. In performing its services, McAdam shall not be required to verify any information received from the client or from the client's other professionals, and is expressly authorized to rely thereon. Moreover, each client is advised that it remains their responsibility to promptly notify McAdam if there is ever any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising McAdam's previous recommendations and/or services.

Please Note: Investment Risk. Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by McAdam) will be profitable or equal any specific performance level(s).

Item 5. Fees and Compensation

McAdam offers services on a fee basis, which may include fixed and/or hourly fees, as well as fees based upon assets under management or advisement. Additionally, certain of the Firm's Supervised Persons, in their individual capacities, may offer securities brokerage services and/or insurance products under a separate commission-based arrangement.

Financial Planning and Consulting Fees

McAdam generally charges a fixed fee or fee based upon the net worth or assets held by the client (even if not managed by McAdam) for providing financial planning and consulting services under a stand-alone or wealth management engagement. These fees are negotiable, but generally range from \$500 to \$25,000 on a fixed fee basis or up to 2% of net worth or assets, depending upon the scope and complexity of the services and the professional rendering the financial planning and/or the consulting services. If the client engages the Firm for additional investment advisory services, McAdam may, but is not required to, offset all or a portion of its fees for those services based upon the amount paid for the financial planning and/or consulting services.

The terms and conditions of the financial planning and/or consulting engagement are set forth in the Advisory Agreement and McAdam generally requires the entire fee upon execution of the Advisory Agreement. The Firm does not, however, take receipt of \$1,200 or more in prepaid fees in excess of six months in advance of services rendered.

Investment Management Fees

McAdam offers investment management services for an annual fee based on the amount of assets under the Firm's management. The management fee varies depending upon the size and composition of a client's portfolio and the type of services rendered and the representative providing services. The maximum fee will be based upon the following blended fee schedule:

| <u>PORTFOLIO VALUE</u> | <u>FEE UP TO</u> |
|-------------------------------|-------------------------|
| First \$250,000 | 2.50% |
| Next \$250,000 | 2.30% |
| Next \$500,000 | 1.75% |
| Next \$1,000,000 | 1.50% |
| Next \$3,000,000 | 1.50% |
| Next \$5,000,000 | 1.25% |
| Above \$10,000,000 | 1.25% |

Please Note: Fee Differentials-Conflict of Interest. As disclosed above at Item 4, McAdam's representatives determine the amount of advisory fee to be paid by the client within the parameters of the fee schedule set forth above, which could present a conflict of interest. No client will be charged more than the reflected maximum annual percentage fee. As a result, similarly situated clients could pay diverse advisory. McAdam's advisory services could also be available from other advisers at a lesser annual percentage advisory fee. Each client should take this potential fee differential into consideration when determining whether or not to engage McAdam's services. McAdam's Chief Compliance Officer, Edward O'Brien, remains available to address any questions that a client or prospective client may have regarding the above potential for fee differentials and corresponding conflict of interest.

The annual fee is prorated and charged, in advance, based upon the market value of the assets being managed by McAdam on the last day of the previous billing period. While the timing of billing is negotiable and variable among clients, generally, for the initial year of services, the first fee will be for the first five months and twenty nine days. Subsequently all fees will be charged quarterly, in advance. This initial period is intended to provide McAdam with additional revenue during the more labor intensive initiation of a relationship.

Under certain engagements, the firm may adjust billing as follows: if assets in excess of \$100,000 are deposited into or withdrawn from an account after the inception of a billing period, the fee payable with respect to such assets is adjusted to reflect the interim change in portfolio value. For the initial period of an engagement, the fee is calculated on a *pro rata* basis. In the event the advisory agreement is terminated, the fee for the final billing period is prorated through the effective date of the termination and the outstanding or unearned portion of the fee is charged or refunded to the client, as appropriate.

Additionally, for asset management services the Firm provides with respect to certain client holdings (e.g., held-away assets, accommodation accounts, alternative investments, etc.), McAdam may negotiate a fee rate that differs from the range set forth above.

Fee Discretion

The fee schedule above is the maximum fee that will be charged. McAdam may, in its sole discretion, negotiate to charge a lesser fee based upon certain criteria, such as anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, pre-existing/legacy client relationship, account retention and pro bono activities.

Additional Fees and Expenses

In addition to the advisory fees paid to McAdam, clients may also incur certain charges imposed by other third parties, such as broker-dealers, custodians, trust companies, banks and other financial institutions (collectively "Financial Institutions"). These additional charges may include securities brokerage commissions, transaction fees, custodial fees, fees charged by the Independent Managers, margin costs, charges imposed directly by a mutual fund or ETF in a client's account, as disclosed in the fund's prospectus (e.g., fund management fees and other fund expenses), deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage

accounts and securities transactions. The Firm's brokerage practices are described at length in Item 12, below.

Direct Fee Debit

Clients generally provide McAdam and/or certain Independent Managers with the authority to directly debit their accounts for payment of the investment advisory fees. The Financial Institutions that act as the qualified custodian for client accounts, from which the Firm retains the authority to directly deduct fees, have agreed to send statements to clients not less than quarterly detailing all account transactions, including any amounts paid to McAdam. Alternatively, clients may elect to have McAdam send a separate invoice for direct payment.

Account Additions and Withdrawals

Clients may make additions to and withdrawals from their account at any time, subject to McAdam's right to terminate an account. Additions may be in cash or securities provided that the Firm reserves the right to liquidate any transferred securities or declines to accept particular securities into a client's account. Clients may withdraw account assets on notice to McAdam, subject to the usual and customary securities settlement procedures. However, the Firm generally designs its portfolios as long-term investments and the withdrawal of assets may impair the achievement of a client's investment objectives. McAdam may consult with its clients about the options and implications of transferring securities. Clients are advised that when transferred securities are liquidated, they may be subject to transaction fees, short-term redemption fees, fees assessed at the mutual fund level (e.g., contingent deferred sales charges) and/or tax ramifications.

Commissions and Sales Charges for Recommendations of Securities

Clients can engage certain persons associated with McAdam (but not the Firm directly) to render securities brokerage services under a separate commission-based arrangement. Clients are under no obligation to engage such persons and may choose brokers or agents not affiliated with McAdam.

Under this arrangement, the Firm's Supervised Persons, in their individual capacities as registered representatives of Purshe Kaplan Sterling Investments, Inc. ("PKS"), may provide securities brokerage services and implement securities transactions under a separate commission based arrangement. Supervised Persons may be entitled to a portion of the brokerage commissions paid to PKS, as well as a share of any ongoing distribution or service (trail) fees from the sale of mutual funds. McAdam may also recommend no-load or load-waived funds, where no sales charges are assessed. Prior to effecting any transactions, clients are required to enter into a separate account agreement with PKS.

A conflict of interest exists to the extent that McAdam recommends the purchase or sale of securities where its Supervised Persons receive commissions or other additional compensation as a result of the Firm's recommendation. The Firm has procedures in place to ensure that any recommendations made by such Supervised Persons are in the best interest of clients.

Item 6. Performance-Based Fees and Side-by-Side Management

McAdam does not provide any services for a performance-based fee (i.e., a fee based on a share of capital gains or capital appreciation of a client's assets).

Item 7. Types of Clients

McAdam offers services to individuals, trusts, estates, charitable organizations, corporations and business entities, and state or municipal government entities.

Minimum Account Requirements

McAdam does not impose a stated minimum fee or minimum portfolio value for starting and maintaining an investment management relationship. However, certain Independent Managers may impose more restrictive account requirements and billing practices from the Firm. In these instances, McAdam may alter its corresponding account requirements and/or billing practices to accommodate those of the Independent Managers.

Item 8. Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

McAdam primarily utilizes a fundamental methods of analysis. Fundamental analysis involves an evaluation of the fundamental financial condition and competitive position of a particular fund or issuer. For McAdam, this process typically involves an analysis of an issuer's management team, investment strategies, style drift, past performance, reputation and financial strength in relation to the asset class concentrations and risk exposures of the Firm's model asset allocations. A substantial risk in relying upon fundamental analysis is that while the overall health and position of a company may be good, evolving market conditions may negatively impact the security.

Investment Strategies

McAdam manages client assets on a discretionary or non-discretionary basis. McAdam primarily allocates client assets among various mutual funds and exchange-traded funds ("ETFs"), as well as through a limited amount of individual debt and equity securities, and Independent Managers in accordance with their stated investment objectives.

McAdam tailors its advisory services to the individual needs of clients. McAdam consults with clients initially and on an ongoing basis to develop an investment policy statement which determines risk

tolerance, time horizon and other factors that may impact the clients' investment needs. McAdam ensures that clients' investments are suitable for their investment needs, goals, objectives and risk tolerance.

Risk of Loss

Market Risks

Investing involves risk, including the potential loss of principal, and all investors should be guided accordingly. The profitability of a significant portion of McAdam's recommendations and/or investment decisions may depend to a great extent upon correctly assessing the future course of price movements of stocks, bonds and other asset classes. There can be no assurance that McAdam will be able to predict those price movements accurately or capitalize on any such assumptions.

Mutual Funds and ETFs

An investment in a mutual fund or ETF involves risk, including the loss of principal. Mutual fund and ETF shareholders are necessarily subject to the risks stemming from the individual issuers of the fund's underlying portfolio securities. Such shareholders are also liable for taxes on any fund-level capital gains, as mutual funds and ETFs are required by law to distribute capital gains in the event they sell securities for a profit that cannot be offset by a corresponding loss.

Shares of mutual funds are generally distributed and redeemed on an ongoing basis by the fund itself or a broker acting on its behalf. The trading price at which a share is transacted is equal to a fund's stated daily per share net asset value ("NAV"), plus any shareholders fees (*e.g.*, sales loads, purchase fees, redemption fees). The per share NAV of a mutual fund is calculated at the end of each business day, although the actual NAV fluctuates with intraday changes to the market value of the fund's holdings. The trading prices of a mutual fund's shares may differ significantly from the NAV during periods of market volatility, which may, among other factors, lead to the mutual fund's shares trading at a premium or discount to actual NAV.

Shares of ETFs are listed on securities exchanges and transacted at negotiated prices in the secondary market. Generally, ETF shares trade at or near their most recent NAV, which is generally calculated at least once daily for indexed based ETFs and potentially more frequently for actively managed ETFs. However, certain inefficiencies may cause the shares to trade at a premium or discount to their pro rata NAV. There is also no guarantee that an active secondary market for such shares will develop or continue to exist. Generally, an ETF only redeems shares when aggregated as creation units (usually 20,000 shares or more). Therefore, if a liquid secondary market ceases to exist for shares of a particular ETF, a shareholder may have no way to dispose of such shares.

Use of Independent Managers

As stated above, McAdam may select certain Independent Managers to manage a portion of its clients' assets. In these situations, McAdam continues to conduct ongoing due diligence of such managers, but such recommendations rely to a great extent on the Independent Managers' ability to successfully

implement their investment strategies. In addition, McAdam generally may not have the ability to supervise the Independent Managers on a day-to-day basis.

Use of Private Collective Investment Vehicles

McAdam recommends that certain clients invest in privately placed collective investment vehicles (e.g., hedge funds, private equity funds, etc.). The managers of these vehicles have broad discretion in selecting the investments. There are few limitations on the types of securities or other financial instruments which may be traded and no requirement to diversify. Hedge funds may trade on margin or otherwise leverage positions, thereby potentially increasing the risk to the vehicle. In addition, because the vehicles are not registered as investment companies, there is an absence of regulation. There are numerous other risks in investing in these securities. Clients should consult each fund's private placement memorandum and/or other documents explaining such risks prior to investing.

Real Estate Investment Trusts (REITs)

McAdam may recommend an investment in, or allocate assets among, various real estate investment trusts ("REITs"), the shares of which exist in the form of either publicly traded or privately placed securities. REITs are collective investment vehicles with portfolios comprised primarily of real estate and mortgage related holdings. Many REITs hold heavy concentrations of investments tied to commercial and/or residential developments, which inherently subject REIT investors to the risks associated with a downturn in the real estate market. Investments linked to certain regions that experience greater volatility in the local real estate market may give rise to large fluctuations in the value of the vehicle's shares. Mortgage related holdings may give rise to additional concerns pertaining to interest rates, inflation, liquidity and counterparty risk.

Item 9. Disciplinary Information

McAdam has not been involved in any legal or disciplinary events that are material to a client's evaluation of its advisory business or the integrity of its management.

Item 10. Other Financial Industry Activities and Affiliations

Registered Representatives of a Broker/Dealer

Certain of the Firm's Supervised Persons are registered representatives of PKS and may provide clients with securities brokerage services under a separate commission-based arrangement. This arrangement is described at length in Item 5.

Licensed Insurance Agents

A number of the Firm's Supervised Persons are licensed insurance agents and may offer certain insurance products on a fully-disclosed commissionable basis. A conflict of interest exists to the extent that McAdam recommends the purchase of insurance products where its Supervised Persons may be entitled to insurance commissions or other additional compensation. The Firm has procedures in place whereby it seeks to ensure that all recommendations are made in its clients' best interest regardless of any such affiliations.

Conflict of Interest: The recommendation by McAdam representatives that a client purchase a securities (as a representative of PKS) or insurance commission product presents a conflict of interest, as the receipt of commissions may provide an incentive to recommend investment products based on commissions to be received, rather than on a particular client's need. No client is under any obligation to purchase any securities or insurance commission products from McAdam representatives. Clients are reminded that they may purchase securities and insurance products recommended by McAdam through other non-affiliated broker-dealers and/or insurance agents. McAdam's Chief Compliance Officer, Edward O'Brien, remains available to address any questions that a client or prospective client may have regarding the above conflict of interest.

Item 11. Code of Ethics

McAdam has adopted a code of ethics in compliance with applicable securities laws ("Code of Ethics") that sets forth the standards of conduct expected of its Supervised Persons. McAdam's Code of Ethics contains written policies reasonably designed to prevent certain unlawful practices such as the use of material non-public information by the Firm or any of its Supervised Persons and the trading by the same of securities ahead of clients in order to take advantage of pending orders.

The Code of Ethics also requires certain of McAdam's personnel to report their personal securities holdings and transactions and obtain pre-approval of certain investments (e.g., initial public offerings, limited offerings). However, the Firm's Supervised Persons are permitted to buy or sell securities that it also recommends to clients if done in a fair and equitable manner that is consistent with the Firm's policies and procedures. This Code of Ethics has been established recognizing that some securities trade in sufficiently broad markets to permit transactions by certain personnel to be completed without any appreciable impact on the markets of such securities. Therefore, under limited circumstances, exceptions may be made to the policies stated below.

When the Firm is engaging in or considering a transaction in any security on behalf of a client, no Supervised Person will access to this information may knowingly effect for themselves or for their immediate family (i.e., spouse, minor children and adults living in the same household) a transaction in that security unless:

- the transaction has been completed;
- the transaction for the Supervised Person is completed as part of a batch trade with clients; or
- a decision has been made not to engage in the transaction for the client.

These requirements are not applicable to: (i) direct obligations of the Government of the United States; (ii) money market instruments, bankers' acceptances, bank certificates of deposit, commercial paper, repurchase agreements and other high quality short-term debt instruments, including repurchase agreements; (iii) shares issued by mutual funds or money market funds; and (iv) shares issued by unit investment trusts that are invested exclusively in one or more mutual funds.

Clients and prospective clients may contact McAdam to request a copy of its Code of Ethics.

Item 12. Brokerage Practices

Recommendation of Broker/Dealers for Client Transactions

In the event that the client requests that McAdam recommend a broker-dealer/custodian for execution and/or custodial services (exclusive of those clients that may direct McAdam to use a specific broker-dealer/custodian), McAdam generally recommends that investment management accounts be maintained at Schwab Advisor Services™ ("Schwab"). Prior to engaging McAdam to provide investment management services, the client will be required to enter into a formal Investment Advisory Agreement with McAdam setting forth the terms and conditions under which McAdam shall manage the client's assets, and a separate custodial/clearing agreement with each designated broker-dealer/custodian.

Factors that McAdam considers in recommending Schwab (or any other broker-dealer/custodian to clients) include historical relationship with McAdam, financial strength, reputation, execution capabilities, pricing, research, and service. Although the commissions and/or transaction fees paid by McAdam's clients shall comply with McAdam's duty to obtain best execution, a client may pay a commission that is higher than another qualified broker-dealer might charge to effect the same transaction where McAdam determines, in good faith, that the commission/transaction fee is reasonable. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, although McAdam will seek competitive rates, it may not necessarily obtain the lowest possible commission rates for client account transactions. The brokerage commissions or transaction fees charged by the designated broker-dealer/custodian are exclusive of, and in addition to, McAdam's investment management fee. McAdam's best execution responsibility is qualified if securities that it purchases for client accounts are mutual funds that trade at net asset value as determined at the daily market close.

Non-Soft Dollar Research and Additional Benefits

Although not a material consideration when determining whether to recommend that a client utilize the services of a particular broker-dealer/custodian, McAdam receives from Schwab (or another broker-dealer/custodian, investment manager, platform or fund sponsor) without cost (and/or at a discount) support services and/or products, certain of which assist McAdam to better monitor and service client accounts maintained at such institutions. Included within the support services that may be obtained by McAdam may be investment-related research, pricing information and market data, software and other technology that provide access to client account data, compliance and/or practice management-related publications, discounted or gratis consulting services, discounted and/or gratis attendance at conferences, meetings, and other educational and/or social events, marketing support-including client events, computer hardware and/or software and/or other products used by McAdam in furtherance of its investment advisory business operations.

As indicated above, certain of the support services and/or products that *may* be received may assist McAdam in managing and administering client accounts. Others do not directly provide such assistance, but rather assist McAdam to manage and further develop its business enterprise.

McAdam's clients do not pay more for investment transactions effected and/or assets maintained at Schwab as a result of this arrangement. There is no corresponding commitment made by McAdam to Schwab or any other any entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as result of the above arrangement.

McAdam's Chief Compliance Officer, Edward O'Brien remains available to address any questions that a client or prospective client may have regarding the above arrangements and any corresponding conflict of interest such arrangements may create.

Software and Support Provided by Financial Institutions

McAdam receives without cost from Schwab computer software and related systems support, which allow McAdam to better monitor client accounts maintained at Schwab. McAdam receives the software and related support without cost because the Firm renders investment management services to clients that maintain assets at Schwab. The software and support is not provided in connection with securities transactions of clients (i.e., not "soft dollars"). The software and related systems support may benefit McAdam, but not its clients directly. In fulfilling its duties to its clients, McAdam endeavors at all times to put the interests of its clients first. Clients should be aware, however, that McAdam's receipt of economic benefits from a broker/dealer creates a conflict of interest since these benefits may influence the Firm's choice of broker/dealer over another that does not furnish similar software, systems support or services.

Specifically, McAdam can receive the following benefits from Schwab:

- Credits to be used toward the Firms Supervised Persons' attendance at conferences related to the Firm's advisory business.
- Receipt of duplicate client confirmations and bundled duplicate statements;
- Access to a trading desk that exclusively services its institutional traders;
- Access to block trading which provides the ability to aggregate securities transactions and then allocate the appropriate shares to client accounts; and
- Access to an electronic communication network for client order entry and account information.

Brokerage for Client Referrals

McAdam does not consider, in selecting or recommending broker/dealers, whether the Firm receives client referrals from the Financial Institutions or other third party.

Directed Brokerage

McAdam does not generally accept directed brokerage arrangements (when a client requires that account transactions be effected through a specific broker-dealer). In such client directed arrangements, the client will negotiate terms and arrangements for their account with that broker-dealer, and McAdam will not seek better execution services or prices from other broker-dealers or be able to "batch" the client's transactions for execution through other broker-dealers with orders for other accounts managed by McAdam. As a result, a client may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case. Please Note: In the event that the client directs McAdam to effect securities transactions for the client's accounts through a specific broker-dealer, the client correspondingly acknowledges that such direction may cause the accounts to incur higher commissions or transaction costs than the accounts would otherwise incur had the client determined to effect account transactions through alternative clearing arrangements that may be available through McAdam. Higher transaction costs adversely impact account performance. Please Also Note: Transactions for directed accounts will generally be executed following the execution of portfolio transactions for non-directed accounts.

Trade Aggregation

Transactions for each client generally will be effected independently. In limited circumstances, at the Firm's discretion, McAdam may purchase or sell the same securities for several clients at approximately the same time. McAdam may (but is not obligated to) combine or "batch" such orders to obtain best execution, to negotiate more favorable commission rates or to allocate equitably among the Firm's clients

differences in prices and commissions or other transaction costs that might not have been obtained had such orders been placed independently. Under this procedure, transactions will generally be averaged as to price and allocated among McAdam's clients pro rata to the purchase and sale orders placed for each client on any given day. To the extent that the Firm determines to aggregate client orders for the purchase or sale of securities, including securities in which McAdam's Supervised Persons may invest, the Firm generally does so in accordance with applicable rules promulgated under the Advisers Act and no-action guidance provided by the staff of the U.S. Securities and Exchange Commission. McAdam does not receive any additional compensation or remuneration as a result of the aggregation.

In the event that the Firm determines that a prorated allocation is not appropriate under the particular circumstances, the allocation will be made based upon other relevant factors, which may include: (i) when only a small percentage of the order is executed, shares may be allocated to the account with the smallest order or the smallest position or to an account that is out of line with respect to security or sector weightings relative to other portfolios, with similar mandates; (ii) allocations may be given to one account when one account has limitations in its investment guidelines which prohibit it from purchasing other securities which are expected to produce similar investment results and can be purchased by other accounts; (iii) if an account reaches an investment guideline limit and cannot participate in an allocation, shares may be reallocated to other accounts (this may be due to unforeseen changes in an account's assets after an order is placed); (iv) with respect to sale allocations, allocations may be given to accounts low in cash; (v) in cases when a pro rata allocation of a potential execution would result in a de minimis allocation in one or more accounts, the Firm may exclude the account(s) from the allocation; the transactions may be executed on a pro rata basis among the remaining accounts; or (vi) in cases where a small proportion of an order is executed in all accounts, shares may be allocated to one or more accounts on a random basis.

Item 13. Review of Accounts

Account Reviews

McAdam monitors client portfolios on a continuous and ongoing basis while regular account reviews are conducted on at least a quarterly basis. Such reviews are conducted by the Firm's investment adviser representatives. All investment advisory clients are encouraged to discuss their needs, goals and objectives with McAdam and to keep the Firm informed of any changes thereto. The Firm contacts ongoing investment advisory clients at least annually to review its previous services and/or recommendations and quarterly to discuss the impact resulting from any changes in the client's financial situation and/or investment objectives.

Account Statements and Reports

Clients are provided with transaction confirmation notices and regular summary account statements directly from the Financial Institutions where their assets are custodied. From time-to-time or as otherwise requested, clients may also receive written or electronic reports from McAdam and/or an outside service

provider, which contain certain account and/or market-related information, such as an inventory of account holdings or account performance. Clients should compare the account statements they receive from their custodian with any documents or reports they receive from McAdam or an outside service provider.

Item 14. Client Referrals and Other Compensation

As referenced in Item 12.A.1 above, McAdam receives economic benefits from Schwab including support services and/or products without cost or at a discount.

Client Referrals

McAdam does not currently compensate any non-related party for client introductions.

Item 15. Custody

The Advisory Agreement and/or the separate agreement with any Financial Institution generally authorize McAdam and/or the Independent Managers to debit client accounts for payment of the Firm's fees and to directly remit that those funds to the Firm in accordance with applicable custody rules. The Financial Institutions that act as the qualified custodian for client accounts, from which the Firm retains the authority to directly deduct fees, have agreed to send statements to clients not less than quarterly detailing all account transactions, including any amounts paid to McAdam.

In addition, as discussed in Item 13, McAdam may also send periodic supplemental reports to clients. Clients should carefully review the statements sent directly by the Financial Institutions and compare them to those received from McAdam.

Item 16. Investment Discretion

McAdam may be given the authority to exercise discretion on behalf of clients. McAdam is considered to exercise investment discretion over a client's account if it can effect and/or direct transactions in client accounts without first seeking their consent. McAdam is given this authority through a power-of-attorney included in the agreement between McAdam and the client. Clients may request a limitation on this authority (such as certain securities not to be bought or sold). McAdam takes discretion over the following activities:

- The securities to be purchased or sold;
- The amount of securities to be purchased or sold;
- When transactions are made; and

- The Independent Managers to be hired or fired.

Item 17. Voting Client Securities

Declination of Proxy Voting Authority

McAdam generally does not accept the authority to vote a client's securities (i.e., proxies) on their behalf. Clients receive proxies directly from the Financial Institutions where their assets are custodied and may contact the Firm at the contact information on the cover of this brochure with questions about any such issuer solicitations.

Item 18. Financial Information

McAdam is not required to disclose any financial information due to the following:

- The Firm does not require or solicit the prepayment of more than \$1,200 in fees six months or more in advance of services rendered;
- The Firm does not have a financial condition that is reasonably likely to impair its ability to meet contractual commitments to clients; and
- The Firm has not been the subject of a bankruptcy petition at any time during the past ten years.

ANY QUESTIONS: McAdam's Chief Compliance Officer, Edward O'Brien, remains available to address any questions regarding this Part 2A.
