Part 2A of Form ADV: Firm Brochure

December 3, 2018

This brochure provides information about the qualifications and business practices of CDKV Holdings, LLC DBA Steele Street Private Wealth Management (“SSPWM”). If you have any questions about the contents of this brochure, please contact us at 720-628-5544. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission (“SEC”) or by any state securities authority. SSPWM is a Registered Investment Adviser. Registration as an Investment Adviser with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Additional information about SSPWM is available on the SEC’s website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as an IARD number. The IARD number for SSPWM is #299856.

ITEM 2 – MATERIAL CHANGES

This section of the Brochure will address only those “material changes” that have been incorporated since our last delivery or posting of this document on the SEC’s public disclosure website (IAPD) www.adviserinfo.sec.gov.

There are no material changes to report at this time as this is our initial filing.

If you would like another copy of this Brochure, please download it from the SEC Website as indicated above or you may contact our Chief Compliance Officer, Daniel Katz, dkatz@steeletpwm.com or 720-628-5544.

We encourage you to read this document in its entirety.

ITEM 4 – ADVISORY BUSINESS

This Disclosure document is being offered to you by Steele Street Private Wealth Management (“SSPWM” or “Firm”) about the investment advisory services we provide. It discloses information about our services and the way those services are made available to you, the client.

Our Firm was registered as an Investment Adviser in January 2019 and is owned by Daniel Katz and Casey Vader.

We are committed to helping clients build, manage, and preserve their wealth, and to provide guidance that helps clients to achieve their stated financial goals. We specialize in retirement investing and income generation. We will offer an initial complimentary meeting upon our discretion; however, investment advisory services are initiated only after you and SSPWM execute an Investment Management Agreement.

Investment Management Services

We manage advisory accounts on a discretionary and non-discretionary basis. Once we determine a client’s profile, income need, and investment plan, we execute the day-to-day transactions with or without prior consent, depending on the client’s agreement with our Firm. Account supervision is guided by the client’s written profile and investment plan. We may accept accounts with certain restrictions if circumstances warrant. We primarily allocate client assets among various equities, Exchanged Traded Funds (“ETFs”), mutual funds and debt securities in accordance with their stated investment objectives and income needs.

In personal discussions with clients, we determine their objectives, time horizons, risk tolerance and liquidity and income needs. As appropriate, we also review their prior investment history, as well as family composition and background. Based on client needs, we develop the client’s personal profile and investment plan. We then create and manage the client’s investments based on that policy and plan. It is the client’s obligation to notify us immediately if circumstances have changed with respect to their goals and income needs.

Once we have determined the appropriate strategy for clients or client businesses and executed the strategy, we will provide ongoing investment review and management services. This approach requires us to periodically review client portfolios.

With our discretionary relationships, we will make changes to the portfolio, as we deem appropriate, to meet your financial objectives. We trade these portfolios based on the

combination of our market views and your objectives, using our investment process. We tailor our advisory services to meet the needs of our clients and seek to ensure that your portfolio is managed in a manner consistent with those needs and objectives. You will have the ability to leave standing instructions with us to refrain from investing in particular industries or invest in limited amounts of securities.

Clients may engage us to advise on certain investment products that are not maintained at their primary custodian, such as annuity contracts and assets held in employer sponsored retirement plans and qualified tuition plans (i.e., 529 plans).

You are advised and are expected to understand that our past performance is not a guarantee of future results. Certain market and economic risks exist that adversely affect an account's performance. This could result in capital losses in your account.

Financial Planning

While we will work with all clients to understand their financial objectives, we will not present a formal financial plan to all of them. Through the financial planning process, our team strives to engage our clients in conversations around the family's goals, objectives, priorities, vision, and legacy – both for the near term as well as for future generations. With the unique goals and circumstances of each family in mind, our team may offer financial planning ideas and strategies to address the client's holistic financial picture, including estate, income tax, charitable, cash flow and retirement income, wealth transfer and family legacy objectives. Our team partners with our client's other advisors (CPA, estate attorney, insurance broker, etc.) to ensure a coordinated effort of all parties toward the client's stated goals. Such services include various reports on specific goals and objectives or general investment and/or planning recommendations, guidance to outside assets and periodic updates.

We have established a relationship with Kristi Sullivan with Sullivan Financial Planning, a State Registered Investment Advisor. Sullivan Financial Planning provides financial planning services for clients on a per project basis. Sullivan Financial Planning bills our firm an hourly fee for planning services.

Sullivan Financial Planning's specific services in preparing a client's formal financial plan may include:

- Review and clarification of financial goals;
- Assessment of overall financial position including cash flow and income, balance sheet, investment strategy, risk management and estate planning;

- Creation of a unique plan for each goal, including personal and business real estate, education, retirement, financial independence, charitable giving, estate planning, business succession and other personal goals;
- Development of a goal-oriented investment and income plan, with input from various advisors to our clients around tax strategy, asset allocation, asset location, expenses, risk and liquidity factors for each goal. This includes IRA and qualified plans, taxable and trust accounts that require special attention.
- Design of a risk management plan including risk tolerance, risk avoidance, mitigation and transfer, including liquidity as well as various insurance and possible company benefits; and
- Crafting and implementation of, in conjunction with your estate and/or corporate attorneys as tax advisor, an estate plan to provide for you and/or your heirs in the event of an incapacity or death.

Referrals to Third Party Money Managers

Our firm utilizes the services of a third party money manager for the management of client accounts. Investment advice and trading of securities will only be offered by or through the chosen third party money manager. Our firm will not offer advice on any specific securities or other investments in connection with this service. Prior to referring clients, our firm will provide initial due diligence on third party money managers and ongoing reviews of their management of client accounts. In order to assist in the selection of a third party money manager, our firm will gather client information pertaining to financial situation, investment objectives, and reasonable restrictions to be imposed upon the management of the account.

Our firm will periodically review third party money manager reports provided to the client at least annually. Our firm will contact clients from time to time in order to review their financial situation and objectives; communicate information to third party money managers as warranted; and, assist the client in understanding and evaluating the services provided by the third party money manager. Clients will be expected to notify our firm of any changes in their financial situation, investment objectives, or account restrictions that could affect their financial standing.

Retirement Plan Advisory Services

For employer-sponsored retirement plans with participant-directed investments, we provide advisory services as an investment advisor as defined under Section 3(38) of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

When serving as an ERISA 3(38) investment manager, the plan sponsor is relieved of all fiduciary responsibility for the investment decisions made by our firm. We are the

discretionary investment manager in accordance with the terms of a separate ERISA 3(38) Investment Management Agreement between our firm and the plan sponsor. Our investment management is limited in that it has the discretion solely to replace funds in plan fund lineups and initiate the transfer of existing balances to the replacements without prior approval from the client.

We provide the following services to the plan sponsor:

- Select the investments.
- Monitor the investments and replace investments when appropriate.
- Provide a quarterly monitoring report.
- Develop a customized IPS.

Our goal in identifying the plan's investment options is to provide a range of options that will enable plan participants to invest according to varying risk tolerances, savings time horizons or other financial goals. The plan's investment options may consist of ETFs, CITs, mutual funds, model portfolios, or other similar investment funds. The investment funds from which our Firm will select from will be those that are available on the plan record-keeper's investment platform.

Retirement Plan Advisory Services consists of helping employer plan sponsors to establish, monitor and review their company's retirement plan. As the needs of the plan sponsor dictate, areas of advising could include: investment selection and monitoring, plan structure, and participant education.

We will provide quarterly recommendations for the plan's investment allocation. Upon receipt we will review the investment options and provide positions for accounts in accordance with the management style chosen by the client. Analysis is provided for each fund held by the Plan. A report shows historical performance, asset allocation, and the performance of each fund, including its performance in comparison to its appropriate benchmark. The report also contains information regarding each Fund's managers, capitalization, investment style, expenses, portfolio composition and other qualitative factors relevant to the Fund's performance and adherence to the Plan's Investment Policy Statement. Clients are responsible for making the fund changes within the account.

Participant Level Education

We can also be engaged to provide financial education to plan participants. The scope of education provided to participants will not constitute "investment advice" within the meaning of ERISA and participant education will relate to general principles for investing and information about the investment options currently in the plan. We may also

participate in initial enrollment meetings and periodic workshops and enrollment meetings for new participants. We may meet with plan participants on a regular basis (quarterly, semi-annually or annually) as agreed upon at the Client's discretion to discuss the reports and investment recommendations.

Consulting Services

We provide investment advice on isolated areas of concern such as estate planning, real estate, retirement planning, or any other specific topic. Additionally, we provide non-securities advice related to estate planning, insurance, real estate, and annuity. We also provide advisory & consulting services for equity or debt investments in privately held businesses. In these cases, you will be required to select your own investment managers, custodians, and insurance companies to implement consulting recommendations. If you need brokerage and/or other financial services, we will recommend one of several investment managers, brokers, banks, custodians, insurance companies or other financial professionals ("Firms"). You must independently evaluate these Firms before opening an account or transacting business and have the right to effect business through any firm you choose. You have the right to choose whether to follow the consulting advice that we provide.

Assets

Because this is our initial ADV filing, we do not have any assets under management to report.

ITEM 5 - FEES AND COMPENSATION

Investment Management Fees and Compensation

Our Firm charges an advisory fee as compensation for providing Investment Management services on client accounts. These services include advisory services, investment supervision, and other account-maintenance activities. Our custodian charges custodial fees, redemption fees, retirement plan and administrative fees or commissions. See Additional Fees and Expenses below for additional details.

Our maximum investment advisory fees as a percentage of assets under management is 1.50%. The specific advisory fees are set forth in your Investment Advisory Agreement. Asset-based fees are billed quarterly in advance and calculated on the last business day of the prior quarter. For the initial quarterly period of engagement, the fee is calculated on a pro rata basis, from the day the assets are managed through the end of the quarter. The initial billing is in arrears based on the value of the assets at the end of the quarter. Our Firm will make fee adjustments if there is a deposit, addition, or withdrawal of \$10,000 or more to the client account.

There may be a possibility for price or account value discrepancies due to quarter-end transactions in an account. Dividends or trade date settlements may occur, and our third-party billing software may report a slight difference in account valuation at quarter end compared to what is reported on your Statement from the Custodian. Our firm has the ability to produce billing summaries, which can be provided upon request.

We may negotiate a lower advisory fee or have the right to waive the minimum fee. Fees may vary based on the size of the account, complexity of the portfolio, extent of activity in the account or other reasons agreed upon by us and the client. In certain circumstances, our fees and the timing of the fee payments may be negotiated.

Unless otherwise instructed by the Client, we will aggregate related client accounts for the purposes of determining the account size and annualized fee. The common practice is often referred to as “householding” portfolios for fee purposes and may result in lower fees than if fees were calculated on portfolios separately. Our method of householding accounts for fee purposes looks at the overall family dynamic and relationship. When applicable and noted in the Investment Management Agreement, concentrated stock positions may also be excluded from the fee calculation.

The independent qualified custodian holding your funds and securities will debit your account directly for the advisory fee and pay that fee to us. You will provide written authorization permitting the fees to be paid directly from your account held by the qualified custodian. At our discretion, you may pay the advisory fees directly to our Firm by check. Further, the qualified custodian agrees to deliver an account statement to you on a quarterly basis indicating all the amounts deducted from the account including our advisory fees.

Either party giving written or verbal notice to the other may cancel the Investment Advisory Agreement at any time for any reason. Notice given by the client shall be effective upon actual receipt by SSPWM at the address specified on the Investment Advisory Agreement or the then current address. The management fee will be pro-rated to the date of termination, for the quarter in which the cancellation notice was given and the unearned fee refunded to your account as indicated in your Agreement. Upon termination, you are responsible for monitoring the securities in your account, and we will have no further obligation to act or advise with respect to those assets. In the event of client’s death or disability, our Firm will continue management of the account until we are notified and given alternative instructions by an authorized party.

In no case are our fees based on, or related to, the performance of your funds or investments.

We will not require prepayment of more than \$1200 in fees per client, six (6) or more months in advance of providing any services.

Financial Planning & Consulting:

Our firm charges on an hourly or flat fee basis for financial planning and consulting services. The total estimated fee, as well as the ultimate fee charged, is based on the scope and complexity of our engagement with the client. The maximum hourly fee to be charged will not exceed \$250.00 per hour. Flat fees will not exceed \$5,000.00. The fee-paying arrangements for this service will be determined on a case- by-case basis and will be detailed in the signed consulting agreement. Clients will be invoiced directly for the fees. Our firm will not require a retainer exceeding \$1,200 when services cannot be rendered within 6 months.

Employer Sponsored Retirement Plan Services

For Retirement Plan Advisory Services compensation, we charge an annual fee as negotiated with the client and disclosed in the Employer Sponsored Retirement Plans Investment Advisory Agreement. The compensation method is explained and agreed upon in advance before any services are rendered. Asset based fees range from 0.20% to 1.00% annually and fixed fees range from \$500 - \$100,000 annually.

Plan advisory services begin with the effective date of the Employer Sponsored Retirement Plans Investment Advisory Agreement, which is the date you sign the Employer Sponsored Retirement Plans Investment Advisory Agreement. For that calendar quarter, fees will be adjusted pro rata based upon the number of calendar days in the calendar quarter that the Agreement was effective. Our fee is billed in arrears on the last business day of the calendar quarter or month as outlined in the Agreement. For Plans where our fee is billed to the custodian, the fee is deducted directly from the participant accounts. Written authorization permitting us to be paid directly from the custodial account is outlined in the Agreement.

Either party may terminate the Investment Advisory Agreement at any time upon immediate notice. You are responsible to pay for services rendered until the termination of the Agreement.

Consulting Fees

We provide consulting services for clients who need advice on a limited scope of work. We will negotiate consulting fees with you. Fees for Consulting Services will vary based on the extent and complexity of the consulting project. Fees will be billed as services are rendered. Either party may terminate the agreement. Upon termination, fees will be prorated to the date of termination and any unearned portion of the fee will be refunded to you as described in the Agreement.

Additional Fees and Expenses

In addition to the advisory fees paid to our Firm, clients also incur certain charges imposed by other third parties, such as broker-dealers, custodians, trust companies, banks and other financial institutions (collectively "Financial Institutions"). These additional charges include custodial fees, charges imposed by a mutual fund or ETF in a client's account, as disclosed in the fund's prospectus (e.g., fund management fees and other fund expenses), deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Our brokerage practices are described at length in Item 12, below. Neither our Firm nor its supervised persons accept compensation for the sale of securities or other investment products. Further, our firm does not share in any of these additional fees and expenses outlined above.

Administrative Services Provided by Tamarac

We have contracted Tamarac to utilize its technology platforms to support data reconciliation, performance reporting, fee calculation and billing, client database maintenance, quarterly performance evaluations, payable reports, and other functions related to the administrative tasks of managing client accounts. Due to this arrangement, Tamarac will have access to client information, but Tamarac will not serve as an investment adviser to our clients. SSPWM and Tamarac are non-affiliated companies. Tamarac charges our Firm an annual fee for each account administered by Tamarac. Please note that the fee charged to the client will not increase due to the annual fee SSPWM pays to Tamarac, the annual fee is paid from the portion of the management fee retained by our Firm.

ITEM 6 - PERFORMANCE BASED FEES AND SIDE-BY-SIDE MANAGEMENT

We do not charge advisory fees on a share of the capital appreciation of the funds or securities in a client account (so-called performance-based fees) nor engage in side-by-side management.

ITEM 7 – TYPES OF CLIENTS

We provide investment advice to individuals, high net individuals, employer sponsored retirement plans, institutions, estates and trusts. The minimum initial account value for opening an account with our firm is \$500,000.00; however, we may accept accounts for less than the minimum at our sole discretion.

ITEM 8 – METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

Investment Strategies, Philosophy, and Methodology

Overview

We seek to recommend investment strategies that will give a client a diversified portfolio consistent with the client's investment objective. The goal is to identify a client's risk tolerance, and then find construct portfolios with the maximum expected return for that level of risk. Third party money managers may be utilized to meet these objectives.

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

We utilize both fundamental and technical analysis. We gather our information from a broad array of financial resources including both sell-side and buy-side research, financial newspapers, magazines, research prepared by others, corporate rating services, company press releases, annual reports, prospectuses and filings with the Securities and Exchange Commission.

We determine how to allocate assets among the various asset classes based on the investment strategy chosen, prevailing economic conditions and our determination of where we are in the economic cycle. Potential risks and opportunities are weighed to determine to what degree the portfolio should be invested.

From time-to-time, market conditions may cause your account to vary from the established allocation. To remain consistent with the asset allocation guidelines established, your account is monitored on an ongoing basis and rebalanced to the original allocation, or if deemed beneficial, to a new allocation based on the then prevailing economic conditions and within the guidelines of the chosen investment strategy.

In addition to the rebalancing, overall market conditions and microeconomic factors that affect specific holdings in your account may trigger changes in allocation. Your account may also receive informal reviews more frequently.

Investment Philosophy

Prior to making recommendations, we determine your financial status, needs, time horizon, investment objectives, risk tolerance, and tax status. From this, we create an investor profile and general asset allocation target. While we believe asset allocation is a key factor affecting long term rate of return, we also believe fundamental research and securities selection are vital.

- **Active Manager Selection:**

We focus primarily on the people, processes, research, consistency, and culture rather than simply recent “high performance” or “track record.” In addition to direct discussions with managers and fund companies, we utilize outside data vendors, such as Morningstar, when analyzing active managers.

- **Passive Manager Selection:**

Passive investment vehicles, often in the form of ETFs, will be evaluated based on price, liquidity, optionality, the underlying index or process, and fund structure. We employ numerous passive vehicles in each asset class, allowing us to tax loss harvest without losing exposure to specific asset classes, styles, or sectors.

- **Individual Security Selection:**

Individual securities will be used to generate alpha (excess returns above an index or sector). The decision to allocate to a specific asset class, style, or sector is based on “top-down” or macroeconomic analysis. The selection of individual securities within each asset class, style, or sector is based on “bottom-up” or fundamental analysis. We seek to identify securities that are comparatively undervalued or are subject to price inefficiencies. We will often use both sell-side and buy-side research when researching individual securities. Furthermore, credit analysis is heavily used when selecting fixed income securities. Resources such as SEC EDGAR and MSRB EMMA are used to research specific credits. Sell side research will also be used when evaluating investments that are below investment grade (“junk” and “distressed” securities).

- **Private Placements for Certain Qualified Investors:**

For certain qualified investors, either qualified or accredited, we may recommend and monitor certain private placements. These investments will diversify the sources of return by allocating to various strategies, including hedge funds, private equity, and real estate. Our rigorous due diligence process includes both quantitative and qualitative reviews. Quantitative reviews will include an assessment of risks, return attribution, and performance benchmarking. Qualitative reviews include an assessment of the people, investment philosophy, investment process, portfolio construction, and risk management. A structural review will also be used to evaluate operational risks, legal and regulatory risks, and business risks.

As much as reasonably possible, we strive to:

- Diversify strategically with non-correlating assets.
- Balance between growth and value styles.
- Diversify globally.
- Rebalance as markets change.
- Manage for tax efficient returns wherever possible.

Third Party Manager Analysis

We seek to recommend investment strategies that will give a client a diversified portfolio consistent with the client's investment objective. We do this by analyzing the various securities, investment strategies, and third party management firms. The goal is to identify a client's risk tolerance, and then find a manager with the maximum expected return for that level of risk. We examine the experience, expertise, investment philosophies and past performance of independent third party managers in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We monitor the managers' underlying holdings, strategies, concentrations and leverage as part of our overall periodic risk assessment. Additionally, as part of our due-diligence process, we survey the managers' compliance and business enterprise risks.

A risk of investing with a third-party manager who has been successful in the past is that he/she may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a managers' portfolio, there is also a risk that the manager may deviate from the stated investment mandate or strategy of the portfolio, making it a less suitable investment for our clients. Moreover, as we do not control the managers' daily business and compliance operations, we may be unaware of the lack of internal controls necessary to prevent business, regulatory or reputational deficiencies.

SSPWM employs the following investments: exchange traded funds, mutual funds, fixed income, closed-end funds, alternative investments, and individual equities securities. Other strategies and securities may also be used for individual portfolios as necessary to meet investor objectives such as leveraged and non-leveraged closed end funds, exchange traded notes (ETNs), managed futures, real assets, oil and gas interests and covered call/put option writing. We may also utilize currency ETFs to diversify clients USD portfolio holdings. The previously mentioned investments shall have liquidity that is not less than quarterly subject to 90 days' notice to the Investment Manager. Private placements or limited partnerships typically have more limited liquidity, valuation is typically agreed upon for fee billing.

SSPWM will advise on other products which SSPWM deems appropriate in order to address the individualized needs, goals and objectives of the client, included but not limited to, private placements for certain qualified investors.

Risk of Loss

Clients must understand that past performance is not indicative of future results. Therefore, current and prospective clients should never assume that future performance of any specific investment or investment strategy will be profitable. Investing in securities involves risk of loss. Further, depending on the different types of investments there will

be varying degrees of risk. Clients and prospective clients should be prepared to bear investment loss including loss of original principal.

Because of the inherent risk of loss associated with investing, our Firm is unable to represent, guarantee, or even imply that our services and methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate you from losses due to market corrections or declines.

Investors should be aware that accounts are subject to the following risks:

- **Market Risk** — Even a long-term investment approach cannot guarantee a profit. Economic, political and issuer-specific events will cause the value of securities to rise or fall. Because the value of investment portfolios will fluctuate, there is the risk that you will lose money and your investment may be worth more or less upon liquidation.
- **Foreign Securities and Currency Risk** — Investments in international and emerging-market securities include exposure to risks such as currency fluctuations, foreign taxes and regulations, and the potential for illiquid markets and political instability.
- **Capitalization Risk** — Small-cap and mid-cap companies may be hindered as a result of limited resources or less diverse products or services, and their stocks have historically been more volatile than the stocks of larger, more established companies.
- **Interest Rate Risk** — In a rising rate environment, the value of fixed-income securities generally declines, and the value of equity securities may be adversely affected.
- **Credit Risk** — Credit risk is the risk that the issuer of a security may be unable to make interest payments and/or repay principal when due. A downgrade to an issuer's credit rating or a perceived change in an issuer's financial strength may affect a security's value and, thus, impact the fund's performance.
- **Securities Lending Risk** — Securities lending involves the risk that the fund loses money because the borrower fails to return the securities in a timely manner or at all. The fund could also lose money if the value of the collateral provided for loaned securities, or the value of the investments made with the cash collateral, falls. These events could also trigger adverse tax consequences for the fund.
- **Exchange-Traded Funds** — ETFs face market-trading risks, including the potential lack of an active market for shares, losses from trading in the

secondary markets and disruption in the creation/redemption process of the ETF. Any of these factors may lead to the fund's shares trading at either a premium or a discount to its "net asset value."

- Performance of Underlying Managers — We select the mutual funds and ETFs in our portfolios. However, we depend on the manager of such funds to select individual investments in accordance with their stated investment strategy.
- Liquidity Risk - Liquidity risk exists when particular investments would be difficult to purchase or sell, possibly preventing clients from selling such securities at an advantageous time or price.
- Limited Partnership ("LP") Risk. LPs are often marketed as investments that combine the tax benefits of limited partnerships with the liquidity of publicly traded securities. An investment in LP units, however, involves risks that differ from a similar investment in equity securities, such as common stock, of a corporation. Holders of LP units have the rights typically afforded to limited partners in a limited partnership. As compared to common shareholders of a corporation, holders of LP units have more limited control and limited rights to vote on matters affecting the partnership. Further, there are certain tax risks associated with an investment in LP units, as LP units are treated differently for tax purposes than common stock. Clients are advised to speak with their accountant to receive tax advice about LPs.

ITEM 9 - DISCIPLINARY INFORMATION

We do not have any legal, financial or other "disciplinary" item to report.

ITEM 10 - OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

We have no other industry activities and affiliations.

ITEM 11 - CODE OF ETHICS PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

We have developed and implemented a Code of Ethics that sets forth standards of conduct expected of our advisory personnel to mitigate this conflict of interest. The Code

of Ethics addresses, among other things, personal trading, gifts, and the prohibition against the use of inside information.

The Code of Ethics is designed to:

- protect our clients,
- detect and deter misconduct,
- educate personnel regarding the firm's expectations and laws governing their conduct,
- remind personnel that they are in a position of trust and must act with complete propriety at all times,
- protect the reputation of our Firm,
- guard against violation of the securities laws,
- establish procedures for personnel to follow so that we may determine whether their personnel are complying with the firm's ethical principles.

Our Firm and persons associated with us are allowed to invest for their own accounts or to have a financial investment in the same securities or other investments that we recommend or acquire for your account and may engage in transactions that are the same as transactions made in your account. We recognize the fiduciary responsibility to act in your best interest and have established policies to mitigate conflicts of interest.

We have established the following restrictions in order to ensure our firm's fiduciary responsibilities:

1. A director, officer or employee of SSPWM shall not buy or sell any securities for their personal portfolio(s) where their decision is substantially derived, in whole or in part, by reason of his or her employment unless the information is also available to the investing public on reasonable inquiry. No supervised employee of SSPWM shall prefer his or her own interest to that of the advisory client.
2. We maintain a list of all securities holdings of anyone associated with this advisory practice with access to advisory recommendations. These holdings are reviewed on a regular basis by an appropriate officer/individual of SSPWM.
3. We emphasize the unrestricted right of the client to decline to implement any advice rendered, except in situations where we are granted discretionary authority of the client's account.

4. We require that all supervised employees must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices.
5. Any supervised employee not in observance of the above may be subject to termination.

You may request a complete copy of our Code of Ethics by contacting us at the telephone number on the cover page of this Part 2; Attn: Chief Compliance Officer.

ITEM 12 – BROKERAGE PRACTICES

Clients must maintain assets in an account at a “qualified custodian,” generally a broker-dealer or bank. We generally recommend that our clients use Charles Schwab & Co., Inc. Advisor Services (“Schwab”), a registered broker-dealer, member SIPC, as the qualified custodian. We are independently owned and operated, and unaffiliated with Schwab. Schwab will hold client assets in a brokerage account and buy and sell securities as instructed. In some cases, our Firm may recommend that you establish accounts with a firm other than Schwab to maintain custody of your assets.

While we recommend that clients use Schwab as Custodian, client must decide whether to do so and open accounts with Schwab or any other custodian by entering into account agreements directly with them. The client opens the accounts directly with the Custodian. The accounts will always be held in the name of the client and never in SSPWM or the Advisors’ name.

How We Select Custodians

We seek to recommend a custodian/broker who will hold client assets and execute transactions on terms that are, overall, most advantageous when compared to other available providers and their services. We consider a wide range of factors, including, among others:

1. Combination of transaction execution services and asset custody services (generally without a separate fee for custody)
2. Capability to execute, clear, and settle trades (buy and sell securities for client accounts)
3. Capability to facilitate transfers and payments to and from accounts (wire transfers, check requests, bill payment, etc.)
4. Breadth of available investment products (stocks, bonds, mutual funds, exchange-traded funds [ETFs], etc.)

5. Availability of investment research and tools that assist us in making investment decisions
6. Quality of services
7. Competitiveness of the price of those services (commission rates, other fees, etc.) and willingness to negotiate the prices
8. Reputation, financial strength, and stability
9. Prior service to SSPWM and our other clients
10. Availability of other products and services that benefit us, as discussed below (see Products and Services Available to Us from Schwab)

Client Brokerage and Custody Costs

For our clients' accounts that Schwab maintains, Schwab generally does not charge separately for custody services. On occasion, a client may be charged fees to custody alternative investments held outside of Schwab. Schwab receives compensation by charging ticket charges or other fees on trades that it executes or that settle into clients' Schwab accounts. We have determined that having Schwab execute most trades is consistent with our duty to seek "best execution" of client trades. Best execution means the most favorable terms for a transaction based on all relevant factors, including those listed above (see How We Select Brokers/Custodians).

Products and Services Available to Us from Schwab

Schwab Advisor Services™ (formerly called Schwab Institutional®) is Schwab's business serving independent investment advisory firms like us. They provide SSPWM and our clients with access to its institutional brokerage, trading, custody, reporting, and related services, many of which are not typically available to Schwab retail customers. Schwab also makes available various support services. Some of those services help us manage or administer our clients' accounts; others help us manage and grow our business. Schwab's support services generally are available on an unsolicited basis (we do not have to request them) and at no charge to us. These are considered soft dollar benefits because there is an incentive to do business with Schwab. This creates a conflict of interest. We have established policies in this regard to mitigate any conflicts of interest. We believe that our selection of Schwab as custodian and broker is in the best interests of clients. SSPWM will at all times act in the best interest of their clients and act as a fiduciary in carrying out services to clients.

Following is a more detailed description of Schwab's support services:

Services That Benefit Our Clients

Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our clients. Schwab's services described in this paragraph generally benefit our clients and their accounts.

Services That May Not Directly Benefit Our Clients

Schwab also makes available to us other products and services that benefit us but may not directly benefit our clients or their accounts. These products and services assist us in managing and administering our clients' accounts. They include investment research, both Schwab's own and that of third parties. We may use this research to service all or a substantial number of our clients' accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that:

1. Provide access to client account data (such as duplicate trade confirmations and account statements)
2. Facilitate trade execution and allocate aggregated trade orders for multiple client accounts
3. Provide pricing and other market data
4. Facilitate payment of our fees from our clients' accounts
5. Assist with back-office functions, recordkeeping, and client reporting

Services That Generally Benefit Only Us

Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:

1. Educational conferences and events
2. Consulting on technology, compliance, legal, and business needs
3. Publications and conferences on practice management and business succession
4. Access to employee benefits providers, human capital consultants, and insurance providers

Schwab may provide some of these services itself. In other cases, it will arrange for third-party vendors to provide the services to us. Schwab may also discount or waive its fees for some of these services or pay all or a part of a third party's fees. Schwab may also

provide us with other benefits, such as occasional business entertainment of our personnel.

Our Interest in Schwab's Services

The availability of these services from Schwab benefits us because we do not have to produce or purchase them. These services are not contingent upon us committing any specific amount of business to Schwab in trading commissions. We believe that our selection of Schwab as custodian and broker is in the best interests of our clients.

Some of the products, services and other benefits provided by Schwab benefit SSPWM and may not benefit our client accounts. Our recommendation or requirement that you place assets in Schwab's custody may be based in part on benefits Schwab provides to us, or our agreement to maintain certain Assets Under Management at Schwab, and not solely on the nature, cost or quality of custody and execution services provided by Schwab.

We place trades for our clients' accounts subject to its duty to seek best execution and its other fiduciary duties. Schwab's execution quality may be different than other Custodians.

SSPWM annually reviews the relationship between Charles Schwab, SSPWM and the client in order to determine if the custodial relationship is in the best interest of the client.

Aggregation and Allocation of Transactions

We may aggregate transactions if we believe that aggregation is consistent with the duty to seek best execution for our clients and is consistent with the disclosures made to clients and terms defined in the client Investment Advisory Agreement. We may make trades in individual accounts (that are not aggregated with others) so that we may address that client's unique circumstances. No advisory client will be favored over any other client, and each account that participates in an aggregated order will participate at the average share price (per custodian) for all transactions in that security on a given business day.

We will aggregate trades for ourselves or our associated persons with your trades, providing that the following conditions are met:

1. Our policy for the aggregation of transactions shall be fully disclosed to our existing clients (if any) and the Custodian(s) through which such transactions will be placed;
2. We will not aggregate transactions unless we believe that aggregation is consistent with our duty to seek the best execution (which includes the duty

to seek best price) for you and is consistent with the terms of our Investment Advisory Agreement with you for which trades are being aggregated.

3. No advisory client will be favored over any other client; each client that participates in an aggregated order will participate at the average share price for all our transactions in a given security on a given business day, with transaction costs based on each client's participation in the transaction;
4. We will prepare a written statement ("Allocation Statement") specifying the participating client accounts and how to allocate the order among those clients;
5. If the aggregated order is filled in its entirety, it will be allocated among clients in accordance with the allocation statement; if the order is partially filled, the accounts that did not receive the previous trade's positions should be "first in line" to receive the next allocation.
6. Notwithstanding the foregoing, the order may be allocated on a basis different from that specified in the Allocation Statement if all client accounts receive fair and equitable treatment and the reason for difference of allocation is explained in writing and is reviewed by our compliance officer. Our books and records will separately reflect, for each client account, the orders of which aggregated, the securities held by, and bought for that account.
7. We will receive no additional compensation or remuneration of any kind as a result of the proposed aggregation; and
8. Individual advice and treatment will be accorded to each advisory client.

Trade Errors

We have implemented procedures designed to prevent trade errors; however, trade errors in client accounts cannot always be avoided. Consistent with our fiduciary duty, it is our policy to correct trade errors in a manner that is in the best interest of the client. In cases where the client causes the trade error, the client will be responsible for any loss resulting from the correction. Depending on the specific circumstances of the trade error, the client may not be able to receive any gains generated as a result of the error correction. In all situations where the client does not cause the trade error, the client will be made whole and we will absorb any loss resulting from the trade error if the error was caused by the firm. If the error is caused by the custodian or our trading platform provider, the custodian or trading platform provider will be responsible for covering all trade error costs. If an investment gain results from the correcting trade, the gain will be donated to charity. We will never benefit or profit from trade errors.

We do not routinely recommend, request or require that you direct us to execute transaction through a specified broker dealer. Additionally, we typically do not permit you

to direct brokerage. We place trades for your account subject to our duty to seek best execution and other fiduciary duties.

ITEM 13 – REVIEW OF ACCOUNTS

Account Reviews and Reviewers – Investment Supervisory Services

Our Investment Adviser Representatives will monitor client accounts on at least a quarterly basis and perform reviews with each client annually or as often as is agreed upon by the client and our firm. All accounts are reviewed for consistency with client investment strategy, asset allocation, risk tolerance and performance relative to the appropriate benchmark. More frequent reviews may be triggered by changes in an account holder's personal, tax or financial status. Geopolitical and macroeconomic specific events may also trigger reviews. Clients may request a review at any time.

Statements and Reports

The custodian for the individual client's account will provide clients with an account statement at least quarterly. At least quarterly, clients receive a SSPWM-prepared written report detailing their current positions, asset allocation, and year-to-date performance. You are urged to compare the reports and invoices provided by our firm against the account statements you receive directly from your account custodian.

ITEM 14 – CLIENT REFERRALS AND OTHER COMPENSATION

Our firm pays referral fees (non-commission based) to independent solicitors (non-registered representatives) for the referral of their clients to our firm in accordance with Rule 206 (4)-3 of the Investment Advisers Act of 1940. Such referral fee represents a share of our investment advisory fee charged to our clients. This arrangement will not result in higher costs to the referred client. In this regard, our firm maintains Solicitors Agreements in compliance with Rule 206 (4)-3 of the Investment Advisers Act of 1940 and applicable state and federal laws. All clients referred by Solicitors to our firm will be given full written disclosure describing the terms and fee arrangements between our firm and Solicitor(s). In cases where state law requires licensure of solicitors, our firm ensures that no solicitation fees are paid unless the solicitor is registered as an investment adviser representative of our firm. If our firm is paying solicitation fees to another registered investment adviser, the licensure of individuals is the other firm's responsibility.

ITEM 15 – CUSTODY

Custody has been defined by regulators as having access or control over client funds and/or securities. Our firm does not have physical custody of funds or securities, as it applies to investment advisors.

Deduction of Advisory Fees

Our firm has custody of the funds and securities solely as a consequence of its authority to make withdrawals from client accounts to pay its advisory fee. For all accounts, our firm has the authority to have fees deducted directly from client accounts. Our firm has established procedures to ensure all client funds and securities are held at a qualified custodian in a separate account for each client under that client's name. Clients or an independent representative of the client will direct, in writing, the establishment of all accounts and therefore are aware of the qualified custodian's name, address and the manner in which the funds or securities are maintained. Finally, account statements are delivered directly from the qualified custodian to each client, or the client's independent representative, at least quarterly. You should carefully review those statements and are urged to compare the statements against reports received from our Firm. When you have questions about your account statements, you should contact our Firm or the qualified custodian preparing the statement. Please refer to Item 5 for more information about the deduction of adviser fees.

Standing Letters of Authorization ("SLOA")

Our firm is deemed to have custody of clients' funds or securities when clients have standing authorizations with their custodian to move money from a client's account to a third-party ("SLOA") and, under that SLOA, it authorizes us to designate the amount or timing of transfers with the custodian. The SEC has set forth a set of standards intended to protect client assets in such situations, which we follow. We do not have a beneficial interest on any of the accounts we are deemed to have Custody where SLOAs are on file. In addition, account statements reflecting all activity on the account(s), are delivered directly from the qualified custodian to each client or the client's independent representative, at least quarterly. You should carefully review those statements and are urged to compare the statements against reports received from us. When you have questions about your account statements, you should contact us, your Advisor or the qualified custodian preparing the statement.

ITEM 16 – INVESTMENT DISCRETION

For discretionary accounts, prior to engaging our Firm to provide investment advisory services, you will enter a written Agreement with us granting the firm the authority to

supervise and direct, on an on-going basis, investments in accordance with the client's investment objective and guidelines. In addition, you will need to execute additional documents required by the Custodian to authorize and enable SSPWM, in its sole discretion, without prior consultation with or ratification by you, to purchase, sell or exchange securities in and for your accounts. We are authorized, in our discretion and without prior consultation with you to: (1) buy, sell, exchange and trade any stocks, bonds or other securities or assets and (2) determine the amount of securities to be bought or sold and (3) place orders with the custodian. Any limitations to such discretionary authority will be communicated to our Firm in writing by you, the client.

The limitations on investment discretion held by SSPWM for you are:

1. For discretionary accounts, we require that we be provided with authority to determine which securities and the amounts of securities to be bought or sold.
2. Any limitations on this discretionary authority shall be in writing. You may change/amend these limitations as required.

ITEM 17 - VOTING CLIENT SECURITIES

Our firm does not accept the proxy authority to vote client securities. Clients will receive proxies or other solicitations directly from their custodian or a transfer agent. In the event that proxies are sent to our firm, our firm will forward them to the appropriate client and ask the party who sent them to mail them directly to the client in the future. Clients may call, write or email us to discuss questions they may have about particular proxy votes or other solicitation.

ITEM 18 – FINANCIAL INFORMATION

We do not require or solicit prepayment of more than \$1200 in fees per client, six months or more in advance. Therefore, we are not required to include a balance sheet for our most recent fiscal year. We are not subject to a financial condition that is reasonably likely to impair our ability to meet contractual commitments to clients. Finally, we have not been the subject of a bankruptcy petition at any time.
