Brochure Supplement (Part 2B of Form ADV) 13

Item 4: Advisory Business

Firm Description

Miller Private Wealth LLC ("MPW") was founded in 2019. Tracy Miller is 100% owner.

Types of Advisory Services

ASSET MANAGEMENT

MPW offers discretionary asset management services to advisory Clients. MPW will offer Clients ongoing asset management services through determining individual investment goals, time horizons, objectives, and risk tolerance. Investment strategies, investment selection, asset allocation, portfolio monitoring and the overall investment program will be based on the above factors. The Client will authorize MPW discretionary authority to execute selected investment program transactions as stated within the Investment Advisory Agreement.

SEMINARS AND WORKSHOPS

MPW holds seminars and workshops to educate the public on different types of investments and the different services they offer. The seminars are educational in nature and no specific investment or tax advice is given.

Client Tailored Services and Client Imposed Restrictions

The goals and objectives for each Client are documented in our Client files. Investment strategies are created that reflect the stated goals and objectives. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without written Client consent.

Wrap Fee Programs

MPW sponsors a wrap fee program. The client pays one fee to MPW which includes MPW's Management Fee and transaction costs associated with the transactions. More information is available in the Form ADV Part 2, Appendix 1.

Client Assets under Management

As this is the initial filing of this brochure, MPW has no Client assets under management.

Item 5: Fees and Compensation

Method of Compensation and Fee Schedule

MPW bases its fees on a percentage of assets under management, hourly charges and fixed fees.

ASSET MANAGEMENT

Clients in the Wrap Fee Programs pay a single annualized fee, based upon a percentage of the market value of all program assets. A Wrap-Fee Program is a convenient single fee that covers both our services and brokerage services provided by the custodian. Custodial services that are included in our Wrap Fee Program cover all trading commissions and other transaction fees relating to the execution of securities transactions within client accounts. A separate account is maintained for Clients with the custodian. the MPW Wrap Fee Program charges an annual fee for services that does not exceed 1.50% of the client's assets under management.

The actual fee charged to each client is negotiable based on factors such as the client's financial situation and circumstances, the amount of assets under management and the overall complexity of the services provided. This includes the type of portfolio strategies used. Prior to services being provided, the exact services and fees will be agreed upon and disclosed in the Client Agreement.

Program fees are divided and billed quarterly in advance. Quarterly fees shall be calculated based on the ending quarterly balance adjusted for contributions and distributions, not adjusted by any margin debit. Fees will be prorated during the initial and final quarters service is provided. Fees are generally deducted directly from a client's account. Clients must provide TD Ameritrade Institutional with written authorization to have fees deducted from the account and paid to MPW. The custodian will send client statements detailing account activity for the prior period including a description of all disbursements for the account including the amount of MPW's fee deducted directly from the account. At the discretion of MPW, clients may pay fees directly upon receipt of their billing statement.

SEMINARS AND WORKSHOPS

MPW does not charge a fee for attendance to these seminars.

Client Payment of Fees

Investment management fees are billed quarterly in advance, meaning that we invoice you before the billing period. Fees are usually deducted from a designated Client account to facilitate billing. The Client must consent in advance to direct debiting of their investment account.

MPW, in its sole discretion, may charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with Clients, etc.).

Additional Client Fees Charged

Custodians may charge transaction fees on purchases or sales of certain mutual funds, equities, and exchange-traded funds. These charges may include mutual fund transaction fees, postage and handling and miscellaneous fees.

For more details on the brokerage practices, see Item 12 of this brochure.

Prepayment of Client Fees

MPW does not require any prepayment of fees of more than \$1,200 per Client and six months or more in advance.

Investment management fees are billed quarterly in advance.

External Compensation for the Sale of Securities to Clients

Investment Advisor Representatives of MPW receive external compensation sales of investment related products such as insurance as licensed insurance agents. From time to time, they will offer clients services from those activities. Less than 5% of Ms. Miller's compensation is from external compensation.

This represents a conflict of interest because it gives an incentive to recommend products based on the commission received. As an insurance agent, do not charge advisory fees for the services offered through insurance carriers. This conflict is mitigated by disclosures, procedures, and MPW's fiduciary obligation to place the best interest of the Client first and

Clients are not required to purchase any products or services. Clients have the option to purchase these products through another insurance agent of their choosing.

Item 6: Performance-Based Fees and Side-by-Side Management

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

MPW does not use a performance-based fee structure because of the conflict of interest. Performance based compensation may create an incentive for MPW to recommend an investment that may carry a higher degree of risk to the Client.

Item 7: Types of Clients

Description

MPW generally provides investment advice to individuals and high net worth individuals.

Client relationships vary in scope and length of service.

Account Minimums

MPW does not require a minimum to open an account.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include fundamental analysis, technical analysis, and charting. Investing in securities involves risk of loss that Clients should be prepared to bear. Past performance is not a guarantee of future returns.

Fundamental analysis concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Technical analysis attempts to predict a future stock price or direction based on market trends. The assumption is that the market follows discernible patterns and if these patterns can be identified then a prediction can be made. The risk is that markets do not always follow patterns and relying solely on this method may not take into account new patterns that emerge over time.

Charting analysis strategy involves using and comparing various charts to predict long and short-term performance or market trends. The risk involved in using this method is that only past performance data is considered without using other methods to crosscheck data. Using charting analysis without other methods of analysis would be making the assumption that past performance will be indicative of future performance. This may not be the case.

The main sources of information include financial newspapers and magazines, annual reports, prospectuses, and filings with the Securities and Exchange Commission.

Investment Strategy

The investment strategy for a specific Client is based upon the objectives stated by the Client during consultations. The Client may change these objectives at any time by providing written notice to MPW. Each Client executes a Client profile form or similar form that documents their objectives and their desired investment strategy.

Security Specific Material Risks

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks and should discuss these risks with MPW:

- *Market Risk:* The prices of securities held by mutual funds in which Clients invest may decline in response to certain events taking place around the world, including those directly involving the companies whose securities are owned by a fund; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency, interest rate and commodity price fluctuations. Investors should have a long-term perspective and be able to tolerate potentially sharp declines in market value.
- *Interest-rate Risk:* Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- *Inflation Risk:* When any type of inflation is present, a dollar today will buy more than a dollar next year, because purchasing power is eroding at the rate of inflation.
- *Currency Risk:* Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- *Reinvestment Risk:* This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- *Liquidity Risk:* Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- *Management Risk:* The advisor's investment approach may fail to produce the intended results. If the advisor's assumptions regarding the performance of a specific asset class or fund are not realized in the expected time frame, the overall performance of the Client's portfolio may suffer.
- *Equity Risk:* Equity securities tend to be more volatile than other investment choices. The value of an individual mutual fund or ETF can be more volatile than the market as a whole. This volatility affects the value of the Client's overall portfolio. Small- and mid-cap companies are subject to additional risks. Smaller companies may experience greater volatility, higher failure rates, more limited markets, product lines, financial resources, and less management experience than larger companies. Smaller companies may also have a lower trading volume, which may disproportionately affect their market price, tending to make them fall more in response to selling pressure than is the case with larger companies.

- *Investment Companies Risk:* When a Client invests in open end mutual funds or ETFs, the Client indirectly bears their proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives). ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value or (ii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are delisted from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. Adviser has no control over the risks taken by the underlying funds in which Client invests.
- *Trading risk:* Investing involves risk, including possible loss of principal. There is no assurance that the investment objective of any fund or investment will be achieved.

Item 9: Disciplinary Information

Criminal or Civil Actions

MPW and its management have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

MPW and its management have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

MPW and its management have not been involved in legal or disciplinary events that are material to a Client's or prospective Client's evaluation of MPW or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

Broker-Dealer or Representative Registration

MPW is not registered as a broker-dealer and no affiliated representatives of MPW are registered representatives of a broker-dealer.

Futures or Commodity Registration

Neither MPW nor its affiliated representatives are registered or have an application pending to register as a futures commission merchant, commodity pool operator, or a commodity trading advisor.

Material Relationships Maintained by this Advisory Business and Conflicts of Interest

President Tracy Miller has a financial affiliated business as an insurance agent with Red River Advisors LLC. Approximately 10% of her time is spent on these activities. She will offer Clients services from those activities. As an insurance agent, she may receive separate yet typical compensation.

This practice represent a conflict of interest because it gives an incentive to recommend products based on the commission amount received. This conflict is mitigated by disclosures, procedures and the firm's fiduciary obligation to place the best interest of the

Client first and the Clients are not required to purchase any products. Clients have the option to purchase these products through another insurance agent of their choosing.

Recommendations or Selections of Other Investment Advisors and Conflicts of Interest

MPW may also utilize the services of a Sub-Advisor to manage Clients' investment portfolios. Sub-Advisors will maintain the models or investment strategies agreed upon between Sub-Advisor and MPW. Sub-Advisors execute all trades on behalf of MPW in Client accounts. MPW will be responsible for the overall direct relationship with the Client. MPW retains the authority to terminate the Sub-Advisor relationship at MPW's discretion.

In addition to the authority granted to MPW under the Agreement, Client will grant MPW full discretionary authority and authorizes MPW to select and appoint one or more independent investment advisors ("Advisors") to provide investment advisory services to Client without prior consultation with or the prior consent of Client. Such Advisors shall have all of the same authority relating to the management of Client's investment accounts as is granted to MPW in the Agreement. In addition, at MPW's discretion, MPW may grant such Advisors full authority to further delegate such discretionary investment authority to additional Advisors.

This practice represents a conflict of interest as MPW may select Sub-Advisors who charge a lower fee for their services than other Sub-Advisors. This conflict is mitigated by disclosures, procedures, and by the fact that MPW has a fiduciary duty to place the best interest of the Client first and will adhere to their code of ethics.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Code of Ethics Description

The affiliated persons (affiliated persons include employees and/or independent contractors) of MPW have committed to a Code of Ethics ("Code"). The purpose of our Code is to set forth standards of conduct expected of MPW affiliated persons and addresses conflicts that may arise. The Code defines acceptable behavior for affiliated persons of MPW. The Code reflects MPW and its supervised persons' responsibility to act in the best interest of their Client.

One area which the Code addresses is when affiliated persons buy or sell securities for their personal accounts and how to mitigate any conflict of interest with our Clients. We do not allow any affiliated persons to use non-public material information for their personal profit or to use internal research for their personal benefit in conflict with the benefit to our Clients.

MPW's policy prohibits any person from acting upon or otherwise misusing non-public or inside information. No advisory representative or other affiliated person, officer or director of MPW may recommend any transaction in a security or its derivative to advisory Clients or engage in personal securities transactions for a security or its derivatives if the advisory representative possesses material, non-public information regarding the security.

MPW's Code is based on the guiding principle that the interests of the Client are our top priority. MPW's officers, directors, advisors, and other affiliated persons have a fiduciary duty to our Clients and must diligently perform that duty to maintain the complete trust

and confidence of our Clients. When a conflict arises, it is our obligation to put the Client's interests over the interests of either affiliated persons or the company.

The Code applies to "access" persons. "Access" persons are affiliated persons who have access to non-public information regarding any Clients' purchase or sale of securities, or non-public information regarding the portfolio holdings of any reportable fund, who are involved in making securities recommendations to Clients, or who have access to such recommendations that are non-public.

MPW will provide a copy of the Code of Ethics to any Client or prospective Client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflict of Interest

MPW and its affiliated persons do not recommend to Clients securities in which we have a material financial interest.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

MPW and its affiliated persons may buy or sell securities that are also held by Clients. In order to mitigate conflicts of interest such as trading ahead of Client transactions, affiliated persons are required to disclose all reportable securities transactions as well as provide MPW with copies of their brokerage statements.

The Chief Compliance Officer of MPW is Tracy Miller. She reviews all trades of the affiliated persons each quarter. The personal trading reviews ensure that the personal trading of affiliated persons does not affect the markets and that Clients of the firm receive preferential treatment over associated persons' transactions.

Client Securities Recommendations or Trades and Concurrent Advisory Firm Securities Transactions and Conflicts of Interest

MPW does not maintain a firm proprietary trading account and does not have a material financial interest in any securities being recommended and therefore no conflicts of interest exist. However, affiliated persons may buy or sell securities at the same time they buy or sell securities for Clients. In order to mitigate conflicts of interest such as front running, affiliated persons are required to disclose all reportable securities transactions as well as provide MPW with copies of their brokerage statements.

The Chief Compliance Officer of MPW is Tracy Miller. She reviews all employee trades each quarter. The personal trading reviews ensure that the personal trading of affiliated persons does not affect the markets and that Clients of the firm receive preferential treatment over associated persons' transactions.

Item 12: Brokerage Practices

Factors Used to Select Broker-Dealers for Client Transactions

MPW may recommend the use of a particular broker-dealer such as TD Ameritrade Institutional is a Division of TD Ameritrade, Inc., Member FINRA/SIPC ("TD Ameritrade"), an unaffiliated SEC-registered broker-dealer and FINRA member or may utilize a broker-dealer of the Client's choosing. MPW will select appropriate brokers based on a number of factors including but not limited to their relatively low transaction fees and reporting ability. MPW relies on its broker to provide its execution services at the best prices

available. Lower fees for comparable services may be available from other sources. Clients pay for any and all custodial fees in addition to the advisory fee charged by MPW.

MPW participates in the TD Ameritrade Institutional program. TD Ameritrade is an independent SEC-registered broker-dealer and is not affiliated with MPW. TD Ameritrade offers to independent investment Advisors services which include custody of securities, trade execution, clearance and settlement of transactions. MPW receives some benefits from TD Ameritrade through its participation in the program. (Please see the disclosure under Item 14).

- *Directed Brokerage*

In circumstances where a Client directs MPW to use a certain broker-dealer, MPW still has a fiduciary duty to its Clients. The following may apply with Directed Brokerage: MPW's inability to negotiate commissions, to obtain volume discounts, there may be a disparity in commission charges among Clients and conflicts of interest arising from brokerage firm referrals. The firm may be unable to achieve most favorable execution of client transactions, and this practice may cost clients more money.

- *Best Execution*

Investment advisors who manage or supervise Client portfolios have a fiduciary obligation of best execution. The determination of what may constitute best execution and price in the execution of a securities transaction by a broker involves a number of considerations and is subjective. Factors affecting brokerage selection include the overall direct net economic result to the portfolios, the efficiency with which the transaction is effected, the ability to affect the transaction where a large block is involved, the operational facilities of the broker-dealer, the value of an ongoing relationship with such broker and the financial strength and stability of the broker. The firm does not receive any portion of the trading fees.

- *Soft Dollar Arrangements*

The Securities and Exchange Commission defines soft dollar practices as arrangement under which products or services other than execution services are obtained by MPW from or through a broker-dealer in exchange for directing Client transactions to the broker-dealer. As permitted by Section 28(e) of the Securities Exchange Act of 1934, MPW receives economic benefits as a result of commissions generated from securities transactions by the broker-dealer from the accounts of MPW. These benefits include both proprietary research from the broker and other research written by third parties.

A conflict of interest exists when MPW receives soft dollars. This conflict is mitigated by the fact that MPW has a fiduciary responsibility to act in the best interest of its Clients and the services received are beneficial to all Clients.

MPW utilizes the services of custodial broker dealers. Economic benefits are received by MPW which would not be received if MPW did not give investment advice to Clients. These benefits include: A dedicated trading desk, a dedicated service group and an account services manager dedicated to MPW's accounts, ability to conduct "block" Client trades, electronic download of trades, balances and positions, duplicate and batched Client statements, and the ability to have advisory fees directly deducted from Client accounts.

Aggregating Securities Transactions for Client Accounts

MPW is authorized in its discretion to aggregate purchases and sales and other transactions made for the account with purchases and sales and transactions in the same securities for other Clients of MPW. All Clients participating in the aggregated order shall receive an average share price with all other transaction costs shared on a pro-rated basis.

Item 13: Review of Accounts

Schedule for Periodic Review of Client Accounts or Financial Plans and Advisory Persons Involved

Account reviews are performed quarterly by the Chief Compliance Officer of MPW. Account reviews are performed more frequently when market conditions dictate. Reviews of Client accounts include, but are not limited to, a review of Client documented risk tolerance, adherence to account objectives, investment time horizon, and suitability criteria, reviewing target bans of each asset class to identify if there is an opportunity for rebalancing, and reviewing accounts for tax loss harvesting opportunities.

Review of Client Accounts on Non-Periodic Basis

Other conditions that may trigger a review of Clients' accounts are changes in the tax laws, new investment information, and changes in a Client's own situation.

Content of Client Provided Reports and Frequency

Clients receive written account statements no less than quarterly for managed accounts. Account statements are issued by MPW's custodian. MPW will provide quarterly performance reports to the Client. Clients are urged to compare these reports with the account statements provided by the custodian. Client receives confirmations of each transaction in account from Custodian and an additional statement during any month in which a transaction occurs.

Item 14: Client Referrals and Other Compensation

Economic Benefits Provided to the Advisory Firm from External Sources and Conflicts of Interest

As disclosed under Item 12 above, MPW participates in TD Ameritrade's institutional customer program and MPW may recommend TD Ameritrade to Clients for custody and brokerage services. There is no direct link between MPW's participation in the program and the investment advice it gives to its Clients, although MPW receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving MPW participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to MPW by third party vendors.

TD Ameritrade may also have paid for business consulting and professional services received by MPW's related persons. Some of the products and services made available by TD Ameritrade through the program may benefit MPW but may not benefit its Client accounts. These products or services may assist MPW in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help MPW manage and further develop its business enterprise. The benefits received by MPW or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to Clients, MPW endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits by MPW or its related persons in and of itself creates a conflict of interest and may indirectly influence the MPW's choice of TD Ameritrade for custody and brokerage services.

Advisory Firm Payments for Client Referrals

MPW does not compensate for Client referrals.

Item 15: Custody

Account Statements

All assets are held at qualified custodians, which means the custodians provide account statements directly to Clients at their address of record at least quarterly. Clients are urged to compare the account statements received directly from their custodians to any documentation or reports prepared by MPW.

MPW is deemed to have constructive custody solely because advisory fees are directly deducted from Client's accounts by the custodian on behalf of MPW.

If MPW is authorized or permitted to deduct fees directly from the account by the custodian:

- MPW will provide the Client with an invoice concurrent to instructing the custodian to deduct the fee stating the amount of the fee, the formula used to calculate the fee, the amount of assets under management the fee is based on and the time period covered by the fee;
- MPW will obtain written authorization signed by the Client allowing the fees to be deducted; and
- The Client will receive quarterly statements directly from the custodian which disclose the fees deducted.

Item 16: Investment Discretion

Discretionary Authority for Trading

MPW requires discretionary authority to manage securities accounts on behalf of Clients. MPW has the authority to determine, without obtaining specific Client consent, the securities to be bought or sold, and the amount of the securities to be bought or sold.

MPW allows Client's to place certain restrictions, as outlined in the Client's Investment Policy Statement or similar document. Such restrictions could include only allowing

purchases of socially conscious investments. These restrictions must be provided to MPW in writing.

The Client approves the custodian to be used.

Item 17: Voting Client Securities

Proxy Votes

MPW does not vote proxies on securities. Clients are expected to vote their own proxies. The Client will receive their proxies directly from the custodian of their account or from a transfer agent.

When assistance on voting proxies is requested, MPW will provide recommendations to the Client. If a conflict of interest exists, it will be disclosed to the Client.

Item 18: Financial Information

Balance Sheet

A balance sheet is not required to be provided because MPW does not serve as a custodian for Client funds or securities and MPW does not require prepayment of fees of more than \$1,200 per Client and six months or more in advance.

Financial Conditions Reasonably Likely to Impair Advisory Firm's Ability to Meet Commitments to Clients

MPW has no condition that is reasonably likely to impair our ability to meet contractual commitments to our Clients.

Bankruptcy Petitions during the Past Ten Years

MPW has not had any bankruptcy petitions in the last ten years.

Item 19: Requirements for State Registered Advisors

Principal Executive Officers and Management Persons

The education and business background for all management and supervised persons can be found in the Part 2B of this Brochure.

Outside Business Activities

The outside business activities for all management and supervised persons can be found in the Part 2B of this Brochure.

Performance Based Fee Description

Neither MPW nor its management receive performance based fees. Please see Item 6 of the ADV 2A for more information.

Disclosure of Material Facts Related to Arbitration or Disciplinary Actions Involving Management Persons

None to report.

- Charles Schwab & Co., Inc.; Registered Representative; 11/1997 – 09/2009

Professional Certifications

Tracy Miller has earned certifications and credentials that are required to be explained in further detail.

The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP (with flame design) marks (collectively, the “CFP® marks”) are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with Clients.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor’s Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board’s financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;

- Examination – Pass the comprehensive CFP® Certification Examination. The examination includes case studies and Client scenarios designed to test one's ability to correctly diagnose financial planning issues and apply one's knowledge of financial planning to real world circumstances;
- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- Ethics – Agree to be bound by CFP Board's *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and
- Ethics – Renew an agreement to be bound by the *Standards of Professional Conduct*. The *Standards* prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their Clients. CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board's enforcement process, which could result in suspension or permanent revocation of their CFP® certification.

Chartered Financial Consultant® (ChFC®): Chartered Financial Consultant (ChFC®) is a designation issued by the American College. ChFC® designation requirements:

- Complete ChFC® coursework within five years from the date of initial enrollment.
- Pass the exams for all required elective courses. A minimum score of 70% must be achieved to pass.
- Meet the experience requirements: Three years of full-time business experience within the five years preceding the date of the award. An undergraduate or graduate degree from an accredited educational institution qualifies as one year of business experience.
- Take the Professional Ethics Pledge.
- When you achieve your ChFC® designation, you must earn 30 hours of continuing education credit every two years.

Chartered Life Underwriter (CLU®): Chartered Life Underwriter is a designation granted by the American College. CLU® designation requirements:

- Successfully complete CLU® coursework: five required and three elective courses.
- Meet the experience requirements: Three years of business experience immediately preceding the date of the use of the designation are required. An undergraduate or graduate degree from an accredited education institution qualifies as one year of business experience.
- Take the Professional Ethics Pledge.
- When you achieve the CLU® designation, you must complete 30 hours of continuing education credit every two years.

Item 3 - Disciplinary Information

Criminal or Civil Action: None to report.

Administrative Proceeding: None to report.

Self-Regulatory Proceeding: None to report.

Item 4 - Other Business Activities Engaged In

President Tracy Miller has a financial affiliated business as an insurance agent with Red River Advisors LLC. Approximately 10% of her time is spent on this activity. She will offer Clients services from this activity. As an insurance agent, she may receive separate yet typical compensation.

These practices represent conflicts of interest because it gives an incentive to recommend products based on the commission amount received. This conflict is mitigated by disclosures, procedures and the firm's fiduciary obligation to place the best interest of the Client first and the Clients are not required to purchase any products. Clients have the option to purchase these products through another insurance agent of their choosing. See Item 10 for more details.

Item 5 - Additional Compensation

Tracy Miller receives commissions on the insurance she sells. She does not receive any performance-based fees.

Item 6 - Supervision

Since Tracy Miller is the sole owner and investment adviser representative of MPW she is solely responsible for all supervision and formulation and monitoring of investment advice offered to Clients. She will adhere to the policies and procedures as described in the firm's Compliance Manual. She can be reached at Tracy.Ann@MillerPWLLC.com or 405-470-0359.
