

**Respondent's Request for the Court to Modify Prior Order**

**in the Matter re: Feathers 3-15755**

This Court has ordered that Enforcement not reply to Respondent's motions for stay, termination of proceedings, etc. Respondent respectfully asks the Court to retract this prior Order. For, Respondent, and the public, both may benefit from seeing responses of Enforcement to Respondent's motion requests, including those Respondent filed with this Court on 7-27-20 and in the prior two week period.

During the twenty percent of his waking time that Respondent does not have [REDACTED] [REDACTED] which appear to be correlated to these proceedings, Respondent can formulate a reply to the nonsense that Enforcement places before this Court. In fact, Respondent, and perhaps the public, might consider that, on appearance, the Court has placed a gag order on Enforcement by keeping in place its order for non-responses to Respondent's motion filings, and question the motivations of the court in doing same.

Respectfully,

Mark Feathers, *pro se*, Respondent

Dated 7-28-20
