Item 4 – Advisory Business

Boyne Capital Management, LLC (together with its fund general partner, relying adviser and affiliates, unless the context otherwise denotes, “Boyne Capital” or the “Firm”), a Delaware limited liability company, is a middle-market private equity firm based in Miami, Florida. Boyne Capital Management, LLC’s relying adviser, Boyne Capital Advisors, LLC, is also an investment adviser subject to Boyne Capital Management, LLC’s registration in accordance with SEC guidance. Boyne Capital Management, LLC commenced operations in 2014 and Boyne Capital Advisors, LLC commenced operations in 2006.

Boyne Capital Management, LLC and Boyne Capital Advisors, LLC collectively operate as a single advisory business: the advisers manage and provide investment advisory services solely to private funds that are qualified clients; Boyne Capital’s principal office and place of business is in the United States; Boyne Capital Advisors, LLC and the persons acting on its behalf are subject to Boyne Capital Management, LLC’s supervision and control; the advisory activities of both Boyne Capital Management, LLC and Boyne Capital Advisors, LLC are subject to the Advisers Act; and Boyne Capital Management, LLC and Boyne Capital Advisors, LLC operate under a single code of ethics administered by a single chief compliance officer.

Boyne Capital serves as the investment adviser for, and provides discretionary investment advisory services to special purpose vehicles created to invest in one or more portfolio companies (“Co-Investment Funds”) and to the following comingled private funds: Boyne Capital Fund I, LP, whose investors were limited to certain affiliates and friends of Boyne Capital; BCM Fund I, LP; and BCM Fund I-A, LP (together the “Main Funds” and collectively with the Co-Investment Funds, unless the context otherwise denotes, the “Funds”). Each Fund is affiliated with a general partner (“General Partner”) with authority to make investment decisions on behalf of the Funds. These General Partners are deemed registered under the Investment Advisers Act of 1940, as amended, and the rules and regulations promulgated thereunder (“Advisers Act”), pursuant to Boyne Capital’s registration in accordance with SEC guidance. While the General Partners maintain ultimate authority over the respective Funds, Boyne Capital has been designated the role of investment adviser. For more information about the Funds, General Partners and relying adviser, please see Boyne Capital’s Form ADV Part 1, Schedule D, Section 7.A., Section 7.B.(1) and Schedule R.

Boyne Capital provides investment advisory services as a private equity fund manager to its Funds. Interests in the Funds are privately offered to qualified investors in the United States and elsewhere. The Funds invest through privately negotiated transactions in operating companies in the lower middle-market. Boyne Capital’s investment advisory services to the Funds consist of identifying and evaluating investment opportunities and negotiating the terms of purchase and sale of investments. Investments are made predominantly in nonpublic companies, although investments in public companies are permitted in certain instances. When such investments consist of portfolio companies, the senior principals or other personnel and, on occasion, third parties appointed by Boyne Capital,

will generally serve on such portfolio companies' respective boards of directors or otherwise act to influence control over management of portfolio companies held by the Funds.

The Firm's investment advice and authority for each Fund is tailored to the investment objectives of that Fund; Boyne Capital does not tailor its advisory services to the individual needs of investors in its Funds. These objectives are described, as applicable, in the private placement memorandum, limited partnership agreement, investment advisory agreements, side letter agreements and other governing documents of the relevant Fund (collectively, "Governing Documents"). The Firm does not seek or require investor approval regarding each investment decision.

Fund investors generally cannot impose restrictions on investing in certain securities or types of securities, other than through side letter agreements. Investors in the Funds participate in the overall investment program for the applicable Fund and generally cannot be excused from a particular investment except pursuant to the terms of the applicable Governing Documents. Boyne Capital has entered into side letters or similar agreements with certain investors including those who make substantial commitments of capital or were early-stage investors in the Funds, or for other reasons in the sole discretion of Boyne Capital in each case that have the effect of establishing rights under, or altering or supplementing, a Fund's Governing Documents. Such rights include, but are not limited to: advisory committee representation, use of alternative investment vehicles, notification provisions and reporting requirements, among others. Side letters are negotiated at the time of the relevant investor's capital commitment and once invested in a Fund, investors generally cannot impose additional investment guidelines or restrictions on such Fund.

Boyne Capital Management, LLC is owned by Derek McDowell and Adam Herman; Boyne Capital Advisors, LLC is owned by Derek McDowell. More information about Boyne Capital's owners and executive officers is available in Boyne Capital's Form ADV Part 1, Schedule A and Schedule R. As of March 31, 2019, Boyne Capital managed approximately \$244,143,000 in Fund regulatory assets, all managed on a discretionary basis. Boyne Capital does not manage any investments on a non-discretionary basis.

Item 5 – Fees and Compensation

Boyne Capital receives a management fee and its affiliated General Partners are allocated carried interest as compensation for providing investment advisory services to the Funds. The following is a general description of fees and compensation of the Funds. Differences exist from Fund to Fund, and certain Funds do not charge certain fees, compensation or expenses that other Funds charge or may charge them in different amounts. Boyne Capital entities or affiliates receive additional compensation in connection with management and other services performed for portfolio companies of the Funds, as described more fully below. Such additional compensation generally may reduce in whole or in part the management fees otherwise payable to Boyne Capital. Investors in the Funds also bear certain expenses, as described below. Investors should refer to the Governing Documents of the applicable Fund for a complete understanding of how Boyne Capital is compensated for its

advisory services; the information contained herein is a summary only and is qualified in its entirety by such documents.

Management Fees

Main Funds

Boyne Capital generally charges investors in the Main Funds a management fee (the “Management Fee”) of 2% per annum of non-affiliated investors’ percentage of the aggregate commitments, assessed quarterly in advance. Generally, Management Fees are initially calculated based upon each investor’s committed capital for the period of time during which each Fund is making investments; thereafter, the Management Fee will be equal to a percentage of each investor’s invested capital, subject to various other factors. All Management Fees were negotiated with the Fund’s investors during the fundraising period of the applicable Fund and are not subject to negotiation thereafter. Boyne Capital Fund I, LP is no longer paying Management Fees, therefore discussion of Management Fees herein refers to Management Fees incurred by investors in BCM Fund I, LP and BCM I-A, LP.

The General Partners are permitted, in their sole discretion, to reduce or waive all or a portion of the Management Fee. Management Fees may differ from one Fund to another, as well as among investors in the same Fund. Such differences can arise from the size of an investor’s commitment to a Fund, different investor classes, provisions of side letter agreements or other negotiated terms. Fees are generally waived for Boyne Capital employees, affiliates and their respective families investing in a Fund. Similarly, investors in a Co-Investment Fund generally pay a reduced Management Fee, or no Management Fee, on the portion of their investment attributable to such Co-Investment Fund.

Management Fees are generally reduced for BCM Fund I, LP and BCM Fund I-A, LP by (i) any placement fees paid, (ii) if applicable, costs incurred by Boyne Capital in connection with the organization of such Fund that exceed the limit as specified in such Fund’s Governing Documents; and (iii) certain supplemental fees and compensation with respect to portfolio investments, including transaction, directors’, consulting, management, investment banking, advisory, closing, topping, break-up and other similar fees, the amount of which are paid by the applicable Fund (directly, or indirectly by the portfolio companies) and are determined by Boyne Capital on a transaction by transaction basis, subject to the terms set forth in each Fund’s Governing Documents.

The Management Fee for BCM Fund I, LP and BCM Fund I-A, LP will be reduced (i) by 100% of any break-up fees paid to the Management Company with respect to any Fund transactions not completed and 100% of any directors fees paid to the Management Company with respect to any Fund investment, and (ii) by 50% of transaction and monitoring fees after the aggregate amount of such transaction fees and monitoring fees paid to the Management Company with respect to any Fund investment during any calendar year exceeds \$2 million (the “Threshold Amount”), *provided, however*, that following the date on which Management Fees are first payable in respect of a successor fund, the Threshold Amount shall not apply and 50% of the transaction fees and monitoring fees paid to

the Management Company with respect to any Fund investment shall reduce the Management Fee). Any such reduction of BCM Fund I, LP and BCM Fund I-A, LP's Management Fee is typically limited to the extent of the Fund's proportionate interest in any such portfolio company and only to the extent a Management Fee is payable by such Fund currently or in the future. Any amount received by the Management Company or other person from a portfolio company as reimbursement for out-of-pocket expenses directly related to such portfolio company, as payment for services provided to any portfolio company in the ordinary course of such portfolio company's business or as compensation for services provided by a person as an employee of, or in a similar capacity for, such portfolio company do not reduce the Management Fee.

To the extent that the aggregate amount of fee offsets exceeds the Management Fee payable for such quarter, such excess offset shall be carried forward to reduce the Management Fees payable in the following quarterly periods. If a credit remains upon dissolution, a payment will be made to investors that have not elected to waive such amount for tax or other reasons. The amount and manner of such reduction is set forth in the relevant Governing Documents of the applicable Fund.

In addition, as per the provisions of the Governing Documents, Boyne Capital is permitted to waive, defer, or reduce all or a portion of the Management Fee payable by a Fund in full or partial satisfaction of any obligation of Boyne Capital and certain employees and affiliates of Boyne Capital to invest in and alongside such Fund, which could result in acceleration of investor capital contributions. Waived, deferred, or reduced Management Fees are not typically subject to the various offsets or reductions as described herein. Due to waived, deferred, or reduced Management Fees and/or the timing of receipt of fees subject to offsets, Fund investors could receive less than the full benefit of reductions or offsets.

Co-Investment Funds

Investors in the Co-Investment Funds may not pay Management Fees. However, the Co-Investment Funds, as applicable, may bear, directly or indirectly (through reimbursement to the Firm) certain other fees and expenses, such as annual audit and tax fees, fees for accounting services, state filing fees, estimated state tax payments and any other fees incurred on behalf of such Fund.

Carried Interest

The Fund General Partners are generally entitled to be allocated carried interest ("Carried Interest") with respect to their respective Fund. Such Carried Interest is generally equal to 20% of all realized profits net of all expenses in excess of an 8% compounded preferred return and catch-up provisions. Each Fund's Carried Interest arrangement differs and in some cases, particularly with regard to certain Co-Investment Funds, no Carried Interest may be applicable, either due to the expiration of time or negotiations with underlying investors. Each calculation as well as any clawback provisions are further described (i) in full detail in the relevant Fund's Governing Documents and (ii) more briefly in Item 6, below.

Manager Expenses

Boyne Capital and its affiliates are responsible for all of the day-to-day overhead expenses, including office expenses and compensation of its employees and partners.

Main Fund Expenses

Investors in the Main Funds are responsible for all costs, expenses, liabilities and obligations relating to the Fund's activities, investments and business (to the extent not borne or reimbursed by a portfolio company), which differ across Funds, including, without limitation, (i) all costs and expenses attributable to structuring, organizing, acquiring, holding, managing, operating, monitoring, financing, liquidating and disposing of the Fund's investments (including, without limitation, interest on money borrowed by a Fund or General Partner or Boyne Capital on behalf of a Fund, registration expenses and brokerage, finders', custodial and other fees), (ii) legal, accounting, auditing, consulting, financing, appraisal and other fees and expenses, (iii) expenses associated with the preparation of a Fund's financial statements, tax returns, Schedule K-1s and other reports or information to be delivered to investors (including, without limitation, costs of development and maintenance of a secure website and electronic reporting) and any administrative, regulatory or other reporting or filing directly attributable to a Fund, (iv) premiums for insurance protecting a Fund, General Partner, Boyne Capital, any of their respective affiliates, members of the advisory committee and any of their respective officers, directors, members, partners, employees and agents from liabilities to third parties in connection with a Fund's affairs, (v) expenses of the advisory committee incurred in accordance with the partnership agreement, (vi) extraordinary costs, expenses and liabilities of a Fund (including, without limitation, litigation and indemnification costs and expenses, judgments and settlements), (vii) generally, subject to the partnership agreement, all out-of-pocket fees and expenses incurred by a Fund or certain Boyne Capital affiliates relating to investment and disposition opportunities for the Fund which are not consummated by the Fund (including, without limitation, legal, accounting, auditing, consulting, and other third party fees and expenses, financing commitment fees, real estate title and appraisal costs, and other due diligence expenses), (viii) all unreimbursed out-of-pocket fees and expenses incurred by a Fund or certain Boyne Capital affiliates in connection with any conference or meeting of investors, (ix) the Management Fee, and (x) any taxes, fees and other governmental charges levied against a Fund, but not including (A) Organizational Expenses (defined below), (B) any placement fees, and (C) ordinary overhead and administrative expenses which are payable by the General Partner pursuant to the partnership agreement and (D) any expenses included as part of the definition of "Investment Contributions" as defined in the Governing Documents. For information on Boyne Capital's brokerage practices and fees, please see Item 12, below.

Co-Investment Fund Fees and Expenses

As described above, in certain circumstances, Boyne Capital permits certain investors to co-invest in investments alongside one or more Funds, subject to Boyne Capital's related policies and procedures, the relevant Governing Documents and/or side letter(s) or similar arrangements. In certain cases, such investment will take the form of a direct co-investment in the portfolio company while in other

cases the investment will be made through a dedicated co-investment vehicle. When co-investments are not made through a Fund, any compensation received in connection with a co-investment does not arise out of the investment activities of a Fund or actions taken directly or indirectly by Boyne Capital on behalf of such Fund and, therefore, none of such fees and other co-investor-related compensation reduces the Management Fee paid by such Fund. Where a Co-Investment Fund is formed, such entity will bear expenses related to its formation and operation, many of which are similar in nature to those borne by the Funds.

If a proposed transaction is not consummated, a Co-Investment Fund generally will not have been formed, and the full amount of any fees and expenses relating to such proposed but not consummated transaction (“broken deal expenses”) therefore would generally be borne by the Fund or Funds selected as proposed investors for such proposed transaction and not by any prospective co-investors, that were to have participated in such transaction. However, to the extent that such co-investors have already invested in a Co-Investment Fund or other vehicle in connection with such transaction or are contractually committed to invest in such Co-Investment Fund or other vehicle, such vehicle is expected to bear its share of such broken deal expenses.

Offering and Organizational Expenses

Each investor will bear its pro rata share of a Fund’s organizational expenses, as applicable, including travel, printing, legal, capital raising, filing, accounting, regulatory compliance and any other administrative or other filings) incurred (“Organizational Expenses”), but not including placement fees, if any. The Organizational Expense cap for BCM Fund I, LP and BCM Fund I-A, LP was \$750,000; any amounts in excess of such amount will be borne by Boyne Capital (either through an offset dollar for dollar against Management Fees or otherwise).

Third Party Professional Fees and Expenses

Boyne Capital has engaged the services of an operating executive to assist with managing a Fund portfolio company. This third party professional has been engaged directly by the Fund portfolio company and any compensation for services rendered is paid by such portfolio company. The third-party professional may, from time to time, receive co-investment rights, profits interest or options with respect to the portfolio company. Any expenses incurred by the third party professional while working with the portfolio company is paid or reimbursed by the portfolio company. In addition, fees for board service, if any, received by the third party professional will not be deemed paid to or received by Boyne Capital and thus will not be subject to the fee offset arrangements described above.

Portfolio Company Remuneration

As mentioned above, Boyne Capital receives certain supplemental fees and compensation with respect to portfolio investments, including break-up fees, monitoring fees, consulting fees, director’s fees, transaction fees (including closing fees, investment banking fees, consulting fees, placement fees and other similar fees), or other remuneration (including any options, warrants or other equity securities),

the amount of which are paid by the Funds (directly, or indirectly by the portfolio companies) and are determined by Boyne Capital on a transaction by transaction basis, subject to the terms set forth in each Fund's Governing Documents. All such fees received are offset in whole or in part against the Management Fee as described above, net of any expenses incurred in connection with such portfolio investment; however, any such fees received by non-Boyne Capital employees are not subject to an offset against Management Fees. Any reduction of a Fund's Management Fee is typically limited to the extent of such Fund's proportionate interest in any such portfolio investment and only to the extent a Management Fee is payable by such Fund.

Each portfolio company typically pays for or reimburses the Firm for the travel of Boyne Capital employees to visit such portfolio company. Any reimbursement by a portfolio company of out-of-pocket expenses incurred by Boyne Capital, a General Partner or their respective affiliates will not be offset against the Management Fee payable by the Funds.

From time to time, Boyne Capital, in its sole discretion, may agree to pay a transaction fee, portion of the Management Fee, Carried Interest or other fee received from an actual or prospective portfolio company to a third party, such as a consultant, adviser, operating partner, finder, placement agent, broker and/or investment bank. In such event, the third party fee is not a fee that Boyne Capital is entitled to retain and, therefore, Boyne Capital is not required under the terms of the applicable Governing Documents to share such third party fees with a Fund.

Allocation of Fees and Expenses

In good faith and in its fair and reasonable discretion, Boyne Capital determines on a case-by-case basis whether an expense should be borne by the Firm, a Fund, multiple Funds or a portfolio company. To the extent that the Governing Documents do not expressly provide for a method of allocation or to the extent that an invoice does not relate to a specific Fund, Boyne Capital will typically allocate common expenses among multiple Funds on a pro rata basis and in accordance with its policies and procedures on expense allocation.

Item 6 – Performance-Based Fees and Side-By-Side Management

A Carried Interest allocation represents an adviser's compensation based on a percentage of net profits of the funds it manages. As described above in Item 5, a Fund's General Partner is generally entitled to receive a Carried Interest allocation on certain realized profits in the Funds equal to 20% of all realized profits subject to an 8% annually compounded preferred return (or hurdle) and subject to reimbursement of all relevant Fund expenses, including Management Fees (although some Funds charge a lower Carried Interest allocation and/or may have a higher or lower hurdle rate, or otherwise differ according to the terms agreed to with investors and detailed in the applicable Governing Documents). The Carried Interest allocated to a General Partner is subject to a potential giveback if the respective General Partner has received excess cumulative distributions. Each Fund's Carried

Interest calculation, as well as the clawback provisions of each Fund, is further described in the relevant Fund's Governing Documents.

These performance fee arrangements have been structured subject to Section 205(a)(1) of the Advisers Act in accordance with the available exemptions thereunder, including the exemption set forth in Rule 205-3. The General Partner of each Fund, in its sole discretion, is permitted to waive or reduce the amount of Carried Interest for an investor in such Fund. Specifically, when principals and employees and/or their respective family are Fund investors, they will generally pay reduced Carried Interest or none at all. Similarly, investors in Co-Investment Funds generally pay a lower amount of Carried Interest or none at all on the co-investment portion of their investment.

The fact that a General Partner's Carried Interest allocations are based on the performance of each Fund can create an incentive for Boyne Capital to make investments that are more speculative than would be the case in the absence of such distributions. The Firm believes this incentive is sufficiently mitigated, however, due to the fact that any losses the Funds sustain will reduce the General Partner's Carried Interest distribution and the fact that Carried Interest is generally calculated only after investors have received as distribution on an individual investment, 100% of their capital contribution plus a preferred return.

Investment opportunities which satisfy the investment parameters of more than one Fund will be allocated in accordance with Boyne Capital's policies and procedures and in accordance with the applicable Governing Documents. Boyne Capital's policies and procedures for the allocation of investments are determined by the Firm's investment committee.

Item 7 – Types of Clients

Boyne Capital provides investment advice to its Funds. The Funds limit their respective investors to: (i) "accredited investors" as defined in the Securities Act of 1933, and either (ii) "qualified purchasers" or "knowledgeable employees," each as defined in the Investment Company Act of 1940, or (iii) "qualified clients," as defined in the Advisers Act. Investors in the Funds must also meet certain other suitability qualifications prior to making an investment in the Funds. The Funds are not registered or required to be registered under the Investment Company Act of 1940; their securities are not registered or required to be registered under the Securities Act of 1933 and are privately placed to qualified investors in the United States and elsewhere. The Funds have historically required capital commitments from each investor of at least \$100,000, depending on the Fund, although the applicable Fund's General Partner has, in its sole discretion, accepted lesser amounts.

The investors participating in the Funds include individuals, other investment entities, family offices, trusts, other corporations or business entities, service providers retained by Boyne Capital, and typically include, directly or indirectly, principals or other employees of Boyne Capital and its affiliates and members of their families.

Boyne Capital also serves as the investment manager for co-investment vehicles that invest alongside a Fund in certain Fund portfolio companies. Opportunities to participate in co-investment vehicles arise when Boyne Capital has the opportunity for an investment in an existing or prospective portfolio company and Boyne Capital determines that all or a portion of the applicable opportunity is not required to be offered to, or is not appropriate for, a Fund. Such determinations are based on the provisions of the applicable Governing Documents, side letter agreements and such other factors as Boyne Capital will consider in its sole discretion, including those specified from time to time in its policies on investment allocation and co-investments. Subject to any restrictions contained in the Governing Documents of the relevant Fund or any side letter or other terms negotiated with respect to such Fund, in general no investor has a right to participate in any co-investment opportunity. Opportunities to invest in a portfolio company are made available to select persons or entities, who may or may not be Fund investors, including, without limitation, strategic investors, lenders, deal sources (including finders and consultants), other sponsors (including other private equity or venture capital firms), Fund investors, service providers, other persons or entities affiliated, associated or otherwise known to Boyne Capital or its personnel and unrelated third parties. Investors may participate in co-investments either through (A) a dedicated co-investment vehicle organized and managed by Boyne Capital or (B) in certain situations, investors will be permitted to participate in a co-investment by investing directly in the portfolio company and in such case, these co-investments are not considered managed by Boyne Capital, are not subject to custody by Boyne Capital and are not deemed to be clients of Boyne Capital; nevertheless, Boyne Capital will perform management, advisory and other services for the portfolio companies in which these co-investment vehicles invest alongside the Funds, generally at no cost to such vehicles except expenses.

Additionally, Boyne Capital can cause some co-investors to bear a Management Fee and/or Carried Interest while not imposing a Management Fee and/or Carried Interest (or imposing a different Management Fee or Carried Interest) on other co-investors. In Boyne Capital's sole discretion, some co-investment vehicles and/or co-investors bear all or a portion of certain expenses (*e.g.*, legal and other expenses associated with a portfolio company investment), while other co-investment vehicles and/or co-investors do not share in such expenses. In certain cases, co-investment opportunities include opportunities to invest in Fund portfolio companies at a time when there is not a corresponding Fund investment or on different terms than a Fund investment. Some co-investors are provided the opportunity to sit, or have a representative sit, on the board of directors or board of advisers of a Boyne Capital portfolio company. Positions on boards of directors or advisers of such portfolio companies provide such persons with voting rights, access to information and potentially the ability to influence the operations and decision-making of the portfolio company that are not necessarily available to other investors.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis and Investment Strategy

The Funds focus on achieving attractive risk-adjusted returns primarily by making privately negotiated equity and equity-related investments in lower-middle market companies. Boyne Capital seeks control investments on a non-auction basis in these lower-middle market companies because it believes this area of the market allows it to: (i) capture value through a disciplined, deep value-based investment approach; (ii) create value through thorough aggressive growth initiatives and operational improvements; and (iii) believes there is an imbalance between the number of investment targets and the level of competition among other professional managers. Boyne Capital seeks to generate opportunities through proactive outreach in industries or sectors of interest and through proprietary relationships.

Boyne Capital's investment strategy revolves around the pursuit of deep value in a broad universe of investment opportunities. The Firm's deep value strategy seeks to create a margin of safety by structuring investments at discounted values relative to comparable company valuations, as well as at conservative multiples of free cash flow.

Boyne Capital focuses its sourcing activities around creating a broad and sustainable flow of proprietary opportunities because the Firm believes proprietary opportunities enable it to negotiate transactions absent market-driven (i) value premium and (ii) time pressures which allows the Firm valuable time to assess target company opportunities and risk as well as access to a potential portfolio company and its management team over an extended period of time.

The Firm seeks to drive value-creation post-closing by taking a proactive, hands-on approach to management and strategic direction of portfolio investments which incorporates a robust planning and reporting process that provide Boyne Capital with visibility into operations on a weekly and monthly basis. Additionally, the Firm works with portfolio company leadership to improve hiring, assessment and talent development. When it deems it appropriate, the Firm will also pursue an aggressive add-on acquisition strategy, as it believes that add-on acquisitions can be game changers for lower-middle market companies.

The Main Funds will not invest in biotechnology, real estate, oil and gas exploration and production, or start-up venture capital transactions and will limit its investments to the United States and Canada.

The applicable Governing Documents of each Fund set forth more detailed descriptions of each Fund's investment strategies and methods of analysis. There can be no assurance that Boyne Capital will achieve the investment objectives of the Funds and a loss of investment is possible. In implementing its strategy, Boyne Capital's focuses on the key tenants of its investment philosophy.

Risks

An investment in the Funds involves a high degree of risk, including the risk of a partial or total loss of capital, and investors must be prepared to bear capital losses which might result from investments. An investment in the Funds is speculative, illiquid and long-term in nature, and is suitable only for those investors who have the financial sophistication and expertise to evaluate the merits and risks of an investment in the Funds. Investors should also refer to a Fund's Governing Documents for a description of the risk factors specific to their Fund. Different or new risks not addressed below may arise in the future and, therefore, the following list is not intended to be exhaustive. Risks and potential conflicts of interest include, but are not limited to, the following:

Competition for Investments. The Funds expect to encounter competition from other entities having similar investment objectives. The activity of identifying, completing and realizing attractive investments is highly competitive, and involves a high degree of uncertainty. Potential competitors include other investment partnerships and corporations, business development companies, strategic industry acquirers and other financial investors investing directly or through affiliates. Some of these competitors may have more relevant experience, greater financial resources and more personnel than Boyne Capital or its affiliates. It is possible that competition for appropriate investment opportunities may increase, thus reducing the number of opportunities available to the Funds and adversely affecting the terms upon which portfolio investments can be made. There can be no assurance that the Funds will be able to identify or consummate portfolio investments satisfying its investment criteria, that the Funds will be able to fully invest their committed capital or that such investments will satisfy a Fund's rate of return objective.

Ability to Manage Rapid Growth. The Funds expect many of its portfolio companies to grow rapidly. Rapid growth often places considerable operational, managerial and financial strain on a business. To successfully manage rapid growth, a Fund's portfolio company(ies) must, among other things, rapidly improve, upgrade and expand their business infrastructures, deliver services and products on a timely basis, maintain levels of service expected by clients and customers and maintain adequate levels of liquidity. The financial returns of a Fund will suffer if such Fund's portfolio company(ies) are unable to successfully manage their growth.

Need for Follow-On Investments. Given the Funds' investment strategy of investing in platform companies, the Funds intend to provide additional capital to its platform companies in order to make add-on acquisitions. In addition, the Funds may have the opportunity to increase their investment in a successful portfolio company. There is no assurance that a Fund will be able to make follow-on investments or that a Fund will have sufficient capital to make all of the follow-on investments that it desires. Any decision by a Fund not to make a follow-on investment or its inability to make such investments can have a substantial negative impact on a platform or portfolio company in need of such investment or result in a lost opportunity for a Fund to increase its participation in a successful portfolio investment.

Ability to Successfully Exit Investments. The ability of a Fund to achieve successful and profitable exits of its portfolio investments can be impacted by a number of factors prevailing at the time, including general economic conditions, interest rates, availability of capital, interest levels of strategic and financial buyers and cyclical trends in particular industry segments. It is difficult to predict with any certainty whether there will be a ready and willing market of buyers for any particular portfolio company at the time such Fund seeks a realization.

Projections are Only Estimates. The Funds will generally determine the appropriate capital structure of each portfolio company in which it invests based upon financial projections for that company. Projected operating results will normally be based primarily on management judgments. In all cases, projections are only estimates of future results based upon assumptions made at the time the projections are developed. There can be no assurance that the projected results will be obtained, and actual results can vary significantly from the projections. Also, general economic conditions, which are not predictable, can have a material adverse impact on the accuracy of projections.

Valuation. There is not expected to be an actively traded market for most of the securities owned by the Funds. When estimating fair value, Boyne Capital will apply a methodology it determines to be appropriate based on accounting guidelines and the applicable nature, facts and circumstances of the respective investments. However, the process of valuing securities for which reliable market quotations are not available is based on inherent uncertainties and the resulting values have the potential to significantly differ from values that would have been determined had an active market existed for such securities and can significantly differ from the prices at which such securities ultimately are sold. The Firm has established a valuation policy, which it follows when performing portfolio company valuations. Boyne Capital does not intend to retain the services of a third-party valuation consultant to assist in performing portfolio company valuations. The valuation of the Funds' assets as performed internally by Boyne Capital's own team and such valuations are not reviewed by an independent third party; however, all valuations are subject to an annual review as part of each Fund's annual financial statement audit. The exercise of discretion in valuation by the Firm has the potential to give rise to conflicts of interest, including excess valuations which may impact the amount and timing of distributions of Carried Interest and the calculation of Management Fees.

Operating and Financial Risks of Portfolio Companies. Companies in which the Funds invest could deteriorate as a result of, among other factors, an adverse development in their business, a change in the competitive environment or an economic downturn. As a result, companies which the Funds expected to be stable may operate, or expect to operate, at a loss or have significant variations in operating results, may require substantial additional capital to support their operations or to maintain their competitive position or may otherwise have a weak financial condition or be experiencing financial distress.

Investments in Junior Securities. The securities in which the Funds invest may be among the most junior in a portfolio company's capital structure and thus subject to the greatest risk of loss. Generally, there will be no collateral to protect an investment once made.

Refinancing Risks. In circumstances where Boyne Capital intends to refinance all or a portion of the capital invested, there will be a risk that such refinancing may not be completed, which could lead to increased risk as a result of a Fund having an unintended long term investment as to a portion of the amount invested and/or reduced diversification.

Investments Longer than Term. The Funds may make investments which may not be advantageously disposed of prior to the date such Fund will be dissolved, either by expiration of a Fund's term or otherwise. Although Boyne Capital expects the investments will be disposed of prior to dissolution or be suitable for in-kind distribution at dissolution and the General Partner has a limited ability to extend the term of a Fund, the Funds may have to sell, distribute or otherwise dispose of investments at a disadvantageous time as a result of dissolution. Upon the dissolution of a Fund, Boyne Capital (or the relevant liquidator) will be required to use reasonable efforts to reduce to cash and cash equivalents such assets of the Fund, as Boyne Capital or such liquidator shall deem it advisable to sell, subject to obtaining fair value for such assets and any tax or other legal considerations (including legal restrictions on the ability of an investor to hold any assets to be distributed in kind), over such time as is reasonably necessary to settle gradually and close the Fund's business under the circumstances then applicable to the Fund. There can be no assurances with respect to the time frame in which the winding up and the final distribution of proceeds to the limited partners will occur.

General Economic and Market Conditions. The private equity industry generally and the success of the Funds' investment activities specifically will be affected by general economic and market conditions, as well as by changes in laws, currency exchange controls, and national and international political and socioeconomic circumstances. Such factors are unpredictable and are cannot be controlled by Boyne Capital. General fluctuations in the market prices of securities and economic conditions generally may reduce the availability of attractive investment opportunities for a Fund and may affect a Fund's ability to make investments. Instability in the securities markets and economic conditions generally (including a slow-down in economic growth and/or changes in interest rates or foreign exchange rates) can also increase the risks inherent in a Fund's investments and could have a negative impact on the performance and/or valuation of the portfolio companies. A Fund's performance can be affected by deterioration in the capital markets and by market events, which, among other things, can impact the public market comparable earnings multiples used to value privately held portfolio companies and investors' risk-free rate of return. Movements in foreign exchange rates may adversely affect the value of investments in portfolio companies and a Fund's performance. Volatility and illiquidity in the financial sector may have an adverse effect on the ability of a Fund to sell and/or partially dispose of its portfolio company investments. Such adverse effects may include the requirement of a Fund to pay break-up, termination or other fees and expenses in the event a Fund is not able to close a transaction (whether due to the lenders' unwillingness to provide previously

committed financing or otherwise) and/or the inability of the Fund to dispose of investments at prices that Boyne Capital believes reflect the fair value of such investments. The impact of market and other economic events can also affect a Fund's ability to obtain funding to support its investment objectives. Any of the foregoing events could result in substantial or total losses to a Fund in respect of certain portfolio investments, which losses will likely be exacerbated by the presence of leverage in a portfolio company's capital structure.

Deterioration of Credit Markets May Affect Ability to Finance and Consummate Investments. In the event that the global credit markets deteriorate and it becomes more difficult for investment funds to obtain favorable financing for investments, a Fund's ability to generate attractive investment returns may be adversely affected to the extent a Fund is unable to obtain favorable financing terms for its investments. Moreover, to the extent that such marketplace events are not temporary and continue, they can have an adverse impact on the availability of credit to businesses generally and could lead to an overall weakening of the U.S. and global economies. Such marketplace events also may restrict the ability of a Fund to realize its investments at favorable times or for favorable prices.

Illiquidity of Portfolio Investments. The Funds' investments in portfolio companies generally will be illiquid and not readily marketable, and the transferability of such investments generally will be restricted under the terms of the documents governing such investments. There can be no assurance that a Fund will be able to liquidate a particular interest in any portfolio company at the time and upon the terms it desires. Less marketable or illiquid investment positions may be more difficult to value than more marketable assets, due to the unavailability of reliable market quotations and other factors. The ability of a Fund to successfully exit and achieve liquidity on its investments is dependent in large part on the condition of and valuations available in the public equity markets and valuations available in private negotiated transactions at the time, neither of which can be projected with any certainty. The sale of less marketable securities or other assets may require more time and result in lower prices, due to higher brokerage charges or dealer discounts and other selling expenses, than the sale of more marketable assets. The disposition of illiquid assets may involve distributions in kind to investors.

Use of Leverage. The Funds generally make use of leverage by having a portfolio company incur debt to finance a portion of its investment in such portfolio company, including in respect of companies not rated by credit agencies. While investments in leveraged companies offer the opportunity to improve rates of investment return and/or reduce the overall cost of capital for such companies, leverage generally magnifies both the opportunities for gain and the risks of loss from investments, and the magnification of the risk of loss can be substantial. The cost and availability of leverage is highly dependent on the state of the broader credit markets, which may be impacted by regulatory restrictions and guidelines and which are difficult to accurately forecast, and at times it may be difficult to obtain or maintain the desired degree of leverage. The use of leverage also imposes restrictive financial and operating covenants on a company, in addition to the burden of debt service, and may impair its ability to operate its business as desired and/or finance future operations and capital needs. The leveraged capital structure of portfolio companies will increase the exposure of a Fund's

investments to any deterioration in a company's condition or industry, competitive pressures, an adverse economic environment or rising interest rates and could accelerate and magnify declines in the value of a Fund's investments in the leveraged portfolio companies in a down market. In the event any portfolio company cannot generate adequate cash flow to meet its debt service, a Fund has the potential to suffer a partial or total loss of capital invested in the portfolio company, which could adversely affect the returns of a Fund. Additionally, lenders would typically have a claim that has priority over any claim by a Fund to the assets of such portfolio company in an insolvency event or proceeding. Should the credit markets be limited or costly at the time a Fund determines that it is desirable to sell all or a part of a portfolio company, a Fund may not achieve an exit multiple or enterprise valuation consistent with its forecasts. If a portfolio company is unable to obtain favorable financing terms for its investments, refinance its indebtedness or maintain a desired or optimal amount of financial leverage, a Fund may hold a larger than expected equity investment in such portfolio company and may realize lower than expected returns from the portfolio company that would adversely affect a Fund's ability to generate attractive investment returns for such Fund. Any failure by lenders to provide previously committed financing could also expose a Fund to potential claims by sellers of businesses which the Fund may have been contracted to purchase.

Non-Controlling Investments. The Funds hold meaningful minority stakes in privately held companies and in some cases may have limited minority protection rights. In addition, during the process of exiting investments, a Fund at times may hold minority equity stakes of any size such as might occur if portfolio companies are taken public. As is the case with minority holdings in general, such minority stakes that a Fund may hold will have neither the control characteristics of majority stakes nor the valuation premiums accorded majority or controlling stakes. Where a Fund holds a minority stake, it may be more difficult for such Fund to liquidate its interests than it would be had the Fund owned a controlling interest in such company. Even if a Fund has contractual rights to seek liquidity of the Fund's minority interests in such companies, it may be very difficult to sell such interests or seek a sale of such company upon terms acceptable to the Fund, especially in cases where the interests of the other investors in such company have different business and investment objectives and goals.

Director Liability. The Funds will often seek to obtain the right to appoint one or more representatives to the board of directors (or similar governing body) of the companies in which it invests. Serving on the board of directors (or similar governing body) of a portfolio company exposes a Fund's representatives, and ultimately the Fund, to potential liability. Not all portfolio companies may obtain insurance with respect to such liability, and the insurance that portfolio companies do obtain may be insufficient to adequately protect officers and directors from such liability. In addition, involvement in litigation can be time consuming for such persons and can divert the attention of such persons from a Fund's investment activities.

Past Performance; No Assurance of Investment Return. The past investment performance of Boyne Capital's prior investments is not necessarily indicative of a Fund's future results. While Boyne Capital intends to make investments which have estimated returns commensurate with the risks undertaken, there can

be no assurances that the targeted IRR will be achieved. On any given investment, total loss of principal is possible. There is no assurance that the Funds will be able to generate returns for its investors or that returns will be commensurate with the risks of investing in the type of companies and transactions described herein. An investment in the Funds should only be considered by persons who can afford a loss of their entire investment. An investment in the Funds requires a long-term commitment, with no certainty that the Funds will realize its rate of return objectives or that capital loss will not occur. There can be no assurance that a Fund's investment objective will be achieved, or that an investor will receive a return of its capital.

Portfolio Concentration. Although generally no more than 20% of the aggregate commitments will be invested in any single portfolio company (including any bridge financings), diversification is not a requirement of the Funds, and specifically Co-Investment Funds are concentrated in one investment only. Accordingly, a Fund's portfolio investments may include a small number of large positions. While this portfolio concentration may enhance total returns to investors, if any large position has a material loss, then returns to investors may be lower than if investors had invested in a well-diversified portfolio.

Risk of Limited Number of Investments. Because a Fund may only make a limited number of investments (specifically so for Co-Investment Funds) and such investments generally will involve a high degree of risk, poor performance by even a single portfolio company could severely affect the total returns to investors. Other than as set forth in the Governing Documents, investors have no assurance as to the degree of diversification of a Fund's investments, either by geographic region, asset type or sector. To the extent a Fund concentrates portfolio investments in a particular issuer, security or geographic region, its portfolio investments will become more susceptible to fluctuations in value resulting from adverse economic or business conditions with respect thereto. As a consequence, the aggregate return of a Fund may be adversely affected by the unfavorable performance of one or a small number of portfolio investments. Moreover, because it is not reasonable to expect all of a Fund's investments to perform well or even return capital, for a Fund to achieve above average returns one or a few of its investments must perform very well. There are no assurances that this will be the case.

Unspecified Investments. Investors must rely upon the ability of Boyne Capital and its affiliates to identify, structure and implement investments consistent with each Fund's investment objectives and policies. A Fund, however, may be unable to find a sufficient number of attractive opportunities to meet its investment objectives. The success of the Funds will depend on the ability of Boyne Capital to identify suitable investments, to negotiate and arrange the closing of appropriate transactions and to arrange the timely disposition of such investments. Furthermore, to the extent the investment strategy of a Fund relies upon the recovery, stabilization or improvement of market and economic conditions and such events do not occur for an extended period of time, such Fund may not be able to invest a significant portion of its commitments during the commitment period of the Fund.

Hedging Policies/Risks. A Fund is permitted to employ hedging techniques in connection with the acquisition, holding, financing, refinancing or disposition of portfolio investments and portfolio companies themselves may also utilize hedging techniques in order to enhance returns. While such transactions may reduce certain risks, such transactions themselves may entail certain other risks, such as counterparty default, bankruptcy or insolvency, convergence and other risks all related with derivative instruments. Thus, while a Fund may benefit from the use of these hedging mechanisms, unanticipated changes in interest rates, securities prices, commodity prices, currency exchange rates and/or other events relating to such hedging transactions may result in a poorer overall performance for a Fund than if it or its portfolio companies had not entered into such hedging transactions.

Failure to Make Capital Contributions. The partnership agreement provides for significant adverse consequences in the event an investor defaults on its commitment or any other payment obligation. In addition to losing its right to potential distributions from a Fund, a defaulting investor may be forced to transfer its interest in the Fund for an amount that is less than the fair market value of such interest and that may be paid by means of a promissory note.

If an investor fails to pay when due installments of its commitment to a Fund, and the contributions made by non-defaulting investors and borrowings by the Fund are inadequate to cover the defaulted capital contribution, the Fund may be unable to pay its obligations when due. As a result, the Fund may be subjected to significant penalties that could limit opportunities for investment diversification and materially adversely affect the returns to investors (including non-defaulting investors).

Liability of Investors. The Funds have been organized as Delaware limited partnerships. Generally, an investor should not be personally liable for the debts of the Funds except that, in the event a Fund is otherwise unable to meet its obligations, investors may, under applicable law, be obligated to repay amounts previously received by them to the extent such amounts are deemed to have been wrongfully distributed to them. Moreover, any investor's commitment is susceptible to risk of loss as a result of any liability of the Fund irrespective of whether such liability is attributable to a portfolio investment to which such investor did not contribute any capital. If a Fund is otherwise unable to meet its obligations, investors may be obligated to return, with interest, distributions previously received by them pursuant to laws regarding fraudulent conveyances to creditors whose interests have been injured.

Indemnification; Absence of Recourse. The Funds will be required to indemnify the General Partner, Boyne Capital, the principals, the members of the advisory committee, and their respective managers, members, partners, officers, directors, shareholders, employees, advisors, agents, affiliates and personnel against claims, liabilities, damages, costs and expenses (including legal fees, judgments, amounts paid in settlement, and reasonable expenses of investigating or defending against any claim or alleged claim) incurred by them by reason of their activities or omissions or alleged activities or omissions (even if negligent) on behalf of the Funds or investors, subject to certain exceptions. Additionally, such parties may be entitled to exculpation by a Fund. Such liabilities may be material

and have an adverse effect on the returns to investors. For example, in their capacity as directors of portfolio companies, the members of the General Partner or any other affiliates of the General Partner or Boyne Capital may be subject to derivative or other similar claims brought by shareholders of such companies.

The indemnification obligation of the Funds would be payable from the assets of such Fund, including the unfunded commitments of investors. If the assets of a Fund are insufficient, Boyne Capital may recall distributions previously made to investors (subject to certain limitations).

Reliance on General Partner and Boyne Capital. Decisions made with respect to the management of a Fund will be made by the General Partner and Boyne Capital. The General Partner and Boyne Capital will have exclusive responsibility for a Fund's activities and, other than as set forth in the Governing Documents, investors will not be able to make investment or other decisions with respect to the management of a Fund. The success of a Fund will depend on the ability of the General Partner, Boyne Capital, the principals and the Funds' other investment professionals to identify and consummate suitable investments, to improve the operating performance of portfolio companies and to dispose of the investments of a Fund at a profit. The loss of the services of one or more of the principals or such other persons could have an adverse impact on a Fund's ability to realize its investment objectives. There can be no assurance that each of the principals and other investment professionals will continue to be associated with the Funds throughout its anticipated term.

Portfolio Company Management Team. Each portfolio company's day to day operations will be the responsibility of such company's management team. Although Boyne Capital will be responsible for monitoring the performance of each investment and intends to invest in companies operated by strong management, there can be no assurance that the existing management team, or any successor management team, will be able to operate the portfolio company in accordance with a Fund's plans or expectations.

Bridge Financings. From time to time, a Fund may provide interim financing in order to facilitate a portfolio investment on a short term, unsecured basis in anticipation of a future issuance of equity or long term debt securities or refinancing. Such bridge loans would typically be convertible into a more permanent, long term security; however, for reasons not always in a Fund's control, such long term debt securities may not be issued and such bridge loans may remain outstanding. In such an event, the interest rate on such loans may not adequately reflect the risk associated with the unsecured position taken by a Fund.

Reinvestment. During the commitment period, Boyne Capital generally has the right to recall certain capital returned or distributed to investors. Accordingly, during the term of a Fund, investors may be required to make capital contributions in excess of its commitment (with certain limitations), and to the extent such recalled or retained amounts are reinvested in investments, an investor will remain subject to investment and other risks associated with such investments.

Agreements with Certain Investors. Boyne Capital has entered into a side letter or other similar agreement with certain investors in connection with their admission to a Fund without the approval of any other investor, which would have the effect of establishing rights under, altering or supplementing the terms of, or confirming the interpretation of an applicable Fund document with respect to such investor in a manner more favorable to such investor than those applicable to other investors, and such rights may be significant. Such rights or terms in any such side letter or other similar agreement may include, without limitation, (i) excuse, exclusion or withdrawal rights applicable to particular investments or investors (which may increase the percentage interest of other investors in, and contribution obligations of other investors with respect to, certain investments); (ii) reporting obligations of Boyne Capital; (iii) waiver of certain confidentiality obligations; (iv) consent of Boyne Capital to certain transfers by such investor; or (v) rights or terms necessary in light of particular legal, regulatory or public policy characteristics of such investor.

Cybersecurity Risk. The Funds, their portfolio companies, their service providers and other market participants increasingly depend on complex information technology and communications systems to conduct business functions. These systems are subject to a number of different threats or risks that could adversely affect the Funds and their portfolio companies, despite the efforts of service providers to adopt technologies, processes and practices intended to mitigate these risks and protect the security of their computer systems, software, networks and other technology assets, as well as the confidentiality, integrity and availability of information belonging to the Funds and their portfolio companies. For example, unauthorized third parties may attempt to improperly access, modify, disrupt the operations of, or prevent access to the systems of the Funds, their portfolio companies, their service providers, counterparties or data within these systems. Third parties may also attempt to fraudulently induce employees, customers, third party service providers or other users of such systems to disclose sensitive information to gain access to the confidential data. A successful penetration or circumvention of the security of such systems could result in the loss or theft of data or funds, the inability to access electronic systems, loss or theft of proprietary information or corporate data, physical damage to a computer or network system or costs associated with system repairs. Such incidents could cause the Funds or their portfolio companies to incur regulatory penalties, reputational damage, additional compliance costs or financial loss.

Potential Conflicts of Interest

Investors should be aware that there will be occasions when Boyne Capital and its principals may encounter potential conflicts of interest in connection with a Fund. The following discussion identifies certain potential conflicts of interest that should be carefully considered before making an investment in a Fund. In addition, investors should be aware that Boyne Capital, its personnel, and its affiliates may in the future engage in further activities that may result in additional conflicts of interest not addressed below. There can be no assurance that Boyne Capital will identify or resolve

all conflicts of interest and, if resolved, that such conflicts will be resolved in a manner that is favorable to a Fund.

If any matter arises that Boyne Capital determines in its good faith judgment constitutes an actual or potential conflict of interest, the Firm may take such actions as may be necessary or appropriate to ameliorate such conflict (and upon taking such actions, the Firm will be relieved of any responsibility for such conflict to the fullest extent permitted by law and shall be deemed to have satisfied its fiduciary duties related thereto to the fullest extent permitted by law). These actions may include, by way of example: (i) disposing of the security giving rise to the conflict of interest; (ii) appointing an independent fiduciary to act with respect to the matter giving rise to the conflict of interest; or (iii) in connection with a matter giving rise to a conflict of interest with respect to an investment, consulting with the advisory committee regarding the conflict of interest and either obtaining a waiver from the advisory committee of the conflict of interest or acting in a manner, or pursuant to standards or procedures, approved by the advisory committee with respect to such conflict of interest.

In addition, investors should note that the Governing Documents contain provisions that, subject to applicable law, (i) reduce, modify or eliminate the duties, including fiduciary duties, that Boyne Capital would otherwise owe to a Fund and its investors; (ii) waive duties or consent to the conduct of Boyne Capital that might not otherwise be permitted pursuant to such duties; and (iii) limit the remedies of an investor with respect to breaches of such duties.

Additionally, the Governing Documents contain exculpation and indemnification provisions that, subject to the specific exceptions identified therein, provide that Boyne Capital and its employees and affiliates will be held harmless and indemnified, respectively, for matters relating to the operation of the Funds, including matters that may involve one or more potential or actual conflicts of interest.

Allocation of Investment Opportunities. Certain conflicts between the Funds and its investors, on one hand, and the General Partner and its affiliates or principals, on the other hand, may arise with respect to the allocation of prospective investment opportunities to other Boyne Capital Funds. Although the General Partner is obligated to present to BCM Fund I, LP and BCM Fund I-A, LP all investment opportunities that it believes in good faith are suitable for and in the best interests of such Fund, the General Partner may cause such Fund to forego certain investment opportunities in which other Boyne Capital Funds may invest, even though such prospective investment opportunities arguably may have been suitable for investment by such Fund.

Affiliate Transactions. It is possible that, from time to time, affiliates of Boyne Capital will provide services to the Funds or its portfolio companies. In such event, such services will be provided at no greater cost than would be the case if independent third parties were to provide such services. However, normally such services will not be put out for competitive bidding by third parties, and the determination of the competitive cost or rates for such services will be made by Boyne Capital in its sole discretion.

Time and Attention. Boyne Capital and its affiliates may become involved in the operation and management of other private equity funds as well as other businesses and, while it is expected that they will devote an adequate amount of time to the management of the Funds, conflicts of interest may arise with respect to allocating their professional time between the Funds and their various other business pursuits.

Co-Investments. Boyne Capital may, in its sole discretion, provide or commit to provide co-investment opportunities to one or more investors and/or other persons, in each case on terms to be determined by Boyne Capital in its sole discretion. Conflicts of interest may arise in the allocation of such co-investment opportunities. The allocation of co-investment opportunities, which may be made to one or more persons for any number of reasons as determined by Boyne Capital in its sole discretion, may not be in the best interests of the Funds or any individual investor. In exercising its discretion to allocate co-investment opportunities with respect to a particular investment to and among potential co-investors and the terms thereof, Boyne Capital may consider some or all of a wide range of factors, which may include: the ability of a person to react promptly to co-invest opportunities; any strategic advantages that may result from a person's participation in a co-investment opportunity; a person's commitment to a Fund; and/or the likelihood that a person may invest in a future fund sponsored by Boyne Capital. Boyne Capital may also, in its sole discretion, charge a Management Fee and obtain a Carried Interest in respect of any such co-investment.

Co-investments with third parties through partnerships, joint ventures or other entities or arrangements may involve risks not present in investments where a third-party is not involved, including the possibility that a third party co-venturer or partner may at any time have economic or business interests or goals that are inconsistent with those of a Fund, may have financial difficulties (which may increase the possibility of default), or may be in a position to take (or block) action contrary to the investment objectives of a Fund. In addition, a Fund may in certain circumstances be liable for actions of its third-party co-venturer or partner. In those circumstances where such third parties involve a management group, such third parties may receive compensation arrangements relating to such co-investments, including incentive compensation arrangements.

Allocation of Expenses. Boyne Capital and its affiliates from time to time incur fees, costs and expenses, including in connection with transactions not consummated, on behalf of the Funds. To the extent such fees, costs and expenses are incurred for the benefit of multiple Funds, each Fund will typically bear an allocable portion of any such fees, costs and expenses in proportion to the size of the investment made or proposed to be made by each in respect of the entity to which the expense relates or in such other manner as Boyne Capital considers fair and equitable. Although Boyne Capital endeavors to allocate such fees, costs and expenses on a fair and equitable basis, there can be no assurance that such fees, costs and expenses will in all cases be allocated appropriately. Notwithstanding the foregoing, Boyne Capital may in the future develop policies and procedures to address the allocation of expenses that differ from its current practice.

A conflict of interest could arise in Boyne Capital's determination whether certain costs or expenses that are incurred in connection with the operation of the Funds meet the definition of Fund operational expenses for which the Funds are responsible, whether such expenses should be borne by Boyne Capital or the manner in which Boyne Capital allocates expenses among the Funds. This conflict may be heightened by the fact that the expenses borne by the Co-Investment Funds may not be the same as the Main Funds. The Funds will be reliant on the determinations of Boyne Capital in this regard. From time to time, it is possible that subsequent review of allocations could result in an identification of expenses that should have been allocated in a different manner, in which case measures would be undertaken to correct such circumstance, which might include a reversal of the original expense allocations, if possible, or such other equitable adjustment believed by Boyne Capital to be the most appropriate corrective measure.

Other Fees. Boyne Capital receives certain cash and non-cash fees from portfolio companies in connection with the purchase, monitoring or disposition of portfolio investments or in connection with unconsummated transactions (e.g., transaction, directors', consulting, management, investment banking, advisory, closing, topping, break-up and other similar fees).

Advisory Committee. The Main Funds have established an advisory committee comprised of select investors in the applicable Fund and which has the ability to review and waive compliance with certain provisions of the relevant Governing Documents, including resolving potential conflicts of interest situations, and whose approval is required or may be requested in certain circumstances under the Governing Documents, including certain approvals or consents required by the Advisers Act. Pursuant to the terms of the relevant Governing Documents, all investors are bound by the determinations of such Fund's advisory committee, regardless of whether an investor is represented by a member of the advisory committee. The Governing Documents provide that to the fullest extent permitted by applicable law, none of the advisory committee members shall owe any fiduciary duties to a Fund or any other investor. Members of the advisory committee may have conflicts of interest that do not disqualify such members from voting or consenting to matters submitted to the advisory committee for consideration or review. Members of the advisory committee may have various business and other relationships with Boyne Capital and its members, partners, managers, directors, officers, employees and affiliates. These relationships may influence their decisions as members of the advisory committee. To the extent that an investor is not represented by a member of the advisory committee, such investor will have no influence over matters submitted to the advisory committee for review or approval.

Conflicting Investor Interests. Investors may have conflicting investment, tax, and other interests with respect to their investments in a Fund, including conflicts relating to the structuring and timing of investment acquisitions and dispositions. As a result, conflicts may arise in connection with decisions made by Boyne Capital regarding an investment that may be more beneficial to one investor than another, especially with respect to tax matters. In structuring, acquiring and disposing of investments,

Boyne Capital generally will consider the investment, tax and other relevant objectives of the Funds and its investors as a whole, not the investment, tax, or other objectives of any investor individually.

Portfolio Company Board Service. As a result of the Funds' significant and often controlling interests in portfolio companies, Boyne Capital typically has the right to appoint portfolio company board members, or to influence their appointment, and to determine or influence a determination of their compensation. Boyne Capital principals and employees and those appointed by them often serve on the boards of Fund portfolio companies. Additionally, from time to time, portfolio company board members approve compensation and other amounts payable to Boyne Capital in connection with services provided by the Firm and its affiliates to such portfolio company, and, except to the extent such amounts are subject to the partnership agreement's offset provision, are in addition to the Management Fee or Carried Interest. Boyne Capital's authority to appoint or influence the appointment of portfolio company board members who will potentially be involved in approving compensation payable to the Firm subjects Boyne Capital and any such portfolio company board appointees to potential conflicts of interest. Serving in such capacity can give rise to conflicts to the extent that an employee's fiduciary duties to a portfolio company as a director conflicts with the interests of a Fund in general; however, as the Funds will generally be significant shareholders of such companies, it is expected that such interests will generally be aligned. Any fees earned for sitting on such portfolio company boards by employees are offset against Management Fees; such fees earned by third parties appointed by Boyne Capital are not offset against Management Fees.

Employees and Service Providers. It is possible that Boyne Capital will, from time to time, employ personnel with pre-existing ownership interests in, or who were employed by portfolio companies owned by, Boyne Capital Funds; conversely, it is possible that former personnel or executives of Boyne Capital will serve in significant management roles at portfolio companies or at service providers recommended by Boyne Capital. Similarly, Boyne Capital and/or its personnel maintain relationships with (or may invest with or in) financial institutions, service providers and other market participants, including managers of private funds, law firms, banks and brokers. Certain of these persons or entities invest in, engage in transactions with and/or provide services (including services at reduced rates) to, Boyne Capital and/or the Funds.

Over the life of a Fund, Boyne Capital generally expects to exercise its discretion to recommend to the Funds or to a portfolio company thereof that it contracts for services with various service providers, potentially including, among others: (i) Boyne Capital (or an affiliate, which includes other portfolio companies of the Funds) and at rates determined or substantively influenced by Boyne Capital; (ii) an entity with which Boyne Capital or its affiliates or current or former members of their personnel has a relationship or from which such person derives a financial or other benefit; or (iii) an investor or its affiliates. This subjects Boyne Capital to potential conflicts of interest because although it intends to select service providers that it believes are aligned with its operational strategies and that will enhance portfolio company performance, Boyne Capital can have an incentive to recommend the related or other person because of its financial or business interest. Additionally, there is a possibility

that Boyne Capital, because of such incentive or for other reasons (including whether the use of such persons could establish, recognize, strengthen or cultivate relationships that have the potential to provide longer term benefits to Boyne Capital or the Funds), favors such retention or continuation even if a better price and/or quality of service provider could be obtained from another person. Whether or not Boyne Capital has a relationship with or receives financial or other benefit from recommending a particular service provider, there can be no assurance that no other service provider is more qualified to provide the applicable services or could provide such services at lesser cost.

Industry Relationships. As with many other private equity fund sponsors, as part of Boyne Capital's business, the principals, Boyne Capital and its employees have developed relationships with third parties which have the potential to raise conflicts of interest. Such third parties include investment bankers, lenders, consultants, professional advisors (such as attorneys and accountants), co-investors, current and former directors, officers and employees of current and former portfolio companies and former employees and members of Boyne Capital. Certain of these third parties will, on occasion: (i) introduce investment opportunities to Boyne Capital; (ii) arrange for, or facilitate the financing of, the purchase or recapitalization of current and potential portfolio companies; (iii) introduce portfolio companies to potential acquisition or merger candidates; (iv) facilitate the disposition of portfolio companies; or (v) provide investment banking, consulting, legal or advisory services to Boyne Capital, the Funds, or portfolio companies. Such third parties also on occasion provide goods or services to or have business, personal, political, financial or other relationships with the principals. In addition, such third parties are sometimes investors in one or more Funds; co-invest in one or more portfolio companies; or provide other significant business or investment services to Boyne Capital, the Funds and/or their portfolio companies. These relationships have the potential to influence Boyne Capital in deciding whether to select or recommend any such third party to perform services for the Funds or a portfolio company. The cost of any services provided by such third parties will generally be borne directly or indirectly by the Funds or its portfolio companies, as applicable.

Products or Services Received by Boyne Capital Funds from Portfolio Companies. From time to time, certain portfolio companies of the Funds provide Boyne Capital and its affiliates, employees, employee's friends and families, operating partners or board members of such portfolio companies appointed by Boyne Capital with products or services that such portfolio companies regularly produce or provide as part of their business operations at reduced rates or without charge.

Investment in Portfolio Companies by Boyne Capital Personnel. In addition to investment in a portfolio company by certain Co-Investment Funds, a Fund's General Partner may permit the General Partner, Boyne Capital and their respective members, partners, employees and affiliates (other than the Firm's Managing Partner or any of his affiliates or estate planning vehicles) to purchase for their own account up to \$250,000 of the aggregate amount of any portfolio company securities available for purchase by the Fund.

Intangible Benefits. Boyne Capital and its employees receive certain intangible and/or other benefits or perquisites arising or resulting from their activities on behalf of a Fund, including benefits and other discounts provided from service providers. For example, airline travel or hotel stays incurred as Fund expenses often result in “miles” or “points” or credit in loyalty/status programs to Boyne Capital and/or its employees, and such rewards or amounts will exclusively benefit Boyne Capital and/or such employees and will not be subject to the offset arrangements or otherwise shared with such Fund, its investors, or the portfolio companies.

Item 9 – Disciplinary Information

Like other registered investment advisers, Boyne Capital is required to disclose all material facts regarding any legal or disciplinary events that would materially impact an investor’s evaluation of Boyne Capital or the integrity of Boyne Capital’s management. Boyne Capital and its management persons have not been subject to any material legal or disciplinary events applicable to this Item.

On occasion, in the ordinary course of its business, Boyne Capital, the Funds, or the Funds’ portfolio companies (or their respective directors, and executive officers) may be named as defendants in a legal action. Although there can be no assurance of the outcome of such legal actions, Boyne Capital does not believe that any current legal proceedings or claims to which Boyne Capital, the Funds, or the Funds’ portfolio companies (or their respective directors, and executive officers) are a party, if any, would individually or in the aggregate materially affect an investor’s or prospective investor’s evaluation of the Firm or the integrity of the Firm’s management.

Item 10 – Other Financial Industry Activities and Affiliations

Neither Boyne Capital nor any of its management persons are registered or have an application pending to register as a broker-dealer or a registered representative of a broker-dealer. Neither Boyne Capital nor any of its management persons are registered, or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading adviser, or an associated person of the foregoing.

Boyne Capital does not have arrangements with a related person who is a broker-dealer, municipal securities dealer, government securities dealer or broker, investment company, other investment adviser or financial planner, futures commission merchant, commodity pool operator, commodity trading adviser, banking or thrift institution, accountant or accounting firm, lawyer or law firm, insurance company or agency, pension consultant, real estate broker or dealer, or sponsor or syndicator of limited partnerships that are material to its advisory business or to its Funds or its investors. Boyne Capital has and will continue to develop relationships with professionals who provide services it does not provide, including legal, accounting, banking, investment banking, tax preparation, insurance brokerage and other personal services. Some of these professionals provide

services to the Funds or their portfolio companies. Additionally, some of these professionals are investors in Boyne Capital Funds, either personally or indirectly through another entity.

As described above in Item 4, Boyne Capital is affiliated with the Funds' General Partners and relying adviser which are deemed registered with the SEC under the Advisers Act pursuant to Boyne Capital's registration. These General Partners and relying adviser operate as a single advisory business together with Boyne Capital and serve as the General Partner, other adviser, affiliate or managing members of private investment funds, co-investment funds and other pooled vehicles and share common owners, officers, partners, employees, consultants, third-party professionals or persons occupying similar positions. The General Partners and relying adviser do not have employees of their own.

From time to time, Boyne Capital receives training, information, promotional materials, meals, entertainment, gifts or prize drawings and other perquisites from vendors, and others with whom it does business or to whom it makes referrals. However, at no time will Boyne Capital accept any benefits, gifts, entertainment or other arrangements that are conditioned on directing individual Fund transactions to a specific investment, product or provider. Similarly, Boyne Capital employees have in the past, and expect in the future, to speak at conferences and programs for potential investors interested in investing in private funds that are sponsored by various investment bankers, broker-dealers or others. Through such capital introduction events, prospective investors have the opportunity to meet with Boyne Capital. Neither Boyne Capital nor any Fund compensates these investment bankers, broker-dealers or others for investments ultimately made by prospective investors attending such events other than registration, sponsorship, membership or other similar fees paid to attend such events.

Boyne Capital does not recommend or select other investment advisers for the Funds.

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Code of Ethics

Pursuant to Rule 204A-1 of the Advisers Act, Boyne Capital has adopted a written code of ethics ("Code of Ethics" or the "Code") that sets forth standards of conduct expected of supervised persons and addresses personal trading and reporting of personal securities transactions, gifts and entertainment and outside business activities, among other topics. The Code of Ethics requires all supervised persons to place Fund interests ahead of the Firm's interests, to avoid taking advantage of his or her position and to maintain full compliance with the federal securities laws.

Supervised persons are required to certify to their compliance with the Code of Ethics upon hire and on an annual basis. Supervised persons who violate the Code will be subject to remedial actions, including, but not limited to, censure, suspension or dismissal. Supervised persons are also required to promptly report any violations of the Code of which they become aware.

Boyne Capital will provide a copy of its Code of Ethics to any existing or prospective investor upon request to Boyne Capital's Chief Compliance Officer, (305) 856-9500 or vbarrett@boynecapital.com.

Personal Trading

The personal trading policy for Boyne Capital supervised persons is set forth in Boyne Capital's Code of Ethics and is acknowledged as received and understood by each supervised person. Boyne Capital's personal trading policies are designed to ensure that no Fund is disadvantaged by the transactions executed by a supervised person and that supervised persons in no respect misappropriate any benefit properly belonging to a Fund.

Boyne Capital's supervised persons are prohibited from trading, either personally or on behalf of others, in securities while in possession of material nonpublic information regarding publicly traded securities or communicating material nonpublic information about such securities to others. The Code of Ethics establishes guidelines for personal trading requirements, insider trading and reporting of personal securities transactions, including certain pre-clearance and reporting obligations. Boyne Capital maintains a restricted list of issuers about which it has or may have material nonpublic information. Pre-clearance is required by supervised persons for certain personal securities transactions, including trading in restricted list securities, initial public offerings and certain limited offerings. In addition, supervised persons are required to file certain reports and submit their brokerage account statements to the Chief Compliance Officer for review.

The principals and employees of Boyne Capital will occasionally carry on investment activities for their own account and for family members or others who do not invest in the Funds, and in connection therewith, can potentially give advice and recommend securities which differs from advice given to, or securities recommended or bought for, the Funds, even if their investment objectives are the same or similar. In addition, as mentioned above, a Fund's General Partner may permit the General Partner, Boyne Capital and their respective members, partners, employees and affiliates (other than the Firm's Managing Partner or any of his affiliates or estate planning vehicles) to purchase for their own account up to \$250,000 of the aggregate amount of any portfolio company securities available for purchase by the Fund. Any such transactions will require the pre-approval of the Chief Compliance Officer.

Participation or Interest in Client Transactions

Certain Boyne Capital employees and family members of Boyne Capital employees have invested in the Funds through the General Partner and/or as Fund investors or directly in portfolio companies. As mentioned in Item 5 above, Boyne Capital generally reduces all or a portion of the Management Fee and Carried Interest related to investments held by such persons.

Principal transactions are generally defined as transactions where an adviser, acting as principal for its own account, knowingly buys from or sells a security to an advisory client. This also applies to any affiliates or controlling persons of the adviser (*i.e.*, an owner, employee or affiliate of the adviser). Cross trades between Funds can also be deemed to be principal transactions if the adviser (and/or its affiliates, owners, or controlling persons) own, in the aggregate, 25% or more of either Fund. In the context of Boyne Capital's business, a principal transaction may refer to the practice of warehousing an investment for the formation of a future Fund. Agency cross transactions occur when an adviser or an affiliate arranges a transaction (*i.e.*, acts as broker) between two or more different funds or accounts that are managed by that same adviser or an affiliate. Agency cross transactions can also arise where an adviser is dually registered as a broker-dealer or has an affiliated broker-dealer. An adviser is not "acting as a broker" if the adviser receives no compensation (other than the advisory fee earned in the ordinary course of managing the assets) for effecting the transaction and therefore is not considered to be conducting an agency cross transaction under Section 206(3) of the Advisers Act. In the context of Boyne Capital's business, an agency cross transaction could occur when selling a portfolio company, investment or other asset from one Fund to another.

In the event Boyne Capital were to recommend a principal transaction or agency cross transaction, it would only be after: (i) the Firm has determined the transaction to be in the best interest of participating clients; (ii) the transaction is permitted by the relevant Governing Documents; (iii) proper disclosure is given to investors or an advisory committee, as appropriate; (iv) if necessary, consent is obtained from the appropriate parties; and (v) the Firm ensures that best execution is achieved for the transaction.

Conflicts of Interest

If any matter arises that Boyne Capital determines in its good faith constitutes an actual or apparent conflict of interest, Boyne Capital will take such actions as are necessary or appropriate, and as permitted by any applicable Fund's Governing Documents, to address the conflict.

Item 12 – Brokerage Practices

Generally, Boyne Capital focuses on securities transactions of private companies and purchases and sells such companies through privately negotiated transactions. In pursuing privately negotiated transactions, Boyne Capital will, on occasion, engage the services of a broker-dealer or investment banker in connection with the purchase and sale of a portfolio investment. In such privately negotiated transactions, best execution is met by the consummation of the deal with the best possible terms for the Fund. Whether for private or public securities transactions, Boyne Capital selects a broker-dealer or investment banker based on Boyne Capital's judgment regarding a variety of factors, which will not be limited solely to ultimate deal price, and including but not limited to: Boyne Capital's prior experience in working with the broker-dealer or investment banker; the broker-dealer or investment banker's execution capability, financial responsibility, reputation and expertise within the industry; the broker-dealer or investment banker's responsiveness to the Firm; the broker-dealer or

investment banker's expertise in dealing with investments that are restrictive or illiquid in nature; the value of any research services provides; and the commission rates, among other factors.

Although Boyne Capital generally seeks competitive commission rates, it will not necessarily pay the lowest commission or commission equivalent, especially in private securities transactions that rely heavily on the specialty services or experience of a broker-dealer or investment banker that operates outside of a competitive bidding environment. Transactions that involve such specialized services on the part of the broker-dealer or investment banker can thereby entail higher commissions, or their equivalents, than would be the case with other transactions requiring more routine services.

Boyne Capital does not receive research or other soft dollar benefits in connection with securities transactions for the Funds, does not receive investor client referrals in connection with selecting or recommending broker-dealers for the Funds, and does not engage in directed brokerage. In the event Boyne Capital were to aggregate the purchase or sale of securities for client accounts, it would do so on a pro rata basis and does not aggregate the purchase or sale of securities for Fund accounts.

Item 13 – Review of Accounts

The investment portfolios of each Fund are generally private, illiquid and long-term in nature and accordingly Boyne Capital's review of them is not directed toward a short-term decision to dispose of securities. Boyne Capital closely monitors the portfolio companies of its Funds and a team of investment professionals reviews, without limitation, sales trends, margins, profitability, debt-to-equity ratios, material business developments, competitive landscape and management. The team includes principals and other investment professionals of Boyne Capital.

The investment committee would perform additional reviews in the event that a portfolio company needed subsequent financing, in the event of a potential acquisition or liquidity event, or if there were a serious performance issue.

Boyne Capital provides to investors on behalf of the Main Funds the following written reports: (i) annual audited financial statements prepared in accordance with United States generally accepted accounting principles ("GAAP") as promulgated by the Financial Accounting Standards Board ("FASB"), accompanied by the report of the independent certified public accountant, within 120 days of fiscal year end; (ii) quarterly investor reports and capital statements; (iii) annual investor report and capital statement; and (iv) annual tax information necessary for the completion of tax returns (K-1). Reports for the Co-Investment Funds vary by investment, as determined with co-investors on a case-by-case basis, but generally include (i) quarterly and annual investor reports and (ii) for fiscal years 2019 and after, audited financial statements. The Firm also has contact with investors (*e.g.*, personal visits, telephone, email) throughout the year as conditions warrant.

In the course of conducting due diligence or otherwise, investors periodically request information pertaining to their investments. Boyne Capital responds to these requests, and in answering such requests, provides information that is not generally made available to other investors who have not requested such information. Additionally, upon request or agreement with the Firm, certain investors may receive additional information and reporting that other investors may not receive.

Item 14 – Client Referrals and Other Compensation

As described in Item 5 above, Boyne Capital receives break-up fees, monitoring fees, consulting fees, director's fees, transaction fees and other similar fees from the portfolio companies held by the Funds. These fees are paid pursuant to separate agreements entered into with the portfolio companies to provide certain consulting services that Boyne Capital believes will ultimately enhance the value of the companies and benefit the Funds and their investors.

These types of arrangements present potential conflicts of interest and provide Boyne Capital with an incentive to recommend investments based on compensation received rather than the best interests of the Funds. To help mitigate this potential conflict, an allocable portion of such benefits received by Boyne Capital or its employees in connection with services rendered to portfolio companies or transactions of the Funds are offset, in part or in whole, against Management Fees payable by the Funds, to the extent described above in Item 5 and as detailed in each Fund's Governing Documents.

When raising capital for a new Fund, Boyne Capital typically engages the services of a registered broker-dealer to serve as placement agent for Fund units. Fees for the placement agent generally are calculated based on a percentage of capital committed to the Fund. Placement agent fees are payable by the Funds and any such fees paid offset the Management Fee on a dollar-for-dollar basis, although related expenses incurred pursuant to the relevant placement agent or similar agreement, including but not limited to placement agent travel, meal and entertainment expenses, typically are borne by the relevant Fund as part of its organizational expenses. All placement agents engaged by Boyne Capital are registered broker-dealers.

Item 15 – Custody

Boyne Capital is deemed to have custody of the Funds' assets because of its affiliation with each Fund's General Partner and the General Partners' ability to deduct fees from Fund accounts. To comply with Advisers Act Rule 206(4)-2 (the "Custody Rule"), Boyne Capital has elected to undergo an annual GAAP financial statement audit by an independent public accountant registered with and subject to examination by the Public Company Accounting Oversight Board ("PCAOB") for each of the Funds over which it is deemed to have custody, copies of which are (or will be, for Funds not previously subject to the Advisers Act) delivered to the Funds and their respective investors within 120 days of fiscal year end. Investors are encouraged to carefully review such financial statements.

Boyne Capital does not, however, accept physical custody of any Fund assets (other than certain privately offered securities to the extent permitted by the Advisers Act). Called capital is directly sent or wired to the relevant Fund's account maintained with a qualified custodian. Boyne Capital receives monthly statements from each of its qualified custodians on behalf of the Funds. For more information about Boyne Capital's qualified custodians, please see Form ADV Part 1, Schedule D, Section 7.B.(1).

Item 16 – Investment Discretion

Boyne Capital generally receives and exercises complete discretionary authority to manage investments on behalf of the Funds as per the Governing Documents of each Fund. Investment advice is provided directly to the Funds, subject to the discretion and control of the relevant General Partner, and not to investors in the Funds individually. To become an investor in a Fund, an investor must execute, among other documents, a subscription agreement and a limited partnership agreement (or similar agreement) with such Fund. Such documents generally contain a power of attorney that grants Boyne Capital or the applicable Fund's General Partner certain powers related to the orderly administration of the affairs of the Funds. Once an investor executes these documents, with limited exceptions, such as certain conflicts of interest as discussed elsewhere in this Brochure, Boyne Capital is not required to contact such investor prior to transacting business in a Fund.

Item 17 – Voting Client Securities

By virtue of the applicable Governing Documents, Boyne Capital has the authority to vote proxy statements on behalf of the Funds. The majority of "proxies" received by Boyne Capital, however, are written shareholder consents or similar instruments for private companies owned by the Funds. As such, Boyne Capital has adopted proxy voting policies and procedures pursuant to Advisers Act Rule 206(4)-6. Boyne Capital's proxy voting policy seeks to ensure that it votes proxies in the best interest of the Funds, including where there are material conflicts of interest in voting proxies. Boyne Capital generally believes its interests are aligned with those of the Funds' investors through the principals' beneficial ownership interests in the Funds. However, in the event that there is a conflict of interest in voting proxies, Boyne Capital's proxy voting policy provides that the Firm can address the conflict using several alternatives, including by seeking the approval or concurrence of an advisory committee on the proposed proxy vote, or through other alternatives as set forth in Boyne Capital's proxy voting policy. Investors in the Funds cannot direct how Boyne Capital votes proxies or shareholder consents, nor is Boyne Capital required to seek investor approval or direction from investors when voting proxies or when giving consent on any matter requiring the consent of shareholders.

Firm principals and affiliated or unaffiliated third parties appointed by Boyne Capital often sit on the boards of portfolio companies to which Boyne Capital provides operational, management and consulting services and, as such, exercise authority with respect to various issues faced by the portfolio companies. Boyne Capital does not consider service on portfolio company boards by the

aforementioned persons or their receipt of nominal board fees, if any, to create a material conflict of interest in voting proxies with respect to such companies.

Boyne Capital will provide a copy of its proxy voting policy to investors upon request to Valerie Barrett, Chief Compliance Officer, at (305) 856-9500 or vbarrett@boynecapital.com. Investors can also obtain information from the Firm, free of charge, about how Boyne Capital voted any previous proxies, if any.

Item 18 – Financial Information

Boyne Capital does not require or solicit prepayment of more than \$1,200 in fees per Fund, six months or more in advance; has no financial condition reasonably likely to impair its ability to meet contractual commitments to the Funds or investors; and has not been the subject of a bankruptcy proceeding.

Brochure Supplement

BOYNE
CAPITAL

Form ADV Part 2B: BROCHURE SUPPLEMENT

BOYNE CAPITAL MANAGEMENT, LLC

2601 S. Bayshore Drive
Suite 1475
Miami, FL 33133
<https://www.boynecapital.com/>

June 28, 2019

This Brochure Supplement provides information about Boyne Capital Management, LLC (“Boyne Capital”) that supplements the Boyne Capital Brochure. Please contact Valerie Barrett at (305) 856-9500 or vbarrett@boynecapital.com if you did not receive Boyne Capital’s Brochure or if you have any questions about the contents of this supplement.

Additional information about Boyne Capital is available on the SEC’s website at www.adviserinfo.sec.gov.

Derek A. McDowell

Year of Birth: 1966

Managing Partner

2601 S. Bayshore Drive

Suite 1475

Miami, FL 33133

(305) 856-9500

Item 2 – Educational Background and Business Experience

Derek McDowell is the Managing Partner of Boyne Capital.

Prior to founding Boyne Capital, Mr. McDowell worked with private equity and management consulting firms, including: Trivest Partners, HIG Capital Management, Continental Illinois Venture Corporation and Corporate Value Associates.

Mr. McDowell earned a Bachelor of Arts degree from Dartmouth College and an MBA from the University of Chicago, Graduate School of Business.

Item 3 – Disciplinary Information

There are no disciplinary events material to an investor's evaluation of Mr. McDowell.

Item 4 – Other Business Activities

Mr. McDowell serves on the board of directors of several Boyne Capital portfolio companies. Mr. McDowell's appointment on such boards has been designated to be in the best interests of the Funds and their respective investors. Serving on portfolio company boards could lead to potential conflicts of interest. For example, a conflict of interests can arise between Mr. McDowell's fiduciary duties to the portfolio company on which he serves and his duty to Boyne Capital, as it is possible that decisions that are in the portfolio companies' best interests are not in Boyne Capital's best interests. As the Funds will generally be significant shareholders of such companies, it is expected that such interest will generally be aligned; however, in the event of a conflict of interest, Mr. McDowell intends to recuse himself from the decision making process. Mr. McDowell has in the past and may in the future serve on the boards of companies that are not Boyne Capital portfolio companies.

Boyne Capital does not believe that any of these outside business activities creates a conflict of interest with Boyne Capital or its Funds.

Item 5 Boyne Capital– Additional Compensation

Mr. McDowell does not receive an economic benefit for providing advisory services, other than the compensation he receives from Boyne Capital.

Item 6 – Supervision

For compliance matters, Mr. McDowell is supervised by Boyne Capital's Chief Compliance Officer, Valerie Barrett, who can be reached at (305) 856-9500 or at vbarrett@boynecapital.com. Mr. McDowell is subject to the provisions of the Firm's Compliance Manual and Code of Ethics. For investment matters, the investment committee is responsible for approving and monitoring all investments.

Adam Herman

Year of Birth: 1969

Chief Operating Officer

2601 S. Bayshore Drive

Suite 1475

Miami, FL 33133

(305) 856-9500

Item 2 – Educational Background and Business Experience

Adam Herman is the Chief Operating Officer of Boyne Capital.

Prior to joining Boyne Capital, Mr. Herman was Chief Operating Officer and Chief Financial Officer at VAS Aero, a portfolio company of HIG Capital. Previously, Mr. Herman served as Chief Operating Officer with Harren Equity Partners, a buyout fund focused on the lower middle market. Additionally, Mr. Herman previously held several senior executive level positions at private equity portfolio companies across several industries.

Mr. Herman received his undergraduate degree in accounting from the University of Florida.

Item 3 – Disciplinary Information

There are no disciplinary events material to an investor's evaluation of Mr. Herman.

Item 4 – Other Business Activities

Mr. Herman serves on the board of directors of several Boyne Capital portfolio companies. Mr. Herman's appointment on such boards has been designated to be in the best interests of the Funds and their respective investors. Serving on portfolio company boards could lead to potential conflicts of interest. For example, a conflict of interests can arise between Mr. Herman's fiduciary duties to the portfolio company on which he serves and his duty to Boyne Capital, as it is possible that decisions that are in the portfolio companies' best interests are not in Boyne Capital's best interests. As the Funds will generally be significant shareholders of such companies, it is expected that such interest will generally be aligned; however, in the event of a conflict of interest, Mr. Herman intends to recuse himself from the decision making process. Mr. Herman has in the past and may in the future serve on the boards of companies that are not Boyne Capital portfolio companies.

Boyne Capital does not believe that any of these outside business activities creates a conflict of interest with Boyne Capital or its Funds.

Item 5 Boyne Capital– Additional Compensation

Mr. Herman does not receive an economic benefit for providing advisory services, other than the compensation he receives from Boyne Capital.

Item 6 – Supervision

For compliance matters, Mr. Herman is supervised by Boyne Capital's Chief Compliance Officer, Valerie Barrett, who can be reached at (305) 856-9500 or at vbarrett@boynecapital.com. Mr. Herman is subject to the provisions of the Firm's Compliance Manual and Code of Ethics. For investment matters, the investment committee is responsible for approving and monitoring all investments.

Valerie Barrett

Year of Birth: 1967

Controller & Chief Compliance Officer

2601 S. Bayshore Drive

Suite 1475

Miami, FL 33133

(305) 856-9500

Item 2 – Educational Background and Business Experience

Valerie Barrett is Boyne Capital's Controller and Chief Compliance Officer. Prior to joining Boyne Capital, Ms. Barrett held several senior finance positions at large, multi-national corporations, including: Burger King Corporation, AT&T Wireless Services, Inc., BAX Global, Inc. and The Walt Disney Company.

Ms. Barrett has an undergraduate degree in accounting and management information systems from the University of Arizona, an MBA from the John E. Anderson Graduate School of Management at the University of California, and is also a Certified Public Accountant.

While state laws and regulations vary, for additional information regarding the minimum qualifications generally required to achieve and maintain a CPA designation, please refer to the American Institute of Certified Public Accountants (<https://www.aicpa.org/>).

Item 3 – Disciplinary Information

There are no disciplinary events material to an investor's evaluation of Ms. Barrett.

Item 4 – Other Business Activities

Ms. Barrett does not have any outside business activities that are believed to create a potential conflict of interest with Boyne Capital or its Funds.

Item 5 Boyne Capital– Additional Compensation

Ms. Barrett does not receive an economic benefit for providing advisory services, other than the compensation she receives from Boyne Capital.

Item 6 – Supervision

For compliance matters, Ms. Barrett is supervised by Boyne Capital's Managing Partner, Derek McDowell, who can be reached at (305) 856-9500 or at dmcdowell@boynecapital.com. Ms. Barrett is subject to the provisions of the Firm's Compliance Manual and Code of Ethics. For investment matters, the investment committee is responsible for approving and monitoring all investments.
