FORM ADV PART 2A BROCHURE

This brochure provides information about the qualifications and business practices of Institutional Investment Advisors Corp. If you have any questions about the contents of this brochure, please contact us at 212-869-7266. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Institutional Investment Advisors Corp. is available on the SEC's website at www.adviserinfo.sec.gov.

Institutional Investment Advisors Corp. is a registered investment adviser. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Item 2 Material Changes

Form ADV Part 2 requires registered investment advisers to amend their brochure when information becomes materially inaccurate. If there are any material changes to an adviser's disclosure brochure, the adviser is required to notify you and provide you with a description of the material changes.

Since our last annual updating amendment dated January 30, 2023, there are no material changes to report.

Item 4 Advisory Business

Description of Services and Fees

Institutional Investment Advisors Corp. is a registered investment adviser based in New York, NY. We are organized as a corporation under the laws of the State of NY. We have been providing investment advisory services since 1990. Clifford Michaels is our principal owner. Currently, we offer the following investment advisory services, which are personalized to each individual client:

- Financial Planning and Consulting Services
- Investment Management Services

The following paragraphs describe our services and fees. Please refer to the description of each investment advisory service listed below for information on how we tailor our advisory services to your individual needs. As used in this brochure, the words "we", "our" and "us" refer to Institutional Investment Advisors Corp. and the words "you", "your" and "client" refer to you as either a client or prospective client of our firm.

Financial Planning and Consulting Services

We offer financial planning services which typically involve providing a variety of advisory services to clients regarding the management of their financial resources based upon an analysis of their individual needs. These services can range from broad, comprehensive, financial planning to consultative or single subject planning. If you retain our firm for financial planning services, we will meet with you to gather information about your financial circumstances and objectives. We may also use financial planning software to determine your current financial position and to define and quantify your long-term goals and objectives. Once we specify those long-term objectives (both financial and non-financial), we will develop shorter-term, targeted objectives. We will review and analyze the information you provide to our firm and the data derived from our financial planning software, after which we will deliver a written plan to you. The financial plan is designed to help you with all aspects of financial planning without ongoing investment management after the financial plan is completed.

The financial plan may include, but is not limited to: a net worth statement; a cash flow statement; a review of investment accounts, including reviewing asset allocation and providing repositioning recommendations; strategic tax planning; a review of retirement accounts and plans including recommendations; a review of insurance policies and recommendations for changes, if necessary; one or more retirement scenarios; estate planning review and recommendations; and education planning with funding recommendations, detailed investment advice and specific recommendations are provided as part of a financial plan.

Financial plans are based on your financial situation at the time we present the plan to you, and on the financial information you provide to us. You must promptly notify our firm if your financial situation, goals, objectives, or needs change.

You are under no obligation to act on our financial planning recommendations. Should you choose to act on any of our recommendations, you are not obligated to implement the financial plan through any of our other investment advisory services. Moreover, you may act on our recommendations by placing securities transactions with any brokerage firm.

Investment Management Services

We offer discretionary and non-discretionary investment management services. Our investment advice is tailored to meet our clients' needs and investment objectives. If you retain our firm for investment management services, we will meet with you to determine your investment objectives, risk tolerance, and other relevant information at the beginning of our advisory relationship. We will use the information

we gather to develop a strategy that enables our firm to give you continuous and focused investment advice and/or to make investments on your behalf. As part of our investment management services, we may customize an investment portfolio for you according to your risk tolerance and investing objectives. We may also invest your assets using a predefined strategy. Once we construct an investment portfolio for you, we will monitor your portfolio's performance on an ongoing basis, and will rebalance the portfolio as required by changes in market conditions and in your financial circumstances.

If you participate in our discretionary investment management services, we require you to grant our firm discretionary authority to manage your account. Discretionary authorization will allow us to determine the specific securities, and the amount of securities, to be purchased or sold for your account without your approval prior to each transaction. Discretionary authority is typically granted by the investment management service agreement you sign with our firm and the appropriate trading authorization forms. You may limit our discretionary authority (for example, limiting the types of securities that can be purchased for your account) by providing our firm with your restrictions and guidelines in writing. If you enter into non-discretionary arrangements with our firm, we must obtain your approval prior to executing any transactions on behalf of your account.

Types of Investments

We primarily offer advice on no-load or low load mutual funds and exchange traded funds. We also offer advice on equities (stocks), warrants, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities, U. S. government securities, options contracts, futures contracts, and interests in partnerships.

Additionally, we may advise you on any type of investment that we deem appropriate based on your stated goals and objectives. We may also provide advice on any type of investment held in your portfolio at the inception of our advisory relationship.

You may request that we refrain from investing in particular securities or certain types of securities. You must provide these restrictions to our firm in writing.

IRA Rollover Recommendations

Effective December 20, 2021 (or such later date as the US Department of Labor ("DOL") Field Assistance Bulletin 2018-02 ceases to be in effect), for purposes of complying with the DOL's Prohibited Transaction Exemption 2020-02 ("PTE 2020-02") where applicable, we are providing the following acknowledgment to you. When we provide investment advice to you regarding your retirement plan account or individual retirement account, we are fiduciaries within the meaning of Title I of the Employee Retirement Income Security Act and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. The way we make money creates some conflicts with your interests, so we operate under a special rule that requires us to act in your best interest and not put our interest ahead of yours. Under this special rule's provisions, we must:

- Meet a professional standard of care when making investment recommendations (give prudent advice);
- Never put our financial interests ahead of yours when making recommendations (give loyal advice);
- Avoid misleading statements about conflicts of interest, fees, and investments;
- Follow policies and procedures designed to ensure that we give advice that is in your best interest;
- Charge no more than is reasonable for our services; and
- Give you basic information about conflicts of interest.

We benefit financially from the rollover of your assets from a retirement account to an account that we manage or provide investment advice, because the assets increase our assets under management and, in turn, our advisory fees. As a fiduciary, we only recommend a rollover when we believe it is in your best interest.

Assets Under Management

As of December 31, 2023, we provide continuous management services for \$66,745,000 in client assets on a discretionary basis, and \$5,320,000 in client assets on a non-discretionary basis. We also manage \$14,300,000 in client assets on a non-continuous basis.

Item 5 Fees and Compensation

Financial Planning and Consulting Services

The fee for a financial plan is predicated upon the facts known at the start of the engagement. The minimum fee is \$250 with a range of \$250 to \$1,995 and is negotiable. Fees for financial plans are generally not billed in advance, however, if a plan appears to be a larger engagement (billing more than \$1,000), a deposit of 25% of the first \$1,000 will usually be collected. We do not require prepayment of a fee more than six months in advance and in excess of \$1,200.

If you only require advice on a single aspect of your finances, we offer single subject financial consulting services on an hourly basis. Our rate for such services is \$150 per hour and is negotiable depending on the scope and complexity of the plan, your financial situation, and your objectives.

Since financial planning is a discovery process, situations occur wherein the client is unaware of certain financial exposures or predicaments. In the event that the client's situation is substantially different than disclosed at the initial meeting, a revised fee will be provided for mutual agreement. The client must approve the change of scope in advance of the additional work being performed when a fee increase is necessary.

After delivery of a financial plan, future face-to-face meetings may be scheduled as necessary for up to six months. Follow-on implementation work is billed separately at the rate of \$150 per hour.

You may terminate the financial planning agreement by providing written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the agreement.

Investment Management Agreement

An Investment Management Agreement may be executed when financial planning is not provided as part of the relationship. The annual fee for an Investment Management Agreement is based on a percentage of the investable assets according to the following schedule:

Assets Under Management	Annual Fee
First \$499,999	1.50%
Next \$500,000 (\$500,000 to \$999,999)	1.25%
Over \$1,000,000	Negotiable

The minimum annual fee is \$525 and is not negotiable. The minimum investment advisory account size is \$35,000. Current client relationships may exist where the fees are higher or lower than the fee schedule above.

Our annual investment management fee is billed and payable quarterly in arrears based on the value of your account on the last day of the quarter.

If the investment management agreement is executed at any time other than the first day of a calendar quarter, our fees will apply on a pro rata basis, which means that the advisory fee is payable in proportion to the number of days in the quarter for which you are a client. Our advisory fee is negotiable, depending on individual client circumstances.

At our discretion, we may combine the account values of family members living in the same household to determine the applicable advisory fee. For example, we may combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts. Combining account values may increase the asset total, which may result in your paying a reduced advisory fee based on the available breakpoints in our fee schedule stated above.

We will send you an invoice for the payment of our advisory fee, or we will deduct our fee directly from your account through the qualified custodian holding your funds and securities. We will deduct our advisory fee only when you have given our firm written authorization permitting the fees to be paid directly from your account. Further, the qualified custodian will deliver an account statement to you at least quarterly. These account statements will show all disbursements from your account. You should review all statements for accuracy. We will also receive a duplicate copy of your account statements.

You may terminate the investment management agreement upon written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the investment management agreement, which means you will incur advisory fees only in proportion to the number of days in the quarter for which you are a client.

We encourage you to reconcile our invoices with the statement(s) you receive from the qualified custodian. If you find any inconsistent information between our invoice and the statement(s) you receive from the qualified custodian please call our main office number located on the cover page of this brochure.

Additional Fees and Expenses

As part of our investment advisory services to you, we may invest, or recommend that you invest, in mutual funds and exchange traded funds. The fees that you pay to our firm for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or exchange traded funds (described in each fund's prospectus) to their shareholders. These fees will generally include a management fee and other fund expenses. You will also incur transaction charges and/or brokerage fees when purchasing or selling securities. These charges and fees are typically imposed by the broker-dealer or custodian through whom your account transactions are executed. We do not share in any portion of the brokerage fees/transaction charges imposed by the broker-dealer or custodian. To fully understand the total cost you will incur, you should review all the fees charged by mutual funds, exchange traded funds, our firm, and others. For information on our brokerage practices, please refer to the *Brokerage Practices* section of this brochure.

Past Due Accounts and Termination of Agreement

We reserve the right to stop work on any account that is more than 30 days overdue. In addition, we reserve the right to terminate any financial planning engagement where a client has willfully concealed or has refused to provide pertinent information about financial situations when necessary and appropriate, in our judgment, to providing proper financial advice. Any unused portion of fees collected in advance will be refunded within 30 days.

Compensation for the Sale of Securities or Other Investment Products

Persons providing investment advice on behalf of our firm are registered representatives with Cadaret Grant & Co., Inc. ("Cadaret"), a securities broker-dealer, and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation. In their capacity as registered representatives, these persons will receive commission-based compensation in connection with the purchase and sale of securities, including 12b-1 fees for the sale of investment company products. Compensation earned by these persons in their capacities as registered representatives is separate and in addition to our advisory fees. This practice presents a conflict of interest because persons providing investment advice on behalf of our firm who are registered representatives have an incentive to effect securities transactions for the purpose of generating commissions rather than solely based on your needs. When appropriate, we recommend the purchase of "no-load" funds. You are under no obligation, contractually or otherwise, to purchase securities products through any person affiliated with our firm.

We may recommend that you purchase variable annuities to be included in your investment portfolio(s). Persons providing investment advice on behalf of our firm may earn commissions on the sale of the variable annuities in his or her capacity as a registered representative of Cadaret. If these persons earn commission on the sale of variable annuities recommended to you, we will not include the annuity accounts in the total value used for our advisory billing/fee computation. Annuities will be purchased for your account only after you receive a prospectus disclosing the terms of the annuity. You are under no obligation, contractually or otherwise, to purchase variable annuities through any person affiliated with our firm.

Persons providing investment advice on behalf of our firm are licensed as independent insurance agents. These persons will earn commission-based compensation for selling insurance products, including insurance products they sell to you. Insurance commissions earned by these persons are separate and in addition to our advisory fees. This practice presents a conflict of interest because persons providing investment advice on behalf of our firm who are insurance agents have an incentive to recommend insurance products to you for the purpose of generating commissions rather than solely based on your needs. You are under no obligation, contractually or otherwise, to purchase insurance products through any person affiliated with our firm.

IRA Rollover Considerations

As part of our investment advisory services to you, we may recommend that you withdraw the assets from your employer's retirement plan and roll the assets over to an individual retirement account ("IRA") that we will manage on your behalf. If you elect to roll the assets to an IRA that is subject to our management, we will charge you an asset based fee as set forth in the agreement you executed with our firm. This practice presents a conflict of interest because persons providing investment advice on our behalf have an incentive to recommend a rollover to you for the purpose of generating fee based compensation rather than solely based on your needs. You are under no obligation, contractually or otherwise, to complete the rollover. Moreover, if you do complete the rollover, you are under no obligation to have the assets in an IRA managed by our firm.

Many employers permit former employees to keep their retirement assets in their company plan. Also, current employees can sometimes move assets out of their company plan before they retire or change jobs. In determining whether to complete the rollover to an IRA, and to the extent the following options are available, you should consider the costs and benefits of:

1. Leaving the funds in your employer's (former employer's) plan.
2. Moving the funds to a new employer's retirement plan.
3. Cashing out and taking a taxable distribution from the plan.

4. Rolling the funds into an IRA rollover account.

Each of these options has advantages and disadvantages and before making a change we encourage you to speak with your CPA and/or tax attorney.

If you are considering rolling over your retirement funds to an IRA for us to manage here are a few points to consider before you do so:

1. Determine whether the investment options in your employer's retirement plan address your needs or whether you might want to consider other types of investments.
 - a. Employer retirement plans generally have a more limited investment menu than IRAs.
 - b. Employer retirement plans may have unique investment options not available to the public such as employer securities, or previously closed funds.
2. Your current plan may have lower fees than our fees.
 - a. If you are interested in investing only in mutual funds, you should understand the cost structure of the share classes available in your employer's retirement plan and how the costs of those share classes compare with those available in an IRA.
 - b. You should understand the various products and services you might take advantage of at an IRA provider and the potential costs of those products and services.
3. Our strategy may have higher risk than the option(s) provided to you in your plan.
4. Your current plan may also offer financial advice.
5. If you keep your assets titled in a 401k or retirement account, you could potentially delay your required minimum distribution beyond age 72.
6. Your 401k may offer more liability protection than a rollover IRA; each state may vary.
 - a. Generally, federal law protects assets in qualified plans from creditors. Since 2005, IRA assets have been generally protected from creditors in bankruptcies. However, there can be some exceptions to the general rules so you should consult with an attorney if you are concerned about protecting your retirement plan assets from creditors.
7. You may be able to take out a loan on your 401k, but not from an IRA.
8. IRA assets can be accessed any time; however, distributions are subject to ordinary income tax and may also be subject to a 10% early distribution penalty unless they qualify for an exception such as disability, higher education expenses or the purchase of a home.
9. If you own company stock in your plan, you may be able to liquidate those shares at a lower capital gains tax rate.
10. Your plan may allow you to hire us as the manager and keep the assets titled in the plan name.

It is important that you understand the differences between these types of accounts and to decide whether a rollover is best for you. Prior to proceeding, if you have questions contact your investment adviser representative, or call our main number as listed on the cover page of this brochure.

Item 6 Performance-Based Fees and Side-By-Side Management

We do not accept performance-based fees or participate in side-by-side management. Performance-based fees are fees that are based on a share of capital gains or capital appreciation of a client's account. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees. Our fees are calculated as described in the *Advisory Business* section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Item 7 Types of Clients

We offer investment advisory services to individuals, pension and profit sharing plans, trusts, estates, charitable organizations, corporations or business entities.

Client relationships vary in scope and length of service.

Account Minimums

The minimum account size is \$35,000 of assets under management, which equates to an annual fee of \$525. Depending upon circumstances, we will sign an *Hourly Agreement* with you if assets have diminished significantly below \$25,000.

We have the discretion to waive the account minimum. Accounts of less than \$35,000 may be set up when the client and the advisor anticipate the client will add additional funds to the accounts bringing the total to \$35,000 within a reasonable time. Other exceptions will apply to our employees and relatives, or relatives of existing clients.

Clients receiving ongoing asset management services will be assessed a \$525 minimum annual fee. Clients with assets below the minimum account size may pay a higher percentage rate on their annual fees than the fees paid by clients with greater assets under management.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include charting, fundamental analysis, technical analysis, and cyclical analysis.

The main sources of information include financial newspapers and magazines, inspections of corporate activities, research materials prepared by others, corporate rating services, timing services, annual reports, prospectuses, filings with the Securities and Exchange Commission, and company press releases.

Other sources of information that we may use include Morningstar Principia mutual fund reports, Morningstar Principia stock information, annual stock reports, Charles Schwab & Company's "SchwabLink" service, Zacks Research, Investools, and the World Wide Web.

Investment Strategies

The primary investment strategy used on client accounts is strategic asset allocation utilizing a core and satellite approach. This means that we use passively-managed index, exchange-traded funds and mutual funds as the core investments, and then add high dividend paying stocks that are actively managed where there are greater opportunities to make a difference. Portfolios are globally diversified to control the risk associated with traditional markets.

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these objectives at any time.

Other strategies may include long-term purchases, short-term purchases, trading, short sales, margin transactions, and option writing (including covered options, uncovered options or spreading strategies).

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

Recommendation of Particular Types of Securities

As disclosed under the *Advisory Business* section in this brochure, we primarily recommend mutual funds and exchange traded funds (ETFs). However, we may recommend other types of investments as appropriate for you since each client has different needs and different tolerance for risk. Each type of security has its own unique set of risks associated with it and it would not be possible to list here all of

the specific risks of every type of investment. Even within the same type of investment, risks can vary widely. However, in very general terms, the higher the anticipated return of an investment, the higher the risk of loss associated with it.

Mutual Funds and ETFs: Mutual funds and exchange traded funds (ETFs) are professionally managed collective investment systems that pool money from many investors and invest in stocks, bonds, short-term money market instruments, other mutual funds, other securities or any combination thereof. The fund will have a manager that trades the fund's investments in accordance with the fund's investment objective. While mutual funds and ETFs generally provide diversification, risks can be significantly increased if the fund is concentrated in a particular sector of the market, primarily invests in small cap or speculative companies, uses leverage (i.e., borrows money) to a significant degree, or concentrates in a particular type of security (i.e., equities) rather than balancing the fund with different types of securities. Exchange traded funds differ from mutual funds since they can be bought and sold throughout the day like stock and their price can fluctuate throughout the day. The returns on mutual funds and ETFs can be reduced by the costs to manage the funds. Also, while some mutual funds are "no load" and charge no fee to buy into, or sell out of, the fund, other types of mutual funds do charge such fees which can also reduce returns. Mutual funds can also be "closed end" or "open end". So-called "open end" mutual funds continue to allow in new investors indefinitely whereas "closed end" funds have a fixed number of shares to sell which can limit their availability to new investors.

Item 9 Disciplinary Information

The firm and its employees have not been involved in legal or disciplinary events related to past or present investment clients.

Item 10 Other Financial Industry Activities and Affiliations

Registrations with Broker-Dealer

Persons providing investment advice on behalf of our firm are registered representatives with Cadaret Grant & Co., Inc., a securities broker-dealer, and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Description of Our Code of Ethics

The Institutional Investment Advisors Corp. (the "Company") Code of Ethics (the "Code") sets forth a standard of business conduct required of all employees. The Code mandates honest and ethical conduct at all times. This Code of Ethics reflects the Company's values of impeccable business and personal ethics, respect, teamwork, innovation, and excellence.

Standards of Business Conduct

The Company and its employees recognize their fiduciary obligation to each client. This means that the Company and its employees shall act in the client's best interest at all times, and the client's interest shall always be placed ahead of the Company's interest. Investment opportunities must be offered first to clients before the Company or its employees may act on them.

The Code of Ethics sets out ideals for ethical conduct premised on the fundamental principals of openness, integrity, honesty and trust. The Company places the highest value on ethical conduct. Employees should live up not only to the letter of the Code, but also to the ideals of the Company.

Clients or prospective clients may obtain a copy of our Code of Ethics by contacting us at the telephone number on the cover page of this brochure.

Participation or Interest in Client Transactions

Neither our firm nor any persons associated with our firm has any material financial interest in client transactions beyond the provision of investment advisory services as disclosed in this brochure.

Personal Trading Practices

Our firm or persons associated with our firm may recommend and/or buy or sell securities for you at the same time we or persons associated with our firm buy or sell such securities for our own account.

A conflict of interest exists in such cases because we have the ability to trade ahead of you and potentially receive more favorable prices than you will receive. However, most employee trades are small mutual fund trades or exchange-traded fund trades - the trades do not affect the securities markets. However, to eliminate this conflict of interest, it is our policy that neither our firm nor persons associated with our firm shall have priority over your account in the purchase or sale of securities.

Item 12 Brokerage Practices

We recommend the brokerage and custodial services of Charles Schwab & Co., Inc. ("Schwab"), a securities broker-dealer and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation. We believe that Schwab provides quality execution services for you at competitive prices. Price is not the sole factor we consider in evaluating best execution. We also consider the quality of the brokerage services provided by Schwab, including the value of the firm's reputation, execution capabilities, commission rates, and responsiveness to our clients and our firm. In recognition of the value of the services Schwab provides, you may pay higher commissions and/or trading costs than those that may be available elsewhere.

Research and Other Soft Dollar Benefits

For our clients' accounts it maintains, Schwab generally does not charge you separately for custody services but is compensated by charging you commissions or other fees on trades that it executes or that settle into your Schwab account.

Schwab also makes available to our firm other products and services that benefit our firm but may not benefit its clients' accounts. These benefits may include national, regional or specific to our firm, educational events organized and/or sponsored by Schwab Advisor Services. Other potential benefits may include occasional business entertainment of personnel of our firm by Schwab Advisor Services personnel, including meals, invitations to sporting events, including golf tournaments, and other forms of entertainment, some of which may accompany educational opportunities. Also, there are other products and services which assist us in managing and administering clients' accounts. These include software and other technology (and related technological training) that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts), provide research, pricing information and other market data, facilitate payment of our firm's fees from its clients' accounts, and assist with back-office training and support functions, recordkeeping and client reporting. Many of these services generally may be used to service all or some substantial number of our firm's accounts, including accounts not maintained at Schwab Advisor Services. Schwab Advisor Services also makes available to our firm other services intended to help us manage and further develop its business enterprise. These services may include professional compliance, legal and business consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance, employee benefits providers, human capital consultants, insurance and marketing. In addition, Schwab may make available, arrange and/or pay vendors for these types of services rendered to our firm by

independent third parties. Schwab Advisor Services may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to our firm. While, as a fiduciary, we endeavor to act in our clients' best interests, our firm's recommendation/requirement that clients maintain their assets in accounts at Schwab may be based in part on the benefit to us of the availability of some of the foregoing products and services and other arrangements and not solely on the nature, cost or quality of custody and brokerage services provided by Schwab, which may create a potential conflict of interest.

As a result of receiving the aforementioned products and services for no cost, we may have an incentive to continue to place client trades through broker-dealers that offer such products and services. This motivation conflicts with the clients' interest of obtaining the lowest commission rate available. Therefore, we must determine in good faith, based on the "best execution" policy stated above that such commissions are reasonable in relation to the value of the services provided by such executing broker-dealers.

Brokerage for Client Referrals

We do not receive client referrals from broker-dealers in exchange for cash or other compensation, such as brokerage services or research.

Directed Brokerage

We routinely recommend that you direct our firm to execute transactions through Charles Schwab & Co., Inc. As such, we may be unable to achieve the most favorable execution of your transactions and you may pay higher brokerage commissions than you might otherwise pay through another broker-dealer that offers the same types of services. Not all advisers require their clients to direct brokerage.

Persons providing investment advice on behalf of our firm who are registered representatives of Cadaret Grant & Co., Inc., ("Cadaret") will recommend Cadaret to you for brokerage services. These individuals are subject to applicable rules that restrict them from conducting securities transactions away from Cadaret unless Cadaret provides the representative with written authorization to do so. Therefore, these individuals are generally limited to conducting securities transactions through Cadaret. It may be the case that Cadaret charges higher transactions costs and/or custodial fees than another broker charges for the same types of services. If transactions are executed through Cadaret, these individuals (in their separate capacities as registered representatives of Cadaret) may earn commission-based compensation as result of placing the recommended securities transactions through Cadaret. This practice presents a conflict of interest because these registered representatives have an incentive to effect securities transactions for the purpose of generating commissions rather than solely based on your needs. You may utilize the broker-dealer of your choice and have no obligation to purchase or sell securities through such broker as, we recommend. However, if you do not use Cadaret, we may not be able to accept your account. Please see the *Fees and Compensation* section in this brochure for more information on the compensation received by registered representatives who are affiliated with our firm.

Block Trades

Transactions for each client generally will be effected independently, unless we decide to purchase or sell the same securities for several clients at approximately the same time. We may, but are not obligated to, combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as "block trading"). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion regarding factual and market conditions, when we combine orders, each participating account pays an average

price per share for all transactions and pays a proportionate share of all transaction costs on any given day. Accounts owned by our firm or persons associated with our firm may participate in block trading with your accounts; however, they will not be given preferential treatment.

Item 13 Review of Accounts

Clifford Michaels, Chief Investment Officer of Institutional Investment Advisors Corp. will conduct account reviews weekly. Account reviews are performed more frequently when market conditions dictate. Other conditions that may trigger a review are changes in the tax laws, new investment information, and changes in a client's own situation.

Clients receive periodic communications on at least an annual basis. Advisory Service Agreement clients, Investment Management clients, and Retainer Agreement clients receive written quarterly updates. The written updates may include a net worth statement, portfolio statement, and a summary of objectives and progress towards meeting those objectives.

Investment Management clients will also receive monthly reports from the custodian detailing their portfolio holdings and their year to date investment returns and interest income.

Item 14 Client Referrals and Other Compensation

We receive an economic benefit from Schwab in the form of the support products and services it makes available to us and other independent investment advisors that have their clients maintain accounts at Schwab. These products and services, how they benefit us, and the related conflicts of interest are described above (see *Item 12 – Brokerage Practices*). The availability to us of Schwab's products and services is not based on us giving particular investment advice, such as buying particular securities for our clients.

As disclosed under the *Fees and Compensation* section in this brochure, persons providing investment advice on behalf of our firm are licensed insurance agents, and are registered representatives with Cadaret Grant & Co., Inc., a securities broker-dealer, and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation. For information on the conflicts of interest this presents, and how we address these conflicts, refer to the *Fees and Compensation* section.

We directly compensate non-employee (outside) consultants, individuals, and/or entities (Solicitors) for client referrals. In order to receive a cash referral fee from our firm, Solicitors must comply with the requirements of the jurisdictions in which they operate. If you were referred to our firm by a Solicitor, you should have received a copy of this brochure along with the Solicitor's disclosure statement at the time of the referral. If you become a client, the Solicitor that referred you to our firm will receive a percentage of the advisory fee you pay our firm for as long as you are a client with our firm, or until such time as our agreement with the Solicitor expires. You will not pay additional fees because of this referral arrangement. Referral fees paid to a Solicitor are contingent upon your entering into an advisory agreement with our firm. Therefore, a Solicitor has a financial incentive to recommend our firm to you for advisory services. This creates a conflict of interest; however, you are not obligated to retain our firm for advisory services. Comparable services and/or lower fees may be available through other firms.

Solicitors that refer business to more than one investment adviser may have a financial incentive to recommend advisers with more favorable compensation arrangements. We request that our Solicitors disclose to you whether multiple referral relationships exist and that comparable services may be available from other advisers for lower fees and/or where the Solicitor's compensation is less favorable.

Item 15 Custody

As paying agent for our firm, your independent custodian will directly debit your account(s) for the payment of our advisory fees. This ability to deduct our advisory fees from your accounts causes our firm to exercise limited custody over your funds or securities. We do not have physical custody of any of your funds and/or securities. Your funds and securities will be held with a bank, broker-dealer, or other independent, qualified custodian. You will receive account statements from the independent, qualified custodian(s) holding your funds and securities at least quarterly. The account statements from your custodian(s) will indicate the amount of our advisory fees deducted from your account(s) each billing period. You should carefully review account statements for accuracy.

You should compare our statements with the statements from your account custodian(s) to reconcile the information reflected on each statement. If you have a question regarding your account statement, or if you did not receive a statement from your custodian, contact us directly at the telephone number on the cover page of this brochure.

Item 16 Investment Discretion

Before we can buy or sell securities on your behalf, you must first sign our discretionary management agreement, and the appropriate trading authorization forms.

You may grant our firm discretion over the selection and amount of securities to be purchased or sold for your account(s) without obtaining your consent or approval prior to each transaction. You may specify investment objectives, guidelines, and/or impose certain conditions or investment parameters for your account(s). For example, you may specify that the investment in any particular stock or industry should not exceed specified percentages of the value of the portfolio and/or restrictions or prohibitions of transactions in the securities of a specific industry or security. Refer to the *Advisory Business* section in this brochure for more information on our discretionary management services.

If you enter into non-discretionary arrangements with our firm, we will obtain your approval prior to the execution of any transactions for your account(s). You have an unrestricted right to decline to implement any advice provided by our firm on a non-discretionary basis.

Item 17 Voting Client Securities

Proxy Voting

We will not vote proxies on behalf of your advisory accounts. At your request, we may offer you advice regarding corporate actions and the exercise of your proxy voting rights. If you own shares of applicable securities, you are responsible for exercising your right to vote as a shareholder.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward any electronic solicitation to vote proxies.

Item 18 Financial Information

Our firm does not have any financial condition or impairment that would prevent us from meeting our contractual commitments to you. We do not take physical custody of client funds or securities, or serve as trustee or signatory for client accounts, and, we do not require the prepayment of more than \$1,200 in fees six or more months in advance nor have we filed a bankruptcy petition at any time in the past ten years.

As a fiduciary, our firm is committed to making full and fair disclosure of all material facts relating to the advisory relationship. Therefore, on April 24, 2020, the firm received a Paycheck Protection Program ("PPP") loan in the amount of \$14,375 through the U.S. Small Business Administration, which was part of the economic relief provided under the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The firm used the PPP funds to continue payroll for the firm's employees, including employees primarily responsible for performing advisory functions, and make other permissible payments. The loan provided economic support to the firm during uncertain times. However, the firm continues to remain capable of meeting contractual commitments to its clients.

Item 19 Requirements for State-Registered Advisers

Refer to the Part(s) 2B for background information about management personnel and those giving advice on behalf of our firm.

Our firm is not actively engaged in any business other than giving investment advice.

Neither our firm, nor any persons associated with our firm are compensated for advisory services with performance-based fees. Refer to the *Performance-Based Fees and Side-By-Side Management* section above for additional information on this topic.

Neither our firm, nor any of our management persons have any reportable arbitration claims, civil, self-regulatory organization proceedings or administrative proceedings.

Neither our firm, nor any of our management persons have a material relationship or arrangement with any issuer of securities.

Item 20 Additional Information

Your Privacy

We are committed to maintaining the confidentiality, integrity and security of the personal information that is entrusted to us. The categories of nonpublic information that we collect from you may include information about your personal finances, information about your health to the extent that it is needed for the financial planning process, information about transactions between you and third parties, and information from consumer reporting agencies, e.g., credit reports. We use this information to help you meet your personal financial goals.

With your permission, we disclose limited information to attorneys, accountants, and mortgage lenders with whom you have established a relationship. You may opt out from our sharing information with these nonaffiliated third parties by notifying us at any time by telephone, mail, fax, email, or in person. With your permission, we share a limited amount of information about you with your brokerage firm in order to execute securities transactions on your behalf.

We maintain a secure office to ensure that your information is not placed at unreasonable risk. We employ a firewall barrier, secure data encryption techniques and authentication procedures in our computer environment.

We do not provide your personal information to mailing list vendors or solicitors. We require strict confidentiality in our agreements with unaffiliated third parties that require access to your personal information, including financial service companies, consultants, and auditors. Federal and state securities regulators may review our Company records and your personal records as permitted by law.

Personally identifiable information about you will be maintained while you are a client, and for the required period thereafter that records are required to be maintained by federal and state securities laws. After that time, information may be destroyed.

We will notify you in advance if our privacy policy is expected to change. We are required by law to deliver a *Privacy Notice* to you annually, in writing. Please contact our main office at the telephone number on the cover page of this brochure if you have any questions regarding this policy.

Trade Errors

In the event a trading error occurs in your account, our policy is to restore your account to the position it should have been in had the trading error not occurred. Depending on the circumstances, corrective actions may include canceling the trade, adjusting an allocation, and/or reimbursing the account. If a trade error results in a profit, you will keep the profit.

Class Action Lawsuits

We do not determine if securities held by you are the subject of a class action lawsuit or whether you are eligible to participate in class action settlements or litigation nor do we initiate or participate in litigation to recover damages on your behalf for injuries as a result of actions, misconduct, or negligence by issuers of securities held by you.
