Given my financial situation, should I choose an investment advisory service? Why or why not?

How will you choose investments to recommend to me?

What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?

Item 3. Fees, Costs, Conflicts, and Standard of Conduct

What fees will I pay?

Description of Principal Fees and Costs: You will pay an on-going flat fee starting at \$600 per month in arrears based on complexity for investment management services. Our on-going comprehensive financial planning flat fee starting at \$600 is payable monthly, in arrears. Our project-based financial planning service is offered on a fixed fee basis ranging from \$1,200 - \$10,000. The fee is either due upon the completion of the service or a deposit may be collected with the remainder due upon delivery of the plan. In certain circumstances, project based financial plans may be billed at an hourly rate of \$300 per hour. Employee benefit plan services has an asset based fee of 0.75% calculated quarterly on the last business day. The fee is calculated based on the average daily net asset value of the plan participants assets during the quarter; divided by the number of days in the year multiplied by the number of days in the quarter. For Plan sponsors, our fee includes the above described fee for each plan participant, in addition to an annual fee of \$2,195, paid monthly in arrears by the Plan Sponsor.

Description of Other Fees and Costs: You are responsible for all custodial and securities broker-dealer execution fees charged by the custodian and executing broker-dealer. Our asset-based fee is separate and distinct from the custodian and broker-dealer execution fees. Some investments (such as mutual funds) impose additional fees that will reduce the value of your investment over time.

Additional Information: *You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. Refer to our Form ADV Part 2A Brochure, Item 5.A.B.C.D. for more detailed information about our fees.*

Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

*What are your legal obligations to me when acting as my investment adviser?
How else does your firm make money and what conflicts of interest do you have?*

Standard of Conduct

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.

Examples of Ways We Make Money and Conflicts of Interest: TruMix is compensated on a monthly basis for financial planning and investment management services. Due to our compensation structure it is in our interest to keep you enrolled in our ongoing services.

How might your conflicts of interest affect me, and how will you address them?

Additional Information: We do not have any relationships or arrangements with any other entity.

How do your financial professionals make money?

We are primarily compensated by ongoing flat fees for investment management and on-going comprehensive financial planning.
