Beacon Global Advisor Network, LLC (hereinafter referred to as “BGAN”) is an investment advisory firm offering a variety of advisory services customized to your individual needs.

- A. BGAN was established in April 2017. The principal owners and members of BGAN are: Joseph Gruber, President; Robert Rigby-Hall, Treasurer; and Randy Landsman, Vice President.

BGAN is an investment adviser that consists of many independent contractors who have affiliated with BGAN as Advisory Representatives to offer the advisory services and programs described within this brochure. The Advisory Representatives each have their own businesses and offices through which they conduct not only advisory business but provide other financial services. They market a variety of financial related services including accounting and insurance services not offered by BGAN through their independent businesses. These businesses are separate from and not affiliated with BGAN. The Advisory Representatives have a direct interest in the fee charged to you since BGAN will pay a portion of the advisory fee charged to you to your Advisory Representative. It is important to refer to the Item 5 – Fees and Compensation below. Our Advisory Representatives may not exceed the fee disclosed under Item 5 below. However, the negotiability and the fee that you will pay for advisory services is determined between you and your Advisory Representative.

Adviser is a registered investment adviser. As an investment adviser, we are a fiduciary to our advisory clients. As fiduciaries, we are expected act and provide advice in the best interests of clients; have a duty to be loyal to our clients; make full and fair disclosure of all material conflicts of interest; seek best execution for client transactions; ensure that investment advice is suitable for clients' objectives, needs and circumstances; have a duty to have a reasonable, independent basis for investment advice; and refrain from effecting personal securities transactions that are inconsistent with client interests. As ERISA fiduciaries, we are expected to provide advice that is in your best interest; only charge fees that are reasonable; and not make any materially misleading statements about recommended transactions, fees and compensation, conflicts of interest, or any other matters relevant to your investment decisions.

- B. BGAN offers the following advisory services. Each of the services is more fully described below.
- Asset Management
 - Financial Planning
 - Retirement Consulting Services
 - Analysis, Recommendation and Monitoring of Third Party Managed Programs
 - Pension Advice for United Kingdom and other Nationals Expatriates

BGAN will provide continuous and ongoing management of your account. Unless otherwise expressly requested by you, BGAN will manage your portfolio on a discretionary basis and will make changes to the allocation as deemed appropriate by BGAN. BGAN will determine the securities to be purchased and sold in the account and will alter the securities holdings from time to time, without prior consultation with you. BGAN may actively trade securities and hold such holdings for periods of 30 days or less or maintain positions for longer or shorter term periods at the discretion of your Advisory Representative.

BGAN's asset management program includes the use of a Unified Managed Account Program in which BGAN uses overlay managers to assist BGAN to provide asset management of your account. BGAN can customize a management account or manage your account based on model portfolios comprised of individual equity securities, mutual funds and/or exchange-traded funds ("ETFs"). The model portfolios are designed around different investment strategies and goals.

By execution of the BGAN Discretionary Asset Management Agreement, you will grant discretionary authorization to BGAN and your Advisory Representative to manage your account including selecting an overlay manager(s) and model account strategist, or third party managers (collectively referred to as "Third-Party Service Providers"). In addition, the client will authorize the custodian to follow our instructions as well as instructions given by Overlay Manager to effect transactions, deliver securities, deduct fees and take other actions with respect to the client account. The client will not have a direct contractual relationship with the Overlay Manager or any other Third-Party Service Provider. For additional information about discretionary authorization, please refer to Item 16 – Investment Discretion below.

It is important you read the Disclosure Brochure to the Third-Party Service Providers prior to entering into any agreement to use a Third Party Service Provider. The Disclosure Brochure contains important information about the fees, services, and conflicts of interests associated with the program and the Third Party Service Provider.

If you elect to have your accounts managed on a nondiscretionary basis, no changes will be made to the allocation of your account without prior consultation with you and your expressed agreement. Nondiscretionary is not available when an overlay management strategist or model account management strategy is utilized. There is risk with electing to have your account managed on a non-discretionary basis. The risk is that your Advisory Representative will not be able to conduct transactions in a timely manner. If you have your custom allocated accounts managed on a nondiscretionary basis, your Advisory Representative cannot make changes to the allocations in your account without prior consultation and your expressed agreement. With accounts managed on a nondiscretionary basis, there is an inherent risk your Advisory Representative will not be able to contact you in a timely manner in volatile markets. Your Advisory Representative will not be able to mitigate the effects of sharp market declines in an efficient manner without your expressed permission.

BGAN primarily uses open-ended mutual funds and uses no-load and load waived or mutual funds purchased at net asset value (NAV), exchange traded funds, and equity and fixed income securities. However, managed accounts are not exclusively limited to the aforementioned types of securities

and may include other securities such as variable products, alternative investments, options, and other securities deemed suitable for your portfolio by the Advisory Representative.

Transactions in the account, account reallocations and rebalancing often trigger a taxable event, with the exception of IRA accounts, 403(b) accounts and other qualified retirement accounts.

Pension Advice for United Kingdom and other Nationals Expatriates

BGAN provides pension consulting and advice to United Kingdom ("UK") expatriates or other nationals generally residing in the United States who have UK based pension plans. BGAN will gather financial information, goals, and objectives from the client and review the client's pension assets. Upon completion of the review, BGAN will provide the client analysis, explanation, and recommendations about the current pension plan and the suitability and options available to the client. If a recommendation is suitable to the client to transfer such pension assets to a new pension provider and the selection. Generally, transferring assets to other another plan enables the client to have more control and flexibility over their pension assets and more investment options.

Upon client authorization, BGAN will request a statement of benefit from the client's existing UK pension plan administrator or trustee. If suitable and in conjunction with an FCA regulated advisor with the relevant permissions for the transfer of Safe Guarded Benefits and in the client's best interest, BGAN will assist with a transfer of pension assets to a Self-Invested Personal Pension ("SIPP"), a Qualifying Recognised Overseas Pension Scheme ("QROPS"), and/or other applicable plans.

All pension assets are held by a regulated pension trustee (authorized by the relevant financial services regulator where the pension plan is held) and subject to the terms and conditions of a separate agreement between the client and the pension trustee. Pension assets are typically managed by the client's selected investment manager and subject to the terms and conditions of a separate management agreement between the client's pension trustee and the investment manager. BGAN will review on a continuous and ongoing basis the allocation of assets among the investment managers and will make recommendations and implement changes as deemed appropriate and in the client's best interest. Clients are strongly encouraged to review the agreement between the client and the pension trustee and other disclosure materials (like Key Features documents) provided by the pension trustee and the investment manager for a full understanding of the services provided and any associated costs therein.

Clients will receive a written assessment and recommendations of their pension review. Additionally, pension plan statements and other reports are generally sent directly to clients on an annual basis (unless requested more frequently) by the selected pension trustee, the custodian of record, and/or others similarly involved with the client pension plan. Clients are encouraged to review such material carefully for a complete understanding of the services offered and the costs associated with the management of such pension plans.

BGAN does not provide any tax advice including, without limitation, in relation to any US tax reporting requirements and/or other tax implications arising in relation to clients' pension transfers. BGAN recommends the clients seek their own tax advice, including in relation to procedures under tax treaties between the United States and the UK (or other applicable jurisdiction) for the avoidance of double taxation on their UK/EU pension arrangements.

IRA Rollover Considerations

As part of our consulting and advisory services, we may provide you recommendations and advice concerning your employer retirement plan or other qualified retirement account. Our recommendations can include you consider withdrawing the assets from your employer's retirement plan or other qualified retirement account and roll the assets over to an individual retirement account ("IRA"). Further, we offer our management services be applied to those funds and securities rolled into an IRA or other account for which we will receive compensation. If you elect to roll the assets to an IRA that is subject to our management, we will charge you an asset based fee as described above under Item 5. This practice presents a conflict of interest because persons providing investment advice on our behalf have an incentive to recommend a rollover to you for the purpose of generating fee based compensation. You are under no obligation, contractually or otherwise, to complete the rollover. Furthermore, if you do complete the rollover, you are under no obligation to have the assets in an IRA managed by us.

It is important for you to understand many employers permit former employees to keep their retirement assets in their company plan. Also, current employees can sometimes move assets out of their company plan before they retire or change jobs. In determining whether to complete the rollover to an IRA, and to the extent the following options are available, you should consider the costs and benefits of each.

An employee will typically have four options:

1. Leave the funds in your employer's (former employer's) plan.
2. Move the funds to a new employer's retirement plan.
3. Cash out and taking a taxable distribution from the plan.
4. Roll the funds into an IRA rollover account.

Each of these options has advantages and disadvantages and before making a change we encourage you to speak with your CPA and/or tax attorney.

If you are considering rolling over your retirement funds to an IRA for us to manage it is important you understand the following:

1. Determine whether the investment options in your employer's retirement plan address your needs or whether you might want to consider other types of investments.
 - a. Employer retirement plans generally have a more limited investment menu than IRAs.
 - b. Employer retirement plans may have unique investment options not available to the public such as employer securities, or previously closed funds.
2. Your current plan may have lower fees than our fees.
 - a. If you are interested in investing only in mutual funds, you should understand the cost structure of the share classes available in your employer's retirement plan and how the costs of those share classes compare with those available in an IRA.
 - b. You should understand the various products and services you might take advantage of at an IRA provider and the potential costs of those products and services.
 - c. It is likely you will not be charged a management fee and will not receive ongoing asset management services unless you elect to have such services. In the event your plan offers asset management or model management, there may be a fee associated with the services that is more or less than our asset management fee.

Beacon Global Advisor Network, LLC

3. Our strategy can have higher risk than the option(s) provided to you in your plan.
4. Your current plan may offer financial advice, guidance, and/or model management or portfolio options at no additional cost.
5. If you keep your assets titled in a 401k or retirement account, you could potentially delay your required minimum distribution beyond age 70.5 (70 ½).
6. Your 401k may offer more liability protection than a rollover IRA; each state may vary.
 - a. Generally, federal law protects assets in qualified plans from creditors. Since 2005, IRA assets have been generally protected from creditors in bankruptcies. However, there can be some exceptions to the general rules so you should consult an attorney if you are concerned about protecting your retirement plan assets from creditors.
7. You may be able to take out a loan on your 401k, but not from an IRA.
8. IRA assets can be accessed any time; however, distributions are subject to ordinary income tax and may also be subject to a 10% early distribution penalty unless they qualify for an exception such as disability, higher education expenses or the purchase of a home.
9. If you own company stock in your plan, you may be able to liquidate those shares at a lower capital gains tax rate.
10. Your plan may allow you to hire us as the manager and keep the assets titled in the plan name.

It is important that you understand the differences between these types of accounts and to decide whether a rollover is best for you. Prior to proceeding, if you have questions contact your investment adviser representative, or call our main number as listed on the cover page of this brochure.

D. BGAN does not participate in any wrap fee programs.

E. As of March 27, 2018, BGAN has \$108,520,722 under non-discretionary management. There are no assets under discretionary management as of the annual updating amendment to this Form ADV Part 2A Brochure.

Item 5 - FEES AND COMPENSATION

General Disclosure

As stated under Item 4, BGAN consists of a group of independent contractors who are registered or licensed with BGAN as Advisory Representatives offering the advisory services and programs outlined in this Form ADV Part 2A. While no Advisory Representative can exceed the fees schedules outlined below, each Advisory Representative can negotiate and charge an advisory fee based on the fee schedules below. The amount of the fee is not commensurate with education or tenure in the industry. Therefore, there may be another BGAN Advisory Representative who charges more or less than the fee you are being charged for similar services.

Your Advisory Representative has a direct interest in the fee charged to you since BGAN will pay a portion of the advisory fee charged to you to your Advisory Representative.

The advice provided by Advisory Representatives often involves recommendations to invest assets according to an asset allocation primarily involving mutual funds, exchange traded funds, stocks,

bonds, and other types of securities. Recommendations include investing into various share classes. Different share classes of securities involve different fee structures and internal costs. Institutional shares are often the least expensive from an internal cost perspective; however, the transaction fees can be higher. It is important you understand the internal cost structure of the various share classes. Additional information about costs and the various share classes can be found in the prospectus.

Registered investment company securities such as mutual funds, and variable products offer the securities in various share classes. Different share classes are priced differently and share classes other than institutional share classes will involve higher internal costs that over time will cost you more. Institutional share classes often have higher trading costs. A client needs to consider the amount being invested and the length of anticipated holding to make a decision as to the share class most suitable to the client. Please read the disclosures under Item 10 below for important information about the advice and recommendations offered by advisory representatives and registered representatives. Representatives will select the lowest share class funds available and appropriate to the situation. However, in selecting the lowest share class, trading costs are sometimes higher. Selecting the lowest share class appropriate to the situation does not imply the lowest cost share class but means what the Representative deems lowest cost for the situation. Representatives consider the anticipated holding period, cost structure, and administrative and transaction costs associated with selecting a share class. However, there is no way to predict the future and there could be occasions where a holding is liquidated sooner or held longer resulting in higher costs to the client. Additional information about share classes can be found in an Investor Alert issued by the Securities and Exchange Commission at <https://www.investor.gov/additional-resources/news-alerts/alerts-bulletins/investor-bulletin-mutual-fund-classes> and <https://www.investor.gov/additional-resources/news-alerts/alerts-bulletins/investor-bulletin-mutual-fund-classes>. Additionally, the SEC and FINRA provides investor information at www.sec.gov and www.finra.org.

Over \$10,000,000	Negotiable

Your Advisory Representative will have the discretion to determine:

➤ **How the fee will be determined**

Option A: A fee will be calculated based on the value of each account registration under management (e.g. you have four accounts and each is charged a fee based on the account value based on the negotiated fee schedule).

Option B: A fee will be calculated based on the aggregated value of all managed accounts for the household.

Beacon Global Advisor Network, LLC

For example, if you have four managed accounts with a value as of the just completed calendar quarter of: \$101,569.40, \$55,498.46, \$675,879.50, and \$74,301.12 with a total value of \$907,248.48, you will not pay a fee on the managed accounts greater than 1.75%.

➤ **Valuation of the account for purposes of calculating the fee**

Option A: Fees will be determined and calculated based on the average daily balance of the account for the calendar quarter.

Option B: Fees will be determined and calculated based on the just completed quarter ending account value.

➤ **Structure of the fee**

Option A: Flat or Fixed Fee based on value each calendar quarter.

Option B: Blended Fee – Each threshold of the account value is charged the agreed upon fee for that threshold.

➤ **Fee timing**

Option A: In advance of each calendar quarter.

Option B: In arrears of each calendar quarter.

Item 8 - METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

- A. Each Advisory Representative conducts their own analysis to determine the securities and asset allocations they will use in a client's portfolio. They will use a variety of resources to gather information including but not limited to newspapers, magazines, due diligence visits and interviews with vendors, product literature and prospectuses, asset allocation programs and software. Advisory Representatives conduct economic analysis to attempt to analyze and determine trends as well as fundamental analysis. Fundamental analysis generally involves looking at economic and financial factors. Additionally, they will assess a company's or security's value based on factors such as sales, assets, markets, management, products and services, earnings, and financial structure. Some Advisory representatives employ technical market analysis and technical trend following. Technical analysis generally involves studying trends and movements in a security's price, trading volume, and other market-related factors in an attempt to discern patterns.

BGAN conducts due diligence on third party managers and has minimum criteria for approval of a third party manager on its platform.

Depending on the needs of the client and the investment philosophy of the Advisory Representative, long term, short term and active trading strategies will be utilized. Factors that may result in a change to a client's portfolio include but are not limited to, economic factors, management changes with the security, tax law changes, objective change, and news or press releases, and financial changes with the client.

- B. BGAN emphasizes that investment returns, particularly over shorter time periods, can be highly volatile and are dependent on a wide variety of factors. Thus, our investment management services are generally suitable only for long-term investment objectives or strategies, rather than for short-term trading purposes. Neither diversification nor asset allocation assure a profit or protect you against a loss, and there is no guarantee that your investment objectives will be achieved.

You are advised investing in securities involves risk of loss, including the potential loss of principal. Therefore, your participation in any of the management programs offered by BGAN will require you to be prepared to bear the risk of loss and fluctuating performance.

BGAN does not represent, warrant or imply that the services or methods of analysis used by BGAN can or will predict future results, successfully identify market tops or bottoms, or insulate you from losses due to major market corrections or crashes. Past performance is no indication of future performance. No guarantees can be offered that your goals or objectives

will be achieved. Further, no promises or assumptions can be made that the advisory services offered by BGAN will provide a better return than other investment strategies.

- C. BGAN primarily uses mutual funds, exchange traded funds, individual equities and fixed income securities, and third-party service providers. The following are some of the primary risks associated with the securities and strategies utilized. Please do not hesitate to contact us to discuss these risks and others in more detail.

Mutual fund fees are described in the fund's prospectus, which the custodian mails directly to the client following any purchase of a mutual fund that is new to the client's account. In addition, a prospectus is available online at each mutual fund company's Web site. At the client's request at any time BGAN will direct the client to the appropriate Web page to access the prospectus. The risks with mutual funds include

- **Manager Risk:** which is the risk that an actively managed mutual fund's investment adviser will fail to execute the fund's stated investment strategy.
- **Market Risk:** which is the risk that the Stock Market will decline, decreasing the value of the securities contained within the mutual funds we recommend to you.
- **Industry Risk:** which is the risk that a group of stocks in a single industry will decline in price due to adverse developments in that industry, decreasing the value of mutual funds that are significantly invested in that industry.
- **Inflation Risk:** which is the risk that the rate of price increases in the economy deteriorates the returns associated with the mutual fund.

ETFs are professionally managed pooled vehicles that invest in stocks, bonds, short-term money market instruments, other mutual funds, other securities or any combination thereof. ETFs trade on an auctionable market. Therefore, there is more price fluctuation with ETFs than with mutual funds since ETFs trade throughout the day, whereas mutual funds are priced once a day. Also, since most ETFs only mirror a market index, such as the S&P 500, they won't outperform the index. While ETFs generally provide diversification, risks can be significantly increased for funds concentrated in a particular sector of the market, or that primarily invest in small cap or speculative companies, use leverage (i.e. borrow money) to a significant degree, or concentrate in a particular type of security rather than balancing the fund with different types of securities.

The risks with stocks is prices fluctuate throughout the day. Stocks can drop in value and become worthless. The risks with stocks are market risk and company specific risk. The price of a stock can decline due to company-specific reasons as well as the health of the overall stock market. Even dividends, which many beginning investors believe are guaranteed payments by the company, can decline or be totally eliminated. Investing in micro, small or mid-sized companies may involve risks not associated with investing in more established companies. Since equity securities of smaller companies may not be traded as often as equity securities of larger, more established companies, it may be difficult or impossible for the securities to sell.

Bonds – Investing in bonds involves the assumption of risk including:

- **Interest Rate Risk:** which is the risk that the value of the bond investments we recommend to you will fall if interest rates rise.
- **Call Risk:** which is the risk that your bond investment will be called or purchased back from you when conditions are favorable to the bond issuer and unfavorable to you.

Beacon Global Advisor Network, LLC

- Default Risk: which is the risk that the bond issuer may be unable to pay you the contractual interest or principal on the bond in a timely manner or at all.
- Inflation Risk: which is the risk that the rate of price increases in the economy deteriorates the returns associated with the bond.

Please refer to the third-party service provider's Form ADV and associated disclosure documents for details on their investment strategies, methods of analysis and associated risks.

The risks with utilizing third party managed programs include:

- Market and economic risk.
- The risk the third party manager is not managing to the objective or managing based on the stated strategy.
- The risk the securities managed by the third party manager will decline or fluctuate impacting the overall performance of the portfolio.
- The risk that the performance of the portfolio will be diminished by the fees of the third party manager and expenses associated with the securities.

Risks

The business of investing in securities is highly competitive and the identification of attractive investment opportunities is difficult and involves a high degree of uncertainty. Varied fluctuations in the price of investments are a normal characteristic of securities markets due to a variety of influences. Managed account programs should be considered a long-term investment and thus long-term performance and performance consistency are the major goals.

Tax Risk

Income tax costs may result from the sale of individual securities within your account, unless the account is otherwise tax sheltered or tax deferred. Income tax costs directly reduce investment returns. Under the current income tax system, securities held less than one year that are sold at a gain (short term capital gains) are taxed at the client's highest marginal tax rate, and securities held greater than one year that are sold at a gain (long term capital gains) are taxed at a reduced long term capital gains rate. Furthermore, the potential Alternative Minimum Tax (AMT) impact of long and short-term capital gains incurred in the tax year in question should be considered. Client is responsible for all tax liabilities arising from the sale of securities within the account.

International investing presents certain risks not associated with investing solely in the United States. These include, for instance, risks relating to fluctuations in the value of the U.S. dollar relative to the values of other currencies, custody arrangements made for foreign holdings, political risks, differences in accounting procedures and the lesser degree of public information required to be provided by non- U.S. companies.

Investing in emerging markets involves greater risk than investing in more established markets. Such risks include exchange rate changes, political and economic upheaval, the relative lack of information about these companies, relatively low market liquidity, and the potential lack of strict financial and accounting controls and standards.

Investing in fixed income securities involves special risks not typically associated with equity securities. These risks include credit risk, which is the risk of potential loss due to the inability to meet contractual debt obligations, and interest rate risk, which is the risk that an

investment's value will change due to a change in the level of interest rates. Additionally, there is an inverse relationship between bond prices and interest rates specific to fixed income securities. As interest rates rise, bond prices fall and, conversely, as interest rates fall, bond prices rise.

Long-term purchases – Using a long-term purchase strategy generally assumes the Financial Markets will go up in the long-term which may not be the case. There is also the risk that the segment of the market that you are invested in or perhaps just your particular investment will go down over time even if the overall Financial Markets advance. Purchasing investments long-term may create an opportunity cost - “locking-up” assets that may be better utilized in the short-term in other investments.

Active Trading – frequent trading of securities; explain how frequent trading can affect investment performance, particularly through increased brokerage and other transaction costs and taxes

Fundamental Analysis does not attempt to anticipate market movements. This represents a potential risk, as the price of a security can move up or down along with the overall market, regardless of the economic and financial factors considered in evaluating the security. The success of this strategy depends in large part on the ability to accurately assess the fundamental value of securities. An accurate assessment of fundamental value deepens on a complex analysis of a number of financial and legal factors. No assurance can be given that we can assess the nature and magnitude of all material factors having a bearing on the value of securities.

Quantitative Analysis: The risk of the analysis using mathematical and statistical modeling is that they may not accurately predict future investment patterns. Day to day changes in the market prices of investments may follow random patterns and may not be predictable with any reliable degree of accuracy.

Qualitative Analysis: The risk of analysis using more subjective criteria is that the information obtained to make the analysis may be inaccurate and skew the analysis. In addition, measuring (or weighting) the criteria will likely be inconsistent from one analysis to another and could adversely affects the investment decisions.

No investment strategy can avoid loss. Investing in securities involves risk of loss that you need to be prepared to bear.

Item 9 - DISCIPLINARY INFORMATION

Investment Advisers must disclose any legal or disciplinary events that would be material to your evaluation of BGAN or the integrity of our services.

BGAN and your advisory representative do not share in a portion of the advisory fees you pay to the third-party service providers. Fees paid to third-party service providers is separate from the fees paid to BGAN.

The ability to select another broker/dealer and custodian will depend on the ability for BGAN to obtain trade information and supervise the activities of its Advisory Representatives.

How We Select Brokers/Custodians

We seek to select a custodian/broker who will hold your assets and execute transactions on terms that are overall most advantageous when compared to other available providers and their services. We consider a wide range of factors, including, among others, these:

- Ability to service you and us
- Combination of transaction execution services along with asset custody services (generally without a separate fee for custody)
- Capability to execute, clear and settle trades (buy and sell securities for your account)
- Capabilities to facilitate transfers and payments to and from accounts (wire transfers, check requests, bill payment, etc.)
- Breadth of investment products made available (stocks, bonds, mutual funds, exchange traded funds (ETFs), etc.)
- Availability of investment research and tools that assist us in making investment decisions
- Quality of services
- Competitiveness of the price of those services (commission rates, margin interest rates, other fees, etc.) and willingness to negotiate them
- Industry reputation, staying power as a company, financial strength and viability
- Technology and educational resources
- Confidentiality and security of your information

Best execution does not simply mean the lowest transaction cost. Therefore, no single criteria will validate nor invalidate a custodian, but rather, all criteria taken together will be used in evaluating the currently utilized custodian.

There is an incentive for BGAN and the Advisory Representatives to recommend a broker/dealer over another based on the products and services that will be received rather than your best interest. Therefore, clients may pay commissions higher than those charged by other broker/dealers in return for the products and services received by BGAN and/or its Advisory Representatives. The products and services BGAN and its Advisory Representatives receive from the broker/dealer or account custodian will be used to benefit all clients including those clients who elect to maintain their accounts elsewhere.

Aggregated Trading Procedure

When appropriate, your Advisory Representative will aggregate (“bunch”) transactions in the same security on behalf of more than one client in an effort to strive for best execution and to possibly reduce the price per share and/or other costs to clients. However, aggregated or bunched orders will not reduce the transaction costs to participating clients. BGAN conducts aggregated transactions in a manner designed to ensure that no participating client is favored over another client. Participating clients will obtain the average price per share for the security executed that day. To the extent the aggregated order is not filled in its entirety and when possible, securities purchased or sold in an aggregated transaction will be allocated on a random basis. Under certain circumstances, the amount of securities may be increased or decreased to avoid holding odd-lot or a small number of shares for particular clients.

Item 13 - REVIEW OF ACCOUNTS

- A. If you are participating in the Asset Management program, or ongoing retirement plan consulting you will be invited to participate in at least an annual review or as agreed by you and your Advisory Representative. You may request more frequent reviews and may set thresholds for triggering events that would cause a review to take place. Your Advisory Representative will monitor for changes or shifts in the economy, changes to the management and structure of a mutual fund or company in which your assets are invested, and market shifts and corrections.

If you are participating in Financial Planning and Consulting Services you will not receive regular reviews. BGAN recommends you have at least an annual review and update to any plans. However, the time and frequency of the reviews is solely your decision. Additionally, you will be charged review fees based on the fee schedule disclosed under the program. Other than the initial plan or analysis, there will be no other reports issued.

Your Advisory Representative that you have selected will conduct your account review. Please refer to your Advisory Representative’s Form ADV Part 2B for important biographical information.

- B. You must notify your Advisory Representative promptly of any changes to your financial goals, objectives or financial situation as such changes may require him review the portfolio allocation and make recommendations for changes.

- C. You will be provided statements at least quarterly direct from the account custodian. Additionally, you will receive confirmations of all transactions occurring direct from the account custodian.

Item 14 - CLIENT REFERRALS AND OTHER COMPENSATION

- A. Product and service vendors recommended by BGAN can provide monetary and non-monetary assistance with client events, provide educational tools and resources. BGAN does not select products as a result of any monetary or non-monetary assistance. The selection of product is first and foremost. BGAN's due diligence of a product does not take into consideration any assistance it may receive. Additionally, those Advisory Representatives who are registered representatives have incentives and benefits offered by the broker/dealer enabling them to attend certain events and have the costs covered by the broker/dealer. The qualification for events and incentives or benefits is based on overall production with the broker/dealer or tenure. This is a conflict of interest for the Advisory Representative to recommend business be directed through the broker/dealer. To mitigate this conflict of interest this disclosure is provided.

BGAN has entered into a solicitor agreement with another investment adviser to act in the capacity of a solicitor to refer certain clients to the investment adviser for advisory services and programs not offered by BGAN. As a result of referring a client to the investment adviser, BGAN will receive a portion of the advisory fee paid by the referred client. This is a conflict of interest since BGAN has a direct interest in the client engaging the investment adviser. A portion of the advisory fee received by BGAN will be paid to the BGAN Advisory Representative. Clients will be provided with a Solicitor Disclosure explaining the arrangement and the receipt of compensation and the effect on the amount of fee paid by the client as a result of BGAN sharing in a portion of the advisory fee. To mitigate this conflict of interest, BGAN is informing you of this relationship.

As stated under Item 4 above, Advisory Representatives are independent contractors. As such, the Advisory Representatives have a direct incentive in the advisory fees being charged since a portion of the advisory fee collected by BGAN will be paid to the Advisory Representative for compensation for advisory services. In other words, Advisory Representatives are not salaried, but instead, share in the fees charged to you by BGAN. Further, clients are advised that the amount paid by BGAN to the Advisory Representative will be based on the production of the Advisory Representative. Therefore, the higher sales the Advisory Representative produces the more compensation the Advisory Representative will receive. Consequently, since production is a basis for determining the Advisory Representative's payout, and since a portion of the advisory fees will be retained by BGAN, there is a conflict of interest for the Advisory Representative to charge the maximum fee as disclosed under Item 5 above.

TD Ameritrade Important Information

As disclosed under Item 12 above, Advisor participates in TD Ameritrade's institutional customer program and Advisor may recommend TD Ameritrade to Clients for custody and brokerage services. There is no direct link between Advisor's participation in the program and the investment advice it gives to its Clients, although Advisor receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail

Beacon Global Advisor Network, LLC

investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving Advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to Advisor by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by Advisor's related persons. Some of the products and services made available by TD Ameritrade through the program may benefit Advisor but may not benefit its Client accounts. These products or services may assist Advisor in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help Advisor manage and further develop its business enterprise. The benefits received by Advisor or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, Advisor endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by Advisor or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the Advisor's choice of TD Ameritrade for custody and brokerage services.

- B. BGAN does not directly or indirectly compensate any person who is not a supervised person of BGAN for referrals.

Item 15 - CUSTODY

BGAN does not take custody of your funds or securities, except:

- BGAN will be deemed to have custody in certain situations involving standing letters of authorization and if you give us authority to transfers funds or securities between your accounts.
- BGAN will be deemed to have custody with the deduction of BGAN's advisory fees from your accounts.

Clients will receive account statements direct from the broker/dealer or account custodian reflecting the deduction of BGAN's advisory fee. Clients should carefully review statements received from the broker/dealer or account custodian. Further, clients should compare any written report received from BGAN with statements received direct from the broker/dealer or account custodian. Should there be any discrepancy the account custodian's report will prevail.

Under government regulations, we are deemed to have custody of your assets if, for example, you authorize us to instruct your account custodian to deduct our advisory fees directly from your account or if you grant us authority to move your money to another person's account. Your account custodian maintains actual custody of your assets. You will receive account statements directly from your account custodian at least quarterly. They will be sent to the email or postal mailing address you provided. You should carefully review those statements promptly when you receive them.

Item 16 - INVESTMENT DISCRETION

Unless you specifically elect to have your account managed on a non-discretionary basis, your account will be managed on a discretionary basis. Discretionary authority authorizes BGAN and your Advisory Representative the authority to buy, sell, exchange and convert securities in your managed accounts and to engage, terminate, or replace Third-Party Service Providers. You will grant such authority by execution of the client advisory agreement. You may terminate discretionary authorization at any time upon receipt of written notice by BGAN.

Discretionary authority will be limited to BGAN and your Advisory Representative having the authority to determine the securities to be bought or sold for a client's account, the amount of securities to be bought or sold for a client's account, and the Third-Party Service Providers on your account.

Additionally, you are advised that:

- 1) You may set parameters with respect to when account should be rebalanced and set trading restrictions or limitations;
- 2) Your written consent is required to establish any mutual fund, variable annuity, or brokerage account;
- 3) With the exception of deduction of BGAN's advisory fees from the account, if you have authorized automatic deductions, BGAN will not have the ability to withdraw your funds or securities from the account.
- 4) BGAN will not have authority to remove or transfer funds or assets out of your account without your authorization with the exception of deduction of advisory fees from your account

Item 17 - VOTING CLIENT SECURITIES

BGAN does not vote your securities. Unless you suppress proxies, securities proxies will be sent directly to you by the account custodian or transfer agent. You may contact BGAN about questions you may have and opinions on how to vote the proxies. However, the voting and how you vote the proxies is solely your decision.

Item 18 - FINANCIAL INFORMATION

- A. BGAN will not require you to prepay more than \$1,200 and six or more months in advance of receiving the advisory service.
- B. As stated above, BGAN has discretionary authority over client accounts; however, that authority does not extend to the withdrawal of any client assets, with the exception of deduction of BGAN's advisory fees from your accounts. We are financially stable. There is no financial condition that is likely to impair our ability to meet our contract actual commitment to you or any other client.
- C. Neither BGAN nor any of its Advisory Representatives has ever been the subject of a bankruptcy petition.
