

Interactive Data CFIs

Question 130.09

~~**Question:** A filer is required to post an interactive data file on the filer's web site, if it has one. The filer cannot comply with this requirement by providing a hyperlink on its web site to the Commission's web site. See Securities Act Release No. 9002 (Jan. 30, 2009). May the filer comply with this requirement by providing a hyperlink on its web site directly to the interactive data file, which is itself on a non-Commission third party web site?~~

~~**Answer:** Yes, if the hyperlink goes directly to the interactive data file, the interactive data file is made available in the required time frame, and access to the interactive data file is free of charge to the user. [Sep. 14, 2009]~~
