Item 4: Advisory Business

A. Description of the Advisory Firm

Trowbridge Capital Partners LLC. (hereinafter “Trowbridge”) is a Limited Liability Company organized in the State of New York. The firm was formed in May 2018, and the principal owners are Brett Golden, Louis Lukac and Stan Dickson.

B. Types of Advisory Services

Portfolio Management Services

Trowbridge offers ongoing portfolio management services based on the individual goals, objectives, time horizon, and risk tolerance of each client. Trowbridge creates an Investment Policy Statement for each client, which outlines the client’s current situation (income, tax levels, and risk tolerance levels). Portfolio management services include, but are not limited to, the following:

- Investment strategy
- Asset allocation
- Risk tolerance
- Personal investment policy
- Asset selection
- Regular portfolio monitoring

Trowbridge evaluates the current investments of each client with respect to their risk tolerance levels and time horizon. Trowbridge will require discretionary authority from clients in order to select securities and execute transactions without permission from the client prior to each transaction. Risk tolerance levels are documented in the Investment Policy Statement, which is given to each client.

Trowbridge seeks to provide that investment decisions are made in accordance with the fiduciary duties owed to its accounts and without consideration of Trowbridge’s economic, investment or other financial interests. To meet its fiduciary obligations, Trowbridge attempts to avoid, among other things, investment or trading practices that systematically advantage or disadvantage certain client portfolios, and accordingly, Trowbridge’s policy is to seek fair and equitable allocation of investment opportunities/transactions among its clients to avoid favoring one client over another over time. It is Trowbridge’s policy to allocate investment opportunities and transactions it identifies as being appropriate and prudent among its clients on a fair and equitable basis over time.

Subadvisor Services

Trowbridge may also act as a subadvisor to advisers unaffiliated with Trowbridge. These third-party advisers would outsource portfolio management services to Trowbridge. This

relationship will be memorialized in each contact between Trowbridge and the third-party adviser.

Services Limited to Specific Types of Investments

Trowbridge generally limits its investment advice to equities, although Trowbridge primarily recommends yes mid to large cap u.s. equities. Trowbridge may use other securities as well to help diversify a portfolio when applicable.

C. Client Tailored Services and Client Imposed Restrictions

Trowbridge offers the same suite of services to all of its clients. However, specific client investment strategies and their implementation are dependent upon the client Investment Policy Statement which outlines each client's current situation (income, tax levels, and risk tolerance levels). Clients may not impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs.

Item 8: Methods of Analysis, Investment Strategies, & Risk of Loss

A. Methods of Analysis and Investment Strategies

Methods of Analysis & Investment Strategies

Trowbridge's methods of analysis include Quantitative analysis.

Quantitative analysis deals with measurable factors as distinguished from qualitative considerations such as the character of management or the state of employee morale, such as the value of assets, the cost of capital, historical projections of sales, and so on. Quantitative analysis Investment strategies using quantitative models may perform differently than expected as a result of, among other things, the factors used in the models, the weight placed on each factor, changes from the factors' historical trends, and technical issues in the construction and implementation of the models.

We are typically holding securities between 50 to 200 days long.

Dynamic Alpha

The strategy invests in the S&P 500 universe with a maximum equity allocation of 35 stocks and can move to 100% cash if the S&P 500 experiences significant technical weakness. The portfolio seeks to outperform the S&P 500 during bull markets by aggressively allocating to the strongest names within the S&P 500 and quickly capture new regime changes.

Concentrated Aggressive Growth

The strategy invests in the S&P 500 universe with a maximum equity allocation of 20 stocks and can move to 100% cash if the S&P 500 experiences significant technical weakness. The portfolio seeks high growth companies that do not provide dividends. The portfolio seeks to outperform the S&P 500 during bull markets by aggressively allocating to the strongest names within the S&P 500 and quickly capture new regime changes. This strategy has the greatest risk/reward of Trowbridge's universe of portfolios.

Dynamic Low Volatility

The Dynamic Low Volatility portfolio will constantly readjust the portfolio's correlation to the S&P 500 and volatility based on the overall health of the S&P 500. The Strategy identifies and invests in the strongest S&P 500 stocks with both lower beta and lower volatility than the S&P 500 during sideways or non-trending periods. During normal market environments, the portfolio will target a 60% correlation to the S&P 500. During strong upwardly trending periods, the portfolio will seek to increase both risk and correlation to the S&P 500 to increase potential return.

The portfolio seeks to capture upside returns, while mitigating downside volatility depending on market conditions, therefore focusing on outperforming the S&P 500 during bear markets. Lastly, the portfolios have the ability to move into 100 percent of cash during market distress.

Custom Solutions

Trowbridge's Code of Ethics is available free upon request to any client or prospective client.

B. Recommendations Involving Material Financial Interests

Trowbridge does not recommend that clients buy or sell any security in which a related person to Trowbridge or Trowbridge has a material financial interest.

C. Investing Personal Money in the Same Securities as Clients

From time to time, representatives of Trowbridge may buy or sell securities for themselves that they also recommend to clients. This may provide an opportunity for representatives of Trowbridge to buy or sell the same securities before or after recommending the same securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. Trowbridge will always document any transactions that could be construed as conflicts of interest and will never engage in trading that operates to the client's disadvantage when similar securities are being bought or sold.

D. Trading Securities At/Around the Same Time as Clients' Securities

From time to time, representatives of Trowbridge may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of Trowbridge to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest; however, Trowbridge will never engage in trading that operates to the client's disadvantage if representatives of Trowbridge buy or sell securities at or around the same time as clients.

Item 12: Brokerage Practices

A. Factors Used to Select Custodians and/or Broker/Dealers

Custodians/broker-dealers will be recommended based on Trowbridge's duty to seek "best execution," which is the obligation to seek execution of securities transactions for a client on the most favorable terms for the client under the circumstances. Clients will not necessarily pay the lowest commission or commission equivalent, and Trowbridge may also consider the market expertise and research access provided by the broker-dealer/custodian, including but not limited to access to written research, oral communication with analysts, admittance to research conferences and other resources provided by the brokers that may aid in Trowbridge's research efforts. Trowbridge will never charge a premium or commission on transactions, beyond the actual cost imposed by the broker-dealer/custodian.

Trowbridge recommends Fidelity Brokerage Services LLC, Charles Schwab & Co., Inc. Advisor Services and Interactive Brokers LLC.

1. Research and Other Soft-Dollar Benefits

While Trowbridge has no formal soft dollars program in which soft dollars are used to pay for third party services, Trowbridge may receive research, products, or other services from custodians and broker-dealers in connection with client securities transactions ("soft dollar benefits"). Trowbridge may enter into soft-dollar arrangements consistent with (and not outside of) the safe harbor contained in Section 28(e) of the Securities Exchange Act of 1934, as amended. There can be no assurance that any particular client will benefit from soft dollar research, whether or not the client's transactions paid for it, and Trowbridge does not seek to allocate benefits to client accounts proportionate to any soft dollar credits generated by the accounts. Trowbridge benefits by not having to produce or pay for the research, products or services, and Trowbridge will have an incentive to recommend a broker-dealer based

on receiving research or services. Clients should be aware that Trowbridge's acceptance of soft dollar benefits may result in higher commissions charged to the client.

2. Brokerage for Client Referrals

Trowbridge receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

Trowbridge may permit clients to direct it to execute transactions through a specified broker-dealer. If a client directs brokerage, then the client will be required to acknowledge in writing that the client's direction with respect to the use of brokers supersedes any authority granted to Trowbridge to select brokers; this direction may result in higher commissions, which may result in a disparity between free and directed accounts; the client may be unable to participate in block trades (unless Trowbridge is able to engage in "step outs"); and trades for the client and other directed accounts may be executed after trades for free accounts, which may result in less favorable prices, particularly for illiquid securities or during volatile market conditions. Not all investment advisers allow their clients to direct brokerage.

B. Aggregating (Block) Trading for Multiple Client Accounts

If Trowbridge buys or sells the same securities on behalf of more than one client, then it may (but would be under no obligation to) aggregate or bunch such securities in a single transaction for multiple clients in order to seek more favorable prices, lower brokerage commissions, or more efficient execution. In such case, Trowbridge would place an aggregate order with the broker on behalf of all such clients in order to ensure fairness for all clients; provided, however, that trades would be reviewed periodically to ensure that accounts are not systematically disadvantaged by this policy. Trowbridge would determine the appropriate number of shares and select the appropriate brokers consistent with its duty to seek best execution, except for those accounts with specific brokerage direction (if any).

Item 13: Review of Accounts

A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews

All client accounts for Trowbridge's advisory services provided on an ongoing basis are reviewed at least Quarterly by Brett Golden, President, with regard to clients' respective investment policies and risk tolerance levels. All accounts at Trowbridge are assigned to this reviewer.

B. Factors That Will Trigger a Non-Periodic Review of Client Accounts

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

C. Content and Frequency of Regular Reports Provided to Clients

Each client of Trowbridge's advisory services provided on an ongoing basis will receive a monthly report detailing the client's account, including assets held, asset value, and calculation of fees. This written report will come from the custodian. Trowbridge will also provide at least quarterly a separate written statement to the client.

Item 14: Client Referrals and Other Compensation

A. Economic Benefits Provided by Third Parties for Advice Rendered to Clients (Includes Sales Awards or Other Prizes)

Advisor Services personnel, including meals, invitations to sporting events, including golf tournaments, and other forms of entertainment, some of which may accompany educational opportunities. These services may include professional compliance, legal and business consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance, employee benefits providers, and human capital consultants, insurance and marketing. In addition, Charles Schwab & Co., Inc. Advisor Services may make available, arrange and/or pay vendors for these types of services rendered to Trowbridge by independent third parties. Charles Schwab & Co., Inc. Advisor Services may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to Trowbridge. Trowbridge is independently owned and operated and not affiliated with Charles Schwab & Co., Inc. Advisor Services.

B. Compensation to Non - Advisory Personnel for Client Referrals

Trowbridge does not directly or indirectly compensate any person who is not advisory personnel for client referrals.

Item 15: Custody

When advisory fees are deducted directly from client accounts at client's custodian, Trowbridge will be deemed to have limited custody of client's assets and must have written authorization from the client to do so. Clients will receive all account statements and billing invoices that are required in each jurisdiction, and they should carefully review those statements for accuracy.

Item 16: Investment Discretion

Trowbridge provides discretionary investment advisory services to clients. The advisory contract established with each client sets forth the discretionary authority for trading. Where investment discretion has been granted, Trowbridge generally manages the client's account and makes investment decisions without consultation with the client as to when the securities are to be

bought or sold for the account, the total amount of the securities to be bought/sold, what securities to buy or sell, or the price per share.

Item 17: Voting Client Securities (Proxy Voting)

Trowbridge will not ask for, nor accept voting authority for client securities. Clients will receive proxies directly from the issuer of the security or the custodian. Clients should direct all proxy questions to the issuer of the security.
