Rule 6.13. Complex Orders

Trading of complex orders is subject to all other Rules applicable to trading of orders, unless otherwise provided in this Rule 6.13.

(a) No change.

(b) *Types of Complex Orders.* The Exchange determines which Times-in-Force of Day, GTC, GTD, IOC, or OPG are available for complex orders (including for eligibility to enter the COB and initiate a COA). The Exchange determines which Capacities (*i.e.*, non-broker-dealer customers, broker-dealers that are not Market-Makers on an options exchange, or Market-Makers on an options exchange) are eligible for entry onto the COB. Complex orders are Book Only or Post Only and may be market or limit orders. Users may designate complex orders as Attributable or Non-Attributable. The System also accepts the following instructions for complex orders:

(1) No change.

(2) *COA-Eligible and Do-Not-COA Orders.* Upon receipt of an IOC complex order, the System does not initiate a COA unless a User marked the order to initiate a COA, in which case the System cancels any unexecuted portion at the end of the COA. Upon receipt of a Post Only complex order with any Time-in-Force, the System does not initiate a COA, and if a User marks the Post Only complex order to initiate a COA, the System cancels the order. Upon receipt of a complex order with any other Time-in-Force (except OPG), the System initiates a COA unless a User marked the order to not initiate a COA. Buy (sell) complex orders with User instructions to (or which default to) initiate a COA that are priced higher (lower) than the SBB (SBO) and higher (lower) than the price of complex orders resting at the top of the COB are “COA-eligible orders,” while buy (sell) complex orders with User instructions not to (or which default to not) initiate a COA, that are marked Post Only, or that are priced equal to or lower (higher) than the SBB (SBO) or equal to or lower (higher) than the price of complex orders resting at the top of the COB are “do-not-COA orders.”

(3) No change.

(c) – (f) No change.

(g) *Legging Restrictions.* A complex order may execute against orders and quotes in the Simple Book pursuant to subparagraphs (d)(5)(A)(i) and (e)(1) if it can execute in full or in a permissible ratio and if it has no more than a maximum number of legs (which the Exchange determines on a class-by-class basis and may be two, three or four) (“Legging”), subject to the following restrictions:

(1) – (3) No change.

(4) Post Only complex orders may not Leg into the Simple Book.

(h) *Additional Complex Order Handling.* Processing and execution of complex orders pursuant to this Rule 6.13 (including pursuant to paragraphs (d) and (e), and following evaluation pursuant to paragraph (i)) are subject to the following:

(1) – (2) No change.

(3) The System cancels or rejects a Post Only complex order if it locks or crosses a resting complex order in the COB or the then-current opposite side SBBO.

(i) – (k) No change.
