This brochure provides information about the qualifications and business practices of Signature Wealth Management Partners, LLC (hereinafter "SWMP" or the "Firm"). If you have any questions about the contents of this brochure, please contact the Firm at the telephone number listed above. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission (SEC) or by any state securities authority. Additional information about the Firm is available on the SEC's website at www.adviserinfo.sec.gov. The Firm is a registered investment adviser. Registration does not imply any level of skill or training.

Item 2. Material Changes

In this Item, SWMP is required to discuss any material changes that have been made to the brochure since the last annual amendment. There are no such material changes to disclose.

Item 3. Table of Contents

Item 8. Client Contact with Portfolio Managers	14
Item 9. Additional Information	15

Item 4. Advisory Business

The Signature Wealth Management Partners Wrap Program (the “Program”) is an investment advisory program sponsored by SWMP. In addition to the Program, the Firm offers a variety of advisory services, which include financial planning, consulting, and investment management services under different arrangements than those described herein. Prior to SWMP rendering any of the foregoing advisory services, clients are required to enter into one or more written agreements with SWMP setting forth the relevant terms and conditions of the advisory relationship (the “Advisory Agreement”).

SWMP filed for registration in July 2018 and is wholly owned by Elizabeth Emr and Gregory Emr. As of January 30, 2019, SWMP had \$216,285,098 in assets under management, \$201,971,259 of which was managed on a discretionary basis and \$14,313,839 was managed on a non-discretionary basis.

While this brochure generally describes the business of SWMP, certain sections also discuss the activities of its Supervised Persons, which refer to the Firm’s officers, partners, directors (or other persons occupying a similar status or performing similar functions), employees or any other person who provides investment advice on SWMP’s behalf and is subject to the Firm’s supervision or control.

Description of the Program

The Program is offered as a wrap fee program, which provides clients with the ability to trade in certain investment products without incurring separate brokerage commissions or transaction charges. A wrap fee program is considered any arrangement under which clients receive investment advisory services (which may include portfolio management or advice concerning the selection of other investment advisers) and the execution of client transactions for a specified fee or fees not based upon transactions in their accounts. Clients must also open a new securities brokerage account and complete a new account agreement with Schwab Advisor Services™ (“Schwab”), or another broker-dealer that SWMP approves under the Program (collectively “Financial Institutions”).

At the onset of the Program, clients complete an investor profile describing their individual investment objectives, liquidity and cash flow needs, time horizon and risk tolerance, as well as any other factors pertinent to their specific financial situations. After an analysis of the relevant information, SWMP assists its clients in developing an appropriate strategy for managing their assets. Clients’ investment portfolios are generally managed on a discretionary basis by either SWMP’s investment adviser representatives or an independent investment manager (collectively “Independent Managers”), as selected by SWMP. SWMP and/or the Independent Managers generally allocate clients’ assets among the various investment products available under the Program, as described further in Item 6 (below).

Financial Planning and Consulting Services

SWMP offers clients a broad range of financial planning and consulting services, which includes any or all of the following functions:

- Business Planning
- Cash Flow Analysis
- Education Planning
- Trust and Estate Planning
- Investment Consulting
- Protection Planning (Insurance)
- Retirement Projections and Planning
- Tax Analysis

While each of these services is available on a stand-alone basis, certain of them can also be rendered in conjunction with investment portfolio management as part of a comprehensive wealth management engagement (described in more detail below).

In performing these services, SWMP is not required to verify any information received from the client or from the client's other professionals (e.g., attorneys, accountants, etc.) and is expressly authorized to rely on such information. SWMP recommends certain clients engage the Firm for additional related services, its Supervised Persons in their individual capacities as insurance agents or registered representatives of a broker-dealer and/or other professionals to implement its recommendations. Clients are advised that a conflict of interest exists for the Firm to recommend that clients engage SWMP or its affiliates to provide (or continue to provide) additional services for compensation, including investment management services. Clients retain absolute discretion over all decisions regarding implementation and are under no obligation to act upon any of the recommendations made by SWMP under a financial planning or consulting engagement. Clients are advised that it remains their responsibility to promptly notify the Firm of any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising SWMP's recommendations and/or services.

Wealth Management Services

SWMP provides certain clients with wealth management services which includes a broad range of comprehensive financial planning and consulting services as well as discretionary management of investment portfolios.

SWMP primarily allocates client assets among various mutual funds, exchange-traded funds ("ETFs"), individual debt and equity securities, structured notes and certificates of deposit ("CDs") and independent investment managers ("Independent Managers") in accordance with their stated investment objectives.

Where appropriate, the Firm also provides advice about any type of legacy position or other investment held in client portfolios. Clients can engage SWMP to manage and/or advise on certain investment products

that are not maintained at their primary custodian, such as variable life insurance and annuity contracts and assets held in employer sponsored retirement plans and qualified tuition plans (i.e., 529 plans). In these situations, SWMP directs or recommends the allocation of client assets among the various investment options available with the product. These assets are generally maintained at the underwriting insurance company or the custodian designated by the product's provider.

SWMP tailors its advisory services to meet the needs of its individual clients and seeks to ensure, on a continuous basis, that client portfolios are managed in a manner consistent with those needs and objectives. SWMP consults with clients on an initial and ongoing basis to assess their specific risk tolerance, time horizon, liquidity constraints and other related factors relevant to the management of their portfolios. Clients are advised to promptly notify SWMP if there are changes in their financial situation or if they wish to place any limitations on the management of their portfolios. Clients can impose reasonable restrictions or mandates on the management of their accounts if SWMP determines, in its sole discretion, the conditions would not materially impact the performance of a management strategy or prove overly burdensome to the Firm's management efforts.

Use of Independent Managers

As mentioned above, SWMP selects certain Independent Managers to actively manage a portion of its clients' assets. The specific terms and conditions under which a client engages an Independent Manager may be set forth in a separate written agreement with the designated Independent Manager. In addition to this brochure, clients may also receive the written disclosure documents of the respective Independent Managers engaged to manage their assets.

SWMP evaluates a variety of information about Independent Managers, which includes the Independent Managers' public disclosure documents, materials supplied by the Independent Managers themselves and other third-party analyses it believes are reputable. To the extent possible, the Firm seeks to assess the Independent Managers' investment strategies, past performance and risk results in relation to its clients' individual portfolio allocations and risk exposure. SWMP also takes into consideration each Independent Manager's management style, returns, reputation, financial strength, reporting, pricing and research capabilities, among other factors.

SWMP continues to provide services relative to the discretionary selection of the Independent Managers. On an ongoing basis, the Firm monitors the performance of those accounts being managed by Independent Managers. SWMP seeks to ensure the Independent Managers' strategies and target allocations remain aligned with its clients' investment objectives and overall best interests.

Fees for Participation in the Program

The Program is offered on a fee basis, which includes fixed fees, as well as fees based upon assets under management (sometimes referred to as the “Program Fee”). Additionally, certain of the Firm’s Supervised Persons, in their individual capacities, offers securities brokerage services and/or insurance products under a separate commission-based arrangement.

Financial Planning and Consulting Fees

SWMP charges a fixed fee for providing financial planning and consulting services under a stand-alone engagement. These fees are negotiable, but range from \$1,000 to \$5,000, depending upon the scope and complexity of the services and the professional rendering the financial planning and/or the consulting services. If the client engages the Firm for additional investment advisory services, SWMP may offset all or a portion of its fees for those services based upon the amount paid for the financial planning and/or consulting services.

The terms and conditions of the financial planning and/or consulting engagement are set forth in the Advisory Agreement and SWMP requires one-half of the fee (estimated hourly or fixed) payable upon execution of the Advisory Agreement. The outstanding balance is due upon delivery of the financial plan or completion of the agreed upon services. The Firm does not, however, take receipt of \$1,200 or more in prepaid fees in excess of six months in advance of services rendered.

Wealth Management Fees

SWMP offers wealth management services for an annual fee based on the amount of assets under the Firm’s management. This management fee varies in accordance with the following fee schedule:

<u>PORTFOLIO VALUE</u>	<u>BASE FEE</u>
Up to \$499,999	1.25%
\$500,000 - \$1,499,999	1.00%
\$1,500,000 - \$2,999,999	0.90%
\$3,000,000 - \$4,999,999	0.80%
\$5,000,000 - \$7,999,999	0.65%
\$8,000,000 - \$9,999,999	0.50%
\$10,000,000 - \$11,999,999	0.46%
\$12,000,000 - \$14,999,999	0.43%
\$15,000,000 - \$17,999,999	0.40%
Above \$18,000,000	0.38%

Alternatively, the Firm can be engaged to provide the wealth management services on a fixed fee basis for certain clients, including those with less anticipated transactions and/or those with certain types of holding such as fixed income, structured notes and certificates of deposit. Any fixed fee would be negotiated and based upon the anticipated services and assets under management. The annual fee is prorated and charged monthly, in advance, based upon the market value of the assets being managed by SWMP on the last day of the previous month. If assets are deposited into or withdrawn from an account after the inception of a billing period, the fee payable with respect to such assets is adjusted to reflect the interim change in portfolio value. For the initial period of an engagement, the fee is calculated on a *pro rata* basis. In the event the advisory agreement is terminated, the fee for the final billing period is prorated through the effective date of the termination and the outstanding or unearned portion of the fee is charged or refunded to the client, as appropriate.

Additionally, for asset management services the Firm provides with respect to certain client holdings (e.g., held-away assets, accommodation accounts, alternative investments, etc.), SWMP may negotiate a fee rate that differs from the range set forth above.

Fee Comparison

As referenced above, a portion of the fees paid to SWMP are used to cover certain securities brokerage commissions and transactional costs attributed to the management of its clients' portfolios.

Services provided through the Program may cost clients more or less than purchasing these services separately. The number of transactions made in clients' accounts, as well as the commissions charged for each transaction, determines the relative cost of the Program versus paying for execution on a per transaction basis and paying a separate fee for advisory services. Fees paid for the Program may also be higher or lower than fees charged by other sponsors of comparable investment advisory programs. Because the Firm pays for the brokerage fees, the Firm has an incentive to engage in less transactions, or transactions that cost less to the Firm, including the use of mutual funds that do not have transaction charges, but have higher expenses to the client. The Firm reviews the frequency and type of investments made in client accounts to act in the client's best interest.

Fee Discretion

SWMP, in its sole discretion, may negotiate to charge a lesser fee based upon certain criteria, such as anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, pre-existing/legacy client relationship, account retention and pro bono activities.

Other Charges

In addition to the advisory fees paid to SWMP, clients may also incur certain charges imposed by other third parties, such as broker-dealers, custodians, trust companies, banks and other financial institutions. These additional charges include fees for trades executed away from Schwab (a conflict of interest exists where the Firm avoids expenses by trading through a different Financial Institution), mark-ups and mark-downs on fixed-income transactions (or it is overly burdensome to determine the amount of such mark-ups and mark-downs), fees charged by the Independent Managers, fees attributable to alternative assets, reporting charges, margin costs, charges imposed directly by a mutual fund or ETF in a client's account, as disclosed in the fund's prospectus (e.g., fund Program Fees and other fund expenses), fees and commission for assets not held with Schwab (such as 401(k) or 529 plan assets), deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees.

Direct Fee Debit

Clients generally provide SWMP and/or certain Independent Managers with the authority to directly debit their accounts for payment of the investment advisory fees. The Financial Institutions that act as the qualified custodian for client accounts, from which the Firm retains the authority to directly deduct fees, have agreed to send statements to clients not less than quarterly detailing all account transactions, including any amounts paid to SWMP.

Account Additions and Withdrawals

Clients may make additions to and withdrawals from their account at any time, subject to SWMP's right to terminate an account. Additions may be in cash or securities provided that the Firm reserves the right to liquidate any transferred securities or decline to accept particular securities into a client's account. Clients may withdraw account assets on notice to SWMP, subject to the usual and customary securities settlement procedures. However, SWMP designs its portfolios as long-term investments and the withdrawal of assets may impair the achievement of a client's investment objectives. SWMP may consult with its clients about the options and implications of transferring securities. Clients are advised that when transferred securities are liquidated, they may be subject to transaction fees, fees assessed at the mutual fund level (e.g., contingent deferred sales charge) and/or tax ramifications.

Charges for Recommendations of Securities

Clients can engage certain persons associated with SWMP (but not the Firm directly) to render securities brokerage services under a separate commission-based arrangement. Clients are under no obligation to engage such persons and may choose brokers or agents not affiliated with SWMP.

Under this arrangement, the Firm's Supervised Persons, in their individual capacities as registered representatives of Purshe Kaplan Sterling Investments, Inc. ("PKS"), may provide securities brokerage services and implement securities transactions under a separate commission based arrangement. Supervised Persons are entitled to a portion of the brokerage commissions paid to PKS, as well as a share of any ongoing distribution or service (trail) fees from the sale of mutual funds. SWMP may also recommend no-load or load-waived funds, where no sales charges are assessed. Prior to effecting any transactions, clients are required to enter into a separate account agreement with PKS.

A conflict of interest exists to the extent that a Supervised Person of SWMP recommends the purchase or sale of securities through a brokerage relationship where that Supervised Person receives commissions or other additional compensation as a result of that recommendation (the "Brokerage Relationship"). The Firm has procedures in place to ensure that any recommendations made by such Supervised Persons to engage in the Brokerage Relationship are in the best interest of that client. Because the Supervised Persons may receive compensation in connection with the sale of mutual funds in the Brokerage Relationship, a conflict of interest exists as such Supervised Persons, may have an incentive to recommend more expensive mutual fund share classes to clients where such Supervised Persons earn more compensation with respect to the sale of such mutual fund share classes. Clients should understand that the investments made in the Brokerage Relationship are not receiving advisory services from the Firm. Therefore, the Firm does not have a fiduciary duty over the Brokerage Relationship recommendations. For certain accounts covered by the Employee Retirement Income Security Act of 1974 ("ERISA") and such others that SWMP, in its sole discretion, deems appropriate, SWMP provide its investment advisory services to certain clients on a fee-offset basis. In this scenario, SWMP offsets its fees by an amount equal to the aggregate commissions and 12b-1 fees earned by the Firm's Supervised Persons in their individual capacities as registered representatives of PKS.

Compensation for Recommending the Program

SWMP has no internal arrangements in place whereby persons recommending the Program are entitled to receive additional compensation as a result of clients' participation. A person recommending the Program will not earn more compensation than he or she would otherwise receive if a client elected another investment management program.

Item 5. Account Requirements and Types of Clients

SWMP offers services to individuals, pension and profit sharing plans, trusts, estates, corporations and business entities.

Item 6. Portfolio Manager Selection and Evaluation

Clients' investment portfolios are managed either directly by SWMP or through the use of certain Independent Managers, as referenced above.

Side-By-Side Management

SWMP does not provide any services for a performance-based fee (i.e., a fee based on a share of capital gains or capital appreciation of a client's assets).

Methods of Analysis

SWMP utilizes a combination of fundamental, technical and cyclical methods of analysis. Fundamental analysis involves an evaluation of the fundamental financial condition and competitive position of a particular fund or issuer. For SWMP, this process typically involves an analysis of an issuer's management team, investment strategies, style drift, past performance, reputation and financial strength in relation to the asset class concentrations and risk exposures of the Firm's model asset allocations. A substantial risk in relying upon fundamental analysis is that while the overall health and position of a company may be good, evolving market conditions may negatively impact the security.

Technical analysis involves the examination of past market data rather than specific issuer information in determining the recommendations made to clients. Technical analysis may involve the use of mathematical based indicators and charts, such as moving averages and price correlations, to identify market patterns and trends which may be based on investor sentiment rather than the fundamentals of the company. A substantial risk in relying upon technical analysis is that spotting historical trends may not help to predict such trends in the future. Even if the trend will eventually reoccur, there is no guarantee that SWMP will be able to accurately predict such a reoccurrence.

Cyclical analysis is similar to technical analysis in that it involves the assessment of market conditions at a macro (entire market or economy) or micro (company specific) level, rather than focusing on the overall fundamental analysis of the health of the particular company that SWMP is recommending. The risks with cyclical analysis are similar to those of technical analysis.

Investment Strategies

SWMP manages client assets through customized and model based investment portfolio management utilizing mutual funds, ETF's, individual stocks and bonds, and structured notes and CDs. The Firm has developed approximately five risk based strategies in which underlying asset class exposures are systematically evaluated utilizing fundamental research and cyclical trends. The five models can be defined as: i) Income with Capital Preservation, ii) Income with Moderate Growth, iii) Growth and Income Growth,

iv) Growth and v) Aggressive Growth. A combination of fundamental research and technical analysis is utilized in the manager or individual security selection process. Portfolio are systematically re-balanced.

Risk of Loss

The following list of risk factors does not purport to be a complete enumeration or explanation of the risks involved with respect to the Firm's investment management activities. Clients should consult with their legal, tax, and other advisors before engaging the Firm to provide investment management services on their behalf.

Market Risks

Investing involves risk, including the potential loss of principal, and all investors should be guided accordingly. The profitability of a significant portion of SWMP's recommendations and/or investment decisions may depend to a great extent upon correctly assessing the future course of price movements of stocks, bonds and other asset classes. In addition, investments may be adversely affected by financial markets and economic conditions throughout the world. There can be no assurance that SWMP will be able to predict these price movements accurately or capitalize on any such assumptions.

Volatility Risks

The prices and values of investments can be highly volatile, and are influenced by, among other things, interest rates, general economic conditions, the condition of the financial markets, the financial condition of the issuers of such assets, changing supply and demand relationships, and programs and policies of governments.

Cash Management Risks

The Firm may invest some of a client's assets temporarily in money market funds or other similar types of investments, during which time an advisory account may be prevented from achieving its investment objective.

Equity-Related Securities and Instruments

The Firm may take long positions in common stocks of U.S. and non-U.S. issuers traded on national securities exchanges and over-the-counter markets. The value of equity securities varies in response to many factors. These factors include, without limitation, factors specific to an issuer and factors specific to the industry in which the issuer participates. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments, and the stock prices of such companies may suffer a decline in response. In addition, equity securities are subject to stock risk, which is the risk that stock prices historically rise and fall in periodic cycles. U.S. and non-U.S. stock markets have experienced periods of substantial price volatility in the past and may do so again in the future. In addition, investments

in small-capitalization, midcapitalization and financially distressed companies may be subject to more abrupt or erratic price movements and may lack sufficient market liquidity, and these issuers often face greater business risks.

Fixed Income Securities

Fixed income securities are subject to the risk of the issuer's or a guarantor's inability to meet principal and interest payments on its obligations and to price volatility.

Currency Risks

An advisory account that holds investments denominated in currencies other than the currency in which the advisory account is denominated may be adversely affected by the volatility of currency exchange rates.

Interest Rate Risks

Interest rates may fluctuate significantly, causing price volatility with respect to securities or instruments held by clients.

Mutual Funds and ETFs

An investment in a mutual fund or ETF involves risk, including the loss of principal. Mutual fund and ETF shareholders are necessarily subject to the risks stemming from the individual issuers of the fund's underlying portfolio securities. Such shareholders are also liable for taxes on any fund-level capital gains, as mutual funds and ETFs are required by law to distribute capital gains in the event they sell securities for a profit that cannot be offset by a corresponding loss.

Shares of mutual funds are generally distributed and redeemed on an ongoing basis by the fund itself or a broker acting on its behalf. The trading price at which a share is transacted is equal to a fund's stated daily per share net asset value ("NAV"), plus any shareholders fees (e.g., sales loads, purchase fees, redemption fees). The per share NAV of a mutual fund is calculated at the end of each business day, although the actual NAV fluctuates with intraday changes to the market value of the fund's holdings. The trading prices of a mutual fund's shares may differ significantly from the NAV during periods of market volatility, which may, among other factors, lead to the mutual fund's shares trading at a premium or discount to actual NAV.

Shares of ETFs are listed on securities exchanges and transacted at negotiated prices in the secondary market. Generally, ETF shares trade at or near their most recent NAV, which is generally calculated at least once daily for indexed based ETFs and potentially more frequently for actively managed ETFs. However, certain inefficiencies may cause the shares to trade at a premium or discount to their pro rata NAV. There is also no guarantee that an active secondary market for such shares will develop or continue to exist. Generally, an ETF only redeems shares when aggregated as creation units (usually 20,000 shares or more). Therefore, if a liquid secondary market ceases to exist for shares of a particular ETF, a shareholder may have no way to dispose of such shares.

Use of Independent Managers

As stated above, SWMP selects certain Independent Managers to manage a portion of its clients' assets. In these situations, SWMP continues to conduct ongoing due diligence of such managers, but such recommendations rely to a great extent on the Independent Managers' ability to successfully implement their investment strategies. In addition, SWMP does not have the ability to supervise the Independent Managers on a day-to-day basis.

Voting of Client Securities

SWMP generally does not accept the authority to vote a client's securities (i.e., proxies) on their behalf. Clients receive proxies directly from the Financial Institutions where their assets are custodied and may contact the Firm at the contact information on the cover of this brochure with questions about any such issuer solicitations.

Item 7. Client Information Provided to Portfolio Managers

In this Item, SWMP is required to describe the type and frequency of the information it communicates to the Independent Managers, if any, managing its clients' investment portfolios. Clients participating in the Program generally grant SWMP the authority to discuss certain non-public information with the Independent Managers engaged to manage their accounts. Depending upon the specific arrangement, the Firm may be authorized to disclose various personal information including, without limitation: names, phone numbers, addresses, social security numbers, tax identification numbers and account numbers. SWMP may also share certain information related to its clients' financial positions and investment objectives in an effort to ensure that the Independent Managers' investment decisions remain aligned with its clients' best interests. This information is communicated on an initial and ongoing basis, or as otherwise necessary to the management of its clients' portfolios.

Item 8. Client Contact with Portfolio Managers

In this Item, SWMP is required to describe any restrictions on clients' ability to contact and consult with the portfolio managers managing their investment portfolios. There are no restrictions on clients' ability to correspond with SWMP. Clients can request to contact the Independent Managers managing their portfolios through SWMP by providing the Firm with written request and identification of the questions or issues to be discussed with the Independent Managers. After receiving the client's written request, SWMP, at its sole discretion, may contact the Independent Managers for the client or arrange for the Independent Managers

and the client to communicate directly. The Independent Manager may not agree to communicate directly with the client.

Item 9. Additional Information

Disciplinary Information

SWMP has not been involved in any legal or disciplinary events that are material to a client's evaluation of its advisory business or the integrity of its management.

Other Financial Industry Activities and Affiliations

This item requires investment advisers to disclose certain financial industry activities and affiliations.

Registered Representatives of a Broker-Dealer

Certain of the Firm's Supervised Persons are registered representatives of PKS and provide clients with securities brokerage services under a separate commission-based arrangement. This arrangement is described at length in Item 5.

Licensed Insurance Agents

A number of the Firm's Supervised Persons are licensed insurance agents and offer certain insurance products on a fully-disclosed commissionable basis. A conflict of interest exists to the extent that SWMP recommends the purchase of insurance products where its Supervised Persons are entitled to insurance commissions or other additional compensation. The Firm has procedures in place whereby it seeks to ensure that all recommendations are made in its clients' best interest regardless of any such affiliations.

Related Certified Public Accounting Firm

SWMP does not render accounting services to clients. In the event a client requires accounting services, the Firm may recommend a certified public accountant. At times, the Firm recommends the services of the certified public accounting firms of Botwinick & Company, L.L.C. ("Botwinick"). These services are rendered independent of SWMP and pursuant to a separate agreement between the client and the accounting firm. One or more of the Firm's Supervised Persons solicit business for the Firm and are also accountants with Botwinick and receive a portion of Botwinick's fees. There exists a conflict of interest to the extent that the Firm recommends the accounting services of CPA Firms and Botwinick recommend the services of the Firm.

Code of Ethics

SWMP has adopted a code of ethics in compliance with applicable securities laws (“Code of Ethics”) that sets forth the standards of conduct expected of its Supervised Persons. SWMP’s Code of Ethics contains written policies reasonably designed to prevent certain unlawful practices such as the use of material non-public information by the Firm or any of its Supervised Persons and the trading by the same of securities ahead of clients in order to take advantage of pending orders.

The Code of Ethics also requires certain of SWMP’s personnel to report their personal securities holdings and transactions and obtain pre-approval of certain investments (*e.g.*, initial public offerings, limited offerings). However, the Firm’s Supervised Persons are permitted to buy or sell securities that it also recommends to clients if done in a fair and equitable manner that is consistent with the Firm’s policies and procedures. This Code of Ethics has been established recognizing that some securities trade in sufficiently broad markets to permit transactions by certain personnel to be completed without any appreciable impact on the markets of such securities. Therefore, under limited circumstances, exceptions may be made to the policies stated below.

When the Firm is engaging in or considering a transaction in any security on behalf of a client, no Supervised Person with access to this information may knowingly effect for themselves or for their immediate family (*i.e.*, spouse, minor children and adults living in the same household) a transaction in that security unless:

- the transaction has been completed;
- the transaction for the Supervised Person is completed as part of a batch trade with clients; or
- a decision has been made not to engage in the transaction for the client.

These requirements are not applicable to: (i) direct obligations of the Government of the United States; (ii) money market instruments, bankers’ acceptances, bank certificates of deposit, commercial paper, repurchase agreements and other high quality short-term debt instruments, including repurchase agreements; (iii) shares issued by mutual funds or money market funds; and (iv) shares issued by unit investment trusts that are invested exclusively in one or more mutual funds.

Clients and prospective clients may contact SWMP to request a copy of its Code of Ethics.

Account Reviews

SWMP monitors client portfolios on a continuous and ongoing basis while regular account reviews are conducted on at least a quarterly basis. Monthly investment meetings review the Firm’s investment models in terms of asset allocations and manager selections. Client investment accounts are reviewed quarterly

and rebalanced at least annually. The Firm also utilizes software to monitor client accounts on a daily basis for asset allocation deviations from the target portfolio.

Reviews are conducted by the Firm's Principals along with an investment adviser representative. All investment advisory clients are encouraged to discuss their needs, goals and objectives with SWMP and to keep the Firm informed of any changes thereto. The Firm contacts ongoing investment advisory clients at least annually to review its previous services and/or recommendations and quarterly to discuss the impact resulting from any changes in the client's financial situation and/or investment objectives.

Account Statements and General Reports

Clients are provided with transaction confirmation notices and regular summary account statements directly from the Financial Institutions where their assets are custodied. From time-to-time or as otherwise requested, clients may also receive written or electronic reports from SWMP and/or an outside service provider, which contain certain account and/or market-related information, such as an inventory of account holdings or account performance. Clients should compare the account statements they receive from their custodian with any documents or reports they receive from SWMP or an outside service provider.

Client Referrals

In the event a client is introduced to SWMP by either an unaffiliated or an affiliated solicitor, the Firm may pay that solicitor a referral fee in accordance with applicable state securities laws. Unless otherwise disclosed, any such referral fee is paid solely from SWMP's investment management fee and does not result in any additional charge to the client. If the client is introduced to the Firm by an unaffiliated solicitor, the solicitor is required to provide the client with SWMP's written brochure(s) and a copy of a solicitor's disclosure statement containing the terms and conditions of the solicitation arrangement. Any affiliated solicitor of SWMP is required to disclose the nature of his or her relationship to prospective clients at the time of the solicitation and will provide all prospective clients with a copy of the Firm's written brochure(s) at the time of the solicitation.

Receipt of Economic Benefit and Brokerage Practices

SWMP requires that clients utilize the custody, brokerage and clearing services of Schwab for investment management accounts in the Program. SWMP is independently owned and operated and not affiliated with Schwab. Schwab provides SWMP with access to its institutional trading and custody services, which are typically not available to retail investors. SWMP does not consider, in selecting or recommending broker-dealers, whether the Firm receives client referrals from the Financial Institutions or other third party.

Factors which SWMP considers in recommending Schwab or any other broker-dealer to clients include their respective financial strength, reputation, execution, pricing, research and service. Schwab has also agreed to reimburse clients for exit fees associated with moving accounts to Schwab. The reimbursement is only available up to a certain amount for all of the Firm's clients over a twelve month period. Fees are reimbursed on a first-come-first-served basis so that no clients are favored.

In seeking best execution in recommending Schwab, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a Schwab's services, including among others, the value of research provided, execution capability, commission rates and responsiveness.

Consistent with obtaining best execution, brokerage transactions are directed to certain broker-dealers in return for investment research products and/or services which assist SWMP in its investment decision-making process. Such research will be used to service all of the Firm's clients. The receipt of investment research products and/or services as well as the allocation of the benefit of such investment research products and/or services poses a conflict of interest because SWMP does not have to produce or pay for the products or services.

SWMP periodically and systematically reviews its policies and procedures regarding its recommendation of Financial Institutions in light of its duty to obtain best execution.

SWMP receives without cost from Schwab administrative support, computer software, related systems support, as well as other third party support as further described below (together "Support") which allow SWMP to better monitor client accounts maintained at Schwab and otherwise conduct its business. SWMP receives the Support without cost because the Firm renders investment management services to clients that maintain assets at Schwab. The Support is not provided in connection with securities transactions of clients (i.e., not "soft dollars"). The Support benefits SWMP, but not its clients directly. Clients should be aware that SWMP's receipt of economic benefits such as the Support from a broker-dealer creates a conflict of interest since these benefits may influence the Firm's choice of broker-dealer over another that does not furnish similar software, systems support or services. In fulfilling its duties to its clients, SWMP endeavors at all times to put the interests of its clients first and has determined that the recommendation of Schwab is in the best interest of clients and satisfies the Firm's duty to seek best execution.

Specifically, SWMP receives the following benefits from Schwab: i) receipt of duplicate client confirmations and bundled duplicate statements; ii) access to a trading desk that exclusively services its institutional traders; iii) access to block trading which provides the ability to aggregate securities transactions and then allocate the appropriate shares to client accounts; and iv) access to an electronic communication network for client order entry and account information.

In addition, the Firm receives funds to be used toward qualifying third-party service providers for research, marketing, compliance, technology and software platforms and services. These services generally are

available to independent investment advisors on an unsolicited basis, at no charge to them so long as the Firm has a certain amount of clients' assets maintained in accounts at Schwab Advisor Services. Schwab's services include brokerage services that are related to the execution of securities transactions, custody, research, including that in the form of advice, analyses and reports, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

In addition, the Firm receives funds to be used toward qualifying third-party service providers for research, marketing, compliance, technology and software platforms and services. These funds are available upon hitting specific thresholds of new assets added to Schwab during an initial twelve month period.

Schwab also makes available to the Firm other products and services that benefit the Firm but may not benefit its clients' accounts. These benefits may include national, regional or Firm specific educational events organized and/or sponsored by Schwab. Other potential benefits may include occasional business entertainment of personnel of SWMP by Schwab personnel, including meals, invitations to sporting events, including golf tournaments, and other forms of entertainment, some of which may accompany educational opportunities. Other of these products and services assist SWMP in managing and administering clients' accounts. These include software and other technology (and related technological training) that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts), provide research, pricing information and other market data, facilitate payment of the Firm's fees from its clients' accounts, and assist with back-office training and support functions, recordkeeping and client reporting. Many of these services generally may be used to service all or some substantial number of the Firm's accounts, including accounts not maintained at Schwab. Schwab also makes available to SWMP other services intended to help the Firm manage and further develop its business enterprise. These services may include professional compliance, legal and business consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance, employee benefits providers, human capital consultants, insurance and marketing. In addition, Schwab may make available, arrange and/or pay vendors for these types of services rendered to the Firm by independent third parties. Schwab may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to the Firm. While, as a fiduciary, SWMP endeavors to act in its clients' best interests, the Firm's recommendation that clients maintain their assets in accounts at Schwab may be based in part on the benefits received and not solely on the nature, cost or quality of custody and brokerage services provided by Schwab, which creates a potential conflict of interest.

As described herein, the Firm's management services are provided through the Program where the client does not pay separately for brokerage commissions. Schwab's pricing to the Firm for brokerage services is based partially on client holdings in types of investments, including cash and cash equivalents. This results in a conflict of interest to the Firm since there is an incentive to use such investments for the Firm to secure a lower fee from Schwab which would benefit the Firm, but not the client.

Trade Aggregation

Transactions for each client will be effected independently, unless SWMP decides to purchase or sell the same securities for several clients at approximately the same time. SWMP may (but is not obligated to) combine or “batch” such orders to obtain best execution, to negotiate more favorable commission rates or to allocate equitably among the Firm’s clients differences in prices and commissions or other transaction costs that might not have been obtained had such orders been placed independently. Under this procedure, transactions will be averaged as to price and allocated among SWMP’s clients pro rata to the purchase and sale orders placed for each client on any given day. To the extent that the Firm determines to aggregate client orders for the purchase or sale of securities, including securities in which SWMP’s Supervised Persons may invest, the Firm does so in accordance with applicable rules promulgated under the Advisers Act and no-action guidance provided by the staff of the U.S. Securities and Exchange Commission. SWMP does not receive any additional compensation or remuneration as a result of the aggregation.

In the event that the Firm determines that a prorated allocation is not appropriate under the particular circumstances, the allocation will be made based upon other relevant factors, which include: (i) when only a small percentage of the order is executed, shares may be allocated to the account with the smallest order or the smallest position or to an account that is out of line with respect to security or sector weightings relative to other portfolios, with similar mandates; (ii) allocations may be given to one account when one account has limitations in its investment guidelines which prohibit it from purchasing other securities which are expected to produce similar investment results and can be purchased by other accounts; (iii) if an account reaches an investment guideline limit and cannot participate in an allocation, shares may be reallocated to other accounts (this may be due to unforeseen changes in an account’s assets after an order is placed); (iv) with respect to sale allocations, allocations may be given to accounts low in cash; (v) in cases when a pro rata allocation of a potential execution would result in a de minimis allocation in one or more accounts, the Firm may exclude the account(s) from the allocation; the transactions may be executed on a pro rata basis among the remaining accounts; or (vi) in cases where a small proportion of an order is executed in all accounts, shares may be allocated to one or more accounts on a random basis.

Financial Information

SWMP is not required to disclose any financial information due to the following:

- The Firm does not require or solicit the prepayment of more than \$1,200 in fees six months or more in advance of services rendered;
- The Firm does not have a financial condition that is reasonably likely to impair its ability to meet contractual commitments to clients; and
- The Firm has not been the subject of a bankruptcy petition at any time during the past ten years.
