Conversation Starter Given my financial situation, should I choose a brokerage service? Why or why not? How will you choose an investment to recommend? What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?

Item 3: Fees, Costs, Conflicts, and Standard of Conduct

Conversation Starter: Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What fees will I pay?

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

There are no transaction fees such as commissions for brokerage services. Our Broker Dealer makes its money from monthly account fees, overnight balances of customer funds held at its qualified custodian bank, payments from market centers for directing to them order flow as instructed by us or Velocity Clearing, and margin charged to your account when funds are lent to you to trade.

Other fees and costs are applicable to your brokerage account or accounts. These fees may include account maintenance fees, account inactivity fees and similar types of account fees. These fees are charged by our clearing firm. For more information on fees you may pay, please visit our website at <https://www.tappengine.com>.

What are your legal obligations to me when providing recommendations? How else does your firm make money and what conflicts of interest do you have?

We do not provide recommendations as your broker-dealer. At the same time, the way we make money creates some conflicts with your interest. You should understand and ask us about these conflicts because they can affect the services we provide you. Here are some examples to help you understand what this means. their return may also be based on the firm's overall profitability.

Conversation Starter How might your conflicts of interest affect me, and how will you address them?

Example of ways we make money and conflicts of interest:

As noted above, one of the ways we make money from payments from market centers for directing to them – through our instruction or the instruction of our clearing firm and executing broker, Velocity Clearing – your order flow. This structure enables us to offer you commission-free trading in your account. The more actively you trade the more money we make.

Payment for order flow has been described as a conflict of interest for various reasons. Orders that are executable may not get executed as they may be routed to market makers that do not have the highest liquidity. In addition, the quality of the prices on market or limit orders may be diminished due to the orders being routed to a particular market maker rather than the venue with the best execution price. Additional information can be found at <https://www.tappengine.com>.

How do your financial professionals make money? TAPP Engine Securities' financial professionals are compensated by salary and discretionary bonus. Certain financial professionals are also owners in TAPP Engine Securities.
