Disclaimers

Quote data provided by Interactive Data Corporation (SM) www.InteractiveData.com. Quotes delayed at least 15 minutes unless otherwise indicated. Interactive Data Corporation and Raymond James shall not be liable for any errors or delays in content.

Market valuations are based on information we believe to be accurate, but accuracy cannot be guaranteed. This schedule is not intended for tax, lending, legal or other non-financial planning purposes and should not be relied upon by third parties.

The Fair Market Value for qualified accounts holding annuities excludes the required minimum distribution basis value.

Raymond James will default to the first-in, first-out (FIFO) cost basis accounting method for trades and transfers unless a different method has been selected. Average cost is bifurcated and therefore you may see separate cost calculations for covered and uncovered shares.

Effective January 1, 2011, Raymond James reports adjusted cost basis for tax lots of securities covered by the Emergency Economic Stabilization Act of 2008 to the IRS on Form 1099-B. These tax lots are indicated by a "c" next to the value in the Quantity column.

For tax lots or securities that are not covered by the Emergency Economic Stabilization Act of 2008, cost basis information may not be available, may have been estimated by the client or the advisor, or may have been obtained from third-party sources and, in these instances, Raymond James cannot guarantee its accuracy. Information for uncovered positions will not be reported to the IRS.

Gain or loss will only be calculated for tax lots that have cost basis. Gain or loss information may or may not reflect adjusted cost for return of principal/capital or accretion/amortization. Tax lots where the cost basis is displayed as 0.00 are included in cost calculations. Missing basis, reflected as blank, is not included in cost calculations or in total calculations, and can be provided and updated in an account at any time.

The cost basis, proceeds, or gain/loss information reported has been adjusted to account for a disallowed loss from a wash sale. These adjustments are indicated by a "w" on the affected tax lot. A wash sale is triggered by a repurchase of a security within 30 days of the sale of the same security.

Cost basis information for uncovered securities or tax lots is displayed for information only and should not be relied upon for tax reporting purposes. Past performance is not a guarantee of future results. Market valuations may have been obtained from third-party sources and Raymond James cannot guarantee its accuracy or completeness.

Unrealized gains or losses are not calculated for depreciated gifted securities, referred to as dual basis, indicated by a "d". Both Total Cost and Gift FMV exist, as the actual gain/loss cannot be determined until the position is sold.

Adjustments made to cost basis throughout the year may cause the information displayed to differ from what is reported on the client statement and the 1099-B which is provided to the IRS at the end of the year.
