I do not know what a brief is. My apologies your honor. What I can say is that I am no threat to the public. I beg for my rights to stay intact. I am in custody now appealing my conviction. Words I never thought I would say in my lifetime I was blessed to receive a pen and paper to write to you today instead of pencil.

Your honor I have never sold stocks, I really have no knowledge of how it all works. I am in this situation because I trusted my family. They all had records they have used my name 2x's and 2x B it went bad - the last one ending up in federal prison. I have lost so much, I am in a perpetual state of loss and misery. I have been degraded to the point I don't ever see myself anymore. I am existing I have been stripped to nothing but the skin over my bones - I beg you enough. Please I have to live with this the rest of my life, please do not ban me for life and add that to my utter shame. When is enough enough? I have nothing left, nothing left to give. I feel this ban is overkill. I am serving a 79 month sentence in jail with and completely unstable individuals. My final please enough; what is this serving in the

~~IBY~~
interest of the public? I am a threat to no one

My message my point, is I am paying the
ultimate price, the Government has taken
their pound of flesh - please leave me be
I beg you

I have no idea on how to prepare
a brief. I mean no disrespect in responding like
this. I have a twenty four month sentence,
three years probation, I am NEVER going to
go into business with my family, or allow
them to use my name again. What danger
am I? I am going to still try to be a
mom. The risk is so incredibly high, but
I have to try.

My life and my name is already
destroyed - please do more

God Bless you,

Angela Menace
