

MarkitServ Ltd

Application for exemption from registration as a clearing agency (Form CA-1)

EXHIBIT C

EXHIBIT C (REVISED)

Exhibit Request:

Attach as Exhibit C narrative and graphic descriptions of registrant's organizational structure. If clearing agency activities are conducted primarily by a division, subdivision, or other segregable entity within the registrant corporation or organization, identify the relationship of such entity to the registrant's overall organizational structure and limit the descriptions to the division, subdivision or other segregable entity which performs clearing agency activities.

Response:

Attached as Exhibit C-1 is an organisational structure chart for the MarkitServ business.

The MarkitServ service that could constitute clearing agency activities is limited to the post-trade processing and reconciliation service MarkitWire, which is organisationally located within the Trade Processing Division. The Trade Processing Division is headed by Joanna Davies. The organisation and management of the relevant activities are shown in **green** on the structure chart.

It can also be noted that the use of any clearing activities is further limited to only certain asset classes in the MarkitWire service and thus represents a small proportion of the overall service offerings. Please see Exhibits J and S-1 for fuller service description of MarkitWire.
