What investment services and advice can you provide me?

We offer investment advisory services to retail investors, including asset management and financial planning. As part of our standard services, we monitor our clients’ portfolio holdings and the overall asset allocation strategy on an annual basis, or when market conditions or other triggers would warrant a review. Triggers include a change of investment objectives, a change in employment, or a change in recommended asset allocation weightings. We provide 90 days monitoring of the financial plans, but offer ongoing monitoring under a separate agreement.

We offer our asset management services on a discretionary or nondiscretionary basis. Discretionary asset management allows us the limited authority to buy and sell investments in your account without asking you each time a transaction is placed. With non-discretionary asset management, we provide investment recommendations but require your approval before placing trades for your account. You make the ultimate decision regarding the purchase or sale of investments. Our level of authority is determined at the beginning of our relationship with you in our advisory agreement but can be changed upon request.

While we can advise on any investment asset, our investment recommendations are primarily related to investments in exchange traded funds and mutual funds. We will also utilize other securities, such as certificates of deposit and cash equivalents to achieve your investment objectives. We do not have any minimum requirements for opening or maintaining accounts for retail investors.

For additional information, please see our Form ADV Part 2A (with special emphasis on Items 4, 7, and 16) which can be found on our website at www.mlwfinc.com/disclaimer.

Conversation Starters – Ask Your Financial Professional:

Given my financial situation, should I choose investment advisory services? Why or why not?

How will you choose investments to recommend to me?

What is your relevant experience, including your licenses, education and other qualifications?

What do these qualifications mean?

What fees will I pay?

Principal Fees: We are compensated for providing the investment advisory services by charging an ongoing asset-based fee that ranges up to 0.45% per annum depending on the type and complexity of the investment strategy as well as the size of the account we manage for you. The fee is charged quarterly in advance, based on the balance of the portfolio assets at the end of each quarter. The more assets there are in your advisory account, the more you will pay in fees, and we may therefore have an incentive to encourage you to increase the assets in your account. Financial planning services are provided on a fixed fee basis. The fee for ongoing financial planning monitoring services is up to \$800 per month for business owners of one business, plus an additional \$100 per month for each additional business owned, for a minimum of five months. All ongoing fees are charged in advance either quarterly or monthly as appropriate.

Other Fees and Costs: Moss, Luse & Womble’s fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which shall be incurred by the client. You may incur certain charges imposed by custodians,

brokers, custodial fees, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual funds and exchange traded funds also charge internal management fees, which are disclosed in the funds' prospectuses. These fees will generally include a management fee and other fund expenses. All fees paid to us for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds and ETFs to their shareholders.

Additional Information: You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce the amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. **More detailed information about our fees and costs are included in our Form ADV Part 2A (Item 5) which can be found on our website at www.mlwfinancial.com/disclaimer.**

Conversation Starters – Ask Your Financial Professional:

Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.

Separate from our investment advisory services, we offer certain clients additional services such as payroll, accounting and tax preparation for separate fees. We also offer a cash investment program through an unaffiliated service provider. We receive an ongoing referral fee from the service provider of up to 0.10% on client cash held in the program. While we endeavor at all times to put the interest of the clients first, the receipt of additional compensation itself creates a conflict of interest because we are incented to encourage clients to use these services to increase fees. Clients are under no obligation to use these additional services. **These arrangements and additional information about other conflicts of interest are discussed in more detail in our Form ADV Part 2A which can be found on our website at www.mlwfinancial.com/disclaimer.**
