This program is sponsored by the CFP Board of Standards. Before applying for the CFP® Certification Examination, you need to meet the six course education requirements (or their equivalent) as set by CFP Board as well as a financial plan development course registered with CFP Board. Additionally, a bachelor's degree (or higher), or its equivalent, in any discipline, from an accredited college or university is required to attain CFP® certification. Additional requirements include successful completion of the CFP® Certification Examination, which tests your ability to apply your financial planning knowledge to client situations. The 10-hour exam is divided into three separate sessions. Because of the integrated nature of financial planning, however, each session may cover all topic areas (personal financial planning, risk management, income taxes, investments, retirement planning, and estate planning). In addition to the education requirements, there is an experience requirement, which is

currently at least three years of qualifying full-time work experience in personal financial planning. There are additional requirements for candidates and registrants to pass Fitness Standards and a Background Check and to agree to abide by CFP Board's [Code of Ethics and Professional Responsibility](#), [Rules of Conduct](#) and [Financial Planning Practice Standards](#). Certificants must continue to meet continuing education requirements which presently include obtaining 30 hours of continuing education in selected subjects every two calendar years, including a two-hour CFP Ethics course.
