ITEM 4 – ADVISORY BUSINESS

OWNERSHIP/ADVISORY HISTORY

Accurate Wealth Management, LLC (“We”) was formed in July 2014. We are a Florida Limited Liability Company. We were registered as an investment adviser in Florida from February 2015 until May 2015. We re-registered in November 2018. Our Owners are Konstantinos “Gus” Gotsis, and Paul J. O’Grady. Mr. Gotsis and Mr. O’Grady are managing members of the firm. Mr. Guinta is also the firm’s Chief Compliance Officer. Additional information about Mr. Gotsis and Mr. O’Grady can be found in item 19 and their supplemental brochure.

ADVISORY SERVICES OFFERED

Before we enter into an Adviser-Client relationship, we may offer a complimentary general consultation to discuss services available, give a prospective client time to review services desired and determine whether a relationship might benefit the client. Investment advisory services begin only after we and the client formalize the relationship with a properly executed agreement. We offer the following services to our clients:

FINANCIAL PLANNING

We create a written financial plan that typically focuses on one or more specific areas such as financial and cash management, risk management, financial issues relating to divorce or death of a family member, tax issues, retirement planning, educational funding, goal setting, or other needs identified by the client or by our review of the client’s financial circumstances. Through discussion with the client and/or questionnaires, we will collect pertinent data, identify goals, objectives, financial concerns and potential solutions. We will present the client with a written analysis. Following the conclusion of the consulting services, we may make recommendations regarding implementation of the financial strategies discussed.

PORTFOLIO MANAGEMENT SERVICES

We manage individualized portfolios for its clients on a discretionary and non-discretionary basis. We work with each client to formulate an individualized portfolio based upon his/her objectives, time frame, risk parameters and other investment considerations. We use marketable securities that may include mutual funds, exchange traded funds, bonds, common stock (equities), options including covered calls and treasury bonds. (Additional information about securities used and their risks can be found under Item 8.) Our investment philosophy is to use principles of value, safety and quality to seek investment options globally. We place heavy emphasis on risk control, believing that avoiding losses allows appreciation potential of equities to be realized.

SELECTION AND MONITORING OF THIRD PARTY ADVISERS

After an initial meeting with the client or when deemed appropriate, we may recommend the services of a third-party investment adviser (“Third Party Adviser”). The recommendation will depend on the client’s circumstances, goals and objectives, strategy desired, account size, risk tolerance, or other factors. We work with each client to determine which Third Party Adviser may be appropriate. Clients are never obligated to use a recommended Third Party.

We will review Third Party Advisers prior to making a recommendation to the client. We consider the following factors during its review: fees, reputation, performance, financial strength, management, price, reporting capabilities, client's financial situation, client's goals, client's needs, and client's investment objectives. After our review it will present the client with one or more recommendations.

If the client wishes to proceed with the recommendation, we will enter into either a Co-Advisor relationship or solicitor arrangement with the recommended Third-Party Adviser. Under these arrangements, the Third-Party Adviser is responsible for portfolio management, best execution, portfolio reporting, trading, trade error resolution, and custodian reconciliations. While we maintain our relationship with the client by monitoring the status of the client's accounts with the Third-Party Adviser, make recommendations about the Third-Party Adviser, usually meeting with the client either in person or by telephone on an annual basis annually and acting as the client's primary financial adviser. All questions regarding the Third-Party Adviser's services and performance will be directed to us.

Because the compensation we receive under these arrangements may differ depending on the agreement with each third-party adviser, it may have an Incentive to recommend one Third Party Adviser over another if the compensation arrangements are more favorable. Also, because the Third-Party Adviser may pay us a portion of their fee, the fee paid is not negotiable, under most circumstances.

Clients who are referred to Third Party Advisers will receive full disclosure, including services rendered and fee schedules, at the time of the referral, by delivery of a copy of the relevant Third-Party Adviser's Form ADV Part 2A or equivalent disclosure document before receiving investment advisory services from the third-party adviser.

In addition, if the investment program recommended to a client is a wrap fee program the client will receive the Appendix 1 or equivalent wrap fee brochure provided by the sponsor of the program. We will provide to each client all appropriate disclosure statements, including disclosure of solicitation fees paid to us and our advisory associates.

We will not refer a client to a Third-Party Adviser unless it is registered or exempt from registration as an investment adviser in the client's state of residence

TAILORED SERVICES

We tailor all of our services to the client's stated goals, needs and objectives. For our portfolio management service clients, we allow them to impose restrictions on investment in certain securities or types of securities. All restrictions must be presented to us in writing.

WRAP PROGRAM

We sponsor and acts as portfolio manager for this wrap fee program. We manage the investments in the wrap fee program, but does not manage those wrap fee accounts any differently than it would manage non-wrap fee accounts The fees paid to the wrap account program will be given to us as a management fee.

CLIENT ASSETS MANAGED

Accurate Wealth Management, LLC has the following assets under management: \$13,454,655

| | | |
|------------------------|----------------------------|------------------|
| Discretionary Amounts: | Non-discretionary Amounts: | Date Calculated: |
| \$111,288,792 | \$0 | October 2019 |

ITEM 5 – FEES AND COMPENSATION

Compensation for Our Advisory Services

This section provides additional details regarding our Firm's services along with descriptions of each service's fees and compensation arrangements. It should be noted that lower fees for comparable service may be available from other sources. The exact fees and other terms will be described in the agreement between you and AWM.

The maximum annual fee charged for asset management will not exceed 2.50%. Fees to be assessed will be described in the advisory agreement to be signed by the client and our Firm. Fees of sub- advisors or third-party managers will be disclosed as explained below. Except as otherwise described below, annualized fees are billed quarterly in advance based on the value of the account(s) on the last day of the previous quarter. Fees for the initial quarter of management shall be prorated. Fees are negotiable and will be deducted from client account(s).

For those clients whose fees are deducted by us:

- a) Clients will provide authorization permitting our Firm to be directly paid;
- b) Our Firm will send an invoice directly to the custodian; and
- c) The client's independent custodian sends statements at least quarterly showing the market values for each security included in the account and all account disbursements, including the amount of the advisory fees paid to our Firm.

In the event that our Firm employs the services of third-party money managers or sub-advisers in connection with our provision of asset management services, the total annual advisory fee due to our Firm for this service shall not exceed 2.50%, but shall consist of two components: (a) our annual fee; and (b) the annual fee charged by the third-party manager(s), which shall be paid to any such third-party manager by our Firm. The fees noted do not include other fees such as platform fee, trade costs or any other service fees not included in the annual fee or third-party manager fee. All such fees to be assessed will be described in the advisory agreement to be signed by the client and our Firm or, in the case of sub - advisory or third - party management fees, in a separate disclosure delivered to the

Client at or before the time the assets are designated to be managed by that sub - advisor or third - party advisor. Clients will be provided with a copy of the chosen third - party money manager' s Form ADV Part 2, all relevant Brochures, and the third - party money manager' s privacy policy.

AWM has a conflict of interest in that it will only use or recommend sub-advisers or other third-party investment advisers that have a relationship with AWM and have met the conditions of our due diligence review. There may be other third-party money managers that may be suitable that we do not have a relationship or that may be more or less costly. To address this conflict, we consider

the best interests of clients in selecting sub-advisers or third-party managers. You are under no obligation to utilize the services of the sub-advisers we recommend. No guarantees can be made that your financial goals or objectives will be achieved. Further, no guarantees of performance can be offered.

FINANCIAL PLANNING SERVICES

Our financial planning services are provided on a fixed fee and/or hourly fee basis.

The fixed fees range between \$1,000 and \$5,000. The fixed fee range varies and depends upon the nature and complexity of each client's individual circumstances. Each client's Financial Planning Agreement shows what the client will be charged to complete the Scope of Services as defined in the Agreement. The fixed fee rate is negotiable. One half of the Financial Planning fee is due before any work on the plan begins, with the other half due upon presentation of the final plan.

The hourly fee for a financial plan is \$200. Both the hourly rate and an estimate of the total project fee (estimated hours multiplied by the agreed to hourly rate) are shown on the executed Financial Planning Agreement. The hourly fee rate is non-negotiable. One half of the estimated Financial Planning fee is due before any work on the plan (or research project) begins, with the other half due upon presentation of both the final plan (or research project) and an invoice showing hours expended on the plan or project.

PORTFOLIO MANAGEMENT SERVICES

Fees for portfolio management services will be based on a percentage of the assets under management. Our maximum annual management fee is 1.75%. The management fee will be calculated, accrued and due quarterly in advance.

The annual fee is negotiable. A client may aggregate accounts to negotiate a lower fee. The pro-rated first quarter's management fee will be calculated on the Account's initial value as reported by its custodian. Thereafter, the periodic fee will be based upon the previous quarter-end Account value as reported by the client's custodian.

Our fees are separate and distinct from any brokerage and custodian fees or expenses. These fees and expenses may include brokerage commissions, transaction fees, and other related

costs and expenses. Additionally, clients may incur certain charges imposed by custodians, brokers, third party investment and other third parties such as fees charged by managers, custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual funds and exchange traded funds also charge internal management fees, as disclosed in a fund's prospectus, which are separate and distinct from the firm's fee.

SELECTION AND MONITORING OF THIRD-PARTY ADVISERS

As stated in Item 4.B.iii. (See Above), we will either be a Co-Adviser or solicitor of the recommended Third-Party Adviser. The fees associated with each service are as follows:

Co-Adviser Relationship

When we are a Co-Adviser, it will charge a fee based upon an annual percentage of the assets under management as reported by the Third-Party Adviser. Our maximum annual management fee is 1.75%. The management fee will be calculated, accrued and due quarterly in advance.

The annual fee is negotiable. A client may aggregate accounts to negotiate a lower fee. The pro-rated first quarter's management fee will be calculated on the Account's initial value as reported by its custodian. Thereafter, the periodic fee will be based upon the previous quarter-end Account as reported by the client's custodian.

The client will be asked to authorize the Third-Party Adviser with the ability to withdraw our fee. The fee is collected quarterly in advance.

Our fees are separate and distinct from the Third-Party Adviser's Fee and also any brokerage and custodian fees or expenses. These fees and expenses may include brokerage commissions, transaction fees, and other related costs and expenses. Additionally, clients may incur certain charges imposed by custodians, brokers, third party investment and other third parties such as fees charged by managers, custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual funds and exchange traded funds also charge internal management fees, as disclosed in a fund's prospectus, which are separate and distinct from the firm's fee.

Solicitor Relationship

When we are a solicitor of the recommended Third-Party Adviser, we do not charge a separate fee for the Selection and Monitoring of Third Party Investment Adviser Services. Instead, we will enter into an agreement with the selected Third-Party Adviser and share in a portion of the Third-Party Adviser's management fee that is charged to the client. Our portion of the fee is typically 50% of the Third-Party Adviser's Fee. The exact fee withdrawn and when it is withdrawn (quarterly or monthly, in advance or in arrears) will vary with each Third-Party Adviser. These details will be disclosed in the Third-Party Adviser's ADV Part 2A and the Third-Party Adviser's Solicitor Disclosure Document; both documents will be given to the client upon solicitation.

As established in Item 10.D – Other Industry Affiliations, by receiving a portion of the Third-Party Adviser's management fee, this creates a conflict of interest for the Adviser. The sharing of the

management fees creates a financial incentive to recommend Third Party Advisers that would pay us a higher percentage of their fee. We attempt to mitigate the conflict of interest to best of our ability by placing the client's interest a head of our own, through our fiduciary duty and by following our Code of Ethics that establishes ideals for ethical conduct.

TERMINATION OF SERVICES

A client may terminate their agreement with us for any reason within the first five (5) business days after signing the agreement and receive 100% refund of any prepaid fees without any cost or penalty. Thereafter, the contract may be terminated at any time by giving ten (10) days written notice to us at Accurate Wealth Management LLC, 2211 Ashley Oaks Circle, West Chappell, FL 33544. Upon written notice of termination, the client will receive a prorated refund of any prepaid fees based upon a percentage of work completed and the client agrees to pay us for any expended time which exceeds the prepaid amount.

OTHER SECURITIES COMPENSATION

We do not receive any additional securities compensation.

ITEM 6 – PERFORMANCE-BASED FEES AND SIDE BY SIDE MANAGEMENT

We do not charge any performance-based fees (fees based on a share of the capital gains on or capital appreciate of the assets of a client).

ITEM 7 – TYPES OF CLIENTS

We offer our services to individuals, high net worth individuals, charities, corporations and other business entities. We do not require a minimum account size or place any restrictions on opening an account.

ITEM 8 – METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

METHODS OF ANALYSIS AND INVESTMENT STRATEGIES

When we manage a client's portfolio we start with an individualized asset allocation method. When deciding on the asset allocation for a client, we take into account the client's risk tolerance, goals, investment objectives and other data gathered during the client meetings. Asset Allocation is an investment strategy that aims to balance risk and reward by apportioning a portfolio's assets according to an individual's goals, risk tolerance and investment horizon among various asset classes. The asset classes typically include equities, fixed-income, and cash and equivalents. Each class has different levels of risk and return, so each will behave differently over time.

After establishing a client's individualized asset allocation, we use a combination of fundamental and technical analysis to purchase or sell securities within the account. Fundamental analysis is a technique that attempts to determine a security's value by focusing on underlying factors that affect a company's actual business and its future prospects. The analysis is performed on historical and present data. On a broader scope, one can perform fundamental analysis on industries or the economy as a whole. The term refers to the analysis of the economic well-being

of a financial entity as opposed to only its price movements. The risk associated with fundamental analysis is that despite that appearance that a security is undervalued, it may not rise in value as predicted.

Technical Analysis is a method of evaluating securities by analyzing statistics generated by market activity, such as past prices and volume. Technical analysts do not attempt to measure a security's intrinsic value, but instead use charts and other tools to identify patterns that can suggest future activity. The risk associated with technical analysis is that there is no broad consensus among technical traders on the best method of identifying future price movements.

Our analysis of securities and advice relating thereto may be based upon information obtained from financial newspapers and magazines, research materials prepared by others, corporate ratings services, and annual reports, prospectuses and filings made with the Securities and Exchange Commission. We may also utilize computer models for performance analysis, asset allocation and risk management.

With respect to our Selection and Monitoring of Third Party Advisers, we will meet with each client to obtain the client's financial situation, goals and risk tolerance. With this information, we will recommend a Third-Party Adviser that we believe meets the client's financial situation, goals and risk tolerance. We will use various sources of information to help recommend a Third-Party Adviser for the client. These sources include but are not limited to Third Party Adviser's ADV Part 2A, marketing materials, financial newspapers and magazines, research prepared by other advisers, company press releases, prospectuses, and other SEC filings.

RECOMMENDED SECURITIES AND INVESTMENT RISKS

We may use several types of securities in our clients' accounts. These securities may include, but are not limited to, the following: Stocks; Bonds; Exchange Traded Funds; Mutual Funds; Government Debt instruments including Treasury Bills and Municipal securities; Traded Real Estate Investment Trusts; and; Money Market Funds and Cash.

All investments bear different types and degrees of risk **and investing in securities involves risk of loss that clients should be prepared to bear.** While we use investment strategies that are designed to provide appropriate investment diversification, some investments have significantly greater risks than others. Obtaining higher rates of return on investments entails accepting higher levels of risk. Recommended investment strategies seek to balance risks and rewards to achieve investment objectives. Clients should feel free to ask questions about risks they do not understand we would be pleased to answer all questions.

An investment could lose money over short or even long periods. A client should expect his/her account value and returns to fluctuate within a wide range, like the fluctuations of the overall stock and bond markets. A client's account performance could be hurt by:

- **Options Risk:** Like other securities - including stocks, bonds, and mutual funds - options carry no guarantees, and a person must be aware that it is possible to lose all of the principal he/she invests, and sometimes more. As an option holder, a person risks the entire amount of the premium he/she paid pay. But as an options writer, a person takes on a much higher level of risk. For example, if a person writes an uncovered call, he/she

faces unlimited potential loss, since there is no cap on how high a stock price can rise. However, since initial options investments usually requires less capital than equivalent stock positions, a potential cash losses as an options investor are usually smaller than if someone bought the underlying stock or sold the stock short. The exception to this general rule occurs when an option is used to provide leverage: Percentage returns are often high, but it is important to remember that percentage losses can be high as well.

- **Covered Call Risk:** A covered call involves selling call options against stock owned in a portfolio. Covered call sellers have to hold onto underlying shares or contracts or they'll be holding naked calls, which have theoretically unlimited loss potential if the underlying security rises. Therefore, sellers need to buy back options positions before expiration if they want to sell shares or contracts, increasing transaction costs while lowering net gains or increasing net losses.
- **Stock Market Risk:** The chance that stock prices overall will decline. Stock markets tend to move in cycles, with periods of rising stock prices and periods of falling stock prices.
- **Interest Rate Risk:** The chance that bond prices overall will decline because of rising interest rates.
- **Manager Risk:** The chance that the proportions allocated to the various securities will cause the client's account to underperform relevant to benchmarks or other accounts with a similar investment objective.
- **International Investing Risk:** Investing in the securities of non-U.S. companies involves special risks not typically associated with investing in U.S. companies. Foreign securities tend to be more volatile and less liquid than investments in U.S. securities, and may lose value because of adverse political, social or economic developments overseas or due to changes in the exchange rates between foreign currencies and the U.S. dollar. In addition, foreign investments are subject to settlement practices, as well as regulatory and financial reporting standards, that differ from those of the U.S.
- **Liquidity Risk:** One Common risk associated with private placements and REITs is a relative lack of liquidity due to the highly customized nature of the investment. Moreover, the full extent of returns is often not realized until maturity. Because of this, these products tend to be more of a buy-and-hold investment decision rather than a means of getting in and out of the position with speed and efficiency.
- **Credit Risk:** This is the risk that in issuer of a bond could suffer an adverse change in financial condition that results in a payment default, security downgrade or inability to meet a financial obligation.
- **Inflation Risk:** This is the risk that inflation will undermine the performance of your investment and/or the future purchasing power of your assets.

ITEM 9 – DISCIPLINARY INFORMATION

Registered investment advisers are required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of each supervised person providing investment advice. We do not have information applicable to this item.

ITEM 10 – OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

BROKER DEALER AFFILIATION

We are not affiliated with a broker-dealer.

FUTURES/COMMODITIES FIRM AFFILIATION

We are not affiliated with a futures or commodities broker.

OTHER INDUSTRY AFFILIATIONS

Our owner or associates may be independent insurance agents (life, annuity and health). They may recommend this service to the firm's clients. This other business activity pays them commissions that are separate from the fees described in Item 5 above. This is a conflict of interest because the commissions give our associates a financial incentive to recommend and sell clients the insurance products. However, we attempt to mitigate any conflicts of interest to the best of their ability through their fiduciary duty and by informing clients that they are never obligated to purchase any recommended insurance products through them.

SELECTION AND MONITORING OF THIRD PARTY INVESTMENT ADVISERS

Our services include the Recommending and Monitoring of Third Party Advisers. A detailed description of this service can be found under Item 4.C – Advisory Services and Item 5.C – Fees and Compensation. Because we receive a portion of the Third-Party Adviser's management fee, this creates a financial Incentive to recommend Third Party Advisers that pay a higher percentage of the fee. We attempt to mitigate the conflict of interest to best of our ability by placing the client's interest ahead of our own, through our fiduciary duty and by following our Code of Ethics that establishes ideals for ethical conduct.

ITEM 11 – CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTION AND PERSONAL TRADING

DESCRIPTION

Our Code of Ethics establishes ideals for ethical conduct based upon fundamental principles of openness, integrity, honesty and trust. We will provide a copy of our Code of Ethics to any client or prospective client upon request.

Our Code of Ethics covers all supervised persons and it describes its high standard of business conduct, and fiduciary duty to our clients. The Code of Ethics includes provisions relating to the confidentiality of client information, a prohibition on insider trading, a prohibition of rumor mongering, restrictions on the acceptance of significant gifts and the reporting of certain gifts and business entertainment items, and personal securities trading procedures, among other

things. All of our supervised persons must acknowledge the terms of the Code of Ethics annually or as amended.

MATERIAL INTEREST IN SECURITIES

We do not have a material interest in any securities.

INVESTING IN OR RECOMMENDING THE SAME SECURITIES

On occasion, our owner and investment adviser representatives may buy or sell for their own accounts securities that are the same as, similar to, or different than those that they recommend to their clients for purchase or sale. Differences can arise due to variations in personal goals, investment horizons, risk tolerance, and the timing of purchases and sales. We attempt to mitigate the conflict of interest to the best of our ability through the enactment of our code of ethics, trading policies, and its fiduciary responsibilities. Nonetheless, we generally attempt to place client transactions ahead of proprietary trades. Our associates are aware of their fiduciary duty to our clients and the prohibitions against the use of any insider information. Records of all associates' proprietary trading activities will be kept, available to regulators to review on the premises.

ITEM 12 – BROKERAGE PRACTICES

RECOMMENDATION CRITERIA

For client accounts that we manage, we will seek broker-dealers and custodians who offer competitive commission costs together with reliable services. A client's choice of another broker-dealer is acceptable if proven feasible. We recognize our fiduciary responsibility in negotiating brokerage commissions, assuring best execution practices and assuring adequate investment availability/inventory on behalf of our clientele. We do not receive compensation with respect to execution of these trades. In some instances, a client may incur a ticket charge for the sale or purchase of securities. We will ensure all broker-dealers and custodians are properly registered in the state of where the client resides prior to making the recommendation.

RESEARCH AND SOFT DOLLARS

"Soft dollars" are defined as a form of payment investment firms can use to pay for goods and services such as news subscriptions or research. When an investment firm gives its business to a particular brokerage firm, the brokerage firm in return can agree to use some of its revenue to pay for these types of services. In order to stem the potential conflicts of interest that may arise from "soft dollar" arrangements, we pursue a policy of not entering into any such arrangements, either orally or in writing.

BROKERAGE FOR CLIENT REFERRALS

We do not receive client referrals or any other incentive from any broker-dealer or custodian.

DIRECTED BROKERAGE

Some clients may direct us to a specific broker-dealer to execute securities transactions for their accounts. When so directed, we may not be able to effectively negotiate lower brokerage

commissions or achieve best execution on clients' transactions. This can result in substantially higher fees, charges or dealer concessions in one or more transactions for the clients' account because the Adviser cannot negotiate favorable prices.

TRADE AGGREGATION

We may aggregate orders with respect to the same security purchased for different clients. When orders are aggregated, each participating account receives the average share price for the transaction and bears a proportionate share of all transaction costs, based upon each account's participation in the transaction, subject to our discretion depending on factual or market conditions. Clients participating in block trading may include proprietary or related accounts. Such accounts are treated as client accounts and are neither given preferential nor inferior treatment versus other client accounts. Allocations of orders among client accounts must be made in a fair and equitable manner.

ITEM 13 – REVIEW OF ACCOUNTS

PERIODIC REVIEWS

Each investment adviser representative reviews the general holdings of his/her client accounts on a quarterly basis. Each investment adviser representative also meets with clients on an annual basis to review their financial situations.

OTHER REVIEWS

Additional reviews are conducted periodically depending on market conditions, economic or political events, or by changes in a client's financial situation (such as retirement, termination of employment, physical move or inheritance).

REPORTS

The client will receive a quarterly statement from their custodian. We urge you to carefully review such statements.

ITEM 14 – CLIENT REFERRALS AND OTHER COMPENSATION

OTHER COMPENSATION

We do not receive extra compensation or any other economic benefit for providing investment advice or other advisory services to clients.

CLIENT REFERRALS

We do not use solicitors or pay for client referrals.

ITEM 15 – CUSTODY

All client funds, securities and accounts are held at third-party custodians. We do not take possession of a client's securities. However, with respect to the accounts we manage, the client

will be asked to authorize us with the ability to deduct fees directly from the client's account. This authorization will be to deduct our management fee only. When deducting the fee, we will send a billing statement (invoice) to the client and the client's custodian that indicates the fee to be withdrawn and how it was calculated from the account. A client may object to the deduction of our fees from the Account by notifying us at the address or telephone number shown on each billing invoice or by notifying client's custodian. The client's custodian shall also send a quarterly statement indicating the amount of fees withdrawn from the client's Account. We urge clients to carefully review such statements.

ITEM 16 – INVESTMENT DISCRETION

We offer discretionary and non-discretionary portfolio management services. Discretionary Portfolio Management clients sign an investment management agreement that contains a limited power of attorney granting us discretionary power over the account. In discretionary accounts, we will be allowed to place trades, buy or sell securities of any type and in amounts it deems to be appropriate for the account, without first obtaining the client's consent to each trade. Directions will be given to the account custodian to complete the transaction.

With non-discretionary investment management services, the client retains full discretion to supervise, manage, and direct the assets of the account. We will make recommendations on how the Account should be managed. The client will be free to manage the account with or without our recommendation and all with or without our prior consultation.

ITEM 17 – VOTING CLIENT SECURITIES

We will not be responsible for responding to proxies that are solicited with respect to securities held in clients' accounts under our Portfolio Management Services. Proxy solicitation materials will be sent to the client directly from the account's custodian. In the event that we receive a proxy solicitation, it will be forwarded to clients directly from the custodian for response and voting. Clients with questions about a proxy solicitation, the client should contact his/her investment adviser representative.

ITEM 18 – FINANCIAL INFORMATION

BALANCE SHEET

We do not require or solicit prepayment of more than \$500 in fees per client, six months or more in advance. Therefore, we are not required to provide a balance sheet.

FINANCIAL CONDITION

We are required in this Item to provide you with certain financial information or disclosures about our financial condition if we have a financial commitment that impairs our ability to service you. We do not have a financial commitment that impairs our ability to service our clients.

BANKRUPTCY

We have not been the subject of a bankruptcy proceeding.

ITEM 19 – REQUIREMENTS FOR STATE-REGISTERED ADVISERS

We have two management persons: Konstantinos “Gus” Gotsis and Paul O’Grady. Their biographical information is given on the attached Brochure Supplement documents.

Under the Item 10.C, above explains that our investment adviser representatives may also be licensed as insurance agents and may receive insurance commissions for the sale of insurance products. This activity and the conflicts of interest associated with it are discussed at greater length in Item 10.C.

We would be required to disclose additional information if we: were to charge performance-based fees; had any other relationship or arrangement with any issuer of securities; or was ever found liable in either: (a) an arbitration, or (b) a civil, self-regulatory organization, or administrative proceeding. As none of these apply to us, our management persons, or investment adviser representatives, we have no information to disclose in these regards.
