Definitions:

- Average Daily Volume (“ADV”) is defined as the average daily volume of shares that a Member executed on, or routed by, the Exchange for the month in which the fees are calculated. ADV is calculated on a monthly basis, excluding shares on any day that the Exchange’s system experiences a disruption that lasts for more than 60 minutes during Regular Trading Hours (“Exchange System Disruption”) and on the last Friday in June

(the “Russell Reconstitution Day”). [Routed shares are not included in ADV calculation.]

With prior notice to the Exchange, a Member may aggregate ADV with other Members that control, are controlled by, or are under common control with such Member (as evidenced on such Member’s Form BD).
