

## Introduction

---

Wealth Management Corporation of America, Inc. (WMC) is an Investment Adviser registered with the Securities and Exchange Commission ("SEC"). We feel it is important to for you to understand how advisory and brokerage services and fees differ in order to determine which type of account or service is right for you.

There are free and simple tools available to research firms and financial professionals at [www.investor.gov/crs](http://www.investor.gov/crs), which also provides educational materials about investment advisers, broker-dealers, and investing.

## What investment services and advice can you provide me?

---

As an investment adviser, WMC offers investment advisory services to retail investors for an ongoing asset-based fee based on the value of your account. Our advisory services include investment management services. If we are providing investment management services to you, we will utilize a five-step process in order to help the client achieve investment goals which includes identifying risk, research and analysis, implementations, monitoring your investments, and reporting. We will regularly monitor your investments on an ongoing basis, as part of our standard services. Please refer to Item 4 of our Form ADV Part 2A for further information.

We manage accounts on a discretionary basis, which means we do not need to call you when buying or selling investments in your account. You will sign an investment management agreement and limited power of attorney giving us this authority. This agreement will remain in place until you or we terminate our relationship. We also manage accounts on a non-discretionary basis, which means that you make the ultimate decision regarding buying or selling investments in your account. Please refer to Item 16 of our Form ADV Part 2A for further information.

We do not limit our advice and services to proprietary products or a limited menu of products or investments.

Our minimum account size for new clients is \$250,000 in assets but may be negotiable. Please refer to Item 7 of our Form ADV Part 2A for further information.

### *Questions to Ask Us:*

- *Given my financial situation, should I choose an investment advisory service? Why or why not?*
- *How will you choose investments to recommend to me?*
- *What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications means?*

## What Fees Will I Pay?

---

Fees and costs affect the value of your account over time and vary depending on certain factors and are negotiable. Please ask William S. Horak to give you personalized information on the fees and costs you will pay. Fees for investment advisory services are payable quarterly in advance and either a blended fee based on the account size for equity portfolios ranging from 0.50% to 1.50%, or a flat fee of 0.50% for income portfolios. Please refer to Item 5 of our Form ADV Part 2A for further information. Our incentive is to increase the value of your account over time, which will increase our fees over time.

The broker-dealer ("custodian") that holds your assets can charge you a transaction fee when we buy or sell an investment for you. These transaction fees are in addition to our advisory fee. You could also pay fees charged by the custodian for certain investments and maintaining your account. Some investments, such as mutual funds and exchange traded funds charge additional fees that will reduce the value of your investments over time.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. Please refer to Item 5 of our Form ADV Part 2A for further information.

*Question to Ask Us:*

- *Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?*

## What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

**When we act as your investment adviser**, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means:

Our revenue is from the advisory fees we collect from our clients' accounts each quarter. We have an incentive to increase the amount of investments we manage which could bias our advice towards investing more rather than paying off debt, however we discuss debt payment as part of our planning process with clients. For additional information on conflicts of interest, please see our Form ADV Part 2A.

*Question to Ask Us:*

- *How might your conflicts of interest affect me, and how will you address them?*

## How do your financial professionals make money?

Our employees of the firm are paid a fixed salary and a discretionary bonus based on our profitability. William S. Horak is compensated through his ownership of our firm. This compensation structure creates an incentive for our financial professionals to recommend that you increase the size of your account with us. Some also receive commissions from the sale of insurance products, which can impact their recommendations to you.

## Do you or your financial professionals have legal or disciplinary history?

No, our firm and/or financial professionals do not have legal and/or disciplinary history. Visit [www.investor.gov/crs](http://www.investor.gov/crs) for a free and simple search tool to research our firm and our financial professionals.

*Questions to Ask Us:*

- *As a financial professional, do you have any disciplinary history? For what type of conduct?*
