Dear Mr Kolodney and Judge Murray;

I'm in receipt of your osc and must admit I did not receive any certified mail. As you know I'm trying ██████████ ██████████ ██████████ and I'm having reduced it by over 50% from every 20-30minutes to every hour. I received an additional ██████████ Dr. Puzino that will help more .I'm working on my response to Judge Murray and ask for an extension of time to respond by next Monday unless I'm within the time. I will ask UPS to mail this response to Judge Murray and email it to the others on the certificate of notice I did receive your witness list! Please identify Mr. Diamond & Guiliano as I have no memory of them. I will call all those on your list at the appropriate time and in the appropriate forum. My Declaration reply to the Wells letter does mention that the 2 bankruptcy cases in WMMA and in Chamco auto create a res adjudicate as I was found to have committed no wrong doing in WMMA and in Chamco. Judge Alpert found that the identical service contract used in WMMA & Chamcos was the template ruled on Dec. 29, 2011 that I committed no securities fraud and that finding predates the WMMA service contract as does the WMMA findings of the trustee!

respectfully

E.M. Daspin
