EDGX Exchange, Inc.

CHAPTER XIII. MISCELLANEOUS PROVISIONS

Rules 13.1 - 13.8 (No change)

Rule 13.9 Edge Routed Liquidity Report

The Edge Routed Liquidity Report is a data feed that contains historical order information for listed securities routed to away destinations by EDGX, including: limit price, routed quantity, symbol, side (bid/offer), time of routing, and the National Best Bid and Offer (NBBO) at the time of routing. The Edge Routed Liquidity Report is available as either a standard report or a premium report. Both reports will provide a data feed containing historical order information of all marketable orders that are routed to away destinations by EDGX. The premium report will also identify whether the order is routed to another exchange or to a non-exchange destination. If the order is routed to a non-exchange destination, the premium report will categorize the routing strategy based on the responsiveness of the non-exchange destination, the number of destinations, and/or the type of liquidity sought. These categories include: Regular, Fast, Superfast or Midpoint. Members will have the ability to request, on a market participant identifier basis (MPID), and in a form prescribed by the Exchange, that their routed orders will not be included in the Edge Routed Liquidity Report.
