

To the SEC,

Since this allegations stated by Marv Capital started in the winter 2016 I have lost commissions , customers and the last six months the use of my Securities Industry License . It was stated by Marv and FINRA I never reimbursed Marv Capital for ANY of the deals that AGREED to take part in . They were not only reimbursed, they made profits on at least seven or eight deals .Some were in cash , some were on bank transfers and they are still sitting on a half year of my municipal commissions which had nothing to do with our deals outside of municipals . They alleged I bounced checks to them meaning Marv Capital . Not the case ,, I met with Maneesh at the Afginia hotel on [7 th ave](#) between 30 st and 31 st a week or so before I resigned (they stated I was fired on their initial U5) and said to him if they paid my commissions which were owed to me for February, March , April , May , June and July of 2016 I would reimburse them for the outstanding money for a deal which would take place in September 2016 . Maneesh stated it was not a problem with him but it his partner Viru who was “trying to prove you wrong .” The people FINRA brought in to testify against outside of Marv never told all the facts . Jim Mccue had two checks still in his possession because he was paid cash for the interest payments . Joe Giuliani made up some story about me owing him money , completely fabricated . I lost money on him , just look at his muni commissions over the years . [REDACTED] . There were warrants out for his arrest . He owed me \$ when he passed away but he actually fooled the Finra examiner when meeting with her with his witt and charm . Sad . Brian Lawless took out a loan to support a secret family and when his wife found out blamed it on me . The three CUSTOMERS Bob Postma , Terry Ogrady and Gerry McNamara were all reinbursed in full but they were never asked to testify . Same with other friends . My point is there are many people who would be willing to tell the FULL story but instead finra people brought in people to create something that didn't really happen . My ability to broker munis and the trust my actual MUNICIPAL customers have in me is evident in the commissions I have earned over the years . During these years of allegations , I have lost my spiritual director Msgr Tom Hartmann, friend and customer Tom Healy , close friend in Jack Balla, business partner Bob Russell , AA sponsor Ed Brady , my dad Raymond Clarke and my son Michael Clarke . Working as a broker is what i have done for many years and all the relationships I have made over the years have gotten me thru the passing of people . Every night my prayers are of thanks and also ask those to see the full facts . There are many people willing to testify on my behalf. Included are the court documents of me suing Raparthi for my commissions and the claim is still alive and going to trial unless an agreement is reached . Also , the decision and order also shows that the court has NOT thrown out my defense that the Raparthi “loans” were usurious.

Thank you

Michael J Clarke
