This brochure provides information about the qualifications and business practices of Firethorn Wealth Partners (hereinafter “Firethorn Wealth Partners” or the “Firm”). If you have any questions about the contents of this brochure, please contact the Firm at the telephone number listed above. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission (SEC) or by any state securities authority. Additional information about the Firm is available on the SEC’s website at www.adviserinfo.sec.gov. The Firm is a registered investment adviser. Registration does not imply any level of skill or training.

Item 2. Material Changes

In this Item, Firethorn Wealth Partners, LLC is required to discuss any material changes that have been made to the brochure since the last annual amendment. This is the first annual amendment filed on behalf of the Firm. There are no material changes from the 120 eligibility requirement filing.

Item 3. Table of Contents

Item 2. Material Changes	2
Item 3. Table of Contents	3
Item 4. Advisory Business	4
Item 5. Account Requirements and Types of Clients	8
Item 9. Additional Information	11

Item 4. Advisory Business

The Firm offers discretionary investment management and investment advisory services. Prior to the Firm rendering any of the foregoing advisory services, clients are required to enter into one or more written agreements with the Firm setting forth the relevant terms and conditions of the advisory relationship (the “Advisory Agreement”).

Firethorn Wealth Partners, LLC has been registered as an investment adviser since 2018 and is owned by Scott Benjamin, Kevin Sweeney and Gerald Rogers. As of December 31, 2018, Firethorn has \$144,387,568 in assets under management for 365 clients. These assets are managed on a discretionary basis.

The Firethorn Wealth Partners Wrap Program (the “Program”) is an investment advisory program sponsored by Firethorn Wealth Partners. Prior to Firethorn Wealth Partners rendering any of the foregoing advisory services, clients are required to enter into one or more written agreements with Firethorn Wealth Partners setting forth the relevant terms and conditions of the advisory relationship (the “Advisory Agreement”).

While this brochure generally describes the business of the Firm, certain sections also discuss the activities of its Supervised Persons, which refer to the Firm’s officers, partners, directors (or other persons occupying a similar status or performing similar functions), employees or any other person who provides investment advice on the Firm’s behalf and is subject to the Firm’s supervision or control.

Description of the Program

The Program is offered as a wrap fee program, which provides clients with the ability to trade in certain investment products without incurring separate brokerage commissions or transaction charges. A wrap fee program is considered any arrangement under which clients receive investment advisory services (which may include portfolio management or advice concerning the selection of other investment advisers) and the execution of client transactions for a specified fee or fees not based upon transactions in their accounts. Clients must also open a new securities brokerage account and complete a new account agreement with TD Ameritrade Advisor Services™ (“TD Ameritrade”) or another broker-dealer that Firethorn Wealth Partners approves under the Program (collectively “Financial Institutions”).

At the onset of the Program, clients complete an investor profile describing their individual investment objectives, liquidity and cash flow needs, time horizon and risk tolerance, as well as any other factors pertinent to their specific financial situations. After an analysis of the relevant information, Firethorn Wealth Partners assists its clients in developing an appropriate strategy for managing their assets. Clients’ investment portfolios are generally managed on a discretionary or non-discretionary basis by Firethorn Wealth Partners.

Wealth Management Services

Firethorn Wealth Partners provides clients with wealth management services which may include a broad range of comprehensive financial planning and consulting services as well as discretionary and/or non-discretionary management of investment portfolios.

Under an investment management engagement, Firethorn Wealth Partners primarily allocates client assets among various individual equity and debt securities, fixed income, mutual funds and exchange-traded funds (“ETFs”) in accordance with their stated investment objectives.

Where appropriate, Firethorn Wealth Partners may also provide advice about any type of legacy position or other investment held in client portfolios. Clients may engage Firethorn Wealth Partners to manage and/or advise on certain investment products that are not maintained at their primary custodian, such as variable life insurance and annuity contracts and assets held in employer sponsored retirement plans. In these situations, Firethorn Wealth Partners directs or recommends the allocation of client assets among the various investment options available with the product. These assets are generally maintained at the underwriting insurance company or the custodian designated by the product’s provider.

The Firm tailors its advisory services to meet the needs of its individual clients and seeks to ensure, on a continuous basis, that client portfolios are managed in a manner consistent with those needs and objectives. The Firm consults with clients on an initial and ongoing basis to assess their specific risk tolerance, time horizon, liquidity constraints and other related factors relevant to the management of their portfolios. Clients are advised to promptly notify Firethorn Wealth Partners if there are changes in their financial situation or if they wish to place any limitations on the management of their portfolios. Clients may impose reasonable restrictions or mandates on the management if the Firm determines, in its sole discretion, the conditions would not materially impact the performance of a management strategy or prove overly burdensome to the Firm’s management efforts.

Use of Independent Managers

As mentioned above, Firethorn Wealth Partners may select certain Independent Managers or Sub-Advisors to actively manage a portion of its clients’ assets. The specific terms and conditions under which a client engages an Independent Manager may be set forth in a separate written agreement with the designated Independent Manager. In addition to this brochure, clients may also receive the written disclosure documents of the respective Independent Managers engaged to manage their assets.

The Firm evaluates a variety of information about Independent Managers, which may include the Independent Managers’ public disclosure documents, materials supplied by the Independent Managers themselves and other third-party analyses it believes are reputable. To the extent possible, the Firm seeks to assess the Independent Managers’ investment strategies, past performance and risk results in relation to its clients’ individual portfolio allocations and risk exposure. The Firm also takes into consideration each

Independent Manager's management style, returns, reputation, financial strength, reporting, pricing and research capabilities, among other factors.

The Firm continues to provide services relative to the discretionary or non-discretionary selection of Independent Managers. On an ongoing basis, the Firm monitors the performance of those accounts being managed by Independent Manager. The Firm seeks to ensure the Independent Managers' strategies and target allocations remain aligned with its clients' investment objectives and overall best interests.

Fees for Participation in the Program

The Program is offered on a fee basis, meaning participants pay a single annualized fee based upon assets under management ("Program Fee").

Firethorn Wealth Partners offers investment management for an annual fee based on the amount of assets under management. This management fee generally varies between 50 and 150 basis points (0.50% - 1.50%), depending on the size and composition of a client's portfolio and the type of services rendered.

The annual fee is prorated and charged monthly, in advance, based upon the market value of the assets being managed by the Firm on the last day of the previous billing period.

If assets in excess of \$10,000 are deposited into or withdrawn from an account after the inception of a billing period, the fee payable with respect to such assets is adjusted to reflect the interim change in portfolio value. For the initial period of an engagement, the fee is calculated on a pro rata basis. In the event the advisory agreement is terminated, the fee for the final billing period is prorated through the effective date of the termination and the outstanding or unearned portion of the fee is charged or refunded to the client, as appropriate.

Additionally, for asset management services the Firm provides with respect to certain client holdings (e.g., held-away assets, accommodation accounts, alternative investments, etc.), the Firm may negotiate a fee rate that differs from the range set forth above.

Fee Comparison

As referenced above, a portion of the fees paid to Firethorn Wealth Partners are used to cover the securities brokerage commissions and transactional costs attributed to the management of its clients' portfolios.

Services provided through the Program may cost clients more or less than purchasing these services separately. The number of transactions made in clients' accounts, as well as the commissions charged for each transaction, determines the relative cost of the Program versus paying for execution on a per transaction basis and paying a separate fee for advisory services. Therefore, the Firm has an incentive to place less

trades for client's in the Program since the Firm incurs transaction expenses. Fees paid for the Program may also be higher or lower than fees charged by other sponsors of comparable investment advisory programs.

Fee Discretion

Firethorn Wealth Partners, in its sole discretion, may negotiate to charge a lesser fee based upon certain criteria, such as anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, pre-existing/legacy client relationship, account retention and pro bono activities.

Other Charges

In addition to the advisory fees paid to Firethorn Wealth Partners, clients may also incur certain charges imposed by other third parties, such as broker-dealers, custodians, trust companies, banks and other financial institutions. These additional charges may include fees attributable to reporting charges, margin costs, charges imposed directly by a mutual fund or ETF in a client's account, as disclosed in the fund's prospectus (e.g., fund Program Fees and other fund expenses), fees and commission for assets not held with TD Ameritrade (such as 401(k) or 529 plan assets), fees for trades executed away from the custodian, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees.

Direct Fee Debit

Clients generally provide Firethorn Wealth Partners with the authority to directly debit their accounts for payment of the investment advisory fees. The Financial Institutions that act as the qualified custodian for client accounts, from which the Firm retains the authority to directly deduct fees, have agreed to send statements to clients not less than quarterly detailing all account transactions, including any amounts paid to Firethorn Wealth Partners.

Account Additions and Withdrawals

Clients may make additions to and withdrawals from their account at any time, subject to Firethorn Wealth Partners' right to terminate an account. Additions may be in cash or securities provided that the Firm reserves the right to liquidate any transferred securities or decline to accept particular securities into a client's account. Clients may withdraw account assets on notice to Firethorn Wealth Partners, subject to the usual and customary securities settlement procedures. However, Firethorn Wealth Partners designs its portfolios as long-term investments and the withdrawal of assets may impair the achievement of a client's investment objectives. Firethorn Wealth Partners may consult with its clients about the options and implications of transferring securities. Clients are advised that when transferred securities are liquidated, they may be subject to transaction fees, fees assessed at the mutual fund level (e.g., contingent deferred sales charge) and/or tax ramifications.

Compensation for Recommending the Program

Firethorn Wealth Partners has no internal arrangements in place whereby persons recommending the Program are entitled to receive additional compensation as a result of clients' participation. A person recommending the Program will not earn more compensation than he or she would otherwise receive if a client elected another investment management program.

Item 5. Account Requirements and Types of Clients

Firethorn Wealth Partners offers services to individuals, pension and profit sharing plans, trusts, estates, charitable organizations, corporations and business entities.

Minimum Account Value and Fee

The Firm does not impose a stated minimum fee or minimum portfolio value for starting and maintaining an investment management relationship.

Side-By-Side Management

Firethorn Wealth Partners does not provide any services for a performance-based fee (i.e., a fee based on a share of capital gains or capital appreciation of a client's assets).

Methods of Analysis and Investment Strategies

Firethorn Wealth Partners may utilize several methods of analysis when structuring client portfolios including fundamental analysis and technical analysis.

Fundamental analysis involves the fundamental financial condition and competitive position of a company. Firethorn Wealth Partners may analyze the financial condition, capabilities of management, earnings, new products and services, as well as the company's markets and position amongst its competitors in order to determine the recommendations made to clients. The primary risk in using fundamental analysis is that while the overall health and position of a company may be good, market conditions may negatively impact the security.

Technical analysis involves the analysis of past market data rather than specific company data in determining the recommendations made to clients. Technical analysis may involve the use of charts to identify market patterns and trends which may be based on investor sentiment rather than the fundamentals of the company. The primary risk in using technical analysis is that spotting historical trends may not help to predict such trends in the future. Even if the trend will eventually reoccur, there is no guarantee that Firethorn Wealth Partners will be able to accurately predict such a reoccurrence.

To implement its recommendations, the Firm primarily allocates client assets among various individual

equity and debt securities, fixed income, mutual funds and exchange-traded funds (“ETFs”) in accordance with their stated investment objectives. On a more limited basis, the Firm may utilize mutual funds or other securities to meet a client’s investment needs.

Risk of Loss

Market Risks

Investing involves risk, including the potential loss of principal, and all investor should be guided accordingly. The profitability of a significant portion of Firethorn Wealth Partners’ recommendations and/or investment decisions may depend to a great extent upon correctly assessing the future course of price movements of stocks, bonds and other asset classes. There can be no assurance that Firethorn Wealth Partners will be able to predict those price movements accurately or capitalize on any such assumptions.

Mutual Funds and Exchange Traded Funds (ETFs)

An investment in a mutual fund or exchange traded funds (ETFs) involves risk, including the loss of principal. Mutual fund and ETF shareholders are necessarily subject to the risks stemming from the individual issuers of the fund’s underlying portfolio securities. Such shareholders are also liable for taxes on any fund-level capital gains, as mutual funds and ETFs are required by law to distribute capital gains in the event they sell securities for a profit that cannot be offset by a corresponding loss.

Shares of mutual funds are generally distributed and redeemed on an ongoing basis by the fund itself or a broker acting on its behalf. The trading price at which a share is transacted is equal to a fund’s stated daily per share net asset value (“NAV”), plus any shareholders fees (e.g., sales loads, purchase fees, redemption fees). The per share NAV of a mutual fund is calculated at the end of each business day, although the actual NAV fluctuates with intraday changes to the market value of the fund’s holdings. The trading prices of a mutual fund’s shares may differ significantly from the NAV during periods of market volatility, which may, among other factors, lead to the mutual fund’s shares trading at a premium or discount to actual NAV. Shares of ETFs are listed on securities exchanges and transacted at negotiated prices in the secondary market. Generally, ETF shares trade at or near their most recent NAV, which is generally calculated at least once daily for indexed based ETFs and potentially more frequently for actively managed ETFs. However, certain inefficiencies may cause the shares to trade at a premium or discount to their pro rata NAV. There is also no guarantee that an active secondary market for such shares will develop or continue to exist. Generally, an ETF only redeems shares when aggregated as creation units (usually 20,000 shares or more). Therefore, if a liquid secondary market ceases to exist for shares of a particular ETF, a shareholder may have no way to dispose of such shares.

Use of Independent Managers

As stated above, Firethorn Wealth Partners may select certain Independent Managers to manage a portion of its clients’ assets. In these situations, Firethorn Wealth Partners continues to conduct ongoing due diligence of such managers, but such recommendations rely to a great extent on the Independent Managers’ ability to successfully implement their investment strategies. In addition, Firethorn Wealth Partners

generally may not have the ability to supervise the Independent Managers on a day-to-day basis.

Voting of Client Securities

Firethorn Wealth Partners may accept the authority to vote a client's securities (i.e., proxies) on their behalf. When Firethorn Wealth Partners accepts such responsibility, it will only cast proxy votes in a manner consistent with the best interest of its clients. Absent special circumstances, which are fully-described in the Firm's Proxy Voting Policies and Procedures, all proxies will be voted consistent with guidelines established and described in Firethorn Wealth Partners' Proxy Voting Policies and Procedures, as they may be amended from time-to-time. Clients may contact Firethorn Wealth Partners to request information about how the Firm voted proxies for that client's securities or to get a copy of Firethorn Wealth Partners' Proxy Voting Policies and Procedures. A brief summary of Firethorn Wealth Partners' Proxy Voting Policies and Procedures is as follows:

- Firethorn Wealth Partners will be responsible for monitoring corporate actions, making voting decisions in the best interest of clients, and ensuring that proxies are submitted in a timely manner.
- Firethorn Wealth Partners will generally vote proxies according to Firethorn Wealth Partners' then current Proxy Voting Guidelines. The Proxy Voting Guidelines include many specific examples of voting decisions for the types of proposals that are most frequently presented, including: composition of the board of directors; approval of independent auditors; management and director compensation; anti-takeover mechanisms and related issues; changes to capital structure; corporate and social policy issues; and issues involving mutual funds.
- Although the Proxy Voting Guidelines are followed as a general policy, certain issues are considered on a case-by-case basis based on the relevant facts and circumstances. Since corporate governance issues are diverse and continually evolving, the Firm devotes an appropriate amount of time and resources to monitor these changes.
- Clients cannot direct Firethorn Wealth Partners' vote on a particular solicitation but can revoke the Firm's authority to vote proxies.

In situations where there may be a conflict of interest in the voting of proxies due to business or personal relationships that Firethorn Wealth Partners maintains with persons having an interest in the outcome of certain votes, the Firm takes appropriate steps to ensure that its proxy voting decisions are made in the best interest of its clients and are not the product of such conflict.

Item 9. Additional Information

Disciplinary Information

Firethorn Wealth Partners has not been involved in any legal or disciplinary events that are material to a client's evaluation of its advisory business or the integrity of its management.

Other Financial Industry Activities and Affiliations

This item requires investment advisers to disclose certain financial industry activities and affiliations. There are none to report at this time.

Code of Ethics

The Firm has adopted a code of ethics in compliance with applicable securities laws ("Code of Ethics") that sets forth the standards of conduct expected of its Supervised Persons. The Firm's Code of Ethics contains written policies reasonably designed to prevent certain unlawful practices such as the use of material non-public information by the Firm or any of its Supervised Persons and the trading by the same of securities ahead of clients in order to take advantage of pending orders.

The Code of Ethics also requires certain of the Firm's personnel to report their personal securities holdings and transactions and obtain pre-approval of certain investments (e.g., initial public offerings, limited offerings). However, the Firm's Supervised Persons are permitted to buy or sell securities that it also recommends to clients if done in a fair and equitable manner that is consistent with the Firm's policies and procedures. This Code of Ethics has been established recognizing that some securities trade in sufficiently broad markets to permit transactions by certain personnel to be completed without any appreciable impact on the markets of such securities. Therefore, under limited circumstances, exceptions may be made to the policies stated below.

When the Firm is engaging in or considering a transaction in any security on behalf of a client, no Supervised Person will access to this information may knowingly effect for themselves or for their immediate family (i.e., spouse, minor children and adults living in the same household) a transaction in that security unless:

- the transaction has been completed;
- the transaction for the Supervised Person is completed as part of a batch trade with clients; or
- a decision has been made not to engage in the transaction for the client.

These requirements are not applicable to: (i) direct obligations of the Government of the United States; (ii) money market instruments, bankers' acceptances, bank certificates of deposit, commercial paper, repurchase agreements and other high quality short-term debt instruments, including repurchase agreements; (iii) shares issued by mutual funds or money market funds; and (iv) shares issued by unit

investment trusts that are invested exclusively in one or more mutual funds.

Clients and prospective clients may contact the Firm to request a copy of its Code of Ethics.

Account Reviews

The Firm monitors client portfolios on a continuous and ongoing basis while regular account reviews are conducted on at least an annual basis. Such reviews are conducted by the Firm's Investment Committee and/or investment adviser representatives and are intended to fulfil the Firm's fiduciary obligations to their advisory clients. All advisory clients are encouraged to discuss their needs, goals and objectives with Firethorn Wealth Partners and to keep the Firm informed of any changes thereto. Firethorn Wealth Partners contacts ongoing investment advisory clients at least annually to review its previous services and/or recommendations and quarterly to discuss the impact resulting from any changes in the client's financial and/or investment objectives.

Account Statements and General Reports

Clients are provided with transaction confirmation notices and regular summary account statements directly from the Financial Institutions where their assets are custodied. From time-to-time or as otherwise requested, clients may also receive written or electronic reports from the Firm and/or an outside service provider, which contain certain account and/or market-related information, such as an inventory of account holdings or account performance. Clients should compare the account statements they receive from their custodian with any documents or reports they receive from the Firm or an outside service provider.

Client Referrals

The Firm may provide compensation to third-party solicitors for client referrals. In the event a client is introduced to the Firm by either an unaffiliated or an affiliated solicitor, the Firm may pay that solicitor a referral fee in accordance with applicable state securities laws. Unless otherwise disclosed, any such referral fee is paid solely from the Firm's investment management fee and does not result in any additional charge to the client. If the client is introduced to the Firm by an unaffiliated solicitor, the solicitor is required to provide the client with the Firm's written brochure(s) and a copy of a solicitor's disclosure statement containing the terms and conditions of the solicitation arrangement. Any affiliated solicitor of the Firm is required to disclose the nature of his or her relationship to prospective clients at the time of the solicitation and will provide all prospective clients with a copy of the Firm's written brochure(s) at the time of the solicitation.

Receipt of Economic Benefit and Brokerage Practices

Advisor participates in the TD Ameritrade Institutional program. TD Ameritrade Institutional is a division of TD Ameritrade, Inc. ("TD Ameritrade"), member FINRA/SIPC. TD Ameritrade is an independent [and unaffiliated] SEC-registered broker-dealer. TD Ameritrade offers to independent investment Advisors services

which include custody of securities, trade execution, clearance and settlement of transactions. Advisor receives some benefits from TD Ameritrade through its participation in the program. Factors which Firethorn Wealth Partners considers in recommending TD Ameritrade or any other broker-dealer to clients include their respective financial strength, reputation, execution, pricing, research and service.

The execution clients receive from TD Ameritrade will comply with the Firm's duty to obtain "best execution." In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a Financial Institution's services, including among others, the value of research provided, execution capability, commission rates and responsiveness.

Consistent with obtaining best execution, brokerage transactions may be directed to certain broker/dealers in return for investment research products and/or services which assist Firethorn Wealth Partners in its investment decision-making process. The receipt of investment research products and/or services as well as the allocation of the benefit of such investment research products and/or services poses a conflict of interest because Firethorn Wealth Partners does not have to produce or pay for the products or services.

Firethorn Wealth Partners periodically and systematically reviews its policies and procedures regarding its recommendation of Financial Institutions in light of its duty to obtain best execution.

Firethorn Wealth Partners may receive without cost from TD Ameritrade computer software and related systems support, which allow Firethorn Wealth Partners to better monitor client accounts maintained at TD Ameritrade. Firethorn Wealth Partners may receive the software and related support without cost because the Firm renders investment management services to clients that maintain assets at TD Ameritrade. The software and support is not provided in connection with securities transactions of clients (i.e., not "soft dollars"). The software and related systems support may benefit Firethorn Wealth Partners, but not its clients directly. In fulfilling its duties to its clients, Firethorn Wealth Partners endeavors at all times to put the interests of its clients first. Clients should be aware, however, that Firethorn Wealth Partners' receipt of economic benefits from a broker/dealer creates a conflict of interest since these benefits may influence the Firm's choice of broker/dealer over another that does not furnish similar software, systems support or services.

Specifically, Firethorn Wealth Partners may receive the following benefits from TD Ameritrade:

- Receipt of duplicate client confirmations and bundled duplicate statements;
- Access to a trading desk that exclusively services its institutional traders;
- Access to block trading which provides the ability to aggregate securities transactions and then allocate the appropriate shares to client accounts; and

- Access to an electronic communication network for client order entry and account information.

Firethorn Wealth Partners does not consider, in selecting or recommending broker/dealers, whether the Firm receives client referrals from the Financial Institutions or other third party.

Financial Information

Firethorn Wealth Partners is not required to disclose any financial information due to the following:

- The Firm does not require or solicit the prepayment of more than \$1,200 in fees six months or more in advance of services rendered;
- The Firm does not have a financial condition that is reasonably likely to impair its ability to meet contractual commitments to clients; and
- The Firm has not been the subject of a bankruptcy petition at any time during the past ten years.
