

EXHIBIT B-1A

GUY ROWCLIFFE

Director

Guy is an experienced CEO with strong financial markets background and over 30 years of experience in trading side, brokerage and vendor solutions, having delivered multi-year very high margin profitability in challenging environments. He has strong business development experience from start-up to trade sale as well as restructuring and turnaround.

As well as his roles with TriOptima, Guy has been since 2021 the Co-CEO and Chief Commercial Officer of OSTTRA Group. As Co-CEO he has joint responsibility for setting and executing business, performance and growth strategies. As Chief Commercial Officer he leads all OSTTRA business lines and Sales teams across the full product portfolio (Rates & Credit / FX & Securities / Optimisation). This entails leadership and managerial responsibility for over 1200 staff globally.

Prior to his role as Co-CEO of OSTTRA Group, Guy was from 2019 to 2021 the Global Head of Optimisation Services for CME Group, with full commercial responsibility for the multiple business lines within CME Group's post trade services.

JOHN STEWART

Director

John has 30 years of strong experience in the financial markets, with roles in institutional and investment banking, including Global Head of Investment Banking Operations, Chief Data Officer, UK Group COO and Head of Transformation at UBS. Prior to this, John worked at J. P. Morgan in London and New York for over 10 years in operations and technology roles in derivatives and securities.

As well as his role as Chairperson and Board Member of TriOptima, John has since 2021 been Co-CEO and Chief Operating Officer of OSTTRA Group. As Co-CEO, John has joint responsibility for setting and executing business, performance and growth strategies. As Chief Operating Officer, John leads the Technology, Operations, Finance, Strategy, HR and Legal & Compliance functions throughout the Group.

From 2016 to 2021, John held senior roles with IHS Markit with responsibility for product development, commercial strategy and partnerships.

Kirston Winters

Director

Kirston has 22 years experience in the financial services industry; 5 years for a G10 bank in derivative operations and business change management and 17 years developing solutions and services for the derivatives industry at market infrastructures and service providers. He has broad expertise in derivative products and the post trade processes. He has extensive knowledge of the derivative and securities regulations globally including Dodd-Frank (CFTC/SEC), EMIR and MiFIR/MiFID (UK/EU) regulations and many other G20 regimes that were introduced/enhanced following the G20 commitments that were made in response to the financial crisis. Kirston sits on the FCA SMAC, CFTC GMAC group on Technical issues, the EC DEG, and the ESMA MSC CWG SMWG among others.

As the Chief Risk Officer of OSTTRA Group, Kirston is responsible for leadership and oversight of the groups legal, risk and compliance functions as well as the group's engagement with the global regulatory community on policy considerations relating to market reform.

Kirston joined Markit Group as the director of product management in 2009. Prior to this, Kirston was Director of Business Development at DTCC, and earlier in his career he also held various roles in OTC derivatives at Barclays Capital. Kirston holds a BSc in Economics from the University of Manchester.

Michelle Hallett

OSTTRA Head of Compliance

Michelle has over 20 years financial services experience across regulation, compliance and policy and has gained a deep knowledge of the market. Her roles have focused on clearing houses, markets, risk reduction and regulatory reporting services, commodities and fixed income and operational risk. Highlights of her career include achieving the first ever EMIR license as Chief Compliance Officer of Nasdaq Clearing in Stockholm and her roles as the lead supervisor of both the LME and LCH while at the UK regulator, FCA.

Michelle has been the OSTTRA Head of Compliance since 2021 where her role covers regulatory and corporate compliance, AML and anti-financial crime, data, as well as membership of or representation on management committees and Boards.

Michelle was previously the Head of Compliance Optimisation at CME Group from November 2018 where she oversaw seven post trade entities within the old NEX Group including ESMA regulated trade repositories, FCA regulated APA and ARM, plus a benchmark administrator, a Swedish FSA regulated compression service and other post trade optimisation services.

Michelle worked at the UK FCA for 10 years across a number of roles including financial crime and supervision.

Joanna Davies*Head of Trade Processing Division*

Joanna is motivated and enthusiastic, with a natural talent and passion for strategising and executing innovative solutions to complex challenges and problems. She is skilled in understanding and managing critical risks, and improving business processes and design. Joanna is able to scrutinise core issues and devise creative and realistic solutions, while stimulating buy-in and support from key stakeholders.

In 2021 she became the Head of FX and Securities for OSTTRA Group, and in 2024 this role was expanded and she became Head of Trade Processing at OSTTRA. This involves responsibility for the development and implementation of the strategy and direction of all trade processing business lines, including MarkitWire and TradeServ, as well as the implementation.

From 2019 to 2021, Joanna was the CEO of Traiana, Inc. (which continues as one of the businesses within OSTTRA Group). This role involved responsibility for strategic direction and day-to-day management of trade processing, credit services and trade lifecycle.

James McLoughlin*Head of the Trade Lifecycle Division*

James is a results-oriented transformation executive with over 29 years of diverse financial services experience serving in senior-level account management and commercial business development strategic roles for large financial firms, including JPM Chase, Citibank, DTCC, IHS Markit and OSTTRA. He has a proven ability to lead extensive client-facing initiatives to drive dramatic improvements in revenues, profits, and operational efficiency

As the Head of the Trade lifecycle division at OSTTRA since January 2024, James is responsible for portfolio reconciliation, initial margin analytics, collateral management, XVA calculations, cashflow management and PvP settlement orchestration.

James has been with MarkitServ since September 2009 where he was the Global Head of Credit Derivative Business Development up till 2016. He was the Global Head of Account Management and operations up till 2021 where he took up a role as Head of the Post Trade Processing Division.

Prior to joining MarkitServ, he held roles at JPM Chase, Citibank and DTCC.

Guy Gurden

Head of Rates and Credit Product Design for the Trade Processing Division

Guy has responsibility over a team which is responsible for developing the commercial strategy into tangible buildable solutions for the Rates and Credit Derivatives Trade Processing aspects of OSTTRA's Trade Processing Division. This includes service proposition evolution, design and conceptualization, market research, business case execution and the delivery of business requirements into the Product Management function who manage the development and evolution of OSTTRA's products and services. Key OSTTRA Trade Processing platforms this covers include MarkitWire, TradeServ and OSTTRA Trade Manager (OTM).

Prior to the formation of OSTTRA, Mr. Gurden held various product management roles within IHS Markit and MarkitServ including co-Head of Product Management. He joined Markit (later IHS Markit) as part of their acquisition of SwapsWire where he had served as SwapsWire's product development manager since launch.

Before joining SwapsWire, he worked at J.P. Morgan in their Rates Technology group where his focus was on development of risk management and processing systems supporting interest rate derivatives.

Melissa Younger

Head of Rates and Credit Trade Processing at OSTTRA

Melissa has many years' experience in delivering strategic change in the financial services industry, in OTC derivatives post trade, regulatory reporting and clearing.

As the Head of Rates and Credit Trade Processing, she is responsible for OSTTRA's Cross-Asset Platforms: MarkitWire, TradeServ, Trade Manager, DMS and related data solutions, as well as Services and Initiatives including Clearing, CCP Sync, Venues and Regulatory Reporting.

Melissa joined MarkitServ in February 2012 and has held multiple roles during the company's transition to OSTTRA.
