OFFICE OF THE SECRETARY

Judge Foelak,

I want to clear up a few things about the letter you received from the SEC. First of all I have had access to about 1% of the documents that are on the thumb drive that was sent not 50%. Secondly I still do not have access to any of the rest despite what they say. I will not have access until next Tuesday 5/24 at the earliest as the guard in charge is on vacation until then. Even then I am not sure he will have access to the new thumb drive they sent. Time will tell. Secondly in their letter I believe they state an unpublished case. When they do that they are required to attach the case. I have very limited access to any cases here that includes the Reinhart case. I can find it nowhere on any access we have. I need to have the cases in order to object to anything. The SEC will not send me the Reinhart case only tell me they referenced the case in their brief. That is not much help to me here. It is a real problem when we have restricted access to anything that we need to fight on our behalf here. I ask for your patience in my research as I am really restricted on my ability to research both the SEC files and the cases that I need to file a meaningful response.

Thanking you in advance,

Randy Hansen
