**Brief to Reenter Evidence in to the Review of the by the  
Judge**

In the matter Of  
**Black Diamond Asset  
Management, LLC and Robert  
Wilson**

The following evidence has been submitted to the Commission on four different occasions. The first time was the Commission original request for Documents in May of 2016. The second was the Commission request for additional information in June of 2016 and the third during a sit-down meeting with in September of 2016. The fourth time was in my responses to the Commission proposed sanction. The Commission deposed of the evidence the first three times I gave it to them, now the fourth has been placed on record. I suggest that the Judge or his staff read the whole document but below I am listing key exhibits that show all the Commission charges are false and their statement about the good of the public being suspended for life must have been about them.

1. Exhibit 2: This is the contract with HLH Holding International. Which clearly states that the contract is for consulting and asset management, it lays out my compensation, and how that will be paid, it states my responsibilities. The document starts on page 14. This document kills the Commission charge of having no accounts and no assets under management, on page 57 it shows the value of the asset that are to be managed based on their Offering price to be \$556,473,400.00;
2. Exhibit 5: Shows accounts were open for my clients at BMA Securities for the depositing of the securities of Momentous Entertainment Group (MMEG). The emails from BMA shows open accounts and those still waiting to be open. BMA had told us that to deposit the Momentous stock the fee would be \$250 for each account and then when they approved that fee went up as high as \$2,000. I saw that as bait and switch, so I supported my clients by trying to force BMA to stick to the price they first gave us, but when I ask the Commission and FINRA for help I got none. Who is the biggest danger to the public Ms. Preethi, looks like the Advisor fought for his client and the people at the agencies who are paid to protect the public sat on their butt and did nothing. To back up the emails I have seven notarized letters (see pages 27-35) from the customer backing up the fact they were clients I fought for;

The documented evidence in Exhibit 2 and Exhibit 5 show that the commission charges are false and the fact that the Commission was given these documents and must be hiding them from the Courts show obstruction of Justices and malaises prosecution for a fraud that only existed on the accuser side. Sounds a lot like the IRS and FBI to me.
