Item 4: Advisory Business

A. Description of the Advisory Firm

Pacific Equity, LLC (hereinafter "Pacific Equity, LLC") is a Limited Liability Company organized in the State of Wyoming.

The firm was formed in December 2015, and the principal owner is Keith James Ponthieux.

Pacific Equity filed its initial application to become registered as an investment adviser with the U.S. Securities Exchange Commission in July 2022. The application is still pending.

The following are descriptions of the primary advisory services of Pacific Equity, LLC. This Item only discusses services which are offered to our U.S. clients.

B. Types of Advisory Services

Selection of Other Advisers

Pacific Equity, LLC directs clients to third-party investment advisers to manage client assets. Before selecting other advisers for clients, Pacific Equity, LLC will always ensure those other advisers are properly licensed or registered as an investment adviser. Pacific Equity, LLC will review the ongoing performance of the third-party adviser as a portion of the client's portfolio.

Pacific Equity, LLC generally limits its investment advice to third-party investment advisers focusing on stocks, bonds, mutual funds, ETFs and will use other securities as well to help diversify a portfolio when applicable.

Asset Management Services

Pacific Equity offers asset management services, which involves Pacific Equity providing you with continuous and ongoing supervision over your specified accounts.

You must appoint my firm as your investment adviser of record on specified accounts (collectively, the "Account"). The Account consists only of separate account(s) held by qualified custodian(s) under your name. The qualified custodians maintain physical custody of all funds and securities of the Account, and you retain all rights of ownership (e.g., right to withdraw securities or cash, exercise or delegate proxy voting and receive transaction confirmations) of the Account.

The Account is managed by me based on your financial situation, investment objectives and risk tolerance. I actively monitor the Account and provide advice regarding buying, selling, reinvesting or holding securities, cash or other investments of the Account.

I will need to obtain certain information from you to determine your financial situation and investment objectives. You will be responsible for notifying me of any updates regarding your financial situation, risk tolerance or investment objective and whether you wish to impose or modify existing investment restrictions; however, I will contact you at least annually to discuss any changes or updates regarding your financial situation, risk tolerance or investment objectives. I am always reasonably available to consult with you relative to the status of your Account.

It is important that you understand that I manage investments for other clients and can give them advice or take actions for them or for my personal accounts that is different from the advice I provide to you or actions taken for you. I am not obligated to buy, sell or recommend to you any security or other investment that I can buy, sell or recommend for any other clients or for my own accounts.

Conflicts can arise in the allocation of investment opportunities among accounts that I manage. I strive to allocate investment opportunities believed to be appropriate for your account(s) and other accounts advised by my firm among such accounts equitably and consistent with the best interests of all accounts involved. However, there can be no assurance that a particular investment opportunity that comes to my attention will be allocated in any particular manner. If I obtain material, non-public information about a security or its issuer that I may not lawfully use or disclose, I have absolutely no obligation to disclose the information to any client or use it for any client's benefit.

Retirement Plan Rollover Recommendations

When Pacific Equity provides investment advice about your retirement plan account or individual retirement account ("IRA") including whether to maintain investments and/or proceeds in the retirement plan account, roll over such investment/proceeds from the retirement plan account to a IRA or make a distribution from the retirement plan account, we acknowledge that Pacific Equity is a "**fiduciary**" within the meaning of Title I of the Employee Retirement Income Security Act ("ERISA") and/or the Internal Revenue Code ("IRC") as applicable, which are laws governing retirement accounts. The way Pacific Equity makes money creates conflicts with your interests so Pacific Equity operates under a special rule that requires Pacific Equity to act in your best interest and not put our interest ahead of you.

Under this special rule's provisions, Pacific Equity must act as a fiduciary to a retirement plan account or IRA under ERISA/IRC:

- Meet a professional standard of care when making investment recommendations (e.g., give prudent advice);
- Never put the financial interests of Pacific Equity ahead of you when making recommendations (e.g., give loyal advice);
- Avoid misleading statements about conflicts of interest, fees, and investments;
- Follow policies and procedures designed to ensure that Pacific Equity gives advice that is in your best interest;
- Charge no more than is reasonable for the services of Pacific Equity; and
- Give Client basic information about conflicts of interest.

To the extent we recommend you roll over your account from a current retirement plan account to an individual retirement account managed by Pacific Equity, please know that Pacific Equity and our investment adviser representatives] have a conflict of interest.

We can earn increased investment advisory fees by recommending that you roll over your account at the retirement plan to an IRA managed by Pacific Equity. We will earn fewer investment advisory fees if you do not roll over the funds in the retirement plan to an IRA managed by Pacific Equity.

Thus, our investment adviser representatives have an economic incentive to recommend a rollover of funds from a retirement plan to an IRA which is a conflict of interest because our recommendation that you open an IRA account to be managed by our firm can be based on our economic incentive and not based exclusively on whether or not moving the IRA to our management program is in your overall best interest.

We have taken steps to manage this conflict of interest. We have adopted an impartial conduct standard whereby our investment adviser representatives will (i) provide investment advice to a retirement plan participant regarding a rollover of funds from the retirement plan in accordance with the fiduciary status described below, (ii) not recommend investments which result in Pacific Equity receiving unreasonable compensation related to the rollover of funds from the retirement plan to an IRA, and (iii) fully disclose compensation received by Pacific Equity and our supervised persons and any material conflicts of interest related to recommending the rollover of funds from the retirement plan to an IRA and refrain from making any materially misleading statements regarding such rollover.

When providing advice to your regarding a retirement plan account or IRA, our investment advisor representatives will act with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims, based on the investment objectives, risk, tolerance, financial circumstances, and a client's needs, without regard to the financial or other interests of Pacific Equity or our affiliated personnel.

C. Client Tailored Services and Client Imposed Restrictions

Pacific Equity, LLC offers the same suite of services to all of its clients. However, specific client investment strategies and their implementation are dependent upon the client's current situation (income, tax levels, and risk tolerance levels). D. Trading Securities At/Around the Same Time as Clients' Securities

Item 12: Brokerage Practices

A. Factors Used to Select Custodians and/or Broker/Dealers

1. Research and Other Soft Dollar Benefits

An investment adviser receives soft dollar benefits from a broker-dealer when the investment adviser receives research or other products and services in exchange for client securities transactions or maintaining an account balance with the broker-dealer.

Pacific Equity utilizes the services of Charles Schwab & Co., Inc. (Schwab). While there is no direct linkage (except in certain circumstances) between the investment advice

given to clients and Pacific Equity's participation in the Schwab program, economic benefits are received by Pacific Equity which would not be received if I did not give investment advice to clients.

Although I don't allow directed brokerage, I may still receive benefits from program sponsors and product issuers. These benefits may be used for both research and non-research purposes and allows me to supplement, at no cost, my own research and analysis activities. These benefits include: a dedicated trade desk that services the program participants exclusively, a dedicated service group and an account services manager dedicated to Pacific Equity's accounts, access to a real-time order matching system, the ability to "block" clients' trades, electronic download of trades, balances and position information, duplicate and batched client statements, confirmations, year-end summaries, the ability to have advisory fees directly debited from client accounts (in accordance with federal and state requirements), availability of third-party research and technology, a quarterly newsletter and access to mutual funds.

The benefits received through participation in the Schwab program do not depend upon the amount of transactions directed to or amount of assets managed through Schwab.

Research obtained with soft dollars is not necessarily utilized for the specific account that generated the soft dollars. I do not attempt to allocate the relative costs or benefits of research among clients because I believe that, in the aggregate, the research I receive benefits all clients and assists me in fulfilling my overall duty to you.

These arrangements may be deemed to create a conflict of interest to the extent that I would have to pay for some or all of the research and/or services with "hard dollars" if I were unable to obtain the research and services in exchange for brokerage expenses in connection with client transactions. Client trades are always implemented based on the goals and objectives of the client and not on any research, products or other incentives available.

2. Brokerage for Client Referrals

Pacific Equity recommends that you establish brokerage accounts with Schwab through their Institutional Platform. Schwab is a member of FINRA/SIPC. Schwab is an independent (and unaffiliated) SEC-registered broker-dealer and is recommended by Pacific Equity to maintain custody of clients' assets and to effect trades for their accounts.

At least annually, I will review alternative custodians in the marketplace for comparison to the currently used custodian, evaluating criteria such as overall expertise, cost

competitiveness, and financial condition. Quality of execution for custodians will be reviewed through trade journal evaluations.

Pacific Equity is independently owned and operated and not affiliated with Schwab .

The primary factor in suggesting a broker/dealer or custodian is that the services of the recommended firm are provided in a cost-effective manner. While quality of execution at the best price is an important determinant, best execution does not necessarily mean lowest price and it is not the sole consideration. The trading process of any broker/dealer suggested by Pacific Equity must be efficient, seamless, and straight-forward. Overall custodial support services, trade correction services, and statement preparation are some of the other factors determined when suggesting a broker/dealer.

Schwab provides me with access to their institutional trading and custody services, which are typically not available to retail investors. These services generally are available to independent investment advisors at no charge to them so long as the independent investment advisors maintain a minimum amount of assets with the custodian.

Schwab also makes available to me other products and services that benefit my firm but may not benefit clients' accounts. Some of these other products and services assist me in managing and administering clients' accounts. These include software and other technology that provide access to client account data (such as trade confirmation and account statements); provide research, pricing information and other market data; facilitate payment of the firm's fees from its clients' accounts; and assist with back-office functions; record keeping and client reporting. Many of these services generally may be used to service all or a substantial number of our accounts, including accounts not maintained at a recommended custodian. Pacific Equity is also providing other services intended to help my firm manage and further develop my business enterprise. These services may include consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance and marketing.

Other benefits we receive include, but are not necessarily limited to: receipt of duplicate client confirmations and bundled duplicate statements; access to a trading desk; access to block trading which provides the ability to aggregate securities transactions and allocate the appropriate shares to client accounts; access to an electronic communications network for client order entry and account information; and access to mutual funds that generally require significantly higher minimum initial investments or are generally only available to institutional investors.

Specifically, Pacific Equity participates in the Schwab Institutional program. Schwab offers to independent investment Advisors services which include custody of securities, trade execution, clearance and settlement of transactions. Adviser receives some benefits

from Schwab through its participation in the program. *(Please see the disclosure under Item 14 below.)*

3. Clients Directing Which Broker/Dealer/Custodian to Use

Clients should understand that not all investment advisers require the use of a particular broker/dealer or custodian. Some investment advisers allow their clients to select whichever broker/dealer the client decides. By requiring clients to use a particular broker/dealer, Pacific Equity may not achieve the most favorable execution of client transactions and the practice requiring the use of specific broker/dealers may cost clients more money than if the client used a different broker/dealer or custodian. However, for compliance and operational efficiencies, Pacific Equity has decided to require my clients to use broker/dealers and other qualified custodians determined by Pacific Equity.

4. Handling Trade Errors

Pacific Equity has implemented procedures designed to prevent trade errors; however, trade errors in client accounts cannot always be avoided. Consistent with its fiduciary duty, it is the policy of Pacific Equity to correct trade errors in a manner that is in the best interest of the client. In cases where the client causes the trade error, the client is responsible for any loss resulting from the correction. Depending on the specific circumstances of the trade error, the client may not be able to receive any gains generated as a result of the error correction. If the error is caused by the broker-dealer, the broker-dealer is responsible for handling the trade error. If an investment gain results from the correcting trade, the gain remains in the client's account unless the same error involved other client account(s) that should also receive the gains. It is not permissible for all clients to retain the gain. Pacific Equity may also confer with a client to determine if the client should forego the gain (e.g., due to tax reasons).
