

BEFORE THE SECURITIES AND EXCHANGE COMMISSION WASHINGTON, DC

Adam Strege Response to File No. 3-21253 For Review of Action Taken by
Financial Industry Regulatory Authority March 13, 2023 FINRA indicated that
Adam email posed a risk of Harm, and an almost identical email was given to the
DC Supreme Court in 2022 twice remanded Adam case to the lower Court that
Adam only means of Relief is God collapse the Atmosphere to exterminate all
Earth people with the Corona Virus God loves us 100%

Adam has two open Court Cases in the 1st Circuit Court and Work Comp Court
Appeals reopened from MN Supreme Court February 2023 all 3 Courts in 2023
where given the same attached email and they did not find the email threatening
and all 3 courts appointed people to help Adam and Defendants are making their
very first appearance at the 1st Cir Appellate court level a good indication that
Adam is going to get Jurisdiction in the First Circuit court Adam could possibly
amend the Complaint to Sue the SEC and FINRA Director conspire to Murder
people to rob their Brokerage Accounts is an act of furtherance in a conspiracy so
the Entire email is applicable that FINRA and SEC are acting without Jurisdiction.

Adam email involves the Murder of 5 Congressman its deliberate indifference
FINRA and SEC employes disregard the Murder of 5 Congressman violates 42 U.S.
Code § 1983 - FINRA and Sec conspire to deprive Adam Strege of his
constitutional rights.

FINRA and the SEC both enforce a lot of laws and do nothing to help disabled
people have no computer assistance with Max Loss risk settings and Risk Control
while the Rich People make 70% all overall trades made buy computers.

TD Ameritrade can rob anyone's Brokerage account and TD Lawyers will say its
imposable to comprehend because all people have zero rights in Court is exactly
like FINRA denial of Forum with zero explanation FINRA 100% only write the law
number down

TD Ameritrade owner Bank of America had \$25 fraud on Adam bank accounts, so
Adam closed all his accounts and BOA sent all Adam new bank cards to Heroin
dealers address so Adam did another fraud assessment at BOA sent more Bank
cards to the Heroin dealers address there was nothing Adam could do to stop
BOA sending his bank cards to Heroin dealers so BOA robed \$25,000 dollars from
Adam because BOA Lawyers say its imposable to Comprehend

Estimated 98% of people lose money trading and 85% people, quite trading and if Brokers had max loss settings and no afterhours trading then People could always use a stop loss so there would be 98% less risk of Losing there money then there might be 50% more money in the Stock market and imagine all companies where worth 50% more money

Adam Strege never received the March 9, 2023, declaration of Richard Berry, Director of FINRA's Dispute Resolution Services so it should not be allowed in the Record unless Adam is provided a copy

The FINRA Denial of Forum is from Maria A. Ortiz and does not have the director signature on the Denial means that the Director did not deny the Forum

Attached Copy Adam sent 30 million emails to people that the Stock Market Owners and affiliated companies are murdering people to put their Human hearts in Hamburger and Human Body parts in nuclear fuel and the 100% only issue should be that 30 million emails were sent to People so it's all related and necessary to Provide a copy of the email or Adam could write 100% only things about FINRA, TD Ameritrade and Bank Of America.
