CASE 3-16509AT 7 3-16509 12/13/18

Declaration and response to divisions reply to my initial declaration on 12/7/18 for actions and motions to be ordered by the commissioners.

Dear Mr. Field and Ms. Shields ;

In retrospect I must get this off my chest and I declare under the laws of the united states that the foregoing is true to the best of my knowledge. I know if willfully untrue that I will be punished!

I may be wrong about the unconstitutionality of the inhouse with respect to their requirement that the SECs rule making it mandatory that a lawyer is no longer an acceptable requirement for defendants to ask for! But in my case without one I cannot defend myself

██████████, ██████████  
default as I cannot e ██████████ and keep up with a 3month schedule ,that was supposed to be a one year and the sec average is 19months.thats the way judge Murray intends to cheat me of time again .Judge Murray found that since Judge Feolak, may have to handle twice the workload when Judge Murray threw her off my preremand case she will compress justice and take her fraud as a violaters' violater; to eliminate the time. Just as in judge Feolaks' workload she purposely injected herself in a scheduling change as Judge Feolaks case load was alleged to be so great then that she flipped her out of the case to get Judge Grime's her ringer, to dissolve the postponement in the face of a finding of irreparably harm to me!

But IM NOT WRONG ABOUT JUDGE MURRAY, THE ADJLS' AND THE ENFORCEMENT DISCIIONS', THEFT OF MY LITIGATION FUNED AND MY TIME AS THEY ALL KNEW AND HID THE FACTS THAT THE ADJLS THEY ASIGNED THE CASES TO WERE NOT ARTICLE 2 APPOINTED. That fraud shines overhead and was responsible for my and 150 other defendants; inhouse theft of our litigation funds and for theft time. Had the supreme court known this fact they would have disbarred the entire gluttonous SEC staff. Its grand larceny a and my case alone the theft of my litigation fund requires adjudication and not from Judge Murray; who I have already motioned her to recuse herself and she won't hear it as she wants to jam a 3month hearing down my throat when i can't even do it in one year!

..This is no longer a case test of guilt vs innocence but a case that leads anyone who realized that the ajlsa and the former commissioners were in bed with enforcement to fix Dodd Frank cases .If the asumptions inhouse are defendant guilt at the outset than a pro see not defend himself as im not a trained lawyer and don't know how to eliminate the natural bias inhouse against the defendants!..

[the prior commissioners under Mary Joe White and the adjs with McGraths enterprise inter connected and consisting of the enforcement prosecutors" assigned to my case and the investigators" that took the Brady as John and Jane Does are all co-conspirator's and McGrath enterprise members !In addition since they work together and collaborate the strategic plan to the detriment of the defendants as extrajudicial contact is not permitted but ill bet a million on the fact that Judge Murray Judge Grimes and enforcement chief in my case had many of them outside my lawyers. They are all on the same team and they all believe that anything goes from subornation of perjury, perjury, theft of assets and defendants are all fair game. Well we are not. I can't defend myself, don't have the time in each day and [REDACTED] more than i can say by my neglect of her when i try to respond to the garbage sent my way.

The SEC enterprise and the McGrath enterprise sought to conceal it[the article 2 violations and just go on fixing cases before adjl violaters. They share in the guilt of permitting the adjs to pretend they were constitutionally appointed when they each knew it was a farce and that call into question who can we believe in.??only the federal district court.

I was offered \$75,000.00 in complete settlement when he [McGrath] knew I did not have it up front, he knew I was a felon up front and he knew the evidence I submitted in the vacate order disproves each and every allegation in the complaint and in fact demonstrates the falsity of the wells' and the complaint. The last 4years have intentionally inflicted emotional distress, and that intentional infliction of emotional distress can be seen in the moving papers. Its' part of the suffering I and Joan went thru and the trauma resulted in [REDACTED] as [REDACTED] has a lot to do with it. This case went caused severe damage to us! T

hat is the key reason that I'll not be judged by those persons who colluded and conspired to keep the truth under the table and hide the violations of the constitution by going thru the legal manipulation to give the impression that they were real honest to goodness Judges when in fact they defrauded us to believe that. I feel like I've been raped and now the rapist have been put in Judgement of me...The Supreme court did not exonerate them for their criminal activities as posing like a real article 2 appointed judge when they were In actuality inferior officers acting like they were superior officers and therefore independant tryers of fact..Its not consistent with the cure as anyone knows once a rapist gets away with it that more collusion, more conspiracy will surely follow victim I they are given the chance to do so. As a matter of fact the rapists must be advertised so that people don't let them get at their child! In this similarity this commission must rule on my motions im one of your children before this submission with respect to vacate, dismissal, stay judge Murray etc Give me the recourse stolen from me so i can hire an attorney to represent me as I can no longer handle [REDACTED], old, have more on my plate than anyone can imagine and based on that truth!

I ask this commission to right the wrong. I motioned for a stay of this case and pending the enforcement of the settlement pending the litigation fund return motion, I asked to refile or sign this fresh new case to the federal district court as this commissions own rules mandate all TRO motions for ill persons as its schedule is more flexible and offers the defendant a safe

haven for his case. As the time frame of the speedy hearing is rules not conducive of rules 360 and 300!. I was barred out of federal court on the day the complaint was issued and 4 hours before it was issued. I asked for a TRO for medical reasons! Its refusal was accomplished by an ex parte hearing wherein the SEC had omitted the mandate jurisdiction fact and used Dodd Frank to cover the first right to assigning venue and jurisdiction to the enforcement division . They hide the mandate from the federal judge and only showed her what they wanted leaving out the material information as judge is supposed to be furnished and McGrath carried it on down when his WELLS submission eliminated all the exculpatory evidence.

.Please read the lux deposition the Nwugugu admission he prepared the ppms' not I in his Chartis claim of 12/12/12!!! The adjls took the cases of defendants in house under false pretenses and were guilty of fraud perpetrated **against those they were to judge the defendants 'if they did it 5,000 times over the 10 years that the enterprise existed the inhouse adjls are guilty of being members of the SEC enterprise not the agency but those who enjoyed compensation for ruling against the defendants and for the Commissioners who initiated the complaint!** All the adjls' chose to act like they were not violators when they were. Every one of the 150 cases given by Judge Murray and each and every adjl that accepted them under false pretenses knowing the falsity of acting as a appointed judge according to the constitution that they violated represents a fraud against humanity and me They cannot rule against me with these outstanding complain[s]t to be filed if the case continues as its unjust to appoint a person[s]who defrauded me to know judge me as innocent don't you think?. Enforcement is in it up to its hips as they precipitated the perpetration of the fraud by appearing in each case they filed knowing that inhouse was fixed.1

What's the punishment when an officer[s] of the court **fixes cases** ie; about 5,000 over 10 years as predicate acts of the adjls and enforcement and the old commissioners" under MaryJoe White each litigation fund.. They and she knew by assigning cases and accepting cases and ruling on cases before an inferior judge was not only not kosher; but violates the criminal and civil laws under a RICO act. That they were violating our rights pretending that they were senior officers of the court instead of being inferior was already a treble damages case backed up b te Supreme court. e ! They defrauded all of us.

The Adjls were imposters of the court and on the payroll of the SEC with a fiduciary to find guilt where non might have existed. They were in essence hanging judges spitting on our form of judicial fairness. I can't stomach that fraud and the perpetrators of it by acting as if they were something they were not. They each should have not have accepted any case as a sign of justice and solidarity ! But they all accepted the fraud as a way of life. Only Judge Feolak tried to do the right thing and when i heard judge McEwen in the AG investigation of the SEC in his 8/15/15 letter to Commissioner Mary Joe White; to stand up for justice and be forced to resign because Judge Murray ordered her to increase her guilty judgements up to par with the other adjls and with Judge Murray not contravening her actions as reported by Judge Mcwen then I

knew that the inhouse scam is a ruse to find guilt where non exists by fake superior judges that were inferior judges and not empowered to find!

We are entitled to a fresh start will not be about getting one as the arch villain appointed herself to my case. She and the others are felons' They defrauded me of my rights by posturing themselves as independent article 2 appointed.! They now can no longer judge these cases as the cases are the baggage of the fraud they perpetrated against us.

I want federal district court. I want judge Murray to recuse ; but she refused and i want all adjls that participated in the fraud they collectively perpetrated en mass against us to recuse themselves this time if they have any self respect.

If they don't than explain to the supreme court why any inhouse defendant should dare believe that a thief forgiven wont steal again! ?'Why any adjl who wasn't punished for fraud should be put into the very position of good faith that they proved they violated to the disadvantage of the people they were supposed to give a straight shake to !!There is no way any defendant whose theft started with the adjls can ever believe that they will receive a fresh start or a fair shakes as wether its judge x or judge Y judge Y will side with judge x as judge Murry switched off the judges cases with the next judges cases so that all they need to do is state ..."hey

.."'ive got yours and you have mine so lets make sure we don't cross each of our prior rulings etc prior guilt finding and visa versa to ensure neither rules against the prior judges voided decisions"

.Other wise the same will happen to them !I am also very ill ,I cant stay as a pro see any the adjls ,old commissioners and enforcement persons know that if the do not respect my rights as a defendant that they will end up holding an empty bag!. The litigation fund was stolen by theft and fraud and deception of me. I cant defend myself. I will not kill myself and i think that any law firm that did not explain what happened to each defendant is also culpable .

I must spend every working hour in [REDACTED]. I do not have the time to spend and the stress associated with this case will [REDACTED] ! As if I attempt to defend this case with out an attorney I will [REDACTED]; as such attempt will lead to [REDACTED] and or [REDACTED].. This is a full time chore. So if the settlement is not enforced as it should be if the commission orders the transcript of the Judge Murray hearing on the scheduling which I opposed and motion that it be voided by this commission until the motions are heard. It should be changed subject to my to be assigned lawyers' discretion with the court. As its he who has to appear. And that is the reason i could not agree with the schedule. I asked for a year and she denied me and i asked she recuse herself and she denied me, I asked for litigation funds return and she denied me as I could not agree with as my lawyer was not in the meeting until I can retain it and that requires \$\$\$\$ I was defrauded out of! that the Agency force the employees to put it up! as they owe it to me.as does Judge Murray and the 4 enforcement crooks. !Kevin McGrath, Nicholas Kolondny,Barry O conell, leslie Kazon

If not it wont matter as i already know the collusion and conspiracy they and the enterprises they are a part of have again attempted to put the fraud behind them but they cant put it behind me.. I made settlement and I want this commission to enforce it as Judge Murray will not and come up with some kind of justification for an on the record settlement in which I gave Mc Grath what he wanted and he then threw 75 time my capability to ,as me as if there were not a meeting of the mind, when there was!

Then judge Murray denied my request for a new Wells report of the division to contain the exculpatory evidence the division had so i don't have to fight straw men consisting of allegations alleged from the lips of the investors who lied on their subscription and chap 11 declarations which I pointed out to Judge Gambreddela and her trustee and they found in my favor and against the WMMA investor and officers as I demonstrated the perjury and omission of fact. Indeed the judge was confronted by the same allegations as enforcement made here in the wells and judge Gambredela found that they were full of it.!

I realized the Presiding judges was the ring leader of the theft by her fraud and deception I knew the filth under the carpet of our SEC adjls and judge Murrays in particular! Judge Murray cant say she was article 2 complaint officer and adopt the power of that nor can the enforcement officers conceal the facts associated with Judge Murray scheme that they are not inferior officers when they were ! The facts that led to over 5,000 inhouse cases that risked and defrauded 6,000 defendants in house. The supreme court did not let them feign a position that violated the constitution and now im standing in between and not caving in nor do i have the strength to carry the ball myself. Judge Murray ,led a fraudulent inducement case[and she participated as well]. She was the leader and let its article 2 fraud be heard by the public opinion and adjl verdict of guilt! She can default me but i will not give a judge who defrauded me before remand ever judge me again. And since im too ill to defend I ask this commission to right the wrong.

.Little did the Supreme court know of my charges and if they did they would have agreed that non of the adjls that perpetrated a fraud by accepting a defendants case while they were inferior officers and under the commissioners Aegis can be hidden; the supreme court found in Lucia VS SEC that all of the adjls enterprise members that would implemented the very same fraud if they switched defendants to cover eachs' respective backs! However; if they chose a federal district court judge[s] to hear the tainted cases and appointed all new cases to the inhouse adjls than no conflict of interest could arise and at present it's the same old same old as to think adjjs committing the fraud they all committed that gave rise to Lucia would not happen again by the adjl group covering for one another as the adjls committed frauds' against the defendants!'

With Judge Murray as enterprise members leaders, they would have appointed the defendants to the federal court and those new cases to the Adjs rule! Simple and not potentially robbing the defendants of their innocence or guilt, as is judged by a federal district court judge! This removing them from even the taint of a conflict of interest as Judge Murry assigned herself to my case! Knowing I accused her of fraud before remand.. My accusation that judge Murray put Judge Grimes in my case when Judge Feolak granted a postponement and then he dissolved her postponement after her finding that if he did it be irreparably harmed played into Judge Murrays hand. At the adjs committed fraud on their own defendants' and by not refusing a case based on not involving them self in a conspiracy as inferior officers to fix the cases to the Commissioners complaints allegations' doomed all their respective 150 cases of fraud perpetrated against the defendants just as Judge Murray had not contravened former adjlillian Mc Ewens' declaration that judge Murray wanted her to find a larger percentage of defendants' guilty as the reason she resigned from the adjl conspiracy to defraud the Defendants' while they were inferior officers!.

Federal district court judge and the adjs can accept those defendants that would have gone to the federal district court judges. No harm can be done and a whole lot of litigation forestalled by herself a violator of article 2!..

All the enforcement personnel that participated in the fraud against defendants owe each of us treble in damages as they were and still are members' of an enterprise whose mission was the theft of justice and the theft of my time and the theft of my litigation fund by fraud and deception, by subornation of perjury and commission of perjury and coercion.

At this stage I request that the commissions hear my motions. [REDACTED] and ask that you stay Judge Murray, that you find a settlement was made after your request a transcript of the hearing. I request that The Wells letter be voided and that enforcement provide a fresh start Wells as the Wells submitted excluded all exculpatory information and if included there would be no complaint, Since the old wells was submitted to the old commissioners who were in bed with the adjs as they both violated the constitutions' appointments clause and as such were both on the same side. This commission is now controlled by President Trump appointees and This gives rise that the Old Wells was symptomatic of a disingenuous letter that the facts are contravened so to get at the RES its important that my attorneys start at the beginning as the old wells doesn't provide a fresh start and that you receive the fresh start at the beginning..

The other motions are documented in my 12/11 submission to you.

Respectfully
