What are your legal obligations to me when providing recommendations? How else does your firm make money and what conflicts of interest do you have?

When we provide you with a recommendation, we must act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates inherent conflicts with your interests. You should understand and ask us about these conflicts because they can affect the recommendations, we provide you with.

Here are some examples to help you understand what this means.

The Firm and its Registered Representatives earn by charging its clients commissions or by receiving fees directly from the issuers whose offerings the Firm may sell to you. Additionally, the Firm may sell securities in Companies in which the Firm's owners have an interest, control and or manage those Companies. This creates an inherent conflict, and you should consider this before making an investment in an affiliated private placement which the Firm may offer. These and other risks will be disclosed in the respective offering documents and should be reviewed carefully prior to making any investment decisions.
