Administrative Proceeding
File # 3-15648

U. S. Securities and Exchange Commission Vs.
Ronald G. Anglin, Respondent. Opposition to summary disposition

I, Ronald G. Anglin, Respondent in pro se respectfully requests that this document serves as opposition to SEC Enforcement Divisions request for summary disposition.

Reasons to this request are multiple and numerous. First, Ronald Anglin, does not pose any threat to the public regardless; [REDACTED]

[REDACTED] Furthermore, existing federal imposed penalties effectively bar and make any professional association or employment an impossibility. [REDACTED] After ongoing recent efforts, two local SEC attorneys via phone have agreed to compensatory flexibility and representation pending meetings scheduled for April 8, 2014 and April 10, 2014 at which time official documents indicating legal representation can be filed as necessary.

I, Ronald G. Anglin, respectfully request allowance for legal representation as self representation is no longer practically possible, as well as, an allowance for full due process which denies summary judgement. [REDACTED]
[REDACTED]

Sincerely,

Ronald G. Anglin
