ENDURANCE REAL ASSET MANAGEMENT, LLC

A manager of manager company

**SPECIALIZING IN REAL
ASSETS INVESTING FOR
INSTITUTIONAL INVESTORS**

PHONE: 773.750.3682

THE NEED FOR REAL ASSET INVESTING

Real Assets are physical assets that have value due to their substance and properties. Real assets include infrastructure, commodities, real estate, agricultural land, machinery, oil and utilities. They are appropriate for inclusion in most diversified portfolios because of their relatively low correlation with financial assets such as stocks and bonds.

INTRODUCTION

ENDURANCE Real Asset Management, LLC is an RIA based in Chicago, Illinois. Our mission is to provide attractive real asset investment opportunities to institutional investors. As a manager of manager firm, we build subadviser relationships with small to mid-size real asset managers and introduce institutional clients seeking competitive risk/return characteristics.

ALTERNATIVE APPROACH

We look for mid and small sized alternative investment companies offering attractive risk/return characteristics. These managers have expertise in asset management and not necessarily in capital raising. On the other side of the table are institutional investors seeking quality alternative managers. Our premise is to apply our due diligence to identify and form partnerships with high quality managers. The goal is to introduce the appropriate managers with the right institutional investor. We will leverage our relationships and plan knowledge to make appropriate introductions where both parties will benefit equally.

Real Asset Managers

If you are a Real Asset Manager looking for a sub advisement relationship please contact us at dave@enduranceram.com. We are always looking for quality real asset managers to introduce to our institutional investors.
